BICYCLE RACE VICTORIA DAY

DEALERS OFFER SILVER CUP FOR TWO-MILE SPECIAL.

The bicycle dealers in the city have put up a silver cup for a bicycle race between the five dealers in the city. Each of the five starters will represent the different makes of machines represented by the dealers. This race will be run alone with the other events of the G.W.V.A. on Victoria Day and provides some excitement.

Boys, Take Notice.

The bicycl dealers will take entries for any of the racing events for Saturday, May 24th, and for any other event. Don't fail to enter your name as there are good prizes offered.

The Chicago fans are said to have been riding Leslie Mann pretty hard, just why is not clear, unless it was that his holding out tactics were advertised too much.

DEMPSEY BEGINS HIS TRAINING

TEN MILE RUN TAKEN BY WAY OF PREPARATION FOR GRIND.

Toledo, Ohio, May 19.—Muffled to the ears in a heavy sweater, Jack Dempsey, challenger for the world's heavyweight championship was up for the first road work of his training grind for his championship battle with Jess Willard here July 4. Accompanied by Jack Kearns, his manager, and two or three friends who were in an automobile, Dempsey covered ten miles in the direction of the battle ground site in the Bayview Park district. The object of the jaunt was to keep the challenger from growing stale through inactivity, until he can locate a place for his training camp.

Dempsey plans to establish quarters today on the shores of Maumee Bay about three miles from the site of the arena. He will do his boxing and gymnasium work out of doors, inasmuch as the championship battle is to be fought in the open. The public will be charged for the privilege of watching him go through his training paces.

Tex Rickard, promoter of the contest, announced that the $60 seats would be placed on sale today. This is the first definite announcement on the opening of the advance sale. The least priced seats will be placed on sale within a week or ten days it was said. A large force of clerks are busy checking up the seats and corresponding numbers on the seating plan for the arena.

BASEBALL SEASON FOR 1919 WAS OFFICIALLY OPENED

Orientals Shut Out Veterans and Matthews-Blackwell Trim the De Laval Nine.

The baseball season was officially opened Saturday afternoon at Riverside Park, when a double-header was played, the G. W. V. A. and Orientals and Matthews-Blackwell and De Laval being the opposing teams. In the first session the Orientals had it on the soldiers and won by a score of six to nothing. In the second game the teams were a little better matched and Matthews-Blackwell won by nine to five.

Although the weather was cold with rain threatening, quite a crowd of fans gathered in the Riverside ball yard for the opening of the baseball season. Mayor Duncan in a few well chosen remarks welcomed the crowd and assured all of seeing nothing but good, clean sport. Some of the best players in the city were on the grounds, declared the mayor, and the games were sure to be keenly contested. He had the honor of pitching the first ball.

The G. W. V. A. band headed the parade to the park, and also played several selections during the afternoon.

The batteries were as follows:

G. W. V. A.—Wade, Carney and LeBarr.

Orientals—Kirn and Soden.

Matthews-Blackwell—Staples and Lefaye.

De Laval—Prest and Burgoyne.

Alex. Kay umpired both games and gave good satisfaction.

HANDICAPS FOR LOCAL GOLFERS

The Handicap Committee of the Peterborough Golf and Country Club have found it necessary to adopt the Galkins' system of handicapping to conform with the procedure adopted by the other Ontario golf clubs. A score of 66 has been established as par for the Peterborough course (18 holes).

The following handicaps indicate the strokes above par which is the opinion of this committee are required to complete the course.

It has unfortunately been the experience of the Handicapping Committee in the past that players have not turned in score cards for the guidance of the committee. It would greatly facilitate the work of the handicappers if the members would make a point of doing this in the future. Keep your sores—hand to a member of the Handicapping Committee the three best and your handicap will be revised if necessary according to above system:

Sporting Gossip

Tom De Noville, the Jersey City first baseman, was formerly with Toronto.

The Boston Braves have returned Pitcher Lefty George to the Columbus American Association club.

Zeb Terry, getting his chance in the Pittsburg infield through the illness of Buster Catou, has been playing mighty fine ball. Catou may be better, in the opinion of some critics, but there are many who will dispute it.

Ollie O'Mara, released by Brooklyn to Indianapolis, refused to join the club to which he was assigned. He declared that if he had to go to the minors he would pick his own assignment and that he preferred Milwaukee.

Hank Gowdy, out of the khaki uniform and at his home in Columbus, says he means to take his time about getting in shape to join the Braves. He wants to be sure he's fit before he starts baseball all over.

Though it was said that Sunday double-headers would be discouraged this season, the Reds and Pirates already have scheduled one for the first Sunday in June, to take care of a postponed game in Cincinnati.

A left-hander can't hit a southpaw—not at all. Casey Stengel got only four hits, one a triple, against the mightiest boy in the National loop, Jim Vaughan, the other day. The old idea is spiked once in a while, anyway.

In one of the White Sox-Tigers games at Detroit last week a fan rode Ty Cobb a bit. Whereupon Cobb confided to a newspaper man: "I ought to get out of this business and get into something in which I won't be insulted and where I can hit back."

Paul Meloan, outfielder of the Wichita team, is in a hospital at Wichita, Kan., in a serious condition as a result of being hit in the head by a pitched ball. Fearing he may not be able to play again, the Wichita club has purchased Outfielder Joe Wilhoit from Seattle.

Secretary Farrell, in a bulletin just issued, announces that the Eastern League has qualified for rating as Class A., the school census of the eight cites represented in the circuit showing a combined population of 1,120,890. The New England and Three-I Leagues have been given Class B rating.

Danny Murphy, veteran infielder, who has manager New Haven for several years, could not agree with the owners of the club for this year, and Jack (Chief) Meyers, who has been with Buffalo since getting out of the big show, has been engaged. Murphy, it is reported, will manage the Hartford team.

MAYOR OF TOLEDO EXTOLS BIGBOUT

Toledo, O., May 19.—Protest against the Jess Willard-Jack Dempsey heavyweight championship fight scheduled to be decided at Bayview Park, a municipal owned plot of ground, here July 4, is expected to be in the hands of Gov. Cox of Ohio and Sheriff James F. Mathias. These officials, together with Mayor Schreiber of Toledo were requested by the Toledo Ministerial Union, an organization of two hundred and fifty churches, to prohibit the contest.

The protest, mailed to the State officials and Mayor Schreiber characterized the coming battle as a "gladiatorial contest worthy of the Roman arena of infamous memory," declared that it would teach youth "to see red" and would result in an invasion of gamblers and thieves to Toledo.

The protest also declared that although the Government sanctioned boxing as a war measure, the Government also endeavored bayonet fighting; but the same Government would not encourage bayonet fighting in peace times.

Mayor Schreiber's answer to the protest was a statement that the Government had made boxing part of the curriculum in the army and navy and that the battle would bring thousands of visitors to Toledo who will expend hundreds of thousands of dollars. The contest, the Mayor's statement added, would stimulate Toledo's business, provide employment to labor, bring the advantages of Toledo, natural and industrial, to notice in every section of the country and result in enriching the city's charity fund by approximately $35,000. Seven per cent. of the gross receipts of the contest are to be donated by Tex Rickard, the promoter, to the fund.

BADE FAREWELL TO MR. C. C. PARSOMS

SUPERINTENDENT OF GEORGE ST. SUNDAY SCHOOL PRESENTED WITH ADDRESS.

Mr. C. C. Parsons, who has been accountant at the Bank of Commerce for the past four years and who is leaving to take the position of manager of the new branch to be opened at Whitby, has been active in every branch of the work in St. George's Church during his stay in the city. He was a member of the choir and the esteemed superintendent of the Sunday School, At the conclusion of the session yesterday afternoon Mr. Parsons was presented with an illuminated address, of which the following is a copy;

Dear Mr. Parsons:—

The George Street Methodist Sunday School has learned with very deep regret that you are about to leave Peterborough.

You have given very valuable and highly appreciated services to the school, first as a teacher and for over two years in the important and responsible position of Superintendent. Your capable oversight of the organization of the school and direction of its work is largely responsible for the success that it has achieved, and we know that you have given much time, thought and work to advance the interests of the School and to bring it up and keep it up to the standard that it has attained.

We are pleased that you have been advanced to a more important position in the large financial institution in whose service you are, and we wish to congratulate you on this recognition of your abilities and zeal in your chosen avocation. At the same time we are sorry that this promotion necessitates your removal from Peterborough, because we have learned not only to appreciate you as an officer in the School and a worker in the Church, but to regard you as a highly esteemed friend. We also regret the coming removal from Peterborough of Mrs. Parsons, who has given valuable service to the school while in charge of the Beginners' Department.

We desire to wish you and Mrs. Parsons all success and happiness in the future and our prayer is that the Master whom you serve so well will continue to bless you abundantly.

Signed on behalf of the school.

REV. A. J. THOMAS, Pastor
J. E. MIDDLETON.
GEO. ROBERTSON, As. Supt.
JNO. MAYNARD, Sec'y.

The address was read by Mr. Maynard, the secretary of the Sunday School and Mr. Parsons made a suitable reply.

SIX NEW ELDERS FOR ST. PAUL'S

ORDAINED YESTERDAY IN ACCORDANCE WITH SOLEMN CHURCH RULES.

At the morning service in St. Paul's Church yesterday the following were ordained as members of the session with the beautiful ceremony used on such occasion:—Messrs. Frank Ellis Will S. Hill, William Knock, Bert Lockington, Herbert Middleton and Robert Stuart.

Rev. R. Pogue preached a sermon in keeping with the occasion, calling attention to the democratic system of government under which the Presbyterian church operates and quoting the sumphional authority for the appointment of elders. Relegating the affairs of a church to a few chosen members does not establish an antimony. Every elder must be a member of the congregation in good standing and the entire session is elected by a vote of those who are on the membership roll of the church.

PARADE TONIGHT

The Great War Veterans and returned soldiers are requested to parade at the Armoury in uniform at 7.30 p.m. sharp.

An Elizabeth, N. J. conductorette who was polite to an old man inherited $6,000 under his will.

Mrs. Katherine Willing, 51, and mother of 21 children, 18 living, died at Flint, Mich.

PETERBORO GIRL WINS DISTINCTION

TYPED 639 WORDS IN 10 MINUTES WITHOUT A SINGLE ERROR.

Miss Ada Davis, 592 Sherbrooke street, this city, a student at the Peterborough Business College night school, has made a remarkable record on the Underwood Typewriter machine. In ten minutes she typed 639 words without a single error of any description. Just think of it! Taking an average of five letters to a word this nimble typist struck 3,160 keys, not counting the spacing, and punctuation in 600 seconds, and produced a piece of copy free from any correcting blemish. But this speedy and accurate operator is even faster than shown in the above, if allowed the minor errors many capable typewriters fall into. For instance the night previous to that on which the above test was made she typed 829 words in 10 minutes with but 11 minor errors.

In making the above record Miss Davis is awarded a handsome illuminated certificate by the Underwood Typewriter Co. This certificate testifies to Miss Davis' competency and names her a member of the Order of Accurate Typists.

To those unacquainted with the possibilities of a typewriter as to speed, it will be of interest to note that at one time Rose L. Fritz held the championship of the world with 81 words a minute—810 words in ten minutes.

This record by Miss Davis reflects credit not only upon herself, but also on the Peterborough Business College in which she acquired her proficiency. Mr. J. A. McKone, the principal, is pardonably proud of the efficiency of his college as a business training school, and of the large number of graduates he has placed in good positions. And Miss Davis is simply one of many of his students who have made remarkable records in the several courses of instruction here available. The Peterborough Business College, in the Dominion Bank Building, corner of George and Simcoe streets, is one of the leading training institutions in Canada.

New Ford Starter Now Installed

CALL AT THE DUFFUS GARAGE AND SEE THIS STARTER DEMONSTRATED.

Duffus Garage, cor Water and Charlotte streets, Peterborough, has received from the Ford Motor Company one of the new Ford starters installed in a new Ford touring car and we especially invite all those interested to call and have this new addition to the Ford car demonstrated to them.

This starter is manufacured by the Ford Motor Company and built into the Ford car. It turns the motor over at the rate of 440 revolutions per minute, and will do this continuously for ten minutes.

The equipment includes combination electric headlamps with dimmers, electric tail and side lamps and instrument board.

One feature of the equipment to be considered is that the engine runs on its own magneto. Therefore the work of the battery consists of driving the starting motor only, which is extremely easy on the battery and enables it to furnish exceptionally bright light.

GEORGE STREET CHURCH

Monday, 7 p.m.—Teacher Training class withdrawn.

8 p.m.—Epworth League —evening with the flowers.

Tuesday 8 p.m.- Meeting of the Quarterly Official Board in Church Parlor.

Wednesday, 8 p.m.— Prayer and Bible Study.

9 p.m.—Meeting of the Sunday School Board og George street and Grace Sunday Schools.

Tuesday, 3.30 p.m.—A meeting of the W.M.S. and Ladies' Aid will be held at the home of Miss E. Morrow, 484 Weller street. Address by Mrs. (Dr.) F. C. Meale. Solos by Mrs. King and Mrs. Park.

Wednesday, 8 p.m.—Week service. Pastor's theme. "Our Lord's Last Appearance After His Resurrection."

Wednesday, 9 p.m.—Teacher Training Class.

Friday, 7.30—Meeting of the Royal Knights of Trinity. Address by Mr. Turner.

BRIDGE TENDER DEADLOCK

(Pator Familias)

The situation in the Board of Works, on which every member of the City Council sits and votes, in regard to the new bridge is this: Four Aldermen are holding out for Contractor Conroy in the hope of winning over to their side two more of their colleagues, while six aldermen so far cannot see their way clear to letting the contract go that way. And these six anti-Conroy Aldermen split on the other tenders before the Board, and the Conroy men plump against any motion for any proposition that does not spell C O N R O Y. Were the six aldermen to agree on either the tender from the Russell-Townsend Co. or that of the Canadian Engineering and Construction Co., the deadlock would be broken. But indications point to the minority form sticking.

It should be threatened injunction and talk of personal liability in case the bridge costs more than the money assured for that purpose has given the Aldermen cold feet. And Friday night one plainly hinted that such was the cause of his switching in favor of Convoy's lump sum bid.

As to a fixed cost for the work, and a cost plus basis, can there be any surety of the ultimate figures keeping within what the Aldermen consider safe bounds? Arguments can be used for and against both principles where large expenditures of monies are concerned. The re-building of the Parliament buildings at Ottawa has exceeded the cost plus estimate by a couple of millions, but the City Hall, Toronto, built under contract also exceeded a fixed cost by a large amount and collectable at that. In the case of our PROPOSED new bridge—a $251,000 piece of work according to Mr. Conroy's figures—can any alderman feel safe in gambling that nothing will crop up where the vagaries of a river's bed are to be taken into consideration, to increase the cast?

One thing is quite certain, it is up to the Aldermen to either throw up their hands to the poor old bridge and leave it to the tender mercies of another council or reach an agreement on one tender or another, for contractors cannot be expected to be played fast and loose with indefinitely.

OBITUARY

MRS. R. W. GRUBBE

Ada Louise Haselwood Grubbe, who died this morning, was the third daughter of the late William and Maria Haselwood Wighton, who came to Peterboro in 1840, when so many English families came. Her father for a time owned a plantation in Demerara, British Guiana, then came to Peterborough and became Clerk of the Peace and Deputy Clerk of the Crown. Here she was born and christened at St. John's Church Peterborough, her sponsor that day being her aunt Mrs. Frederick Ferguson, Catharine Parr Traill of Lakefield and Wilson Seymour Conger, M.P., Sheriff of Peterborough. Until her father's death her people lived at what was known as "The Haunted House" now standing in the oval at East Nichols Park. On her mother's side she was a great grand daughter of the Baron de Codin of France and a cousin of the great Charles Kingsley and a double cousin of his brother Henry, who married her cousin.

Shortly after her coming out party which the late Judge Dennistoun gave at Inverlea House, Inverlea Park, the deceased married Robert William Grubbe, second son of Captain William Henry Grubbe of the Honorable East India Company. Artillery, and grandson of Captain John Grubbe of "Horsendon Manor," Buckinghamshire, England. At her marriage by the Rev. D.J. Macdonnell of St. Andrew's Church, she became a member of the Church of Scotland, and was a member of St. Paul's Peterborough. Fourteen years ago she met with a severe accident and since that day has been a great sufferer but it was not until shortly before Easter that she became very weak. For a time she rallied and every hope of her recovery was given up when a great change came on Thursday, May 15, and she gradually faded away, early this morning. Her whole life was given in thinking of others and until the end she thought only of those about her.

Besides her husband she leaves two sons, Eustace Haselwood Grubbe of Vancouver and Harry Haviland Grubbe of Toronto.

The funeral which will be private will be held on Wednesday afternoon at two o'clock.

MARY MONTGOMERY

The death occurred on Sunday, May the 18th, at 210 London street, city, of Mary Montgomery, daughter of Andrew Montgomery, in her 65th year. Deceased was born at Smith Township.

The funeral left the home this afternoon for Little Lake Cemetery, where interment took place.

MRS. CHARLES JAMES

The death occured early this morning at 505 Sherbrooke street, of Mrs. Charles James, widow of the late Charles James in her 76th years.

Deceased had been in good health, apparently, until a week ago when she was taken ill with bronchitis to which she finally succumbed. She was a native of Oxfordshire, England. She leaves to mourn her loss two daughters, Mrs V. H. Webb, city, Mrs. William Evans at home; and two brothers in Oxfordshire, England. Mr. William James, Mr. Arthur Mills and Mr. Charlie Mills of this city are nnephews.

The funeral will leave the residence, 505 Sherbrooke street, at 3 o'clock on Wednesday afternoon and thence proceed to Little Lake Cemetery for interment.

WILL WELCOME CAPT. ROLLINS

Boy Scouts of St. Andrews Will Take Part in Reception.

The boy scouts of St. Andrew's Church, nearly fifty in number, will take part in the reception which will be tendered elv. (Capt.) James Rollins at the depot when he arrives from overseas. Capt. Rollins is now on the ocean with the 21st Battalion of which he is chaplain. St. Andrew's choir at the service last night with the absent pastor in Norwood, gave a beautiful rendition of the hymn, "Oh Here Us When We Pray to Thee for Those in Peril on the Sea."

SHOE WORKERS GAIN

Eight House Less Per Week at London, Ontario.

Judge Judd and Mr. Walter Brown, Toronto, the majority of the board of arbitration in the dispute of the shoe factories at London, Ont., have awarded substantial wage increases and improvements in conditions to the employes. Hours are reduced from 55 to 47 per week. There will be a 10 per cent. increase in the rates for piece work and proportionate wage increases by the hour. The monetary items retractive for one month, and pay for the 8 hours gained in that period by the employers is allowed the workers.

FAIR PRICES SUGGESTED.

Guelph Committee Recommends 40c for Butter, 30c for Eggs.

Guelph, May 19.—If the Ottawa Government acts on the suggestions of the Guelph fair price committee, the old "high cost of living" will be dealt such a body blow it will go down for the count.

The fair price committee, composed of Ald. Brydon, G. A. Fowke and G. F. Ribb recommends to the city council as follows, with the request that the recommendations be forwarded to Ottawa:

(1) That the fair price for potatoes should not be more than $1.25 per bag.

(3) Fresh eggs should not exceed butter.

(3) Fresh eggs should not exceed 30c per dozen during this month.

(4) That the present price of meat is too high, considering the quantity in cold storage.

INCREASE IS REFUSED

St. Thomas Council Deny Request of Employes

St. Thomas, May 19.—The thirty-day ultimatum sisued by the fifteen stokers at the local gas works on May 6 asking for an increase in wages from forty-five cents to fifty cents an hour, with the option of having them walk out, was dealt with by the Gas Committee of the City Council Saturday afternoon and a unanimous resolution was passed that no increases be granted the threatening stokers. The findings of the committee will be dealt with at a special meeting of the City Council next week, a recommendation going with the motion that other men to take the stokers places be advertised for if the present workers carry out their ultimatum.

Ladies Will Give Dance Friday Eve.

The dance and at home to be given on Friday next, May 23rd in the new G. W. V. A. Hall, by the Ladies' Auxiliary to the Great War Veterans will be one of the big events of next week. The new hall has the finest floor in the city. Good music will be provided and the dance promises to be a great success.

NOTICE!

THE WARNE DRUG CO. has secured the Agency for GALLAGHER'S REMEDIES. Watch their shelves for the Pale Blue Carton—a sign of pure herbal remedies.

FINE MEMORIAL TO FALLEN STUDENTS

STUDENTS OF BELLEVILLE HIGH SCHOOL TO FOUND SCHOLARSHIP.

Belleville, Maf 19.—The students of the Belleville High school have asked the Board of Education for permission to found a scholarship in memory of fallen ex-students and to contribute to a fund to be raised for that purpose. A committee of the board, the treasurer and a representative of the students will handle hte funds.

The Board has arranged a new schedule of salaries to be paid lady teachers in the city public schools the minimum to be not less than $600 per annum with an annual increase of $50 until the maximum of $900 was reached. There was quite a strong sentiment in favor of adopting no maximum nor minimum but of paying teachers in accordance with efficiency, but this proposal was defeated.

SOCIABLE TITLE OF BRIGHT COMEDY

"TEA FOR THREE" RAN TWELVE MONTHS IN NEW YORK THEATRE.

"Tea for Three" is the rather sociable title of the comedy which Miss Elsa Ryan brings to the Grand, Monday, May 26th. Written by that well-known dramatist Rol Cooper Megrue whom recent critics have compared favorably to George Bernard Shaw, the author described the piece as "An Angel on—not of—the Triangle." The distinction seems to be well taken. The mere suggestion of intrigues and liasons of a triangular character is sufficient nowadays to turn people away. But "Tea for Three" is decidedly not such a play. The piece disclosed a delicious sense of humor, distinctly different in flavor from comedies that have gone before, and keeps its audience highly entertained throughout the three acts. It is delightfully surprising in situation and may be classed as a tonic for theatre-goers because of its freshness and sparkling wit. Miss Ryan has been provided with a role that gives her versatility and personal charm full scope and her performance is said to be remarkable for its naturalness and intensity of expression. She is ably assisted by Norman Hackett, Hayden Stevenson and othrs. There are three acts, originally and artisticallyed staged by Selwyn and Company. "Tea for Three" is now in its 12th successful month at the Maxine Elliott Theatre New York.

TIMOTHY MURPHY

The death occurred at St. Joseph's Hospital, yesterday morning, of Mr Timothy Murphy, aged 68 years. Deceased had been ill for some time with pneumonia, to which he finally succumbed.

A life long resident of Ennismore he was highly esteemed by all who knew him and will be missed from the community.

he leaves to mourn his loss besides his wife, four sons, Fred of Niagara Falls, Henry of Regina, Vincent of Ennismore and Frank at home. There is oe daughter, Mrs. James Holland of Ennismore. The funeral will take place on Wednesday morning at 9 o'clock to St. Martin's church and cemetery, Ennismore.

UNION MEETING

A union meeting of the Ladies' Aid and Women's Missionary Society of Trinity Church will be held at the home of Mrs. Morrow, 484 Weller street, Tuesday, May 20, at 3.30 p.m., sharp. Mrs. F. C. Neal will give a short address and Mrs. G. H. King and Mrs. Maurice Park will sing. The Executives of both societies wish for a large representation of members and ladies of the church, who are not members are cordially invited.

An auto stolen in March 1918, at Newburyport, Mass., has been found in Seattle, Wn.

Y. W. C. A. NOTES

Gymnasium classes:

oMnday, 4.30—Senior school girls and Tuesday juniors.

Tuesday, 7-8—Athena and Silver Link Clubs.

Wednesday, 4.30, 7.00, 8.00—Juniors special advanced class, folk dancing class.

Thursday, 7.00—Special advanced class.

Friday, 4.00, 4.30, 8.00—Special junior class, Tuesday juniors, ladies' class.

Saturday, 10.30—Juniors and babies' class.

All the pupils intending to take swimming lessons are advised to register as soon as possible, as classes are rapidly filling up.

The life saving class will not be held on Wednesday evening this week. All eligible pupils wishing to join this class will please notify instructress.

DIED

GRUBBE—Early on Monday morning, May 19th, 1919, at 47 Macdonald street, Ada Louise Haselwood Wrighton Grubbe, beloved wife of Robert William Grubbe, of Peterborough, third daughter of the late William and Maria Haselwood Wrighton, and great grand-daughter of the Baron de Codin.

Funeral private on Wednesday after at two o'clock.

NEW HALL FORMALLY PRESENTED TO VETERANS BY MAYOR DUNCAN

Ceremony Followed Banquet Which Marked the Opening of the Big Drive—President Morrison Accepts on Behalf of Association—Over $3,800 Obtained by Workers Yesterday.

The new Veterans Hall on Murray street, one of the show places and a credit to the city in every way as well as to the men who designed the plan of reconstruction, is now in the possession of the G. W. V. A. having been formally presented last evening by Mayor Duncan with suitable ceremonies.

The close of the first day of the big drive was marked by a banquet in the new quarters at which all the workers in the campaign with a number of invited guests were entertained. Mr. Roland Denne, Chairman of the Citizens' Committee presided over the gathering and among those at the speakers' table with him were Provincial Secretary Turley, Rev. Father Phelan, who conveyed the regrets of His Lordship Bishop O'Brien who was unable to be present, and Rev. A. J. Thomas, of the George street Methodist Church.

A dainty repast was served by the members of the Ladies' Auxiliary and at the conclusion of this part of the program, short addresses were made by Mr. Joseph Wearing, Rev. Father Phelan, Rev. A. J. Thomas, Secretary Turley and others.

The canvassers then turned in their reports for the first day of the drive and when all these were computed the amount tabulated over $3,800, which was regarded as entirely satisfactory. If this record can be maintained during the week the objective will be exceeded by several thousands of dollars.

Presentation Ceremony

After the banquet the rooms were thrown open to the public and the throng of visitors inspected the new home of the Veterans which is perfect in all its departments. Then the Veterans band headed a parade through the business section of the city and promptly at eight o'clock the presentation ceremony began on the spacious lawn, which was packed with an enthusiastic audience. Capt. R. E. Layfield presided and introduced Mayor Duncan who in a few well chosen words formally turned over the hall to the veterans. His Worship said that the city had made a grant of $10,000.00 toward the work and that the members of the City Council were satisfied that the money had been expended judiciously.

On behalf of the Association of which he is president Capt. A. S. Morrison accepted the gift in the following address:

Capt. Morrison Accepts

Mr. Mayor and Citizens of Peterboro:

It is with mingled feelings of pleasure and gratitude that we accept these magnificent club rooms, which you on the behalf of the citizens have so kindly presented to us tonight. It is a pleasure to know that we have been constantly in your minds during those long and terrible years of strife and bloodshed and now that the war is ended and peace once more restored on this earth, your thoughts naturally go out to the men of this city who left their homes, family and social ties, determined to win or die, in order that you and yours might be protected from this terrible brute force called, "Kultur." I feel it is needless for me to tell you how our boys behaved and the name they created for Canada which live for ever in the annuls of the world of which you have been kept well informed through the medium of the press how they risked their lives in hell every moment of the day in order that the homes and honors of their beloved country and Empire might be spared. Alas, very many of our comrades will never return to their loved ones. Amidst the poppy fields of France and Flanders they are quietly sleeping awaiting the day when we shall be called together again to meet the Great Commander of the Universe.

The survivors who are present with us tonight and others who are still to come home in the near future are gratified to know that you wish us to have these club rooms as a meeting place in order to talk over old scenes or conflict and be enabled to carry out the aims and objects of the association to which we belong. With that end in view you have been pleased as citizens and friends to finance our beautiful club rooms and which have now been declared open to the public for their criticism.

History of the Branh.

Permit me, therefore, to give you a short sketch of this branch. It was organized in March, 1917, by fourteen returned comrades and called the "Returned Soldiers' Club". Among its officers were Comrades Muir and Cooper, and as this was the first branch of the Great War Veterans in Canada consequently the above named comrades can proudly call themselves the fathers of the branch Which today has a membership of

(Continued on Page Three.)

WILSOM DECLARES FOR PROTECTION TO ALL INDUSTRY

PRESIDENT IN PARIS CABLES MESSAGE TO SESSION OF CONGRESS.

BLOW TO STATE OWNERSHIP

ALL PUBLIC UTITLES TAKEN OVER IN WAR TO BE RETURNED.

Washington, May 20.—President Wilson, in his message to Congress today recommended the repeal of the war-time prohibition law so far as it applies to wine and beer only, announced definitely that the rail systems and telegraph and telephone lines would be returned to private ownership, urged a revision of war taxes and outlined generally the program respecting labor. These were the "high spots" of the President's message cabled from Paris

Besides that, he again urged the enactment of a woman suffrage constitutional amendment, recommended that the tariff laws be supplied with teeth to protect American industry against foreign attack, spoke for legislation to facilitate American enterprise through the expansion of shipping and backed Secretary of the Interior Lane's program for land for returning soldiers

Of the Paris Peace Conference and the League of Nations the President merely said it would be premature to discuss them or express a judgment.

The recommendations for the repeal of war-time prohibition and for return of rail and wire systems, while not unexpected by some, contained the greatest element of surprise and provoked the most widespread comment of the many tasks set before Congress by the President.

NO DANGER OF OVERLAPPING

The canvassers who are working in the Veterans' campaign are meeting with one difficulty in their calls upon the citizens and this trouble is due entirely to a misunderstanding of the situation. Sometimes when the members of a team call at a residence, the lady of the house refuses to subscribe, saying that her husband, who is employed in a factory, will attend to the matter when the canvassers call upon him there.

Aside from the De Laval, there are no factories in the city being worked by the canvassers so far and there is no danger of any overlapping in this way. Any citizen employed during the day in such industries will aid the canvassers in their work if he will arrange with his wife the matter of a contribution to this worthy cause.

No Peace Signed Before June 15

(Canadian Press Despatch)

New York, May 20.—The A. P. this morning issued the following: The treaty of peace may not be signed until some time near the middle of June, according to advices from Paris It will probably be known by June 8, however, whether the Germans will accept or reject the terms of the Allies.

Durham reports a decrease in population.

Oscar Campbell, 15 years old, was sent to the reformatory for robbing the Owen Sound Creamery Co.

Fire destroyed the home of Mrs. Malcolm Kirk, Glenelg.

Eight freight cars plunged into a ditch near Wallaceburg.

OTHER AVIATORS ARE UNDISMAYED BY HAWKER'S FATE

PREPARATIONS AT ST. JOHN'S FOR ANOTHER FLIGHT ACROSS ATLANTIC

THE LONDON MAIL'S CASH PRIZE

TEMPTS MORE AIRMEN TO TAKE GRIM CHANCE WITH DEATH.

(Canadian Press Despatch)

St. John's, Nfld., May 20.—With the result of Hawker's endeavors in doubt plans for another perspective race began to develop today similar to that for which Hawker and Frederick P. Raynham were lined up here longer than a month. Alcott and Brown of Vimy bombing plane, which is due to arrive here tomorrow, announced that this flight for Ireland would be undertaken with the coming of the next full moon.

Alcott today wired to Vice Admiral Kerr at Harbor Grace for permission to use the flying field of the Handley-Page planes, now assembling there for a "take off." Alcott said he would fly right from St. John's to Harbor Grace and there would start with a full load of his Transatlantic journey. The Handley-Page will be ready at the same time, in the opinion of Admiral Kerr and the race for what may still prove to be the first crossing is expected to result. Meanwhile the $50,000 prize offered by The London Daily Mail apparently is still open to competition.

Acton is erecting memorial gates bearing the names of Acton's fallen heroes.

J. W. Hewitson introduced the 9-hour day in his factory in Orangeville.

WINNIPEG STRIKERS OFFER PEACE TERMS TO THE CITY

Ask For Recognition of Unions and Reinstatement of Men Now Out, Not For Shorter Hours or More Pay—Minister of Labor Starts For Scene.

(Canadian Press Despatch)

Winnipeg, May 20.—The Central Striker Committee of organized Labor in Winnipeg made public this forenoon in a letter to Mayor Charles F. Gray the terms upon which it will consider a settlement of the general strike. Recognition of all unions involved and the reinstatement of all employes on strike are asked. The announcement does not specifically refer to wages and hours.

Agencies at Work.

Three agencies are working to bring about a settlement of the deadlock. Peace feelers were sent to the heads of organized Labor and to the employers but failure of the conciliatory agencies to announce any results caused the general impression that no definite concessions have been made by either side.

Only minor disturbances were reported yesterday. There had been no attempt on the part of industries to resume operations, and leaders of the 30,000 union men on strike have urged their constituents to use only peaceful methods in their endeavor to procure shorter working hours, increases in pay and the right to organize.

General H. B. Ketchen, District Military Commander, Mayor Chas F Gray and a committee of citizens have announced that they are working to bring the warring factions together.

The question of providing better facilities for transmission of press despatches was considered at a meeting of commercial telegraphers. Members of the union who favor co-operation with reputable news agencies declared that "irresponsible correspondents' were taking advantage of the strike to send out sensational reports from nearby cities.

No Soviet Government.

Rumors that a Soviet Government had been instituted in Winnipeg are utterly false. These reports have not only been denounced by city officials and leading members of Citizens' Villgance Committees, but by union officials. Two high union officials told the Associated Press that they felt much embarrassed by "fake stories of Soviet government," which they said, had been sent to the United States by men who went from Winnipeg to border cities and filed despatches to American newspapers.

Government Takes Action.

Ottawa, May 20.—Senator Robertson and Hon. Arthur Meighen left for Winnipeg today to view at close quarters the situation created by the great strike there. Before leaving for his train Senator Robertson said that there was nothing new reported to him as to the situation, and it was the very difficulty of getting reliable information which had determined them to go to the city themselves.

"What have you the power to do when you get there?" he was asked.

"I cannot say until I get there. It is always a foolish thing to prejudge the situation. We will go there to see what the state of affairs is and to do whatever seems to be called for."

Order to be Maintained.

It was learned here that the Government considers every necessary military precaution has been taken. The Mounted Police are in Winnipeg in strength, and a considerable force of militia is in readiness. There are, however, no reports of trouble either at the Department of Labor or the Department of Militia.

AVIATORS HAWKER AND GRIEVE GIVEN UP BY ADMIRALTY AS LOST

Nothing Has Been Heard of Daring Airmen Since They Left St. John's Sunday—All Reports Sent Out Yesterday Were Unfounded Rumors

(Canadian Press Despatch.)

London, May 20.—All reports that Aviator Harry Hawker and Lieut.-Commander MacKenzie Grieve have been sighted off the coast of Ireland or that their airplane in which they made an attempt to fly across the Atlantic, has fallen into the sea off the estuary of the River Shannon, are unconfirmed this morning, the only exact news received here from the daring fliers is that they left St. John's on Sunday. In view of the Admiralty's statement that the reports current yesterday afternoon and last night were unreliable and because of the obscurity surrounding the source of those reports, they are now regarded as negligible.

The opinion held in Admiralty circles is that Hawker came to grief soon after he started. It is pointed out that the aviator almost certainly would have sent a farewell message before setting out of the radio range, had an accident not befallen in the meantime.

In the House of Commons last night Josiah C. Wedgewood and other members severely criticized the Government for omitting to provide means for assisting Hawker in his flight across the Atlantic Capt Elliott declared the country would hold the Government had been lamentably remiss and desperately careless of the honor of the country "and the life of a gallant gentleman."

SEARCH IS IMPOSSIBLE.

The weather is so bad off the coast of Ireland that the airplanes ordered by the Air Ministry to search for Aviator Harry G. Hawker's machine, are unable to fly. There were strong southeast winds, with rain and fog at intervals during the night. All communication centres in London are silent as to news from Hawker and Lieut.-Commander Grieve. Even the rumors which prevailed yesterday and last night have died out.

Seaplane N. C-4 which reached Horta last week started for Ponta Del Gada, another point in the Azores, at 12.40 p.m today, Greenwich meridan time. The weather was clear and the wind favorable.

50 PETERBOROUGH MEN IN THE 21ST

ARE NOW ON THE ATLANTIC—HOME THIS WEEK—PLANNING RECEPTION.

The 21st Battalion sailed from England last Wednesday and will reach Canada this week.

Capt. Widdifield (City Solicitor) advised the Council's Reception Committee last evening that he was an officed in the 21st with which there should be about 50 Peterborough boys coming home.

The Mayor had also been notified by Capt. Gordon Hall that many Peterborough soldiers are in the 21st battalion now on the ocean.

On motion of Ald. Phelan, Mayor Duncan and Ald Turner were authorized to arrange a suitable reception.

Modifies Order Issued Yesterday

Postmaster Edgar has received the following order from the Department at Ottawa:

"Paper and parcel mail may be accepted for paints west of Winnipeg but not for Winnipeg city."

GERMAN ANSWER READY THURSDAY

WILL INSIST ON PRESIDENT WILSON'S FOURTEEN POINTS FOR PEACE.

(Canadian Press Despatch)

Copenhagen, May 20.—The conference of German political leaders and German peace delegates at Spa on Sunday agreed that the peace terms were unacceptable according to a German semi-official statement and that Germany will leave no stone unturned in an attempt "to find a practicable basis of peace which takes into account our opponents justifiable demands and those capable of being borne and carried out by the German people."

Answer Ready Thursday.

The German reply to the peace terms will be handed to representatives of the Allied and associated powers Thursday, the Tageblatt of Berlin says. The contents of the reply will adhere closely to the German version of President Wilson's fourteen points

Rev. C. S Jones, Presbyterian minister, leaves Annon to go to Priceville.

LAKEFIELD FIRE ALMOST FATAL

SLEEPING FAMILY HAD NARROW ESCAPE FROM DEATH THIS MORNING.

(Special to The Review.)

Lakefield, May 20.—About 4 o'clock this morning the villagers of Lakefield were awakened by the fire alarm. The house with all its contents of Mr. Roland Payne, also, the unoccupied house of Mr. William Yelland of Peterborough were completely destroyed by fire. The origin of the fire is unknown.

Mrs. Payne was alone with her five children, her husband being confined to a hospital in Sudbury with pneumonia. The family barely escaped. They had not time to properly clothe themselves. There was no insurance on the Payne property.

Mr. Payne is the oldest son of Mr. and Mrs. Paul Payne of Lakefield, and Mrs. Payne and children are their guests until other engagements can be made.

Contractors signed agreements with 4500 Boston carpenters giving then one dollar an hour.

Toronto Tries To Ward Off Strike

(Canadian Press Despatch)

Toronto, May 20.—In an effort to prevent a general strike here, a conference was held at noon today. The conference lasted one hour, and at the close it was announced that no definite conclusion had been reached. The conference will continue this afternoon.

Rev. C. N. Dewey has resigned from the Dunnville Baptist church.

A committee of Oakville citizens was appointed to choose a school site.

Kingston Posts For Lt.-Col. Macphail?

Kingston, May 20.—Lieut.-Col. Alex MacPhail, D.S.O. Canadian Engineers returned here Saturday from Winnipeg, where he mustered out his corps He leaves on Monday for Ottawa and thence goes to his old home in Prince Edward Island for a rest. It is reported that Col. McPhail may be offered the post of Dean of the Faculty of Practical Science in Queen's University. It is also report that he may become Professor of Civil Engineering in the Royal Military College.

THE SITUATION AT WINNIPEG

Thief River Falls, Minn., May 20.—The outlook for a settlement of the general strike in Winnipeg is not good. Signs are ominous. The trainmen are voting and will probably tie up the whole of Western Canada west of Fort William. Shopmen of all the railway shops are also likely to strike. This will mean no wires, no newspapers, no trains, no mails, in or out of Winnipeg.

All the wholesale houses and many retail stores are closed or will shortly closed. Bread and milk are still being delivered regularly at the homes, but restaurants and many hotels are closed. Water, gas and electric light are still available. Trains still running out of Winnipeg are crowded with people for the east and south, and many others are arranging to get out of the city as quickly as possible.

It is stated that the citizens' committee wired Ontario not to send representatives here, hoping to settle the strike themselves. According to other stories, the returned soldiers in reserve have declined to rejoin their regiments, although called upon to do so.

German Seaplane Makes Another Lap

(Canadian Press Despatch)

Washington, May 20.—The naval seaplane N C-4 arrived at Ponta Del Gada from Horta at 10.24 a.m., Washington time.

General Strike Now At Amherst

(Canadian Press Despatch)

Amherst, N.S., May 20.—A general strike was called here this morning by the Federation of Labor for the introduction of a nine-hour day. Every industrial plant in the city is tied up as a consequence. There thousand men are idle.

Alliance Objects To Referendum

(Canadian Press Despatch)

Toronto, May 20.—At the opening of the Ontario Alliance Convention this morning a resolution was presented affirming that the referendum to be submitted to the electors of Ontario next Fall was not satisfactory to the prohibitionists say that returning soldiers were being influenced against prohibition in Ontario.

Poles Break Down Ukranian Drive

(Canadian Press Despatch)

Warsaw, May 20.—The Ukrainian offensive against the Poles has been completely broken, according to an official communication issued today After hard fighting the Poles occupied Balica and Novas olki. The Ukrainian losses were extremely heavy.

St. Thomas has purchased a street flusher costing $7,600.

Marguerite Peterson Sarnia was run over by a wagon driven by a boy who was racing with another.

IMPROVED TRAIN SERVICE

The Canadian Pacific Railway was prompt in giving attention to the request of the Board of Trade recently conveyed to it, through Mr. W. B. Howard, District Passenger Agent, by the Transportation Committee of the Board of Trade which is composed of Wm. S. Campbell, H. E. Hodgins, Joseph Wearing and E. Bruce Fowler.

Yesterday President Turner was informed that the Peterboro-Toronto Train, which now leaves Toronto at 6.15 and arrives in Peterborough at 9.25 would be advanced on June 1st so as to leave Toronto at 5.10, arriving in Peterborough at 8.10, giving opportunity for attention to evening engagements.

Mr. Turner expressed his gratification over the receipt of the communication from the Canadian Pacific Railway, and feels that the Company has been prompt and considerate in meeting the very obvious wishes of the business and general public. The change is a great improvement.

"FOR A GREATER PETERBOROUGH."

TUESDAY, MAY 20, 1919

BURNING THE MORTGAGE.

USUALLY WHEN the church mortgage is paid off, the members of the congregation hold a function that is given over to felicitations, and as a climax to the entertainment the document is reduced to ashes with fitting ceremony.

Why condemn to such a fate a written instrument that has in the past stood the people in such good stead? The mortgage has really been their friend in the dark days of adversity, and it would seem more in keeping with the proper spirit of gratitude and by way of a reminder of the past, if, instead of going to the incinerator, the church mortgage were framed and preserved as a relic of the time when the wealthy member, who perhaps held it worshipped in the church with a proprietory interest in his surroundings, probably without a misgiving with regard to the neddle's eye that intercepts his path Zionwards.

THE DRIFT TOWARD ANARCHY.

WHEN THE I. W. W. threatened to break bounds in Seattle, the Governor of the State of Washington in which that city is situated warned them that he was ready to employ against them every authority, civic or state-wide, at his disposal. If that were not sufficient, then the entire power of his Federal Government was to be set in motion to preserve order in the community.

The I. W. W., frustrated at every point, folded their tents and stole over the border into Canada, where the effect of their propaganda is already manifest in industrial disturbances that threaten to become general. Prompt government action checked the I. W. W. movement in the United States. The same agency could throttle it in Canada.

The war veterans of the West objected to the presence in that country of aliens whose chief offence was their refusal to render the State military service, but those aliens were at least peaceable citizens. The I. W. W. has, in addition to the national defect—or vice—of the other, an inherent propensity for upsetting everything like domestic harmony. If the Government is lax in handling this matter, it can be spurred into action by the men who fought and bled that Canada might be preserved. As Secretary Turley said in his address here last night, the G. W. V. A. members are not bolshevists and will tolerate nothing of the kind. If any faction waves the red flag they will be well advised not to flaunt it in the faces of the returned men.

After all, it is not hard to account for the extraordinary situation which now exists in Winnipeg and which threatens to spread like a physical epidemic throughout the Dominion unless prompt measures are taken to remove the cause. The whole trouble is due to a failure of the various classes in the community to understand each other and to work in rational co-operation. When the armistice was signed a wave of economy swept over the nation. All the talk was of reconstruction. The wages of the workingmen were singled out for reduction while the abnormal standard of cost that had been reached in other lines was to be maintained. Such a policy could have only one result, and the effects are apparent today everywhere.

If the wages of the workingmen are to be reduced, why not apply the same process to the earnings of the members of the learned professions and to the cost of living in other lines, so as to preserve the balance? The Department of Labor has figured that it takes $25 a week to provide a family of five with a bare existence. These statistics do not admit of argument, official as they are. The dentist, the doctor and the lawyer is not threatened with a reduction in his charges. The workingman is not slow to recognize the discrimination of which he is made the victim.

There is a remedy easily posisble for all this trouble, which is really due to a lack of understanding, and to the get together spirit, without which no classes can dwell in harmony. That spirit is being quietly but none the less effectively developed and encouraged in Peterborough today. This city, thanks to beneficent and intelligent agencies now in motion, will yet be able to work out its own economic problem. Capital and Labor will come to recognise that the interest of one is interwoven with that of the other and that the ratio beween profits and wages must be maintained. If in some sections of the Dominion the drift is toward anarchy, it is none the less true that in this city the trend is in the direction of industrial sanity. The people, no matter of what class, may rest assured that an agreement will be reached, that the stars in their courses, as well as human instruments, are working in their favor.

THE HOUSING PROBLEM.

IN VIEW of the housing problem here and the offer of Government financial aid that has been tendered, the following of what has been done under Government enterprise in Bridgeport, Conn., will be interesting.

The value of Bridgeport as an industrial centre—the war time products of the city being vital to the prosecution of the war—induced, it is stated, the government housing commission to build workingmen's houses in that city. After a careful and exhaustive survey and study of the city by expert town planners, the various sites for these houses were picked out. When the sites were selected, the vacant property was bought by the government. The architects and engineers of the housing commission then proceeded to lay out and design the best type of workingmen's homes to be built on this property.

In the relation of what the housing commission effected, it is said that the result has been the latest word in layout, design and construction.

The development covers twenty-two acres, and when finished it will have houses for 388 families. There are houses for 257 families now under construction and about three-quarters completed. The estimated cost of the entire project now under way is $1,000,000. The houses are of three, four and five rooms with bath, and are built in various types of the individual house, two-family house and four-family house. Rents will vary from $15 to $22 a month.

The houses are built of a good quality brick of pleasing appearance, with slate roofs. Basements have cement floors and are set high enough above tide water level so there is no danger of their ever being wet. The interior trim is of the best quality with birch doors.

Coal ranges are furnished for cooking and coal stoves for heating, but arrangements are so made that furnaces may be installed later if desired. In ordinary mild winter weather the cooking stove will keep the house comfortable. Ash cans and underground garbage pails are supplied.

Each house will be not more than two rooms deep, so there will be [illegible] in every room. Every family will have a small porch, a front and back yard with garden space, and a tree planted in every yard. Sample kitchen gardens will be laid out.

The development has a full equipment of sidewalks, streets, water, gas, electric light, sewers, shrubs and hedges, and the houses will be covered with vines. The houses are arranged in staggered rows in order to avoid monotony, and streets are winding to carry out the same idea. There are small play grounds for the children.

The beauty of this layout and the genius shown in its design lie in the fact that the same number of families are taken care of per acre in this individual type of home that are taken care of in the three-decker type while still retaining all the advantages the individual home has over the three-decker, and the cost to build will run about the same.

While the cost of construction of these houses was greater than normal, due to war time prices of material and labor, it is expected that the government will write off this excess cost so that these houses will sell within reach of the workingman.

CITY COUNCILS AND MUSIC.

THE CANADIAN BUREAU for the advancement of music says:

> Give us more community singing and "jazz" exhibitions will disappear; at that, the follies in dancing, cabaret and so on are just the inevitable manifestation of the energetic organism seeking expression by the manner and route immediately available.
>
> And this is the obvious reason why city governments looking to improve the moral tone of their community must not overlook the power of music organizations such as civic symphony orchestra. There is almost a responsibility on the shoulders of every city government towards music and towards its citizens in this regard. Community "sings" are an interesting means of developing musical appreciation and blend well with orchestral concerts. Properly supported, the community "sings" and civic symphony orchestra concerts would aid powerfully in working a moral regeneration of a nation. Every wide-awake town in the country should have a civic symphony orchestra; size of population has not much to do with the idea nor with its success. With proper backing and ideals behind it, a civic orchestra would succeed in any community large enough to bring out an audience.

HERE IN PETERBOROUGH the City Council divides a civic grant among three bands, making no distinction in favor of a musical organisation that is one of the city's best assets as an advertising medium.

NOTES AND COMMENT.

THOSE SEAPLANES seem to be as hard to manage as the average baseball team.

• • • • •

STILL THERE MUST BE some features in the covenant of the League of Nations that our City Council can accept.

• • • • •

"WE'LL NEVER LET the old flag fall" sing the Veterans. But they will stamp the red flag of anarchy into the mire.

• • • • •

ONLY A FEW MONTHS AGO Germany menaced the world with a sword. The only weapon left her now is a fountain pen.

• • • • •

ONE OF THE PRESSING needs of the hour—a cessation of air castle building and the erection of modern homes on the solid earth.

• • • • •

THE BOASTED EFFICIENCY of modern times seems to have passed over the heads of those who should be settling the present labor troubles.

• • • • •

THE CONSCIENTIOUS OBJECTOR is still with us, but his creed applies now to the lack of aldermanic energy in dealing with the bridge problem.

• • • • •

WHILE THE LITTLE nations of Europe are crying for an ocean port, all that Peterborough is longing for aquatically is a public bathing place in the river.

• • • • •

TO HEAR Hon. F. B. Carvell, Minister of Public Works, talk of retreachment is a proof of the wisdom that may be acquired by a man through a change of associations.

OPINIONS OF OTHER EDITORS.

ARE THEY BETTER NOW

(Guelph Mercury)

Exit titles for Canada. Like many another good thing they were over done and abused and the Canadain people who have a hankering for democratic ways, were at first amused then disgusted at the great number of near nobles and undignified "Sirs" that were forming a barrier between classes and none of whom a few years ago were any better than others.

TO WHERE WITH THE KAISER

(Boston Transcript)

If the special court of five judges which is to try the ex-Kaiser should decide to banish him, will it, in designating the spot qualified to receive him, be influenced by the very widespead unanimity of choice which so many persons in the year just past have suggested?

EDITOR'S MAIL

MR. BURNHAM ON PROHIBITION

Editor Review:—The total prohibitionist, or, as we perhaps should call him, extinctionist, is one who regards alcohol, that is alcohol that may be drunk, as a curse to humanity and something that should be obliterated. This position includes the making of alcohol by the Creator, wholly uninterfered with by the hand of man. If alcohol is made for consumption by the Creator, then the extinctionist is one who arrays himself against the Creator, and in the last analysis, is an atheist.

I enclose the official statement of the National Council of Scientific and Industrial Research, which, as you see, gives an authoritative pronouncement upon the presence of potable alcohol in nature. The vast quantity of alcohol so made is, as you will observe, not precisely to be estimated but that it is enormous in quantity must be, of course, admitted, from the data.

As consequence, all dealings with the question of alcohol for consumption must be, unless we are to become atheistical upon the principle of regulation. This, I think, you will agree will harmonize with the views of many who call themselves prohibitionists but who are in reality extinctionists, and of many who are regulationists but do not call themselves prohibitionists.

It is advisable that this position should be made clear, otherwise there will result from the confusion a more or less disastrous consequence to temperance and the well-being of humanity at the next referendum to be held in Ontario.

That the Government should exercise control is admitted by all, if it were not for the fact, as they allege, that Government control means the intervention of Ward politics. What we should strive for, therefore, is the extinction of this brand of politics, which is at the base of so much harm to the community.

Alcohol as a beverage is not and cannot be altogether bad, otherwise we must accuse the Creator of having recreated something, wholly, and deliberately, for the destruction of humanity. As a matter af fact, we know that alcohol serves a most excellent purpose as a beverage when taken at proper times and in moderation. It is against immoderate use that we must set our face and Government control ought to be able to handle that up to a certian point. When it exceeds that point, punitive measures will have to be adopted and reformatory measures. The delinquent could be placed upon a farm under Government control, and his earnings applied to the use of his family. There need be no fining of the family or other absurd note of maladministration. The question is easily solved. We all know that the bootlegger is the ally of the prohibitionists, simply because the bootlegger cannot thrive if legitimate business in alcohol is to be done. He wants prohibition even more than the prohibitionist. It would be absurd to charge the prohibitionist with the crime of the bootlegger. So it is with most things that occur in the government of humanity by itself. Surely, it is not impossible to get an upright and commanding Government that will observe the laws of God, and see that its own wholesome legislation is honestly and properly carried out.

Yours faithfully,
J. H. BURNHAM.

Mr. Macallum's Leter

Ottawa, May 16, 1919

J. H. Burnham, Esq., M.P.,
House of Commons,
Ottawa.

Dear Sir:

In refereecence to your communication of the 12th inst., inquiring further as to the amount of alcohol which is made by nature, wholly uninfluenced by man, I wish again to state that it is absolutely impossible to get data. There are no data to be obtained anywhere on this subject.

All we know is that the waste sugar and carbohydrates in nature, the amount of which waste is unknown, are finally disposed of through yeast fermentation and bacterial decomposition. The proportionate part played by yeast in this disposal is also unknown, and to make any estimate of it would be only a wild guess. It is only where the processes are controlled or guided by men that the quantity of alcohol produced may be determined.

The first use of alcohol by man, undoubtedly arose through the discovery that the juice of bruised fruits and especially grapes, on standing, acquired properties which were recognised as making such juices or fluids acceptable as beverages. Later, bruised cereals were found to give similar beverages.

The fermentation in these original instances was wholly uninfluenced by man and is due to the introduction into such fluids juices or mash, of the yeast organism, which, as I have pointed out, is universal in its distribution, and which will, therefore, always be ready to produce alcohol from carbohydrates, especially of the saccharine kinds.

Yours sincerely,
(Sgd) A. B. Macallum.

WHY EXPERIMENT?

Food scientists claim that the leavener is largely responsible for the flavor, texture and wholesomeness of your home baking. That on no other one ingredient does so much depend. It is important, therefore, to use a baking powder that you know possesses the necessary leavening qualities.

MAGIC BAKING POWDER
Contains No Alum

and is the only strictly high class baking powder in Canada selling at a moderate price. Its reputation is built on purity and highest quality.

The only well known medium priced baking powder made in Canada that does not contain alum and that has all its ingredients plainly stated on the label.

Made in Canada

THEY CANNOT UNDERSTAND

(New York Times)

It is strange that a man of Prince Lichnowsky's knowledge of history should find in the fact that "after Napoleon Europe did not hold the French people responsible" anything applicable to the present treaty. The autocrats and Ministers who were in Europe in 1815 did not think anything about the French people or about any other people. They made easy terms for Louis XVIII., partly because they were jealous and afraid of one another and Talleyrand was adroit enough to play on their fears, and partly because they thought the Bourbons would make France a safe neighbor for the rest of Europe. If there were any group of men in Germany today of whom as much could be said, the task of the peacemakers would be lightened. The entertaining Mr. Harden tells the truth once more when he reminds the Germans that they have not given "convincing mental guarantees" that they have experienced any change of heart. The present Government, he says, works like a bad imitation of government under the Kaiser.

Nowhere is this resemblance more apparent than in the reaction of distinguished Germans to the peace treaty. The editor of Vorwarts calls to "all the oppressed peoples and classes of the world," Ireland, Egypt and Indian of course getting special mention, and reminds them that the German people is their ally. After the example of German beneficence in Armenia, oppressed peoples may not greet this announcement with proper enthusiasm; but Vorwarts is optimistic. It calls on the people of the United States to rebuke their Government for its attitude toward Germany. Once more the bad imitation of the Kaiser's regime. Bernstorff and his aids did what they could to provoke risings in the United States as well as border wars against us; their ill success might have taught the new Government something, but apparently it has not.

If the Germans will consider the impression made abroad by the Government of a nation guilty of the worst crimes in modern history, which seems still to place its reliance on the fomenting of civil wars in other countries, they may begin to understand why the treaty provides certain safeguards against Germany. They have cried aloud that it enslaves the German workingmen; leaders of the proletariat have complained that, while the working classes are condemned to serve for the benefit of the foreigner, German capitalists are untouched. Surely this is a matter for the Germans themselves; the German nation must repair the damage the German nation has done, but it rests with the Germans to decide what classes shall bear the heaviest part of the burden. It is significant that an American correspondent in Berlin reports the old governing classes, the men who have made public opinion, as unanimous in protest, but says that nothing has been heard from "the underfed bulk of the German people." The German people, from highest to lowest stood by consenting to the devastation of Belgium; they refused inquiry into the atrocities of their armies; they applauded the sinking of the Lusitania; they made on protest against the butchery of the Armenians. Only when it comes to making Germans pay is their sense of justice outraged.

FEMININE LOGIC

The young lady across the way says the war cost the French a good deal as it is, but it seems almost proverbial that a franc is so much less than a dollar.

POINTED PARAGRAPHS.

The flush often beats the straight in a political game.

Why does the tallest man in the crowd always get in the front?

It is a wise fool that can keep his lack of wisdom to himself.

The trouble market is easy and trouble can always be borrowed at low rates.

If a man has a bee in his bonnet, he is reasonably sure of a livelyhood.

A new broom doesn't sweep cleaner than an old one with a new hired girl attached.

Is it true, Rafalo that no man would be willing to swear to everything he says during courtship?

Why does the average man never realize that silence is golden until after his jaws begin to swell?

Trouble seems to be a patriotic affliction. It makes the eyes red, the hair white and the feelings blue.

When King George Acted As Stoker

ON OCCASION OF VISIT TO CANADA BY BATTLE FLEET.

The only recorded occasion on which King George took a turn as stoker was when the allied battlefleet paid a visit to Canada during the Tercentenary celebration at Quebec in 1908. This democratic feat was performed by His Majesty on board the British battle cruiser "Indomitable," on which King George and Queen Mary, then Prince and Princess of Wales, crossed the Atlantic.

No one who witnessed the imposing spectacle when the allied battle ships sailed up the St. Lawrence and anchored off Quebec City guessed that the "Indomitable" was destined seven years later to take a leading part in an historic action off the "Dogger Bank," which resulted in the loss of the German battle cruiser "Blucher" and the scattering of the whole German fleet.

The "Indomitable," with the other British, French and United States warships that played such an imposing part in Quebec's three hundredth anniversary fete, are shown in a splendid panoramic photograph taken during the Tercentenary, which is to be presented to the school which wins the War Savings Stamp voting contest in various Ontario cities. The school kiddies and their friends are included in the contest, each Thrift Stamp counting one vote, and each War Savings Stamp sixteen. The voting that will decide which school is to possess this striking wall decoration will take place from May 26th to May 31st.

He Gets By

"I suspect this applicant wrote his reference himself."

"I rather suspect so myself."

"Then why did you give him the job?"

"On his merits, so to speak. The reference was well worded and written neatly."

Synod of Huron, meeting in London, passed a resolution favoring the teaching of more religion in the schools.

I never knew how easy Self-Shaving could be until I bought my AutoStrop Razor
Stropping
Shaving
Cleaning
Ready for the Next Shave

A cool, clean shave for 1/5 of a cent!

A cool, clean, satiny shave for 1/5 of a cent—think of it! At least 500 shaves are obtained from 12 AutoStrop blades, and you often get more than that.

A turn or two on the strop and your Razor is ready. After shaving you press a little lever, put the blade under the tap, wipe it off, and it is ready for the next shave.

There is no need to take the razor to pieces and assemble it again; simply leave the blade where it is from start to finish. This means time saved in the morning rush — and a razor blade that's good for about six weeks' clean, cool shaves. There's nothing to learn about the AutoStrop Razor. A man takes as naturally to it as a duck to water, and he gets head-barber results from the start.

The AutoStrop Razor is sold with a money-back guarantee. Everywhere razor, strop and 12 blades, complete, in an attractive case, $5.00.

LESSONS IN RIGHT LIVING

By Dr. W. A. BRADY

My readers will recall that I have frequently declined to publish symptoms. Do not assume, however, that I consider symptoms of no value. They have great value, for they tell the sufferer that there is something wrong with his health, and if the symptoms persevere long enough they drive him ultimately to the doctor.

Lightly here, for we tread delicate ground. How will the doctor weigh the symptoms? Will he sort them over and try to fit them to some disease, after the manner of picture puzzle games? Will he look wise and remain anchored in his chair and write a prescription for some new fangled doctor's nostrum? Will he make the symptoms the material out which he constructs the diagnosis on which his advice must be based, or will he consider the symptoms merely as suggestive of the direction his examination should take? That all depends on the kind of doctor and on his estimation of the class of patient. If he is a good doctor, and if he feels that the patient is willing to buy some of his skill, then he proceeds systematically to follow up the clews presented to him by the patient's chief complaints.

Vague rumors from Europe are not one whit less reliable than symptoms. I recall vividly how, when I had the appendicitis (as I blush to confess,) I could not understand, until the day after the operation, why an indulgence in cocoanut had given me such a prodigious stomachache for once in my well regulated life.

Symptoms are a dangerous thing to monkey with. If you have any do not sort them over more than necessary but take them to a doctor and see what he will say

Percolator All Right

"Noticing what you have said about the evil effect of coffee that has been boiled, I am wondering whether coffee made with a percolator is all right. A.B."

Oui. Oui. Beaucoup.

Whiskey and the Pharmacopoeia

The United States Pharmacopoeia is revised every ten years by a committee of representative physicians pharmacists and chemists. In the last decennial revision whisky and brandy spiritus frumenti and spirits vini gallion were omitted as you know, because these alcoholic liquors were no longed deemed medicinally visers can legally determine whether alcoholic liquors possess any medicinal value, it follows that the government has officially, through the pharmacopoeia, proclaimed that alcoholic liquors have no medicinal value. How, then, can a physician under the law prescribe alcoholic liquors for medicinal use? Your opinion along this line would be, I am sure, interestnig to the reading public.

Inquirer"

The United States pharmacopoeia does specify certain standards of strength and purity of various medicines, and is a legal standard which all druggists must accept. However, many good medicines are not mentioned in the pramacopoeia and a physician is not limited to pharmacopoeia remedies. Personally, I don't see how a doctor to-day can prescribe whisky or brandy as a medicine; but the fact that these liquors were omitted from the United Staes pharmacopoeia would scarcely be sufficient to make it illegal for a doctor to prescribe them if he sees fit.

What All Should Know

"Please print again the address of the surgeon to whom I can write for the book pertaining to what every young man should know. E.T."

I gave no surgeon's address, but the address of the United States publichealth service, 228 1st street, N. W. ashington, D.C. The free pamphlets dealing with sex hygiene are as follows: A, for young men; B, for officials and the general public; C, for boys; D, for parents; E, for girls and young women; F, for educators. Send for those for which you have a real use. Most state health departments are supplied with these pamphlets.

EDITOR'S MAIL

THIS IS DIFFERENT

Editor Review. There must be a general feeling of relief throughout the country at the announcement that it was a Methodist Minister who organized a Soviet Government for Winnipeg.

Had the man at the head of the movement been of another denomination the sectarian agitator would at once have set up the cry that the head of that denomination was at work again trying to destroy our national life. But it makes all the difference in the world which ox does the goring. CYNIC

HEROES WELCOMED AT BAILIEBORO

CLUB BAG FOR PTE FELL AND WATCH FOR PTE. FERNIE.

Bailieboro, May 20.—On Thursday evening, May 15, 1919, there gathered at the house of Wm. Fell a large number of neighbors and friends to express their congratulations to the parents on the return of their son, Victor R., and to do honor to the heroes who had so nobly fought for King and Country in France during nearly four years. Victor and his chum, James Fernie, had been in many engagements together had endured the hardships and now each with a military medal and bar have returned to Canada to enjoy a well-earned rest. After the friends had been called to order by the chairman, Rev. M. W. Leigh, B.A., a hymn was sung, prayer followed and then the following address was read by Percy C. Barnard and at the appropriate time the presentation was made by Charles Dawson and Gerald Lang

Messrs. Victor R. Fell and James Fernie:

Dear Friends:

We, a few of your friends, upon this happy occasion desire through the medium of this address to express to you our deep appreciation of your noble service during the war and also our extreme pleasure in your safe return

We vividly recall the time, over three years ago when; with sad hearts and many misgivings we said farewell to you, Victor.

We have ever followed you in thought and prayer through the years of your absence and rejoiced from time to time over reports of your distinguished service, on which we congratulate you, and tonight we feel our joy fulfilled in receiving you back from the vortex of war.

To you, Mr. Fernie, we extend a most sincere welcome feeling assured that you have fully done your share in making the name of Canadians immortal and in giving to humanity liberty and peace.

We admire in you both that wonderful spirit of self-sacrifice, which made you leave all and stand forth for Freedom, with the bravest and best of Canada's sons.

We realize that for you who saw your duty and followed it, the war was a period of trial and testing and we rejoice that that physical struggle has borne fruit, just as the spiritual struggle which went on in so many Canadian homes, has taught our people at home the solace of pride and the courage of faith.

We feel that anything which we can do or say is as nothing compared with your great sacrifice but as a slight remembrance of your inestimable service to mankind, we ask you, Mr. Fell, to accepted this fitted club-bag and Mr. Fernie this watch.

We trust that wherever your future pathway may lead, these gifts may be constant reminders of our gratitude and esteem for your noble example

Signed on behalf of your friends:

PERCY C. BARNARD,
CHARLES DAWSON,
GERALD LANG

After the presentation the singing of "We're rejoicing that you've come back home," and "For they are jolly good fellows," was followed by brief and appropriate replies from both.

Addresses suited to the occasion were given by Rev M W Leigh, Reeve J. Greer, Rev A. H. McConnachie and Wm. Fell.

Games and refreshments filled up the rest of a very enjoyable evening.

Early on Friday morning Arthur S. Dean passed away at his home in Bailieboro at the age of 55 years

The funeral service was largely attended on Sunday afternoon. The service was conducted by Rev. Capt. Spencer of Millbrook. Deceased was a member of the Court of Foresters and of the Orange Lodge from both of which there were many members to assist in the service.

The Methodist Church was filled to capacity on Sunday evening when James Fernie gave an address on the war and contrasted Germany's gospel of hate with the allied gospel of love in a way that was much enjoyed by all present.

The Local Court of Foresters will attend Divine Worship in the Methodist Church on the evening of Sunday, June 1st.

May Day witnessed the arrival of a son at the home of Ira Dawson.

Speaking of Cases

Close Friend—I hear your husband has cases enough to keep him busy for two years.

Lawyer's Wife—Two years My dear, don't tell a soul, but he's got enough in the cellar to keep him as busy as he usually is for the rest of his life

INDIGESTION AND CONSTIPATION

Quickly Relieved By "Fruit-a-tives"

Rocmon, P.Q.

"I suffered for many years with *terrible Indigestion and Constipation*. A neighbor advised me to try "*Fruit-a-tives*". I did so and to the surprise of my doctor, I began to improve and he advised me to go on with "*Fruit-a-tives*".

I consider that I owe my life to "Fruit-a-tives" and I want to say to those who suffer from Indigestion, Constipation or Headaches — try "Fruit-a-tives" and you will get well".

CORINE GAUDREAU.

New Members For Board Of Trade

The following list of applications for membership in the Board of Trade was unanimously passed upon yesterday by the membership Committee.

J. Hampden Burnham, Wm. H. Hamilton, Robert N. Jones, Wm. C. Ackerman, Ward Grady, Walter G. Belleghem, Bert W. Manning, T. Harry G. Denne, T. C. Elliott, Wilfred Lawson, George Leader, Benjamin F. Ackerman, Edward W. Borbidge, Roscoe F. Downey, Nicholas Douros, Edward G. Patterson, Edmund Wand, Arthur Rountree, Alex Waddell, Harvey Staunton, Frank White, Joseph Wearing, James Seymour, W. R. Widdess, Robt. G. Sturgeon, Louis Yeotes.

NEW HALL

(Continued from Page 1.)

over 500. The following year great progress was made by President H. Staunton and all the officers connected with him, starting with a membership of 40 and ending with over 300 members. The main features or last year's work were establishing an annual tag day and church parade in commeration of the second battle of Ypres. Also a day was set aside for the decoration of graves of out departed comrades. Also the formation of the G.W.V.A. band which under the most excellent leadership of Comrade W. Hughes, it has been brought to such a high state of efficiency it has been considered one of the best bands in Canada, having a membership of over forty bandsmen

The Ladies' Auxiliary.

The most outstanding feature of the year was the formation of the Ladies' Auxiliary, which, under the guiding of Mrs. Col. Mills, Mrs. W. R. Morris and others has a membership of over one hundred. Their duties are very many. One of the principals being to relieve the sick and needy. To them the credit is also largely due for the furnishing of our former rooms. They are considered the strong right arm of the association

This year the branch under its officers and a very strong executive are continuing the good work of its predecessors, our membership since the first of the first year has increased from 300 to over 00 members and we truly claim to say that over 95 per cent. of returned men has joined this association. In addition we are now the district headquarters of Peterborough, Victoria, and Haliburton counties, and have recently formed branches at Lakefield, Havelock and Norwood of this county

But the main feature of this year's work was the erection of our club rooms. This is being accomplished by the comrades of this branch; the plans and all work is being done by returned men, which shows what can be acomplished when everyone puts his shoulder to the wheel and push in the right direction.

Although everyone has worked very hard, still I feel I cannot pass over the services of Comrade R. E. Layfield without mentioning the fact that he was largely responsible for the drawing up to the plans of the building and his work stands out very prominent by during the erection of the above named building.

Now, before closing my remarks, I wish to draw your attention to the finances of this building as we are in need of $15,000. Every home and industry during this present week will be canvassed by a committee in order to secure the amount stated. When they call upon you kindly receive them and give a good donation so that the desired amount may be obtained. I feel quite certain you do not want these men who have sacrificed so much for you to go into this building with a mortgage over their heads.

Secretary Turley Orator

Provincial Secretary Turley made one of the best war speeches that has ever been heard in Peterborough and has a right to be classed with the leading orators of Canada. He is always bright and interesting, possesses a magnificent voice, has the charm which intense earnestness lends to any address, and is thoroughly familiar with every detail of the variety of subjects which he dealt with. He gave a history of the Association from its inception, told of what it had already done and what it proposes to do in the future on behalf, not only of the veterans themselves, but for humanity in general.

"The Veterans are not Bolshevists," declared the speaker, " and will tolerate nothing of the kind in others. In anyone waves a red flag in Canada they must not flaunt it in the face of returned soldiers."

One of the first gifts the members of the G.W.V.A. have received is a soda fountain presented by the members of the women's auxiliary.

True

This is the gospel truth, I guess
And will not later need retraction,
A man must work in bitterness
To get the sweets of satisfaction.

Can't Get Away With It

He—But do you think I could deceive my own little wife?

She—No, I know you couldn't, but you are silly enough to try.

On Sunday Penetang reverted to the old time.

MEAT INJURIOUS TO THE KIDNEYS

Take a Tablespoonful of Salts If Back Hurts or Bladder Bothers

We are a nation of meat eaters and our blood is filled with uric acid, says a well-known authority, who warns us to be constantly on guard against kidney trouble.

The kidneys do their utmost to free the blood of this irritating acid, but become weak from the overwork; they get sluggish; the eliminative tissues clog and thus the waste is retained in the blood to poison the entire system.

When your kidneys ache and feel like lead and you have stinging pains in the back or the urine is cloudy, full of sediment, or the bladder is irritable, obliging you to seek relief during the night; when you have severe headaches, nervous and dizzy spells, sleeplessness, acid stomach or rheumatism in bad weather, get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning and in a few days your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate clogged kidneys, to neutralize the acids in urine so it is no longer a source of irritation, thus ending urinary and bladder disorders.

Jad Salts is inexpensive and cannot injure; makes a delightful effervescent lithia-water drink, and nobody can make a mistake by taking a little occasionally to keep the kidneys clean and active.

How Can I Save--- With Profit?

Many wage-earners are asking themselves this question.

They do not want to put a quarter in the bank at a time, and before they know it, it is gone for trifles.

The Government has provided a simple plan to enable you to save that quarter in such a way that it will earn you more money

Twenty-five cents buys a Thrift Stamp. Sixteen Thrift Stamps become a War Savings Stamp, for which the Government will pay you $5.00 in 1924.

If you lend the Government your savings in this way, you can make your money earn over 4½% compound interest as often as you save $4.00 odd. That is more than Savings Banks pay you.

This is not only easy and profitable investment, but patriotic investment, because the Government needs money for the heavy financing of the reconstruction period.

In May W.S.S. Cost $4.04

In June W.S.S. Cost $4.05

War Savings Stamps can be bought wherever this sign is displayed.

RESULT OF MOTOR SHOW GIVES HANDSOME SURPLUS OF $1,325.69

This Goes to the Peterborough Health Association—Receipts Show an Increase of $304.19 Over Those of Last Year—Thanks to Public

The Advisory Committee of the Peterborough Red Cross met last evening to hear the report of the treasured Mr. Vanstone. as to the results of the motor show. His report showed a surplus of $1·425.69 was adopted and a resolution passed transpiring the amount to Mr. W H. Dunford. treasurer. of the Peterborough Health Association.

The following is the report:

Increased Receipts.

To the Chairman and Executive Committee of the Peterborough Motor Show:

I beg to submit herewith, my report as treasurer of the Peterborough Motor Show for 1919.

I take pleasure in drawing your attention to the surplus of $1,325 69, which is $111.60 greater than the surplus for the previous year, which amounted to $1·214.09.

I would like to make a few comparisons which should prove of interest to the Executive Committee The receipts for the show for 1919 were $2·106 14 as against $1·801.95 for the previous year. an increase of $304.19.

Last year (1918) an auto was donated by Mr. Roland Wilson and was raffled. and produced a revenue for the show of $292.50. In spite of this amount, which was really found money, the surplus for 1919, as stated above, is $11.60 greater than for 1918.

The expenses for 1919 are greater than for 1918; $780.45 as against $597.36 for 1918. an increase of $183·09.

All of which is respectfully submitted.

E. J. H. VANSTON.
Treasurer.

Peterborough. May 14. 1919.

Organization Remains.

Fr. Phelan was present and on behalf of the Peterborough Health Association sincerely thanked the organization for the effort which resulted so financially satisfactory for his association.

After a short discussion it was decided that the Advisory Board of the Red Cross would remain as an organization for an indefinite period as similar or other work might be accomplished at a later date in the public good.

Public Card of Thanks.

To the citizens of Peterborough, the patriotic organzations, artists and all those who in any way assisted in the operation, entertainment and support of the Peterborough Motor Show, we desire to extend our most earnest thanks.

The Peterborough Health Association, for which the affair was conducted will, as a result, be enabled to carry on their labor of love with a great degree of effectiveness and that the work of that organization is doubly appreciated by the public of Peterborough is evidenced by the magnificent co-operation and support given to the Motor Show to make it the tremendous success it was.

Again extending our warmest thanks for your splendid support we beg to remain yours with hearty appreciation. On behalf of the Advisory Board of the Peterborough Red Cross—G. H. Thompson, secretary, G. McDonald, chairman; E. J. Vanston, treasurer.

Nurses Graduation Exercises Tomorrow

DIPLOMAS AND MEDALS TO BE AWARDED—THE PUBLIC INVITED.

The graduation exercises of the Nicholls' Hospital will be held in the Collegiate hall tomorrow evening, at 8 o'clock. This is always an interesting function, even to the general public, whose attendance is cordially invited.

Mr. Richard Hall will preside as chairman, and an address by Mr. Jos Wearing is on the program. The graduates will be addressed by Dr. F. C. Neal. Dr. G. S. Cameron is to present bandaging prizes to Misses Ruth E. Jones and Letitia White. Miss Sanderson, head of the hospital's training school the past three years, will confer the medals. The winners of the Harvey medal for general proficiency (presented by Dr E. E. Harvey) is Miss Ruth E. Jones.

This year's graduating class of nurses is composed of Misses Ruth E. Jones, Letitia White, Alma O. Dobbin, Lulu Brown, Mrs. Carol M. McCarthy, Mrs. E. J. Hanna (nee Miss Parsons.

Mr. and Mrs. Maurice Park have kindly consented to provide the entertaining numbers.

OBITUARY

MARY E. PRATTON

The death occurred in Peterborough on Monday, May 19th, of Mary E. Pratton. The remains were forwarded to Nanticooke for interment.

ROBERT J. DEYELL

The death occurred at the family residence this morning, at lot 1, concession 3, Smith, of Mr Robert J. Deyell, in his 62nd year, after an illness of ten months. His wife predeceased him five years ago. One son, Elwood, and one daughter, Madeline at home, survive. Mrs. A. Franks, of Emily, and Miss Elizy Deyell, of North Monaghan, are sisters. Four brothers also survive, George, of Smith; Sam, of Smith, and Frederick and Wellington, residing in the West.

The funeral takes place on Wednesday. Service at 2 p.m. (standard time), from the family residence, Fowler's Corners, Rev. I. Craw of Springville officiating.

DENNIS FERRIS

The death occurred in the House of Providence yesterday evening at 8 o'clock of Dennis Ferris. The remains will be conveyed to Lindsay for burial on the 5.25 train this evening.

AUBURN MILLS CO. WIN ON APPEAL

JUDGMENT GIVEN AGAINST FIRM IN LOCAL COURT SET ASIDE.

Judgment was handed out at Osgoode Hall yesterday in the action of Meharry vs. Auburn Woollen Company by the Court of Appeal. At trial in Peterborough at the Spring Assises Sir Glenholm Falconbridge awarded Mr. Meharry judgment and from this an appeal was entered by the Company which was argued before the First Appellate Division. The Court of Appeal have allowed the appeal and dismissed the plaintiff's action with costs both at trial and of appeal. Mr. Strachan Johnston, K.C. and Mr. J. E. L. Goodwill, Solicitor for the Auburn Woollen Company were counsel for the Appellant Company. Mr. Meharry was represented by Mr. R. R. Hall and Mr. J. F. P. Birnie.

The following is a copy of the judgment handed down by Chief Justice Meredith.

Meharry v. Auburn Woollen Mills—S. Johnston K.C., and J. E. L. Goodwill (Peterborough) for defendants. R. R. Hall and J. F. P. Birnie Peterborough for plaintiff. Appeal by defendants from judgment of Falconbridge, C. J., of 19th February, 1919, awarding plaintiff judgment and a reference to ascertain damages for gravel taken, with further directions and costs reserved.

Judgment: Appeal allowed, judgment below reversed and action dismissed, all with costs. Appellants to repay $700, subject to have a lien on it for their costs of action and of appeal.

The Drive Is On

Your Chance to Help Is At Hand

This week is Peterborough's Returned Soldiers' Week.

There has been arranged a program of activities that extends until Saturday night. These all promise to be successful.

But the success of the big event of the week depends upon the people generally.

By "big event" is meant the drive for $15,000 to render the splendid G. W. V. A. Hall free from debt.

You have perhaps given liberally through the war. Just now you may be feeling "a little fed up," to use army slang.

But don't you think that in the long years of the war the men you are asked to help this week were "fed up" too?

Do you imagine the sacrifice you have made in contributing to patriotic movements can compare with that made by them?

Do you think that $15,000 could compensate the soldiers for the suffering and horror they have gone through in the past four years and a half!

The Veterans are asking their fellow-citizens to give them this splendid building free of debt so that they can have a place in which to meet and to carry on their work.

They will undertake to maintain the building after that. What they need is a fair start. They ask the people to see that they are not handicapped on the go-in.

Canvassers will call at every home in Peterborough, if possible. The majority of these collectors will be in uniform. They will be men who have served. They deserve well at the hands of their fellow-citizens. They should be given a cordial reception.

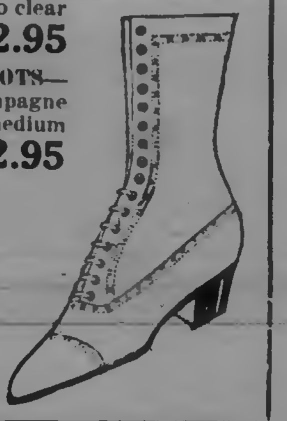
Their mission is not exactly a pleasant one, but they have undertaken it as a duty in the same spirit in which they tackled the "big job" over there. Their task should be made easy by the citizens generally

The purpose of the campaign has been laid before the public with sufficient clearness to prevent any misunderstanding.

By this time the people of Peterborough have surely decided upon their course and will be prepared to help the drive on to success. A cash donation is always preferable, but a pledge to pay will be gladly received.

If it had not been for the boys you are now asked to help and their comrades, you might not have had very much at this time to give anybody.

Show Gratitude for the Men Who Fought for You at the Front



Holiday Shoe Specials

For Ladies, Men, Boys and Children ALL THIS WEEK

ROCKING CHAIR FOR MR. HENDRY

MARK STREET SUNDAY SCHOOL PAY HONOR TO RETIRING SUPERINTENDENT.

On Monday evening many friends and members of Mark street church met at the home of Miss E. Kemp, Bethune street, and presented Mr. T. Hendry, the retiring superintendent of Mark street Sunday school with a beautiful leather rocking chair. The presentation was made by Mr. K. Throop, while the following address was read by Mr. J. Speer:

Mr. T. Hendry:

Dear Superintendent: It is with feelings of keenest regret that we have come to the time of your separation from our Sunday school and church. During the years you have been associated with us in the work of Christ your service has been effective in building up our school as an organization and as an integral factor of our church life. You have been exceedingly faithful to its interests under circumstances that have made your service sacrificial in character. We have come to trust your judgment and have recognized the ability and earnestness of your efforts in our behalf. We desire to give expression to our appreciation of your life and to acknowledge the obligation under which your faithful services have placed us, and ask you to accept this smal token of our affection and esteem.

Signed on behalf of Sunday school and congregation.

R. A. WHATTAM,
Pastor.

Mr. Hendry replied in a few well-chosen words, thanking the donors for their kindness. After lunch had been served the evening was spent in games and music.

Victory Bonds Bought

Those who may desire to sell Victory Bonds should come to my office or communicate with me. I buy Victory or War Bonds of all maturities, in any amount, and I am prepared to pay the best price.

The CRESSMAN Company Limited

PLANNING PEACE DAY CELEBRATION

MAYOR WILL PROCLAIM HALF OR WHOLE DAY HOLIDAY—ACT WITH MINISTERIAL ASSOCIATION.

The City Council's Legal and Reception Committee held a long session last evening.

City Solicitor Widdifield advised that the Industrial Exhibition Board request that they be allowed to connect the proposed lavatories on the exhibition grounds be not granted His reason for this advice is that there is litigation between Monaghan Township and the city in regard to sewage discharge into the Otonabee River.

The Exhibition Board will be notified to this effect.

The Hatton Injunction

The city solicitor did not advise appealing against Judge Lennox's quashing of the McDonnell street sewer by-law. The solicitor laid stress on His Honor's ruling that the real motive of the by-law was to give effect to an agreement of November, 1918, with Mt. St. Joseph, outside the corporation and not to serve the public interests in the city or Peterborough.

The committee will not recommend to Council an appeal.

Peace Celebration

Rev. J. R. Webb, secretary of the Ministerial Association wrote that, in the event of the signing of peace in the near future the Association is arranging a service similar to that held when the armistice was signed. He enquired whether it is Council's intention to work in unity with the Ministerial Association on that event.

The Mayor said he had in view proclaiming a half or a whole day's holiday.

On motion of Ald. Phelan and Hamilton, His Worship and Ald Turner were empowered to act in conjunction with the Ministerial Association in arranging a peace celebration.

S. A. BAND PRACTICE.

The Temple Band will meet for practice tonight at 8 o'clock. A full attendance is requested.

A huge bomb was found in a fourteen-story loft building at the Brooklyn Bridge.

CONVEYANCE TO GREEN ESTATE

COUNCIL PASSES BYLAW TO STOP UP PART OF RIVER FRONT RESERVE.

At a special meeting of the city council last evening a by-law authorizing the stopping up of a part of the high way, reserve, right-of-way, or road allowance along the river front, and for selling the soil and freehold thereof to the estate of the late Edward Green, passed it several readings. This right-of-way is situated just to the south and in the reer of the Green block, corner of Charlotte and Water streets, the use of which has been enjoyed by the estate undisputed for some years. Its transferrance affects neither city or private interests. The southerly corner of the block encroaches on the reserve somewhat, but even at that traffic has not suffered and will not in future suffer thereby.

The transferrance had been legally advertised, and no objections found thereto.

On motion of Aldermen Turner and Hamilton the City Solicitor was instructed to forward this by-law to the Lieut.-Governor in Council for approval.

Members Present

Ald. Harry Phelan in the absence of Mayor Duncan filled His Worship's chair and filled it well, especially so, from a point of avoirdupois.

There were also in their seats Aldermen Morrison, Garside, Hamilton, Taylor and Edgar.

ADMISSION 16c TO ALL

THEATRICAL

MARGARET ANGLIN
"Billeted" at the Grand, Tuesday, May 27.

THE SAVING GRACE BY CYRIL MAUDE

NOTABLE STAGE PRODUCTION EQUAL TO FORMER SUCCESS, "GRUMPHY."

At the Grand Opera House Thursday evening, Mr. Cyril Maude and his supporting company, under the direction of Charles Frohman, will appear in C. Haddon Chamber's new comedy, "The Saving Grace." The character of Blinn Corbett, an ex-British army officer and lovable ne'er-do-well, as portrayed by Mr. Maude, is in every particular as notable a stage figure as the actor's earlier creation, "Grumpy" which is to say that it is a characterization which will remain firmly fixed in one's pleasurable recollections of the theatre for a long time to come. Miss Laura Hope Crews, long a favorite in this city, is seen in the charming character of Mrs. Blinn Corbett—a role admirably suited to the talents of this winsome actress. Others in the cast who are most happy in their roles are Miss Betty Murray, Miss Annie Hughes, Miss Charlotte Granville, Mr. Edward Douglas and Mr. Stanley Harrison. The comedy pictures, in most engaging fashion, the lighter aspects of life in a small English village during the early days of the great war. Although much more humorous it has something of the same atmosphere as Mr. G. H. Wells' novel "Mr. Britling Sees It Through." It is in no respect a war play, though it is the influence of the war that brings about the many amusing complications, and finally the happy conclusion to the story. It shows, as no other play of the period has done, the compelling influence of the world struggle upon the souls of people hitherto given over to frivolity. Altogether "The Saving Grace" is a most delightful and refreshing entertainment.

Cook's Cotton Root Compound.
A safe, reliable regulating medicine. Sold in three degrees of strength—No. 1, $1; No. 2, $3; No. 3, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: THE COOK MEDICINE CO., Toronto, Ont. (Formerly Windsor.)

Pulpit Approves This Famous Play

The Grand Opera House will have on Friday, Matinee and Evening, with a special children's matinee at [illegible] p.m., Wm. H. Kibble's mammoth production of the imortal American drama "Uncle Tom's Cabin," the most correct and impressive scenic production of the late Harriet Beecher Stowe's everlasting legacy to posterity ever seen in America, the only version that has been acepted by the pulpit as a moral instructor. No such amount of money as Mr. Wm H. Kibble has spent on this play has ever before been expended on this neglected and much abused American drama. They have taken great pains in the selection of the cast and have engaged actors for their special fitness for their various parts, rather than for their ability to play some instrument in the band, which has been the rule with managers of like attractions. The company which Mr. Kibble will bring to our city is said to number over thirty people, including negroes to add to the pictures and sing and dance in the levee and other scenes.

QUEBEC ELECTIONS.

Quebec, May 20. The question of provincial elections will be decided this week by the government, in all probability. One section of the Liberal party is anxious to have elections, but another section is reluctant, and feels that there is no excuse for plunging the province into the turmoil of a general election.

Farmers of Huttonville are complaining of having their sheep attacked by dogs.

BILLETING SOLDIERS ALWAYS CAUSE OF ENDLESS TROUBLE

Foreword as to Play That Margaret Anglin Will Present at Grand Opera House Next Tuesday.

The meaning of the word "billeted" is not generally known over here. It refers to the providing of quarters (board and lodging) for soldiers. Troops have at all times made use of the shelter and local resources afforded by the villagers on or near their line of march.

The historical interest of billeting in England begins with the repeated petitions against it in the reigns of Elizabeth, James I, and Charles I, which culminated in the petition of Right.

The "billeting" of troops was superintended by a civil magistrate of the district to which the troops were sent or through which they passed. The Magistrate, who acted under an order from the King, too often spared his friends at the expense of his political or personal opponents. Owing to the abuses to which the system led, it was declared illegal by the Petition of Right in 1628, and again by an act of 1679.

During the reign of James II, however, orders were frequently issued for billeting. One of the grievances in the bill of Rights was the quartering of soldiers contrary to law. On the organization of a standing army after the revolution it was necessary to make legal provision for billeting owing to the deficiency of barrack accommodations, which sufficed only for 5000 men. Accordingly the Mutiny Act 1689 authorized billeting among the various innkeepers and victuallers throughout the Kingdom. This statuate was renewed annually from 1698 to 1879, when the Army Discipline Act, consolidating the provisions of the Mutiny Act was passed. This statute was replaced by the Army Act 1881 (renewed annually by a "commencement" act) which contains the provisions by which it is now degulated.

The army act 1909 provided for the billeting of the territorial forces in case of national emergency, on occupiers of any kind of house at the discretion of the chief officer.

In short the word denotes the housing of a military official by a private individual.

The funny side of social life during the recent war times in England is shown most amusingly in "Billeted", a comedy by F. Tennyson Jesse and Major H M Harwood (British Army) which Margaret Anglin will present at the Grand Opera House on May 27th.

In this delightful play which approaches the old fashioned comedy of manners, Miss Anglin is seen at her best. The play possesses a quiet humor, delightfully amusing situations and brilliant dialogue and is altogether the sort of entertainment which makes one happier for having spent an evening at the theatre. The play comes here from long engagements in New York, Chicago, Boston, also Washington where Miss Anglin is now playing and might have remained for a longer period but for previously contracted bookings.

Miss Anglin's supporting company includes Langdon Bruce, Phyllis Birkett, Harry Barfoot, Myra Burrington, Sally Williams, Ralph Kemmitt, Alice Coburn and Fred Eric. The engagement is for night only.

DENOUNCES COVENANT.

Washington, May 20. — Senator Lodge, Republican leader, and Chairman of the Foreign Relations Committee, in a statement declared that the revised League of Nations "is unacceptable" and predicted that it would not be accepted by the majority of the Senate without amendment.

M. Cornwall died at Ingersoll, aged 76.

Goderich expects to double its population in the near future by the influx of manufacture.

ELSIE RYAN
In Tea for Three at the Grand, Monday, May 26th.

Ethel Strickland In "Turn to the Right"

HOLIDAY ATTRACTION OFFERED BY THE GRAND NEXT SATURDAY.

There is something very fascinating and sweet about Ethel Strickland who plays the part of Widow Bascom in "Turn to the Right" at the Grand Opera House, Saturday Matinee and Evening. It is not that there is any flaw in the make-up or in the delineation allowing the really young woman to be discernible through the mimic old one. It is simply that Miss Strickland has an innate appreciation of her role which enables her to present that kind of lovable old lady from whom gray hairs do not take away the charm that abides in maidenhood itself. She is maternal, but not fussily so, she is dignified without stiffness she sees her mental prototype as one of those gentle figures of the age of bonnet and gimp who, instead of inviting the cynicism of man, softened his rough edges and made his home a delight.—W.E.I. in the Winnipeg Free Press.

AT THE GRAND

La Rose and Lane are the headliners at the Grand the first half of this week and they present a very entertaining act, which consists of comedy talk, songs and dances. The representation of an inebriated man by the male number of the team is very amusing and their songs and patter are all new.

Bissett and Scott presented some very eccentric dances and were well received.

Allan and Betty Leiber, in a comedy skit entitled "Breaking It Gently," introdued some very amusing situations and drew great applause from the large audience.

"The Turn of the Wheel" is the title of the feature picture in which Geraldine Farrar again proves herself to be as popular on the screen as she does on the operatic stage. The story opens in the casino at Monte Carlo and one gets a fair idea of the operation of a roulette wheel. The hero is arrested, charged with the murder of his former wife and taken to New York to stand trial. In order to shield the wife of his brother who was with the guilty man at the time of the crime he permits himself to be held in the tombs facing the usual fate of murderers. Through the investigations of Rosalie Dean (Farrar) the real criminal is brought to light and the innocent man released.

The Screen Magazine and an amusing comedy film complete the program, which will be repeated today and tomorrow.

Toronto Press On "Tea For Three",

Following are a few comments from Toronto papers on "Tea for Three" which will be at the Grand, on Monday evening, May 26th,:

Accomplished Actor

"Elsa Ryan showed herself an accomplished actress. She has grace and a fine sense of the picturesque in addition to emotional powers out of the common run. Mr. Norman Hacket made love beautifully. Haydn Stevenson was excellent as the long-suffering husband and the piece was staged daintily and in a novel manner."—The Times, Toronto.

A Brilliant Comedy

"Tea for Three" shows wonderful finish, and billiant comedy. Norman Hackett gives masterful handling of the role of a man of the world. Elsa Ryan plays charmingly.—The Star, Toronto.

"The Eternal Triangle"

"Brilliant comedy with the 'eternal triangle' for a theme was presented at the Royal Alexandra last night to a crowded house. An exacting part played with great charm by Miss Elsa Ryan and Norman Hackett gave a very convincing performance of the friend who was much of a Romeo and a lover of the primrose path. Haydn Stevenson carried off the part of the business man well and the entire entertainment was a joy and a delight."—Globe, Toronto.

Dialogue is Capital

"The comedy is one which should be almost as enjoyable in the reading as acting. The dialogue is capital, and of a quality we do not often get in our theatre. Miss Elsa Ryan's role is much more difficult than those in which we have seen her in past seasons: "Peg o' My Heart," and "Out there." It demands real intelligence and complete discretion.—Mail and Empire, Toronto.

HASTINGS PAYS TRIBUTE TO ITS MARTYRED DEAD

Pictures of the Nineteen Young Men Who Fell in the War Unveiled at Large Gathering of Residents.

Hastings, May 20—A goodly company of representative citizens met in the I.O.D.E. rooms on Wednesday evening when the unveiling of the picture of the nineteen Hastings boys who gave up their lives for King and country during the late war, took place.

The meeting was opened by the regent of the Chapter, Mrs. P. Howard, who in a brief address, stated the motive that prompted the securing of the picture and called on Mrs. N. P. Plant to unveil it, which she very gracefully did.

The picture, which is nicely framed, bears the inscription "Their Names Shall Live Forever," and presents the photos of the following:

Pte. S. Stricton
Lance Corp. Jos. Wharrie
Pte. J. W. Devine
Pte. John Doherty
Capt. Chas. West
Pte. Ben Hicks
Pte. Russell Scriver
Pte. James Warner
Pte. Thomas Parker
Pte. Reginald Plant
Pte. Leo Logan
Pte. Roy Richardson
Gunner Jas Barry
Sergt. A. Dunlop
Pte. Will Powers
Trooper Donald Foulds
Lieut. E. H. Stevenson
Pte. Albert Peters
Pte. Wm. G. Seeney.

The speakers who were called on for addresses were Rev. D. A. Thomson, Father Bretherton, Rev. Isaac Snell and Rev. Mr. McKim, who each pair high tribute to the memory of the boys and congratulated the Chapter on the excellent work which had been done in sending comforts to the soldiers every month and in many ways showing their appreciation of the sacrifice they had made and one offered the suggestion that this be made an annual affair and that the picture be decorated with flowers every year.

After singing the National Anthem the members of the Chapter served cake and coffee and the gathering dispersed, feeling that the evening had been well spent.

A well attended meeting was held on Saturday afternoon in the basement of the Methodist Church for the purpose of re-organizing the Mission Band. After some discussion it was finally decided to amalgamate the Mission Circle and Band and, as the result of a ballot, the following officers were elected:

—For Mission Circle—

Hon. President—Mrs. C. Jones.
President—Miss Ona Doysee.
1st Vice-President—Miss Eva Ellis
Corresponding Secretary—Miss L. Smith.
Recording Secretary—Miss Gladys Stevenson.
Treasurer—Miss Louisa Small.
Supt. of Christian Stewardship—Miss Kathleen Simpson.

—For the Band—

1st Vice-President—Roland Jones.
Secretary—Cecil Waye.
Treasurer—Bryan Scriver.

The names chosen were "Cavell Circle" and "Friendly League" Band.

After the election of officers the following program was given:

Piano solo—Miss Ona Doxsee.
Solo—Miss Helen Wilcox.
Recitation—Miss Hazel Waye.
Piano solo—Miss Gladys Stevenson
Solo—Miss Kathleen Simpson.

Light refreshments were served and the meeting adjourned to meet monthly. The superintendent, Mrs. Jones, and her assistant, Mrs. Waye have every reason to be encouraged with the success of the gathering.

[illegible]

Much sympathy is extended to Mr. and Mrs. E. Pettigrew in the loss they have sustained by the death of their infant son as the result of an attack of pneumonia. Their little daughter has also been very low but we learn that she is now improving.

A quiet wedding took place at the Methodist parsonage on Wednesday when Miss Jean Oakley of Asphodel became the bride of Mr. Clifford T. Robins of North Bay. Their many friend extend congratulations and [illegible] them a long and happy wedded life.

The W. M. S. of the Methodist Church held their regular monthly meeting on Thursday afternoon in the church parlor with a good attendance and an excellent program. Four new members were received and welcomed by the Society.

At the Methodist parsonage on Wednesday the Rev. Isaac Snell officiated at the marriage ceremony of Mr. Harold Brown and Miss E. Free, both of the Township of Seymour.

Mr. and Mrs. Jas. Stewart, of Toronto, have taken up residence in their summer cottage on the banks of the Trent. Their many friends are glad to welcome them back.

Mr. W. Baker took a trip to Toronto during the week.

Misses Gertie and Sabra Huycke were in town last wek visiting their grandmother, who is very ill.

The funeral of the late Master James Clysdale, the 11-year-old son of Mr. and Mrs. George Clysdale of Percy, was held on Saturday afternoon. Place of interment, Trent Valley cemetery. The sympathy of the whole community is extended to the bereaved parents who were one time residents of Hastings.

Mr. McColl, of Wooler, has been the guest of Dr. and Mrs. Hess.

Mr. V. German and party motored to Peterboro on Friday evening and took in the show.

Mr. Hugh Robb, of Norwood, was the guest of his daughter, Mrs. J. Thomson on Saturday.

Mr. Walter Thomson, who has been ill at Kingston, is so far recovered as to visit his parents Rev. D. A. and Mrs. Thomson.

Mr. Jack Parsons, of Campbellford, was in town during the week.

Mr. Ray Merrill, of Kingston, visited friends here during the week.

A interesting service took place at the Presbyterian Church on Sunday morning when the memorial tablet erected in memory of the boys of the congregation who had made the supreme sacrifice during the late war, was unveiled. The tablet is of marble and contains the names of eight fallen heroes—Dr. Armour, Fowlds, Devine, Dunlop, Yule, Wharrie, Seeney and Hicks.

This was also the occasion of the re-opening of the church, after the recent decorations, Rev. D. A. Thomson preached to a large congregation, while the service of song was conducted by the choir of the church, assisted by Miss E. Fowlds, Miss Ida Lynn, of Peterboro, and Capt. Walter Thomson, who each rendered a solo. The decorations, which were under the able supervision of Mr. Brown, of Toronto, are exceedingly artistic and the tones very harmonious and the building now presents a most tasteful appearance. The scene behind the choir loft is most suggestive, being a representation of the Christ in the act of blessing the children while on the scroll above appears the words, "Suffer Little Children to Come Unto Me." Altogether the scheme reflects great credit, both on the decorator and the committee who had the work in charge.

Mr. Frank Kerr, of Peterboro, spent Sunday at the home of Rev. D. A. and Mrs. Thomson.

Miss Stella and Wilma Burgess of Norwood, were in town on Sunday.

Mr. and Mrs. Bowes spent Sunday in Millbrook.

Lieut. Currie, of Kingston, is the guest of Rev. D. A. and Mrs. Thomson.

Mr. Asa Huycke, of Peterboro, visited in town on Sunday.

Early risers report a white frost on Monday morning.

Miss Ida Lynn, of Peterboro, spent the week-end with Mr. and Mrs. A. Knight.

Mr. Harper and Miss Helen, of Peterboro, intend spending the summer here and have secured rooms with Mrs. T. Tearmouth.

Mr. T. J. Lancaster, of Havelock, has purchased a four-ninety Chevrolet touring car from Dr. Hess, the local dealer.

Mr. Cunningham, of Peterboro, called here during the week.

Mrs. Huycke, of London, is the guest of her sister, Mrs. Abra Merrill, town.

DARIO RESTA FAVORITE IN BETTING IN AUTO RACE

But Refuses to Show Top Speed Sending His Car Only at Average Rate in His Praotice Spin.

Indianapolis, May 20.—Dario Resta favorite in the betting for the Indianapolis 00-mile Liberty Sweepstakes on the Indianapolis motor speedway, May 31, achieved the complete discomfiture of the dopesters and followers of rival racing camps at the Hoosier track when he put his blue enameled Sunbeam racer over the bricks for the first time this season.

It had been whispered that Dario would let out his mount in its first trial; instead he drove in a manner carefully to conceal its real ability, loafing along in spots where speed ordinarily is expected and stepping on it in unlooked-for moments. As a result only Dario is able to tell at this writing exactly what his car is capable of, and naturally he is keeping this information to himself.

Resta wore a satisfied smile, however, as he rolled to the pits at the conclusion of his trial, and it was evident to the bystanders that he was not displeased with his performance. He will not take to the track again until he knows his car is absolutely right, and then lock it up until the start of the time trials immediately prior to the race.

It is Resta's habit to get his car in shape as early as possible and then to forget about it until the contest. In this he resembles some of the great stars of the square circle who, knowing they were fit for a great battle, worried so little about it that their seconds had to wake them up from a sound sleep to get them into the ring.

There is no question but that Resta will be in the best shape of his career to go into the long Indianapolis five-century grind, and the man who beats him will know he has run a race.

Activities at the Indianapolis speedway are picking up now every day. The French Ballot cape are being groomed by Rene Thomas and Albert Guyot for their first appearance on the bricks and Jules Goux occasionally shows up to rip off a Peugeot that Andre Boillot will pilot in the coming contest. This Peugeot is the smallest car in the entire race, but is capable of a sustained speed of more than 95 miles an hour, and will bear a lot of watching.

With the coming of warm weather the old throng of racing fans will soon hold its daily assemblage at the track to breathe the gasoline incense and to worship at the shrine of the great joss, Speed; the brew bubbling in the dope bucket will receive a fresh admixture of facts suppositions and conjectures, and the Indianapolis 500-mile race will be won and lost many times before the field of starters actually rolls to the tape.

Trapshooters To Meet on Thursday

The Peterborough Gun Club will hold their weekly shoot on Thursday evening, May 22, at 6.15 instead of Friday on account of the holiday coming on the 24th. All the members and local trapshooters are invited to be on hand as there will be the regular shoot and a Blind Handicap. The latter will be a decided novelty and will create a lot of fun for the shooters. Mr. Ed. Wright the local tobacconist has kindly donated a box of cigars for the first prize in this event.

The Lakefield members of the local Gun Club have become greatly enthused over this sport and the little village at the north promises to turn out some crack trapshooters. Any gunner interested will be quite welcome at the grounds on Thursday evening.

Rev. R. J. M. Perkins of St. James' Church, Ingersoll, announced his resignation to accept the appointment of rector of Christ's Church, Chatham.

De Lavals Win From the Packers

Last night at the Water street Alleys the De Lavals won all three games from the Packers. For the De Laval Barrett rolled high single of 306, with a high three of 635. Lafave and French also passed the 500 mark. For the Packers Everett passed the 500 mark.

SPECIAL SERVICE OF THANKS HELD BY ANGLICANS, LAKEFIELD

For Safe Return of Soldiers From Overseas—Tribute Paid to Memory of Fallen With Impressive Religious Ceremony.

The special thanksgiving service for the safe return of the soldiers of Lakefield and district from the great war and a memorial for those who offered their lives and return not again was held in St. John the Baptist Church on Sunday evening.

The church was very artistically decorated with flags and flowers, by the chancel guild. The members of the Local Branch of the Great War Veterans Association in uniform were present also the High School Cadets, Grove School Cadets, Wolf Cubs, and Girl Guides. The order of service was as follows:

Voluntary—Miss K. Atwood, Organist.

Mrs. J. Strickland, Mrs Buton, and Miss Helen Strickland of Toronto, violinists.

Processional hymn— No. 624 — Aurelia.

Evensong.

Special Psalms 64 70 125.

Special lesson—Joshua 24, v. 14. to 28.

Cantate Domino.

Second Lesson— Revelations 7, v. 9 to end.

Deus Miseratur.

The Apostle's Creed.

After Third Collect.

Hymn—A hymn of Peace—Golden Sheaves.

United prayer

Hymn—A National Hymn—Pentecost.

God of the past, the present God,
For all Eternity the same,
Who spake the all creating word,
And by whose will the world's became.

Through bygone years, with arm revealed.
Leading our race through gloom and shine
Thy doings often time concealed.
Wrought through us purposes Divine.

Above the nations all around.
Thou hast advanced us, made us great,
With thee alone, can strength be found.
To keep us in our high estate.

No futile boast of earthly power,
May we employ in vaunting mood;
Nor yet before oppression cower.
To taste the momentary good.

Thou, Lord bast called us to control
The destinies of many lands,
Wide as the sea's majestic roll.
Our name for peace with honor atands.

So may our heritage remain.
May no debasing love of gold
The brightness of our record stain,
Nor our integrity be sold.

To lead from light, to clearer light:
Till in Thy light we fearless stand
May righteousness and peace unite
With truth and justice hand in hand.
Amen

Address Rev. L. Taylor. Subject: Cantate Domino, Psalms 93, 1st verse —O Sing unto the Lord a new song for He hath done marvellous things, His right hand and His holy arm, hath gotten us the victory.

The memorial hymn No. 279—S. Chrysostom.

Closing hymn, No. 657—Oriel.

National anthem.

Benediction.

Anthem—O Praise ye the Father.

Recessional voluntary—Reverie, by Miss Attwood Organist; Mrs. J. Strickland, Mrs. Button, Miss H. Strickland, violinists.

O Canada— Miss Attwood, Mrs. Button, Miss Strickland.

During the service indirect mention was made of the two fallen heroes of St. John's Church, namely, Corp. Sherman Mahood and Lieut. Geoffrey Hilliard, Royal Canadian Dragoons, who died of wounds in December 1917.

A memorial tablet has been placed in the church in memory of Corp. Mahood, who was killed in action at Arras, by the Anglican Young People's Association of which he was a member.

The Maple Leaf Club will hold a sale of home made candy and cake in St. John's Sunday School room on Wednesday evening May 21st from 7 to 9 o'clock. The girls ask their many friends to help them in making this sale a success as they wish to present as generous a gift as possible to the Lakefield Great War Veterans' Association.

The Women's Auxiliary of St. John's Church held their closing meeting at the residence of Mrs. Wm. Graham, where the spring bale for Shingwauk Home was packed for shipment. The meetings of the W. A. will be discontinued until October.

40th YEAR No. 119 Peterborough's Oldest Newspaper. PETERBOROUGH, ONTARIO, WEDNESDAY, MAY 21, 1919. Price Two Cents Per Copy

ALL IS QUIET IN WINNIPEG AND SETTLEMENT IS LIKELY

Conciliatory Conversations Between Interested Parties Develope into Direct Conferences—Some Attempt Made This Morning to Resume Business.

(Canadian Press Despatch.)

Winnipeg, May 21.—H. G. Veitch, member of the Executive Committee of the Central Strike Committee, announced today that negotiations were in progress to develope conciliatory conversations, which have been taking place, into "direct conference", looking toward a settlement of the general strike here.

The immediate restoration of the normal city water pressure was ordered by the City Council today. Some delivery trucks appeared on the streets this morning when business men began to make an attempt to resume the delivery service. No serious disorders were reported.

FROM THIEF RIVER.

Thief River Falls, Minn., May 21.—Up to a late hour last night when this despatch was filed nothing of untoward nature had occurred in strike-ridden Winnipeg. The indications are that the Northwets Mounted Police and military have made every preparation for handling trouble if it develops. The regular city police walked off the streets yesterday at noon when their Union heard that the militia would take control. Hundreds of private autos have been requisitioned by the authorities and supplied with Government signs, O. H. M. S., to be used in an emergency. Members of the Citizens' Committee says that "everything is working fine." and the Strikers' Committee is preparing a new offer of settlement and this will be taken up on Friday.

The chief question is now whether railway trainmen will join the strike movement, thus stopping all transportation of the railways from Fort William west. It is thought this quite probable. Chief Detective Geo. Smith of the city police states that the city has never been so free from disorders as at present. Hardly an arrest has been made and the unions are continually preaching to members not to do anything that would cause trouble.

444 CHEESE SOLD AT 31C THE POUND

PETERBOROUGH CHEESE BOARD MET THIS MORNING—OFFICERS ELECTED.

The Peterborough Cheese Board met in their first session for the season in the Bank of Montreal Chambers this morning.

Four hundred and forty-four cheese were boarded, and the whole board went to buyer T. H. Thompson for A. A. Ayer Co., Montreal, at 31c a pound. The bidding started at 29c and climbed upward slowly.

Officers Elected

The following officials for the year were elected:

President— Mr. Thompson, Braden, Lakefield.

Vice President—Mr. John Breckenridge, Westwood.

Secretary—Mr. H. Hawthorne, Warsaw.

The Board adjourned for two weeks.

FARMERS DECIDE TO TAKE A HAND

WHEAT GROWERS OF WEST WILL ENTER THE POLITICAL FIELD.

Calgary, May 21.—The agricultural West also is planning to launch a movement based upon dissatisfaction with existing conditions. But the farmers plan to accomplish their end by going directly into politics.

The United Farmers of Alberta are arranging a series of meetings with a view to making their organization a political force. According to reports of the preliminary conference the practically unanimous sentiment voiced was that "we are through with Union Government," while the opinion was expressed with equal directness that the West had nothing to hope from an Opposition led by Mr. D. D. McKenzie and dominated by influences in Quebec.

The plan of the farmers is to organize with the purpose of seeding to the next parliament a solid phalanx of representatives pledged to the tariff planks of the Canadian Council of Agriculture, and to seek the co-operation of Labor in solving the existing condition of unrest by the adoption of [illegible] measures calculated to deal effectively with profiteering in foods and manufactured necessaries of life, and by the recognition of all industrial workers to the right of a wage commensurate with the prices charged for the commodities they must buy.

EX-MEMBERS 21ST BATT. INVITED TO KINGSTON

Preparations are being made for a great reception at Kingston to the 21st Battalion on its arrival Friday or Saturday from overseas. There are about 50 Peterborough boys in the 21st homeward bound, and others are already home. And all ex-members of this gallant battalion are invited to Kingston to participate in the reception proceedings, free of all expenses after reaching the limestone city. This invitation was received by Mayor Duncan this morning:

"Ottawa, May 20th, 1919.

"To the Mayor,
"Peterborough, Ont.

"Sir—Will you please ask the newspapers in your town to bulletin the fact that the 21st battalion will arrive in Kingston, either late Friday night or early Saturday morning, the 24th inst. All ex-members of the 21st Battalion are urgently requested to be in Kingston on Saturday morning and take part in the reception and a banquet which is being tendered to the Battalion by the citizens on Saturday evening. All expenses will be borne after reaching the city.

"Yours sincerely,
"(Sgd.) W. S. HUGHES, H.L.,
"Brigadier-General."

Trent Canal Will Receive New Aid

Ottawa, May 21.—A meeting of Senators and members of Parliament along the route of the Trent Valley Canal was held and the following committee was formed to promote the interests in its development for trade: Gen. Sir Sam Hughes, president; Dr. McGibbon, Muskoka, secretary; Senators McHugh, Beith, Benett, and the following members of Parliament: Hon. N. W. Rowell, J. A. Armstrong, Col. J. A. Currie, W. A. Boys, W. Small, J. A. Sexsmith, J. H. Burnham, E. G. Porter, J. B. Tudhope, C. A. Munson.

GERMANS ASK FOR FURTHER TIME

IMPOSSIBLE TO PREPARE FINAL ANSWER IN TIME LIMIT SET.

(Canadian Press Despatch)

Paris, May 21.—Count Von Brockdorff-Rantzau, head of the German peace delegation, has asked an extension of time for Germany to present her reply regarding the peace terms. The Count stated that further notes were being prepared and that it would be impossible to complete them by one p.m. Thursday, when the time-limit is up.

SENATE SHOULD WATCH FINANCES

THIS IS SEN. NICHOLLS' VIEW—CONTROL OF IMMIGRATION DISCUSSED.

Ottawa, May 21.—In the Senate yesterday the Government's Supply Bill was given a second reading. Senator Bostock, Liberal Leader, congratulating the Government for the detailed form in which the bill had been presented to the House. Senator Nicholls, however, said that he agreed with Senator Ross that the Senate should give more careful supervision to the Government's financial measures, and gave notice that he would move to amend the Senate rules so as to provide for a Finance Committee to deal with all money bills.

CITY COUNCIL AND LABORERS MEET

CONFER TO-NIGHT WITH B. OF T. INDUSTRIAL COM. AND THE TRADES AND LABOR.

A delegation from the Trades and Labor Council, the Laborers' Union and the Industrial Committee of the of the Board of Trade will meet the City Council tonight and discuss the wage dispute.

Both the striking laborers and the City Fathers are anxious for a fair adjustment of the trouble, as also are the merchants generally, some of whom it is understood have signed a petition in support of the men's claims.

Mayor Duncan's views are that the men should not insist on the same wage for outside workers as for those employed in factories. Out-of-door work hinges on weather conditions which do not apply to men engaged under shelter.

His Worship, it is inferred from his remarks in conversation, does not altogether object to a 45c an hour rate for men on the bridge and for other strenuous and semi-skilled employment for the corporation. He also contends that old men engaged by the city to keep them from charity should not be classed as competent laborers. He has lively topics for a settlement one way or the other tonight.

The Brotherhood of Railway Trainmen will award 16,000 members special medals for war work.

LATEST REPORTS FROM WINNIPEG

(Canadian Press Despatch)

Ottawa, May 21.—A feeling of optimism prevails in Government circles today as to the Winnipeg strike situation. Advices received indicate that matters are moving steadily forward in the direction of conferences and negotiations that will probably result in a settlement. The Railway Department has no news on the possibility of the railway trainmen going out. On the whole the outlook is regarded as much more favorable than yesterday.

Big Whiskey Still Found At Penetang

Penetanguishene, Ont., May 21.—Chief Watson of Penetanguishene and Chief Wright of Midland and W. Fisher, license inspector of East Simcoe, arrested an Italian on a farm just outside the town limit owned by two Italians where they found a large still and worm in full operation. There was enough mash to make from four to five thousand dollars' worth of whiskey.

AMERICAN PLANE IS IN DRYDOCK

NO START TO-DAY IN FLIGHT TO LISBON FROM THE AZORES.

(Canadian Press Despatch)

Washington, May 21.—The resumption of the Trans-Atlantic Flight by naval seaplane N C 4 again has been delayed. A message to the navy department early this morning from Admiral Jackson at Ponta Del Gada said one of the plane's engines had developed trouble and that the start for Lisbon would not be made today. No mention was made of weather conditions.

PREPARING FOR THE PLEBISCITE

DOMINION ALLIANCE GET READY FOR BIG BATTLE NEXT FALL.

(Canadian Press Despatch)

Toronto, May 21.—The provincial branch of the Dominion Alliance today re-elected the old officers and made important plans for the coming referendum campaign. A resolution was passed asking the Dominion Government to make permanent the present prohibitory order-in-council.

DARKNESS FOR MANY PLACES

IF HYDRO WORKERS GO ON STRIKE AS THREATENED.

DARKNESS — [illegible]

Picton, May 21.—"If my labor friends at Niagara strike as they threaten to do, they will plunge 134 municipalities in Ontario and more in the United States into darkness," said Sir Adam Beck before a big meeting here last night.

"We are going to reason," he declared. "We are going to be fair; we have got to, at the same time, be loyal to the public. My attitude when I meet the men tomorrow will be: 'Everything you are entitled to, nothing more then that, we are going to be fair.'"

TWO MORE WOMEN FOR THE TORONTO POLICE FORCE

Toronto, May 21.—The police commissioners yesterday afternoon on the suggestion of Chief Grasett decided to increase the force of policewomen from two or four. It is the intention of the chief to have the women patrol the streets at nights, looking after girls who live in boarding houses, and who are accosted on the streets and pestered by men.

No Tidings Yet Of Aviator Hawker

London, May 21.—Up to a late hour there is no word of any kind concerning Harry Hawker and Lieut. Commander Grieve and the Sopwith biplane in which they left St. John's Sunday afternoon. Not a single report has been received from any of the numerous airplanes, destroyers, mine sweepers and light craft of all descriptions which are sweeping the seas off Ireland.

AUTOISTS FINED IN POLICE COURT

ONE CARRIED NO TAIL LIGHT—ANOTHER TURNED CORNER TOO FAST.

Two cases of infraction of the traffic by-law were disposed of in the police court this morning.

One auto driver turned a corner so fast that he ripped off a tire. He was assessed $5 and $3.10 costs—$8.10 in all.

Another car owner paid into the treasury $12.19— $5 fine and $7.19 costs—for driving on Peterborough streets in the dusk of evening with no tail light burning.

TORONTO UNIONS STRIKE MONDAY

THAT IS ULTIMATION OF LABOR IN DEFAULT OF SETTLEMENT.

Toronto, May 21.—At an early hour this morning a statement was issued by the Press Committee of the 105 unions in session in the Labor Temple.

The 105 unions pledged their unanimous support of the Metal Trades Council.

In view of the report of the Executive of the Trades Council that negotiations will open on Friday, final action was deferred until Monday night to determine what action the Labor movement in Toronto shall take.

The convention requests the Acting Premier to immediately introduce legislation enacting the eight-hour day and forty-four-hour week to workers in Canada without reduction or make a public pronouncement that this will be done.

Two Holidays One Cause.

In the early part of the evening the consensus of opinion was for an ultimatum to expire on Friday night but the report of the Executive caused a change in the attitude of some of the delegates. It was pointed out that Saturday was a public holiday and that Sunday there were few trades unionists at work, and that a strike on Friday night would be useless. It would have the effect of hampering negotiations. It was also pointed out that it would be impossible for the delegates of the unions to reconvene again before Monday night.

CAPT. KENNEDY IS HOME AGAIN

LAKEFIELD HERO WON MILITARY CROSS IN SERVICE OF COUNTRY.

(Special to The Review.)

Lakefield, May 21.—Capt. M. P. Kennedy, of the C. F. A., who enlisted at the beginning of the war, has returned again to the village. In August of 1914 Capt. Kennedy went with the Heavy Battery to the Pacific Coast in case of German naval bombardment, and returned to Cobourg with the battery. In May 1916, he went overseas, and last year won a Military Cross for distinguished service in France.

Two army aviators at Arcadia Fla., made 457 consecutive loops during a flight lasting an hour and 54 minutes.

GERMANY FINALLY REFUSES TO ACCEPT TREATY OF PEACE

Cabinet Officially Declares That to do so Would Mean Political Dishonor and Moral Degredation not Only to Living but to the Unborn Generations.

(Canadian Press Despatch.)

Berlin, May 21.—"Germany declines to sign the peace terms laid before it because they spell economic destruction, political dishonor and moral degradation of the entire German nation, not only for the present, but also for still unborn generations," was the statement authorized by the Cabinet today through the Associated Press. "That these consequences must logically follow the acceptance of the peace conditions the American press itself has recognized without question," the statement continues. "Toward them Germany took the standpoint that the acceptance of such conditions could not be demanded and that the Entente was unjustified in imposing such demands."

TEN PROTESTS FROM GERMANY.

New York, May 21.—The Associated Press this morning issued the following: The definite statement that Germany will not sign the peace terms as they were presented to her plenipotentiaries at Versailles is made by the German Cabinet through the Associated Press. Statements along somewhat similar line by President Ebert, Premier Scheidermann and other Germans in high place, have preceded this one. Meanwhile European despatches show that Germany's representatives are still endeavoring to secure modifications of these terms. Thus another note was sent yesterday by the Germany Peace Mission at Versailles to the Secretariat of the Peace Congress. This is the tenth communication forwarded to the Allies by the Germans since they received the peace terms. The contents of the note are not as yet known.

Today or tomorrow German representatives are expected to transmit to the Allies a comprehensive statement on Germany's attitude toward the peace treaty as a whole, specifying what points they accept and what they desire to have modified. The fifteen-day time limit for them to make known their standpoint expires on Thursday. Up to yesterday, at least, the prevalent opinion in Paris seemed to be that notwithstanding all their protests Germans ultimately would sign the treaty.

ONE MAN IS NOW GIVING AWAY LIQUOR---EH! WHAT?

Such is Testimony Given at the Police Court This Morning—Witness Beneficiary to Extent of Seven Bottles.

A gay young man paid into the police treasury this morning $14.10 for being found in an intoxicated condition in a public place on Rubidge street.

Magistrate Dumble incidentally remarked, "Some men think it great fun to get drunk. But they don't think of the headache and the police court the following morning."

Where He Got the Whiskey.

Chief Thompson here put the man into the witness box in an effort to prove illegal sale of the liquor.

The man swore that he got seven bottles of whiskey from Wm. Robertson, Bonnacord street, Sunday evening last. He paid nothing for the liquor, which Robertson told him he secured in Montreal. He and Robertson, he said, were kiddies together, and the latter (recently from overseas) now hails from Vancouver, B. C., where he had been engaged in editorial work.

Concealed in Woods.

Witness testified that Robertson phoned him on Sunday, when they motored out to a woods in Douro, three or four miles distant on the Warsaw road. They uncovered two cases of liquor from beneath a pile of brush. Robertson gave him seven bottles of whiskey, sealed and wrapped as shipped, which he hid in the woods until yesterday, when he drove out and brought them to his home.

Witness denied any agreement, implied or positive, between him and Robertson by which he was to pay for the liquor, which he accepted in good faith as a gift.

The Chief expressed his determination to discover who this good-natured man Robertson really is, and an adjournment with that end in view was ordered by his Worship.

Three More Towns Taken By Poles

(Canadian Press Despatch)

Warsaw, May 21.— Drohobycz, Boryslaw and Mikolajaw have been captured by the Poles in their campaign in Galacia according to an official statement issued at staff headquarters here today which adds that the Poles have crossed the Dnieser river near Rozwadow.

A baby at Lansdale, Pa., has four living grandparents and seven living great grandparents.

Church Arraigns The President

St. Louis, May 21.—President Wilson was arraigned by the commissioners to the 131st General Assembly of the Presbyterian Church, U.S.A., for requesting Congress to repeal or amend the war time prohibition Act and a resolution was adopted urging Congress to sustain the law. President Wilson is an elder in the Church.

Acopy of the resultion will be cabled to the President.

Veterans' Boxing Tournament

The following is the program for the boxing tournament to be held at the Armouries under the auspices of the G.W.V.A. on Thursday evening next when the following will compete:

Comrade Anthony, Comrade Lilly, Comrade Dugan, Comrade Barry, Comrades Jones, Comrade Rootes, Comrade Patterson, J. Jordon vs. Plavery (midgets).

Two star bouts will be staged—Red Gallagher vs. Charlie Christie will fight a ten-round bout; Paddy Nolan, of Tonawanda, vs. Sailor Dempsey, of Buffalo, will fight six rounds.

Prices of Admission—Ring seats, 75c; centre seats, 50c; other seats, 25c.

All competitors are requested to be at the G.W.V.A. rooms tonight at 7.30 p.m. to draw for opponents and to make all the necessary arrangements and to receive their tickets of admission.

THE DAILY REVIEW

ESTABLISHED 1879.

MEMBER OF THE CANADIAN PRESS, LIMITED.

THE DAILY REVIEW is published every afternoon at 4 o'clock (holidays and Sundays excepted) by The Peterborough Review Company, Limited, 166-168 Hunter Street.

SUBSCRIPTION PRICE, $3.00 per year by mail to any part of Canada or Great Britain; $4.00 per year delivered to any part of the city.

THE WEEKLY REVIEW, established 1853, is published every Thursday morning at 10 o'clock. Subscription price $1.50 per year to any part of Canada or Great Britain, or $2.00 a year to the United States.

"FOR A GREATER PETERBOROUGH."

WEDNESDAY, MAY 21, 1919

ALDERMANIC AMBITION.

"WHY," ASKED A RATEPAYER yesterday, "do the aldermen hedge so constantly and change their opinions so frequently on the question of building the Hunter street bridge? Why do they give such a lamentable exhibition of indecision on this most important of all public questions now before them?"

The real reason may not be so far to seek. If a disinterested spectator should cast a stone or discharge an arrow at a venture, at the aldermanic semi-circle in session, he would scarcely fail to hit a City Father whose consuming present ambition is to hold next year the highly highly honorable position of Mayor of Peterborough. That is an aspiration which does credit to any citizen, a goal worth attaining. But some of the aldermen have become ensnared in the very network of wires and are constantly tripping over the pipes they have laid to attain this end. Their ambition, instead of being an inspiration is proving a handicap. They have been rendered nervous with the fear that on the bridge question they may do something to alienate the favor of this or that class or faction. Nervousness never makes for efficient service, either public or private.

Better be right, than even to hold the highest elective office in the gift of the city. After all, it is not always the man who lays pipe for a position who eventually lands it. The man who does his duty without fear or favor is the one most likely to be made the object of search by the office, even if, by reason of his innate modesty, it is necessary for the searcher to carry a Diogenes torch to find him.

There is not so much difference in advancement in public or private business life. The man who, while on the pay roll of a private concern, is constantly plotting for advancement, soon becomes a disturbing element, a genuine mischief maker among his associates. Promotion will come automatically to every man who in any capacity in which he may be placed thinks chiefly of the faithful discharge of his duties. In the wider sphere of public life the same holds true. The only drawback in the latter case is that it is generally the man most fitted for advancement who is likely to decline it.

PRESIDENT WILSON'S MESSAGE.

PRESIDENT WILSON has established two precedents in his dealings with the American Congress. The first was when he decided to read his message in person at joint sessions of both Houses. The second precedent was established yesterday when the new Congress called in special session was regaled with a message received by cable from President Wilson, now in Paris. This is the first time that American statesmanship has been subjected to absent presidential treatment.

President Wilson, however, does not make any new departures in his message, although the reaffirmation of some of his principles appears to have occasioned surprise. He says that the tariff laws of the United States must be provided with teeth to protect the industries of the country from destruction by foreign competition. Although he is the head of a party that adopts free trade, so-called, as one of the planks in its platform, their professions in this regard are no more sincere than are those of the Liberals in Ontario, or anywhere else in the Dominion, with the possible exception of the selfish and short-sighted factions in the West.

The only measure of free trade that the Democratic party, in the ascendant in every branch of the government for four years, or up to the congressional election of last autumn, ever introduced affected only the farmer and other producers, and even then the so-called economic millennium of cheap living did not materialize. Now that Mr. Wilson has to deal with a hostile Congress, irrevocably committed to protection for all classes alike, his one-sided free trade measure is doomed to meet a speedy end. And if the United States is to furnish its tariff laws with teeth sharper than ever for the benefit of the foreign competitor, why should Canada for a moment give serious consideration to this talk of a lowering of the trade barriers?

President Wilson deals the state ownership principle a body blow when he announces that all public utilities, the railways, telegraphs and telephone lines, are to be restored to private ownership after a disastrous experiment made by the State during war-time in handling these enterprises. Mr. Wilson no doubt voices the public sentiment when he advises a reversion to former conditions. However, it must be remembered that the experiment that failed so signally was tried out under abnormal conditions, and did not really constitute a fair test.

VETERANS AND PROHIBITION.

THE DOMINION ALLIANCE opened their session in Toronto yesterday with a resolution denouncing the terms of the proposed referendum on the Ontario Temperance Act as unsatisfactory. If the Alliance can devise a measure that will make possible an opportunity for ascertaining the real sentiments of the voters of the province on the temperance question, the way is open to them, and such a document would be interesting even if it received no official recognition. There are people who favor the sale of wine and beer today just as they did when they signed the petition three years ago. When the Government took the drastic setp they did, when they enforced war-time prohibition without a plebiscite, it was announced at the time that in the referendum when peace was declared all elements represented in the petition would be given a chance to declare themselves.

The members of the Alliance seem to have departed from the realms of good taste when they gravely declare in the same resolution that an attempt is being made by the liquor party to influence the returned soldiers against prohibition. There is really no occasion for worry on this score. The veterans are not children are they likely to be overpersuaded in this or in any other matter by a particular faction. They can be trusted to think and to act for themselves. No basis for such a statement can be found in the record of the proceedings of the recent provincial convention of the G. W. V. A. when the delegates refused to commit themselves one way or the other on this issue, but left it to the conscience of the individual members. The Dominion Alliance should be willing to accord them the same privilege. It is rather a reflection on any class to say that they are easy subjects for persuasion or to intimate that they lack the stamina to decide for themselves.

STRIKE TALES FROM WINNIPEG.

STORIES AS SENSATIONAL and unreliable as some of those sent from Europe by wildcat news agencies during the war, and kept up with the doings of the Peace Conference as a subject, have been sent out from Winnipeg already, although the general strike in that city is only a few days old. The report of today is likely to be contradicted tomorrow. Even some of the big Toronto papers have been gullible enough to fall for some of these fairy tales and wrote bigoly pious editorial disquisitions on themes that they were forced later to acknowledge were purely visionary.

But the special newspaper correspondent working by the job must do something in order to pile up profits. The fact that a city remains in an exemplary condition of decorum with thirty or forty thousand men on strike may be unusual, but the picture soon palls on the taste of the ambitious news vendor. What he most aspires to chronicle is something out of the ordinary.

One of these stories related how a small body of men, headed by a Methodist pastor, who had evidently made a most unfortunate descent from former grace, had met and solemnly declared themselves a Soviet government, and decided to take over the management of the city's affairs. The fable of the barnyard fowl that decked itself out with a peacock feather, the tale of the Tooley street tailors, as examples of cool and misguided assurance, are dwarfed by the arrogant assumption of this Winnipeg faction with a clerical leader. Of course, there was nothing in the story, but for the time being the correspondent scored. His fabrication was of a piece with the relation of a story to the effect that half a dozen curbstone politicians in Peterborough had decided to usurp the functions of the aldermen, take over a couple of recruits from the duly elected City Fathers, and build the Hunter street bridge forthwith. There may be commendable features in the Soviet's creed, but there are others just as objectionable. Anyway, this country is scarcely ready for a social revolution such as the newspaper correspondent cradled in the metropolis of the West.

Probably it was this same correspondent who crossed the border into American territory and, locating for the time being in Thief River—ominous name—sent out another despatch that was published yesterday. This time the basis of his sensation was a slur cast upon the soldiers, who, he declared, had refused to rejoin their regiments when called upon to act as preservers of the peace. There is no apparent occasion for military interference. The strikers are already negotiating for a settlement. All they ask for is a recognition for a ism, something that the employers hold as their own divine right. There has been no disturbance, no violence so far. It is to the interests of the men themselves to maintain order, and that they are set on that purpose is a credit to the spirit of Canadianism.

NOTES AND COMMENT.

BUT AFTER ALL, it must be admitted that Germany is not the only nation that has fallen for the philosophy of a madman.

• • • • •

AT LAST THERE ARISES a perfectly sane American patriot who admits that the United States merely helped win the war.

• • • • •

THERE ARE Victory Loans, Liberty Loans, and the like. Now it is up to Germany to issue a call for Penitential funds.

• • • • •

MANY A SPORT would go to Toledo on July 4th to see the big prize fight but for the horrible risk of having to walk back home.

• • • • •

THE TRANSATLANTIC aviators are not the only men who occasionally lose the sense of direction. Those Winnipeg correspondents, for instance.

• • • • •

HENRI BOURASSA will please take note that under the new order all nations and principalities are supposed to dwell together in harmony.

• • • • •

PREMIER BORDEN at least extended his native land the courtesy of refraining from an attempt to direct its affairs by cable, but is to appear before Parliament in person.

• • • • •

SOME OF THESE DAYS the long suffering English language will assert its dignity and as a warning to others will indict half a dozen or so college graduates on a charge of murder.

• • • • •

AVIATOR HAWKER said before he started on his flight that a long sleep awaited him at the end of his journey. If he is really lost, may he, like all undaunted heroes, slumber in sweetest peace.

• • • • •

WHY DIDN'T THAT Winnipeg correspondent fabricate a good one while he was at it and say that the ex-pastor and his followers in that city had taken over the Dominion Government instead of a mere city council?

• • • • •

THE MONTREAL MAN who is said to be waiting for the next full moon to attempt the navigation of the Atlantic ocean in a skiff evidently has a grim knowledge of the influence of the lunar orb over human mentality.

THE BIG STRIKE AT WINNIPEG

(Montreal Star.)

The Winnipeg strike has leaped into national significance. Starting as a minor dispute in the Metal Trades involving a few hundred men it became general in the city of Winnipeg and its environs tying up all the ordinary activities of civic social life. Modern methods of light, heat, power, communication and transport are shut off. The vital food necessities themselves seem to be largely in the hands of the strikers, at least to such an extent that they can use their control to influence other workmen, otherwise unaffected. All this, however, serious as it is, does not transgress the boundary of local issues; but today the strikes have apparently declared for a system of government on Soviet lines. In defiance of the principles and relations of trade unionism and, violating the orders of their union officials are reaching out to include trades and industries upon whose uninterrupted operation the welfare of the whole nation is involved.

We do not dispute the right of workmen to strike for improved conditions, though there is inevitably injustice in the operation of a general strike. If ninety-nine industries out of a hundred have treated their workmen justly and to their satisfaction it is small encouragement to them and small credit to Labor's sense of justice if they are made to suffer the same as the oppressive employer. When the general strike leaps its local boundaries and threatens to invade the national area and tie up districts where even members of the original striking unions have no grievance and when it adopts as its system and its slogan a form of government alien to and subersive of our democracy the national forces whose duty it is to defend that democracy cannot ignore the danger.

It is true that there are elements in the Soviet system which are worthy of imitation. Its representatives are chosen at open meetings of workers for no stated period of time and are subject to instantaneous recall if they fail in their duties, thus insuring directly and continuously responsible government. But in its essence and its operation the system is as antidemocratic as Czarism. It is class rule as close and as hard as Prussian junkerism.

We are building a great nation in this new land on the principle of government of all the people for all the people. We will not submit to any class rule, whether by a paternal autocracy, a greedy capitalism or a greedy proletariat. There is no ill in our body politic that the resources of democracy can not remedy and no fair demand of labor which cannot be exacted through democratic machinery.

Dealing With Bolsheviks In U. S.

(Chicago News.)

Bolshevism has two different parts and congress ought to discriminate between them in its proposed legislation against Bolshevik propaganda.

The first part of Bolshevism is an economic program which it would be ridiculous and inconsistent for us to try to prevent people from advocating Bolshevism claims for instance that private property in land should be abolished. But for years the single taxers have been allowed to claim that private profit in land should be abolished through taxation. When you destroy private profit you virtually destroy private property. You destroy its essence. The single taxers have talked among us for years and it has been their right to talk, and we have seen no violent change and no armed up-set coming from it.

We must beware of being stampeded by the Bolsheviks into doing an indignity to the freedom and the intelligence of the American people. The Bolsheviks want to say that all private property in all industry, urban and agricultural, should be abolished. Well, have we come to the point at which we are willing to admit that if a propagandist asks the American people to commit economic suicide the American people forthwith will oblige him?

This is not a nation of idiots. It can listen to bad advice and arrive at good decisions. It listened to a great deal of bad advice, extremely eloquently presented about free silver. It chose gold. It listened to a great deal of bad advice, presented by men of the highest ability, in favor of "letting the south go" in the '60s. It held the south. The country is a country sound in its wits. It keeps them sound through exercise. The only way to impair the good judgment of the American people is to do to the American people what the Czar did to the Russians—prevent them from hearing and weighing arguments and thus exercising and developing their political intelligence.

The other part of Bolshevism is not arguments. It is threats. That is the part that cannot be tolerated.

A certain radical editor put at the head of his magazine a short time ago the words: "For a Revolution, by Peaceful Means if Possible." What did he mean He could mean only one thing. He meant that if he and his fellow radicals failed to capture the government at the polls and were left in a minority they would, nevertheless, attack the majority and capture the Government by shooting the majority into submission.

He and all men like him should be effectively warned that the United States is not Russia, is not Germany The United States has had self-government for a long time and it has had a great deal of political experience in dealing with minorities. Violent minorities in America do not win. The loyalists of the revolution in the eighteenth century had a highly disagreeable fate. The secessionists of the nineteenth century, who did not try to overturn Washington but merely to withdraw from its jurisdiction were chased into their own part of the country and brought back. They were real Americans, proceeding under a real theory of the constitutions, but they tried to break the will of the American majority and the majority broke them to dust.

Our present very unreal Americans who think they can put a Russian scheme of minority dictatorship on the necks of the people of the United States will have a similar tale to tell from their graves. Congress should discriminate, but it should also extirpate. It should leave every man free to advocate any peaceful reorganization of industry that may seem good to him. It should take every man who commits acts, or who threatens acts, of violence against the Government at Washington and it should put him where the American nation has long been accustomed to put its declared enemies, either under restraint or beyond need of restraint.

Some people would have us run off to Archangel to defend the constitution. They must think the constitution very weak and the American people very silly. We do not need to be protected against Bolshevik propaganda by expeditions which chase Bolshevik agitators through the snows of Russia and the sands of Arabia and confiscate their pamphlets before we can read them. We are still Americans. With free discussion of all peaceful projects and with ruthless repression of all violence against the Government and of all advocacy of such violence we can defend the constitution in a perfectly adequate way right here at home where we have always defended it and where we know how to go on adequately defending it.

NEAR HOLY WAR

Council of Four Influenced in Turkish Question.

Paris, May 21.—The English delegates are urging that the Sultan be allowed to remain in Constantinople and are anxious that the United States accept the position as mandatory of that city, as well as Armenia.

The danger of a Holy War is influencing the Council, which has been advised that radical changes are inadvisable without more foreign troops at strategic points to steady the situation.

The Inter-Allied Commission designated to investigate the Asia Minor situation is still in Paris.

The Council of Four is finding the partition of Turkey a difficult problem. While an agreement has been reached it apparently will be necessarily to make revisions, which are now under consideration.

The terms of the agreement have never been announced officially, but it has been contemplated that the Sultan shall be expelled from Constantinople to Brusa, in Asia-Minor thus eliminating Turkish influence and the head of Islamism from Europe.

Governor Edge, of New Jersey, resigned to take his seat as United States Senator.

A 1-year-old Flint, Mich., boy fell into a cellar, flooded with 15 inches of water, and drowned.

Prevention of cotton growing for a year to eradicate the bol weevil, which causes $100,000,000 damage annually, is proposed in a bill introduced in Florida.

FORD LIBEL SUIT IS IN PROGRESS

IS AUTO MANUFACTURER PUBLIC CHARACTER OR ONLY PRIVATE CITIZEN?

Mt. Clemens, Mich., May 21.—With the jury excused, the trial of the suit of Henry Ford against the Chicago Tribune for libel was devoted entirely to legal arguments regarding the scope which is to be allowed to evidence submitted in the case.

Horace K. Tenney counsel for the Tribune, argued for the widest latitude in the reception of the testimony, contending that all articles referring to Henry Ford published in the Tribune prior to the editorial which called him an anarchist are admissible as showing the intent of that editorial and meaning the readers would take from it. He also urged strongly that evidence should be received regarding conditions as to the Mexican border in 1916 as showing the Tribune motive in urging intervention and in criticizing Ford's policy.

Whether Mr. Ford is to be considered as a public character subject to criticism similar to that allowed on public officials, or private and retiring persons whose acts, and words are not subject to newspaper comment, Mr. Tenney said, was one of the question for the court to determine. He contended that the manufacturer by the use of his money for the purchase of advertising space in which he opposed military preparedness had made himself such a public character that his motives and acts could be discussed.

Mr. Tenney contended that the sense in which the term "anarchist" was meant by the Tribune and understood by its readers is one of the facts to be decided by the jury after evidence as to all facts and circumstances surrounding its use, rather than one arbitarily to be fixed by the court.

WIT AND WISDOM

Wise—I hear a burglar got in your house while your wife was away.

Otherwise—Yes; I'm so glad. My wife won't know how much of the upset is me and how much is him.

He Knew.

"The man I marry must have common sense," she said haughtily.

"He won't," he replied bitterly.

"The professor seems a trifle cast down."

"Just a little flabbergasted. He uses very correct English."

"Yes, a slangy salesgirl had to call a floorwalker to interpret for her. She thought the professor was some kind of a foreigner."

What He Writes.

Friend—So your discharged son has become an author Does he write for money.

Father—Yes, about five times a week.

Very Broken.

Athlete — Did—I—break it, doctor?

Doctor—I will be plain, sir. The arm is broken, the collarbone crushed, the skull is fractured—

Athlete—No, no, no! The—did—I—break—the—

Doctor—What, sir?

Athlet—The record?

Some Stopper

Lottie—He wore my photograph over his heart and it stopped the bullet.

Tottie—I'm not surprised dear. It would stop a clock.

Conscientious

Shopper—Do these goods shrink?

Clerk—Not as muc has I would from telling you they didn't, madam, if they did.

Wood's Phosphodine. The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins. Cures Nervous Debility, Mental and Brain Worry, Despondency, Loss of Energy, Palpitation of the Heart, Failing Memory. Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. New pamphlet mailed free. THE WOOD MEDICINE CO., TORONTO, ONT. (Formerly Windsor.)

TEN TO ONE THEY'RE EDDY'S

When you are all out of matches, and you go to the nearest store for a fresh supply, 10 to 1 there're Eddy's.

The match-box on the shelf above the kitchen stove, from which you help yourself so freely—10 to 1 it's Eddy's.

You strike a light—in the restaurant, the club or sleeping car—10 to 1 you'll find that Eddy's name is on the box.

EDDY'S MATCHES are practically in universal use throughout Canada. A match for every purpose, and every match fit for its purpose. The next time you buy matches, see that the Eddy name is on the box. It is your best guarantee of satisfaction.

LESSONS IN RIGHT LIVING

By Dr. W. A. BRADY

Nearly everyone understands nowadays that typhoid fever is a filth disease and hence a disease for which someone is to blame in each and every instance. This understanding is coming to have a dignity that forces it upon the attenion of even those who consider sanitation and hygiene mere pastimes or fads for a few doctors and other freaks, for every little while some aggrieved person is taking his typhoid into court and demanding balm from the responsible or guilty person. And, what is more interesting still, the victim is succeeding in obtaining the balm in generous measure. It is the highest compliment I can pay to our courts to say that they do occasionally see the woods notwithstanding all the trees.

If a contractor takes a number of workmen out on a job and houses them as part of his payment for labor, and then furnishes them water which happens to come from a polluted source, such men as come down with typhoid fever within three weeks certainly have a claim against the contractor which will receive a respectful hearing in court. Numerous judgments have been rendered for damages in such cases.

But if the contractor tells his men that the working conditions may possibly subject them to the risk of infection with typhoid and that he will not be responsible in case any man fails to be immunized against typhoid before beginning work, then there is another side of the story. It is up to the man to protect himself, to defend himself to a reasonable degree. That he can do without risk, without pain, and without expense as a rule (if his city or village health department is a live one) by taking the typhoid prophylactic, which is not vaccination, but immunization.

If the verbal or written contract between employer and employe or carrier and passenger or hotel and guest does not contain a waiver regarding the typhoid fever risk, then every victim of such infection has a clear case which warrants full compensation, provided he can reasonably show the source of his infection.

Typhoid fever is an illegitimate disease because it is a filth disease. In every instance the problem is to find the filthy individual and punish that individual.

Full Description of Blood Purifier.

"Please give me a full description of taking sulphur as a blood purifier? B. P."

If I knew of any medicine which would purify the blood (and if there were such a medicine I would know about it), your question would be easy to answer. Sulphur is a laxative, having no effect on the blood. The old sulphur and molasses mixture our grandmas used to administer to us unfortunate youngsters in the spring "to purify the blood" was merely a physic, which no doubt we needed. Take the sulphur if you wish—it will do you no harm. But if you really need a blood purifier, try two miles of oxygen three times a day on the hoof. There is none better.

Children Are Just Like Grownups.

"Does cutting a child's hair make it grow thicker and longer?
"MRS. C. H. S."

Cutting hair in child or adult has no more effect on the hair growth than trimmings the nails has on nail growth.

Diet and Blood Pressure.

"Please tell me what a person with high blood pressure should eat and what she should avoid. W. S. M."

It depends on the nature of the disease of which the high blood pressure is a symptom. An examination by your doctor is your best course.

SOURCE OF FAMILIAR NAMES.

History of Dress Told by Names of Garments.

If you could but know the origin of all the many words we use in our daily talk one would know much of the history of dress. Any of our most recently adopted clothes words come from France, but 500 years ago dress terms more usually came from Italy, which was then the mecca of fashion. Hence velvet came from "Velluto," the Italy word to indicate "shaggy." And "camesole," which has recently been revived from an earlier English usage, came from the Italian diminutive of chemise.

The Orient has also contributed its share to clothes words, and our pajama—or pyjamas, as it is almost always spelled in France—comes from the Hindu "paejama," which literally means "leg garment." This word was first introduced into current English through the British occupation of India, where the single nether portion was the usual house garment for men. In colder climates, of course, the jacket was indispensable, and hence the term pajamas is now generally accepted for the complete outfit. If we had no other indications to show our enormous debt to Japan for clothes inspiration of late years, the frequency with which we use the word kimono would suffice, for that is a direct borrowing from the Japanese language to indicate a national costume for both men and women.

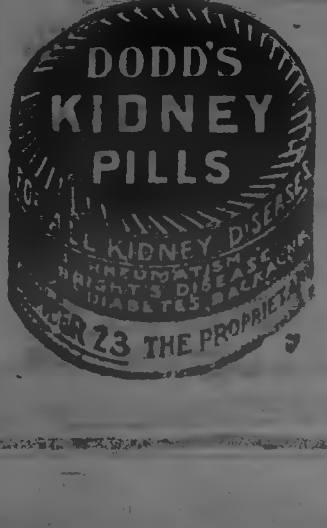
Did you know that chenille came from the French word meaning caterpillar? And, by the way, if you had to devise a name for this form of trimming, could you devise one more realistic than one that comes from this garden pest?

The new tassels are made with cords on which are hung real pebbles, colored to match the cords. Perhaps this is a revival of the original tassel, which apparently was made always from pebbles or bones or something of that sort, for the word tassel comes from the Latin and means knuckle-bone. Among the early Romans this form of clothes decoration apparently was first made from such primitive [illegible]

When Marble Breaks.

To mend broken marble, mix some Portland cement with water to a very stiff paste. See that the edges of the marble are quite clean. Then put some cement on both sides, press together very tightly and tie until the cement has dried.

ADVERTISE IN THE REVIEW.



DIFFERENCE IN BRIDGE TENDERS

CHANCES THAT WOULD HAVE TO BE TAKEN IN THE COST-PLUS BIDS.

In connection with the deadlock in the Board of Works over the high-level bridge tenders the following comparative figures will be found of interest:

Six aldermen, while voting against the Conroy lump sum tender of $251,000, are divided between two other propositions thy all have confidence in but cannot agree on a selection of either by reason of a difference in figures of $482.60. These two tenders are:

The Canadian Engineering and Construction Company—Cost-plus guaranteed price. $276,860.

The Russell-Townsend Company —Cost-plus tender (no guaranteed price). $228,600.

A difference of $48,260.

Th Canadian Engineering Company's fixed sum cost-plus tender guarantees the eventual cost at not more than their lump sum tender of $276,860, and point out a saving of $8,000 or $10,000 in filling, etc., and even addition reductions. The Russell-Townsend people decline to give a fixed sum but stake their reputation on building the bridge for their estimated amounts, or but little in excess of same.

Some of the anti-Conroy supporters, headed by Ald. Taylor, have every confidence in the Engineering and Construction Company's proposition but others contend that $48,260 in excess of the Russell-Townsend proposition is too much of a difference to warrant acceptance. That is to say, as tersely put by ~~Ald~~ Edgar, "He would rather take a chance on the Russell-Townsend Company's ultimate charge for the bridge not exceeding Mr. Conroy's lump sum figure of $251,000 odd than place reliance on a substantial saving in the Canadian Engineering and Construction Company's cost-plus fixed sum price of $276,860."

Were the Russell-Towsend Company's tended accepted without a fixed guarantee, there would be a margin of a little over $22,000 to play on before their estimated cost of $228,600 exceeds Mr. Conroy's bid of $257,000 odd.

Willie's Excuse.

The slang expression "hard-boiled egg" to denote a disagreeable person reminds us of a youngster who could not eat an egg without feeling distressed. Chided one day for speaking rudely to his aunt, he said: "I can't help it mother; she affects me just like an egg."—Boston Transcript.

Troubles of an Expert.

"Another member of the staff wants a raise—says he can't live on his salary of $40 a week." "Who is it?" "Bullem, the bachelor editor of our woman's page. He writes those interesting articles on how to support a family of four on $15 a week."—Birmingham Age-Herald.

OLD TIME DAYS ON THE FARM

THRESHING BEES OF FORMER TIMES WERE MARKED BY RICH BANQUETS

(Thomas McLaughlin in Toronto Telegram.)

The threshing gang was an institution in every farming community in the earlier days. Until threshing machines came into use in Mono about 1850 the grain was separated fro mthe straw by the use of the flail. The flail was composed of two hardwood sticks about an inch and a half thick, one about four feet long, the other about three, fastened together by a contrivance of leather thongs, allowing the sticks to turn in all directions freely. The operator held the longer stick in both hands and with the shorter one beat a layer of wheat or oats in the straw laid on the barn floor. By long practice he acquired the knack of swinging the flail with a revolving motion above his head, the shorter end, and coming down with a heavy thump on the heads of the grain. This was kept up until all the grain was beaten out of the head, when the straw was carefully shaken and removed, and the separated grain moved to a box or bin and a fresh supply of sheaves opened and spread on the floor awaiting the attack of the flail. Sometimes two men faced each other, striking the sheaves alternately and keeping up the steady thump, thump hour after hour. It is easy to conceive that as crops increased in volume as the years passed, threshing the grain by this means became a long drawn-out undertaking. So that the first threshing machine in the settlement came as a heaven-sent gift.

Trouble and Repairs.

The original threshing machine owners hereabouts were two cousins, whom we shall call St. Louis, Johnny and Sam. The machine was second hand, and, likely nearly all second-hand machinery it gave lots of trouble. There was always something going wrong. Fully half of every day passed in repairs. These men were equal partners in the undertaking, and the unwritten terms of the partnership included the practiced condition that which ever one of them awoke first in the morning and reached the whiskey jug earliest was absolved from all responsibility of management for that day. So it was up to the other partner to get busy when he awoke.

Dusty Work.

The threshing plant consisted of three main esential parts. First there was the horse power, a strong wooden framework to which the driving gear was attached, the motive power coming from the five two horse teams of horses hitched ot five wooden arms, and travelling in a circle all day long, with the driver standing in the centre, wielding a long whip and keeping up a steady fire of exclamations, addressed to the horses, all having as their purport the reminder that there was no let-up for them until quitting time—or until something went wrong with the threshing machine which came too often in the case of the St. Louis plant. The straw bands of the sheaves were cut by hand and the loosened sheaf was fed into the thresher, its centre-piece being a cylinder of iron with steel teeth revolving at high speed and knocking the grain from the straw as it passed through. The grain passed to a box under the machine to its rear part, dropped into a conveyer called the rakes and was carried out of the barn to the straw-stack. Threshing was about the dirtiest work in the life of the farmer. So much dust was messed up that the interior of the barn on threshing day was about as dark as if a newly-fired soft coal burner was pouring its output of smoke into the building.

Threshing Feasts.

But there were compensations. About twenty of the neighbors assembled to help the work along. That meant meals for them, and the meals on threshing day meant a feast. A table about twenty feet long was set out with food, fresh and fortifying. Huge roasts of beef, boiled hams (fresh, sweet hams, not the post-cured variety), unlimited boiled potatoes, stacks of fresh baked bread, and as for pies and cakes, why they covered every available inch of the table. Of course, the faces of the feasters were black enough for the members of a minstrel show; and their hands matched their faces, but little things like that mattered not on threshing day. There was plenty of variety in the food, so that everyone might satisfy his own particular appetite. In one instance a very large, freshly baked cake, several storeys thick, was placed where an old man, who we shall call Aleck Reynoldson, sat facing it. What few remaining teeth poor Aleck had managed to preserve were not arranged to make mastication easy or effective. One sampling of the cake determined his bill of fare for the occasion and, although attendants made successive efforts to divert his attention to other dishes, his invariable response was, "Thankee, I'll jist ate the suft thing."

Truant Boys Help.

It must not be left unsaid that threshing day in the neighborhood of a schoolhouse had a direct influence on the attendance of boys for that particular day. There were always always several willing to risk the teacher's disapproval in order to share in the adventures possible at a threshing. Someone or other of the truants was pretty sure to be selected to ride the old grey mare to the village for some needed commodity, a can of oil, a pound of nails or perhaps a gallon of something in a brown stone jug in the bottom of a grain bag fastened securely to the saddle. The boy thus drafted into the service was the equal of any man on the job for that day. Even the head thresher has been known to recognize him. He took his place among the men at meal time, too. And what happened to the viands within his reach may be left to everyone's imagination to conjecture. It must have been on such an occasion when a lad declined some proffered dish, and being asked if he could not eat some more replied: "Yes, ma'am, I can eat, but I can't swaller." For that was about the limit for young and old at meal time on threshing day at the head of the Humber.

A Roast Goose Dinner.

And yet, even in the matter of threshing day feasts there were lapses. Some housekeepers were of the easy-going type. Mattie was one of these. She was not what her neighbors would have called "forehanded." About the year 1862 on threshing day, at her farm, the arrangements called for a roast goose dinner. The dinner hour was twelve. At nine o'clock the order was issued to catch the goose. Now, the goose in question was a matron of the species who had carefully mothered a young flock during the summer, and, uproar of threshing operations arose, had fled the barnyard, taking her family with her. One field after another was searched and at last the fugitive was found, brought back, decapitated and hastily prepared for the oven. All this took time, however, so that when twelve oclock came and with it the hungry horde from the barn, the partly-cooked bird was placed on the table. What transpired during the next half hour furnished a theme for the local wits for many a day. But this case was the exception, for, generally speaking, threshing day was feast day on the farm, and often great rivalry existed among neighboring housewives as to who could provide the best meal.

Hot Water for Sick Headaches

Tells why everyone should drink hot water with phosphate in it before breakfast.

Headache of any kind, is caused by auto intoxication—which means self-poisoning. Liver and bowel poisons called toxins, sucked into the blood, through the lymph ducts, excites the heart which pumps the blood so fast that it congests in the smaller arteries and veins of the head producing violent, throbbing pain and distress, called headache. You become nervous, despondent, sick, feverish and miserable, your meals sour and almost nauseate you. Then you resort to acetanilide, aspirin or the bromides which temporarily relieve but do not rid the blood of these irritating toxins.

A glass of hot water with a teaspoonful of limestone phosphate in it, drank before breakfast for a while, will not only wash these poisons from your system and cure you of headache but will cleanse, purify and freshen the entire alimentary canal.

Ask your pharmacist for a quarter pound of limestone phosphate. It is inexpensive, harmless as sugar, and almost tasteless, except for a sourish twinge which is not unpleasant.

If you aren't feeling your best, if tongue is coated or you wake up with bad taste, foul breath or have colds indigestion, biliousness, constipation, or sour acid stomach, begin the phosphated hot water cure to rid your system of toxins and poisons.

Results are quick and it is claimed that those who continue to flush out the stomach, liver and bowels every morning never have any headache or know a miserable moment.

General Jos. Santoe Zelaya, former President of the Republic of Nicaragua for 16 years died at his home in New York.

Brooklyn Rapid Transit Co., in discharging 800 women, said the new law prohibiting women from working after 10 p.m. and before 6 a.m. was the reason.

REVIEW PRINTING Co.
HUNTER STREET, PETERBOROUGH

To the People of Peterboro

The Canvassers for the Great War Veterans' Building Fund are very grateful for the kindly reception they are receiving wherever they find those who can subscribe to the funds to be at home.

Talk the Matter Over

It would, however, save a great deal of time if the heads of homes would talk over their contribution and decide upon the amount, and leave it so the canvasser can get the sum when he calls.

HELP THE BOYS WHO FOUGHT AT THE FRONT

WHY BRITAIN IS TRULY GREAT

SPIRIT THAT EXPLAINS IT IS SHOWN AMONG THE AVIATORS

St. John's Nfld May 21.—Newfoundlanders are witnessing and understanding the spirit that makes and keeps Britain great. When the first news came that the intrepid Harry Hawker in his transatlantic Ireland," his British rivaltetaoirvhrd flight was "nearing the coast of Ireland" his British rival, Frederick P. Raynham, who was injured when his plane was wrecked while running to the "take-off" despatched a cable of congratulation to be among the first to greet the airman on his landing had he proved successful.

With the growingcertainty that the young Australian has been lost at sea, his British rival sent a message of deep concern and sympathy to Mrs. Hawker. Then, recovered sufficiently from his injuries to leave his bed, he quietly set to work to repliace his wrecked plane by repairs. Asked if he would not now abandon his attempt at transatlantic flight, Raynham looked surprised and shook his head decidedly. "It is our objective," he said, "and we will keep on until we attain it. I hope my apportunity comes next."

A cheese we'ghing 3½ tons and made from 30,500 quarts of milk. was a feature of the New York Milk and Dairy Farm show.

VETERANS' CONCERT WAS A RICH MUSICAL TREAT

Some of the Best Talent in the City Volunteered For Entertainment Staged in the New Hall Last Night by Capt. Maurice Park.

The Great War Veterans' Association established a precedent in concerts last night in their opening entertainment given in their club rooms on Murray Street.

Despite the inclemency of the weather the large auditorium was crowded to its capacity at eight fifteen and many stood in the lobby. It was a musical treat that is rarely excelled in Peterborough even when professional talent is introduced.

The opening number was MacDermid's "Land of Mine" by Peterboro's well known and appreciated quartette Mrs. King, Mrs. Park, and Messrs Park and Carlisle. A hearty applause was rewarded by the humorcus song "The Skippers of St. Ives." the rendering of which brought laughter as well as applause.

This was followed by a splendid solo "The Recessional" by Mr. Herbert Rush," whose voice is always enjoyed whenever he favors an audience. He was also persuaded to sing a second time which pleased the audience immensely.

It is quite safe to predict that in the next few years Peterborough will be as noted for its elocutionists as it is for its singers. The audience was surprised as well as delighted with the work of Miss Muriel Harvey and Miss Marjorie Ingall. Miss Harvey it will be remembered showed her pantomime ability in the play "Sunny France," but last night showed that she has the qualifications for a young actress if such should be, her desires.

Miss Ingall also recited with the ability and poise of a professional Her first selection was "The Cattle Thief," by Pauline Johnston, which was followed by a masterful imitation of two children talking after mother had put out the light, a truly difficult undertaking for so young an artist.

The third item on the programme was a piano solo, Chopin's "Polonaise Militaire in A Major." by Miss Ida Sanderson the able organist of Murray Street Bapist Church. Miss Sanderson was prevailed upon to appear a second time when she played "Somewhere a Voice is Calling," with variations.

Messrs Parks and Carlisle were heard twice during the evening and as usual pleased their audience immensely especially in their second number "Watchman what of the Night."

One thing those who enjoyed the concert found out was that perseverance is always rewarded. The entertainers were very indulgent and without an exception the audience was rewarded with something even better every time they applauded.

Mrs. King of Trinity Methodist Choir was heard to great advantage in both of her solos "The Little Brown Owl," and a wonderfully taking "Coon Lullaby." Her second solo simply held everyone motionless. Although it was a very soft swinging cradle song ewery word could be heard distinctly in the farthest corner of the large hall.

The second part of the program was opened with a violin solo by Peterboro's well known violinist Miss Lora Logan. It would be out of place to say more than that the many lovers of the violin were very sorry that Miss Logan could not be persuaded to appear a second time after her pleasing rendering of "Valse Ambrosio. Miss Logan was accompanied on the piano by her youngest sister, Miss Agnes Logan.

The city expects much of Mrs. Park and it is never disappointed Although she sang many times last night in duetts and quartettes she pleased everybody as usual with her solo "Judith" and in a good natured way favored her greedy hearers with an encore which provoked laughter as well as applause.

Bandmaster Hughes played two cornet solos both of which were heartily appreciated.

The last number on the program was a quartette by the same artists who opened the concert. The four voices mingled swetly in the familiar strains of "My Old Kentucky Home" leaving the audience in a peculiar silence for a long time before it broke out in loud applause.

Mr. Maurice Park is to be congratulated on the success of the concert since it was through his efforts and the kindness of the other artists that Peerborough was favored by such a concert of genuine talent.

Chas. Leichtman, chef at the Hotel Brighton, Atlantic City, N.J., for 25 years, left an estate of $90,000.

A 63-year-old man arrested in New York for attempted burglary, admits having spent 35 years of his life in prison.

Yes, Hazel, love, fire and a bad cough, are three things which cannot be hidden.

Road Stays Under Control Of State

Ottawa, May 21.—A proposal in the Senate to have the board of the Canadian National Railways reduced in size and made responsible to Parliament, rather than to the Government, was defeated.

The amendment offered by Senators Bostock, Leader of the Opposition called for the appointment of a Chief and two Assistant Directors for the administration of the railway, the three to be appointed by the Government for seven years, but they could be removed only for cause and the removal would have to be confirmed by Parliament. Senator Bostock said that the purpose of the motion was to bring the board more closely under Parliament, to give its operations more publicity, and to further remove it from the influence of the Government. Under the present bill the Government could, without giving reasons, drop any Director whose actions did not please them.

Sir James Lougheed said that if Government ownership was to succeed it had to have a fair show. There must be business administration. The road must be run by a Board of Directors, as other successful railroads were, rather than by the Commission of three which was really the proposal of the amendment. Under the bill, Directors were appointed for a year. If they were satisfactory, they could expect renewal of their term; if not, they could be dropped. That was the practise of rilway organizations everywhere.

After some further discussion the amendment was declared lost.

Senator Watson said that the success of the road would depend upon the co-operation of the management and the employees. He offered an amendment providing for the naming of two Directors by the employees.

The amendment was declared lost

STRIKE ANY MOMENT

London Is Awaiting Orders From Toronto.

London, Ont., May 21—An order for a general strike in London may come at any hour, Secretary James Hussey, of the Trades and Labor Council, stated yesterday. "The situation has become tense," he continued. "In fact, our information is that there is a possibility of a Dominion-wide general strike if the situation in Winnipeg becomes more pressing. We stand upon orders from Toronto"

Canadian Bacon Wanted Overseas

Ottawa, May 21. — The broad lines of British markets for Canadian produce are given in a communication from Mr. Henry B. Thomson of the Canadian Trade Commission, who is spending a short time in England in an advisory capacity to the Canadian Mission. The prospects for Canadian bacon, he thinks, are especially rosy. In a characteristically racy phrase he says:

"Canadian bacon has the chance of its life. Producers can sell all they can make for the English trade as fast as they can get it over. All Canada has to do is to keep up the grade and increase the quantity." He adds that in fats, lards, etc., Europe will take all that can be sent for a long time to come, and that cold storage tonnage on the Atlantic will be eased as soon as possible, as the Canadian Mission is concentrating on the shipping problem. Cheese will be an open market soon, and all Canadian butter that can be put aboard Canadian eggs are badly wanted, and Mr. Thomson suggests that Canadian poultrymen, farm[illegible] and pr[illegible]e individuals shoul[illegible] in[illegible]tion. Dressed [illegible]oultr[illegible] come upon the Br[illegible] arkets recently and is well looked upon, but Mr. Thomson says the standardizing and packing should be made bigger features in this business. Beef will drop a little in price, but the market will be good. There is also a sharp demand for fancy meat cuts, known as edible offals.

Dairy implements cream separators and such machinery are "good live lines," and manufacturers should have a good chance in England. "Generaly speaking," Mr Thomson adds, "all Canadian trades which have sent men over here have done well, and as the news gets around this country they will do better."

High Prices The Cause Of Unrest

London, Ont., May 21.—The waning purchasing power of the dollar and the lack of sufficient dollars were again the two primary causes advanced before the Industrial Relations Commission here by both employers and employes for the present state of unrest in Canada's industrial life. Added to these two causes were some others, most of them having been presented before, but a couple of which were something new even to the members of the commission. The cold storage men came in for criticism and Labor men advocated the cold storage warehouses being taken over and run by the Goverment. The Government itself was not held blameless. The financial sytem was the other new cause given. Piece work in the factories, the importation of strikebreakers from the United States in defiance of the alien labor laws, and the lack of old age, unemployment and sickness insurance were some other grievances advanced.

You Must Cure Yourself.

I do not care how many licensed physicians there are in the world; I do not care how many drugs and how many drug stores there may be in the town; I care not how many schools of medicine there may be. I say unto all you persons who are sick and ill that you will never be cured by licensed medicine. The doctors never will and never can cure you. Drugs never cure. You must cure yourself. And if you have not the will power and the courage to reform the conduct that made you ill you are already a goner. Nothing can aid you, not even nature. "Medicus sanat; natura curat" This is the Latin of the medical schools. The doctor sanitates, but nature alone can cure. And nothing in nature can cure you but your own conduct—by reformation, by resorting to the right food and the right drink.

It is up to you whether you are to be an invalid all your life or a well man—a well w[illegible]

It is a question of personal morals, individual ethics.—C. F. in Los Angeles Times.

The Practical Girl.

He—You are the prettiest girl I ever saw. She—That sounds all right, but I don't know how much the compliment is worth until you tell me how many pretty girls you have seen.

Sad Fate.

"I hear Adele has gone into comic opera."

"There was always something sumely sad about the girl."—Life.

PRACTICAL HEALTH HINT.

Heartburn.

Heartburn is due to hyperacidity or excess of acid secretion in the stomach. This interferes with digestion by preventing the proper digestion of starch, and in this condition acid foods and sugar are especially irritating. It can be relieved, but not corrected, by the use of alkaline drugs. Bicarbonate of soda and similar remedies may be taken for temporary relief. Acid foods should be avoided. Baked potato is alkaline and is usually acceptable in such cases. The food should be thoroughly mixed with saliva and should be confined for a time to stale bread, potatoes and a small amount of beans in some cases. The mental state is frequently an important factor in the cause and correction of the malady, but lack of proper exercise is the principal cause. Systematic exercise, including walking, should be adopted gradually and followed regularly. The simpler the diet the better.

HOLIDAY WEEK SALE AT P. BLACK'S

WE EXTEND A CORDIAL INVITATION TO ALL TO ATTEND OUR HOLIDAYY WEEK SALE BEFORE VICTORIA DAY. IF YOU ARE LOOKING FOR SMART,PRETTY CLOTHES AT REMARKABLY LOW PRICES, YOU WILL FIND THEM HERE. "SOMETHING NEW" AB OUT THE NEW SUITS, SKIRTS, WAISTS AND MILLINERY, AND ALL THROUGH THE GENERAL STOCK OF READY-TO-WEAR AND GENERAL DRY GOODS AND FURNISHINGS.

CONDITIONS ON ONTARIO FARMS

The following is a summary of reports made by agricultural representatives to the Ontario Department of Agriculture:

Spring seeding has been unusually difficult this season. Only a small portion of the acreage intended to be sown was put in previous to the long stretch of more or less rainy weather of the past five weeks. Rather than miss the season, some farmers have recently "mudded in" some spring grain seed, but the ground has been so soggy most of the time for proper sowing. Sod land also is getting very grassy from the almost continuous moisture.

Generally speaking, not more than two-thirds the usual acreage of spring crops has been put in so far. Several representatives report that some farmers have been unable to get on the land to sow their grain

The opinion is freely expressed that there will be less oats, barley, and spring wheat sown than was put in last year, and that more corn, buckwheat and millet will be raised, and perhaps more peas.

From North Ontario reports come of the planting of early potatoes.

Halton states that an enlarged acreage of sugar beets will be used for the Kitchener factory, as last year's experience gave satisfaction.

Fruit trees and bushes are blossoming generously, taking the province over. They appear to have escaped winter injury almost completely, but the serious damage done in the previous season is being further manifested.

Fall wheat is almost unanimously referred to as a splendid crop It has never looked better in mid May.

Clover has improved somewhat during the week. While patchy in places, it has thickened up nicely with growth, and a fair general yield is now looked for. Alfalfa also promises well.

Fodder supplies, hay and ensilage especially, are running short in many quarters, as live stock have been slower than usual in getting on pasture.

Cattle are bringing good prices, from 12 to 17 cents being quoted for beef animals. Many cattle on grass, however, are looking rather thin. Farmers' clubs are actively shipping live stock, and appear to be steadily growing in favor.

The milk flow is increasing with the grass. According to the Durham representatives, a payment of $106 has just been made for fourteen days' milk from seven cows. Good fresh cows are selling at from $140 to $175. Cheese has been selling at from 29 3-16 cents to 31 cents a pound, Lanark's first cheese board calling the latter price.

Hogs have been going off somewhat slowly during the week at from $20 to $21.25 a cwt. Little pigs have sold at from $20 to $25 a pair in Frontenac, and at about $22 a pair in Brant, while in York six-weeks-old pigs were quoted at from $16 to $18 a pair.

Farm laborers are, of course, still scarce. While some references are made to returned men appearing to prefer factory work to farming, the Halton representative states that "a number of soldiers are taking practical training on the farms of this county and are helping out the labor problem."

BRITISH PAPERS PRAISE WORK OF PREM. BORDEN

Say He Rendered the Empire Excellent Service at Peace Conference in Paris.

London, May 21.—The Daily Mail in an editorial says Sir Robert Borden will take with him the gratitude of the British people for the splendid service he has rendered at the peace conference. "We owe him so much that we shall find it difficult to discharge our debt, and we cannot at the same time forget the great Dominion for sparing him to us. Canada can look with unexampled pride on the part she played both in war and peace, under his wise leadership."

The Times says it is not sufficiently realized at what personal cost Sir Robert Borden and the other dominions ministers came here on the business of he empire. "It is not merely that criticism mounts during their absence but there is far too little understanding here or in the dominions of the necessity for meetings of political leaders of the empire. Everywhere the military side is recognized with pride; but how shall we account for the fact that the political corollary to military participation is still hidden from most of us, one reason is that the rise of the imperial cabinet was sudden, the direct result of the war. It has not yet proven itself under peace conditions. There are evident difficulties in the adaptation of the imperial cabinet system to peace conditions, but we wholly agree with Sir Robert Borden's blunt declaration that the only possible basis of British relations with the dominions is equality of nationhood within the empire."

In Ungrudging Spirit

The Morning Post in an editorial under the caption 'Farewell to Borden,' says "The dominion which gave her sons so freely to the empire also lent us her prime minister, who worked here and in Paris loyally and ungrudgingly in the true imperial spirit, not for Canada only but for the empire. His many friends and admirers in England unite to thank both Canada and Borden for these services and also to wish him God speed in the great work which confronts him."

The Daily Chronicle, in an editorial based on Borden's departure and speeches Saturdays, says that the British empire is already a league of nations in being. "This is one reason why our Government ably backed by Borden and others, has played so important a part in the drafting of the terms of a league of nations for the world for the only available experience of such a league is that which we share with the Dominions. The Conference next year will be of immense importance. Questions relating to material interests will certainly count, but it wolud be folly to suppose that the empire stands or falls mainly upon such issues as the imperial preference. There can be no stronger bonds than the constant stream of emigrants from our surplus population with whom we hope to feed the colonies."

RECENT AMENDMENTS TO THE MOTOR VEHICLE ACT

Changes in Speed Limit and Other Features of Law as Adopted at Local Session of the Legislature.

At the 1919 session of the Ontario Legislature the following important changes were made in the Motor Vehicles Act:

Rate of Speed.

No motor vehicle shall be driven upon any highway within a city, town, village or police village at a greater rate of speed than twenty miles per hour; nor upon any highway outside of a city, town, village or police village at a greater rate of speed than 25 miles per hour, nor at a street intersection or curve where the driver of the vehicle has not a clear view of approaching traffic at a greater rate of speed than 10 miles in a city, town, village or police village, or 12½ miles outside a city, town, village or police village, but the Council of a city, town or village may by by-law set apart any highway or any part thereof on which motor vehicles may be driven at a greater rate of speed for the purpose of testing the same, and may pass bylaws for regulating and governing the use of any such highway or part thereof for such purpose.

Reckless Driving.

Provision is made increasing the penalty for reckless driving whereby anyone found guilty of this offence shall be liable for the first offence to a penalty not exceeding $50, or one week's imprisonment, or both; for the second offence to a penalty not exceeding $100 or one month's imprisonment or both, and for the third or any subsequent offence to imprisonment not exceeding six months.

Noise Muffler.

Every motor vehicle shall be equipped with a noise muffler and no contrivance for releasing such muffler shall be attached to the motor vehicle so that it may be operated from any seat in the vehicle.

Mirror.

Every motor vehicle used for commercial purposes shall be equipped with a mirror securely attached to it and placed in such a position as to afford the driver of such motor vehicle, while driving or operating the vehicle, a clear view of the roadway in the rear or of any vehicle approaching from the rear.

Licensing of Chauffeurs.

The rules governing the issuance of licenses to chauffeurs have been modified as indicated in the following redrafted clause:

> A license shall not be issued to a person who drives a motor vehicle for hire, pay or gain unless he files in the office of the Minister of Public Works and Highways certificates that he is a fit and proper person to be so licensed, having regard to his character, physical fitness, ability to drive and knowledge of the rules of the road. One of such certificates, touching the applicant's character, shall be furnished by the chief constable of the municipality in which the applicant resides, and one other certificate, touching the applicant's physical fitness, ability to drive and knowledge of the rules of the road, shall be furnished by a member of the Ontario Motor League appointed for that purpose by the Lieutenant-Governor in Council, and residing in the municipality in which the applicant resides

Stealing Motor Vehicles.

Bylaws may be passed by the councils of all municipalities for paying, on the conviction of the offender and on the order of the judge or police magistrate before whom the conviction is had, a reward of not less than twenty dollars to any person who pursues and apprehends, or causes to be apprehended, any person stealing a motor vehicle within the municipality.

Prohibition as to Letting or Hiring.

No person shall hire or let for hire a motor vehicle unless the person by whom such motor vehicle is to be driven is a person licensed to drive a motor vehicle as required by this Act, or is a person to whom a permit has been issued pursuant to section 3 of this Act, or is a person to whom a certificate of competency has been issued by the Minister of Public Works and Highways.

Record of Second-Hand Vehicles.

All persons who buy, sell, wreck or otherwise deal in second-hand motor vehicles shall keep a correct record of all motor vehicles bought, sold or wrecked and of such information as will enable such motor vehicles readily to be identified and shall transmit weekly to the Department of Public Works and Highways on forms furnished by the Department a statement showing all motor vehicles bought, sold or wrecked by him during the week contained, and such information with reference thereto as may be required by the Department.

Buying Where Serial Number is Obliterated.

No person shall buy, sell, wreck or otherwise deal with any motor vehicle whereof the manufacturer's serial number or similar identifying mark has been obliterated or defaced or is not readily recognizable.

Report as to Car Stored.

Where any motor vehicle is placed in the possession of any person who buys, sells, wrecks, or stores motor vehicles and the same remains in his possession for more than two weeks without good reason, such person shall forthwith upon the expiration of the said period of two weeks make a report thereof to the Minister of Public Works and Highways.

Onus of Disproving Negligence.

The Act provided: "When loss or damage is sustained by any person by reason of a motor vehicle on a highway, the onus of proof that such loss or damage did not arise through the negligence or improper conduct of the owner or driver of the motor vehicle shall be upon the owner or driver."

An amendment was proposed that this section should not apply in case of a collision between motor vehicles on the highway, or in case of a collision between a motor vehicle and any other vehicle which is being operated on the highway between dusk and dawn which does not carry a lighted lamp in a conspicuous position. It was agreed by the Legislature that the section should not apply in the case of collision btween motor vehicles but the balance of the proposed amendment was struck out.

Amendment Proposed But Defeated

Among the amendments which were suggested but did not meet with approval were the following:

The Lieutenant-Governor in Council may make regulations to limit or restrict the candle power of any lighting device on a motor vehicle.

No person may be convicted of an offence under Section 11 (exceeding the speed limit) upon this opinion of a single witness as to the rate of speed.

No person may be convicted of an offence under Section 11 unless it be shown that the rate of speed fixed by this section was exceeded for a distance of one-quarter of a mile or more, upon any highway outside of a city, town or village, or for a distance of one-eighth of a mile or more upon any highway within a city, town or village.

DOWNEYVILLE

(Special Correspondent)

Downeyville, May 21.—Pte. Fran Lucas, who has been overseas for three years, is home again.

Lieut. Francis O'Brien, who has been overseas for three years, has landed in Halifax. He is expected home in a few days.

Miss Mollie O'Brien and Pte. Eugene O'Brien are spending a few days in Rochester, N.Y.

Corp. William O'Neill, of Kingston, spent the week-end with his parents here.

Mr. Jack Perdue, of Ennismore, visited friends at King's Wharf on Sunday.

Mr. Erwin White, of Felon, was a Sunday visitor at Downeyville.

Mr. Garnet Perdue, of Toronto, is home for the summer vacation.

PUBLISH PART TREATY

Allies Decline to Make Whole Pact Public.

London, May 21.—Replying to Donald MacMaster, who, in the House of Commons yesterday made a request for publication in full of the peace terms, Mr. Bonar Law stated the heads of the big European Four, for reasons which could not be disclosed, considered this undesirable, and were adopting a similar course in the allied parliaments. Parliament's decision equally applied to the financial clauses relating to reparation. The heads of the Government would reconsider the subject after May 22.

Unemployment is driving aliens from the U.S. back to Europe.

There Is No Reason to Think

that, because you have tried and found to be ineffective many kinds of remedies for Gastritis, Hyperacidity, or imperfect Digestion of Food accompanyied by pain or gas after eating, that you cannot be relievd and be cured.

Moncur's Digestive Tonic

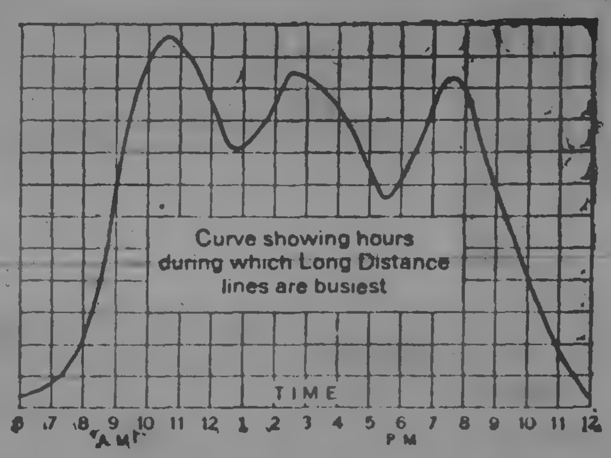
is slightly laxative and acts upon the liver as well. It is especially suited for those suffering from Billous Indigestion. It corrects at once the formation of gas. It assists in the assimilation of food and protects the Inflamed Lining of the stomach in Gastritis.

It strengthens and relieves the whole digestive tract. This preparation used in connection with proper diet and nerve sedatives gives the most satisfying results in Nervous Dyspepsia and Hyperacidity.

Even the old chronic cases show a decided improvement under treatment with this remedy.

Moncur Drug Store 407 George Street

Lowest Prices in the City on Patent Midicine



Peak Loads

IN practically all public services there are what are known as peak load hours—hours during which the demands for service are greater than at other hours of the day. A striking example of this is seen in the case of the street railway rush in the period just preceding and following the business day.

The accompanying curve shows the distribution of Long Distance business over the various hours of the day. It is evident that to make use of the service at hours other than those in which the peak loads are being carried, means that you obtain a more prompt and satisfactory service.

We suggest that where possible, you place your Long Distance Calls so as to avoid the hours of peak loads.

The Bell Telephone Co. of Canada

C. P. R. Turn-Table On The River Front

CITY'S PROPERTY COM. WILL RECOMMEND LEASE OF LAND AT NOMINAL RENT.

The City Council's Railway Committee last night decided to recommend that the C. P. R. have the use, under a nominal rental, of a plot of land along the river front, on which to construct a turn-table.

The site is just north of the C. P. R. bridge and will allow over fifty feet clearance for a right of way between the turn-table and the river for a right-of-way and wharfage. There are a number of boat houses at this spot but their rights will not be interfered with.

The turn table will cost approximately $13,000.

The Committee's recommendation to Council in this regard is embodied in the following resolution:

Moved by Ald. Turner, seconded by Ald. Morrison, that the city lease to the C.P.R. that portion of land on Water street, along the river front requested for a period of 10 years, at a nominal rental of $5 a year, subject to readjustment at the end of that time; the turntable to be removed at any time on the city giving the C.P.R. six months' notice of such removal.—Carried

In the course of the discussion Ald. Edgar raised the question of attempting to secure from the C.P.R. a lease for a period of years, at a nominal rental of the foot bridge right-of-way alongside the C. P. R. bridge. This bridge, he said, is invaluable to Ashburnham residents, and he would like to see a more definite arrangement with the railway company. As it is the city pays no nominal rental for this foot-bridge privilege, which the city enjoys practically at the will of the C.P.R..

Ald. Edgar presided and his colleagues present were Mayor Duncan, Aldermen Turner and Morrison.

LIQUOR STORE FOR PETERBORO?

LINDSAY EXPECTS ONE, WHY NOT THIS ELECTRIC CITY?

The Lindsay Warder has reason to look for the establishment in Scugog town of a liquor store under the control and supervision of a government vendor.

It is understood that government vendors' liquor stores are to be established in town and cities in accordance with population and importance. If that is so, surely Peterborough city has a look in with Lindsay, when favors are being distributed.

ADVERTISING RATES.

The rate for Classified Advertisements is one cent a word per first insertion; subsequent insertions half a cent the word. Minimum number of words ten. Special terms for 5000 words or over.

THEATRICAL

CYRIL MAUDE IN "THE SAVING GRACE" AT THE GRAND, ON THURSDAY EVENING, MAY 22.

AMERICAN LADY TAKES ROLE OF ENGLISHWOMAN IN PLAY

Laura Hope Crews Only One of That Nationality in "The Saving Grace" at the Grand Opera House Tomorrow.

Miss Laura Hope Crews, leading lady of the Cyril Maude company, is the only American member of that brilliant organization, yet she was especially selected by Haddon Chambers, the British author of "The Saving Grace," at the Grand tomorrow evening, which is essentially a British comedy, to play the role of a woman who is British to her very finger tips. This is interesting, not because it indicates that Miss Crews is like an Englishwoman, but it shows how very much alike, in speech and manner, the two great English-speaking people have become in recent years. The war has, of course, brought us closer together in these matters than ever before, and we have now reached the extreme point of understanding and employing each other's slang. International amiability can scarcely go further than that. Miss Crews is a San Franciscan, and speaks exactly in the manner of the cultivated people of that city. All the other members of the company speak, naturally, as do cultivated people of that city. All the other members of the company speak, naturally, as do cultivated Londoners. Yet it is doubtful if anyone, without foreknowledge, would pick out Miss Crews as the American in the cast.

Miss Crews has appeared not infrequently on the London stage, and she achieved a great success there with Henry Miller in "The Great Divide." But for the most part she has played in America appearing as leading woman with Mr. Miller, John Drew, Leo Ditrichstein and in the Shakespearean productions of Sir Herbert Tree. Outside of her acting she has but one hobby her farm in Connecticut. There she spends every moment of her unoccupied time which is not precisely unoccupied, after all, since she always studies and "thinks out" her roles there. Her method of building a characterization is extremely interesting, in a technical way, inasmuch as she does not begin, as do most players with the actual lines of the part Instead, she gets first a definite idea of the character and then slowly builds up, in imagination, the entire history and mental life of the woman that she is to portray. With this background her speeches when delivered on the stage, have the full force of the personality of the character behind them. "There are" she says, "a thousand thoughts in the mind to every one single thought that is expressed in one's conversation. If, in playing a part one has in mind but the single thought that is to be expressed one speaks like a mere parrot. It is the unspoken thoughts in the mind of the player that make the true characterization."

This would all seem to indicate that Miss Crews is a person immersed in the study of psychology and other profound science. On the contrary she is the most unassuming and human young woman imaginable and is, in real life, quite as delightful a person as is her Mrs. Blinn Corbett, in "The Saving Grace."

Miss Elsa Ryan Is No Stranger Here

HAS BEEN SEEN IN "OUT THERE" AND "PEG O' MY HEART."

Clever amusing dialogue; novel situations surprisingly developed, extremely smart stage settings and beautiful, modern costuming comprise the qualifications of "Tea for Three," the newest comedy by Roi Cooper Megrue, which Miss Elsa Ryan brings to the Grand Monday evening.

Miss Ryan is well and favorably known to theatre-goers of Peterborough for her clever acting of the roles of Annie in "Out There" and Peg in "Peg O' My Heart", but in her new character of Doris, the young society woman, the charming star has a part that displays her remarkable versatility and range of acting more prominently than either of her previous roles. As the flirtatious comedienne, as the tender and loyal wife and as the deeply grieved and solicitous friend when the scheme concocted in a spirit of mischievous fun seems to hover on the brink of tragedy. Miss Ryan is equally at ease and gives a performance remarkably glowing and well balanced throughout. Mr. Norman Hackett, who is not a stranger to local patrons of the theatre, renders capable assistance and Hayden Stevenson and others contribute to the joy of the occasion. The play is in three acts and four scenes, appropriately staged by Selwyn and Company. The piece has enjoyed successful engagements in Montreal at His Majesty's and at the Royal Alexandra in Toronto.

SAME OLD STORY BUT NEW SETTING

"UNCLE TOM'S CABIN" WILL BE AT THE GRAND FRIDAY.

An event looked forward to with more than ordinary interest theatricaly is the coming of Wm. H. Kibble's world greatest revival of Harriet Becher Stowe's lovable story of "Uncle Tom's Cabin." Kibble's reputation as a promoter of big productions is well known by theatre-goers, but few are aware that the coming event is one of the most gigantic and elaborate that has ever been attempted in America. Not only does Mr Kibble promise to bring a company of over fifty people, but a carload of scenery, ponies, horses and bloodhounds in the piece. "Uncle Tom's Cambin" will hold the boards at the Grand, matinee and evening, Friday.

Henry D. Lindley resigned as director of the U.S. War Risk Bureau.

PLAY RAN FOR YEAR IN LONDON

INTERESTING PLOT IN "BILLETED" TO BE AT GRAND TUESDAY.

Margaret Anglin in her delightful English comedy entitled "Billeted", direct from Washington, her three months' engagement in New York and lengthy runs in Chicago and Boston will be the attraction at the Grand on Tuesday, May 27th.

"Billeted" is the work of F. Tennyson Jesse and H. M. Harwood and was originally produced in London where it ran for a year at the Royalty Theatre. The "billetting" in question is at the home of a woman whose husband had deserted her several years before the rise of the curtain, and the circumstances naturally set the village tongues a wagging. The wandering husband turns up as one of the officers to be billeted at her home, and the wife—for certain reasons having to do with an insurance policy—announces his death immediately prior to his arrival, and thus the way is opened for unusual and amusing complications. The play is high comedy from beginning to end and bristles with epigrammatic speeches. In the central character Miss Anglin has a role which affords her every opportunity for her skill as a comedienne. Her supporting company includes Langdon Bruce, Fred Eric, Harry Barfoot, Sally Williams, Alice Cobourn, Ralph Kemmet, Myra Burrington and Phyllis Birkett.

MARGARET ANGLIN IN "BILLETED" AT THE GRAND OPERA HOUSE, TUESDAY, MAY 27th.

Putting Off the Dark Moment.

Robert had been arriving home late from school. At noontime his mother told him if he repeated the offense she would punish him. When he came home that evening it was five o'clock and supper was ready. Upon seeing his mother he thought he might coerce her into forgetting, and said, "Mamma, I is nearly starved—let's eat first and talk business later."

About Roller Skates.

Roller skates were patented and used in France as early as 1819. A few years later an Englishman named Syers patented them and manufactured them in London. Syers' skate consisted of a sandal mounted on five narrow wheels in a single row, so arranged, however, that only two of them could touch the floor at the same time. Several other similar skates were patented in England during the next 40 years.

LAST WEEK IN BIG LEAGUES

National League.

Ross Young of the Giants is the leading batsman with an average of .475; he also banged out the most base hits to date—29.

Ivy Olson of the Robins scored the most runs—16.

Buck Herzog, with Ray Powell of the Braves, are tied for leading base stealer; each stole 7 bases.

Ed. Pfeffer tops the hurlers. Robbie's big righthander won his five starts this season without a loss.

Larry Doyle had scored 7 runs in five consecutive games. Jim Vaughn and the Cubs halted Larry on May 14.

Max Carey of the Pirates was stopped by Elmer Jacobs of the Phillies after Max hit safe in 6 straight games, during which he bagged 10 hits in 24 tries for .417 and tallied

Grovr Alexander lost his first two
5 runs.
starts this year since returning from military service. Alex's first game was against the Reds, a team that the great hurler has defeated oftener than any club in the Heydler circuit, and Pat Moran's crew tossed a shutout into him. Alexander won 39 and lost 9 games to Cincinnati; his second defeat came from the Giants.

Hod Eller turned in the first no-hit game in the majors this season, when he set the Cardinals back both run and hitless on May 11. It was the first National league game of no hits since that memorable affair of May 2, 1917, when Fred Toney held the Subs hitless for ten rounds and trimmed Jim Vaughin, who allowed nary a hit in nine innings.

Charley Hollocher carried a hitting streak along for nine games until he faced Wilbur Cooper of the Pirates left-handed slants and quit. During his run of hitting Charley banged out 14 hits in 37 attempts for an average of .378 and tallied six runs; in the same game Kilduff was stopped after hitting safe for six games for .444.

Hy Myers got away to a batting streak that endured seven games and yielded a mark of .500, when Jesse Barnes applied the brakes in the same contest; Hal Chase quit to Rube Marquard and Burleigh Grimes, after hitting safely in six consecutive games for a mark of .269.

Tom Griffith after getting hits in eight straight games, was stopped by Cecil Causey on May 11. During his stretch of hitting, Tom got 19 hits in 37 tries for an average of .514 and scored 10 runs. In the same contest Causey halted Ernie Kreuger, who hit for .364 in six games.

Max Carey had run up a six-game hitting streak when he quit to Elmer Jacobs on May 13; besides scoring 5 runs, maced 10, hits in 24 attempts for an average of .417.

American League.

Joe Jackson of the White Sox tops the batters with an average of .424. Buck Weaver, with Nemo Leibold of the White Sox are tied for leading run-scorer; each tallied 15 runs apiece.

Joe Jackson banged out the most base hits to date—28. Eddie Collins, also of the White Sox is the leading base stealer with 9 steals; Herb Thormahlen of the Yankees, Ray Caldwell of the Red Sox, Jim Bagby of the Indians, Jack Quinn of the Yankees and Urban Faber of the White Sox are in a tie for the among the pitchers; each won two games without a loss.

Only one club, the Indians, would show a gain in team batting on the week.

Joe Judge quit to Jim Bagley after hitting safely in six consecutive games in which he got 9 hits in 27 tries for a mark of .333.

Lawton Witt went on a batting spree that lasted his first ten games when he ran afoul Bob Shawkey on May 10. Bob halting Witt. During his stretch of hitting Witt spanked out 18 safe ones in 42 tries for an average of .429.

Ty Cobb on May 11, stole his first base of the present season; it was off Catcher Hank Severeld and during Cobb's 18th game.

Buck Weaver quite to the Indians after scoring five tallies in as many straight games on May 11.

Tris Speaker fanned for his first time this year on May 11. It was the 13th games that Tris took part in. Claude Williams turning the trick.

The Senators, long noted for engaging in overtime affairs, seem to be runnin to form this season, for of the 15 games played to date four ran into extra innings, one of 12 two 13 and a 15-inning game; two of these eded in the games with the Yankees.

Tris Speaker enjoyed a big day afield on May 10, spearing nine flies from White Sox bats.

Harry Hellman had hit safely in 8 straight games in which he punched out 12 hits in 3 attempts for an average of .400, when he quit to Carl Wellman on May 10.

Herman Bronkie of the Browns was halted by Frank Shellenback after hitting safely in 6 straight games for .292.

Donie Bush of the Tigers spanked out four hits during the Tigers-Indians game played May 13.

Dave Davenport halted two White Sox players who had hit safe in six games in a row. Joe Jackson had hit .417 and Charley Risberg for .377.

Dempsey Trains Digging Ditches

MUD-BESPATTERED AFTER RUN ALONG SHORE OF MAUMEE BAY.

Toledo, May 21.—Jess Willard, the heavyweight champion will arrive in Toledo a week from Yesterday to start training for his championship battle with Jack Dempsey here July 4. The champion so advised Tex Rickard, promoter of the contest, tonight. Willard will likely do his training at a clubhouse about a mile east of Dempsey's camp, on the shores of Maumee Bay. The place has been offered him.

Despite muddy roads and a cold drizzling rain, Dempsey went through his first workout today, covering about six miles along the bay short. When he returned his clothes were coated with clay as a result of plowing through water and mud. Bundled in heavy sweaters, the challenger spent the remainder of the day digging trenches around his camp to drain off the water which swept from the bay during a windstorm last night.

Denver Jack Geer; Terry Keller, a light heavyweight and John Lester Johnson, a negro, were instructed to report at once, so it is probable that Dempsey will begin his boxing sooner than expected. Later Ed ("Strangler") Lewis, the wrestler will be brought into camp to work with the challenger.

ORIENTALS TO PLAY DE LAVAL TEAM

GAME CALLED TOMORROW AT 6.30 P.M. AT RIVERSIDE PARK.

The baseball game at Riverside Park announced for last night between the Veterans and the Matthews teams was postponed on account of the weather. Tomorrow evening at 6:30 there will be a game between the Orientals and the De Laval nine, both of which gave such an excellent account of themselves at the opening of the season last Saturday. The Orientals tomorrow night will be stronger than ever with Mike Sheehy in the line-up. This is the infielder who was such a pillar of strength to the Riversides team managed by Jake Solomon last year. The De Lavals will also have a number of new men in the game tomorrow.

The Orientals will prepare for the fray by holding a practice tonight at Riverside Park at 6:30. All hands are requested to be present.

Abolish Fahrenheit?

There is a growing crusade against the Fahrenheit thermometer used in all English speaking countries, and the plea is made that the Centigrade thermometer be employed in its place. The Centigrade is used for nearly all scientific purposes and is decidedly superior to the Fahrenheit, but the latter is in familiar use among the great mass of people who use heat measuring instruments.

Practically all English speaking people use the Fahrenheit scale, even with all its inconveniences, and people who imagine that they can effect a change by an act of congress reckon without authority. Nothing is more difficult than to change the established habits of people, a truth which will slowly dawn upon the enthusiast who undertakes to change the [illegible] of a [illegible] [illegible]

Sporting Gossip

While the dope books of the diamond maintain records of many weird contests there are few that can compare with the game played by the Atlantics and Forest City 49 years ago May 17, 1870. Nowaday when a team accumulates a dozen runs in the course of nine innings the feat is considered something of a swatfest, but in the pastime referred to the Forest City defeated the Atlantics by a lop-sided score of 132 to 1, and that, too, in five innings. This was an average of over 26 runs to the innings for the Forest City. Nor is it to be considered that the clubs engaged were "bushers." The Forest City aggreation, of Rockford, Ill, had in its lineup A. G. Spaldin, "Cap" Anson and "Ross" Barnes three of the most illustrious names in baseball. The Atlantics of Brooklyn ranked among the topnotchers of the diamond of that period, and had several famous players.

In the year preceding the inauguration of professional baseball, and for some time thereafter, large scores were the rule rather than the exception. Contests usually commenced early in the afternoon — sometimes even in the morning—and continued until dark. I 1869, at Zuffalo the Niagaras defeated the Columbias by a score of 200 to 10, which stands as the record for number of runs, although not quite so one-sided as the Atlantic-Forest City contest. In 1875 the baseball fans were startled by the report of a game in St. Louis in which Chicago defeated the home club by the amazing score of 1 to 0. At first the fans did not take kindly to that sort of game, and hungered for more action. With the authorization of overhand pitching in 1884 and the consequent improvement in twirling the day of big scores passed, and baseball began to assume its present form.

Joe Bens was released to the Kansas City club by White Sox officials said recently he would quit baseball if turned over to the minors. Joe may relent and go to the Blues. He might help Kansas City win a flag and then several major league club managers would be after him.

Babe Ruth secured sweet revenge on the Chicago rooters who have been booting him when he went to the hill as a rescuer of Joe Bush, who voluntarily retired after the first inning yesterday. Ruth went through eleven thrilling innings before his teamsters came through with the necessary run.

That twelve inning episode at Comiskey Park between the Red and White Sox was a thriller. After each team seemed to have the contest won several times the unexpected happened in the Boston twelfth. Barry led off with a single, Strunk sacrificed. Gainer hit to Shellenback and Barry, who tried to third, was chased between the sacks. Both runners went back to second and Gainer was called out. McInnis rapped a double to right which scored Parry with the winning run.

Many freak plays occurred in a recent game in Chicago. Stuffy McInnis, considered a smart ball player, made a slip when he overran second and failed to touch the base on his return to first, when Jackson caught a fly ball. Eddie Collins touched second with the ball in his hand and Stuffy was called out. Shellenback succeeded Kerr in the tenth and Dick went to the rescue of Williams in the fourth. Williams was hammered hard by the world's champs.

The Yankees bunched blows and trimmed the Tigers in Detroit, 4 to 3. A home run by Pipp scoring two tallies helped out errors by Hellman, Bush and Jones, let in the winning run in the ninth.

Cleveland kept up its winning streak defeating the Washington Senators 6 to 3. Wambsganss made four hits in four trips to the plate. Johnnyn Enzmann, whom the White Sox knocked out recently, was a puzzle to the Senators.

It isn't pride that makes the gallery gods look down upon the rest of the audience.

Some men try to mask light of their troubles by burning their unreceipted bills.

We wonder if the Lord loves a cheerful giver as well as the cheerful giver loves himself.

THE HORRIBLE PROSPECT

(Chicago News.)

We are, just now, being treated to pictures of the two fighters who will muss each other over at Toledo on Independence day. The other day Mr Willard was shown holding a golf club. This morning comrade Dempsey is dpicted in the act of wielding a tennis racket. It may safely be predited that before the boxers have stepped into the ring we shall have pictures showing them —

Sawing wood.
Cutting down a tree.
Frying a pork chop.
Sewing on a button.
Playing with a bear cub.
Carrying a fishing rod.
Getting a rubdown.
Playing with the housekeeper's infant son.
Operating on a piano.
"Tripping the light fantastic" with the village belle.
Reading a volume of plato before breafast.

Detroit may have another Statler Hotel, larger than the present one.

$1,000 Collected For Vets Yesterday

KEEP THE GOOD WORK UP—SUBSCRIBE GENEROUSLY.

Canvassers in the G. W. V. A. big drive for funds to defray the cost of the veterans' new club house rolled up the gratifying sum of $1000 yesterday. This sum is really more than was looked for in view of the wretchedly inclement weather, and not only shows that the canvassers work, rain or shine, but also that public sympathy is with the objective.

All indications point to a huge success for the drive, and deservedly so. The boys who took their lives in their hands on the battle fields of France and Flanders should not, and will not, it is hoped, ask in vain for substantial financial support of their aims for keeping together in brotherhood at home those who battled shoulder to shoulder abroad. Let all respond to the canvassers in khaki as generously as possible.

Sunday baseball, motion pictures and newspapers were condemned by the U. S. Presbyterian General Assembly.

Four men were arrested for the theft of $80,000 worth of sugar from the Brooklyn, N.Y., naval base.

SOCIAL AND PERSONAL

EASTWOOD—RADLEY

The Toronto Globe of today says: "Mrs. William Hyslop has received a cable from London announcing the marriage of her niece, Miss Edith Radley, elder daughter of Mr. and Mrs. C. A. Radley, formerly of Toronto, and Mr. John Russell Eastwood, son of Mr. and Mrs. Vincent Eastwood of Peterborough, Ont The bride and groom expect to return to Toronto in July."

Mr. and Mrs. Vincent Eastwood, parents of the groom received by cable the announcement of the wedding of their son which was no surprise to them as the young couple had been engaged for some time before Pte. Eastwood enlisted. During the war the Radley family removed from Toronto to London, which fact accounts for the location of the wedding ceremony.

Pte. John R. Eastwood is well known in Peterborough where he was a student in the public schools and collegiate institute which his father did so much to build up. On the completion of his studies he took a position in the Royal Bank, but after a year went into the automobile business and for over six years was with Hyslop Bros. Ltd., the Toronto Automobile dealers.

Pte. Eastwood is the elder brother of that distinguished hero, Capt V. M. Eastwood who went overseas with the 93rd battalion as a lieutenant and who with Lieut. Romeyn Stevenson of the same unit, was the first to get to France, being transferred to the 18th Battalion. For gallant service while on scout duty at Vimy Ridge Lieut. Eastwood received the Military Cross, and was promoted to a captaincy. He was wounded at Passchendaele and on his recovery was invalided home a year ago. Capt. Eastwood is now a student in Toronto University.

Messrs R. Neill and Felix Brownscombe were visiting in Lindsay yesterday.

KEENE

Keene May 21.—Sapper A. P. Mather, who has been overseas the past two years with the 3rd Canadian Railway troops, returned last Thursday on the Celtic. Sapper Mather is the son of Mrs. Duncan Mather.

Messrs. William and Alfred Fletcher, of Peterboro on Sunday and spent the day with friends.

Miss Lillian Richards, of Toronto, is a guest at the home of the Misses McCrea.

We regret to report little Miss Annie McFarlane quite ill with rheumatism.

Mr. and Mrs. Clarence Byers and Mrs Ralph Humphries returned on Monday from Toronto where they spent the week-end.

Mrs. (Dr.) Ross and little son are visiting friends at Owen Sound.

Mr. and Mrs. Burt Howson, of Peterboro, were in the village last Thursday.

The township Sunday School convention will be held at Stewart's Hall, Monday, May 26th.

A good crowd attended the play given by the Mark Street Church young people of Peterboro last Friday night and was much appreciated by those present. The door receipts amounted to $50.50.

Mrs. McCartney and sister, Mrs Alvin, of Bethany, visited their mother. Mrs. Peter McNeil. a few days this week.

Miss Hazel Plunkett, of Peterboro, spent the week-end with Keene friends.

Mr and Mrs. L. Burley were in Peterboro last Thursday.

Miss Mary O'Toole was in Peterboro Monday night to attend the G. W. V. A. dance.

Misses Pearl McCann and Josephine Kenneally motored to Peterboro on Saturday.

Miss Mary Armstrong and Isabell McCarthey of Peterboro, were home over the week-end.

Mr. Lewis Roche is employed with the Manning Garage.

Mrs. W. R. Wedlock and son, Alex. left last Wednesday for Peterboro where they will make their future home.

PRESENTED PURSE TO MRS. JOHNSON

TRIBUTE OF LAKEFIELD LADIES TO WIDOW OF FORMER PASTOR.

(Special to the Review)

Lakefield, May 21.—The Regular monthly meeting of the Ladies Aid and also the Ladies of the Methodist Church congregation was held in the basement of the Church on Tuesday afternoon.

The meeting took the form of a send off for Mrs. Johnson, wife of the late Rev. Mr. Johnson, former pastor of the Methodist church here.

Despite the disagreeable weather, there was a good attendance and a very pleasant afternoon was spent.

During the afternoon the following programme was rendered:

Instrumental—Miss L. Walden.
Duet—Misses Webster and Doidge.
Reading—Mrs. Murphy.
Duett—Misses J. Erskine and F. McIlmoyl.
Reading—Mrs. J. H. Sherin.

Mrs. Johnston was taken by surprise when she was presented with a purse, enclosed in crocheted bag with the following address and also a manicure set for her little daughter Winnifred, but made a very suitable reply.

After refreshments were served the meeting dispersed.

The Address

Dear Mrs. Johnson—We realized with deep regret that the term of association and friendly intercourse with you in our midst is swiftly drawing to an end and on behalf of the ladies of this church we take this opportunity to assure you of our sincere appreciation of your earnest Christian life since coming among us.

Your willingness to help and your interest in every department of church work has been an example to all of us and an inspiration to many You have truly rendered faithful service and we unite in the hope that for many years you may be spared to continue your ministry of loving service to the Master

As a token of our love for you and good wishes for your future, we present this purse to you, and ask you to accept for your dear little girl, as an evidence of our kindly interest in her welfare, this manicure case, and our earnest prayer is that with God's blessing your life may be filled with the light of his presence and with the fragrance of his love and service.

Signed on behalf of the Ladies' Aid, Mrs. Nugent; Woman's Missionary Society, Ida Sherin; Mission Band, M. B. Moore; Sunday School, Myrtle Stabler; Ladies of Church, Mrs. Frost, V. C. Hunter.

OBITUARY

MRS. HELEN L. CRAWFORD

Helen L. Hay, wife of Dr. A. H. Crawford of Marmora, died at her home in that town early this morning following an operation.

The deceased was a daughter of the late T. A. S. Hay, a man who devoted all his life to unselfish service in the interests of the city. She is survived by her husband and three small children, two daughters and a son. Other survivors who with a host of friends in her late home town and in the city where she was born, who will mourn her untimely end are her mother, Mrs. T. A. S Hay who resides at 192 McDonnel street and a sister, Miss Isabell Hay, at home.

The funeral will be held on Friday afternoon from the C. P. R. station to Little Lake Cemetery upon the arrival of the 3.20 train from the east

MRS. GEORGE WHATLEY.

There passed away in the Nicholls Hospital at 11 p.m. Tuesday, May 20th, Eva Vanara Babcock, aged 36 years, beloved wife of Mr. George Whatley. The deceased is survived by her husband, one daughter, Ivah, aged seven, and one son, Garfield, aged eleven. She also leaves to mourn her loss a sorrowing mother and two sisters, Mrs. F. C. Buott and Mrs. C. Laffman. Deceased was a devout and consistent member of Park Street Baptist Church and a worker in the Ladies' Aid Society of that church. She enjoyed the esteem and respect of a large circle of friends and acquaintances by whom she will be keenly missed.

The funeral service will be held at the family residence, 20 Stewart street, tomorrow at 2:30 o'clock. Interment will be made in Little Lake Cemetery. Rev. D. Brown will officiate at the home and at the grave.

Neighbors of a San Francisco woman are objecting because she keeps a pet lioness in her back yard.

YOUNG PEOPLE HOLD PICNIC

SUCCESSFUL ATHLETIC ENTERTAINMENT AT THE EXHIBITION GROUNDS AT LAKEFIELD.

(Special to the Review)

Lakefield, May 21.—The Anglican Young People's Association held their annual spring picnic at the Lakefield Exhibition Grounds on Monday afternoon. The following returned men were guests of the society, Messrs. M. Kidd, Wm. Robinson, Arthur Barker, Theo. Manning, Ernest Robertson, Travers Shewen, Eldred Cumbrel and Joe Lemay, all of whom report having had a splendid time. The following sports were run off, after which other games were played:

Sack race, High jump, Long jump. Tug of war, Wheel barrow race, Ladies 100 yard, egg race, Potato race, Tug of war.

Prizes were given to those winning the most points in all the games and were as follows:

Men—Melleville Kidd, Turkish cigarettes;

Ladies—Miss Hilliard, Silver Butter Dish; Mrs. Waldon, 2 lb box of chocolates; Miss Hampton, jewel case; Miss Rhoda Alford, Miss A. Watson, Boxes of chocolates.

A very interesting feature of the afternoon was a game of baseball, the captains of the teams being Misses Hilliard and Smith.

Supper was served in the grand stand.

LAKEFIELD

(Special Correspondence.)

Lakefield, May 21.—Mr. and Mrs. Wm. Blewett were the guests of Mr. and Mrs. John Blewett on Sunday.

Dr. Carmichael of Spencerville is at present in the village visiting his brother-in-law, Mr. Jarell.

Mr. Stephen Nichols, who has been spending a few days in the village, returned to Port Colborne on Tuesday.

Mr. Fred Moon returned to the village on Tuesday after spending a few days in Toronto on business.

Mrs. Marling was a visitor to Peterborough on Tuesday.

Mrs. Fred Richardson spent Tuesday in Peterborough.

Mrs. George Rowe of Peterborough is spending a few days in the village visiting relatives.

Capt. B. Marling returned Saturday after spending a few days with friends in Montreal.

Miss Etta Abbott returned to Cobourg on Saturday after spending a few days with her parents, Mr. and Mrs. Fred Abbott.

Mr. A. A. Mitchell of Toronto was in the village on Tuesday en route to Burleigh Falls.

Mr. W. Murduff spent the week-end at his home in the village.

Miss Margaret Hall of Peterboro spent the week-end the guest of Mr. and Mrs. Frank Burgess.

Miss Verna Burgess of Peterboro spent the week-end at her home in the village.

Sergt. Stenner of Kingston is spending a few days' leave with his family in the village.

Pte. E. Robertshaw returned to the village on Saturday after spending the past three years overseas. Pte Robertshaw enlisted with the 93rd Battalion.

Pte. Arthur Barker arrived in the village on Saturday after about three years' absence overseas.

Lieut. Eldred Cumberland, Peterboro, formerly of Lakefield, is at present the guest of Mr and Mrs. G. B. Hilliard.

DENIED REQUEST OF DYING WOMAN

ACTION OF MILITARY AUTHORITIES AROUSES INDIGNATION OF KINGSTON PEOPLE.

Kingston, May 21.—Kingstonians are very much incensed at a ruling of the militia authorities regarding the request of a dying woman, Mrs. Jessie Rosebush, that her husband, who is overseas, be allowed to come home as soon as possible that he might be with her during her last days.

A doctor's certificate was sent to Ottawa with the recommendation that Pte. Rosebush, who was waiting to be sent home, be returned immediately. The authorities replied that the facts disclosed did not warrant an application being submitted overseas for return on compassionate grounds. They stated that medical authorities advised that the doctor's certificate relative to the condition of the wife did not indicate sufficient reason for requesting an immediate return of her husband on account of her condition.

Yesterday morning the woman died, leaving her husband, who is still overseas, and a son, whose eleventh birthday was yesterday. When his mother passed away he said to the doctor, "Not a very happy birthday for me, is it?"

The cause of the woman's death was heart disease, from which she had suffered for two years. It is likely the refusal of the authorities to allow the husband to return will be taken up at Ottawa.

WENT ALMOST AROUND WORLD

SPENT OVER FIVE THOUSAND DOLLARS SEEKING HEALTH—RESTORED BY TANLAC.

Like the man who went to Alaska in search of gold, leaving a lump of the precious metal worth a fortune lying under his doorsteps thousand tour the country annually seeking relief from their many ills. The health resorts are thronged, the hospitals filled, and millions of dollars are spent by those suffering from stomach trouble and the many complications resulting from it when, if they would only believe it, relief often lies within, if they would reach out and at a cost almost too small to mention.

The evidence regarding the value of Tanlac in the treatment of all forms of stomach trouble is too conclusive to even admit of doubt. In every city, town and community throughout the United States and Canada there are many living, enthusiastic witnesses to the merit of the Master Medicine. One of the most interesting of the many statements recently received was made by Mrs. W. A. Southerland, residing at 530 South Street. Springfield Ill Mrs. Southerland, is one of the best known and respected women of Springfield. She said:

"What Tanlac has accomplished in my case has been the most complete surprise of my life. I can hardly find words to express the gratitude I really feel over what it has done for me. I had been suffering from stomach trouble and nervousness for eleven years and have been treated by some of the best specialists, not only in this country, but also in London, England, and Old Mexico. We have traveled almost around the world and spent over five thousand dollars trying to get my health restored but nothing ever helped me. In fact I kept getting worse until I began taking Tanlac. I suffered almost beyond words to express from cramps and pains in my stomach after every meal, and was so nervous that I just trembled all the time. I could find no comfortable position at night; my head throbbed and when morning came I felt exhausted.

"Some of the specialists called my trouble nervous indigestion, anyway I could not even eat milk-toast without suffering and for a long time I lived almost entirely on milk. When we came back to Springfield I was so discouraged and down-hearted that I told my husband there was no use trying any longer, that there was no help for me. About this time I began reading what others said Tanlac had done for them and decided to try it as a last resort. Well, I soon had a good appetite, got so I could digest my food and my suffering ceased. So I bought more Tanlac and a few bottles have completely restored my health, and not only myself, but my husband and all who knew of my dreadful condition, have been surprised at the results I have gotten from Tanlac. I am never the least bit nervous any more, never know what it is to have a restless night, and enjoy three good meals a day and never have a pain or an uncomfortable feeling afterwards. I no longer have that tired, wornout look with that dull swarthy color, but my complexion has cleared up and I look and feel like a different woman altogether. I am making this statement because I want the people who may be suffering as I did to know they can get relief without traveling the world over as I did. I can never praise Tanlac enough."

Tanlac is sold in Peterboro by W. R. Warne Drug Co., Ltd.; in Havelock by A. C. Denike; in Lakefield by Tanner Drug Co., Ltd.; in Fowler's Corners by W. A. Hunter; in Gelert by A. J. Scott; in Westwood by G. Pringle & Son.

HEARD REPORTS FROM DELEGATES

INTERESTING SESSION HELD BY ST. LUKE'S WOMEN'S AUXILIARY.

Woman's and Girls' Auxiliary of All Saints Church held a very enthusiastic meeting last evening to welcome their delegates from Toronto, Mrs. Price, Mrs. Beaty and Mrs. Connolly.

All gave splendid reports. Mrs. (Dr.) McCullough, the representative on the Women's Council also gave an interesting report. The Auxiliary have just sent a very substantial bale to the Moore Port Indian School, which consists of an entire outfit for a native girl who is being educated as a missionary. The Rector also gave a short address after which refreshments were served by the girls and a pleasant social time was spent.

BAND CONCERTS IN CITY'S PARKS

57th REGIMENT BAND REJECTS $200 GRANT ON CONDITIONS OF BYLAW.

The City Parks Committee, of which Ald. Edgar is chairman arranged last evennig for summer open air band concerts.

Ald Edgar stated that the three bands—G. W. V. A. Salvation Army, and 57th Regiment had been asked to notify the committee of their intentions as to playing in the parks in consideration of the grant of $200 each awarded them.

The 57th Regiment had replied by letter that they were willing to play in the parks as in former years but not willing to subscribe to the conditions of the by-law governing band grants this year. (That is to say they would not accept a grant of $200 for such services.)

The other bands, Ald. Edgar said had expressed their acquiescence in the conditions of the bands grant bylaw.

Mayor Duncan—"The $200 the 57th Band rejects can be applied nicely to painting and repairing the band stands.

It was decided that the G. W. V. A. and Salvation Army Bands shall play in the Victoria and King Edward Parks, as follows: In the Victoria Park, on Friday evenings, in the King Edward Park on Tuesday evenings. The two bands to alternate in their service. That is to say, the band that plays in the Victoria Park on Friday of one week will play in the King Edward Park on Tuesday the following week, and vice versa.

The foregoing was the resolution of Ald. Turner and Morrison.

Paint Band Stands

On motion of Ald. Turner and the Mayor the Property Committee will be asked to paint the band stands in Victoria and King Edward Parks.

PREPARING FOR REVIVAL

Evangelist Kennedy Returns to City From Other Fields

Evangelist Kennedy returned to the city last night after an absence since Christmas during which he conducted five revival campaign, at Tweed, Thedford, Oshawa, Cannecon, and Arden. Altogether over one thousand persons professed conversion at these meetings.

Mr. Kennedy is making final arrangements for the series of revival services which he will conduct in a tent this summer, full details of which will be announced later.

DIED

CRAWFORD—At Marmora, May 21st 1919, Helen L. May Crawford, beloved wife of Dr. A. H. Crawford, and daughter of the late T. A. S Hay and Mrs. Hay, 192 McDonnel Street.

Funeral will leave the C.P.R. station on Friday, May 23rd, upon the arrival of the 3.20 train, and proceed to Little Lake Cemetery for interment.

MAJORITY BOARD OF WORKS WILL RECOMMEND BRIDGE CONTRACT

The Canadian Engineering and Construction Co. Committee's Choice on Division of 6 to 4—Guaranteed Fixed Sum Cost-Plus Price $276,860—By-Law and Agreement Covering This Decision Goes to Council Wednesday.

So far as the Board of Works is concerned the Canadian Engineering and Construction get the contract for the high level bridge on their cost plus guaranteed tender of $276,860. That is to say, they are to build the bridge and the city pays the actual cost of same, together wit hthe contractors' commission, and rent of plant. The contractors guarantee that the work shall not exceed their lump sum tender of $276,860, and stake their reputation on effecting considerable saving from this amount. They have already shown the city where $8,000 or $10,000 may be saved.

The bridge is to be nine feet narrower than the original plans, with the eliminations previously specified

This decision was reached last night on the Board of Works, every Alderman composing the council being present.

The following is the clinching resolution.

Ald. Taylor moved, seconded by the Mayor that the tender of the Canadian Engineering and Construction Co., on a cost plus basis with a guaranteed limited cost of $276,860 for a narrow bridge with specified eliminations be accepted.

This was carried on the following division.

For—The Mayor, Aldermen Turner,. Morrison, Edgar, Hamilton, Taylor.

Against—Chairman Ald. Phelan, Aldermen McIntyre, Gainey and Garside.

The Canadien Engineering and Construction Co., hail from Hamilton.

Other Resolutions

Ald. Turner and Edgar moved that the contract be awarded to the Russell-Townsend Co., on a cost plus basis of $228,600, including their fixed commission and rent of plant at $29,500 (there was no guaranteed price in this tender.) This was defeated on the following division:

For— Aldermen Turner, Edgar, Hamilton and the Mayor.

Against—Chairman Ald. Phelan, Aldermen McIntyre, Gainey, Garside, Taylor, Morrison.

The recommendations of the Special Bridge Committee, which met earlier in the evening failed to carry. This committee recommended that the lowest tender, that of Ed Conroy for a lump sum of $251,000 odd be accepted.

It will not noticed that the minority vote for the Russel-Townsend people went over to the resolution in favor of the Canadian Engineering and Construction Co., after the defeat of their motion. And that Mr. Conroy's supporters stood pat.

By-law of Agreement

On motion of Ald. Taylor and Turner the solicitor will be instructed to prepare a bylaw and agreement with the Canadian Engineering and Construction Co., for the construction of the bridge.

This carried on the same division which carried the winning resolution accepting the tender.

It must be understood that the action of the board of works is only a recommendation to Council. But as the Board is composed of the whole council every member of which was present last night, it is safe to say that its recommendations will be adopted legally in Council Wednesday evening unless some alderman or aldermen change coat on unforseen contingencies that may arise in the meantime.

(Continued on Page Four.)

EIGHT-HOUR DAY WILL BECOME UNIVERSAL DECLARES LABOR

Labor, Industrial Welfare Representation and City Fathers Meet in Conference on Laborers' Strike—City Balks on Eight Hours.

Delegates rfom the Trades and Labor Council, the Laborers' Union and Mr. E. F. Mason for the Industrial Welfare Committee of the Board of Trade met the City Council last evening in conference on the laborers' strike situation.

Mayor Duncan, in opening the meeting, said that he had been requested by President Bolwell of the Trades and Labor Council to call a special meeting of the City Fathers to meet the Labor representatives in an effort to arrive at an agreement in the present trouble, and that on account of his unavoidable absence from the city he had been unable to have the meeting called until last night.

President Bolwell presented the laborers' views fairly and concisely. He said the Trades Council represented the various trades in the city and are endorsing the laborers' request for 45c the hour and an eight-hour day. Toronto and other cities in the province have adopted eight hours, and he had every reason to believe that by next fall an eight-hour day will be a Dominion-wide economic measure. The speaker contended that the more time a man has to improve his mentality, to devote to his home surroundings and to indulge in medorate recreation with his family, the better workman workman and citsen he becomes. Whereas, after nine hours' strenuous labor a man is all in on reaching home and fit for nothing but to smoke his pipe and rest.

President Bolwell here went on to say that he thought every man would admit that under existing conditions 45c an hour is none too much for a man to live on, keep his family decently and prepare for eventualities. "The only way to get the best out of a man is to pay him wages for which he will work contentedly and that will enable his care and himself to share in some of the comforts of life and lay aside enough to avoid becoming a charge on the municipality in his old age." "A man," Mr. Bolwell continued, "can't rent a decent house on less than 45c the hour, and it is up to society to foster such conditions as will enable workingmen to secure their own homes of presentable appearance; otherwise Peterborough will develop into a city of shacks."

In conclusion, the speaker urged the Council that should they see their way clear to adopt the laborers' scale of wages and hours, they make no exceptions as to whom those conditions should apply.

Cost of Living.

T. Tooms, for the laborers, quoted government statistics as showing that in sixty Canadian cities the minimum cost of living is $20.99; of this, $13.05 is allowed for food alone. The Council, he added, is asked to resolve on wages that shall apply to the municipal outside laborers only.

What Is Asked.

Edward Tighe pointed out that the union is asking recognition by the city, the acceptance of a scale of 45c an hour, and an eight-hour working day, overtime price and one-half, work on Sundays and holidays double pay, and that all the strikers be reinstated, including Hawthorne, of the incinerator, who is a union man.

Mr. E. F. Mason explained that he was present to learn what propositions for a settlement are offered, in which the industrial welfare committee of the Board of Trade might be able to assist

For Outside Workers.

The Mayor expressed himself as in favor of a 45-cent scale for laborers, to apply only to the outside men. He was not prepared to foist any wages for labor on to the manufacturers that would handicap them in competition for business.

Ald. Garside endorsed the 45c an hour proposition, and reviewed the Council's previous conclusions on the whole strike situation

A Guarantee.

Mr Bolwell here assested, that were Council to put the eight-hour day into force, he would guarantee it would be found that a contented lot of laboring men would produce as much work in eight hours as in nine. They would start at the drop of the hat, work vigorously up to the last minute, and return next morning fresh and invigorated. From personal experience, he declared, he is turning out of his machine in eight hours now as much product as before in nine. The printers all over the continent are working on an eight-hour schedule (with a few exceptions, where the seven hour day is the rule), and employers' interests are not suffering.

Share with Others.

T Tooms—"One idea of the eight-hour day is to share work amongst the workers. Such a schedule would allow three shifts on the bridge and expedite its construction. As for the factories they will look after themselves. The union's wage scale is graded for different kinds of indoor work."

Ald Morrison talked for 45c an hour generally. "It takes" he said "as much for an inside laborer to live as for one engaged outside. Unfortunately, we have to submit to

(Continued on page 8)

OFFICIALS FROM OTTAWA IN CONFERENCE WITH LEADERS

Claimed That Winnipeg Strike Will Soon Be Settled—Department Stores Resumed Delivery This Morning—Danger Point Regarded as Passed.

Winnipeg, May 22.—Senator Gideon Robertson, Minister of Labor, and Arthur Meighen, Minister of the Interior and also the Minister of Justice have arrived from Ottawa. They declined to comment upon the situation prior to a conference with the central strike committee. The Winnipeg Free Press published an extra edition this forenoon.

STORES RESUME BUSINESS

The Department Stores made their first morning delivery since the strike began. No disturbance of note was reported. Provincial officials declared they were convinced that the danger point in the situation had been passed. Union leaders who commented upon this remark said there never had been any intention of violence. Members of the central strike committee who were in conference from yesterday morning until late last night resumed their deliberations. Mayor Gray said he expected the main problems surrounding the strike would be disposed of shortly. At the Board of Strade where the Citizens' Committtee was in session several members declared that "The strike was broken." Efforts to obtain a statement from union forces were not successful.

OFFICIALS IN CONFERENCE

The aggressive resumption of commercial enterprises in Winnipeg which had been paralyzed by the general strike of union men began this forenoon while high government officials were conferring with the Union leaders regarding the settlement of the industrial disagreement: The general strike has been in progress just one week.

Settlement in Sight.

Fort William, May 22.—Word reached here from unofficial but thoroughly reliable sources, that the Winnipeg strike may terminate today It is said that the metal workers' employers agree to take the men back, recognize the union and grant an increase in wages but no concession in the matter of shorter hours is stated so far as known. There is also a stipulation that sympathetic strikers both union and non-union are to be reinstated in their positions on a pre-strike basis.

Post Editorials in Public.

The strike up to today has caused immense business inconvenience and great monetary loss to the whole West, but otherwise has been a very prosaic affair, developing no sensational features beyond the mock Soviet system of civic regulation by the strikers' council. Editorials are now posted in public places taking the place of newspapers, and permits of a more generous nature are being issued to restaurants

Position of Returned Soldiers.

The story that returned soldiers generally sympathized with the principles set forth by the strike leaders is contradicted by travellers arriving from Winnipeg. It is not denied that many returned soldiers individually support the strikers, but the suggestion that any collective action has been taken by the veterans is emphatically denied and attributed to propaganda manufactured for other cities in Western Canada where strikes are feared to be imminent. It is said that returned soldiers are not in sympathy with the shipbuilding workers still out on strike here.

FOR PROHIBITION THE WORLD OVER

INAUGURAL SESSION OF CONFERENCE OF DRY FORCES AT TORONTO.

(Canadian Press Despatch)

Toronto, May 22.—Representatives of thirteen countries addressed the prohibition delegates in the inaugural session of the world prohibition conference here this morning, referring particularly to progress made in temperance legislation. Among the countries represented were Australia, Canada, Denmark, England, France Ireland, Japan, Italy, New Zealand, Scotland, Switzerland and the United States. The conference is preliminary to a great meeting to be held in Washington on June 4 and various delegates are leaving the city tonight and will tour the various parts of this country and the United States ultimately arrivin in Washington for a final conference.

Hun Socialists Now Take a Hand

(Canadian Press Despatch)

Versailles, May 22.—Carl Kautsky the German Independent Socialist leader has arrived here and has called for a consultation with the German peace delegation relative to the propriety of signing the treaty unless concessions are made.

Seaplane Still Weather Bound

(Canadian Press Despatch)

Washington, May 22.—High winds today again prevented the naval seaplane N. C.-4 from leaving Ponta Del Gada for Lisbon on the second leg of the Transatlantic flight.

MORE TROUBLE IN THE CONFERENCE

PERSONAL CLASH BETWEEN PREMIERS OF ITALY AND GREECE.

(Canadian Press Despatch)

New York, May 22.—The Associated Press this morning issued the following: Great Britain, France and the United States are reported from Paris to have sent a joint note to Italy asking for an explanation of the landing of Italian forces in Turkey. Premier Orlando answered the note, and it is reported there was a personal clash between him and Premier Venizelos of Greece, which resulted in latter withdrawing from the meeting of the Council. The difficulty apparently is over the landing of independent Italian forces in the village of Smyrna which the Allies are trying jointly to pacify with a view to a mandate to Greece for its administration.

Council of Four Still in Session

(Canadian Press Despatch)

Paris, May 22.—The Council of Four of the Peace Conference this morning considered questions regarding the Sarre Valley, raised by the recent German note on this subject. This afternoon the Council will take up the subject of reparations.

LIEUT. KENNETH CRANE HOME AGAIN

WAS ATTACHED TO THE 149th SQUADRON NIGHT FLIERS.

Flight Lieutenant Kenneth Crane, son of Mr and Mrs. John Crane, 469 Weller street, this city, is home again. He returned Tuesday night, having made the trip across the Atlantic on the steamer Scandinavian. Lieut Crane has been eighten months' strenuous service with the Royal Air Force overseas. At the time the armistice he was attached to the 149th squadron of night flies and accompanied the British army of occupation to Cologne. As a member of the night fliers. Lieut. Crane has had many thrilling experiences.

An Anxious Mother Seeks Missing Son

SCOTCHMAN OF THIRTY YEARS OF AGE LOST TRACE OF SINCE 1911.

Chief of Police Thompson has receive the following letter from Scotland, which speaks for itself:

"522 Halburn St.,
"Aberdeen, Scotland.
"May 7, 1919.

"Dear Sir, I would be pleased if you could assist me in finding out about my son Lewis George Smith. I got a post card from him dated 28th December, 1911, post marked Peterboro. He then stated he would be back in Scotland at the end of May, 1912, but I have heard nothing of him since.

"He will be 30 years of age now.
"From his mother.
"MRS. M. GARDINER."

The police have a photo of the missing man, and one theory of his disappearance is that he may have enlisted here for overseas. Perhaps if returned overseas men take a look at the photo some one may recognize an acquaintance in the service.

22 MEN ON THE FIRE BRIGADE

POLICY IS TO RE-INSTATE ALL MEMBERS RETURNED FROM OVERSEAS.

There are 22 men on the fire brigade now. Munden, a returned soldier was recently re-installed and another members of the force is still overseas.

The City Council had authorized Chairman of the Fire Department Ald. Morrison to re-instate returned soldiers, and last night endorsed his reinstatment of Ernie Munden.

57TH REGIMENT BAND REFUSES TO WORK FOR NON-UNION WAGES

Declined City Grant For Concerts Because it Meant 40 Cents For Each Member While Union Scale is $1.50—Trades Council Asks that Grant of $200 be Given Over to Playground Association.

The Trades and Labor Council last night adopted a resolution asking the City Council to hand over to the Peterborough Playgrounds Association the $200 which the 57th Regiment band had declined to accept from the city as an inducement to give public concerts. The idea of using the money as Mayor Duncan suggests to paint the band stands did not find favor with the delegates.

A member of the 57th band, who is a delegate to the Trades Council, explained last night why the grant had been refused. The 57th band is the only one of the three musical organizations in the city that is organized. The scale of prices for each performance is $1.50 for each man who takes part. If they accepted the offer of the city the members of the band would receive only 40 cents each for their playing at the park concerts.

Improved Street Cars

Sir Adam Beck write in reply to the protest against the Hydro Commission importing from Cincinnati two street cars for Peterborough system instead of having the cars made in Canada.

Sir Adam explained that the question of cost was the deciding factor. The American cars were secured at a saving of 40 per cent over those of Canadian make even when the duty of 42½ per cent was paid.

Sir Adam does not propose to wreck the Hydro Commission even to encourage home industry. He enclosed a copy of a leter from the secretary of the Toronto Trades Council approving of his action in this matter.

Stand for Oleomargerine

The delegates concurred in the action of the Local Council of Women and will ask the Federal Government to continue the permission for the manufacture of oleomargerine Some of the delegates insisted that the export of butter should be prohibited but this idea was not endorsed by the majority. One delegate declared that oelomargerine con be imported from England and sold here at a profit at 30 cents a pound. Another declared that Canadian bacon, shipped to England, can be brought back here and resold for less than the original local cost.

The Cooperative Store

One of the delegates who is interested in the cooperative store appealed to labor to support that institution. The gross weekly business now amounts to $300 and the cost of operating is 11½ per cent. The Kingston store with a weekly turn over of $1200 is operated at a percentage of cost of 5½ per cent.

Report of Committee

President A. J. Bolwell, President Ridley and Business Agent Tooms, the two latter of the Laborers' Union returned from their conference with the city council and made a report which was adopted.

21st Battalion Reaches Halifax

(Canadian Press Despatch)

Halifax, May 22.—The transport Caronia, which arrived here last night from with the 18th, 19th, 20th and 21st Battalions, 4th Brigade, 2nd Division on board, docked this morning shortly after seven o'clock and disembarkation of the troops was at once commenced.

MORE SOLDIERS REACH CANADA

The following soldiers reached Quebec in the morning of the 21st, and were entrained for dispersal station No. 3, Kingston, the same afternoon All arrived per steamer Saturnia:

Sergt. J Brown.
Lance-Corp. F. E. Aldous.
Pte. R L. Anderson.
Pte. W F. Elner
Spr. W. E Fuller
Pte. M C. Graham
Pte J A. Howlett
Pte H. J. Landry
Pte. W. Kinlaw
Pte. A. E. E. Thackery.
Driver J A. Vincent
Pte. O. Weiss
Pte. Willshaw
Pte. L. Feldes
Gnr. R. J. Goodman
Spr. J F. Harper
Driver R. J. Jarvis
Spr. P. H. McCracken
Pte H. Pilgrim

Also arrived per steamer Minnedosa on 21st, at Halifax, Pte. F. Board, 543 Sherbrooke street.

The arrival of the following may have been previously announced, but are repeated, reaching Quebec per steamer Scandinavian, on 20th, Pte W. J Donnel; and Portland on 17th, Pte. Bowler, Sergt. Boxall and Pte. aGilagher.

Soldiers Favor Treaty of Peace

(Canadian Press Despatch)

Berlin, May 22.—The greater Berlin Soldiers' and Workers' Council today adopted a resolution demanding that the peace treaty be signed and appealing to the proletariat of the Allied countries.

Move to Transfer City Banking Acct.

AGAIN DEFEATED IN COMMITTEE OF THE WHOLE COUNCIL.

Alderman Phelan last night raised the question of transferring the city's account back to the Bank of Montreal in committee of the whole council. He moved in this direction, seconded by Ald. Edgar. The motion was defeated. This matter was side-tracked till the end of the year on motion of Ald Turner and McIntyre.

In moving the resolution, Ald. Phelan reiterated the reason for his action as expressed in last meeting of Council, and added. "The manager of one of the leading Peterborough banks told me he thought the transferring of the city's account to the Bank of Toronto was one of the meanest actions ever done, after the Bank of oMntreal having came to the city's assistance at a time when the former bank had turned the city down."

Aldermen Taylor and McIntyre contended that the Bank of Toronto's tender for the city's account in 1917 was more advantageous to the city than that of the Bank of Montreal, especially so in saving the city exchange in its bonds payable in New York.

Aeroplane Flight On Grounds 24th

In adition to the magnificent program already provided for the holiday at the exhibition ground an aeroplane flight has been arranged, completing a great day's sport that everybody should see

This flight has been arranged for at considerable expense, to which the public should respond by a record attendance.

THE DAILY REVIEW

ESTABLISHED 1879.

MEMBER OF THE CANADIAN PRESS, LIMITED.

"FOR A GREATER PETERBOROUGH."

THURSDAY, MAY 22, 1919

THE LABORERS' STRIKE.

THE ALDERMEN PURPOSE to settle the laborers' strike with a bludgeon. At the conference last night with labor representatives and a representative of the industrial committee of the Board of Trade, the aldermen did not appear to object to a 45-cent rate per hour for the city laborers. The rock on which the deliberations came to grief was the eight-hour day. The City Fathers did not care to establish a precedent. Their argument was that if the city laborers were given an eight-hour day, the factory employes would also demand it.

One of the contentions urged in favor of electing aldermen by the general vote instead of by wards was that under the former system it would be possible for the city to secure the services of broad-minded men who would legislate for the welfare of the city as a whole, instead of pulling wires for a special class or section. High ideals, however, are not always attained.

The City Council is elected to look after the interests of the city as a whole, not of any class in particular. Aldermen can regulate the wages and hours of work of their own employes. With the purely private business of other employers they have no authority to deal. They have no more right to set the hours and wages in a city factory than they have to assume the same prerogative with regard to what the bridge contractor, whoever he may eventually be, shall pay his men, or the number of hours that he shall work them every day.

THE NEED FOR UNIFORMITY.

THE DOMINION ALLIANCE, with a disregard for constitutional integrity, ask the Dominion Government to enforce nation-wide prohibition.

The Trades Council of Toronto, with the same mistaken idea of Federal rights, asks the same Government to declare that eight hours shall constitute a day's work in all sections of Canada.

Perhaps it is really a national misfortune that the various provinces enjoy a certain measure of autonomy and that the powers of the Federal authority are limited, but so long as Canada remains a confederation these conflicts as to Federal and Provincial prerogatives are inevitable. The framers of the B. N. A. Act were unable to foresee and provide for the contingencies of the future.

Who is there, that understands the situation, that believes for a moment that a nation-wide prohibition law, so long as a single province declared against it, would survive review by the Privy Council? And what is true of prohibition is equally true of the regulation of the hours of labor. The various provinces are given a free hand in dealing with these matters.

The Dominion Cabinet something like a year ago enacted labor laws to the limit of its jurisdiction. The eight hour law is assured all Federal employes. The right of workingmen to organize is recognized. There is a fair wage clause in every Federal contract and a special officer of the Labor Department looks after its enforcement. The employer who takes a contract from the Government knows just what to expect. All contractors operate on the same basis, and this uniformity of conditions makes for industrial harmony.

The Royal Commission investigating industrial relations is now in session in Hamilton. One of the leading manufacturers of that city told the commission that he has no difficulty with his employes, being always ready to hear their grievances. When asked to explain the present industrial unrest he attributed it chiefly to a lack of uniformity in labor conditions. There will be unrest and dissatisfaction so long as men in the same line are working ten hours a day in one city and nine or eight in another. This manufacturer suggested as a remedy legislative action to standardize working hours and wages.

A city may undertake to work out its own industrial salvation, but the records are against the idea. Provincial autonomy breeds confusion. Isolated municipal action simply tends to intensify it.

Premier Borden is a party to the covenant of the League of Nations, and that covenant endorses the idea of an eight-hour day the whole civilised world over. It is not unlikely that when Sir Robert returns to Canada there may be further labor legislation introduced by the Government.

WORK OF THE I. O. D. E.

(Lethbridge Herald.)

WOMEN'S ACTIVITIES, such as those of the Daughters of the Empire during the time of war, have given them a rightfully recognized place in the national and in the community sphere. The spirit that gave a lever to these activities is not, however, to be suffered to be in any way diminished. "Carry on" is still the dominant note in the peace time extension of the war time spirit of devotion to the labors that go with those qualities which, it is conceded, women particularly possess.

The spirit we have referred to is exemplified by the Sir Alexander Galt Chapter of the Daughters of the Empire which has taken in trust the keeping of the soldiers' plot in the cemetery. This is a task which in the taking on shows the presence of that tender care which goes with the accepted nature of womankind. The Chapter purposes to devote the Sunday following Empire Day to a memorial day for the placing of laurel wreaths on the graves of the soldiers who are lying in the local burying ground, and in thus honoring these graves honoring in spirit the numberless graves of the fallen men overseas.

There is not a doubt that the soldiers' plot in the cemetery needs the care and attention which the members of the Chapter of the I. O. D. E. intend devoting to it. That same spirit may well be extended by our city authorities to the cemetery as a whole in making it the "God's acre" it should be. Something in this direction has already been done, but there should be no let-up in the work of making the cemetery come up to what it should be in the care and attention devoted to the same. It has been allowed to become a neglected spot and there is much to be done to redeem the neglect which is far from becoming a place with the associations the cemetery carries.

THE CONTRACT FOR THE BRIDGE.

After threshing out the problem for over three months the aldermen finally reduced the available tenders to three, for the construction of the Hunter Street Bridge.

Ed. Conroy a local man offered to complete the work on a lump sum basis for $251,639.35.

The Russell-Townsend people, put in a tender for [illegible] on the cost plus plan, this to include the firm's commission and rent of plant.

The Canadian Engineer Company's tender was $276,860.

And the latter tender is the one that a majority of the Board of Works, which means a majority of the entire Council, decided to accept, or to recommend, at their meeting last night.

There is a wide divergence in these figures and the aldermen who favor the highest figure of the three will likely be called to account for the position which they have taken. Their one justification for accepting the highest tender is that the amount is really a lump sum as the firm will give bonds assuring that the outlay will be kept within the estimates and that if any saving is effected the city will share in this.

Mr. Conroy the local contractor was prepared to furnish gilt-edge security that he would complete the work to the satisfaction of the corporation for something like twenty-five thousand dollars less than the estimate of the successful bidder.

The Russell-Townsend firm stake their reputation which stands high in the business world, that they would complete the work well within their estimate.

The Aldermen who supported the tender of the firm that seems to have won out are evidently banking on the firm's promise that the cost as they compute it can be reduced in the actual work of construction.

That is the situation as framed in committee last night but there is still left a chance for explantion and revision. The people who will pay for the bridge will have to be shown that there is warrant for the acceptance of what on the surface looks like the highest tender. It is no safer to assume that one contractor will reduce his estimate than that another firm, equally reliable will exceed theirs.

NOTES AND COMMENT.

PERHAPS IT was a bridge building task that sent Rip Van Winkle into his twenty-years' slumber.

* * *

Why not call it the cost x plan, that letter being the Algebraic symbol for an unknown quantity?

* * *

THE BRIDGE CONTRACT seems to have been let again but will the Aldermen stand this time without hitching?

* * * * *

THE PEACE TREATY and the Hunter Street Bridge, running neck and neck now, are likely to wind up in a dead heat.

* * * * *

AND IN WINNIPEG, it seems, they have a "Big Six," too, a half dozen who are staggering around under the belief that they are the entire works.

* * *

MAYORALTY CANDIDATES drop the eight hour idea with the promptness that marks the action of a man who accidently lays hold of a live coal.

* * * * *

NOW ISN'T IT a fact that the warmest champions of oleomargerine are those who are above the necessity of using it as a substitute for butter?

* * *

MANKIND has developed to the extent of being tolerably able to control the earth, the air and the sea, in fact everything but an occasional city council.

* * * * *

THE TORTOISE of the fabled race was, it seems, never entrusted with the task of building a bridge, otherwise hours of agony might have been spared the long suffering public.

* * * * *

THE FALLEN CLERIC in Winnipeg and his Soviet faction are not alone in their delusion that they are the whole cheese. If you don't believe this read the official record of the deliberations of our own "Big Six."

* * * * *

"WHEN is a canal a yard?" asks an exchange. We give it up but here in Peterborough the people know something of what a canal is when operated under the revised, modern, share-for-both-parties alike civil service rules.

OPINIONS OF OTHER EDITORS.

AS GOOD AS SETTLED.

(London Advertiser.)

Lloyd George, having personally tackled the Adriatic crisis, we may confidently put that issue down as settled.

ROCKING CHAIR SAILORS!

(Ogdensburg Journal.)

Brockville's Rowing Club is already getting into action for the coming season. Our rocking chair sailors will soon chalk off the golf links for the season's activities.

HARD TO UNDERSTAND.

(Kingston Standard.)

It's mighty hard to understand the butter question. A trade report says that butter made in Canada just now is not being shipped overseas because of its poor keeping qualities. Then what becomes of it, and why the price?

Where Some One May Blunder

(Ottawa Citizen.)

It is to be hoped that the authorities will not be guilty of the error of judgment comprised in the sending of troops from Toronto to Winnipeg in order to keep the peace there during the strike, as reported. The Winnipeg strikers show no signs of being unruly. If they are dealt with as reasonable men and given every opportunity to present their side of their disputes with their employers there will be no occasion to import armed soldiers as guardians of the peace. The Winnipeg strikers are aware that any violence displayed by the men now voluntarily refraining from working would damn their cause in the eyes of the whole country and strike a blow at organized labor that would be felt for years. The responsibility of the unions to keep the peace at this particular time is very great. Any serious disturbance would likely play into the hands of a great restless element that is not at all kindly disposed towards organized labor as a general thing, and which hopes only in this instance to use trades unionism as a means of creating a chaotic condition industrially all over the Dominion. Our Canadian workers are not Bolshevists, nor are they going to play the Bolshevist game. They are, we think, exercising their legal and moral right in going on strike, and as long as they continue to conduct the strike on orderly and law abiding lines there is no excuse for importing troops, and thus virtually declaring that the strikers are potential law-breakers and a danger to society. That is something the men may resent in a very disagreeable way.

The authorities are quite competent to handle the Winnipeg situation. If matters were to require the presence of troops it would seem to be good policy to employ local men and not soldiers from points far distant. The intervention of troops from a different part of the country will prove the reverse of pacifying. Even the most law abiding element would resent the importation of outside troops in such a case. But we are confident that there will be no necessity for the intervention of either home or outside soldiers in the Winnipeg dispute.

WIT AND WISDOM

What He Calls His Pig.

Farmer—"See that pig? I call him Ink."

Land Girl—"Why? He isn't black."

Farmer—"No; but he keeps running out of the pen."

Didn't Recall the Asking.

Mrs. Benham—Do you remember the day you asked me to be your wife?

Benham—I remember the day you said you would.

Soapbox Logic.

Park Arator: "An' I tell yer, all the millionaire's money is tainted—all on it!"

Unconvinced Person: "Ow d'ye mean 'tainted'?"

Park Orator: "Well, 'taint yours an' 'taint mine, is it?"

That's the Question.

Reggie—I have always said I would nevah marry a girl who was stoopid.

Miss Keen—But how are you going to know?

Complimentary.

Dauber—In this picture of "Innocence" I have tried to convey the idea that simplicity is not incompatible with dignity.

Fair Visitor—How well you have succeeded. I never saw anythng so—so artless.

The Trick.

"Is it hard to write for the newspapers and the magazines?" asked the sweet young thing.

"Not at all," replied the writer. "But it is hard to get the editors to buy your stuff."

For All They're Worth.

"If you don't love Jack, why don't you tell him so?"

"Well, he sends me flowers and takes me to dinner, you know, and—"

"But, gracious! I don't see how you can play with his affections that way."

"Play with them? I call that working them."

FEMININE LOGIC

The young lady across the way says the languages are rather hard for her, but mathematics is as easy as falling off a logarithm.

ALGONQUIN PARK FISHING

To the excellence of the fishing to be enjoyed in Algonquin Park there is undisputed testimony. Fish caught in the waters of the Park have won each year many of the national competitions open to the anglers of the continent. "I record here my opinion," writes one authority, "that in the variety of species of game fish in their abundance and in their remarkable size, no section of the continent affords better mid-summer sport than Algonquin Park. And this is the testimony from three extended trips in the Park." 200 miles north of Toronto, 178 miles west of Ottawa reached by Grand Trunk Railway. For free illustrated descriptive literature telling you all about it apply to Grand Trunk Agent or C. E. Horning, D. P. A., Toronto, Ont.

Three ships have already sailed with Canadian supplies to restock Rumanian farms under the $25,000,000 credit. The Canadian Trade Commission is "up to its eyes" in work arranging the clothing and other sections of the order.

TO-DAY'S STORY

There was a pleasant and reassuring illustration of the way in which the world daily becomes safe for democracy in what happened when Miss Carnegie and Mr. Roswell Miller applied at the New York bureau for their marriage license. When their turn came the clerk said to Miss Carnegie, "What name, please?"

She murmured the world-renowned patronymic.

"Didn't catch it," said the clerk "Speak up, please. Spell it out."

"C a r n——"

"Little louder please."

"C a r n e g i e."

"Any relation to Andrew Carnegie?" said the clerk, amiambly enough.

"He's my father."

"What is your father's profession?"

Miss Carnegie turned to Mr. Miller. "What would say father's profession was?"

"Capitalist," said Mr. Miller. A definition that is not likely to be corrected.

The next pair in line were Jewish peddler of shoestrings and his fiance. Which is all as it should be in the springtime of the year.

PLANS ATLANTIC FLIGHT

Toronto Man to Make Attempt Middle of June.

Toronto, May 22.—Dorval Haines of Toronto who plans a flight over the Atlantic, is underterred by the termination of Harry Hawker's attempt and he expects to fly about the middle of June.

Mr. Haines at present is aero man for Hyslop Brothers, and the machine which he plans to use was designed by Victor Carlstrom who flew from Chicago to New York, in 1917. It will be on exhibition in Toronto for a couple of weeks.

If he wins the Daily Mail prize, Mr Haines declares that he will hand over the money to the soldier-veterans.

NEWS IN BRIEF

New York court rules that the good-will which a physician leaves in his will is not taxable.

Before the war the average income of the U.S. farmer was $640 a year. Now it is $1,210.

U. S. Shipping Board increased wages of 1200 employes on New York tugs and lighters.

Bleachers for the New Hampshire State College athletic field were built by 18 girl students.

A carload of hides from the west to an Atlantic tannery increased $2,400 in value while on its way.

A Philadelphia Italian has knitted a silk American flag, 4 by 6 feet, spending seven weeks in doing it.

Liquor and Anti-saloon League forces in the U.S. are gathering for a nation-wide fight on prohibition.

A 17-months-old Chicago baby died after swallowing some lye its mother had been using to clean the sink.

A bill to be introduced in Congress will carry $500,000,000 to settle soldiers on farms.

Wood's Phosphodine.
The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins, Cures Nervous Debility, Mental and Brain Worry, Despondency, Loss of Energy, Palpitation of the Heart, Failing Memory. Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. New pamphlet mailed free. THE WOOD MEDICINE CO., TORONTO, ONT. It keeps the world busy turning down the cranks that turn up.

Pressed corned beef is more substantial than pressed autumn leaves.

THEY ACTED in TIME

During 1917, twenty men, all hale and hearty insured their lives in the Sun Life of Canada. All paid the first premium, none lived to pay the second.

They paid a total of $5078.26 and their beneficiaries received $74,212.60.

The records for 1918, owing to the ravages of the "Flu," will show the above record repeated many times, and all such acted in time.

What are YOU going to do about it? Act in time or be forever TOO LATE.

The Sun Life of Canada paid these claims willingly and promptly and will do the same for your loved ones IF YOU ACT IN TIME.

LESSONS IN RIGHT LIVING

By Dr. W. A. BRADY

A LETTER TO A LAD LEAVING HOME.

Dear Tom:

In a fine letter of criticism and appreciation which your mother wrote me the other day she happened to mention that you were soon to leave home for the first time in your life and though she did not says so I how how she feels about it. Your mother of course, realizes that you are a good boy, yet she is naturally anxious lest you fall under the influence of the wrong kind of associates when you go away, and so I venture to write you as if you were my own boy.

Your mother says you are 17. That's the greatest age in a man's whole life! Seventeen . . . the game just beginning . . . umpire dusting the plate . . . the sky so blue and bright. Boy, I'd rather be 17 than president.

You have been a very athletic fellow, I gather from your mother's letter. Whether you have any future aspirations along that line or not, you have probably learned by this time that physical endurance, as well as mental alertness, is invariably impaired by tobacco. Every athletic knows that a fellow training for a contest must let the narcotic alone. If your mother has not already pledged you not to use tobacco until you are 21 I hope she will do so before you go away, Tom, for that is a duty every mother owes her boys. Besides a fellow who smokes his dad's money is a pretty poor specimen, a weakling, a parasite, and unsportsmanlike.

Nowadays it is hardly necessary to caution a fellow of sense about booze. Every one who is all there in the upper story knows very well that the only safe road to travel is absolute teetotalism under all circumstances. And fortunately nobody today has the nerve to intimate that a man who declines to drink isn't a better man than the one who weakens under duress and takes a drink he doesn't want, just to avoid notice. Even the boozer admires the man with stamina to stand by his principles. I hope, Tom, that you will always be man enough to resist every possible importunity and say (to yourself, of course) "To —— with 'em; that stuff's not for me." And having made that decision stick to it like a bulldog, Tom, and you will command the respect of all.

If you respect and honor your own mother you will naturally respect and honor every human being of her sex. She wants you to do so. Tom . . . you can scarcely realize how prayerfully she wants you to respect womankind, even the women of the gutter. Your mother probably dreams great dreams of your future, but her sweetest dream is that you are a clean man through and through. If you want to get the most out of life, Tom, never do anything to keep that dream from coming true. There will be occasions plentiful when you may not see it just this way. Half the world wants you to see it another way; misery loves company. But take a doctor's word for it, there is an even greater physical reason, an animal reason if you wish, why a man should preserve personal purity than there is for womanly purity. Best of luck, Tom, and may you live up to your mother's standard.

Sincerely yours,
WM. BRADY, M. D.

Red Corpuscles.

"My sister is suffering from a lack of red corpuscles. What medicine should she take to build up?

"MRS. H. E. L."

The number of red corpuscles in the blood is diminished in a great many different conditions and it is impossible to suggest the proper remedy without knowing the nature of your sister's trouble. The best way to supply iron, if that is lacking, is in the form of fresh green vegetables —if it is green it contains iron.

LIFE OF SIR WILFRID LAURIER

PETER McARTHUR, FARMER, SAGE AND ERFRID, PUBLISHES INTERESTING BIOGRAPHY

If it was the aim of Mr. Peter McArthur to compile a eulogy of the dead Liberal chieftain, he certainly has succeeded in his little work, "Sir Wilfrid Laurier."

From beginning to end of the book there is not to be found one word of disparagement or one word of criticism of the sayings or actions of the former Premier of the Dominion. Mr. McArthur dedicates his book to his fellow-writers of the Canadian Press, and admits that the merits of the book are due to their efforts; for he has helped him self lavishly to their best brains. "I have," he says, "long been of the opinion that a genius is a man who knows a good thing when he steals it and this is the first time I have had a chance to steal on an ambitious scale. I have stolen much, and if I had more time I would have stolen more."

This is certainly true so far as the "stealing" is concerned, for Mr McArthur appears to have ransacked some forty or fifty newspapers in all parts of the Dominion to find the good things they contained about Sir Wilfrid Laurier, besides which he has clipped copiously from English and United States papers, and quoted from flattering and eulogistic utterances of such dear old friends of the dead leader as Hon. L. O. David and the late Louis Frechette. While Mr. McArthur has given a very fair insight into the life of the dead Liberal leader, several incidents in his political career which would not have detracted from the worth of the man, but which might have interested his political adversaries, have been either glossed over or omitted entirely.

But, notwithstanding all this, there is much in the work that will be of interest to the general reader. Some of the anecdotes are especially good, and one at least is of striking interest, and will bear repeating. According to his chronicler, Sir Wilfred Laurier was in Montreal in 1884 when preparations were being made for the celebration of the national holiday, St. Jean Baptiste Day. The Liberal Leader was in conversation with Mr. Corriveau, one of the organizers of the fete, when "Big John Canadien," Canada's most famous Indian guide appeared with a band of Caughnawaga braves. Mr. Corriveau introduced Sir Wilfrid to the Indian and after a few words of conversation, the former asked the latter how old he was. "I am 43 years old,' replied the Indian.

" 'We are almost the same age,' said Mr. Laurier, (as he then was). 'I will be 43 at my next birthday!'

" 'Well,' replied Big John, 'when I die you shall be frightened.'

" 'Everybody nearly had a good laugh on hearing the Indian's words, and big John went away.

"Big John did on Sunday, February 23, and Sir Wilfred on Monday February 24.

Another anecdote, illustrating that "while humor did not abound in Sir Wilfrid's speeches and debates, he had a shrewd wit, equal to all occasions," is recorded: "In a debate, twitting Sir Charles Tupper on Sir Charles' reminiscences of the political services, Sir Wilfrid said that between Sir Charles and Sir John A. Macdonald the had sailed the ship of state pretty successfully, Sir John supplying the brain and Sir Charles supplying the wind to fill the sails."

SUFFERED TERRIBLE AGONY

"Fruit-a-tives" Alone Gave Him Quick Relief

Buckingham, Que., May 3rd, 1915.

"For seven years, I suffered terribly from Severe *Headaches and Indigestion*. I had belching gas from the stomach, and I had chronic Constipation. I tried many remedies but nothing did me good. *Finally, a friend advised* "Fruit-a-tives". I took this grand fruit medicine and it made me well. To everyone who has miserable health with Constipation and Indigestion and Bad Stomach, I say take "Fruit-a-tives", and you will get well".

ALBERT VARNER.

50c. a box, 6 for $2.50, trial size 25c. At dealers or sent postpaid by Fruit-a-tives Limited, Ottawa, Ont.

ONE REASON FOR LABOR'S UNREST

DEARTH OF HOUSES CITED TO ROYAL COMMISSION AT HAMILTON.

Hamilton, May 22.—When the labor members of the Royal Commission arrived at the City Hall and found the caretaker had arranged their seats on each side of the chief magistrate's throne, they protested against occupying such exalted positions.

Tom Moore, of Ottawa, representing the Dominion Trade Congress, said he did not wish to sit on a throne, and J. W. Bruce, Toronto, organizer for the International Plumbers, expressed the view that it was not democratic for them to sit so far above their fellows. A quick shift of seats was made. All the members of the commission are in attendance, Chief Justice Mathers of Manitoba presiding.

Unrest is Reported.

Richard Riley, business agent of the machinists' organization to Hamilton and Niagara district, said there was much unrest in the district and strike votes are pending in many unions. The majority of machinists are working nine hours, although some put in nine and a half hours.

Most of the firms in which an eight-hour day and wage increase had been requested refused to confer with the unions and this was largely to blame for the threatened trouble. The men are insistent on an eight-hour day. Housing conditions were also partly to blame. In Bridgeburg some workers were forced to live in Buffalo. Conditions were also bad in the cities and many peninsular towns. Welland and Brantford had a big house storage. Replying to the chairman, Riley said he did not favor industrial councils or boards in different shops. The International Harvester Company where there was such a council, refused an eight-hour day.

Promises Broken.

Employers had not kept their promises made during the war for better conditions when peace arrived.

E. H. Whitton, general manager of the Steel Company of Canada, said he did not know of unrest—had just heard of it. He believed his firm's employes were satisfied. The firm's policy was for an employe to bring a grievance to the management. The door was open for this. The curtailment of working hours should be by legislation so that there would be no discrimination.

He was not opposed to the eight-hour day, but it should be by Federal legislation and the Government's fiscal policy should protect the people against other countries where the wages and standard of living are lower.

MAJORITY BOARD

(Continued from Page One.)

His Worship thought Engineer Barber should no thave all the say in appointing inspectors for the bridge work. "We do not want students with no knowledge of concrete work as inspectors."

On motion of Ald. Edgar and Taylor Engineer Barber will be requestedto attend a meting of the Board of Works, on Tuesday next to adjust several matters. The contractors will also be notified of the action of the Board, so that they can be present to have their agreement with the city ready for the council next Wednesday.

Special Bridge Committee

The Special Bridge Committee met at eight o'clock to discuss the bridge situation.

Those present were Chairman Ald. Phelan, Aldermen Turner, McIntyre, Morrison, Gainey and the Mayor.

The chairman opened the ball with the statement that some recommendation to the Board of Dorks was coming. "the citizens," he added, "look for us to act."

Ald. Morrison "I recommend that the Board of Works get busy and let the bridge contract tonigh—TO-NIGHT!

Ald. Turner again talked strongly in favor of the Russell Townsend Co. "Many citizens," he said, "have confirmed my confidence in this company."

Ald McIntyre adhered tenaciously to his support of Mr. Conroy.

Ald. Edgar pointed out that Ald. McIntyre had made the statement previously that were Conroy to get the contract he would, if possible secure the services as his engineer of Mr. Townsend of the Russell-Townsend Co. That is testimony in favor of the latter.

Chairman Phelan here called Ald. Edgar to task for butting in on a committee of which he is not a member.

Ald. Edgar replied that as an Alderman he was within his rights in any committee out not to vote unless a member.

Ald Morrison had no pebbles to cast at any one of the contractor firms whose patience must have been well tried. "They are all good. If outsiders get the contract, the profits they make goes out of town, should Conroy be the lucky man his earnings will remain in the city. But we've got to make a choice to make a choice tonight.

Ald Gainey stood by his principle that the contract be let on a lump sum.

Ald. Phelan—"I have been from the very first a consistent advocate for a lump sum tender, and I can't see my way very clear to deviate from that stand I have nothing to say against the cost plus tenders. We have $310,000 to spend on this bridge (with engineering and property damages) and we have a lump sum tender which lets us know just where we are at. In the cost plus proposition there is surety. Mr Eastwood manager of the Royal Bank(is behind Mr. Conroy financially. Mr. Conroy will take our debentures when we fix our interest rate and would be paid on the certificate of the engineer."

Aldw. McIntyre and Gainey moved that the lowest tender — that of Mr. Conroy be recommended to the Board of Works for acceptance.

This carried on the following division:

For Ald. Gainey, McIntyre, Phelan

Against —Ald. Turner and the Mayor, (Ald Morrison declined voting)

Above resolution was the recommendation to the subsequent Board of Works meeting defeated on a vote of 4 to 6.

SAGE TEA DANDY TO DARKEN HAIR

It's Grandmother's Recipe to Bring Back Color and Lustre To Hair

You can turn gray, faded hair beautifully dark and lustrous almost over night if you'll get a bottle of "Wyeth's Sage and Sulphur Compound" at any drug store. Millions of bottles of this famous Sage Tea Recipe, improved by the addition of other ingredients, are sold annually, says a well known druggist here, because it darkens the hair so naturally and evenly that no one can tell it has been applied.

Those whose hair is turning gray or becoming faded have a surprise awaiting them, because after one or two applications the gray hair vanishes and your locks become luxuriantly dark and beautiful.

This is the age of youth. Gray-haired, unattractive folks aren't wanted around, so get busy with Wyeth's Sage and Sulphur Compound to-night and you'll be delighted with your dark, handsome hair and your youthful appearance within a few days.

DIDN'T HAVE WELL DAY IN FIVE YEARS

TORONTO MAN GAINS 6 POUNDS —NOW FEELS LIKE HAS NEW LEASE ON LIFE.

If there is a man in Toronto who believes in Tanlac; that man is Harvey Hamilton who resides at 475 Church Street and is employed as fuse maker by the Copeland-Chatterson Co., 1303 Queen Street. Mr. Hamilton has lived in Toronto eighteen years and is well-known.

"Five years ago I had a severe attack of pneumonia,' said Mr. Hamilton recently in conversation with the Tanlac representative, "which reached into a general run-down condition, and I haven't been like myself since. I lost weight until I was almost a shadow. I felt like I didn't have hardly any life or energy about me and was so nervous I couldn't sleep over four or five hours a night. I lost my appetite and often didn't go to the table at meal times for I knew if I did I couldn't eat a thing. The little I managed to eat did more harm than good and soured on my stomach causing a stuffed-up, uncomfortable feeling. I had pains in my stomach and sides and often had dizzy spells. I got played out. I just had to lay down my tools and quit work. Here often I felt so weak, and, yes sir, I went five long years without enjoying a well day, and you can imagine how despondent I was. This is the very shape I was in when I read in one of the Toronto papers the statement of a man who described his trouble just like mine. He said he had been relieved by Tanlac and I lost no time in getting a bottle.

"It was about the best move I ever made in my life, for I now feel like to have taken a new lease on life. I have the finest appetite you ever saw and eat three square meals every day, enjoy every mouthful and have no disagreeable feelings afterwards. I have actually gained six pounds in weight and feel like my strength has been increased a hundred per cent. Gas has quit forming on my stomach and all the pains have disappeared. I'm not nervous and I sleep like a long at night. I simply feel better all over and my work is no longer a burden, but is a pleasure to me. My friends all know the shape I was in before I took Tanlac and now see my remarkable improvement. I know of 4 or 5 people who have begun taking Tanlac since seeing the good it did me. If anybody doubts this statement all they have to do is to ask and I'll tell them just what I told you and that I consider it the finest medicine on earth."

Tanlac, the medicine that accomplished such remarkable result in Mr. Hamilton's case, is being sold in Peterborough by W. D. Warne Drug Co. Ltd., in Havelock by A. C. Denike, in Lakefield by Tanner Drug Co. Ltd., in Fowlers' Corners by W. A. Hunter, in Gelert by A. J. Scott, in Westwood by G. Pringle & Son.

EDITORS MAIL

Continued from Page 5

His followers and the followers of the Holy Apostle Paul who said: "Be not drunk with wine WHEREIN IS EXCESS." and "Let your moderation be known unto all men." and again, "Every creature of God is good."

Mr. Burnham draws attention to the fact that the prohibitionist links arms with the bootlegger, because extremes meet in everything in the world. It was ever so! Before prohibition came in, the teetotaller rejoiced to see a man reeling on the street, because it gave him an argument and never would he lift a finger to help the administration of the law as it stood because if that law had been properly enforced such arguments would never have been on the streets.

It is a fortunate thing we are living in the 20th century for if these had been times like those of the Spanish Inquisition many a good citizen would have been hurnt at the stake for not holding the opinion that Christ was a criminal in making and supplyng liquor at the marriage feast. Lest any should argue that the wine supplied by our Lord was non-alcoholic, I will here say that no person has any right to guess anything so grotesque. The Master of the feast pronounced it the best he had tasted that day, and there is no doubt he was a connoisseur and would never have approved of the wishy washy stuff they want us to drink as a "substitute" today!

The Dominion Alliance want to prevent a fair vote of the people on this subject. They cannot prevent the vote being taken but if they can formulate any additional questions why do they not do so?

I have written thus much in order to give the supporters of prohibition a chance to reply, if indeed they have any answer to make. Mr. Burnham has thrown down the gauntlet on the side of Science, which pronounces God the maker of alcohol. I offer the challenge that there is not one word in the New Testament, that favors prohibition, and I am prepared to meet any minister or preacher anywhere in public, and prove from the word of God that prohibition is not God's way, that it is anti-Christian and unscriptural. Will judgment go by default?

JAS. G. GUISE-BAGLEY.

FAREWELL SERVICE AT TEMPLE

Colonel and Mrs. Morehen are coming tonight for a special farewell meeting. The coloned and his wife are farewelling from the Montreal division are are going to London England. A full attendance is requested of the band songsters, girl guards and boy scouts, meeting at 8 p.m. Public are invited.

HON. W. J. HANNA, M.L.S., LEFT NEARLY TWO MILLION

Toronto, May 22.—The will of the late Hon. W. J. Hanna M.L.A., disposes of an estate valued at $1,798,736.32. It is understood that there are no large bequests and that practically the whole estate goes to the family.

EARLY CLOSING IN KINGSTON

Kingston, May 22.—Dry goods clerks are hereafter to work eight hours a day. One dry goods firm announces that its clerk will work only seven hours a day for five days of the week and eight hours on Saturday, the closing hour being 6 o'clock. Saturday night business is to be cut out.

PASS AIM BY $1,000

'Big Three" Workers Get $4,000 in One Day's Canvass.

Kincardine, May 22.—The committee organised here to carry out the "Big Three Drive" in support of the Y. M. C. A., G. W. V. A., and Soldiers' Aid Commission reported that as the result of one day's personal canvass a total of $4,000 had been collected. This is one thousand dollars in excess of the objective set for the drive.

A special committee of the Commons is to look into legislation on patent medicines.

The CRESSMAN Company Limited

CITY WILL NOT GIVE WAY ON EIGHT-HOUR DEMAND

Ald. Morrison Objects to Farm Hands Being Invited to Move into City to Take City Man's Job on the Corporation.

The City Fathers could not agree last night, either in committee of the whole, in council or in Board of Works, on meeting the city laborers' request for 45c an hour and eight hours a day.

The Mayor would concede the 45c to outsider workers only and judging from his attitude would probably give way on the eight hour proposition. He pays union wages himself on an 8-hour day basis. But His Worship cannot see his way clear to recognizing the union so far as to enforce the discharge of men working for the municipality who came to the city's assistance in the strike now in operation.

Ald. Turner and Hamilton are yet to be convinced that a man will do as much work in 8 hours as in 9 by reason of a betterment in his conditions, and an increased incentive to make good. They are willing to concede the 8 hours when that working day is generally adopted in Canada.

Ald. Gainey and Morrison moved in committee of the whole that the city laborers be re-instated at once at 45c the hour on an 8-hour working day schedule.

This was cash on a division of 4 to 5, His Worship not voting for reasons given above.

Raised Others Salaries.

Ald. Morrison was an aggressive advocate for the men. He said: "You raised all other salaries around this joint but when it comes to the laboring men, they are thrown down."

Ald. Phelan incidentally explained that but one man laboring for the city was getting more than $3.50 a day—a pipe layer who received 25c the day extra.

Ald. Morrison: "It was a foolish movement to pass that resolution fixing the wages at 40c. Had we let matters stand, and pay only what we had to, considerable trouble would have been avoided. That resolution should be rescinded."

Ald. Edgar contended the resolution necessary as authority to the city treasurer for the payment of wages.

Treat Men Fair.

Ald. McIntyre: "I want these men treated the same as city officials in the matter of wages. Give the men what they ask and it will only represent a total increase to the city—on the basis of 44 men employed six months in the year—of $2,400. We have increased every city official's salary, then why not accord the workingmen similar treatment?"

Work Going Out of Town.

Ald. Edgar made the statement that enough work is being executed out of town because town manufacturers cannot successfully tender owing to labor conditions here in comparison with other places to keep quite a few Peterborough men employed were the contracts left in Peterborough.

Ald. Hamilton: "The Henry Hope Co. sent out of the city for 500 castings because Peterborough firms could not compete with outsiders."

Farm Hands Work For City.

Ald. Morrison here raised a storm of declaring that he is informed that the city is engaging farm hands to work for the corporation.

Ald. Phelan, chairman of the Board of Works: "That's news to me. The city engineer is employing men."

Ald. Morrison waxed warm on this question. He said: "I am told of one farm hand who was invited to move into the city to work for the corporation." Ald. Morrison objected to the city fighting the union in any such manner.

The Eight Hour.

The main line of contention now between the Laborers' Union and the corporation now is the eight-hour day. It looks as though the wages question could be readily adjusted.

CAPT. ROLLINS HOME

Pastor of St. Andrews Expected in Peterborough Tuesday.

Capt. (Rev.) James Rollins arrived at Halifax this morning with the 21st Battalion, of which he was chaplain, and which crossed on the Caronia. According to the program announced yesterday the battalion will be banqueted at Kingston Saturday night so that Capt. Rollins is not likely to reach Peterborough until next week. Rev. W. L. H. Rowand will preach his final sermons in St. Andrews Sunday before leaving for his new charge at Moose Jaw.

EDITOR'S MAIL

Editor Review: The municipal laborers of Peterborough wish to ask the City Council why this discrimination between the laborers while the Mayor and all the employees were granted an increase in their salary on account of the high cost of living, and yet the same consideration is not given to the laborers? At the conference between the Council and the labor men last night, it was practically approved that 45 cents per hour and an 8-hour day was not too much and yet it was turned down.

Have the Council to settle the matter for the employers of the different factories in the city? It is claimed by the laborers that the factories should settle their own differences, and the Municipal Council mind its own business. This does not seem an unreasonable request and yet the excuse put forward is that the factories will not agree. The municipality should be model employers, they have no competition and the laborers are not discussing factory terms with the Council, and I am sure the laborers should have the moral support and sympathy of every fair-minded citizen.

The cost of living set by the Government is $20.99, while the average earning of the laborers is $19.00 so after working the week, and paying his expenses he is still runing into a debt of 1.99. This situation calls for immediate action to settle this injustice.

Business Agent Laborers' Union

IS GOVERNMENT BY DEFAULT?

Editor Review: I have been wondering why some of the prohibitionists do not make some attempt to answer Mr. Burnham's letters on the subject.

The public read these letters and because there is no reply to them people are beginning to think Mr. Burnham is right, and that there is no satisfactory reply to be made. In other words judgment against the prohibitionist goes by default. Is that what is intended?

The letter from Mr. Burnham in the local papers should either settle the question or call forth an answer. Those who will not accept the teaching of Christianity on the subject (which is conclusively against prohibition) must accept the scientific statement of Dr. A. B. MacCallum when he tells us that by the laws of God alcohol is created spontaneously by nature which is God's law and cannot be interfered with even by the best of us. God created alcohol, makes it all the time, and the prohibitionist cannot prevent Him from doing so. But the prohibitionist regards alcohol as an evil, and therein contradicts God who pronounced everything He had made as "VERY GOOD."

Those who deny God and condemn His works as evil, Mr. Burnham calls atheists. To the casual observer as these men refrain from attempting an answer, they may fairly be taken to admit the accusation. One thing is very certain if the Son of God were to attend a marriage feast in Peterborough, and made and provided drinks for the guests as He did in Cana, He would be hauled up before the magistrate, and fined or imprisoned. They would crucify Him today just as willingly as the Pharisees of A.D. 33 did, and they want to crucify

LAST CHANCE TO-NIGHT **ADMISSION 16c TO ALL**

THEATRICAL

A Scene from "TURN TO THE RIGHT," at the Grand Saturday Matinee and night.

MARGARET ANGLIN "HATES CLOTHES"

MEANING SUBERB COSTUMES SHE WEARS IN "TEA FOR THREE."

Miss Elsa Ryan, who comes to the Grand Monday evening in "Tea for Three", the comedy by Roi Cooper Megru, conceded by all to be one of the biggest successes of the season in New York where it has been running at the Maxine Elliott Theatre for the past 12 months, confided to a little group of friends gathered in her dressing room at the Royal Alexandra, Toronto, that she "hates" clothes. For a young person who appears in several of the smartest frocks a New York modiste was able to turn out, this sounded rather a rash statement and provoked broad smiles on the part of her hearers. But Miss Ryan was sincere and went on to say that while she enjoys her role as Doris in "Tea for Three" equally as well as her part of Peg in "Peg 'O My Heart" or Annie in "Out There," in the last two plays she was relieved from the strain of selecting materials and designs and undergoing the ordeal of being fitted which was an immense satisfaction. But if the task of costuming her new part was an arduous one, the charming actress with her usual thoroughness and artistry did it well as the feminine portion, at least of her audience will agree when she appears in "Tea for Three."

In the first act Miss Ryan wears a very smartly cut afternoon fr[illegible] of nigger brown brocade pussy w[illegible] silk with soft frills of cream lace at the neck. The success of this go[illegible] depends upon the lines which are very modish and severe. A Napoleon hat and wrap of soft brown velvet complete the costume. [illegible]

Miss Ryan alternates a stunning gown of flame georgette with medalions of ostrich and unique bead designs with an artistic creation of mauve chiffon very simply draped along Grecian lines and adorned with graceful groups of delicate colored flowers. This is Miss Ryan's favorite gown and partially reconciles her to the role of a lady of fashion. With these two evening gowns Miss Ryan wears an oddly cut wrap of Russian squirrel with rufflings at sleeves and neck of pale blue chiffon. In the last act an exquisitely dainty afternoon gown of changeable blue and silver taffeta cut with wide outstanding pockets and opening over a front panel of delicate flesh Georgette is perhaps the most appealing of all. Over this Miss Ryan puts a long coat of dark duvetyn with deep bands of beaver at the hem and sleeves and with a large beaver collar. A smart hat of black transparent material with a big chou of ostrich at the back is exceedingly effective. With each of these gowns Miss

shoes to match, built on a unique pattern. They might be called Oxfords except there is no clumsy lacing up the front nor even a silken knot to mar the contour of the actress' daintily formed instep. Strips of silk elastic in the sides keeps the shoe close held to the foot and resembles somewhat the boots of [illegible] ma's time.

Bigger, Brighter Than Ever Before

"UNCLE TOM'S CABIN" AT GRAND TOMORROW, MATINEE AND EVENING.

Kibble's grand superb spectacular revival of that everlasting old play. "Uncle Tom's Cabin," which will be seen at the Grand Opera House on Friday matinee and evening, promises to be a theatrical treat in every sense of the word. The company this year is bigger, better and brighter than ever and numbers over fifty people, among which are twenty negroes from the Sunny South, who have been especially engaged to fill out the many pretty pictures of the play and present their famous songs, dances and plantation "shines." So thorough and pleasing has been the production under this management that the press and public and pulpit have unanimously sung its praise, and thousands upon thousands have attended. It is the largest production of "Uncle Tom's Cabin" ever attempted by anyone.

Special children's matinee at 3 p.m.

OLD FAVORITE HERE NEXT WEEK

ERNIE MARKS WILL BE AT THE GRAND WEDNESDAY IN NEW PLAY.

The announcement of the coming engagement to the Grand for one day only, commencing Wednesday May 28, the Ernie Marks Stock Company, supporting the people's favorite actress, Miss Kittie Marks. The company will present "Kick In," one of the world's greatest success, and will be appreciated by all the theatregoers, as they will receive an attraction that is run on entirely different plan than the general line of these attractions. It is Mr. Marks efforts to elevate his attractions so it will out-class all others, and command the dignity of productions that are so costly in mounting and costuming and setting that others dare not venture to follow in his steps, which will make him leader, and be classed in a field by himself. The plays that will be seen during the week are all bright, clean, royalty plays. In all plays Miss Kittie Marks will be seen to great advantage, as well as her supporting cast having equally as good a chance. Dancing, singing, musical numbers, which are numerous, are nightly changed and interspersed during the action of the play. Seats on sale Monday. Prices, evening, 15c 25c and 35c.

CYRIL MAUDE AT GRAND TONIGHT

LEADER AMONG ENGLISH ACTORS PRESENTS "THE SAVING GRACE."

At the Grand Opera House tonight Mr. Cyril maude and his supporting company, under the direction of Chas. Frohman, will present Mr. C. Haddon Chambers' latest comedy, "The Saving Grace," which has won high favor in London and New York, and which is said to be the most delightful work that has come from the pen of the dramatist in recent years. "The Saving Grace" pictures a small English household during the early days of the great war. It is in no respect a war play and yet the situations, complications and the characters themselves are influenced by the spell of the world's tragedy. It is a high comedy with a background of the deepest human emotion. The role of Blinn Corbett, cheerful and optimistic ex-officer of the army, who is wearing his heart out with anxiety to re-enter the service, affords Mr. Maude splendid opportunities for the disclosure of his very best abilities in high comedy sentiment and pathos. Among the members of his supporting company, all of whom are well-known to local play-goers are Miss Laura Hope Crews, Miss Charlotte Granville, Miss Annie Hughes, Miss Betty Murray, Mr. Edward Douglas and Mr Stanley Harrison.

BOWLING SEASON OPENS SATURDAY

CONTEST ARRANGED BETWEEN PRESIDENT AND VICE-PRESIDENT RINKS.

The lawn bowling season will be in full swing on Saturday. The games between the President's and Vice-President's teams promise to be an especially interesting affair judging from present appearances. All that is necessary to make it a success is fine weather.

Walter Oke evidently thinks his bunch can beat the "Doc" in view of his suggestion that the losers put up ice cream for the crowd, which he says is the best they can do until after the referendum in the fall. However, the "Doc" will give him a battle, and may surprise him.

The games will start at 2.30 p.m. and all players are asked to be at the green not later than that time. All members and intending members are asked to take part in this game.

It is understood that "Doc" Hammond has taken up Walter Oke's challenge with regard to the ice cream and he says that his boys won't have to pay for it either.

The working man is closely concerned in Canadian export trade, and the Trade Commission points out that working men are already realizing that steady employment and plain bread and butter are assured by more dollars coming into the country by added exports.

Dominion trade is rapidly running back to pre-war standards. Yet the largely increased debt which war brought us makes it imperative, says the Canadian Trade Commission, that this should be prevented, and that peace-time work can be on a war-time scale.

"We must check the flow of money outwards and turn the stream of money inwards but cutting down imports and expanding exports," says the Canadian Trade Commission.

HOW TWENTY-FOURTH IN THIS CITY WAS CELEBRATED 54 YEARS AGO

Rollicking Time Was Had by Residents Before Peterborough Attained the Dignity of Metropolitan Proportions.

During the life of our late Queen Victoria, the anniversary of her birthday was observed as a general holiday among all English speaking peoples, and especially so in Canada. Before Confederation the holiday came as a break between Good Friday and away on in the year. There was, of course up to 1867, no observance of Dominion day as there was no such day to observe. Nor was there any stated day set apart as a public holiday, a Citizens' Day, but people relaxed at any old time and as the spirit moved. To some the spirit was moving very often, in fact it might be said that in such individuals it moved continuously.

Here were are to the commemoration of the Queen's Birthday, in the year 1919. Wisely enacted that the observance shall still go on. Keeping in mind the memory of our Good Queen, the monarch during whose beneficient reign Peterborough came, almost into being and prospered. As a matter of interest it may be agreeable to peruse the program of doing on a certain 24th of day, fifty four years ago. That it may illustrate how the people of that day made their own fun, how all fell to work and contributed that all might have a good laugh and there be enjoyment for the children and amusement for those of mature age.

The procession was unique. It was termed the Kalithumpian Demonstration, Diversified, incongruous, quaint and laughable, as it strolled the streets, accompanied by a flock of Red Indians, barebacked on divers horses, whooping, careering and tearing up and down, the most delicious thrills of fear and excitement pervaded the children. If one wishes to know more of the Indian tribe, that came from the land of nowhere and disappeared in the land of somewhere-else, he will commune and consult with Harry Winch, who knows things that have never been told and never will. As the distinguished hereditary chief of that memorable occasion. Mr. Winch was in a class by himself and all were well content to let him be.

TERRIBLEPHANTASMAGORIA

On the Queen's Birthday, May 24th, 1865, in Peterborough

Ye Ubiquituous Band of Loyal Members of the Realm will fyle their First Public Aggression before the inhabitants of ye aforesaid town,

At Ten O'Clock in the Beginning of the Day Before Mentioned

Under the Guidance, Direction, Control and Disposal o this Serene Highness, ye Wise, Venerable, Sedate, Magnanimous and Philanthropic

Prince of Timbusdahyrrucagrolphilius,

The Ubique Generalissimo

Ye staff of the Illustrious General will be composed of ye principal Magnates, or ye Consanguineous Members of ye Household.

NOTIS—At nine and one-half o'clock of ye morning every member of ye Great Army is hereby notified to leave his respective avocations, abodes and familys, and to repair to ye Great Rendezvous, situate in ye Great Hole in ye Mundan Sphere, or more generally known as ye Bowels of ye Earth, from which place all will depatr at the hour of ten of the clock.

PROGRAM

1—Ye Illustrious Commander-in-Chief and his Affectionate and Loving Spouse.

Tonight—Bankers vs Shamrocks

GAME TONIGHT AT RIVESRIDE PARK

There will be a ball game, at announced yesterday, between the Orientals and the De Laval, at 6.30 tonight at Riverside Park. Everybody is cordially invited to attend to encourage the teams.

OMEMEE.

(Special Correspondence.)

Omemee, May 22.—Mr. and Mrs George Carey, of Toronto, were the guests of Mr. and Mrs. Redmond Carey last week.

Mr. Gould, of Peterboro, attended the play given by Millbrook talent on Monday evening.

Miss Gladys Kelly, of Lindsay, is visiting her aunt, Mrs. Harry Magee.

Miss Brooks, returned missionary from China, spent the week-end with Rev. Mr. and Mrs. Lewis.

Mr. N. R. Murray, of Peterboro, was a visitor to the village on Saturday.

Mrs MacInnis and daughter, Miss Marie, left last week for their new home in the West. A great many friends went to the train to wish them a safe and pleasant journey.

Mr. B. Mahood, of Peterboro, is visiting his sister, Mrs B. Pogue.

KNOX CHURCH CHOIR

A full rehearsal of Knox Church choir is called for tonight at eight o'clock.

No Garbage Saturday

Sanitary Inspector Stapleton announces that there will be no collection of garbage on Saturday, the 24th.

SOCIAL AND PERSONAL

RICHARDSON—SPRAGUE

Kingston, Ont., May 22.—James A Richardson, well-known grain operator, of Winnipeg, was married in Bridge Street Methodist Church Belleville, to Muriel, only daughter of Mr. and Mrs. Mark Sprague. The groom was assisted by Major A. F. Brown, of Winnipeg. The ushers were Major W. Lytle, of Toronto; Major T. Ashmore Kidd and Lieut. R. G. Richardson, Kingston, and Lieut. C. D. Reid, Belleville.

LILLICO—DODDS

A very pretty wedding was held in Saint Paul's Church yesterday afternoon at half-past twelve when Miss Clara Dodds became the bride of Mr. Ernest Lillico, both of this city. The ceremony was performed by Rev. R Pogue of St. Paul's. To the strains of the wedding march, which was beautifully rendered by Mr. Crane an old friend of the bride's family the bride entered the church on the arm of her brother, Capt. Hurrell Dodds. Miss Maude Ackison was bridesmaid, while Mr. Howard Lillico assisted the groom.

After the ceremony the happy couple repaired to the bride's home where refreshments were served, after which Mr. and Mrs. Lillico took the 3.30 train for their future home in Winnipeg.

The groom, who is a returned soldier, having enlisted in Winnipeg before the war, is well and favorably known in Peterborough. All join in wishing the young couple a long and happy wedded life.

Mrs. J. R Webb returned from Toronto yesterday after preaching the anniversary sermon in Saint Clair Avenue Baptist Church on Sunday. Mrs. Webb remained in Toronto for a few days to visit friends.

Mr. and Mrs James Hanna announce the engagement of their second daughter, Maud Amelia, to Mr. Norton Anson Kinsman, of Buffalo. The wedding will take place early in June.

Mr. Daniel O'Connell, at one time a member of this city's Council Board, and now resident in Toronto, is in town today.

Mr. Peter MacArthur yesterday received a post card which ex-Ald. Murray wrote immediately upon his arrival at Liverpool. The ex-alderman reports a pleasant voyage and states that his health is much improved since his departure from this city.

Mrs. (Rev.) W. H. White returned today from a visit to friends in Toronto and Barrie.

ONLY TWO DAYS LEFT

In which to make good the 15,000 required by the committee in charge of the

Great War Veterans Drive

in order that the NEW CLUB ROOMS may be handed over to the Veterans free of debt.

The very unfavorable weather has interfered with the canvass greatly, and

Your Hearthy Co-operation and Sympathy is asked

for the remaining days of the drive, so that the campaign, which is one of the most desirable of all the campaigns put on in Peterborough will be pushed through to a successful conclusion.

Only Two Days Left

Y. M. C. A. MINSTREL SHOW

The Y. M. C. A. minstrels under the able leadership of Mr. Asa Huycke last night repeated their splendid entertainment for the benefit of the G. W. V. A. fund.

The rain hindered many from attending the performance who counted on hearing it once again. Notwithstanding the poor house and lack of proper accommodation the boys entered into it wholeheartedly and the entertainment never lacked gusto from beginning to end. The humor was clean and genuine throughout. Mr. George Wesley's description of soldier life en route to France was very laughable and the returned men especially appreciated the jokes.

The minstrels were ably assisted by five clever young dancers from the Y. W.C.A.. Miss Lewis and Miss Bates danced the Irish step dance in the costumes of the Emerald Isle.

The Misses May Perry, Edith Price and Grace Thompson dressed in fairy garments danced an interpretation with beauty and grace not found in all professional dancing.

It would be unfair to attempt to single out any member or members of the company as stars as all are splendid in their parts. Nevertheless, one cannot help wondering how it is that Mr. Harold Huff seems so perfectly at home behind the footlights especially in black.

The program was as follows.

Opening—Way Down in Caroline—Solo, Morgan Cottingham and Chorus.

Solo—Alexander Good Bye—Harold Huff.

Buck and Wing Dance—Mr. Walter Fitzgerald.

Y. M. C. A. Duet—Cruthers and Renwick.

Y. M. C. A. quartette—Cruthers, Renwick, Carlisle, and Munroe.

Solo—When the Robert E. Lee Arrives in Old Tenessee—Verne Morphet.

Solo—As she sang to the Bright Silvery Moon—Norman Foote.

I Ain't got Weary Yet (without variations)—Morgan Cottingham.

The Land Where Shamrock Grows Ken Anderson.

You'll all go to Heaven When You Die—George Wesley.

Ja Da quartette—Wesley, Westbrooke, Morphet, Cottingham.

Little Buck Canoe and You—The Company.

Mr. Huycke is once more to be complimented on the success of the minstrels and the splendid training they show. Surely Peterborough knows by now that if Mr. Huycke and the Y.M.C.A. boys put on another entertainment it's too good to miss.

CANADA STAYS DRY ONE YEAR LONGER

WAR-TIME PROHIBITION IS EXTENDED--ONLY ONE MEMBER DISSENTING.

Ottawa, May 22.— The Government's bill to extend war-time prohibition for a year after the proclamation of peace went through the committee stage of the House of Commons, and now stands for third reading. The Liberals took practically no part in the long and somewhat rambling discussion that was carried by the supporters of the government. The only amendment suggested was voted down without a division. It was moved by Major Hume Cronyn, of London, and provided for the exportation of beer from Ontario of the strength prescribed by the laws of Quebec.

Some vigorous temperance speeches were delivered. Mr. Nicholson of Algoma, protested against the claim that the workingmen were opposed to prohibition. One hundred thousand dollars he said, had been expended by the liquor traffic in an effort to get railway employes to declare for stronger beer, but not a single local union had passed the desired resolution. R. L. Richardson, of Springville delivered an old time temperance lecture and vigorous attacks upon the liquor evil were marshalled by Levi Thompson, R. C. Henders, Sam Charters, of Peel, and Thomas Foster, of East York. Mr. Henders president of the Manitoba Grain Growers, said the western farmers were strongly for prohibition.

Blake is Outspoken

The only outspoken speech against the measure was delivered by Dr. M R. Blake, Unionist member for North Winnipeg. Dr. Blake thought that tea and tobacco did more harm that intoxicating liquors. He attributed the present unrest to a policy of compulsion and restriction. He favored abolishing the bar, but wanted government dispensaries, which would furnish the people with pure liquor at moderate cost. There were at present he declared, in Winnipeg, an army of bootleggers and no less than five hundred illicit stills.

Hon. N. W. Rowell had charge of the bill on behalf of the government. He declined to accept the Cronyn amendment which was accordingly voted down. He said the present bill merely implemented the pledges of the government but intimated that the question of permanent prohibitoin might be dealt with at the next session.

AUCTION SALE

Of a large quantity of desirable household furniture and effects, including fine brass bed, some walnut furniture, rugs, etc., etc., at store, No 176 Simcoe street, on Tuesday, May 27th. Sale at 1 o'clock.

J. F. THORNTON, Auctioneer.

NOTICE

At a special meeting of the Peter Robinson Chapter, I.O.D.E., held in the Public Library last evening, it was decided to send a delegate to the annual convention to be held in Montreal on the 26, 27, 28 and 29th of May. Arrangements were also made to hold a garden party at the home of Mr. G. W. Hatton, Charlotte street, on June 3rd, weather permitting.

A carload of Ben Davis apples was sold at St. Louis $100 a barrel.

EIGHT-HOUR DAY

(Continued from Page One.)

weather conditions beyond our control."

E. F. ason, suggested that were inside workers paid 45c an hour, outside men should receive more on account of lost time.

President Bolwell said that an inside laborer needs 45c an hour to enable him to live in Canada. Personally, he is making something over that, but was not very optimistic of the future, for it is but little savings any workingman can effect under the prevailing system.

Ald. Gainey would have liked the scale to remain at 50c. However, the laborers had made a concession of five cents the hour, which should have weight with the Council.

Ald. Hamilton was assured that Toronto, Hamilton, Brantford and and Montreal had adopted the eight-hour day, which is sure to become universal.

"The principle is endorsed by the League of Nations," said Mr. Bolwell.

Ald. Hamilton was content to await the measure becoming general before acquiescing in its adoption in Peterborough.

President Bolwell—"Peterborough should set an example instead of waiting for a universal eight-hour day."

Ald. Hamilton was not prepared to discuss Mr. Bolwell's inquiry if ther was any cry of "lack of production" in factories through the delinquency of laborers.

President Bolwell believed that one of the first acts of Premier Borden on his return will be to devise ways and means of settling the eight-hour day question and making it uniform.

Call Strike Off.

Ald Hamilton—"Why not call the strike off and wait until the shorter work day becomes general?"

Mr. Bolwell pointed out that hundreds of men, including many returned soldiers, are looking for work and eight hours would distribute employment over the greater number. "Peterborough City Council's attitude," he added, "must give a bad impression of their own country to the boys who have fought for it. Then the eight-hour movement makes for a better citizenship and a better Peterborough — the longer hours a man works, the poorer a citizen he develops into."

Arbitration.

F. F. Mason—"Would it not be wel for council to appoint a board of arbitration to meet the men? And would it not be well to retain the nine-hour day and pay even more than 45 cents. This would give the men an opportunity to pull up on lost time and lost wages, and expedite delayed work."

Ald. Morrison—"At 45c an hour and eight hours the men could work nine hour, receiving price and a half for the additonal hour. That is union principle."

Council promised to discuss the whole question in Committee of the Whole, which they did, with results as published under another heading.

AUCTION SALE

On Monday, May the 26th, I will sell the entire household furniture and furnishings of Mr. H. M. Thompson, 230 Perry street, including steel range, Quebec heater, beds, dishes, etc. etc. Sale 1.30 o'clock. No reserve. J. F. Thornton Auctioneer.

ALLIES DECIDE TO MODIFY TERMS IN TREATY OF PEACE

Concesaions Made to Germany With Regard to Saare Valley Award and Reparation—Chinese Delegates Finally Agree to Affix Signatures

(Canadian Press Despatch)

New York, May 23.—The Associated Press this morning issued the following: Concessions on some points in the peace treaty have been made to the Germans by the Paris Peace Conference. Slight modifications have been made in the terms of the Saare Valey award, and the terms regarding reparations as they stood in the original text of the treaty, have also been modified in some degree.

The fact that the Council of Four had decided to make these modifications was reported in a dispatch from Paris late last night. The message, however, did not indicate just what were the alterations decided upon. These are expected to be developed in part with the handing of the Germans today of the Council's reply to the German note on reparations. There were no indications, however, when the exact nature of the concessions made regarding the Saare Valley would be revealed.

China's delegation at the Peace Conference has decided that it will sign the peace treaty in spite of its declaration that it would not do so because of the decision of the Council of Three relative to turning over to Japan of Germany's interests in Shantung and Kia-Chau. It is said, however, that reservations will be made in attaching the signatures of the Chinese.

ALLIES REPLY TO GERMAN PROTEST AGAINST TERMS

Huns Are Required to Endure Only What They Are Able to Bear and not What They Deserve —Have Only Themselves to Blame.

(Canadian Press Despatch)

Paris, May 23.—Germany's share of the burden growing out of the war as set down in the economic terms of peace treaty is based on her ability to shoulder it and not according to her deserts, the Allied and Associated Council declares in its answer to a German note of protest against this section of the treaty. Germany was mainly responsible for the damage and destruction, it is pointed out, and she cannot escape that responsibility. It is not the peace terms, the allied note says, but acts of those who made and continued the war which are the cause of any sufferings Germany may have to bear.

Germany's economic status under the terms of the peace treaty is the result of her own behaviour, particularly through ruthless submarine warfare the note declares. The Allied answer, which was made public today, with the text of the German note in negative. It points out that the German plea is exaggerated and ignores the fundamental conditions which led to the imposition of the terms.

The loss to the world's shipping through the German submarine campaign, it is declared in the reply, was nearly thirteen million tons. The allies propose to make Germany repay only four million tons. The responsibility for this shortage in shipping is placed directly on Germany and the German's share in replacing it is called "very moderate."

U. S. Seaplane Is Held At Azores

(Canadian Press Despatch)

Washington, May 22. — Weather conditions at Ponta del Gada still were unfavorable for the resumption of the transatlantic flight by the seaplane N. C.-4, Admiral Jackson early today notified the Navy Department. His message said the sea still was rough and rain squalls were expected within the next twelve or eighteen hours.

Discussed Terms For Austrians

(Canadian Press Despatch)

Paris, May 23.—The Council of Four met this morning and discussed the military terms and clauses relative to the prisoners of war, which will be incorporated in the treaty with Austria. Military experts attended the session.

Georgina When, who has been missing from Startford, was located at Mount Forest.

ACTIVITIES OF BOARD OF TRADE

The Review man called at the Board of Trade rooms this morning to find the staff working under high pressure. The place already looks like a long established and thriving institution.

The new Manufacturers' Association is busy talking over industrial stability and the Merchants Association on the question of a proposed credit bureau, and general retail trade issues.

A proposal to interest the farming community in a big co-operative plan of sectional development will be put into shape as soon as President Thomas Barrie returns from his western trip.

The Transportation Committee has already taken up the subject of car demurrage rates and has applied to the Board of Railway Commissioners for a hearing on the subject. Chairman W. S. Campbell has advised the shippers of the new freight accounting system introduced by the railroads.

The committee on Housing and Neighborhoods will work on an improved plan for housing conditions for the city. Judge Huycke, chairman of this committee is assisted by C. E. Canfield, J. G. Campazzle, Frank Linton and Harry Stock.

The work of city planning, parks, bathing beaches, etc., is in the hands of Dr. Harvey, chairman, R. V. Copping, J. W. Worth, Charles E. Sisson and William Sangster.

Information about streets, roads and highways will be collected by chairman W. H. Bradburn, R. B. Rogers, R. L. Dobbin, H. O. Fisk and E. R. Wilson.

The By-laws Committee is adapting the by-laws to the somewhat antiquated Federal Law governing the establishment of Boards of Trade. The Federal Law defines a 'Board of Trade as a trading body, while the Peterborough Board of Trade is organised as a Citizens' Union to include all interests in its membership.

RIOT NOT SERIOUS AS REPORTS SAID

TROUBLE OF 21st BATTALION AT WITLEY CAMP WAS INSIGNIFICANT.

Halifax, May 23.—The troops that arrived yesterday on the Caronia were in command of Brig.-Gen. Robert Rennie, C.B., C.M.G., D.S.O., M.V.O., who headed the brigade practically all the time it was in France.

General Rennie stated that the slight disturbance which had occurred at Witley Camp previous to sailing had been greatly exaggerated. As a matter of fact, it had amounted to nothing at all.

Lieut.-Col. H. E. Pense, D.S.O., officer commanding the 21st Eastern Ontario Battalion, which is to be demobilized at Kingston, explained that the 4th Brigade, owing to its being the senior brigade of the second division, was to have sailed for Canada first, and arrangements had been made for a sailing on the Saxonia on May 4. This sailing, however, was subsequently cancelled while that arranged for the 5th Brigade was not, with the result that the latter brigade got away first. Some of the men of the 4th Brigade felt they had a grievance, and this added to the general reaction induced by a period of comparative inactivity following the strenuous years of the war had precipitated the disturbance, such as it was. It broke out at 10.35 on the night of May 6, and as an evidence of the promptness with which it was handled and the really insignificant character of the affair, Col. Pense stated that everything was quiet and he was in bed shortly after midnight.

Few Involved.

Less than five per cent. of the battalion were involved in the affair. One man attempted to make a speech from an overturned soap box, but he was not heard, and there was absolutely no organization back of the outbreak and nothing in the way of formal demands. The disturbance was quelled by officers going among the men and calling upon them to move away. The damage involved amounted to approximately $500, and as a result of the investigation held into the affair this damage was equally assessed among all the units occupying that section of Witley camp in which the 4th Brigade was quartered.

Corroborate Statement.

Lieut.-Col. L. E. Jones, D. S. O., commanding the 18th Western Ontario Battalion, to be demobilized at London; Lieut.-Col. L. H. Millon, D.S.O., commanding the 19th Central Ontario Battalion, and Lieut.-Col. B. C. Hooper, D. S. O., M. C., commanding the 20th Central Ontario Battalion, corroborated what Brig.-Gen. Rennie and Col. Pense had said regarding the Witley camp, and all expressed their regret that notice of it had crept into the cabled despatches.

Gen. Rennie stated that the conduct of Canadian troops generally in England following the armistice had been exemplary, despite the apparent desire on the part of some Englishmen to exaggerate anything that might prove uncomplimentary to these troops.

One death occurred on the trip across, that of Pte. A. J. Robertson, of the 21st Battalion, who enlisted in Kingston, but whose next of kin lives in Florida. Pte. Robertson died Tuesday, following an acute attack of influenza. His body was brought to port.

HOME RULE FOR BRITISH INDIA

ANNOUNCEMENT MADE IN HOUSE OF COMMONS OF PROPOSED REFORM.

(Canadian Press Despatch)

London, May 23. — Edwin Samuel Montagu, secretary for India, announced in the House of Commons that he hoped to introduce early in June a government bill for the reform of the government of India. The keystone of this reform would be the transference of power from a bureaucracy to a people, which he added, "may perhaps be gradual, but will be real at every stage."

AUSTRALIA NOW PAYING THE PIPER

TREMENDOUS FINANCIAL BURDEN OF THAT COUNTRY AS RESULT OF WAR.

Melbourne, May 23.—It is said Australia is in financial difficulties due to war time expenditures. This does not apply to the Australian people, but to their central government, which announced through acting Prime Minister Watts that the burden payable out of revenue would amount to $125,000,000 annually for many years to come. Mr. Watt's statement was decidedly pessimistic. He declared that the pressure was so great that all the resources of the commonwealth must be levied upon and that the strictest economy would be necessary to prevent a financial catastrophe.

Out of the consolidated revenue, Mr. Watts estimated that war interest on loans would require $66,000,000; sinking fund on war loans $6,000,000; war pensions, $25,000,000 and other recurring war expenditures, $28,000,000, making an annual total of more than $125,000,000. And to make matters worse Mr. Watots declared that many of those items would increase rather than decrease in the course of time. Another item of expenditure which would extend over a score of years will be that of repatriation, which will have to be borne partly out of revenue, partly through bonds. Old age pensions will cost $20,000 this year.

Referring to protective customs duties, Mr. Watts predicted that prices would be lowered and that higher duties would reduce the total of revenue receipts from this source. Then, too, proceeds from the Federal land tax were expected to become less, because the subdivision of large estates was proceeding. War-time profits tax income was also lessening and will disappear altogether before long, said Mr. Watts.

Australia apparently is paying the piper, as every other nation is doing. War is an expensive luxury—so expensive in fact that its very cost is apt to act as a deterrent, fully as strong as the police and economic power of the League of Nations. But Australia need have no fear for her future! she is too virile and active a commonwealth not to rise superior to her peresent financial troubles.

Peterboro Captain Leaves For Russia

(Canadian Press Despatch)

London, May 23.—Col. Collishaw's all-Canadian air squadron for Russia leaves next Thursday and includes Captain Green of Peterborough.

CENTRAL LEAGUE OPENS TOMORROW

MANAGER SOLOMON TAKES TEAM TO OSHAWA FOR ONE TEAM.

Manager Solomon of the Peterborough Baseball Club takes his team to Oshawa tomorrow for the first league game of the season. The other teams in the Central Ontario League play as follows: Port Hope at Lindsay, Belleville at Cobourg.

The players who will represent this city will be picked from the following: Heenan, Kirn, Wade, Hagerman, Cherrett, Murray, Soden, Head, McCarney, Sheehy, Holyman, Cavanah and Long. These players are requested to be at the Water street bowling alleys not later than 8:30 a.m. tomorrow, from where they will proceed to Oshawa in automobiles.

393 DOG TAGS ISSUED.

Police Sergeant Reid reports that three hundred and ninety-three dog tags have been issued this May so far, and that another hundred or more must be taken out by the end of the month, or the dogs' owners will be summoned to give cause for their delinquency.

More than fifty loans for housebuilding have been asked for at London, Ont.

North Bruce U. F. O. have decided to pick a candidate at Wiarton, May 27th.

PETITION KING TO ABOLISH TITLES

NO MORE KNIGHTHOOD OR OTHER TINSEL TRIMMINGS FOR CANADIANS.

Ottawa, May 23.—By a vote of 96 to 43 the house of commons voted an address to His Majesty praying that hereafter no titles be granted to British subjects domiciled or ordinarily resident in Canada. The address, based upon the report of a special committee of which W. F. Nickle, of Kingston was chairman, not only puts an end to hereditary titles but does away with knighthoods, minor titles bestowed upon Canadians by foreign governments. The address is to be conveyed to the governor-general by members of the house who are of the privy council, although Sir Sam Hughes hotly declared that he would serve on the committee. Upon the decisive vote which came on an amendment moved by G. B. Nicholson of Algoma the minister of the crown divided, Sir Thomas White, General Mewburn and Hon. Martin Burrell favored sending the whole subject back to the committee and only doing away with hereditary titles, while Hon. T. A. Crerar, Hon. F. B. Carvell and Hon. N. W. Rowell lined up with the democrats. The entire opposition with the exception of Fred Kay, voted for the abolition of all titles and the government forces were about evenly divided. All the western members, with a few exceptions voted against any more knighthoods in Canada.

Mr. Burnham's Address

During the debate Mr. J. H. Burnham of West Peterborough said that the day had passed for the triumph of aristocracy; the age of democracy had been reached. He reminded the House that he had moved in a similar direction in the House some years ago and he strongly supported Mr. Nickle. This action had been taken with the object of stemming the flood of decorations that seemed to be coming to Canada. He believed that those who favored class distinction would disappear with the junkers of Germany and the aristocrats of Russia. He denied Dr. Heard's assertion that great men became more distinguished by receiving titles, and declared that all the greatest men of the world, with the exception of Sir Isaac Newton, had no titles.

Steamer Grampian Docks at Quebec

(Canadian Press Despatch)

Quebec, May 23.—The steamer Grampian docked at Quebec shortly after 10 o'clock last night with 419 cabin and 1,089 third-class passengers. There were only a small number of military men on board, but the number of soldiers' dependents was heavy.

Private Weiss Of Otonabee Horse

FOUGHT IN 1918 CANADIAN DRIVE—WOUNDED AT CAMBRAI.

Pte. Oscar Weiss, of Otonabee, R. R. No. 7, arrived in Peterborough this morning at 8 o'clock via G.T.R. from Montreal.

Pte. Weiss has seen 18 months' active service with the 14th Battalion overseas. He was in the Canadian offensive of 1918, and sustained gunshot wounds at Cambrai.

The favorable trade balance of $572,000,000 of 1917 had already dropped to half that figure in the last fiscal year. The Dominion may have to face an adverse balance of trade next fall, and that is why the Canadian Trade Commission wishes the enormous importance of exports to be grasped even by children.

Wm. Bailey of Brantford, a returned soldier, employed as caretaker of the City Hall, committed suicide through despondency.

The Chancellor of the Exchequer stated in the House of Commons that the net cost of the war tot he United Kingdom up to March 31 was £6,700,000,000.

Contable Boucher, of Coniston, was shot at five times by L. Sabatine, who escaped.

UNIONS ARE NOT IN ACCORD ON THE STRIKE IN WINNIPEG

Some Organizations Claim That They Were Forced to Join in Walkout and That Action is not Constitutional—Railroaders Refused to Quit

(Canadian Press Despatch)

Winnipeg, May 23. — Winnipeg citizens have transmitted a formal protest to the Federal Government regarding the embargo on mail to and from Winnipeg as a result of the general strike in progress here. The protest demands that the Government resume the mail service with Winnipeg immediately.

Shortly before a public meeting to discuss the general strike situation was called this morning it became authoritatively known that Winnipeg union forces were not unanimously behind the executive heads of the central strike committee. Protests have been sent here by the heads of at least two local unions to their international headquarters charging that certain unions were forced to join the sympathetic walkout despite the fact that such action was not constitutional.

Railway Men Stay at Posts.

A bulletin posted on the Free Press bulletin board today states that a resolution was carried unanimously yesterday at the triennial convention of the Brotherhood of Railroad Trainmen at Cleveland at which 85 Canadian delegates were present, that the Order would not authorize a vote to take part in the sympathetic strike at Winnipeg.

MAY HAVE SIGHTED HAWKER'S PLANE

STEAMER REPORTS SEEING LIGHT OF AIRSHIP EARLY MONDAY MORNING.

(Canadian Press Despatch)

London, May 23.—The cable ship Faraday reports that it sighted a red light of an airplane during the early hours of Moday at 50 degrees 23 minutes north latitude and 30 degrees west longitude, approximately midway between the British Isles and Newfoundland and in the course which would have been followed by Harry G. Hawker in his attempted flight between the American continent and Ireland.

PETERBORO MEN ON THE CARONIA

The following local men arrived at Quebec on May 22 per steamer Caronia and were forwarded to distribution stations west (Kingston):

Captains L. Fraser, D. J. Moore, J. A. Harstone, Lance-Corporals H. S. Armstrong, S. H. Carpenter, A. A. Edwards, F. Leal, Sergeants C. R. Lasemby, J. A. Tuson, and Privates M. Shaw, J. H. Mullen, C. Orr, A. Parberryr, J. F. Rich, V. Spears, L. Weaver, M. J. Tobin, W. C. Simmons, W. Beveridge, E. F. Monk, D. McConnomy, R. W. Butler, M. J. Guerin, E. B. Williams, A. Nicholls, J. J. Llewellyn, Holland, W. H. Hall, W. Hatcher, H. E. Follis, W. E. Dolman.

Andrew Bonar Law, Government Leader in the British Commons declares that the former German Crown Prince will be liable to trial under the terms of treaty.

NEW DEPARTMENT AT THE LIBRARY

ROOM DESIGNED SPECIALLY FOR THE CHILDREN IS NOW OPEN.

Parents who are interested in the way their children spend their leisure hours should visit the new department that has just been opened up for them in the Public Library. A bright, sunny room, equipped with fumed oak seats built specially to the size of the youngest kiddies and surrounded by rows of attractive books that range all the way from fairy tales, easy works on practical subjects creates in the mind of the youngest a pleasing impression from the very first glance.

This room is in charge of Miss Munroe a graduate of the Toronto Library School who already has the names of 425 children on her roll. Saturdays are naturally her busiest days when an average of over 160 children patronize the department. However it is not intended to interfere with the regular work of the scholars as Miss Munroe pointed out.

"I would like to emphasize the fact that we do not intend to supplant the work of the schools but rather assist them, as every book we have in stock is worth while. Most children are bound to spend a large part of their time reading something, and if proper books are not supplied they will turn to the cheap trashy stories of fiction. Looking to the future these children, when they enter the adult department, will have formed the habit of reading systematically and wisely."

The room is open every morning from nine to twelve except Fridays, principally for routine work. In the afternoons it is open till six p.m. except Wednesday's when the hours are from seven to eight. A story hour will be started this fall in the lecture room adjoining.

A CHANCE FOR A TRIP IN THE AIR

The programme arranged for tomorrow at the exhibition grounds in connection with the Veterans' drive is one sufficiently varied and attractive to assure clean sport and entertainment every minute during the afternoon and evening.

The great feature of the day, secured at the eleventh hour, is an exhibition of airplane flying, the interest in which is enhanced by the fact that the aviator is willing to carry passengers with him. Arrangements for a trip up in the air may be made on arrival at the grounds of the aviator, who will fly, it is expected, to this city from Lindsay.

THE DAY'S PROGRAM.

Afternoon.

Monster demonstration at the exhibition grounds including field sports, light weight, fly weight and midget boxing bouts.

Five-mile motor cycle race for heavy machines for silver cup presented by Sports Secretary Dalliday.

Bicycle races. One-mile, free for all. Half-mile, Peterborough County. Half-Mile, G. W. V. A.

Horse races—2.30 trot or pace for purse of $200.00. Free-for-all for purse of $200.00.

Admission, 25c; children 10c; grand stand 25c.

Evening.

Vaudeville on stage in front of grand stand. Military tattoo with five bands, and over-the-top by Veterans. Fireworks.

The Veterans have been very much handicapped by inclement weather in their drive for contributions toward the cost of their new G.W.V.A. quarters, and it is hoped that appreciative citizens will accord tomorrow's closing events a bumper attendance.

"FOR A GREATER PETERBOROUGH."

FRIDAY, MAY 23, 1919

VICTORIA.

Born May 24, 1819. Ascended the throne June 20, 1837. Died January 22, 1901.

"Queen, as true to womanhood as queenhood,
Glorying in the glories of her people,
Sorrowing with the sorrows of the lowest."
—Tennyson.

IF CHRIST CAME TO PETERBOROUGH.

MR. GUISE-BAGLEY, in a communication in The Review yesterday championing the cause of the anti-prohibitionists, says that if Christ came to Peterborough to attend a wedding and if He made wine for the refreshment of the guests, He would be haled before the police magistrate and either fined or sent to jail.

It is othig unusual for a man when pleading a desperate case to search the Scriptures for warrant for his position. Satan did as much when on the mountain he attempted his masterpiece, which was the perversion of the Man Whose ministrations he most of all regarded as a menace to his own kingdom. The record does not show that the refreshments miraculously provided at the Cana wedding drove the guests into temporary insanity, breeding personal combats and calling for the intervention of the officers. Had that form of beverage been preserved down to the present, prohibition would have been unnecessary, and Mr. Guise-Bagley would not find himself constrained to distort the Holy Writ in order to make out a case.

It is a far cry from the biblical to the scientific, but Mr. Guise-Bagley does not hesitate to make the flight. All will admit that the Creator in His wisdom has and does make alcohol, which is stored in infinitesimal quantities in almost everything that is designed for the sustenance of mankind. But alcohol used as the Creator prepares and distributes it is not only harmless but useful. No sane man has any objection to that element, even festive wedding guests who may have an excuse for unusual hilarity would come to no harm if they indulged to the limit in the alcoholic gifts of nature. The fight is against the perversion of these gifts by the inventions of man, who is not satisfied to accept what has been designed for his welfare. Scripture and scientific records may unite in conceding the point raised by Mr. Guise-Bagley, but it is certain that neither approved of the distillations that are a travesty upon the plans of Providence.

During the Bible period to which Mr. Guise-Bagley refers, the Scribes and Pharisees, too, developed a habit of attempting to confound the Nazarene and to frustrate His ministry by quoting lavishly from inspired pages. It is not of record anywhere that they succeeded, and such a procedure is likely to be of as little avail today.

There is no argument as convincing as hard facts. The man suffering from toothache or other acute ailment is not comforted by a scientific disquisition on the nature of the disease. What he wants is more heroic remedial measures. A nation afflicted with a cancer requires the surgeon's knife rather than scriptural quotations or academic theories, no matter how finely spun.

THAT IRRESISTIBLE FORCE.

THE MAN WHO, while standing in the centre of a railway track, sees an express train approaching at the rate of sixty miles an hour usually has sense enough to take to the ditch instead of attempting to dispute the right of way. The goat, gifted as that animal is with pertinacity but with less than human intelligence, may invite a combat with the locomotive, but everyone knows the result of such encounters.

There are forces in the world today that it is national folly to attempt to ignore. They are noticeable on every hand and are taking definite shape, which will eventually render them irresistible. Some way or other, for a variety of reasons that are not hard to divine, there is discontent and unrest on all sides. The proletariat are asserting their rights, airing their real or imaginary grievances, as they have never done before. There is widespread disaffection with the different forms of government, with the old-time party system, and with the almost universal mal-administration of public affairs. Labor is making a united and general demand for higher wages and shorter hours. Even in staid old England the slogan of the workingmen is, "We intend to share in what we helped to save."

New political organizations are springing up on every hand until the old line statesmen are at their wits' end wondering where the bolt will next strike. Emerging from a baptism of blood, the world seems intent on beginning a new era in which many of the old institutions, prized all these years as immovable and imperishable, will be swept away. In the meantime there seems nothing so apparent as a lack of, nothing so urgent as efficient leadership.

Great emergencies invariably discover great men. Every war has sooner or later unveiled an outstanding military genius who has changed the apparent destiny of human affairs. In the present crisis there will arise a Moses to lead the people out of this wilderness in which disaster overshadows them. The old brand of authority must be made over. Political parties must change their creed and their methods. The entire economic structure must be rebuilt.

In these dark days through which the civilised world is now passing there is only one light to guide the leaders of men, and that is furnished by the lamp of experience. History abounds in lessons to humanity and history teaches in emphatic terms that resisting such forces as are in contending array these days only intensifies the trouble and prolongs the agony. Eventually there must be concessions and compromises. Seeing the express bearing down upon him and threatening him with destruction, the wise man takes to the woods.

The political party that hopes to survive the storm can do so only by taking note of the danger signals on every side. There must be a wider representation in Legislature and Parliament instead of the present day system of limiting such representation to the professional men and others whose chief qualifications for public place is the possession of a money barrel. All classes gave of their strength to save the country from disaster which threatened it for four dark and anxious years. All classes have a right, then, to a share in the fruits of victory so dearly purchased.

BOXING AS AN ACCOMPLISHMENT.

LINDSAY RECENTLY STAGED a boxing exhibition and sought endorsation of the performance by getting from a clergyman in that town an exrpession of opinion on the advantages of proficiency in self-defence with the weapons with which nature has provided mankind. The cleric in question said that boxing was a manly and healthy art and should be encouraged, but, naturally enough, the pastor condemned the professional prize fight.

Every individual, like every nation, should be equipped with the training required for self-defence. Virile manhood is always able to assert itself no matter what the environment, and occasion for the exercise of this talent is not usually lacking in a lifetime. In the old frontier days every man was as a rule his own lawyer, judge and jury, and the pioneers came through those strenuous days with credit to themselves. The young man who starts out in life with muscles developed and the conviction that he is tolerably able to hold his own against all comers when the necessity arises has the problem of existence half solved before he makes the initial move. The most successful men of today are the graduates of the athletic fields and the gymnasium rather than the bookworms who burn the midnight oil over their studies.

But the professional loafer who glories in the name of pugilist is a differnt proposition. Happily for the credit of civilization the old-time prize fight is banned almost universally. Both Canada and the United States have set their faces against such exhibitions. Over in the Republic the promoters of the Willard-Dempsey bout had to look the country over before they found a place in which even a modified form of pugilism would be permitted by law. And one of those men is to receive $100,000, the other $29,000, for chasing each other around a roped-off square for twelve rounds of three minutes each, with one-minute intermissions between the frames, while they attempt to do personal injury to each other with padded gloves. In the wake of such an exhibition come all the gambling element of the nation, reinforced with as fine a set of gentlemen as ever scuttled a ship or cut a throat.

There is no principle at stake in such an encounter. There is no real issue to be settled. Nothing worth while depends on the result. Which one of the combatants wins the championship matters not at all except to the winner himself and to the men who put up their money on his chances. If Willard loses his laurels and Dempsey is crowned king of the heavyweight champions the world will revolve as usual without missing a stroke.

Professional pugilism has fallen into disrepute not only on account of the legal barriers that have been placed around it, but because of the suspicion that so many of these conflicts are "fixed" for the benefit of the sporting fraternity.

Still, by all means encourage the manly art, as the Lindsay pastor suggests. Let the boy be trained to take care of himself against the bully and the petty tyrant. It was, we believe, the immortal and philosophic Mr. Dooley who said that in no community on earth do men treat each other with such courtesy and studied consideration as in a country where the carrying of pocket artillery is a general custom. The same is true in a lesser degree, perhaps, in society every member of which is skilled in the art of which the Lindsay clergyman speaks so highly.

NOTES AND COMMENT.

EVERYTHING in these days goes in cycles, bridge contracts included.

• • • • •

FRESH FROM one victory over the City Council, Mr. R. R. Hall must feel fortified for another tilt.

• • • • •

THE ALDERMAN who encourages home industry is equipped with another reasonable excuse for being at large.

• • • • •

THERE ARE OTHER legal processes besides injunctions available to the taxpayer who may deem himself aggrieved by aldermanic action.

• • • • •

LIKE THE REPUBLICAN majority in the American Congress, the majority in our own City Council is confronted with grave responsibilities.

• • • • •

THE RISING GENERATION have all the best of it as compared with their seniors, having at least a chance to see the Hunter street bridge completed.

• • • • •

THE CANADIAN PARLIAMENT is to ask King George to refrain from conferring titles on Canadians, but even a royal habit once formed is hard to overcome.

• • • • •

FREQUENTLY the man with a fancy for figures demonstrates how it is possible to reduce the cost of living, but that is about as far as it ever gets.

• • • • •

THERE IS NO DANGER of the Canadian state-owned railways ever going back to their original owners, the latter realizing that a dollar in the pocket is worth two in prospect.

NORWOOD MAN KILLED BY AUTO

THOMAS LOUGBRIDGE, FORMER RESIDENT, MET HIS DEATH IN TORONTO.

Norwood, May 23.—Friday was sentence day in the Toronto Criminal Assizes, when Chief Justice Sir William Mulock handed out punishments.

Max Helpern, a young lad convicted of manslaughter was sentenced to 12 months on the Jail Farm. The auto he was driving killed Thomas Loughridge at Bathurst and Harbord Streets, on March 27. It was a very windy night, and Loughbridge was crossing from one street car to another with head bent and holding to his hat with one hand when he was struck. Witnesses alleged that Helpern, if he had been looking ahead could have seen the man some distance ahead, but the prisoner claimed he only saw him when he was four feet from the car.

The late Mr. Loughridge was a well known citizen of Norwood for many years, prior to moving to Toronto.

Anniversary Services

Anniversary services in connection with the Norwood Presbyterian church were held on Sunday last, followed on Monday evening by an anniversary tea. Rev. M. F. Cree, B.A., of Alliston, a former pastor, occupied the pulpit for the occasion and rendered excellent service by his thoughtful and uplifting discourses. Large congregations were present and all were delighted to meet Mr. Cree and to listen to his splendid addresses. Special music was rendered by the choir under the leadership of Mr. J. E. Roxburgh.

The ocasion was the 88th anniversary of this church, according to a brief historical sketch prepared by the Rev. Geo. A. MacLennan during his pastorate some few years ago, dating from the time when a number of families from the north of Ireland and Scottland settled in this district.

The tea on Monday evening was very successful as well as a pleasing social event in the life of the church. The pastor, Rev. E. J. Wolland, B.D., presided at the after-tea meeting, when addresses were given by Rev. J. B. McCormack and Rev. A. Mansell Irwin, B.A., B.D., of town, Rev. D. A. Thomson of Hastings, and Rev. M. F. Cree, B.A. Musical numbers were rendered by Rev. Mr. McCormack, Prof. Trencer of Peterboro, Miss M. Johnson, Messrs J. A. and T. E. Finlay; Mrs. C. W. Miller and Miss Blanche E. Pearce acting as accompanists.

The proceeds amounted to $113.

Cadets Inspected

The annual inspection of the Norwood High School Cadet Corps took place on Thursday of last week the reviewing officer being Lt.-Col. G. Gillespie, Inspector of Cadet Corps for Military District No. 3, Kingston Headquarters Staff.

The Colonel was quite pleased with the demonstrations of military drill and physical culture exercises given by the boys and also complimented them upon the smart appearance they made in their new uniforms. Principal Lawlor, who is insructor came in for some favorable criticism the Colonel remarking upon his enthusiasm in cadet and physical culture work.

Although the date of the inspection was not generally known several citizens were spectators, including Scout Master Rev. A. M. Irwin, and Chairman E. P. Cuffe of the Board of Education, both of whom addressed the corps.

Graduates of the Norwood Cadet Corps figured prominently in the Great War and the list of heroes, who once drilled on the school campus is a lengthy one. The present corps is proud to boast that their two leaders are returned veterans, the captain being Pte Herman McMillan and h [illegible] and the First Sergeant, Pte. Milton Clysdale. Both of these youths have returned to complete their studies which they dropped a couple of years ago in their country's cause. The present strength of the Corps is twenty six.

Next year it is expected the inspection will be more formal and ample announcement will be made to enable the citizens of town and district to attend.

NEW ALL SLEEPING CAR TRAIN TRANS-CANADA LIMITED DAILY

Montreal and Toronto to Vancouver

On Sunday, June 1st new train will be placed in service to operate daily to Vancouver via Canadian Pacific.

Train No. 7 will leave Montreal 3.30 p.m.

Train No. 9 will leave Toronto 7.15 p.m.

Trains will consolidate at Sudbury and operate Sudbury to Vancouver as No. 7, due to arrive Vancouver 10.00 a.m. the fourth day.

Further particulars from Canadian Pacific Ticket Agents, or

W. B. HOWARD,
District Passenger Agent, Toronto.

HOME-MADE BREAD

Home bread-making reduces the high cost of living by lessening the amount of expensive meats required to supply the necessary nourishment to the body. The increased nutritious value of bread made in the home with

ROYAL YEAST CAKES

should be sufficient incentive to the thoughtful housewife to give this important food item the attention to which it is justly entitled. Bread made with Royal Yeast will keep fresh and moist longer than that made with any other.

Made in Canada

HONOR ROLL OF C. P. R. EMPLOYES

TRIBUTE PAID TO THE DEAD HEROES BY FORMER SHOPMATES.

As a tribute to the eight-one C. P. R. apprentices who enlisted for overseas service during the war, and honor roll was unveiled at the Angus shops in the presence of Mr. Burns, work manager, Mr. Muir, assistant works manager, and a representative gathering of foremen and apprentices. Mr. C. Kyle, supervisor of apprentices occupied the chair. Mr. Burns paid a fitting tribute to the boys who had paid the supreme sacrifice, and asked the apprentices to be worthy of the sacrifice made by their comrades while fighting to make this a better world for other people to live in. He commended the progress being made in school and shop, and referred especially to the good work done at the evening classes and to the prize given by the Montreal Council of Arts and Manufacturers. The C.P.R. itself gives five scholarships for proficiency in mathematics and mechanical drawing while 380 apprentices get two hours instruction each week.

YOU CAN'T RUB RHEUMATISM OUT

IT IS ROOTED IN THE BLOOD AND MUST BE TREATED THROUH THE BLOOD.

The pain of rheumatism is something that you cannot rub out. Every sufferer from rheumatism has been advised to rub this liniment or that on the affected part, but after all the rubbing the pain remained. Rubbing did not cure it and can't cure it.

Thin blood and rheumatism come together and if they are properly treated they will go together. Rheumatism is rooted in the blood in poor, watery blood. Sometimes cold, damp weather starts the aches and pains, but it is the condition of the blood that is at fault, and only by correcting this, and making the blood rich and red can the rheumatic poison be driven out. This is exactly what is done in the treatment of rheumatism with Dr. Williams Pink Pills. Acute and muscular rheumatism show improvement as the thin blood is built up, and when the blood has been restored to its normal condition the rheumatism is driven out and does not return as long as the blood is kept rich and red. There is no part of Canada in which some rheumatic sufferer has not been cured by Dr. Williams' Pink Pills, and they do not hesitate to express their thanks for what this medicine has done for them. As an example, Miss Annie S. Dedrick, R. R. No. 2, St. Thomas, Ont., says:—"Dr. Williams' Pink Pills cured me of rheumatism after a great many other remedies had failed. The pain in my arms and shoulders was so great that I could scarcely sleep. I could not raise my arms to comb my hair, and could not dress myself without help. In this condition I read of a cure of rheumatism through the use of Dr. Williams' Pink Pills and decided to try them. I got half a dozen boxes and I am thankful to say they not only cured my rheumatism, but that my general health was greatly improved. My appetite was increased and I gained in weight. Since then a number of cases have come under my observation in which cures have been made by this splendid medicine. As for myself I shall always speak a good word for Dr. Williams' Pink Pills."

These Pills are sold by all medicine dealers or will be sent by mail, post paid, at 50c a box or six boxes for $2.50 by The Dr. Williams' Medicine

ABOLISHES 21 PLAYER LIMIT.

American League Follows Course of National in Lifting Lid.

Kid Gleason may now keep all his infielders, outfielders, three catchers and all the pitchers he desires. President Johnson officially announced the return of his circuit to the 25 player limit.

"Our league will simply abide by the provisions of the national agreement," said President Johnson. "A majority of the club owners wished to return to the old player limit and that settles it. I have issued an order to the effect that the 25 player limit is operative instead of the 21."

THE BEAUTIFUL CITY BY THE SEA

The lines of the Grand Trunk Railway System between Montreal and Portland, Maine, penetrate the heart of the White Mountains, and serve many lovely districts. Portland, that "beautiful city by the sea," as Longfellow called it, is the gateway to innumerable natural beauties and cool retreats. Seldom has a city such surroundings of sea and shore. Portland and Casco Bay form the Utopia of these with moderate means; nowhere will a dollar procure more for seaside pleasures. Hotels in city and on the islands in the bay are numerous, and there are large numbers of boarding houses. Old Orchard, Kennebunkport and other resorts are reached through Portland, being linked up with the city by electric car service and steam railroad. Apply to any Grand Trunk agent for a copy of "Portland, Casco Bay and Maine Resort," an attractive publication which gives full information regarding the mountain and sea coast territory of Maine and New Hampshire, including hotels, rates, etc.

FEMININE LOGIC

The young lady across the way says one thing we can all agree on is that the world is tired of war and all international disputes should be settled arbitrarily hereafter.

Middle Aged Women

Women should take warning from such symptoms as heat flashes, shortness of breath, excessive nervousness, irritability, and the blues—which indicate the approach of the inevitable "Change" that comes to all women nearing middle age. We have published volumes of proof that Lydia E. Pinkham's Vegetable Compound is the greatest aid women can have during this trying period.

Read About These Two Women:

Fremont, O.—"I was passing through the critical period of life, being forty-six years of age and had all the symptoms incident to that change—heat flashes, nervousness, and was in a general run-down condition, so it was hard for me to do my work. Lydia E. Pinkham's Vegetable Compound was recommended to me as the best remedy for my troubles, which it surely proved to be. I feel better and stronger in every way since taking it, and the annoying symptoms have disappeared."—Mrs. M. Godden, 925 Napoleon St., Fremont, Ohio.

Urbana, Ill.—"During Change of Life, in addition to its annoying symptoms I had an attack of grippe which lasted all winter and left me in a weakened condition. I felt at times that I would never be well again. I read of Lydia E. Pinkham's Vegetable Compound and what it did for women passing through the Change of Life, so I told my doctor I would try it. I soon began to gain in strength and the annoying symptoms disappeared and your Vegetable Compound has made me a well, strong woman so I do all my own housework. I cannot recommend Lydia E. Pinkham's Vegetable Compound too highly to women passing through the Change of Life."—Mrs. Frank Hanson, 1316 South Orchard Street, Urbana, Ill.

Women Everywhere Depend Upon

OWES HER LIFE TO "FRUIT-A-TIVES"

The Wonderful Medicine, Made From Fruit Juices and Valuable Tonics.

MADAME ROSINA FOISIZ

29 St. Rose St., Montreal.

"I am writing you to tell you that I owe my life to 'Fruit-a-tives'. This medicine relieved me when I had given up hope of ever being well.

I was a terrible sufferer from *Dyspepsia*—had suffered for years; and nothing I took did me any good.

I read about 'Fruit-a-tives'; and tried them. *After taking a few boxes, I am now entirely well.* You have my permission to publish this letter, as I hope it will persuade other sufferers from Dyspepsia to take 'Fruit-a-tives' and get well".

MADAME ROSINA FOISIZ.

"Fruit-a-tives" is the only medicine in the world made from fruit.

50c. a box, 6 for $2.50, trial size 25c. At all dealers or sent postpaid on receipt of price by Fruit-a-tives Limited, Ottawa.

AMERICAN'S OPPORTUNITY

To Stop Persecution of Jews in Slavic Europe.

New York, May 23.—Madison Square Garden rocked to the enthusiastic cheering of 15,000 Jews assembled in mass meeting in protest against reported widespread pogroms in Slavic Europe when Charles Evans Hughes, speaking of appeals to the United States to aid in putting an end to the massacres, said:

"If America stands for anything in her service to humanity, then now let America speak."

James Giovanzzo was found guilty of the murder of Alex. Dutki on March 30 at Guelph.

WOULD NOT BE WITHOUT BABY'S OWN TABLETS

Once a mother has used Baby's Own Tablets for her little ones she would not be without them. The Tablets are a perfect home remedy. They regulate the bowels and stomach; drive out constipation and indigestion; break up colds and simple fever and make baby healthy and happy. Concerning them, Mrs. Noble A. Pye, Ecum Secum, N.S., writes:—"I have found Baby's Own Tablets of great benefit for my children and I would not be without them." The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville Ont.

11 a.m.—Morning service.
Empire Day Sermon.

8 p.m.—Evening Service.
The King's Feast.
Monday, 8 p.m.—Epworth League
Saturday, 8 p.m.—Choir practice
A cordial invitation is extended to all these services.

HYDRO CARPENTER KILLED

Alex. Garvard of Thorold Falls 150 Feet Down Cliff.

Niagara Falls, Ont., May 22.—Alexander Garvard, aged 52, a Thorold carpenter, was instantly killed on the Hydro pipe line in Victoria Park. Garvard lost his footing and fell a hundred and fifty feet down the penstock, the height of the cliff. He leaves a wife and several children.

"A BRITON'S WATCHWORD"

In Trinity Methodist Church on Sunday evening next the pastor, the Rev. F. E. Malott, will preach on "A Briton's Watchword." The Sons of England will attend this service in a body. Trinity's splendid choir will render special music. Among other numbers will be "The Anthems of the Allies."

At the Sunday morning service the pastor's theme will be "The New Citizenship." All are welcome at these services.

COWS RACE TRAIN

A herd of at least fifty cattle grazing on the Grand Trunk Railway near Kinmount, could not be induced to leave it, even to let the Haliburton train go through. The train followed them up till they came to a bridge where the cows dropped down between the ties. Passengers and trainmen united their efforts and cleared the track without injury to any of the cattle, but farmers would do well to see that their herds stay in safer pastures in future.

MARK ST. CHURCH

At Mark Street Methodist Church on Sunday next the pastor's themes will be, in the morning, "The Dead Christ," and in the evening, "If Christ Went to Winnipeg" or "The Relation of Religion and Economics." Hearty congregational singing. All seats free. Everybody welcome, especially strangers.

Gravel or Stone in the Bladder Can Be Remedied

Among the most agonizing of diseases arising from Kidney derangements is Stone in the Bladder or Gravel.

Persons who suffer from these dreaded affections generally become chronic invalids. . . . Heed this message! Gin Pills have brought relief to thousands of persons whose cases seemed almost hopeless. Testimonials by the hundred recommend Gin Pills as the great remedy for Gravel or Stone in the Bladder. Try them! Surely what they have done for others, they will do for you.

Here is the substance of a testimonial received from a gentleman, whose name will be given on request:—

For a long time this man suffered excruciating pain, and at times positive torture from stone in the bladder. He tried many remedies without finding relief, and an X ray photograph failed to locate the cause of his trouble. Finally, almost in despair, he tried Gin Pills, with the result that before long he passed the stone and obtained a reprieve from his previous agonies.

This man is a mechanic of about 35 years of age, with a wife and little girl to look after. Think what it has meant to him to become strong and well again!

In order to convince you of the merits of Gin Pills a sample box will be sent to you free, if you write us for it. Address:

The National Drug & Chemical Co. of Canada, Limited, Toronto, Ontario. U.S. residents should address Na-Dru-Co., Inc., 202 Main St., Buffalo, N.Y.

Rates for Long Distance Service

THE new schedule of rates for Long Distance Telephone Service as approved by the Board of Railway Commissioners is effective May 25th.

¶ Following is a comparison of old and new rates for a 3-minute talk to points most frequently called by Peterboro subscribers:

	Old Rate	New Rate
Peterboro to Toronto . .	$ .40	$ .50
Port Hope	.25	.20
Belleville .	.30	.35
Hamilton .	.60	.70
Kingston .	.60	.65
Orillia	.30	.45

¶ The new rates, based upon air-line mileage, correct inequalities in the old schedule and embody both increased and decreased charges.

There Is No Reason to Think

that, because you have tried and found to be ineffective many kinds of remedies for Gastritis, Hyperacidity, or imperfect Digestion of Food accompanied by pain or gas after eating, that you cannot be relieved and be cured.

Moncur's Digestive Tonic

is slightly laxative and acts upon the liver as well. It is especially suited for those suffering from Bilious Indigestion. It corrects at once the formation of gas. It assists in the assimilation of food and protects the Inflamed Lining of the stomach in Gastritis.
It strengthens and relieves the whole digestive tract. This preparation used in connection with proper diet and nerve sedatives gives the most satisfying results in Nervous Dyspepsia and Hyperacidity.
Even the old chronic cases show a decided improvement under treatment with this remedy.

CANADA CANNOT RETURN TO PRE-WAR CONDITIONS

R. C. Henders, M. P., President of Western Grain Growers Association, Addresses Toronto Audience.

Toronto, May 23.—The viewpoint of the Western portion of Canada, especially that of the Western Grain Growers' Association with respect to the solution of post-war problems was given by Mr. R. C. Henders, M.P., president of the Western Grain Growers' Association, speaking at the weekly luncheon at the Empire Club at the King Edward Hotel yesterday. Mr. Henders eliminated all controversial matter from his discourses and attempted to present the situation with a view to obtaining a common [illegible] for consideration by both eastern and western provinces. Emphasizing the responsibility which rests on such clubs as the Empire and all kindred organizations, he said that only by co-operation and careful consideration of the problems involved by [illegible] of people could they be solved.

Grain Growers' Platform.

In laying before his audience the revised platform of the Western Grain Growers' Association the speaker said: "The platform embodies proposals in which the economic and political aspects are interwoven. It frankly establishes itself upon the rights of the common people and its measures are proposed to alleviate the burden of the common people and remove the inequities under which many of them suffer. If in doing so it should deprive any favored groups of privileges which hitherto they have enjoyed this result is only incidental to the application of the fundamental principles which recognizes common human rights. The fact that those who have enjoyed those privileges may have come to look upon them as vested right in no way weakens the challenge of the platform as outlined."

As stated by Mr. Henders a few of the leading planks in the revised platform of the Western Grain Growers' Association are:

The immediate and substantial all round reduction of the customs' tariff.

That all foodstuffs be placed on the free list:

That agricultural implements, farm implements, farm machinery, vehicles, fertilizers, coal, lumber, cement, illuminating fuel and lubricating oils be placed on the free list and that all raw materials and machinery used in their manufacture also be placed on the free list;

That all tariff concessions granted to other countries by Canada be given to Great Britain as well;

That all corporations engaged in the manufacture of products protected by customs tariff be obliged to publish annually comprehensive and accurate statements of their earnings;

That every claim for tariff protection by any industry should be heard publicly before a special committee of Parliament.

Answering the question as to what means the Association would devise for the collection of revenue in the event of its platform being adopted the President said that the organization proposed the following:

A tax on the value of city and country land, 20 million acres of which he stated were lying in the hands of overseas speculators;

A general application of the income tax with the percentage sharply graduated as the income increases in amount;

A tax on the profits of corporations;

Adaption of a heavily-graduated inheritance tax on estates.

The Grain Growers' Association went so far, Mr. Henders stated, as to advocate the proportional representation of population and direct legislation as characteristics which must be present in the constitution of a true democracy. Another proposal of Western farmers was to nationalize all the neutral resources of the country, the railways, water-power, coal and other deposits.

In the speaker's opinion, Canada cannot return to the conditions of pre-ward days.

SALTS FINE FOR ACHING KIDNEYS

WE EAT TOO MUCH MEAT WHICH CLOGS KIDNEYS, THEN THE BACK HURTS

Most folks forget that the kidneys, like the bowels, get sluggish and clogged and need a flushing occasionally, else we have backache and dull misery in the kidney region, severe headaches, rheumatic twinges, torpid liver, acid stomach, sleeplessness and all sorts of bladder disorders.

You simply must keep your kidneys active and clean, and the moment you feel an ache or pain in the kidney region, get about four ounces of Jad Salts from any good drug store here, take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and is harmless to flush clogged kidneys and stimulate them to normal activity. It also neutralizes the acids in the urine so it no longer irritates, thus ending bladder disorders.

Jad Salts is harmless; inexpensive; makes a delightful effervescent lithia-water drink which everybody should take now and then to keep their kidneys clean, thus avoiding serious complications.

A well-known local druggist says he sells lots of Jad Salts to folks who believe in overcoming kidney trouble while it is only trouble.

AT GEORGE ST. CHURCH.

On Sunday evening the pastor of George Street Methodist Church will deliver the second sermon in the series on Applied Christianity. The subject will be "The Christian in the Realm of Labor." Rev. W. E. Harsard, B.A., secretary of the Canadian Bible Society, will preach in the morning.

Maxwell
More miles per gallon
More miles on tires

300,000 Persons Who Value a Dollar Drive a Maxwell

ONE reason and the main one why persons change from one car to another after a year's use is this: the cost is too much to keep it running.

A Maxwell possesses the prized virtue of staying out of the repair shop and running and running and running. This is why:

Raw materials are purchased in large quantities and for cash. Economy No. 1.

There are no engineering knick knacks in a Maxwell. Economy No. 2.

The road testing engineer who spends 12 months a year testing Maxwell cars for weaknesses, and who has driven a motor car further than any living man finds the "mistakes" before they get into production and are therefore not passed on to you. Economy No. 3.

Maxwell cars are built on the original chassis plan laid down 5 years ago. 300,000 have been built to date. Doing one thing always results in doing it well. Economy No. 4.

All "temperament" is taken out of the car by the engineering department so that it is well nigh impossible to find a Maxwell with an "uneven disposition." Economy No. 5.

There are 25 others. These fortify you against after-trouble in a Maxwell. That is why you can be doubly sure on a Maxwell if you value highly a thrifty dollar. Most persons do, and 300,000 of them drive Maxwells.

BUY W-S-S WAR-SAVINGS STAMPS

FARM LOANS for SOLDIERS

Cheap Implements, Livestock and Harness

BUY W-S-S WAR-SAVINGS STAMPS

THE Soldier Settlement Board has arranged with manufacturers of implements and harness to give soldier settlers a wide choice of first class implements at prices substantially below those quoted to civilians; and in the Prairie Provinces the United Grain Growers, Limited, will give soldier settlers special prices on implements, wagons, and other commodities.

By collective buying in large numbers for cash, it can also offer soldiers the lowest possible prices on horses and other live stock.

It can supply a good harness set for approximately $31.50 at point of manufacture.

All these concessions are in addition to the Board's offer to secure for the soldiers good land, conveniently located, and to give financial assistance in the way of loans to establish them on the land.

Land and Loans

With certain exceptions, a soldier who has served with good conduct in the Canadian, Imperial or Allied forces in an actual theatre of war or outside the country in which he enlisted (or widow of any such man) may secure loans to purchase land, live stock and equipment and erect buildings—

(1) Up to $4,500 to cover the cost of the land and discharge encumbrances.

(2) Up to $1,000 to erect buildings. Both these loans to be paid on the instalment plan. Payments extending over 25 years.

(3) Up to $2,000 to buy implements, live stock, and equipment. The soldier will begin to pay off this loan in the third year, and will have four years to pay.

Only five per cent. will be charged on these loans.

A cash payment of one tenth the price of the land will be required, except in special cases.

Qualified settlers on Dominion Lands may secure loans up to a maximum of $3,000 on a plan similar to the above for farm equipment, live stock, and erection of buildings, provided security offered justifies the loan.

If you figure you have more than a fifty-fifty chance to make good as a farmer, write to your Provincial Superintendent at 32 Adelaide Street East, Toronto.

LEGISLATION IS ONLY REMEDY

HOURS OF LABOR MUST BE SET BY GENERAL LAW.

Toronto, May 23.—"A declaration by the Government promising to grant eight-hour day and the forty-four hour week is the only way to handle the present labor situation," stated Secretary W. J. Hevey of the Trades and Labor Council, discussing the demands of the mtal trades, which will come before the conference of representatives of the men and the employers today.

"It will not help the labor trouble much if one individual organization wins its point," he added, "because the same issue will just crop up in some other place. Mr Hevey stated that acting on the instructions of the convention held in the Labor Temple last Monday, he sent a telegram to Acting Premier Sir Thomas White yesterday afternoon urging the enactment of legislation immediately for the forty-four hour week. So far no reply has been received.

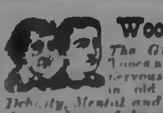
Mr. Hevey and other prominent labor men at the Labor Temple are very hopeful of a settlement of the metal trades dispute tomorrow. "There is every indication that some amicable adjustment can be made," he said.

AUTO ACCIDENT: CAR SKIDDED

CRASHED INTO ELECTRIC LIGHT POST—MACHINE BADLY DAMAGED.

Slippery pavements caused by the rain almost resulted in a serious accident to Mr. Brown, of Lindsay. While travelling east in an auto on [illegible] street he met a car at the corner of William street. Relying on his emergency brakes to stop the car, he jammed them on, but the wet pavement caused the car to turn round and crash into a magnetite lamp post. The damage done to the car was sufficient to almost make it better policy for the owner to buy a new one than attempt to have it fixed up.

It was some time later before the damage to Lindsay's lighting system was repaired, and residents in the south ward had to resort to the old-fashioned coil-oil lamps or even candles.



Wood's Phosphodine.
The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins, Cures Nervous Debility, Mental and Brain Worry, Despondency, Loss of Energy, Palpitation of the Heart, Failing Memory. RESTORE THE NATURAL SIGHT

NEW EQUIPMENT FOR THE PETERBORO FIRE BRIGADE

Modern Appliances Should Help to Keep Down Local Insurance Rates—Badges For the Firemen.

The firemen of this city have decided to follow the lead of the soldiers and will henceforth be known by a very attractive series of badges. If for instance, you meet a man wearing a gold badge on which is displayed a horse's head you will know at once that he is a driver. An engine on the badge properly signifies that he is an engineer. A band from which electric sparks radiate in every direction is the symbol chosen by the electricians.

But don't forget to count the trumpets. If you see two you will address the wearer as lieutenant, three entitles him to the rank of captain; the Assistant Chief has four and the Chief goes him one better still. These various badges will be particularly useful on the street-cars enabling the wearers to ride free although not in uniform.

Business men and householders generally will be perfectly justified in resisting any attempts to raise the rates of fire insurance in this city. A large supply of fire fighting equipment has just arrived this morning, including a cellar play pipe, a recent invention which enables the firemen to fight a cellar fire without the risk of their lives in entering. It can throw a strong stream for one hundred feet and only requires an opening large enough to insert the nozzle. While the water is on the pipe can be turned in any direction covering all parts of the basement or cellar. This will be of particular value to those merchants who at times have felt uneasy on account on the large amount of stock they carry downstairs, frequently in rather dangerous proximity to the furnace.

A couple of new nozzles have also been added. These are supplied with a stout leather strap which the fireman slips over his arm leaving both hands free while mounting the ladder. They also have a metal clasp which allows the fireman to fasten the nozzle to a rung of the ladder and leave the hose playing on the fire while he assists any persons who may have been trapped upstairs.

These were first demonstrated at the last meeting of the Fire Chief's Convention in Toronto. Three new ladders also arrived, 20, 26 and 45 feet in length respectively.

AT THE GRAND

That eminent English actor, Cyril Maude, appeared at the Grand last night in his latest vehicle entitled "The Saving Grace" and delighted the large audience with his wit and cleverness. Mr. Maude needs no introduction to Peterboro lovers of his art, as this is not the first time he has played at the local house but it is safe to say that he was never seen to better advantage than he was last night.

"The Saving Grace" is a comedy in three acts by C. Haddon Chambers and is one of the wittiest and most amusing pieces of the season. Mr. Maude assumes the part of Blim Corbett, a retired army captain, who had run away with his colonel's wife and through a series of misfortunes had become practically bankrupt. When the war broke out he offered his services to the war office but they were not wanted. He then tried to enlist as a private soldier but owing to his age was rejected. He is just about to try to join the foreign legion when a telegram arrives confirming his appointment to his old regiment.

A charming love story is interwoven between the lines of the play. Susan Blaine, a niece of Mrs. Corbett and Ripley Guildford, being the interested people which finally culminates in a betrothal.

Mr. Maude is supported by a remarkably strong company and all are letter perfect in their lines. Laura Hope Crews, who by the way, is the only member of the cast not born in England, plays the part of Mrs. Corbett, Blim's wife, and she handled her part extremely well.

Stanley Harrison as Hogg, the man servant, and Annie Hughes, as Mrs. Corbett's maid, were very natural and their portrayal of the fidelity of old English servants to their masters during times of adversity was quite refreshing in these days of scarcity of domestic help.

Edward Douglas, as Ripley Guildford, the pampered son of a rich mother was quite amusing and the part of the mother was well taken by Charlotte Granville.

The niece, Susan Blaine, was played by Miss Betty Murray, who is a winsome little lady who knows her part well

ATHLETIC GAMES FOR TO-MORROW

At the G. W. V. A. athletic games to be held at Exhibition Park tomorrow the events will be open to anyone who wishes to compete. The secretary of sports will be on the grounds to take any entries for the following events: Boys, 17 years and over, high jump, broad jump, 100 yards dash, 440 yards race, half mile race, one mile race, half mile bicycle race, one mile bicycle race, five mile motor cycle race, tug-of-war.

Boys under 17: high jump, broad jump, 100 yards dash, half mile race, Scout race (75 yards), first aid and carry.

The Answer.

"Strange Edith should invite that horrid grass widow to her wedding, she has such a disagreeable past."

"Yes, my dear; but she's rich enough to furnish a very agreeable present."

John Munchomer was found locked in a freight car at Niagara Falls, Ont. He had been there three days.

Ferid Pasha has been entrusted with the task of forming a new Turkish Ministry.

The many friends of Mr. Maude will regret to learn that he is about to leave Canada to return to England where it is his intention to retire from the stage. However, it is hoped that he may yet change his mind and again favor his Canadian audiences next season in another of his inimitable comedies.

MEN SHOULD STUDY APPRECIATION OF MUSIC

Music is a manly art and it requires all the study of masculine elements of a Beethoven, a Wagner or a Liszt to master it. There is a great element of the feminine in it, but this is one reason for saying that every man ought to have a share of it. The masculine, while it is noble, sturdy and heroic in its natural state, is likely to be coarse and uncouth without the refining influences of the arts and more especially music. There is not anything more distasteful than a masculine woman or a feminine man, on the other hand a man can be too masculine and a woman too feminine. Nothing will take off the rough coarse edges better than a knowledge of how to produce and appreciate good music.

Men should study music to make them more manly, to give them the correct mental sex timbre.

AT MURRAY ST. CHURCH.

Special Service Is Planned for Next Sunday Morning.

Sunday is Christian Endeavor Day at Murray Street Baptist Church. This is preparatory to the taking of the annual offering for this interest on the following Sunday. However, this year, instead of having the chancellor of the university or some professor to come representing the work it has been decided to use certain graduates who are themselves members of Murray Street. Accordingly on Sunday morning next the following will be heard briefly at the morning service: Jethro Graham, B.A., A. J. Madill, B.A., L. J. Pettit, B.A., G. S. Browne, B.A., Joseph Wearing, M.A. The service will not be lengthy but will be of altogether different plan to that of other Sundays. In the evening Rev. R. J. Webb will preach.

An Investor Need Not Be a Capitalist

Many people think it is necessary to have a lot of money in order to invest in high interest-bearing securities.

They envy the Capitalist because he has money to buy bonds and shares that earn him more money without further effort.

But to-day the humblest wage earner can be an investor and get big returns.

War Savings Stamps have made it possible.

You can get a War Savings Stamp for $4.00. It is a Government Bond, bearing interest at over 4½%, and in 1924 will be redeemed for $5.00.

Thrift Stamps help you to save up the $4.00 necessary to get one of these Bonds. A Thrift Stamp costs 25 cents, and sixteen of them can be exchanged for a War Savings Stamp.

Thus you can start being an investor as soon as you have [illegible] and build up as big an investment as you choose.

In May W.S.S. Cost $4.04
In June W.S.S. Cost $4.05

BUY W.S.S. WAR-SAVINGS STAMPS

Uncle Tom's Cabin Is True To Life

THRILLING SCENES IN FAMOUS PLAY AT GRAND TONIGHT

During the recent engagement of Wm. H. Kibble's "Uncle Tom's Cabin" at Havelin's theatre, St. Louis, an old gray haired darkey was noticed one evening enjoying the performance to his heart's content, his facial expression being amusing indeed. When the curtain ascended revealing the cotton picking scene the old fellow could stand the strain no longer. Rising to his feet he shouted, "Lawdy, but dat am natural."

The revival of this play, which will be seen at the Grand tonight is said to be the most expensive and elaborate offering ever made of the great play in America. The company numbers over thirty, while the scenic equipment is of a large variety.

The escape of Eliza strikes the sympathy as no ordinary melodrama ever can, and the fortunes of Uncle Tom keep ethe audience alert and excited. The production which Wm. H. Kibble will bring to this city will be the same that has been so favorably received in New York, Boston, Philadelphia, Chicago, Pittsburg and other large cities.

THE WEEKLY MARKET

The weekly market was held this morning instead of tomorrow on account of the holiday, but a few who came hurrying in about eleven o'clock confessed that they had forgotten the change until it was almost too late. There was a good supply of potatoes, butter and eggs, but fowls of any sort were very scarce. Prices are quoted as follows:

Butter, lb.	.48 to	.53
Eggs, doz.	.49	.50
Potatoes, bag	1.50	2.00
Chickens, lb.	.35	.50
Rhubarb, bunch	.5	....
Tomato plants, 2 boxes	.35	....
Pigs, 6 weeks' old	10.00	....

A SCENE FROM MISS MARGARET ANGLIN IN "BILLETED." AT THE GRAND, TUESDAY EVENING.

THEATRICAL

ELSA RYAN AND NORMAN HACKET IN "TEA FOR THREE," AT THE GRAND, MONDAY EVENING.

CHARMED LONDON FOR ENTIRE YEAR

MARGARET ANGLIN'S LATEST SUCCESS LOVE COMEDY, "BILLETTED."

The New York dramatic critics and the Manhattan theatregoing public as well, agree that one of the heights of acting in New York this season was contributed by Margaret Anglin in her delightful English love-comedy "Billeted" which will be the attraction at the Grand, on Tuesday evening only.

"Billeted" is the co-work of F. Tennyson Jesse and H. M. Harwood. The comedy entertained London for one year before ti was revealed in New York and Chicago by Miss Anglin, where it repeated the London success and would have remained indefinitely, but for previous bookings elsewhere. Although "Billeted" has its inspiration in the present war it is not a war play. It deals with the moral aspects of the war and not the dramatic, and deals with them from a deliciously farcical standpoint. It is a comedy of manners and affords a delightful two and a half hours entertainment.

In reviewing Miss Anglin's performance in "Billeted" the New York [illegible]: "When Margaret Anglin was persuaded a few years back to quit the realm of emotion and go in for comedy. It was a decision the fates must smile upon, if they are not smiling now. When she was billeted for the New York premier of her new comedy "Billeted," the gods must have laughed and felt with her audience that the comedy stage had gained immeasureably by that decision, made at a time, by the way when she was being heralded as America's greatest emotional actress."

Miss Anglin will be supported here by her original New York cast which includes Alice Coburn, Sally Williams, Harry Barfoot, Phyllis Birkett, Langdon Bruce, Myra Burrington, Ralph Kemmet, and Fred Eric. The play is staged in a most unusual manner from designs by Livingston Platt, art director for all Miss Anglin's productions.

MOST POPULAR COMEDY IN N. Y.

"TEA FOR THREE," ELSA RYAN AS STAR HERE MONDAY.

Patrons of the Royal Alexandra and His Majesty's theatres in Montreal and Toronto have been delighted and critics have written in most enthusiastic terms of the splendid performances given by Miss Elsa Ryan in "Tea for Three," during her just completed engagements in these two cities. Miss Ryan comes direct from Toronto, and will be seen at the Grand on Monday, evening.

"Tea for Three" has been the most popular comedy in New York for the past twelve months and is still running to capacity houses at the Maxine Elliott Theatre. Written by Rol Cooper Megrue, it is generally conceded to exceed in smartness anything he has previously done. The plot revolves around three people. A wife who devotedly loves her husband but is still girlish and frivolous enough to enjoy the adulation and devotion to be found outside her home. A little fancy skating on thin ice with the still adoring lover of her debutante days is the cause of creating suspicion and jealousy in the mind of her somewhat primitive and short sighted husband. The wife and friend together undertake the emancipation of the husband from the narrowness of his ways and their method of procedure and the many amazing and humorous complications that ensue comprise the story. Dialogue with wit and humor and entirely novel situations are presented in the three acts and four scenes that are required in the working out of the plot. Brilliant, vivacious acting by Miss Ryan whose personal charm and gifts as a commedienne have never been so satisfactorily displayed, splendid support by Norman Hackett in the role of the friend and Haydn Stevenson as the husband, and two other players, tend to make the whole attraction one that may well be hailed as a rare treat.

KING'S PLATE THIS YEAR LOOKS LIKE OPEN RACE

Seagram, Davies and Hendrie Horses and Ladder of Light Are Picked as Likely Winners.

Toronto, May 23—The training for the 1919 King's Plate has been continued under the most adverse conditions imaginable. With the sixtieth renewal just one day distant, no overwhelming favorite is in sight; in fact, one cannot but term it the most open race in years. Two weeks ago it was with general opinion that Ladder o' Light was the goods. Since then several formidable-looking colts have loomed up including the Seagram trio, Galway, Hong Kong and Doleful. Others look upon the Davies pair, Pleasure Bent and Mahomet, as strong contenders—possibly better—while Mr. Hendrie's two also have their following.

Because of the inconsiderate attitude adopted by the weather man, it has been an extremely difficult proposition to obtain an accurate line on the horses, due to the very few attempts to move the entire plate journey, and that quarter on the end of the mile gets not a few. Added to this the field is largely composed of horses that have never faced a barrier, or else have not started this season. In fact, the Hendrie horses and Uncle John alone, have raced this year, and Uncle John and Salvo each brought up the rear in their last races before leaving the United States which provides little food for thought.

While Ladder o' Light has done everything asked of her this spring in a comfortable manner, also possesses size and the appearance of a game racehorse, public opinion in her favor has rather waned of late, due to the fact that weather conditions prevented her trainer from rushing her the past few days, or indulging in record-breaking moves, as in other seasons. This strongly avers that you must continually be creating a sensation to remain in the limelight. However, this mare is as well advanced in her work as any of the platers, but the fact remains that she will meet with strong opposition from the Seagram trio, whose work has been kept under cover this spring.

Under the careful supervision of Trainer W. H. Bringloe, the Waterloo stable is making a strong bid for the fixture. Doleful is particularly regarded as a probable winner. He and Galway will race with blinkers, and, with Hong Kong, received schooling at the barrier yesterday.

This week, regarded as the most important for putting the finishing touches on the prep. of the entrants, has been the most disagreeable of the entire spring, and few plate works have been recorded since Saturday. Monday, Red Walker sent the Stanley Fay filly, Cora W., the distance in 2.15 3-5—a meritable work. Tuesday, the Hendrie gelding, Ammunition, was sent a mile in 1.48 4-5, and Trainer Graves worked the Sunnyside candidates. Uncle John, a mile in 1.51 2-5, in deep mud. This colt is one of the handsomest in training but is said to be a little shy on distance.

Yesterday Trainer Joe Doane, although acutely suffering from weather depression, worked Ladder o' Light through a perfect quagmire, breaking at the three-eights pole. The mare moved the quarter in .26 2-5, half in .53 2-5, three quarters in 1.20 2-5, where she was joined by Carry On and sent the plate distance in 2.21 3-5, carrying 135 pounds, hunterweight.

Today the platers will get their final preps, and, although the track will be heavy, more definite information may be secured.

GALLAGHER AND CHRISTIE GO TEN ROUNDS TO A DRAW

Boxing Tournament Held by G.W.V.A. in Their New Hall Last Night Drew Large Crowd—Some Fine Exhibitions of Manly Art.

Last night the G. W. V. A. staged at their new hall the first boxing tournament held in Peterborough for many years. About four hundred people took advantage of the splendid program, and all agree they got more than their money's worth. Such clean sport entertains and develops a good spirit of sportsmanship that is an asset to the young men of our city. Such a spirit permeated the Canadian troops and supported them under the most trying and adverse circumstances so that they were strong on the come-back in the summer of 1918.

Mr. Turley, the provincial secretary of the G. W. V. A., acted as referee to the satisfaction of everyone. His strong, clear voice and decisive maner pleased the crowd especially. He paid a compliment to Peterborough and to Mr. Geo. Graham and his son, Chris Graham, when he announced that, since they were acting as judges, two more capable men could not be found in Canada. And Mr. Turley knows what he is talking about.

The amateur bouts were all three rounds of two minutes each.

The opening bout was between two midgets, or mosquitos, as the referee termed them. Lavery and Jordan, two of Petrborough's coming sportsmen. Lavery never lost his good natured smile, and the only advantage was that he had a little longer reach than his plucky opponent. Jordan was continually on the offensive, while Lavery ably defended himself. The decision was a draw.

The second item on the program was a bout between Anthony and Lillie, both of this city. Lillie showed that his seniority had taught him some things about boxing that his younger rival did not know. Nevertheless the bout was very close. Anthony's blows seemed to miss their mark, otherwise the decision might have been closer. Lillie won on points.

The third bout was somewhat of a joke from the start. Both boxers were tall and very slim. Marckwick had a movement in the ring that afforded much amusement. Barry literally took Marckwick's measure several times before he swung, and then some times too late. In the first round Marckwick gallantly hung to the ropes while his smiling opponent gently pounded him from the rear. Three times he found the ropes and in the second round found the play was too strenuous for his heart. Nevertheless both men showed good sporting spirit and it added to the amusement and success of the evening.

The next bout was staged between Jones and Stevens of Peterborough. Jones manoeuvred for advantage with his head high in the air, while Stevens took the offensive and endeavored to break his opponent's guard. When Jones attempted a drive he generally found a place to lodge it, and so won the decision on points.

The next bout was between Carroll and Roots. Roots, it may be said, has won more than a boxing match; he is the possesses or the Military Medal for distinguished service in France. Carroll's intentions were very good but didn't have the practice behind them. His guard was good, but that doesn't win points, and he attempted to guess his opponent's movements by watching his feet, consequently before long his eyes were closed, and blow after blow fell on him. However, it did not chase the pleasant smile from his face, and he came back for more until the bell rang on the third round and Roots won by judges' decision.

Referee Turley amused the audience by his introduction of "Scotty" Patterson and "Irish" Dugan. This was the best amateur bout of the evening. Both showed good form and mixed it up continuously. Dugan started on the defensive and watched Scottie's tactics, occasionally putting in a thrust. Then Scottie got him on the move, and it looked for one minute as though Dugan was going to leave the ring. Just as the bell rang for the first round Dugan made a right counter to Patterson's nose and drew blood. The second round was very close. Patterson used his right uppercuts to advantage and each one registerd on Dugan's bare chest. However, Dugan was not standing by watching him. The round was very close. The third and last round won the bout for Dugan. He started off strong with alternate lefts and rights to Scottie's head. Then Patterson retaliated and drove Dugan back to the ropes. Dugan, however, succeeded very well in his guard, and with a lunge caught Patterson in the chest and he staggered back. Dugan was in better condition than his opponet and proceeded to punish him pretty well. He followed up a left drive with a right to the mouth that sent Patterson sprawling on his back just as the bell rang. Patterson hadn't weight enough to follow up his leads. Dugan got the decision.

Mr. Turley told the story of the failure of Dempsey and Nolan of Buffalo to keep their agreement with the G. W. V. A., demanding twice as much money a few minutes before the train left Toronto for Peterborough. As a result the purse for the Christie-Gallagher bout was increased fifty dollars and the bout made ten three-minute rounds for a decision.

Christie has just returned from the front, where he fought with the 74th Battalion. He has had one victory and no defeat since he returned, and is anxious to vanquish anyone who claims his old title of champion middleweight boxer of Caanda. "Red" Gallagher is just as anxious to hold the title that he has been enjoying while Christie has been overseas.

Christie boxes with his head up and a decided offensive movement, while Gallagher keeps his head down and guards himself well, never losing a chance to break or catch his opponent off his guard.

The first round started with a clinch and general open fighting, both guards were strong and only one blow passed, getting Gallagher on the nose and drawing blood.

The second round started fast. Christie leads right, and in a close-up gets a good uppercut in on Gallagher. He retaliates with a right lead and a speedy left to Christie's ear.

In the beginning of the third round "Red" was chased to the ropes and stumbled back. Christie registers a good left, and in a close-up Gallagher shows his ability to protect himself from his opponent's uppercuts. Bell.

The fourth round started with Christie landing a swift one on Gallagher's jaw from underneath. Red comes back with a swift left counter on Christie's head.

Gallagher came strong in the fifth. He invariably got the best of close-ups by following an upper right with a quick left to the head which generally tallied.

The sixth was slower. Gallagher did a lot of prancing in this round and dodged many heavy blows that would have spelled disaster. He used his left freely and tallied twice in the last few seconds.

The seventh round commenced with Gallagher dangling over the ropes, but he was back again with a right to Christie's head. Christie answered with a smart uppercut that found Red's jaw.

The eighth round was give and take. Both men scored, although by this time Christie's shoulder showed marks of heavy pounding.

The ninth round found Gallagher coming strong. He showed more condition than his opponent, and his able defence shielded many cruel uppercuts. Christie makes a heavy sweep at Gallagher, but the latter ducks and the mit sweeps the air. Gallagher follows up with a lunge that meets Christie's shoulder fair. A close-up gives Christie a splendid chance to use his uppercuts.

The tenth round was out-fighting entirely and Gallagher was at home with those tactics. He landed first right and then left to Christie's head as the bell rang.

The decision of the judges hardly pleased the crowd, although Mr. Turley says they are experts and know more about the game than the rest of us. However, it was a draw.

The crowd left thoroughly pleased with the entertainment.

Lindsay Pastor Endorses Boxing

Lindsay, May 23.—Announcing a ball game and boxing bouts under the auspices of the Lindsay Baseball Club on Victoria Day, The Lindsay Warder says editorially:

"When a local clergyman was asked to give his unbiased opinion regarding the coming bouts, he said that boxing was one of the best sports of the day and one of the most scientific of all manly sports, providing the boxers were not allowed to rough it too much, and that there is not only evidence of 'faking.'"

JAKE SOLOMON . . Mgr

The Old-time Painter Says:
"Whether I paint the home of a millionaire or the humblest cottage I always remember that they both meet the same kind of weather. I use
MAPLE LEAF PAINT
It Makes Good Because It's Made Good.
—the millionaire can't buy better paint anywhere.
—and the man who owns the humble cottage can't save money any surer way than with MAPLE LEAF.
MAPLE LEAF PAINT is the sum total motor driven adding machine of paint progress when it comes to comparison with the old pot and paddle days I had to go through.
For the "old man" with his shirt sleeves up and nothing to do on a Saturday afternoon—but a little job of painting—there's nothing to it but MAPLE LEAF and follow the directions on the can. Perhaps he won't need my services, but here's my advice to him:—go to it strong with MAPLE LEAF and the eternal smile will become a permanent fixture on his face—for every time he'll look at the job he'll say MAPLE LEAF for mine every time.
The man with the MAPLE LEAF around his store is the man to buy paint from, look him up in your town.

Walden announces a joint piano and vocal recital to be given by two of his pupils, Miss Isobel Donelly, pianist, and Miss Greta Giles, soprano, in English and Italian songs, assisted by Mr. Frank Whitehouse, violinist, in the music hall of the J. M. Greene Music Co., Charlotte street, on Tuesday evening, May 27th, at 8.15 p.m. Cards of invitation with program may be had from Mr. Walden or any of his pupils or at the music stores.

BIRTH

TERRIFF — May 20th, at Nicholls Hospital, to Mr. and Mrs. R. Terriff, 323 Dalhousie street, a son.

New Faces Galore.

Young Wife (in the country)—This is a nice place you've brought me to. We've been here four months and I haven't seen a new face.

Hub—No new face! Why, my dear, [illegible] times.

SOCIAL AND PERSONAL

Mr. E. B. Hersee of the Hersee Chemical Works, Burlington, was a visitor in the city yesterday, the guest of H. P. Lindsay, real estate and insurance. Mr. Herse was shown around the city, and was very much impressed with the well kept streets, residences and public buildings, which is the making of the nicest city in the Dominion. Mr. Lindsay was appointed distributor for the new auto fuel "Lenogas," which is one of the greatest discoveries known for the motorist.

Magistrate Dumble, R. J. Winch, and B. F. Ackerman, left yesterday for their annual outing at Mr. Dumble's cottage, Stoney Lake.

Mrs. A. W. Spence and daughter, Mrs. G. E. West, returned from visiting friends in Hastings.

Mrs. Wm. M. West, Hastings, and Mrs. R. C. Bryden, Madoc, were in the city yesterday for the play, "The Saving Grace," and were guests of Mr. and Mrs. A. W. Spence, Downie street.

Mrs. Stanley M. Northey (nee Mae Bell) will receive for the first time since her marriage on Thursday afternoon, May 29, from 2:30 until 6 o'clock.

Miss Jean Neill of Peterborough will leave shortly for England, where she will be married to Mr. Hugh McLachlin.

Mr. and Mrs. J. D. Craig and Messrs. Felix Brownscombe and Benjamin Shortly were among a large number who went up to their summer homes at Stoney Lake this morning.

Capt. Harry Rogers, of this city, is visiting Lieut. Lewis Clark, formerly of the U. S. A. Flying Corps, at his poultry farm at Port Hope.

Is Hard Work To Fit For Role

BESSIE BARRISCALE IN "HEARTS ASLEEP" AT THE EMPIRE THEATRE.

Bessie Barriscale, the popular star who is appearing in "Hearts Asleep," at the Empire Theatre today and Saturday is one actress who isn't afraid to mask her beauty under the make-up of a character role.

As "Nancy" in "Hearts Asleep," Miss Barriscale appears in the first part of the picture as a scrub-girl of slatternly appearance, with hair unkept and wearing dowdy clothes and a bonnet that looks like a trench helmet after the siege of Verdun.

"I have always wanted to play a part for the screen that depended entirely upon the art of characterization and not on mere 'looks'," said Miss Barriscale when a newspaper admirer of her work asked her how she felt in the role of a slum girl.

"But I never worked so hard in my life as I have in this picture. I had to get down on my hands and knees and scrub floors, and do it often, as Director Hickman seemed to take a delight in making me repeat scenes where I was laboring for 'art's sweet sake.'

"I just know I have developed housemaid's knee, while my manicurist will have to work overtime for weeks to come. But I love the part and feel that I have done something 'different.'"

VOTED $100 TO VETERANS' DRIVE

AND 57th CHAPTER I. O. D. E. PLAN SERIES OF ENTERTAINMENTS.

The monthly meeting of the 57th Chapter, I.O.D.E., was held in the Green room of the Y.W.C.A., Thursday afternoon, May 22nd. It was decided that 150 pair of socks be sent to the Navy League. A garden party will be held on Friday, June 13th, at the home of Mr. and Mrs. Vincent Eastwood's, George street. A moonlight excursion will be held early in July. The date will be announced later. The sum of $100 was voted to the G.W.V.A. drive.

DESTROY BED BUGS

Post's Bed Bug Poison is the best and most reliable remedy to kill bedbugs.

Apply to infected places with a brush, and with one application you will get rid of this pest.

LYNCH'S DRUG STORE,
165 Hunter street, Peterborough.

OBITUARY

MARY ELLEN DEWYER

The death occurred on Thursday, May 22nd, at 141 Rubridge street, of Mary Ellen Dewyer, widow, aged 60 years. The funeral will leave her late home tomorrow morning at 7.45 for St. Peter's Cathedral, thence to St. Peter's cemetery for interment.

JOHN MARTIN.

The death occurred in Peterborough on Thursday, May 22, of John Martin, aged 82 years. The funeral will take place from the residence of the sister of the deceased, Mrs. William English, 544 Charlotte street, on Saturday, May 24th, at 11 o'clock and proceed to Little Lake Cemetery for interment.

MRS. JOHN REYNOLDS

Death claimed an aged and highly respected resident of this city in the person of Mrs. J. Reynolds, sr., widow of the late John Reynolds, who passed away at the home of her daughter, 29 Cresent street, this morning, at the age of 79 years. The deceased is survived by four daughters, Mrs. Davis, of Emily; Mrs. Brown, city; Mrs. Lipsett, city, and Mrs. Thompson, of Hamilton, and by three son, John, Frank and Joseph, all of this city. Her husband predeceased her thirteen years ago.

The funeral will be held at the home of her daughter, Mrs. Brown, 29 Cresent street, on Monday afternoon, at 2.30 o'clock, at Little Lake Cemetery.

Business Men's Excursion June 17

The Business Men's Annual Excursion this year will be held on Tuesday, June 17, to Rice Lake. The usual good time assured. Fish dinner. Sports that are sports. Every business man is expected to be present. Tickets may be had at The Review and the Examiner offices, R. Fair's, Lynch's Drug Store, Payne's Drug Store, and at Denne's flour and feed store.

ROY HUTCHISON WAS HIGH GUN

WON SPECIAL PRIZE AT GUN CLUB'S SHOOT YESTERDAY.

The weekly shoot of the Peterboro Gun Club took place last night and some fine scores were made. Mr. Roy Hutchinson was high gun in the Blind Handicap Shoot after a tie shoot off with Harry Cook and he won the box of cigars presented by Eddie Wright.

Mr. Raudlett who represents Webster Co., of Sherbrooke, Que., was a visitor last night and showed the boys how to hit the clay birds, breaking 45 out of 50. He gave a box of Orlanda Cigars to be shot off at the next evenings shoot. Below are the scores:—

Name	Shot at	Broke
R. Hutchinson	55	50
R. B. Randlett	50	45
H. Cook	55	44
J. Loucks	60	48
G. Getterson	60	35
J. S. Coon	75	54
C. Graham	75	50
Dr. McClennan	50	36
B. Gillespie	60	31
C. Tanner	35	20
W. Rye	35	18
C. Mills	25	15
C. Wood	25	20

LEST YOU FORGET

Please remember to reserve Thursday evening, May 29th, for Nellie L. McClung's stirring lecture in St. Paul's Church on "Women's Part in Reconstruction." The proceeds are in aid of the missionary fund of the Fraser Auxiliary. Tickets are now on sale at the stores of Messrs. E. F. Mason & Co., Wm. Madill, J. Connal & Co., J. T. Stenson & Co., and from the members of the Auxiliary.

Men are said to be as greatly captivated with this lecture as women, and it is eulogistically spoken of wherever this gifted author and lecturer has delivered it.

Tenders Wanted

Tenders for Text-Books and Supplies for the Public Schools and Collegiate Institute for the school year,

SEPTEMBER, 1919
—to—
SEPTEMBER, 1920

will be received by the undersigned until 12 o'clock noon, on Friday, June 6th.

Lists of supplies required can be had at the office of the Secretary-Treasurer. Full particulars regarding supplies will be given by A. Mowat, B.A., Inspector of Public Schools. A marked cheque for $100.00 must accompany each tender. The lowest or any tender not necessarily accepted.

G. H. THOMPSON,
Secretary, Board of Education.

THE British are noted as great tea drinkers and are naturally good judges of tea.

So when we learn that over 70% of the tea used in Great Britain is Indian tea we can be sure that Indian tea is of the very best quality.

In Canada the preference for Indian tea has become just as strong, as evidenced by the success of Red Rose Tea which consists chiefly of ASSAMS—the richest and strongest of Indian teas.

Red Rose is always sold in sealed packages.

RED ROSE TEA "is good tea"

GERMANY READY TO REDUCE ARMY WHEN PEACE IS SIGNED

This is One of Counter Proposals to be Submitted to Allies.

(Canadian Press Despatch)

Berne, May 26.—Germany should refuse to sign the military and economic terms of the peace treaty, which are not acceptable, according to a statement made by Gen. Count Montgelas, one of the German delegates at Versailles. He says that the military terms do not allow Germany a sufficient number of troops to maintain domestic order. Recent events in Berlin and Munich are cited as proof of this statement. General Montgelas says that the professional army is in grave danger from a democratic viewpoint. He adds that the acceptance of the economic clauses would condemn German working men to slavery.

Information has been received from an unimpeachable source that the counter proposals to be made by Germany to the Peace Conference will declare in favor of military disarmament, saying that Germany is ready to reduce her forces to three hundred and fifty thousand within two months after the conclusion of peace. It will be declared that in spite of internal disorders and necessity for defending her frontiers, Germany thus agrees to disarm ahead of all other powers.

JOHN SMITH HURT IN AUTO ACCIDENT

Five young men from this city had a narrow escape from death when the automobile in which they were returnin gto the city turned turtle. The accident occurred at Scott's Corners about five miles west on Charlotte street. They had just mounted a steep hill and as the car came over the brown the owner, Mr. Henry Taylor, of 540 Chamberlain street, saw a flock of sheep lying on the road. In an endeavor to avoid them, he swerved to the right and in order to avoid crashing into a telephone pole, he was forced to make a quick turn to the left. The axle of the front right wheel buckled under the strain and the auto turned upside down, completely demolishing the body of the car. If the hood had been up the probability is that several or all of the passengers would have lost their lives.

Mr. John Smith, a barber employed by Mr. Hall of Charlotte street, had his right leg badly smashed and it is feared that some bones may be broken, although it cannot be stated definitely until the swelling goes down. His right arm is also badly cut up and along with the others who were more or less shaken up, he is very thankful to have escaped alive.

The occupants were Messrs. John and Thomas Smith, of 544 Chamberlain street; Lewis Parks, of 122 Park street; John Davidson and Henry Taylor, of 540 Chamberlain street. Bandages were brought from the home of Mr. Liggett, in front of whose place the accident occurred, and all five men were brought into the city by Mr. Wm. M Dermid in his automobile. The four who escaped lightest are all taking a holiday today and the car is undergoing repairs at Gillespie's garage. Dr. Eastwood is the doctor in attendance.

Another accident is reported from the Chemong road where Dr. McClelland was forced to ditch his auto in order to avoid collision with a party of joy riders. The front part of the car slid forward, and it was several hours later before it could be hauled back into position with the help of ropes.

Regina Unions To Take Strike Vote

Regina, May 26.—Regina trades and labor council meets tonight to take action on the Winnipeg strike situation. As this city is well organized it is anticipated that a strike vote will be taken tonight.

PETERBOROUGH CONTINGENT 21ST REACHED HOME 8 A. M. SUNDAY

Special Train From Port Hope to Romaine St., Thence by Foot to G. T. R. Station—Eight Lindsay Boys Came With Them.

Twenty-three Peterborough men of the gallant Twenty-first Battalion landed home yesterday morning at 8:10 via the Grand Trunk Railway from Port Hope.

Their arrival was as unexpected as the bright, sunny morning, only immediate relatives, a few friends and a small city representation being present. Included in the list were Mr. G. A. Gillespie, M.L.A., Alderman Taylor and City Clerk Armstrong. As for Mr. Armstrong, it would be difficult to refer to any home-coming of Peterborough soldiers at which he has not been present. No matter how small the party of returning soldiers—aye! even if there be but one—so long as he has had a hint of their expected arrival, our city clerk's tall figure, winning smile and warm hand shake, together with a few fitting words of welcome, are on the spot, rain or shine, to extend personal and civic greeting to Peterborough's returning heroes.

Capt. Morrison, who never lets a soldier home-coming slip by him if he can help it, was at the station yesterday morning. In fact, he had been on the job with Capt. Gordon Hall since midnight, acquainting relatives with the gladsome news that soldiers father, husband, son or brother was on the road from Kingston to "home, sweet home!"

Why, There He Is!

At afew minutes to eight the G. T. R. station presented an unusually animated scene for a Sunday morning; a comfortable crowd stood in family groups on the platform and an air of expectancy prevailed. Two monster freight trains from Belleville cleared for the west, and all eyes were turned southward to catch the first sight of the waited-for special with loved ones on board. Suddenly a lithesome khaki-clad figure quietly rounded the south corner of the station, a woman's happy cry of, "Why, there he is!" went up, a rush of joyous femininity ensued, and "my bonny lad" from overseas was quickly smothered in more than one pair of loving arms.

And There They Are!

"But where are the others?" was now the wondering inquiry until keen eyes discerned away down the track a smudge of khaki in the perspective, now lost in the near-khaki of a line of freight cars, and at last revealed by the sun's welcoming beams flashing in sparkling radiance from brightly-burnished button, battalion crest and shoulder badge, a group of our Empire's gallant defenders footing it stationward. And then the crowd rushed down the company's right-of-way on foot, in motor cars, and on wheels, with, so to speak, glad arms outstretched.

Track Was Up.

Of course, the mystery of the tie-walking stunt was soon cleared up. Corporation men and G. T. R. sectionmen were taking advantage of Sunday to tear up the tracks, finish the Romaine street sewer beneath the railroad, fill in and lay a new section of rails. The military special could not, therefore, cross Romaine street, and the boys, expecting their friends would be at the station to meet them, took to the ties.

Why the Special?

It appears that Pte. Oliver White, an ex-member of the 21st, was dispatched to Kingston on Friday by Capt. Morrison to represent the local G. W. V. A. and attend to any detail in connection with the home-coming which might crop up. The boys did not care to stay in Kingston over Sunday; they wanted to get home. So Pte. White got busy with the military authorities and railway officials and finally persuaded them to run a special from Port-Hope to Peterborough Sunday morning, the Peterborough contingent to travel to Port Hope on the Grand Trunk night Montreal-Toronto express. It was suggested that motor cars be secured for the trip from the lake shore to this city, but Pte. White insisted on a special and won out. The boys reached Port Hope at 3 o'clock yesterday morning and waited until 7 o'clock rather than arrive in Peterborough at an unreasonable hour.

Pte. White phoned his arrangements to Capt. Morrison at midnight.

Lindsay Soldiers, Too.

Eight Lindsay soldiers of the 21st made the trip with their Peterborough comrades. They were dispatched to Lindsay at 8:45 yesterday morning in the caboose of engine No. 1227.

Great Reception at Kingston.

The reception accorded the 21st at Kingston was of stupendous character. The battalion marched to the Armories through flag-bedecked streets lined with cheering thousands. The boys paraded in full kit—fixed bayonets and battle helmeted—and presented an impressive representation of Canada's fighting prowess. The banquet was something to be long remembered; Kingstonians had set themselves out to make the occasion worth while, and they did it handsomely and without stint.

Capt. Fraser, one of yesterday's home-comers, reports a very pleasant trip across the Atlantic, and expresses warm appreciation of Kingston's magnificent welcome.

RUMORS THAT RAILWAY UNIONS PROPOSE TO STRIKE, DENIED

No such Order Has Been Issued—Little Change in Situation in Winnipeg—General Strike May Be avoided in Toronto

(Canadian Press Despatch)

Winnipeg, May 26.—There was no announcement of change this morning in the Winnipeg strike situation. Strike leaders have not changed their avowed attitude, in refusing to call off the sympathetic walk-out as a preliminary to the adjustment of the union demands. There is no confirmation here of the reported projected strike of trainmen all over Canada, in sympathy with the strike. Strike leaders are encouraged this morning by the news that general strikes will start today and tomorrow in Edmonton, Calgary and Regina. It is understood, however, that in these cities police, firemen and other civic and federal employes will not go out.

No Strike of Trainmen.

Montreal, May 26. An order for a general strike of railway men in Canada in sympathy with the Winnipeg strike must be issued by the executive now in Montreal in conference with the Canadian Railway Board of [illegible]ment and no such order has yet been given, was the statement made by R. J. Tallon, president of No four division of the railway shopmen this morning. In this statement President Tallon refutes the statement that sixty thousand railway men of Canada had decided to severe from the International unions and go on strike today in sympathy with the general strike in Winnipeg.

Hope For Toronto.

Toronto, May 26.—The probabily of a general strike in Toronto was greatly lessened today by the announcement made this afternoon that the employers of the metal trade had conceded a forty-eight-hour week, without deduction from present pay, double pay for overtime and a recognition of the principle of collective bargaining. The strikers are asking for forty four-hour week, but it is thought that they may accept the compromise this afternoon and avoid an [illegible] to other trades union for a general strike which question is to be voted on tonight.

LOCAL SOLDIERS REACH HALIFAX

The following men reached Halifax May 24th, and were dispatched by special trains to the dispersion points in Ontario the same, or the following day:

Per steamer Minnekahda:
Lieut. A. H. Cameron.
Pte. A. Cottrell.
Pte. F. C. Day.
Sig. L. C. Amys.
Sig. N. A. Brand.
H. J. Guyett, 483 Bonaccord street.
C. D. Wainwright, 434 Park street.
B. Clancy, 459 Rogers street.
A. Taylor, 45 Ware street.

Arrived at Halifax, per steamer Aquitania, May 25th:
Sergt. F. W. Edwards.
Lieut. W. F. Hughes.
Quart. Master Sergt. H. Howarth.
Corp. J. Jordan.
Pte. T. Kay.
Pte. S. H. Mills.
Pte. H. B. MacIntyre.
Pte. T. Pimblott.
Sergt. C. Q. Thorpe.
Pte. S. E. Wood.
Corp. A. Rutter.

LIEUT. O' BRIEN ON VISIT HERE

Lieutenant William O'Brien, a former Peterborough boy, who has just returned after four years of service abroad with the colors, was presented with an address on the occasion of his visit to St. Peter's School where he was once principal. Accompanied by His Lordship Bishop O'Brien he called at the school this morning to refresh his memory with the scenes of his youth. The address was read by James Duigman, one of the pupils, and in reply the lieutenant gave the pupils some very interesting anecdotes drawn from his own personal experiences. The children sang several songs, including "When Our Boys Come Marching Home."

Lieut. O'Brien left on the afternoon train for Toronto, where he will resume his studies at Osgoode Hall. He is a son of former Separate School Inspector O'Brien, now of Toronto.

The Address.

The address was as follows:

Dear Lieutenant O'Brien:

It is our pleasant privilege to congratulate you, Lieut. W. J. O'Brien, our former esteemed principal, on your return from a long and perilous sojourn and to extend to you a right hearty welcome home.

Words are hopelessly inadequate to express the great joy, the intense happiness that is ours today as we look upon you and with grateful hearts thank the God of nations for preserving your life and strength and sending you back to us. So many cut off in the flower of their manhood are sleeping their last sleep in France today, and yet you have come through the horrors of war unhurt and have returned to your loved Canada once again. Let us welcome you many time and assure you that the pupils of St. Peter's School have looked forward to this hour. We are proud of you, for

"To Honor's task you gave yourself,
When duty called and freedom was at stake;
And made surrender of your earthly joy
For God, for Truth and for your country's sake."

How eagerly we have watched for news of you and how we enjoyed your letters to the press. When word reached us of your promotion we rejoiced that your merits were being recognized and appreciated. And then we read with intense pleasure the account of your triumphal entry into the liberated land. Your courage, endurance and military efficiency were put to the test and you were not found wanting.

As principal of St. Peter's School you won the esteem and love of those of us who were fortunate enough to be your pupils. Childhood's unerring instinct read aright your sterling character and saw in you not only a teacher but an ideal, one whom they wished to imitate in every way. The sacred ties of home which were so rudely rent asunder four years ago when you enlisted and which brought grief such as only parents can experience, have again been renewed. If our joy is so great at seeing you, how immeasurably greater must that of your beloved parents be? Occasions such as these prove the depth of a parent's love, a depth we can never sound on this side of the grave.

In conclusion, let me, in the name of St. Peter's School, repeat that from our hearts we rejoice to have you with us today, and we wish you every success in your chosen profession. May the God of battles, the Supreme Arbiter of life and death guide and direct you at every future moment. Then,

"Onward, onward, where duty leads,
Thy course be onward still."

The Pupils of St. Peter's School.

HAWKER MADE OVER HALF DISTANCE ACROSS ATLANTIC

Was 706 Miles From Ireland When Airplane Gave Out.

(Canadian Press Despatch)

London, May 26. — There was great rejoicing throughout the British Empire today at the news of Hawker and Grieve being rescued, especially at the homes of these intrepid aviators. They were landed at the Orkney Islands today and will be ferried to Scotland this afternoon.

London, May 26.—It is officially announced by the British Admiralty that "Hawker and Grieve were picked up in latitude 50.20, longitude 29.30, having alighted close to the little Danish steamer Mary, owing to a stoppage of circulation in the water pipes between the radiator and the water pump."

This statement would indicate that the aviators landed in the Atlantic 706 miles from the coast of Ireland and approximately 1,120 miles from the point of their departure in Newfoundland.

Missing Six Days.

Missing for six days and virtually given up for lost, Harry G. Hawker and his navigator, Lieut.-Commander McKenzie Grieve, the British airmen who essayed a flight across the Atlantic ocean without protection against disaster save what their frail airplane afforded, are safe aboard a British warship off the Orkneys. Today they will reach the mainland and will proceed to London, where they will be acclaimed as men returned to life.

Some 1,100 miles out from Newfoundland and 800 from the Irish coast on Monday, May 19, the lone aviators, making the best of an en- which was failing to function properly, were forced to alight on the water. The little Danish steamer Mary, bound from New Orleans and Norfolk for Aarthuus, Denmark, picked the wayfarers up and continued on her northward voyage.

Lacking a wireless outfit, the captain of the steamer was obliged to withhold the good tidings of the rescue until he was opposite the Butt of Lewis, where the information was signalled by means of flags that Hawker and Grieve were aboard his ship.

Mrs. Hawker Notified.

Mrs. Hawker, wife of the aviator, received the news from the Mary early this morning at her home near Surbiton and posted a notice outside her home, reading:

"Mr. Hawker has been found. He is on the boat Mary bound for Denmark."

A crowd of villagers soon gathered and showered Mrs. Hawker with congratulations.

The London Daily Mail, which offered a purse of £50,000 for the first flight by a heavier than air craft across the Atlantic ocean, will give Hawker and Grieve a consolation prize of $25,000.

R. HICKS FAVORS EIGHT HOUR DAY

AND WILL PAY HIS MEN 45 CENTS AN HOUR.

It is not often that an employer sends for the business agent of a labor union and asks him to organize his men but that is what Mr. R. Hicks the coal dealer did. Sending for Business Agent T. Tooms he gave him the run of his yards and asked him to get every man, drivers included into the Laborers' Union. Mr. Hicks has agreed to give his employes an eight hour day and 45 cents an hour if the city will do the same by the laborers on its pay roll. The coal yard employes will be initiated tonight.

PROHIBITION AS VIEWED FROM THE SCIENTIFIC STANDPOINT

A. D. Hone Replies to Arguments Used by J. H. Burnham, M. P.—Interesting Paper Read at Meeting of Trinity Church Brotherhood.

"God, Nature and Alcohol." This address was delivered by A. D. Hone, M.A., Science Master in the local Collegiate Institute, before the Men's Brotherhood of Trinity Church. At the conclusion of it, a hearty vote of thanks was tendered to the speaker and he was requested to furnish the text to the local press. In view of the fact that Mr. Burnham's views have been circulated in localities other than this, a committee was also formed to secure an even wider circulation of the address, if considered advisable. The text follows:

This address is intended to show from the standpoint of science, the part the formation of alcohol plays in the economy of nature, and to answer some very extreme views expressed in the public press on the relationship of God, nature and alcohol.

hTe earth and objects on it, both living and inert, are undergoing continual change. It appears that creation in nature was threefold. God created matter, life and a number of great forces operating on these according to well-defined laws. We call these latter the forces and laws of nature. Through the operation of these forces, the universe became what it is today. One of the great laws of nature is that of life, growth, death and decay. Every living thing grows, dies and finally decays or disintegrates. This decay is one of the most important principles of nature and it is with it that we are particularly concerned in bringing out the relationship between God, nature and alcohol.

Let me quote from B[illegible] Davis' Principles of Botany, i[illegible] connection:

"Decay is the destruction or decomposition of highly complex compounds such as proteids, fats, sugars, and cell walls of plants, by which they are broken down into successively simple substances and finally into fluids and gases, some of which are very ill smelling. The products of decomposition from various chemical combinations and are finally used again in the constructive processes of life. The bacteria and other fungi are the chief agents of decay, and if it were not for them the world would soon be filled with organic waste products, together with the dead bodies of animals and plants of no value as food. Thus all the chemical elements capable of sustaining life would long ago have been used up and life on earth would have ceased. Not infrequently, however incipient putrefaction forms certain organic poisons called ptomaines, in nitrogenous foods and these may give rise to distressing symptoms, or even prove fatal to the consumer.

(Continued Tomorrow.)

FOUR PETERBOROUGH CITIZENS TOOK AIRPLANE TRIP SATURDAY

Wonderful Exhibition of Flying Stunts at G.W.V.A. Sports—The Feature of the Day Nothing Like It Ever Before Seen Here

The outstanding attraction at the Veterans' gala day on the Exhibition grounds Saturday was unquestionably the aeroplane flights. Secretary Whatley of the G. W. V. A. is to be congratulated on securing this, the premier feature of the day, which he did on his own initiative.

Lieut Nesbitt of Toronto, with his military aeroplane, gave the most remarkable exhibition of flying yet seen in Peterborough. His stunts included loops, spiral dive and half roll manoeuvres. Climbing to 2,500 feet, he started off with two loops, followed by a spiral nose dive of 500 feet. He next made another loop and a second spiral nose dive to 1,000 feet and then a half roll.

Went "Up in the Air."

Lieut Nesbitt made six trips in all, on four of which he carried a Peterborough passenger. The intrepid city boys who "went up in the air" are Messrs. J. Gillespie, son of G. A. Gillespie, M.L.A., John Brightman, J. Taite, and Wm Hickey, of the Duffus garage. Gillespie ventured two loops and a half roll and says his luncheon did not bother him unduly.

On one of the trips the aeroplane's engine began to miss, and Lieut. Nesbitt shut it off and spiralled down to earth in safety and comfort.

Lieut. Nesbitt left for Toronto at 8:25 Saturday evening and promised to return today or tomorrow, when trips may be made in his aeroplane at $10 per head. This is the price he charged on the 24th.

Flew From Toronto Here.

Lieut. Nesbitt flew from Toronto to Peterborough Saturday morning accompanied by C. Huxtable. They left Armour Heights at 10:15, and landed in the Exhibition Grounds at 11.10, thus making the journey in 55 minutes. Their average altitude was 2000 feet, but they flew low and circled somewhat over the towns on their way. The major portion of the journey was made above the clouds and the scene presented to them was beautiful in the extreme. The describe the clouds below them as resembling huge ranges of snow-capped mountains clothed in many-colored raiment as an effect of the sun's brilliant rays in which the clouds were at times enveloped. Incidentally these aviators describe Peterborough as the prettiest city it has ever been their fortune to look down

"FOR A GREATER PETERBOROUGH."

MONDAY, MAY 26, 1919

PERENNIAL YOUTH.

THERE ARE MEN in Peterborough upon whom the passing years seem to make no impression and to whom the hand of time appears to be outstretched only in friendship. Fifty-four years ago Harry Winch was one of the originators and guiding spirits in a celebration in this city in honor of the British Queen in whose memory a day is still set aside. Saturday found the same Mr. Winch in the same role, a trifle grey, perhaps, but with eye undimmed, the vigor of his step but little abated, and his love for manly sports and for horseflesh stronger, if possible, than ever. Mr. Winch on Saturday acted as starting judge in the horse races at Exhibition Park and announced the result of the heats in stentorian tones that were but slightly augmented by the megaphone through which he spoke. His presence in the judges' stand would have been a pleasing link between the young and the old in the city's record of progress but for the fact that it is impossible to regard Mr. Winch as other than a juvenile with spirt undaunted and vernal as ever.

"IF CHRIST WENT TO WINNIPEG."

CHOOSING THE ABOVE striking phrase as his theme last night, Rev. R. A. Whattam, pastor of the Mark Street Methodist Church, preached a sermon that was as remarkable for its sound reasoning, the knowledge which the preacher displayed on economic topics, as for the scholarly diction and its eminent justice to all parties concerned. During his term of successful pastorate in Ashburnham Mr. Whattam has shown himself a close student of industrial problems and has been actively interested in the material as well as the spiritual welfare of his people.

In his discourse last night Mr. Whattam alluded to the contention of the capitalists that if their employes receive higher wages they will spend the excess, so that in the end they are no better off. This claim, he asserted, was a fallacy. Every man is entitled to compensation in accordance with his work. What he does with his wages is, after all, nobody's business but his own.

Mr. Whattam is right. If John Smith gets $4 a day instead of $3, he is likely to spend the extra dollar, especially if the lesser sum were insufficient to provide for the needs of his family. He will spend it in nine cases out of ten for the benefit of his dependents, who, as a result, will be better housed, fed and clothed. Living to the limit of an income is no crime if the so-called extravagance is inspired by an ambition on the part of the wage-earner to give his wife and children a decent existence. Better that than to lay up treasure on earth as so many of the wealthy classes do, only to leave it behind them in the end for heirs and lawyers to squabble over, while those who toiled, scraped and extorted to accumulate it are moldering in the grave.

Mr. Whattam does not believe that the church is charged with the entire responsibility of settling the present industrial problems. Its peculiar mission is to teach the morality which will ensure just treatment of the lower classes by those who are in authority over them as employers and who are assuming the regulate their existence. There must be governmental action to secure what Labor is now fighting for. Reduced hours of work and the wage scales must be made as nearly uniform as possible by legislation.

The preacher did not deal in detail with the probable action of Christ if He went to Winnipeg while the general strike is on, beyond taking it for granted that if the Nazarene did appear in the western metropolis He would see that the children were fed and the hospitals cared for. But the preacher's text answered the supposition which formed his theme: "He shall judge the poor of the people, He shall save the children of the needy, and shall break in pieces the oppressor."

If Christ did really go to Winnipeg, or elsewhere, the nature of his reception would depend entirely upon the state in which He made His entry. If He came announced as a leader of men to settle the trouble, He would be extended an official civic reception by the mayor and aldermen arrayed in their best silk hats and Prince Albert coats. He would be banqueted and compelled to endure the ordeal of listening to addresses, verbose with fulsome platitudes.

But if Christ went to Winnipeg by way of a cradle in a manger, if He appeared as a teacher of the people, a graduate of the carpenter's bench turned preacher, if He proclaimed the same doctrines as He did two thousand years ago, there would not be wanting those who would look for stone with which to assail Him.

Imagine a Winnipeg plutocrat, like the young man with the great possessions of Bible story, asking the Carpenter Preacher what he must do to inherit eternal life, and receiving the same answer as that recorded by the evangel. Picture his self-assurance as he declared that from his youth up he had kept all the commandments, unmindful of the fact that any chapter from the record of his daily life would furnish sufficient documentary evidence to convict him as an unmitigated liar.

But when the Carpenter Preacher laid down the final condition and told His questioner to sell all that he had and give it to the poor, what then? Would the man, like the young fellow of the story, go away sorrowing? Would he not be more likely to denounce the Preacher as a bolshevist and call for the police?

THE FINISH FOR TITLES.

THE SYSTEM of granting titular honors to British subjects was conceived in sin and brought forth and cradled in iniquity. Years ago when profligate kings wasted their substance and that of the people unfortunate enough to be under subjection to them, various ways were devised for the raising of revenue, the methods adopted running all the way from persuasion to extortion.

One of these dissolute but resourceful monarchs evolved a plan for giving titles of honor to his subjects for a consideration. The price was graded according to the degree of the distinction conferred. A plain ribbon was disposed of for so much, a knighthood could be obtained by anyone who had the price, and the financial value of baronetcies and other honors cost in proportion. The aristocracy of those days was founded on the sinking sand of profligacy.

The plan may have been revised and improved to a degree since the origin of the idea, but really the same principle has prevailed down to the present. Men have been knighted or raised to the peerage for outstanding military service, and such instances furnished the only justification for the system. However, in most cases the honors were bestowed upon politicians, a title being regarded by a certain section of the community as so much weight added to the prestige of the man who received it. Others, again, looked upon it as a gaudy and meaningless decoration that was really a handicap to any person doomed to wear it.

Honors had their price in the days of long ago, and that feature of the system was preserved down to the present. A man was knighted or ennobled not so much for what he had done for his country as for what he possessed. There are baronets and lords in Canada today whose claims to distinction have been based upon the size of the fortunes that they have accumulated. Two incidents by way of illustration are of comparatively recent occurrence. The head of the Toronto University was presented with a knighthood that would in the natural course of events pass away with him. A merchant prince on the same occasion was given a baronetcy that but for recent parliamentary intervention would have descended like a family heirloom from generation to generation, exposed at all times to the risk of being dragged in the mire by an unworthy legatee. Canada was threatened with an aristocracy as effete as any in Europe that is now slowly dying of senile decay.

The late war rocked the already moldering structure of aristocracy to its foundations. Kings' crowns are falling everywhere, so that it is little wonder if the lesser lights are snuffed out by the same breeze of public opinion. Canada's Parliament, by a majority, in which party lines were ignored, has set its face against further titular distinctions. The King will be asked to confer no more such decorations upon Canadian, and as this is a self-governing dominion the request will be complied with.

The world moves and popular sentiment changes on all subjects. It is only a few years since J. H. Burnham brought up this matter in Parliament and it was looked upon largely as a joke. But he kept hammering away session after session. When the war broke out he dropped his hobby because of the overshadowing issue that the conflict created.

A year ago Mr. Nickle stepped into the front anti-title trench and took up the fight. The victory which has crowned his efforts really belongs to Mr. Burnham, who up to the final vote never wavered from his original position, although he was twice crowded temporarily into a corner by sharp parliamentary tactics.

UNION LABOR AND ALIENS.

A DESPATCH SAYS that Mayor Gray of Winnipeg and members of the city council have joined with Manitoba Provincial and Federal authorities in informing Union Labor workers of that city that either the alien extremists in the movement must be ousted or every force of law and order will be concentrated to rid the Dominion of this element.

At last the Government, it seems, has awakened to the danger. But why call upon Labor to perform duties that properly belong to the authorities? If the Government had listened to the counsel of Labor these dangerous aliens would never have been admitted to the country, and once here they would have been deported when their true characters and mischief-making proclivities had been revealed.

NOTES AND COMMENT.

THE OFFICIAL WAYS of county councillors, as well as highways, must be mended.

• • • • • •

IN TIME the record will appear, "Peterborough is a county entirely surrounded by good roads."

• • • • • •

BANK ROBBERIES—that is from the outside—are becoming daily features in the newspaper despatches.

• • • • • •

THE PENS of the military leaders displaced during the war are at least as mighty as the swords they wielded to little purpose.

• • • • • •

"IS GERMANY being crushed?" asks the Chicago News. Well, not to half the extent that Germany subjected Belgium to the same process.

• • • • • •

NO LONGER do our members of Parliament, like trained circus animals, jump through the party hoop held up by a leader who holds a whip in his other hand.

• • • • • •

SOMEONE IS laboring under a delusion. Peterborough County not being a part of Inferno, its roads cannot be paved or otherwise improved by good intentions.

• • • • • •

IT IS A LONG, LONG WAY from Winnipeg to Petrograd, but conditions being about the same in both cities, a trip from one place to the other promises little in the way of variety.

• • • • • •

FINDING HIMSELF face to face with a hostile Republican Congress, President Wilson essays conciliation by declaring himself as enthusiastic a champion of high tariff as the best of them.

• • • • • •

BEFORE GIVING serious thought to William Jennings Bryan's views on the peace treaty it may be as well to recall that Mr. Bryan's record shows that he was seldom right and President not at all.

A NOBLE EXPERIMENT.

(Buffalo News.)

The League of Nations, perhaps, is only an experiment, but it is a noble experiment.

STRIKE FOR SHORTER HOURS

(Ottawa Citizen.)

Workmen in the factories at Amherts, Nova Scotia, have withdrawn their labor. They are not striking for a soviet, nor has any Bolshevist agent been discovered there. They are asking for nothing more revolutionary than a reduction of their workday from 10 working hours to 9.

The 10-hour day means that workmen and boys, enter the factory gates at seven in the morning, and leave at six in the evening. It is doubtful whether they do any more work than under an 8-hour day system. Indeed, the research work of leading employers like Lord Leverhulme, in Great Britain, and Henry Ford in the United States, is bringing out evidence that workmen under progressive conditions of management, will accomplish as much in an uninterrupted 6-hour day, as under the old 10 hours of labor.

The principle of an 8-hour day for labor throughout Great Britain has been recognized by the British Government, based on the recommendations of a national industrial conference of employes and employers. This is an intelligent step forward socially, as well as from the industrial standpoint. Workers in factories, and city labor generally, in civilized countries cannot be expected much longer to give up their lives to wage-labor for a mere existence.

Agricultural workers who employ themselves, under more natural conditions are affected with the economic situation from another angle. When they are not robbed of the full product of their labor, the workers on the land get healthy satisfaction out of life. But when the factory worker has to start out for work between six and seven in the morning, to spend the day till six at night in an industrial plant over which he has absolutely no control, using tools which he does not own, on products in which he can claim no particle of ownership is it astonishing that here is industrial unrest?

Canadian workmen are hardly likely to be satisfied with a 10-hour day, or a 9-hour day with reduced wages, as one tariff-protected Amherst firm seemed to propose, while British workmen are establishing the principle of an 8-hour day, minimum wage, joint control of industry, as well as community enterprises such as music for the people, art, and recreation—almost outside of the philosophy of organized labor in Canada. When the people of Canada read of factory workers in Amherst having to strike for a 9-hour day without decrease in pay, advocates of tariff protectionism may properly be asked if this is the state of society which the country is taxing itself to build up?

EDITOR'S MAIL

ALDERMEN AND LABORERS.

Editor Review: Are the manufacturers of Peterborough holding up the public work planned for and the completion of which is urgently needed in order that this city might take the position among its neighbors in the Province which it should occupy? This query has been inspired in the writer's mind by the attitude assumed by the majority in the City Council and by what has been said in open Council and in conference by members of that majority. Organized Labor, possibly the heaviest taxpayer in the city, asks by what right does Mayor Duncan, Ald. Turner or Ald. Hamilton assume to legislate for the local factories, singling them out as objects for special paternal care? These three city fathers are mentioned because, while a regular attendant at Council meetings, the writer has not heard any other member of the majority express an opinion..

The laborers on corporation work are on strike for better working conditions. They ask 45 cents an hour and an eight-hour work day. The writer has tried to view both of these demands from all angles. Looking at the question from the city's standpoint, it has nothing to lose. The men now on strike are all town men; they spend their money at home and the city is no poorer. The extra hour gained by the adoption of the eight-hour day would in most instances be spent in gardening and innocent and moderate recreation. And no fair-minded man will deny that the laborer is entitled to a little of the latter. There is one class who get their full share. While it has been said that "too much time for home work is not good as it induces to spending money," even if Council grants the 45 cents an hour and the eight-hour day, the laborer would not find himself in such affluent circumstances as to be able to spend the extra hour in riotous living.

It looks to the average observer that the mayor and a few others of the Council are endeavoring to extend uncalled-for paternalism to the local factories. If they are real men and understand the functions of their offices in Council, they will get down to business and perform the duties devolving upon them. Leave the manufacturers alone. They can be trusted to look after their own affairs. They have done so with fairly good success during the past four or more year. It appears to be a question of setting a precedent for inside laborers to go by. The inside men are not as yet largely involved in this city, and the City Council has nothing to do with them as regards their working conditions. When their turn comes it will be time enough to consider their demands.

The universal eight-hour work day is at hand—nothing can prevent it. It will give the workers a little more time to recuperate after the daily grind, and will be another milestone in the march of progress. Those opposed to it might just as well bring their minds into a receptive mood. The man who raves against the eight-hour work day is the one who would go back to the twelve and fourteen-hour shift, those relics of slavery, if it were in his power.

Give the laborers what they ask, and there will be scant criticism. As for the injunction hawkers— if these self-appointed guardians of the public treasury would use their talents and energy in some constructive and beneficial work for Peterborough instead of indulging in tactics that tend to breed antagonism and bitterness, they would more than likely receive some thanks and appreciation for their pains.

Get on with the city work, give employment under twentieth century conditions to the idle army, and avoid a bread-line six months hence.

Thanking you, Mr. Editor, for valuable space, I remain,

Yours truly,
A. J. BOLWELL.

NEW ALL SLEEPING CAR TRAIN TRANS-CANADA LIMITED DAILY

Montreal and Toronto to Vancouver

On Sunday, June 1st, new train will be placed in service to operate daily to Vancouver via Canadian Pacific.

Train No. 7 will leave Montreal 3.30 p.m.

Train No. 9 will leave Toronto 7.15 p.m.

Trains will consolidate at Sudbury and operate Sudbury to Vancouver as No. 7, due to arrive Vancouver 10.00 a.m. the fourth day.

Further particulars from Canadian Pacific Ticket Agents, or
W. B. HOWARD,
District Passenger Agent, Toronto

SAYS OTTAWA IS RENO OF CANADA

ONE HUNDRED DIVORCES ARE GRANTED AND SCORES ARE PENDING.

Ottawa, May 26.—"Ottawa is rapidly becoming the Reno of Canada," declared Hon. Rodolphe Lemieux, who confessed in the House of Commons that he was alarmed at the sensational increase in the number of divorces that has been granted by Parliament during the past few months. "We are passing through a period of revolution," says he, "and the family ties in this country are threatened by a very crucial test indeed." Mr. Lemieux seriously objected to the remission of fees in many cases.

Divorce Mill Busy.

Already something like 100 applications for divorce have been dealt with this session by Parliament, and scores of cases await the action of the Special Divorce Committee. Thus the divorce mill has been grinding pretty steadily.

A prominent lawyer, who has three cases in charge now, told a Toronta paper that there were no bargain prices in divorces. Six hundred dollars was the average cost, "and you are getting off easy at that figure," he added. He gave the following, as a sample statement of cost: Advertising, $30; fee to Senate, $210; cost of serving petition and expenses of witnesses, $125; fines for delay in Commons, $200; lawyer's fees, $300. Total, $895.

A medal for bravery was presented to W. R. Morgan for saving David Fader at Dartmouth dock.

Arthur Harrison, Fredericton, N.B. was drowned while working on some logs in front of his home.

About 50 tons of horse meat has been seized in Quebec, which was intended for local consumption.

THE RIVER NILE

The following school essay was written by Keating H. Middleton, a pupil of the King George School, 13 years old and preparing for the entrance examination under Capt. Maurice Park. If any other public school pupils of this age thing they can excell or equal this effort the columns of The Review are open to them.

The river Nile was worshipped as a God by the Egyptians, Romans, and Greeks. It is 3,670 miles long. It consists of two streams, the White Nile and the Blue Nile with the Atbara or Black Nile as a tributary. The two former streams meet at Khartoum. The Atbara joins them at the village of Atbara, 30 miles south of Berber.

The source of the White Nile is in the Victoria Nyanza Lake in Central Africa. The Blue Nile rises in the plateau of Abyssinia, and the Black Nile in the Abyssinia frontier.

The course of the Nile is obstructed by six cataracts, the first of which is the dam at Assouan. The river is navigable up to here.

The Nile furnishes fresh drinking water to the inhabitants of Egypt and the Sudan. Its six cataracts furnish electric power. In June the water rises forty feet. When it settles it leaves the ground covered with a fine silt which is good for agriculture.

K. OF C. CELEBRATE 16TH BIRTHDAY

OVER FOUR HUNDRED VISITORS WERE HERE FOR THE CEREMONIES.

The sixteenth anniversary of the inauguration of the Knights of Columbus in Peterborough was celebrated on Saturday. A special train was run from Lindsay for the benefit of the members of the vicinity. Over four hundred were present at the proceedings which lasted throughout the afternoon and evening.

The candidates and members assembled at their club rooms on Simcoe street and marched in a body to St. Peter's Cathedral, where High Mass was celebrated in a very appropriate and eloquent sermon by the Rev. F. J. O'Sullivan, parish priest of Port Hope. The exemplification of degrees was held in the Forester's Hall where the degree of Knighthood was conferred on a class of 138.

At the conclusion of the degree work a banquet was held in the Armoury, at which over 400 were present. A lengthy toast list was proposed and responded to by several prominent members of the Order throughout the province, and the banquet was brought to a close by the singing of the National Anthem.

WIT AND WISDOM

Knew His Patient.

Doctor—And what sort of night did Col. Mopper spend?

Mrs. Mopper—He seemed a little feverish, doctor. He asked for water several times.

Doctor—H'm, still delirious, apparently.

Not So Fast.

The registrar was filling in the marriage certificate.

"Let me see," he mused, forgetting the date. "This is the fifth, isn't it?"

"No, indeed, sir," responded the bride," blushing furiously, "only the third."

His Second Childhood.

Aggrieved Person — Look here, what's the meaning of this? You've put me in the Deaths column this morning!

Editor—Very sorry, sir—it's a mistake, I'm afraid.

Aggrieved Person—Well, the only thing to be done is to put me in the Births column in tomorrow's issue.

When a married couple or a pair of shoes are exactly alike they fail to make a fitting pair.

CHURCH TODAY HAS TWO-FOLD MISSION

REV. R. A. WHATTAM PREACHES INTERESTING DISCOURSE ON WINNIPEG STRIKE.

"The business of the church is earthly as well as spiritual," declared Rev. R. A. Whattam, the pastor of Mark Street Methodist Church, Sunday evening. This principle has not been debated to any great extent before the last meeting of the Methodist conference showed an inclination to put it into practise. Mr. S. R. Parsons, of Toronto, made a strong protest against what he termed commercializing the church, which aroused considerable controversy, and in the light of the recent events in Winnipeg, this argument becomes even more important.

But it did not take the pastor long to pass from generalities which nobody would take the trouble to either endorse or dispute to real live questions of the hour. "If Christ were in Winnipeg at the present time," he continued, "he would see that the babies were fed and the hospitals maintained in good running order. A certain percentage of the profits in certain lines of food amounted to robbery during the period of the war as well as at the present time. The only ultimate solution of our troubles is Government interference."

The question of wages was also considered, and Mr. Whatton cited the had engaged a hired man at consid- case of a farmer in his pastorate who erably less than the average wage of the district. When he expressed surprise the farmer advanced the argument that the man was getting all he knew how to handle. Another case cited was that of a minister, who, because he stated his view plainly on the labor question, lost the financial support of one of the leading contributors to his church and was forced to leave. Such acts, the Rev. Mr. Whatton denounced as exhibitions of Kaiserism against which we had to fight right here in Canada.

POINTED PARAGRAPHS.

At 21 a man knows everything; at 50 he wishes he knew something.

A small boy is always very industrious when it is time for him to go to bed.

Some persons cannot see what pleasure those who mind their own business find in living.

The man who points out our faults may be a true friend, but we feel like kicking him just the same.

Reading tiresome poetry when you are sad is equivalent to reading a cook book when you are tired.

A word to the wise may be sufficient, but the policeman often has to use a club on the otherwise

W. E. Bromley, Moose Jaw, Sask. has been sentenced to be hanged for the murder of his five children.

Beginning Monday, the Canadian Cotton Mills, Ottawa, will work 50 hours a week.

Hanley town council will raise $22,000 for the installation of an electric light plant.

"I SUFFERED SEVEN YEARS"

Was Eventually Cured by Lydia E. Pinkham's Vegetable Compound.

Philadelphia, Pa.—"I suffered for seven long years with a lame back, irregularities and pain. I had one physician after another but they did me no good. I read about Lydia E. Pinkham's Vegetable Compound and gave it a trial and in a short time I felt benefited and am now feeling fine, and without weakness or pain. Many of my friends have also taken Lydia E. Pinkham's Vegetable Compound and been helped by it."—Mrs. MARGARET NESS, 1846 E. Hazzard St., Philadelphia., Pa.

Women who suffer from displacements, irregularities, inflammation, ulceration, backache, sideache, headaches or "the blues" should not rest until they have given this famous root and herb remedy, Lydia E. Pinkham's Vegetable Compound, a trial. If complications exist, write Lydia E. Pinkham Medicine Co., Lynn, Mass., for special suggestions. The result of its long experience is at your service.

MILLBROOK

(Special Correspondence.)

Millbrook, May 21 Mrs. J. H. Graham was a visitor to Peterboro on Monday.

Miss Alice Elsom of Peterborough was a guest of her parents, Mr. and Mrs. H. Elsom over Sunday.

Mrs. William Mullen is visiting her brother, Mr. Brock Pethick at Newtonville.

Miss Nellie Hamilton of Port Hope was in town last week.

Miss Murray of Toronto is a guest of Mrs. [illegible] Howden.

Mr. Albert Lee and Miss Betty Lee of [illegible], were guests of their parents, Dr. and Mrs. W. D. Lee on Sunday.

Mr. Norman [illegible] of [illegible] was home over Sunday.

Mrs. William [illegible] of Port Hope visited her sister, Mrs. Martin Pethick over Sunday.

Mrs. George Eberhile of Rochester N.Y., was a guest of Mrs. M. Pethick on Sunday.

Mr. Durham, Mrs. Duncan Walker, Mr. W. R. Widdess and Miss Morrow of Peterborough spent Sunday with Mr. and Mrs. I. E. Needham.

Miss Empey of Peterborough Normal School, was a guest of Miss Gladys Gray, over Sunday.

Miss Grace Dunbar, of Perrytown, was a guest of Miss Emma Francey over Sunday.

Mr. Wilbert S. Thorne was a guest of Reeve R. J. Patterson, of Ops on Saturday.

Woman's Auxiliary

The W. A. of St. Thomas Church held their May meeting on Monday night at the home of Mrs. Needler with a good attendance. The event of the evening was an address by Mrs. Wakefield, Vice-President of the Labrador Medical Mission on her life and work on the Labrador coast. She was listened to with intense interest, the life of the people there being a revelation to many of the members. As a practical proof of the appreciation felt to Mrs. Wakefield for her talk and of the sympathy with her work, contributions were promised to the Fund for the Orphanage on the coast. Mrs. Wakefield has kindly consented to give a lecture in the school room next Monday night at 8 o'clock to which the public will be cordially invited.

The Late Mrs. Hard

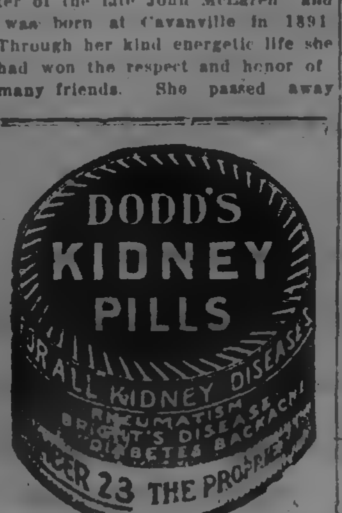
The death of Ertha McLean beloved wife of Richard Hard, of Alameda, Sask., which sad event took place at Kingston on Sunday, May 11th, removes a most highly respected young woman at the early age of 28 years. Deceased is a daughter of the late John McLaren and was born at Cavanville in 1891 Through her kind energetic life she had won the respect and honor of many friends. She passed away having that faith and hope of the blessed life beyond.

The funeral to St. John's Cemetery, Ida, on Tuesday, May 13th was largely attended, Rev. Canon Allen conducted the service at the home of her brother, Sydney McLaren and at the grave. Besides the sorrowing husband, one sister, Mrs. Charles Hard and four brothers Sydney, Fred and William of Cavan, and Thomas of Toronto are left to mourn the loss of an affectionate wife and sister. To those bereaved we join in sincerest condolences.

"Aunt Susan" at Omemee

The beautiful coronation hall, Omemee, (the gift of Lady Eaton) was well filled with a happy throng on Monday, the occasion of the visit of Aunt Susan and Co. The play was given by the members of Miss Hampton's Bible Class, of the Millbrook Methodist Sunday School, assisted by several ladies was thoroughly enjoyed, as evidenced by the great applause given and eulogistic remarks made at the close by many of those present, and indeed it was so favorably received that a request for its repetition was received. The play was interspersed by delightful banjo music and singing by Mr. F. R. Clarke of Peterborough who is always heartily applauded by his audience and on Monday evening he excelled himself.

Pleasing vocal solos were rendered by Miss Kathleen Lancashire of Cavan, in her usual splendid voice. Expert club swinging by Miss Mary Higgs was also an enjoyable feature and so much was the music by the Sunday School orchestra enjoyed that a request was made for them to play for the coming garden party, under the auspices of this church. The entertainment opened with prayer by the Rev. J. G. Lewis, pastor of the Church. Mr. Percy Stinson president, of the class was the excellent chairman and by the well chosen words in his address put the audience in high good humor. The closing numbers were Auld Lang Syne and the National Anthem. Miss Hampton and her class are to be congratulated upon their second success in presenting Aunt Susan's Visit.



LESSONS IN RIGHT LIVING
By Dr. W. A. BRADY

It takes a good modern chemist to prove that there is no proof in eating the pudding.

Of all the unreasonable arguments put forth in this contentious column, the most unreasonable, according to numerous valiant correspondents, is the insistent assertion that there is no such thing as taking cold from exposure to foul weather, drafts, wet feet and the like. And the reason why such an outrageous assertion is unreasonable is that so many people do take cold almost instantly when exposed to a draft or sudden change of clothing or a bath or something. Since this is an everyday occurrence within the observation of all men it is rather puerile to deny it. All this our valiant correspondents tell us. But are they right. I dont' think so?

Every intelligent physician, every hygienist every valetudinarian knows that the primary cause of the respiratory disease vulgarly called "colds" is a too successful effort to avoid the very conditions which the old women of both sexes consider responsible. And as a matter of simple everyday observation it cannot possibly be denied that those individuals and classes who are most exposed to cold, wet, drafts and the like diseases, whereas infants, children and adults who are most coddled, both by excessive clothing and excessive artificial heating of the indoor atmosphere, are the most susceptible.

The notion that one can or does immediately "take cold" from sitting in a draft or from going out without his chest protector or his coat collar turned up or his overshoes on or his ears stuffed with cotton hinges on a misunderstanding and a too intimate acquaintance with Old Dr. Cooper's almanac. If you are already a sufferer from some chronic low grade disease of the nose or throat or bronchial tubes, as a result of your years of mollycoddling, and in consequence of which you go on mollycoddling yourself more carefully as the years slip by, I would indeed be unreasonable to deny that you sniff and run when you are exposed to a draft, for I can see you doing it even if you say nothing. But I would be unfair if I were to acquiesce in your belief that you have caught a cold; for I know, as well as you yourself know, that you have caught nothing at all, but you are merely made temporarily sniffy and stuffy and chilly because your mollycoddle circulation react to altering conditions as it should. You have impaired its elasticity by your years of coddling. You are in the same boat with the fellow who can't take a cool bath and enjoy the nice, war glow that should accompany the reaction after a cool bath. Your vasomotor nervous mechanism is on the blink, and for that you have Sairey Gamp, Mr. Micawber and Mrs. Grundy to thank. Hygiene never had a chance in your case.

Raw Eggs Versus Cooked Eggs.

"A doctor who is attending my sister-in-law claims that a cooked egg is more nourishing than a raw egg. He also claims that exercise does not strengthen the lungs, but tends to weaken them. We should like to have your opinion about these two points.
"M. M. B."

The cooked egg is more easily digested and more completely utilized than is the raw egg, so the doctor is right. If your sister has tuberculosis exercise even slow walking about, may be very detrimental and tend to weaken the lung as well as the whole system. The question of exercise or rest in any case of tuberculosis is one of vital importance which only the doctor attending the patient can intelligently answer. For your sister's sake, I must add that if a doctor is employed it is unsafe (for the patient) for any one else to interfere in the treatment.

How Much Yeast for Pimples?

"Kindly advise how much yeast I should take after meals each day for pimples.
R. R. L."

Take half to one ordinary compressed yeastcake, mixed to fluid with water, fruit juice, milk or other beverage, after each meal, for three to eight weeks.

OMEMEE

(Special Correspondence.)

The death of Hugh Cook, the nine-year-old son of Dr. and Mrs. Cook, of Sudbury, and grandson of Mr. and Mrs. Samuel Grandy, which occurred last Wednesday, cast a deep gloom over our village. The circumstances surrounding the death were particularly sad. A week ago Saturday, Hugh, with two little playmates, started to make a garden, wishing to have the best result from their efforts, they planned to thoroughly fertilize the plot of ground, little Hugh undertaking to load the manure while the other boys spread it. Towards evening the child became ill and grew steadily worse, passing away on Wednesday evening. All the loving care, medical skill and good nursing could do was of no avail, there having been three doctors and two nurses in attendance. The cause of the death was pronounced gas poison. The remains were brought to Omemee for burial. The services were held at the home of the grandparents on Saturday afternoon. The floral tributes were many and beautiful, noticeable among them being many from little playmates in Sudbury. To the bereaved parents, and sorrowing grandparents is extended the heartfelt sympathy of the entire community.

Mrs. (Dr.) Rich, of Lindsay, attended the funeral of the late Hugh Cook on Saturday.

Mrs. M. Rehill, of Peterboro, was a visitor to Omemee on Saturday.

Gnr. Hunter Lewis, of Toronto, is spending a few days at the parsonage.

Amateur theatricals are ever popular with the entertainment loving people of Omemee, so that when the Sunday School of the Methodist Church announced the coming of a play to be given by Miss Hampton's Bible Class of Millbrook, all that was necessary to assure a packed hall was a fine night.

The weather was of the best and the play, "Aunt Susan's Visit," was one of the best ever presented to an Omemee audience. The play was brimming with interest from start to finish. The costumes worn were quaint and very beautiful. The furniture which included a very ancient spinet, was quite in keeping with the times of fifty years ago. The characters, fifteen in number, were well chosen and it was not difficult to let the imagination drift back to the old time ways of living, although all the leading parts were well taken. Special mention should be given Miss Hampton, who as Aunt Susan, completely captivated the hearts of the audience with her kindly advice and quaint witticisms. During the evening the Sunday School orchestra delighted the audience with numerous selections. Miss Lancashire, of Millbrook, rendered two solos between acts in a clear sweet soprano voice, which were much enjoyed, as was also the club swining by Miss Higgs. Mr. Clarke, of Peterboro, brought forth rounds of applause with his banjo selections.

The entertainment was thoroughly enjoyable from start to finish and the people of Omemee will gladly welcome the return of Millbrook talent again.

Miss Brooks, a returned missionary from China, addressed the children of the Methodist Sunday School on Sunday afternoon.

Mr. James Tully, of Calgary, and Mr. William Tully, of Peterboro, were in the village last week renewing old acquaintnces.

Mr. and Mrs. Fred. Fielding and son Max, of Toronto, motored to Omemee on Sunday and were the guests of Mr. and Mrs. R. J. Cornwall.

Mr. and Mrs. Percy Stinson, of Millbrook, were visitors to Omemee on Monday.

The stork called at the home of Mr. and Mrs. Norman Fee last week leaving a fine baby boy.

Pte. John Carey, of the 15th Kiltie Battalion, arrived home last week, and after visiting his family in Sharbot Lake, spent a few days with his parents in Omemee. Pte. Carey has seen much service and his old friends are glad to welcome him home again.

Miss Archie Irwin and son returned to their home at Sharbot Lake last week after visiting the parents of the former Mr. and Mrs. Carey.

Miss Nora Nichols was a visitor to Lindsay on Saturday.

Mr. Lewis James, of Lakefield boys' school, spent the week-end under the parental roof.

Mrs. Cottingham returned to her home in Oshawa after a pleasant visit with her son, Hubert.

Pte. John Groves returned to Omemee last week after four years overseas service. Pte. Groves is visiting among his many old Omemee friends.

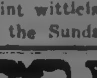
The Woman's Institute have engaged a first-class attraction for May 28th when the film, "The Better 'Ole," described as full of thrills, cheers and tears, will be shown in Coronation hall.

Arrangement are under way for another monster reception for our returned men.

Mrs. Lorne Howell and children, of Toronto, are the guests of Mrs. Isaac File.

The Ladies' Aid of the Methodist Church held a meeting last week, at which June 25th was the date set for their annual garden party.

While at work in the Canada Door Factory, Meaford, Fred Knight met with a painful accident



Wood's Phosphodine.
The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins, Cures Nervous Debility, Mental and Brain Worry, Despondency, Loss of Energy, Palpitation of the Heart, Failing Memory. W. J. COX, AGENT PETERBORO

Our reputation for fair dealing and reliable goods, coupled with the De Laval record of service and durability, has made the De Laval Cream Separator the leader in this community.

THE creameryman knows which separator skims cleanest, costs the least to keep in good working order, and lasts the longest.

He has to know. The wrong separator might easily mean a loss to him of several thousand dollars a year.

They can't fool the creameryman

That's why 98% of all the separators used in the world's creameries and milk plants are De Lavals.

98% of all Separators used in the World's Creameries are DE LAVALS

And it's just as important to you as it is to the creameryman that you make no mistake in your choice of a cream separator.

Why not be guided by the creameryman's experience?

Come in some day and talk it over

SOONER OR LATER YOU WILL BUY A

DE LAVAL

HOME MARKET IS CANADA'S BEST

Which is Canada's best national market? Few people probably would be able to state their answer with any certitude. By far the greatest number of Canadians would be surprised to be informed that it is that which we have right at our own doors, in fact, which consists of the market in our own two million Canadian homes. In trade as in the nursery rhyme: "East, West, Home's Best."

Valuable and necessary as are the great markets abroad as an opening for the fruits of our varied labors, the fact is that Canada's trade with Canada's own population is for more important. This is one of the things which the Canadian Trade Commission in Ottawa is trying to make widely known so that there may be a better comprehension of the trade problem before our country in facting the tremendous obligations of our war debt. The work of the Trade Commission is primarily divided into that dealing with the produce of the farms—a thing which we have got into the habit of calling by the rather high-sounding phrase of "agricultural production"—and with the growth and output of our mills and factories—which with equal desire for "high-falutin," we have come to call "industrial development."

The sooner we get down to the simple terms the sooner many mutual misconceptions in city and country will be removed. Work, in farm and factory, is, in its final definition much the same thing whether we call it "agricultural occupation" or "industrial employment." Aad examination of the following table in the light of plain, commonplace "horse sense" will help to show the enormously important economic fact that the present sharp division beween city and country is both needless and basically wrong. In no part of the Dominion can the country people or the city people too quickly appreciate how much the one class depends on the other for a living.

Importance of farm raised goods

The unquestionable importance of our farm-raised exports has been brought before the public in the last four year. The Canada Food Board Report shows that walle in the fiscal year 1914-15 the Dominion export of foodstuffs was valued at 187 million dollars, the total amount for the fiscal year 1917-18 had risen to the tremendous sum of 710 million dollars. A glance through the table, which is for the distribution of our farm products in 1915-16, will show that in almost every case we consumed within the Dominion a far larger amount of goods than that which we exported.

A point worth noting is that despite out large home consumption of that which was produced within the country, we imported large quantities of pork, value at $3,600,000; cheese and butter $3,100,000; fruit and vegetables, $5,200,000; wool, wheat, $1,000,000: and corn, $6,200,000. Most of these imports are accounted for by local scarcity, that is, a short supply in Saskatchewan would have been filed by imports from the United States, rather than from Ontario, and conversely with other articles. Hides perhaps form an exception, because this was necessary for the making of harness and other things in the war orders.

Removing Misconceptions

It is not, however, for the purpose of making an analytic study of our imports and exports that this matter has been brought forward by the Canadian Trade Commission. The main idea is to remove two misconceptions; first, that we cannot produce many thoigs within Canada with our present facilities which we now import; and secondly, that the Canadian city and home still furnish the most important market for Canadian farm products. This is an aspect of "trade" which will have to be mutually fostered by understanding, by the goodwill of the buyer and the good sense of the seller.

The table shows the average consumption at home, our exports and our imports averaged over the years 1915-16:—

Quantities	Consumption	Exports	Imports
Beef, lbs	426,451,000	33,125,000	5,562,000
Pork, lbs	453,395,000	141,421,000	32,753,000
Mutton, lbs.	63,583,000	582,000	3,146,000
Poultry and eggs	$33,219,000	1,781,000	962,000
Cheese and butter, lbs.	298,106,000	156,364,000	6,633,000
Whole milk and cream, gals.	190,131,000	2,015,000	345,000
Wool, lbs..	6,896,000	5,103,000	$1,061,000
Hides			$6,234,000
Hay and Alfalfa, bushels ...	12,649,000	193,000	12,000
Oats, bushels..	416,290,000	22,292,00	2,036,000
Barley, bushels..	42,641,000	5,752,000	32,000
Wheat, bushels	213,332,000	114,329,000	1,047,000
Rye, bushels	2,227,000	454,000	29,000
Flax, bushels	2,269,000	4,817,000	33,000
Corn, bushels	10,119,000	205,000	8,590,000
Potatoes, bushels	60,887,000	938,000	493,000

STEWART HALL.

(Special Correspondent)

Stwart's Hall, May 26.—The Sunday school convention of Otonabee is to be held in the hall here today. The Sunday school is preparing to entertain all visitors and will serve tea in the basement.

Miss Armstrong, who has spent the past six months in New York, has returned home.

Mrs. Thos. Bradshaw lost a very valuable umbrella. The finder may leave it with Miss Barrie at the school and be rewarded.

Miss McNaughton was the guest of Miss Handbidge.

The new time in the city and standard time here make it very inconvenient, particularly for our ministers, and soloist, Mr. Jay Hutchison, who must also be in the city in the evening after attending 4 o'clock service here? Could some remedy not be put into practice?

Prof. Miller is again in the neighborhood. He cannot remain long, as he is a very extensive traveller in musical circles.

The villagers are very sorry that Mr. Dalton Stewart is leaving to reside in Smith. Mr. Stewart has been very popular, as is shown by the number of evenings given in his honor. Mrs. James Thorne entertained for him on the 18th.

Spring brings new styles, and the most noted creation from the gentleman's point of view is the vogue of red beads and the extensive purchases of cut glass.

Miss Marguerite Deck is ill at Nicholls Hospital, Peterborough, but is improving.

Miss Margaret Miller of Peterborough was the guest of Miss Queenie Matchett over the week-end.

Mr. Shephen Thorne is having a telephone installed.

Mr. Richard Harrison lost on the River Road on Saturday a valuable pair of trousers. In these days of high living he cannot hope for a recovery.

WILLIAMSON SAYS HE WAS SURPRISED

TANLAC RELIEVES TROUBLES HAD ALMOST LOST HOPE—BUT IN A SHORT TIME.

"I have never been so surprised over anything as I have over the results of Tanlac in my case," said William Williamson, a well-known brick mason living at 1115 St. Clarens avenue, Toronto, recently.

"My kidneys have been bothering me for four or five years," he continued, "but during the past year other ailments set in and kept me feeling miserable nearly all the time. I had terrible pains across my back, especially when I stopped over or tried to lift anything, then rheumatism settled in my right leg and at times I simply suffered torture from it. The pain was so sharp and cutting at times I would almost drop in my tracks. My appetite went square back on me and nothing I would eat tasted right. I was very nervous—could harly sleep—I would just roll from one side of the bed to the other and many a night I have not closed my eyes for sleep at all. J just had that dejected worn-out feeling, had no energy and didn't care for anything and certainly felt awful.

"I had been reading about Tanlac but I had tried so many things that did me no good that I was skeptical and had no faith in anything. In fact, I was depressed and discouraged and felt that nothing could help me. But one day a friend of mine said, 'Why don't you try Tanlac, I have taken it and it surely did do me good.' So with that I began taking Tanlac and improving every day. I have now taken four bottles, the rheumatism never troubles me at all and my kidneys are in fine shape. My appetite is fine and everything I eat tastes good and agrees with me. My nerves are strong and steady now, I sleep like a log and all my tired, depressed feelings are gone. I now have my former strength and energy and feel like myself again. Tanlac has certainly been a great thing for me and I can't praise it too highly."

Tanlac is sold in Peterborough by W. D. Warne Drug Co. td., in Havelock by A. C. Denike, in Lakefield by Tanner Drug Co. Ltd., in Fowlers' Corners by W. A. Hunter, in Gelert by A. J. Scott, in Westwood by G. Pringle & Son.

EMPIRE DAY AT THE KING GEORGE

INTERESTING EXERCISES WERE HELD FRIDAY IN THE OPEN AIR.

The afternoon being fine and warm the annual Empire Day exercises at the King George School were held on the school lawns. Rev. W. H. White and Rev. R. A. Whattam made brief addresses suitable to the occasion congratulating the pupils and teachers on having one of the best schools inthe city. In spite of the strong wind the children's voices sounded remarkably well in their rendering of the National Anthem and other patriotic song. Recitations by several of the pupils were much appreciated by the visitors. Owing to the indisposition of Principal Park the exercises were most ably conducted by Mr. Steer the vice-principal.

BIG RECEIPTS AT VETS SPORTS

DRIVE ITSELF HAS NETTED OVER $9,000 FROM TEA WORK—WILL BE EXTENDED.

The receipts at the Exhibition Grounds Saturday on the occasion of the G. W. V. A. demonstration and sports aggregated $1148. Proceeds from the actual drive itself for subscriptions totalled about $9,142 up to Friday night.

Owing to the unfortunate inclement weather last week, which seriously affected the canvass for funds, it is intended to extend the drive and a meeting of the working teams is called for tonight with that end in view.

A man will decide the 10 cent rigar that is given him, but he never murmurs about the nickel one he buys.

ARISTOCRACY MUST GIVE WAY BEFORE ADVANCE OF DEMOCRACY

Report of Address of J. H. Burnham, M. P., During Debate in Parliament on the Question of Titles.

The following is a verbatim report of the speech delivered by J. H. Burnham, M.P. for West Peterborough, during the debate in Parliament on the questions of abolishing titles.

Mr. Speaker, I should like to say a few words on this subject, because I believe it is of vast importance. Many things which appear to be trifling because they are splashy nevertheless hide a great deal of rottenness, and that is the case with the whole scheme of titular distinctions, without exception. The day has passed for the triumph of aristocracy.

We have reached the age of democracy and it would be well for the hon. member for Red Deer (Mr. M. Clark) and the hon. member for Toronto South (Mr. Sheard) to remember that fact. If hon. gentlemen fancy that they are not interpreting the wishes of their constituents by voting for the resolution and if they are in favor of the continuance of titles, let them go on and vote for titles they will find out what their constituents think about the matter the next time they stand for election. I do not intend to debate this qestion at great length, as we have heard about it for years. I brought up the subject in 1913-14, and I was knocked out by two heavy weights, the great and much lamented late leader of the Opposition, Sir Wilfrid Laurier, and the present minister of Trade and Commerce (Sir George Foster.) This seemed too much for me to go up against at the time, so I retired for a sponge off and a glass of water. But there intervened a war, and it seemed to me that it was inadvisable, under all the circumstances, to interpose a row about titles in the much greater row that was going on in Europe. The hon. member for Kingston (Mr. Nickle), however, after consulting me about the matter, took up the question and has dealt with it with the object of stemming the tide of decorations which was about to flow in consequence of the war. He is no doubt well advised, and he had more courage than I, or perhaps more wisdom. I thought the day was coming when, undoubtedly, people in Canada as elsewhere in the world would insist that titular and class distinctions must disappear. We could well afford to wait. We have waited for hundreds of years for this consummation to be brought about, and surely, when we view the world over, we may well and confidently say that those who are in favor of class distinctions will disappear with the junkers of Germany and the aristocrats of Russia.

We find in the world today very little in support of the arguments of these hon. gentlemen. We find that the last desperate stand of aristocracy made in Europe as it has been, has been a signal failure, and the only reason that it has stands apparently solidly in Great Britain is that in that country it has been less abused than perhaps, anywhere in the world, and therefore it has more apologists. But to argue as has been argued here this afternoon that because Joshua Reynolds was knighted, therfore, that knighthood is a distinction conferred upon art, is to give the whole case away.

All I need to do is to refer, as I did in my interruption of the hon. member for Toronto South (Mr. Sheard), to the fact that all the greatest men with the exception of Sir Isaac Newton remained without titular distinctions. You ought to begin if necessary with Homer, Buddha, Confucius, Thucydides, Pythagoras, Socrates, Plato, Aristotle, the Seven Wise Men of Greece, with all the historical characters of Europe unless you appear to the great rascals such as Nero, Commodus and the like. Surely hon. members do not think that Scipio Africanus required a title. Surely they do not think that our friend Julius Caesar was smaller for not having a title. And these hon. gentlemen show their ignorance of history when they say that these distincitions confer honor on the arts. What about Titian, Michael Angelo, Velasquez, Correggio, Rubens, Rembrandt, Raphael, Gorot and God knows what other great names. Do not entangle these great men with these little trappings of titles that hang like spit curls at the side of a woman's head, and that amount to nothing. These great men tower majestically over all these little things which arose from what? They arose from property owners, and not from the people. They were not recommendations of the people. They were what the aristocracy gave to themselves before the people had the right of franchise or had any liberty at all; but when the time came that the people rose strongly in their own might and shook off these things, they shook off class distinctions and these hon. gentlemen here today who have spoken so strongly in favor of titles so insiduously and in many ways so cunningly, are compelled to acknowledge that the rottenest branch of the whole tree is hereditary titles the greatest and highest of all. If it be the case that the topmost branch, the great culmination, the apotheosis of the whole titular business is absurd, it follows that the lesser is only less absurd, unless logically you choose to argue that it is more. I am not going to condescend to argue the question against titles. If hon. members are so ill-read in the history of class distinctions and all those abominations should be perpetuated, let them go on, but they will reckon with their people at home some day, and I am content to leave the matter to the great mass of the people of this country, if the members of the House do not wish to exterminate these titular distinctions today. We have have been told—and I believe it is true—that the Government wants this to be a fight to a finish. We have been beaten several times; we have been more or less jockeyed—and I do not say that in any nasty sense. I brought a good deal of opprobrium last year upon my humble self by having endeavored to find out from the late lamented leader of the Opposition if he intended to let the opposition have a free-for-all. I found out that the Prime Minister regarded that as a constitutional mistage and I retired under my bed, and I did so promptly, but I do not purpose getting under the bed any more. I don't mind being moderate nor endeavoring to be discreet; but this question is one of great importance to the people, and if some of these gentlemen will go to Winnipeg or Toronto or to some other place where there are great gatherings of the masses of the people and deliver the speeches which they have delivered today, they will have a reception that will astonish them, or I am mistaken.

ST. JOHN'S NOTICES

Thursday—Ascension day.

10 a.m.—Holy Communion.

8.00—Choral evensong with addres Choristers assemble at 7.45 instead of at 8 p.m.

Friday, 2.00—C. W. A. sewing meeting.

Saturday, 9.00—Boys' choir practice.

ADVERTISE IN THE REVIEW.

Canadian General Electric Company, Limited

for

Everything Electrical

Nowadays the modern home is "run electrically." Electric labour-saving devices have eliminated the drudgery and hard work from housekeeping.

Illustrated are a few C.G.E. electric appliances which have helped to make electricity the friend of the housewife.

Four Heat Electric Grill
Broils, frys, toasts and stews. Will cook an entire meal for three persons right at the dining table.
Electric Bell-Ringing Transformer
No need to have a door bell that won't work. One of these little devices attached to your house circuit will enable you to have the bell always working
Electric Vibrator
It stimulates and invigorates the entire system, removes in Nature's own way the causes of pain.
Electric Sewing Machine Motor
Easy to attach and easy to sew. Instantly changes your sewing machine into a self-operating, electric-driven machine. When not being used as a sewing motor, can be converted to perform many household duties.
NO BELTS TO SLIP, BREAK OR BOTHER WITH. NO WASTE POWER.
"Sovereign" Electric Irons
Sold under a guarantee of one year. All metal parts highly nickelled; black handle. The most serviceable electric iron on the market
Electric Toaster
One of the handiest, most attractive and most appreciated electrical home devices.
Pull Chain Socket
Makes all lights accessible to every member of the family.
Electric Heating Pad
The only pad which will maintain a given temperature without fluctuation.

Last year this Company paid out in wages over five million dollars. This large sum paid to Canadian work-people was spent in our own country and thereby every class of the community was benefited to a greater or lesser extent. It costs no more, and often much less to buy Canadian made goods, and in that manner keep Canadian money circulating in our own country instead of sending it abroad for the benefit of labor in a foreign country.

DEALERS EVERYWHERE SELL C.G.E. PRODUCTS.

Consumers making direct enquiries will be referred to nearest dealer.

Save the Money You Waste and Make It Earn You More Money

How much of your wages do you fritter away each week on trifles?

If you reckon it up you will probably find that at least five per cent. disappears thus "like snow wreaths in thaw."

If your weekly wage is $15.00 you spend easily 75 cents of that on "mere nothings" before you know it.

But suppose you said to your employer: "Each week I want you to keep 75 cents out of my pay envelope and invest it for me in War Savings Stamps. As you buy each War Savings Stamp put it in my pay envelope, and go on doing that for a year."

You will never miss that 75 cents. But at the end of the year you will have over $36.00 invested in Savings Stamps. By then they will be worth considerably more than $36.00, and by 1924 they will be worth $45.00.

In May W.S.S. Cost $4.04

In June W.S.S. Cost $4.05

War Savings Stamps are guaranteed by the Dominion Government. They have the whole resources of Canada as their security, the same as Victory Loans. And they bear an unusually high rate of interest. You can cash them at any time, however, if you need to.

BUY W-S-S WAR-SAVINGS STAMPS

War Savings Stamps can be bought wherever this sign is displayed.

Make Your Savings Serve You and Serve Your Country—Invest Them in War Savings Stamps.

DRIVER DUNSFORD IS THROWN FROM SULKY IN THE 2.30 RACE

Mix-Up in Exciting Contest Almost Resulted in Tragedy—Game Mare From Port Hope Wins First Money Despite Accident—Winners in Saturday's Sports.

To have his driver thrown from his sulky and both he and his horse counted out of the running by the spectators, and then to have the same horse win the next two heats and the race was the experience of Mr. S. J. Palmer, of Port Hope, at the races held under the auspices of the Great War Veterans' Association of Peterborough Saturday afternoon. The accident occurred in the third heat of the 2.30 race. Maud Tariff was slightly in the lead at the first quarter with Birdie Wilkes a close second, Mona Hall third and Dan Direct well back. The leader broke and swerved sufficiently to force Birdie Wilkes to break also, throwing her driver, Benjamin Dunsford, off his seat. Mona Hall crashed into the driverless horse and both went down in a heap. Horses, harness and sulkies were badly mixed up and it was some minutes later before the other driver emerged. Meanwhile Dunsford had been carried off the track and first aid rendered by Drs. Young and Woods.

It was found that Dunsford's left wrist was dislocated, and he had undergone a severe shaking-up; an automobile was sent for, but he insisted on remaining on the grounds to the end of the race, to cheer for the horse that he felt sure would win in spite of the accident.

No Medical Attendance.

"I think it is a disgrace," said Dr. Young to the Review, "that the care for anyone injured at meetings of this sort should be left to chance. This is a matter that I have brought to the attention of the Exhibition Board several times but nothing has ever been done. A tent should be provided with the few simple remedies required for first aid with a trained nurse in charge, and a doctor appointed to be on the grounds."

Outside of this accident everything passed off just as the Ontario Safety League desired. The weather man was evidently in a very sulky mood all morning, and seemed about to spoil the holiday for thousands of pleasure-seekers, but after all it didn't rain, and the events were run off according to the program.

Two horse races were held, a purse of $200 being put up in each event. Of this the winner received $100, the second $50, the third $30 and the fourth $20. In the 2.30 trot or pace, Birdie Wilkes, owned by S. J. Palmer, of Port Hope, came first; Maud Tariff, belonging to David Fife, second; Mona Hall, another Port Hope entry, owned by Mr. Caldwell, came third, and Dan Direct, the property of Edward Jones of this city, was fouth. The best time was in the second heat when Birdie Wilkes won in 2.30, but even after the accident she won both the fourth and fifth heats in 2.32.

The result by heats was as follows:

First heat—(1) Maud Tariff, (2) Mona Hall, (3) Birdie Wilkes, (4) Dan Direct.

Second heat—(1)—Birdie Wilkes, (2) Mona Hall, (3) Dan Direct, (4) Maud Tariff.

Third heat—(1)Maud Tariff, (2) Dan Direct.

Fourth heat—(1) Birdie Wilkes, (2) Mona Hall, (3) Maud Tariff, (4) Direct.

Fifth heat—2) Birdie Wilkes, (2) Mona Hall, (3) Maud Tariff, (4) Dan Direct.

Mona Hall was very unfortunate drawing four seconds but never breaking into first place. The fifth heat was the closest finish in either event, Birdie Wilkes only winning by a neck.

Six heats were necessary in the free-for-all to enable Jim Elliott, owned and driven by William Elmhirst, to win first money. Adrian Poynter, owned by Mr. Johnson of Port Hope, came second; Little Wana, Mr. Stapleton's horse, was next, while Mr Moyse's Lady of the Lake, got the low prize. The best time was in the fifth heat, Adrian Poynter going around the circuit twice in 2:25. The result by heats was:

First heat—(1) Little Wana; (2) Jim Elliott, (3) Lady of the Lake, (4) Adrian Poynter.

(1) Adrian Poynter, (2) Little Wana, 3) Lady of the Lake, (4) Jim Elliott.

Third heat—(1) Jim Elliott, (2) Adrian Poynter, (3) Lady of the Lake, (4) Little Wana.

(1) Jim Elliott, (2) Little Wana, (3) Adrian Poynter, (4) Lady of the Lake.

Fifth heat—(1) Adrian Poynter (2) Little Wana, (3) Jim Elliott, (4) Lady of the Lake.

Sixth heat—(1) Jim Elliott, (2) Little Wana, (3) Adrian Poynter, (4) Lady of the Lake.

On the judge's stand were Mr. Harry Winch, the official starter, Mr. Jake Brookes, the scorer, and Mr. Jno. Gillespie, timekeeper. The exhibition grounds on which the races and other sports were carried on was loaned to the G.W.V.A. free of charge by the Exhibition Board.

Other Sports.

The dealers' two-mile special bicycle race was won by Eastwood in 7 minutes and 45 seconds, on a very heavy track.

Winners	Bicycles	Dealers
1.—Eastwood	Ivanhoe	Millard
2.—Loescher	Massey	White Bros
3.—King	Brantford	Ashby

The mile bicycle race was much slower, Eastwood winning in 4.59:

(1) Eastwood, (2) Frick, (3) Gordon.

The half-mile bicycle race gave Eastwood his third win, this time in 1.28:

(1) Eastwood, (2) Frick, (3) Loescher.

Boy Scouts' Novelty.

The boy scouts staged a novel race, running 50 yards, picking up a partner and carrying him back. Whitlow made this in the good time of 16 seconds.

(1) Whitlow, (2) Whitecroft, (3) Purvis.

100 yards race (time, 13⅘ secs.)—(1) Frick, (2) Loescher, (3) Gauthier.

Half-mile race—(1) Porteous, (2) Legon, (3) Beube.

Running broad jump—(1) Porteous 15 ft. 4 in.; (2) Legon, 14 ft. 7 in.; (3) Frick, 14 ft. 5 in.

In the running high jump Loescher, with only one opponent, made 4 ft. 8 in.

The Officials.

Mr. W. Dalliday acted as secretary of the athletic games. Messrs. Thos. Hooper and Chris. Graham were the starters, while Messrs. A. T. Roper and Douglas Loomis acted as clerks of the course. Mr. H. R. H. Kenner handled the pistol in the bicycle races.

TO DARKEN HAIR APPLY SAGE TEA

Look Young! Bring Back Its Natural Color, Gloss and Attractiveness

Common garden sage brewed into a heavy tea with sulphur added, will turn gray, streaked and faded hair beautifully dark and luxuriant. Just a few applications will prove a revelation if your hair is fading, streaked or gray. Mixing the Sage Tea at home though is troublesome. An easier way is to get a bottle of Wyeth's Sage and Sulphur Compound at any drug store all ready for use. This is the old time recipe improved by the addition of other ingredients.

While wispy, gray faded hair is not sinful, we all desire to retain our youthful appearance and attractiveness. By darkening your hair with Wyeth's Sage and Sulphur Compound, no one can tell, because it does it so naturally, so evenly. You just dampen a sponge or soft brush with it and draw this through your hair, taking one small strand at a time; by morning all gray hairs have disappeared, and, after another application or two, your hair becomes beautifully dark glossy, soft and luxuriant.

REV. DR. MOORE HERE TO-MORROW

The annual district meeting of the Methodist Churches of the Peterborough district will be held in George Street Methodist Church on Tuesday and Wednesday of this week. The ministerial session will open on Tuesday at 2 p.m. and the general session for ministers and laymen on Wednesday at 8:30 a.m.

Rev. Wm Higgs of Millbrook, the chairman of the district, will preside.

On Tuesday evening at 8 o'clock there will be a public meeting which will be addressed by Rev Dr. T. A. Moore, of Toronto, the general secretary of the social service work of Canadian Methodism His subject will be "The Church and the Present Crisis." A hearty invitation is extended to the public to attend this gathering.

Knights of Columbus Made Good

(John B. Kennedy in The Outlook, New York.)

A new and interesting chapter was written into the story of American social progress when the American masses realized that the Knights of Columbus had won their spurs as a public service organization and in the cordial enthusiasm of that realization supplied the knights with their munitions of mercy—a war fund which more than doubled the assets that the knights had built up for themselves in 35 years of existence.

There is no use blinking at the fact that the knights were not generally regarded with the greatest trust before they had met the highest test of public-spiritedness by spending hundreds of thousands of dollars of their own money on everybody's brothers and sons so long as those sons and brothers wore the nation's uniform. The K. of C. were insufficiently known. They had never projected anything like organized publicity, and whatever publicity they received, was strangely enough, concerning the last important part of their work—their banquets and public ceremonials. The public did not know that for many years the knights had been upbuilding a fraternal insurance organization of rather unique strength.

Minimum Overhead.

Probably not a working majority of the people who contributed to the war fund of the K. of C. for the great war had any idea that the society was experienced in war relief work, and probably the experience of spending their own money economically and with maximum efficiency at the Mexican border was the best possible experience (even though a substantial one financially) that the knights could have had, for it taught them the most essential lesson for any who undertake work at public expense—that a minimum overhead covers a multitude of mistakes. Without vainglory it can be written that the knights have seized and held the minimum overhead (it is less than two per cent. of their total fund) while avoiding the multitude of errors.

Going into war relief work on an vast scale, they were unpreceded by trumpet-blowers and drum-bangers. It was simply a case of success speaking for itself. The knights, with the truly American character of their knighthood, saw that they had undertaken a big job, and they did it. Being no less children of this work than crusaders towards the next, they foresaw that a press not loud in praise of their good deeds might become inexpressibly strident if they should miss their step and commit doubtful ones. So they proceeded with caution all the way.

Free Smokes and Candy.

In so basic a matter as the construction of camp building they argued that one crowded building with free smokes and a handful of candy for every man in the crowd was a better war relief proposition than two buildings with elbow space galore, but no free smokes and no free candy. They also took grave counsel to themselves concerning the religious feature of their work.

Serving none other than Catholic soldiers religiously, they argued that these men were in conscience bound to observe their religious duties. Therefore it was unnecessary to remind them that mass was said in K. of C. huts on Sunday mornings. As for the soldiers who were not Catholics, it was the knights' business to be solicitous regarding their comfort, not their consciences. Thus it is seen that, while effectively placing means for religious practice before the Catholic boys, the knights avoided even the mention of religion to non-Catholics, who frequented their huts in just as large numbers as the Catholics.

In addition to following this eternally successful rule of not meddling in the personal affairs of others the knights, with the empiric wisdom that guides all plain men who strive to do good in a straight-forward way, adopted the policy of giving the men what they wanted rather than what they should want. So at the K. of C. huts throughout the land strange spectacles might be witnessed—potpourri shows of vaudeville, movies and prize-fighting.

Crowd Enjoys Boxing.

The re-organized attitude is perfectly illustrated by one anecdote. At Camp Meritt on a certain night two events were under way. In the K. of C. building a boxing carnival was proceeding with acclaim from boys who packed the building to the rafters. Across the street a lecturer was giving instruction to a group of thoughtful young men. The instructor finished his lecture and wandered over to the K. of C. hall whence issued clamor and the thud of gloves upon flesh. He expressed his surprise to a stout, amiable person mopping a sweaty brow as he stood on the building stoop that the Knights of Columbus should provide brutal sport for the nation's young defenders.

"Friend," the amiable person replied, pithily, "did the government train these young men to be ethical culture guys or to go over and knock daylight out of the Germans."

The question was of philosophical import. But it was adequately answered by many of the care-free young pragmatists who accompanied its utterance with hoarse yells of delight as Kid McCarthy dislodged the eye-teeth of Goat Bradley—answered by these young men at Seringes and Chateau Thierry.

Over in France the Knights found many opportunities for the display of native common sense and the practice of mother wit. The K. of C. secretaries went up to the front with privates as privates, and the hearty rebuff your money's no good with us was sung to all kinds and conditions of fighting men by every man with the K. of C. chevron on his arm.

The knights picked men of middle age who had boys of their own in the service and were in psychological state to treat all other boys vicariously as their own sons. Then, knowing that in the rush and turmoil of action company kitchens were often abandoned or destroyed, the knights rolled kitchens right up under fire—providing hot drinks to thousands of boys on entering and leaving the hell of battle.

The knights have made good because they placed themselves in the attitude of fathers to the boys, real fathers who know that their boys are real men. Their success has made it impossible for the old, riotous, religious prejudice to become rampant. And that is not the least profit America gains from the war. When men like Edward N. Hurley, Admiral Benson and Joyce Kilmer could be attracted to joining the ranks of the K. of C. before the organization earned its war vestige, it requires a giant of all proportions excepting one—fair-mindedness—to question the good will and good work of the organization now.

FOWLER'S PEBLO GLASSES

A CONTENTED MIND BRINGS HAPPINESS

Happiness is nothing but a contented mind; contented eyes go a long way toward a contented mind. If the eyes are not feeling right or giving as good service as they might, they will not be contented. Presentation To Miss Louisa Hann

At noon on Friday last the employes on the first floor, met together to make a presentation to one of their number, Miss Louisa Hanna, who was leaving the factory to be married.

Mr. Pilling, the foreman in the drawing department read the following address.

Miss Louisa Hanna,

We, the employes of the drawing winding, and shipping departments, of the Bonner-Worth Company have met today to wish you much happiness, long life, and prosperity on the occasion of your coming marriage.

We shall feel your loss, as you have been a cheerful and willing helper during the five years you have been amongst us.

However, our loss, will be some one else's gain.

We take this opportunity of presenting you with this beautiful reading lamp, and when using it we hope it will remind you of the time when you were working with us.

Signed on behalf of the employes.

Walter G. Worth, Asst. Mgr.
Allan Pilling, Foreman.

Lieut. Walter G. Worth made the presentation and spoke on behalf of the management, and said he echoed the sentiments in the address read by Mr. Pilling He added that Miss Hanna was one of the few girls who were in the employ of the company, before he went overseas. He thought it a good thing, that there existed such a feeling of good fellowship amongst the work people, as that shown in the presentation of such a beautiful hand painted reading lamp, and he hoped Miss Hanna would treasure it as a memento of the high esteem in which she was held by her fellow employes.

Miss Hanna made a suitable reply, and then the employes with one voice sang "She's a jolly good fellow."

AGED FARMER TAKES OWN LIFE

CHRISTIAN KRUGER OF OTONABEE, 93 YEARS OLD, HANGS HIMSELF.

Christian Kruger, aged 93, a native of Germany, was found dead in his room Friday evening. He had gone upstairs after dinner in his usual health, and no trouble was suspected by the rest of his family until he failed to put in an appearance for supper. On going to his room they discerned the body of the dead man hanging by a rope. He was a retired farmer of the Township of Otonabee, and his wife had predeceased him several years ago. The cause of death as given by Dr. T. N. Greer, coroner, was suicide by hanging and no inquest was held. The remains will be interred in Little Lake Cemetery.

STORE-BREAKER ARRESTED TODAY

MAN WANTED IN LINDSAY FOR BURGLARY ARRESTED BY SERGT. BLADE.

Police Sergeant Blade has arrested the man wanted for breaking into J. Howzer's store, Lindsay, on the night of May 22nd, and stealing therefrom a quantity of jewelry, etc.

At 8 o'clock this morning Blade noticed a man answering the description of the Lindsay suspect standing in front of Yeotes Bros.' cigar store, and he promptly placed him under arrest. A search of the prisoner at police station brought to light a quantity of the missing goods, and the remainder was found in prisoner's room in the terrace on Charlotte street, just east of the G.T.R. station. Prisoner, who gave his name as C. Brew, admitted his guilt, and Lindsay's chief of police, John Short, has been notified of his arrest.

With the exception of a half dozen cuff buttons the whole of the stolen property has been recovered. The stolen goods consists mainly of jewelry as follows:

1 watch (21 jewel), 1 watch (15 jewel), 1 watch (7 jewel), 1 case for watch, 185 fortune, S. B. engraved, engine engraved on back, gold filled; one dozen tie clips, 2 dozen Kumport's cuff buttons, 1½ dozen gold filled cuff buttons, 1 dozen tie pins, small patterns; 2 dozen four-in-hand ties, flowered patterns; 2 dozen arm bands, 1dozen packages batchelor buttons, 1 gold filled watch chain, large links; 2 suits.

BENEFIT CONCERT FINE PROGRAM FOR

The following program will be presented at the entertainment being held for the benefit of the Laborers' Union at Victoria Hall tomorrow evening, commencing sharp at 8 o'clock:

Recitation—J. Johns.
Song—Miss Allen.
Step Dance—J. Houlihan.
Comic Song—C. Coleman.
Banjo Selection—F. Clark.
Dialogue—J. Primeau.
Monologue—George Lynch.
Step Dance—M. Murty.
Song—H. Lee.
Organ Recital—Ted. Andrews.
Song—Mr. Bartley.
Trio—Messrs. Bartley, Cairns and Lee.
Sketch—Messrs. George Wesley and Morphet.
Song—Miss Kemp.
Ten Minutes of Magic—H. Lush.

THEATRICAL

MARGARET ANGLIN,
in "Billeted," at the Grand, Tuesday evening.

MARGARET ANGLIN AT GRAND TUESDAY

CRITICS SAY HER PERFORMANCE OF "BILLETED" IS DRAMATIC PERFECTION.

When Margaret Anglin "Our Margaret" steps before the footlights at the Grand Opera House tomorrow night in her delightful English comedy of love "Billeted," by F. Tennyson Jesse and Major H. M. Harwood of the British Army, there is every indication that the capacity of the theatre will be tested, not only on account of the popularity and exalted position occupied by Miss Anglin in the dramatic firmament, but also because she has in "Billeted" one of the greatest comedy successes of her career. "Billeted" is a charming play cast in the mold of high comedy touched with farce. The play is in three acts and relates the story of an attractive and engaging widow who has been notified that two army officers are to be billeted with her.

The meddling sister of the village vicar discovers that she (the widow) has merely been abandoned by her husband and is therefore no fit person to entertain "lonely soldiers" under the same roof. The widow however [illegible] to be so suspiciously put [illegible] She may have been abandoned, but she is not an abandoned woman, and she prepares to prevent a threatened scandal. To do this she fabricates and forges a telegram to herself detailing the death in Africa of her absent spouse. She has no sooner done this than she discovers that the last officer to arrive is the husband himself. Then follows a series of humorous complications in rapid succession throughout the three acts. There is a fine flavor of common sense and plausibility in their development and both a literary and epigramic quality in the dialogue. The widow and husband, who is in the army under an assumed name, are forced, by their pride and social position in the circumstances to continue the masquerade until their mutual confessions of failure to be happy without each other, reunite them. "Billeted" has had long and successful runs in New York and Chicago and Boston. The central character affords Miss Anglin the best comedy role she has had in years and she has so perfectly cast and staged the comedy that the performances are nearly one hundred per cent perfect. The supporting company includes Harry Barfoot, Langdon Bruce, Myra Burrington, Fred Eric, Sally Williams, Phyllis Birkett and Ralph Kemmet. The stage decorations were made from designs by Livingston Platt, art director for Miss Anglin.

Keith Vaudeville First Run Pictures At Grand This Week

"The Reason Why," by the famous English authoress, Elinor Glyn is Clara Kimball Young's latest Select Picture; it will be shown here at the Grand, on Thursday, Friday and Saturday. The scenario is by Mary Murillo and the direction by Robert G. Vignola.

Clara Kimball Young creates the role of Yvonne Marinoff widowed by the murder of her husband, a cruel prefect of police, at the hands of an infuriated mob. As she is fleeing that night with her seven-year-old son, Mimo, she comes upon a dead woman who resembles her completely and on whose body she finds an invitation from her Uncle Francis Markrute, inviting her to live with him in London, although he has never seen her.

Yvonne goes to London; there she meets and marries at her "uncle's" wish, Lord Tancred, of Wrayth Hall. It is a case of mutual love at first sight, but after she overhears Markrute speak of her dowry, her sentiments are chilled. Her husband misunderstands her actions and their underlying motives and it is only after a series of mishaps that she makes her confession and they discover their true love.

"The Reason Why" is a remarkable photoplay involving English high Society, portrayed by Clara Kimball Young and her own company, and produced in the excellent manner which motion picture audiences have come to expect in a Select picture.

Ethel Barrymore in "The off Chance" At The Grand Thursday Eve. June 5

Under the most delightful circumstances in the same charming comedy in which she appeared for the larger part of the last season at the Empire Theatre in New York, Ethel Barrymore is to be seen here at The Grand Opera House for one performance Thursday evening, June 5th.

She comes in "The Off Chance," a comedy by R. C. Carton, so agreeably recalled for his "Lord and Lady Algy," "Wheels Within Wheels," "The Squire of Dames," and "Liberty Hall." Of all the plays in which this most popular and beloved of American actresses appeared during her entire season last year in New York, a repertoire including also "The Lady of the Camellias," and "Belinda," none established itself more promptly or favorably in the estimation of the Barrymore audiences than did "The Off Chance." Accordingly, it was chosen by Miss Barrymore and the Charles Frohman Company as the vehicle of her coming tour. Since this tour is to take her to only the principal cities, in many of which she has not been for several seasons, each engagement promises to be little less than a triumphant ovation.

Miss Barrymore's role in "The Off Chance" is of the kind in which American audiences love best to see her. She is Lady Cardonnell an Englishwoman of charm and distinction middle-aged, divorced, but who, now re-married, turns up in an effort to help her young daughter over a martial difficulty. The daughter's husband is about to run away to Vienna with a famous dancer. Lady Cardonnell and the daughter have not met since the latter was a tiny girl. Neither is Lady Cardonnell known to her son-in-law. Thus unidentified, she proceeds to smooth out the tangle. She is by no means the mother in law of tradition in appearance or manner, and, as might be guessed, her methods in solving the tangle are equally unusual and amusing. Needless to say, her efforts meet with enormous success and amusing situations follow closely upon one another until the identity of the beautiful Lady Cardonnell is revealed.

A distinguished company portrays surrounding roles. It includes Eva Le Gallienne, Marcelle Roussillon, Anita Rothe, Cecilia Radcliffe, William Boyd, Edward Emery, Joseph Brennan, Harry Plimmer, Albert Gran and others.

TO-NIGHT'S BILL AT THE GRAND

ELSA RYAN AND STAR COMPANY IN "TEA FOR THREE."

Met a lover, fascinating and brilliant, a wife, loyal but lonesome, a husband stodgy and neglectful and in three acts of sparkling humorous dialogue and unique extremely original situations, watch the three above mentioned characters extricate themselves from what promises to be a rather complicated condition of affairs and establish a triangular friendship which bids fair to be a permanent one.

Briefly, this describes the plot of the tale told in "Tea for Three," the comedy by Roi Cooper Megrue which Miss Elsa Ryan brings to the Grand tonight and in which she has the assistance of Norman Hackett, Hayden Stevenson and others. Much has been said and written about "Tea for Three," since it has been occupying the stage of the Maxine Elliott Theatre, New York the past 12 months. Mr. Megrue the author has been compared favorably with Bernard Shaw in his work in "Tea for Three," which is agreed to be the cleverest thing he has so far written. Selwyn and Company are the producers and have staged the piece beautifully and appropriately. Miss Ryan, who is known for her clever acting in "Out There" and "Peg O' My Heart," does the best work of her career as Doris, the young society wife, and looks ravishingly dainty and chic in a number of smart modish gown creations. The piece comes here direct from the Royal Alexandra, Toronto, where it played to capacity audiences last week.

ALD. PHELAN MAY REVISE TABLE

CHANGES IN WAGE SCALE AT GALT SINCE HE REPORTED.

Some time ago Ald. Phelan wrote to different cities in Ontario to ascertain the wages paid civic laborers and the number of hours they were required to work daily, and at a recent session of the Council regaled his fellow aldermen with the information he had acquired and tabulated. One report stated that in Galt laborers were working nine hours a day for 25 cents an hour. These figures may have been correct when they were quoted to Ald. Phelan, but it is now up to the latter to revise his statistics.

A Saturday despatch from Galt says: A dispute between the corporation of Galt and the board of works employes with regard to wages and hours of work has been settled. The men ask for an eight-hour day and 45 cents an hour, but have accepted the offer of the city for an eight-hour day and 45 cents an hour to all men receiving the present maximum of 36 cents an hour, the men receiving less than 36 cents an hour to be paid on a sliding scale from 35 to 45 cents an hour; work on Sundays only is to be considered as overtime to be paid for time and a half.

ATTEND LECTURE BY MRS. McCLUNG

The executive of the Women's Voters' League wishes to call the attention of the members of the league to Mrs. McClung's lecture on [illegible] evening in St. Paul's Church.

This lecture on "Woman's Part in Re-construction," under the auspices of the Ontario Women Citizens' Association, in Ottawa last week, and it was enthusiastically received.

The lecturer is an authority on the matters that are of vital interest to the Women Voters' League of Peterborough so the executive of this league has decided to postpone the meeting planned for Tuesday of this week and to request the members to attend this important lecture instead, on Thursday evening, May 29th.

AT THE GRAND

A splendid comedy entitled "Turn to the Right" was the attraction at the Grand on Saturday and was much appreciated by large audiences both matinee and evening.

The story is one with a fine moral running through it and shows the wonderful influence of a good woman. There is no villain and no melodramatic scenes, nothing, in fact, but pure, refreshing comedy throughout.

The first scene opens in a pawn shop near the famous Sing Sing Prison and shows the hero of the piece exchanging the suit supplied him by the prison authorities on his liberation for one of a quieter tone. He is met here by a couple of his old cronies, who want him to join them in "cracking another crib." This he refuses to do, declaring that he is going straight from then on.

He is next seen at his mother's home, where he just arrives in time to save the farm. His mother, being in financial difficulties, had agreed to exchange her farm for one of smaller proportions to Deacon Tillinger. The son pays the debt to the deacon in a rather amusing way and with the assistance of his two former associates proceeds to work on the peach crop.

Mrs. Bascom is a jam maker par excellence, and her product is put on the New York market with the result that in the last act one sees all concerned wearing dress suits and dinner gowns and fairly bursting with prosperity.

The scenic and lighting effects are particularly well arranged and the costumes displayed by the ladies of the cast were really beautiful.

UNCLE TOM'S CABIN

Once again, that play Uncle Tom's Cabin, that is old yet always new grasped and held the sympathetic attention of a large audience when it was staged at the Grand Opera House, last Friday night.

The old pathetic appeal of the story carried the crowd away and they laughed with Topsy, sighed with poor old Uncle Tom, and so on lending appreciating interest until the end. It is no wonder that this play should reach out and touch the heart and imagination of a group of people. In educative entertainment its portrayal of the triumph of right over wrong, it leaves in the mind of the one who beholds a yearning for, and true conception of what is really noble in life a tolerance for the weaknesses of others and an inexplicable feeling that this old day in and day out world is not such an unlivable place after all.

"Tea for Three"

April 22,1919

The Salada Tea Company,
TORONTO

Gentlemen;

Permit me to express my appreciation of your product. Since beginning my Canadian tour in "TEA FOR THREE" I have discovered that after a fatiguing day, a cup of tea refreshes and stimulates me delightfully. But until I tried SALADA, I feel I never really knew tea. Its fragrance is delicious and its effect most beneficial.

Cordially,

Elsa Ryan

The foregoing letter is only another illustration of public appreciation of the exquisite quality of "SALADA TEA". Miss Ryan not only prefers SALADA in private life but has chosen it for exclusive use at every performance of "Tea for Three".

Bronze is all the rage now, but some people continue to exhibit a great deal of brass.

An enemy knocks a man down and then a friend proceeds to kick him.

A FEW FACTS CONCERNING THE BIG BOUT AT TOLEDO

Suggestions Given Upon Which Fight Fan May Base Opinions as to Final Results.

A few facts about the big contest at Toledo are in order now that the permit has been issued by the Ohio boxing commission, and the Willard-Dempsey bout is assured. A lot of detail matter has to be arranged that the ordinary fan does not consider. To commence with the bout is of twelve rounds duration; that is, 36 minutes of actual fighting and 12 minutes rest between rounds—in all 48 minutes.

What makes the matter a hard proposition is the fact that the bout is to decision, and in case of both men being on their feet at the end of the twelfth round the referee will be compelled to render his opinion naming either Willard the winner, Dempsey the winner or calling the affair a draw.

Particularly does it make the third man's job a hard task in that the whole sporting world is looking at him and he cannot afford to make a false move. Another thing is that fouls are to be considered and great care must be shown to put a person in charge who knows what is what, that rules are rules and that discretion must be used at all times to avoid future trouble.

Titles Won on Decision

History shows that on two occasions championships have been won on decisions. Willie Ritchie lost to Freddie Welsh in England in a twenty round contest and many a ring side thought that Ritchie had really the best of the argument, but the referee thought differently and a new champion of the world was created. Again, Johnnie Kilbane won the championship from Abe Attel on a decision. Other battles have been by the knockout route.

In this contest the two men are different types of battlers. One of them, Dempsey, likes to get into close action and "bull" his opponent; the Willard, like to bide his time and wear his adversary down by hits and with the psychological moment comes—the finish.

Of course if either lands a knockout the third man's job is an easy proposition but don't think for a moment that the promoters are not a little uneasy themselves pertaining to that point.

All Goes With The Game

The press agents are busy telling you how Willard will jab for smaller opponent to sleep and the Dempsey people will tell you just how, what round and what hand he will land on Willard. Of course that all goes with the game and different opinions are what makes betting. Like any line of sport one has to take the opinion of the people who look at things in their true colors. Oftentimes I have seen twelve people setting at the ringside when in a mix-up one of the contestants would be knockout.

Each of the twelve would have a different version of the punch, one claiming that so and so landed a beautiful inside cross, another a left flush on the chin, and a third fellow would be just as positive that their heads came together in a clinch. So the fan has to take the news and use his own judgment too to a certain extent.

A man to be a good judge of fighting in the first place has to be cool and not in any way affected by personal friendship. He must see the good side of each opponent and give credit where credit belongs. Don't for a minute figure that the other fellow hasn't a chance for that doesn't get you anything.

In the old days I was financially interested in clubs and fighters and always tried to win. Making a good match is half the game, but the promoter has to keep the spirits and the morale of his charges above par. That is absolutely esential and necessary. A man who is training will fret—the gamer the man the more he worries.

Even a horse in training for a race becomes nervous and is liable to go off color at any time. It requires amusements and associations to divert the mind in the modern way of training. The routine must be changed from time to time to break the monotony. Work day in and day out beocmes tiresome, and in race horse language the man becomes "track sore."

Prestige Gives Advantage

Willard has been through the fire; he has been through one championship battle, and that alone is certainly a big advantage. It gives him a certain edge that cannot be overcome.

Every body knows that Johnson tried to sell his wares before the match to the best advantage. No one, except Johnson, ever claimed that Willard was a party to any wrong-doing, so it is right to give him full credit for what he did. Under the circumstances he put up a wonderful fight, and Johnson himself the most surprised man in the ring that day, for after Willard found himself he was a bear both going and coming. In fact, he found his power, and the added experience and prestige as champion no doubt will get him the edge.

Dempsey while he has excellent qualifications and is well thought of, is against the champion of the world, and that will bother him to a certain extent, no matter what the press agents say. He is human and no differen to any other fighters that have come and gone.

The White Sox have a mascot this year. It is the black ball they heave around the diamond in practice before a game. Eddie Murphy is custodian of the peculiar looking sphere. If an opposing club wants to start something let it attempt to swipe this blackened leather.

Johnny Lavan will be with the Cards. Griffith was able to secure waivers on this naval official after much dickering and now Johnny is with Branch Rickey, the man who brought him to the majors.

Clark Griffith wanted to secure "Baby Doll" Jacobson from the St Louis Browns to take Zeb Milan's place in the outfield. No chance. This former gob is going great guns. He helped the Browns defeat the White Sox and take two straight from the Athletics. "Baby Doll" is in the cleanup position.

Chet Thomas is making a reputation as a coacher for the Cleveland Indians. He hopes to be able to yell the Indians into a flag. It is difficult to understand what Chet says. Guess he doesn't know himself.

This Week's Games At Water St. Alleys

Tonight Matthews-Blackwell vs. Lawn Bowlers.

Wednesday—Shamrocks vs. Turnbulls.

Friday—Bankers vs. De Laval.

Tonight's game between the Lawn Bowlers and Packers will be played at 8.30 on account of the ball game.

The last game of the ten pin league will be played Wednesday night between the Grocers and Matthews-Blackwell.

Ladder of Light Wins King's Plate

Toronto, May 26.—1—Mr. Geo. W Beardmore's Ladder of Light.

2—Mr. J. E. Seagram's Doleful.

3—Mr. J. E. Seagram's Hong Kong.

Tim, 2.05 2-5.

Although the sixtieth running of the King's plate was the only racing event on the program of the Toronto Hunt at Woodbine Park on Saturday, a great throng, representative of many parts of Canada, was in attendance and witnessed a thrilling struggle for the fifty guineas donated by his Majesty King George, and the $3,000 and plate added by the Ontario Jockey Club. Although the conditions of weather and track were not altogether favorable, the attendance was a striking demonstration of the popularity of racing. Rain threatened throughout the day and part of the horse show program arranged by the Toronto Hunt had to be eliminated because of a shower. There was no organized betting, the order in Council prohibiting same still being in effect.

Winner Second Last Year.

Ladder of Light, the winner, is a five-year-old brown mare, by Stanhope II.—Missing Link, bred by Mrs. L. A. Livingstone at her farm at Cobourg. In the King's Plate of 1918 Ladder of Light was second to Mr. George M. Hendrie's Springside. On Saturday she carried 122 pounds Pleasure Bent alone carrying more the Thorncliffe candidate having been allotted 126 pounds, Mr. Seagram sent Hong Kong, Galway and Doleful to the post. The latter, by Ypsilanti II.—Dolores III, was second, and Kong Kong, by Havoc—Royal [illegible] third.

PACKERS DEFEAT THE VETERANS

CITY LEAGUE GAME FRIDAY RESULTED IN 5-1 SCORE.

Matthew-Blackwell team and the Veterans played their first game of this season together at Riverside Park on Friday evening. By sheer hard luck in the first innings the Veterans lost to the Packers by a score of 5-1.

The Veterans took the field first. Johnston and Le Barr were the battery. Butcher came to bat for Matthews and simply beat the air. Shaughnessy did little better in a small tap that beat him to second. Lowe hit a nice easy one along third to Wade who fumbled it. Lowe was safe and the fireworks began. Hagerman singled to left field and Lowe came on to third. Hagerman, of course, was free to walk to second. Jackson singled to centre field, Lowe came in with Hagerman on his heels. Cunningham hit a single to Johnstone and everybody moved.

Cunningham stole second and came in on Holliman's hit.

Le Farre hit an easy one to Johnston and he was out.

So the Veterans gave Matthews four runs in the first innings with two out. Still they tightened up and only let one more across.

Both Johnston and Frost pitched well. Frost has a very dangerous curve that seemed to deceive the Vets best hitters.

The final score was five one for Matthews-Blackwell.

Matthews-Blackwell.

	A.B.	R.	H.	E.
A. Butcher	4	1	3	0
Shaughnessy	4	0	1	0
Lowe	4	1	1	0
Hagerman	4	1	1	0
Jackson	3	1	1	0
Cunningham	3	1	1	0
Holliman	3	0	0	0
Le Farre	3	0	0	0
Frost	3	0	1	0

Hit by Frost—1.

Johnston	2	0	1	0
Darnard	2	1	1	0
Le Barr	2	0	1	0
Hargrove	2	0	0	0

PETES LOST TO THE OSHAWAS

The Central Ontario League season opened on Saturday with the Petes at Oshawa where they were defeated by a score of 12 to 3. It rained throughout the game, the field was heavy, and as Manager Solmon's boys are not mud larks the odds were against them. In the Petes' last time at bat the manager went in as a pinch hitter and put the second ball pitched to him over third base for a single. The final score was:

	R.	H.	E.
Petes	3	5	9
Oshawa	12	13	2

Kirn and Soden were the battery for the Petes.

Lindsay on their home grounds defeated Port Hope by 5 to 1, and Belleville at Cobourg lost to the latter by 9 to 7 in a fourteen innings game.

The Orientals and De Laval will play tonight at Riverside Park, the game to be called at 6:30. McNeely and Head will be the battery for the Orientals. Tomorrow evening the local bill is a game between the Orientals and the Matthews-Blackwell team, with Kirn pitching for the former.

WILLARD TO TRAIN.

Heavyweight Champion Leaves California for Toledo.

(Canadian Press Despatch)

Toledo, O., May 26.—Jess Willard is due to leave Los Angeles today for Toledo to start training for the heavy weight championship battle with Jack Dempsey here on July 4th. The champion intends to stop off at Lawrence, Kansas, for four days with his family and then continue his journey. He is scheduled to arrive here the latter part of this week.

(Continued from Page One.)

upon from above.

The machine used by Lieutenant Nesbitt was one used at the Armour Heights, aviation grounds, Toronto, for training purposes. All the machines so used have been purchased by an American concern, to be put into commission for mercantile purposes.

SOCIAL AND PERSONAL

The marriage took place quietly on Saturday morning at St. Stephen's Church, Toronto, of Ida L., eldest daughter of Mr. and Mrs. T. F. Phillips, 135 Bathgate avenue, Toronto, to Mr. William Bradley, eldest son of Mr. and Mrs. R. E. Davis, of Peterboro, Rev. F. C. Wallace officiating. Miss Violet Phillips attended the bride while Mr. John S. Pringle attended the groom. Mr. and Mrs. Davis left for Niagara Falls and Buffalo and on their return will reside in Peterboro.

Misses Marjorie Hatton and Margaret Eastwood, of the Whitby Military Hospital, are spending the holiday in the city.

Among those who returned home from Toronto University on Friday night were Miss Claire Mason and Mr. Vincent M. Eastwood.

Mr. and Mrs. Robert Neill returned this morning from Montreal after biding bon voyage to their daughter, Miss Jean Neill, who sailed for Liverpool Saturday morning on the Scandanavian.

Mrs. G. Eversley West, who has been visiting her parents, Mr. and Mrs. A. W. Spence, Downie street, leaves today for her home at Smooth Rock Falls.

Word was received yesterday by Mr. A. W. Spence that his nephew, Lieut. Jess Ketcheum, had arrived from overseas. Lieut. Ketcheum went over with the 93rd Battalion and to France with the 20th Battalion. He is expected in Peterborough shortly.

Mr. and Mrs. T. F. Matthews, Miss Jessie and Master Jim arrived in Peterborough on Friday and opened their house for the holiday. Mr. and Mrs. Matthews will return to Toronto on Tuesday.

Mr. J. W. Stuart, 593 Homewood avenue, received a telegram stating that his son, Corp. Claire H. Stuart, of the 27th Battery, C. F. A., arrived in Halifax Sunday morning, May 25.

Lance-Corporal Stanley Kernaghan, three years overseas with the mechanical transports, will arrive home on the afternoon train from Port Hope tomorrow.

Dr. and Mrs. Cameron have gone to Toronto where the doctor will attend the annual meeting of the Ontario Medical Association, of which he is president. He will not be in his office again until Friday.

REV. MR. ROWAND LEAVES FOR WEST

POPULAR PASTOR STARTS TOMORROW FOR CHARGE AT MOOSE JAW.

Rev. W. L. H. Rowand yesterday concluded his two years' successful pastorate of St. Andrews' Church and took leave of the congregation whose best wishes he carries with him to his new field of labor. He leaves tomorrow morning for Moose Jaw to take charge of St. Andrew's Church in that city. Mrs. Rowand will remain here for the present to welcome her son, Lieut. Rowand who, since the signing of the armistice, has been court martial officer in England and who is expected to arrive home in a few days.

Rev. (Capt.) Rollins will reach the city at 5.30 Thursday evening and will be welcomed upon his arrival by members of his congregation. The Boy Scout's Corps of the church will turn out in a body to take part in the reception.

AUCTION SALE

NOTICE.

All captains of teams in the recent G. W. V. A. Drive are requested to meet in the Veterans' Rooms, George street, tonight at 7:30 sharp.

DR. G. S. CAMERON IS THE PRESIDENT

OF ONTARIO MEDICAL ASSOCIATION WHICH MEETS IN TORONTO TOMORROW.

The annual meeting of the Ontario Medical Association is likely to be one of unusual interest. May 27th, 28th, 29th and 30th are the days selected and the headquarters of the association will be located at the Mining building, University of Toronto, where most of the proceedings will take place.

The program will consist of general session and sectional meetings, and papers will be read by many of the members of the medical profession on Ontario, and by a few distinguished visitors from the United States and from England.

At the general even sessions which will be held in the auditorium of the Physics building on Wednesday, the 28th, and Thursday, the 29th, the public will be invited to attend, as the subjects under discussion are of such general interest. On Wednesday evening Dr. G. Stewart Cameron, Peterboro, Ontario, president of the Ontario Medical Association, will deliver the presidential address, after which the address on medicine will be delivered by Sir St. Clair Thompson, London, England, on the subject, "Shakespeare as an Aid in the Art and Practice of Medicine." On Thursday evening the subject will be "War Surgery," and will be discussed by a number of distinguished medical officers who have returned from overseas.

An address on "Obstetrics" will be given on Thursday afternoon by Prof. J. Maurice Slemons, of Yale University.

The medical section will also provide some very interesting material. On Wednesday afternoon there will be a "Symposium on Influenza," in which various aspects of the disease will be discussed under nine headings, by as many members of the profession. In view of the vast experience gained by the profession in the recent epidemic in respects to the various manifestations of influenza and the management of the disease, the subject will undoubtedly be intensely interesting, and it is likely that many valuable conclusions will be established.

On Thursday afternoon following the address on obstetrics, the members in general session will hear several papers on medical problems in respect to re-habilitation.

On Friday afternoon the meeting will adjourn on the invitation of the military authorities to the Dominion Orthopoedic Hospital, Christie street, Toronto, where the members will find much to interest them in the demonstration of the work in the various departments of the hospital.

The business of the association is largely transacted by the committee on general purposes, which consists of the executive and representatives from all organized medical societies in the Province. Reports of the committee and other business will be dealt with at business meetings of the association on Wednesday morning at 10 o'clock, and Thursday afternoon at 4.30.

The convention will open with a meeting of the committee on general purposes at the Kink Edward Hotel on Tuesday, May 27th, at 2 p.m. On Tuesday evening there will be a round table dinner at the hotel, at which some matters of particular interest to the profession will be generally discussed.

On Thursday and Friday at 12.30 p.m. the members will lunch at the King Edward Hotel and will be addressed on Thursday by the Honorable W. D. McPherson, Provincial Secretary, Province of Ontario, and on Friday by Col. George H. Williams, Assistant Director Chaplain Services Eastern Ontario, recently returned from overseas.

To entertain the members and their wives, Sir John and Lady Eaton are giving a garden party at "Ardwold" on Wednesday afternoon, May 28th, at 4 p.m. The ladies are also being invited to join the members at the Dominion Orthopoedic Hospital on Friday afternoon at 4 p.m.

This being the "Victory Meeting" of the association and in view of the many medical problems arising out of the war and present conditions of medical education and practice, it is expected that the meeting will establish a new record in the matter of attendance and interest displayed.

THE PEOPLES' CHIMES

The peoples' chimes rang out merrily on Saturday morning from 11 a.m. to 12 a.m. Mr. R. J. Devey played a varied selection of hymn tunes, patriotic airs, and well-known songs, interspersed with some fine change ringing.

BOY SCOUTS DRIVE HUNS FROM THEIR LAST TRENCH

Well Trained, Husky, Young Canadians Give Splendid Presentation of Military Tactics at Exhibition Park Saturday Night.

After assisting the G. W. V. A. in their drive all week, the Boy Scouts were a marked feature of the program on Saturday, especially in the evening. One German trench remained uncaptured, so Scout Master Blake put it up to his Samn's Own Troop to go over the top with the Veterans and get it. All due preparations were made, as it was felt that the enemy, being driven to his last ditch, would likely offer a stubborn and bloody resistance. The artillery prepared the way by a heavy bombardment; and then, well protected by a barrage, our lads advanced. Close in their rear followed the stretcher-bearers to see that those who fell upon the field of glory should not suffer a minute longer than could be helped. Meanwhile, the enemy in alarm attempted to return the fire, but it was noticed that most of his shells went wide and in many cases only served to light up the field of battle so that the boys of the red, white and blue could make a further advance. Gradually the fire of the enemy weakened, the Canadians made a final charge, and the few survivors threw up their hands with the well-known cry of "Kamerad." The spectators generally declared that this was just as realistic an exhibition of war as they ever wished to see in Peterborough.

Vimy Troop's Long Hike.

At 8 a.m. on Saturday the Boy Scouts of Vimy Troop gathered together at the home of Scout Master W. D. Tyrer, 174 Aylmer street, to march out to Nassau. They had a complete camping outfit including tents to shelter them from the threatened rain, which were placed on a trek wagon drawn by seven volunteers. Aftr thoroughly enjoying themselves all day they marched back to the exhibition grounds with their bugle band playing, led by flag-bearers Allan Neil and Emmerson Preston. Here they acted as a special guard to see that no man got on No Man's Land.

Lost Children.

The policemen were kept busy at the grounds bringing lost children and their parents together. The clowns in the evening were so funny that the little ones forgot to keep a tight hold of their daddy's or mammy's hand, and were taken in charge by a big friend in blue. Little Wellington Ferguson, three years old, was one of the stray-aways whose name was called out from the stage, but several other parents were waiting at the gates till their youngsters came out with the crowds.

A BRITON'S WATCHWORD IS THE SINGLE WORD "DUTY"

Rev. F. E. Malott Preaches Interesting Sermon to Members of Landsdowne Lodge S.O.E.

The members of Landsdowne Lodge Sons of England, attend in a body the evening service at Trinity Methodist Church yesterday. The pastor of the church, the Rev. F. E. Malott, preached an appropriate sermon from Luke 17:10, "When ye shall have done all the things that are commanded you, ye shall say we have done that much it was our duty to do."

The entire emphasis in the sermon was on the word "duty." Mr. Malott had announced as his theme "A rBiton's Watchword." This he took to be "duty." The men and women whose names have been inscribed on the roll of fame have been those who enthroned duty. Apt illustrations of this were given from the lives of men like Nleson, Wellington, Haig and others.

Th speaker called attention to the fact that we have just celebrated the 100th anniversary of the birth of Queen Victoria, and he reminded his hearers that her life was a fine illustration of the theme of the sermon. Viscount Eshor, who edited the letters of Queen Victoria, says that these give ample evidence of her devotion to duty and to the interests of her people.

The war brought an ew sense of obligation to many people who had become strangers to the meaning of the word duty. But there is still need that we learn this lesson. Too many continue to follow their own pleasure regardless of the many calls that come to them to live unselfish lives. "So long as we view national and community problems from the standpoint of our own special interests, we shal never do our duty," said the speaker. "We have grasped at the privileges of liberty and have forgotten it responsibilities."

A great philosopher defined duty as the obligation to act from reverence for law. "Above all other law is God's law," said the speaker, "and when men are obeying God's laws and are living in a right relation to Him and to their fellowmen, they are doing their duty and God expects every man to do his duty."

"tI is so easy to evade duty," said the speaker. "Self interest would continually turn us aside. Our feelings sway us so often and prevent us from donig what we know we ought to do, and then we are so often perplexed and find it hard to know just what we ought to do."

Carlyle's advice was quoted, "Do the duty that is nearest thee and the next duty wil then become clearer."

Many fine quotations and illustrations relieved the sermon which was followed throughout with the closest attention.

In closing, attention was called to the aims of the visiting order and to their splendid record. Since the incorporation of the society in 1874 no less than $3,359,455.46 have been paid out for various benefits to the members of the order and their families.

During the war 6,853 members of the order were on active service. Of these 745 were killed in action. The order paid in war claims $93,550.00. Lansdowne Lodge, with a membership of 200 sent 51 men to the front of whom 4 fell in action.

The choir made a splendid contribution to the service by sing the National Anthems of the Allies. These were the Italian, Serbian, French, Belgian, American, Canadian and British.

OBITUARY

JAMES BURNS

The death occurred yesterday morning at 1.30 at the corner of McDonnel and Reid streets of Mr. James Burns of this city. The funeral will take place tomorrow morning at 9 o'clock to St. Peter's Cathedral and thence to St. Peter's Cemetery for interment.

MARY McGRATH

The death occurred this morning at 260 Euclid Ave of Miss Mary McGrath. Deceased had been ill for some time and the end was not unexpected.

She leaves to mourn her loss two brothers, William and John McGrath and one sister, Mrs. Fred Bisonette, all of this city.

The funeral will leave the residence of her sister, Mrs. Fred Bisonette, 260 Euclid Ave., at 8.30 a.m. and proceed to the Immaculate Conception Church and St. Peter's Cemetery for interment.

THOMAS McKEE

Another one of Peterborough's oldest citizens died yesterday in the person of Mr. Thomas McKee, of 203 Dublin street. He was seventy-two years old, and had lived in this city all his life where he was well known as a first-class building constructor. He had charge of the erection of several local schools, and was city assessor for fifteen years.

He leaves to mourn his loss, three daughters and one son, Mrs. Frank Osborne, of Edmonton; Miss Ethel L. McKee, at home; Miss Amy R. McKee, of Oshawa, and Mr. R. A. McKee, of this city. Service will be held at the house at 2 p.m. tomorrow afternoon and the funeral will proceed at 2.30 p.m. to Little Lake cemetery.

CELIA WORRALL

Word has been received here that Celia Worrall died in England on Friday. She was a daughter of Mr. James Worrall, who four or five years ago was a baker in this city, but who removed to the Old Land. While in Peterborough the family were connected with St. Luke's Church.

MRS. J. R. HICKSON.

Mrs. J. R. Hickson of Lindsay died this morning at 8 o'clock.

Come One, Come All

STRIKE EPIDEMIC SPREADS TO VANCOUVER LABOR MEN; TORONTO, TOO, THREATENED

Only 1,500 Reported Out in Calgary Where the Street Car Employes and Other Union Men Refuse to Join in Walkout—Vancouver City Takes Strike Vote.

(Canadian Press Despatch)

Calgary, May 27.—Only fifteen hundred workers were said to have answered the general strike call in this city yesterday, the men representing the postal workers, Dominion Express employes, flour and cereal employes, and the C. P. R. men at the Ogden shops and roundhouse.

By a vote of 119 to 38 the street railway men refused to quit work. Other unions which have signified their intention of remaining at work are railway clerks, bakers, city hall employes, teamsters, outside civic employes, and barbers. As Calgary is the distributing centre for the entire province in the matter of remittances for the relatives of soldiers, it is said that thousands of checks will be held up by the strike of the postal employes.

Spreads to British Columbia.

Vancouver, May 27.—The general strike, in progress for more than a week in Winnipeg and spreading during the last twenty-four hours to Calgary, Edmonton, Regina and several small districts, seemed today about to sweep into British Columbia. Last night it was announced from Victoria that the Trades and Labor Council had decided to call for a strike vote in sympathy with the Winnipeg strikers, the results to be in by Sunday night.

Situation in Toronto.

Toronto, May 27.—Efforts are being made today by all authorities to avoid a general strike of forty-four out of seventy-one labor unions who at midnight voted for a general strike on Wednesday morning in this city. Many of the bigger unions have not expressed their opinion on the matter as yet.

The vote taken early this morning by the Labor men of Toronto was distinctly in favor of a strike. It was stated that 44 unions had voted in favor, and about 1,000 votes were against it. Twenty-seven unions postponed the vote, including the street railwaymen's union. This vote means that 44 crafts will go on strike.

The principal unions represented at the meeting were: The metal trades, around whom the fight is centred; the carpenters, civic employes, letter-carriers, shipbuilders, garment workers, plumbers and steamfitters, boot and shoe workers, electricians, and a number of smaller organizations.

A committee of fifteen was appionted by the meeting to call out on Wednesday morning at 10 o'clock what unions it thinks necessary to assist the metal trade.

The forty-four Toronto unions voted on their membership, and the vote was sweeping for strike. Neither the Toronto firemen nor policemen were represented. The bakers of the National Union were in favor of strike, but the postal employes were instructed to vote against it.

EXPECT PREMIER TO TAKE ACTION

SIR ROBERT BORDEN LIKELY TO BRING DOWN LABOR LEGISLATIVE.

Ottawa, May 27.—There is good reason to believe that the return of Sir Robert Borden will be signalized by important industrial and economic legislation. Sir Robert was a member of the sub-committee of the peace conference which prepared the labor memorandum which has been described as labor's Magna Charta.

Sir Robert has been credited with having been largely responsible for the drafting of the memorandum. While the principles set down called for international joint action, rather than national legislation, yet it is believed there will be some progressive measures introduced this Parliament at the initiative of Sir Robert. He is being looked to confidently and hopefully for leadership in this present industrial crisis. It is unlikely any legislation will be introduced until the Mathers commission makes its report. It is expected this will be ready by the middle of June.

In the meantime the equally difficult problem of the tariff will be before the House. The budget will be taken up immediately on the return of Sir Robert and will be introduced next week. The exact nature of the budget is a state secret, but there are rumors current which will not down that there will be a substantial increase in the British preference. Lloyd Harris, chairman of the Canadian Trade Commission, who is returning with Sir Robert, has been advancing a policy of imperial preference for the whole Empire, and Sir George Foster has spoken along the same lines. There is a rumor there will be an increase to 50 per cent. but this is only a rumor. The special war tariff of 7½ per cent. will probably be dropped in some lines but retained on luxuries.

There is also a belief that the income tax will be stiffened. Certainly money is necessary, and if it is not raised by the tariff will have to be forthcoming from other sources.

There is also good reason to believe that steps will be taken to deal with the cost of living problem, as the matter is under consideration by the Cabinet. It is possible boards will be appointed to prevent extortion and means will be taken to prevent hoarding.

As for a likely lowering of food prices, the feeling in official circles is that there is not likely to be much reduction until there is an increase in agricultural products and the world's shortage of food [illegible]

AMERICAN AIRMEN START ON FLIGHT

SEAPLANE LEAVES AZORES TODAY AND IS HEADED FOR LISBON.

(Canadian Press Despatch)

Ponta Del Geda, May 27. — The American seaplane N. C.-4 started for Lisbon at 10:18 o'clock this morning, Greenwich time, 6:18 New York time. The weather is clear.

With favorable weather and good luck with the engines the American flight commanders expect the N. C.-4 to reach Lisbon about 1 p.m. New York time. The course between here and Portugal is marked by fourteen destroyers to guide the flyers and if necessary give them assistance.

LLOYD GEORGE MAY VISIT U. S.

WILL PROBABLY ATTEND FIRST MEETING OF LEAGUE IN WASHINGTON.

(Special Correspondence)

Paris, May 27.—Premier Lloyd Lloyd George of Great Britain, it is understood is considering favorably a proposal from the American peace delegation that he visit America this year. The Premier would go to the United States especially to attend the first meeting of the League of Nations in Washington in October.

CONTRACT FOR BRIDGE LONG WAY FROM ASSURED AS YET

P. W. Paulin and F. A. Magee of the Canadian Engineering and Contracting Co. Met City's Bridge Committee This Morning—Conference Illuminating as to Exact Interpretation of This Company's Tender.

The City Council's Bridge Committee met the Canadian Engineering and gether the form of contract between them and the city for building the Hunter Constructing Company's officials this morning at 10 o'clock, and discussed to-street high-level bridge.

The explanations submitted by the contractors as to the interpretation of the terms of their cost-plus fixed sum tender was rather illuminating to the committee, and not altogether as understood by the aldermen. The outstanding features of the estimate and plus profit clearly outlined this morning were as follows:

The city would be charged with the cost of transportation to and from Peterborough of a steam shovel and power pile-driver, and for mounting and dismantling same. The contractors contend that this extra cost should be borne by the city as such mechanical appliances would prove to the city's advantage in saving of labor.

The contractors agreed that their $28,000 allowed for profit and use of plant applies to smaller machinery and perishable tools, such as shovels, wheelbarrows, picks, etc. It does not cover the transportation setting up and dismantling of pile-driver and steam shovel, the wear and tear of which has to be shouldered by the contractors. (The committee has understood all cost in connection with the heavy plant was to be assumed by the contractors.)

The contractors shall pay for superintendence of work and for office help in Hamilton; a material clerk and time-keeper to be paid for by the city.

The sum beyond which the bridge shall not cost in their plus-cost estimate is fixed by the contractors at $276,860, with assurance of a substantial reduction in "filling" by use of excavation material and collection of ashes, as well as optimism for savings in other directions.

If the bridge exceeds this price—$276,860—the contractors are to surrender 15 per cent. of the excess; should the cost fall below the fixed sum of $276,860 the contractors are to receive 15 per cent. of the saving, over and above the fixed sum profit of $28,000.

In the latter proviso for a saving the fixed profit is not reduced, but added to, as a incentive, it is assumed, for the contractors to save wherever possible.

WAGES TO BE PAID.

The contractors made it quite clear that their estimates are based on 40c an hour for laborers and 60c an hour for carpenters—9 hours a day—and that if they have to pay more by reason of the city of Peterborough increasing the wages beyond those figures a proportionate increase in the cost of the bridge would ensue. But they really opined that they might get through within the estimated fixed price, even were the higher wage scale of 45c and 67½c for laborers and carpenters, respectively, enforced. Savings in other directions might equalize the costs generally to that extent.

There were present Chairman Ald. Phelan, Mayor Duncan, Aldermen Gainey, McIntyre and Morrison, Engineer Barber of Toronto, City Engineer Parsons and Messrs. F. W. Paulin and F. A. Magee of the Canadian Engineering and Contracting Company Ltd. of Hamilton. This contracting company are the successful tenderers for the new high-level bridge, in accordance with the majority vote at last meeting of the Board of Works.

A COUNTER MOVE.

In this connection the Board of Works will meet at 8 o'clock tonight. Either at this session or in Council Monday night, according to rumor, the minority four aldermen who have held out for a lump sum contract will move for delay until Ald. Murray's seat in the Council is filled.

HANDS AND FACE BADLY BURNED

EARL ROBERTSON VICTIM OF AN EXPLOSION OF GASOLENE.

Failure to recognize the principle of safety first result in a serious accident to Earl Robertson, of 265 Bethune street, yesterday afternoon. He had been busy at work cleaning out the gasoline tank of his automobile and thought he would have a smoke after finishing the job. He struck the match without taking into consideration the fact that the air was stil impregnated with the fumes of the gasoline. The result was a nasty flare-up and his hands and face were badly scorched. Dr. King was called in and dressed the injuries and Mr. Robertson is now resting at home.

MEANS DEATH FOR THE AUSTRIANS

IF THEIR COUNTRY IS NOT ALLOWED TO JOIN GERMANY.

(Canadian Press Despatch)

Vienna, May 27.—German-Austria is condemned to death if she is not permitted to join Germany, Dr. Karl Seitz, president, declared in a statement today. The president said he was inclined to suppose that the Germans would not sign the peace treaty unless the Allies showed sympathetic understanding of their real conditions.

The German submarine U. C.-97 has arrivedin Halifax convoyed by a U. S. cruiser.

Canada Furniture Co has granted a 1 per cent increase to all its employes in [illegible]

MR. HICKS GAVE NO INVITATION

TO BUSINESS AGENT TOOMS TO ORGANIZE HIS WORKING STAFF.

The article in yesterday's Review concerning Mr. R. Hicks, his employes, their rate of pay, and the question of working hours was misleading although the information was supplied by what appeared to be reliable authority. Mr. Hicks did not send for Business Agent Tooms and ask him to persuade his men to join the Laborers' Union. All he did was to give him permission to go into the yard and talk to the men at work there. Neither has Mr. Hicks agreed to pay 45 cents an hour or to give his men an eight-hour day.

It is further worthy of note that not one of Mr. Hicks' men joined the union last night, although the announcement was made in good faith that they would do so.

AID RUSSIA TO RESTORE ORDER

MONEY AND SUPPLIES ASSURED TO ESTABLISH NEW GOVERNMENT.

(Canadian Press Despatch)

Paris, May 27.—The Council of Four and Japan have offered Admiral Kolchak, head of the Omsk government, money and supplies to maintain an all-Russian government provided he hold elections for a constituent assembly as soon as he reaches Moscow, or if conditions are too disturbed to hold election to reconvoke the former constituent assembly.

Safeguards For The New States

(Canadian Press Despatch)

Washington, May 27.—Safeguards against religious discriminations in the new states caused as a result of the great war have been decided upon by the Paris Peace Conference.

DARING AVIATORS REACH EDINBURGH

HAWKER AND GRIEVE ARE GIVEN RECEPTION BY CROWD.

(Canadian Press Despatch)

Edinburgh, May 27. — Harry G Hawker and Lieut. Commander Mackenzie Grieve, who were rescued by the Danish ship Mary after the air plane in which they were attempting to cross the Atlantic had alighted in midocean, arrived here this morning on their way to London from Thurso where they were landed by a British warship yesterday. They were seized as they left the train and lifted to the shoulders of the crowd which bore them to a hotel, where they had breakfast. They were heartily cheered when their train left the station at 10 o'clock

HOWARD GILGOUR LOSES FINGER

MET WITH PAINFUL ACCIDENT WHILE AT WORK YESTERDAY.

Howard Gilgour, 189 Dalhousie street, met with a serious accident yesterday, necessitating an immediate operation. While moving a heavy bag of rags his hand came in contact with a swiftly flying wheel and the third finger was torn up and the bones so badly splintered that Dr. King, who was called in, had him removed to St. Joseph's Hospital to have the finger amputated. The operation was a complete success in every way and the patient is now resting easily.

Mr. A. Stewart, at whose factory at 62 Hunter street, the young man was employed, states that the accident will not debar him from resuming his occupation again as a textile worker.

Now On Way Home To Peterborough

The steamer Bohemian landed at Halifax on Sunday afternoon the following men who were sent forward to dispersal areas, including Kingston the same night Those for Peterborough are:

Pte. W. J. Armstrong, 121 George St. south.

Pte. F. J. Dunsford, 748 Water street.

Pte. R. S. Harstead, Royal Bank

Pte. E. Johnstone, 165 Smith St.

Per steamer Aquitania at Halifax on the 26th and forwarded the same evening for Peterborough:

Spr. W. Molyneaux.

N. Cobalt.

No Mail Received For Calgary Office

Postmaster Edgar today received the following order from headquarters at Ottawa:

"Stop all mail for Calgary until further notice."

Cedric Arrives With Soldiers

(Canadian Press Despatch)

Halifax, May 27. — The Cedric, with returning Canadian soldiers on board, docked at 9:30 o'clock this morning and the men entrained immediately.

PASTOR SAYS WORKINGMEN STUDY PUBLIC PROBLEMS MORE THAN DO EMPLOYERS

Methodist Clergyman Speaks Highly of Intelligence of Canadian Wage Earner—S. R. Parsons Endorses the Eight Hour Idea—Royal Commission in Session in Toronto.

(Canadian Press Despatch)

Toronto, May 27.—"That there is a higher standard of intelligence among the workers of Canada than ever before, and that while they are studying economics and other great problems of the day, employers remain in ignorance of big world movements." This was the statement made by Rev. Mr Thomas, field secretary of the Army and Navy Board of the Methodist Church before the Industrial Commission this morning. Mr. Thomas wanted a provision for the interchange of thought and believed that the tension would be greatly relieved by a conference between employers and workmen. Profits should not be the driving power, he said.

Regarding prohibition, Mr Thomas said it had not been so successful in altering the social life of the wealthy as it had that of the workers.

James Simpson, the well-known Labor men, advocated the adoption of a bylaw for a forty-four-hour week.

Mr. Parsons' Evidence.

S. R. Parsons, ex-president of the Canadian Manufacturers' Association, began by saying he only represented himself. He said any man would be a bold man who would hazard a complete analysis of the present social and industrial situation of unrest, let alone prescribing an adequate remedy. There are some things however that are fairly clear and might be stated as follows:

Revolutionary Party.

There are extremists in the ranks of our industrial workers whose ambition is to overturn all our present civilization and ordered democratic government. They are interested simply in smashing up by revolutionary methods that which is stable and which, although faulty perhaps here and there, is the product of the best thought and effort of all the past. It is a question for the State to consider as to how to deal with such elements in our population.

It should be pointed out that fuel has been added to the revolutionary fires to be found in our Dominion by a few well-meaning theorists in church and state as well as in our college halls. These men are like doctors without a practice. A few [illegible] practical experience would [illegible] many of their fine spun doctrines. There are also possibly here and there extremists among employers, who are living in a past age and do not realize that new conditions have sprung up all about them which call for different treatment.

Then we have the great sane body of workers, who, when capably and intelligently led, desire only that which is right and fair, and these must be met in a spirit of brotherhood and true democracy on the part of employers. There are, no doubt, many inequalities to be removed, but singing the hymn of hate will never dispel them. I believe there ought to be frequent conferenches between all parties interested in any one industry, and more frankness displayed on both sides.

The profits of industry have been greatly exaggerated in the minds of many of the workers. Considering the good and the bad times, the capital that has been lost, as well as that which has made good, has not made over five per cent.

Eight Hours Ample.

In the matter of hours of work, my own conviction is that eight or nine hours a day should be considered ample.

(Continued on Page 7.)

$14,000 LOST THROUGH STRIKE

$14,000 is a considerable loss on one machine job to the workmen of Peterborough on a contract that could not be filled because of a strike for more money and shorter hours in the Wm. Hamilton Company.

Peterborough lost out both in work and money, and also failed to recognize the inventive skill of one of its own mechanical engineers, thus losing prestige and notoriety for Peterborough in the manufacturing world.

The Wm. Hamilton Company of Peterborough secured an order from a United States firm for two barking drums, a new device invented by Mr. P. P. Westbye of that company, for removing bark from logs for the pulp mill. This drum is a far step in advance, and in operation is highly efficient and economical.

The Company was making special provision for more employment, and faced the import duty, but just when the work was ready some of the men in the Hamilton works struck, and the Company was forced to have the work done in the State near where the drum is to be installed.

It is said the Company consulted the striking workmen, many of whom had been in the employ of the Hamilton Company for years, but they said they'd have to "stand by the Union!"

Mr. Westbye said he thought it was time for his men to stand by for themselves and for Peterborough. If the workmen and the managers can't work together one of the results is to drive business out of the city.

MR. BURNHAM FILES ANSWER TO MR. HONE'S SCIENCE TALK

Says Such Teaching is Dangerous and Harmful to the Public Mind.

The Review has received the following telegram from Mr. Burnham, M.P., who is now at Ottawa:

"Today's Review gives a summary of Science Master Hone's address on alcohol, in which much is made of decay, as if decay were something worse than the mere reorganization of matter. All matter obeys the laws of God and experiences no failure. Interpretation and disintegration are merely processes of change, and I must ask him to refrain from drawing moral lessons from purely mechanical processes in nature. It is extremely dangerous and harmful to cultivate such erroneous conclusions in the public mind.

FOUNDATION FOR THE BRIDGE.

THE QUAKER OATS building is an enormous structure, not by any means built on sand, otherwise it would not remain intact as it is today. It is situated close to the bank of the river that will be spanned by the new Hunter street bridge, if that improvement is really ever implemented. The foundation upon which the Quaker Oats building stands is, it is only reasonable to infer, practically the same as the bed of the river which will support the new bridge, be that bridge made of steel or concrete. No work will ever be undertaken if the promoters allow themselves to be intimidated by visionary difficulties, even though it is desirable to provide against contingencies as far as possible.

EQUAL RIGHTS FOR ALL.

IN HIS SERMON on the Labor question in Mark Street Church Sunday night Rev. R. A. Whattam said that there are workingmen who seem to believe that the only people who had a right to live were the producers, the men who work with their hands and muscle. The men, the preacher said, would not tolerate the professional classes at all nor admit that they were entitled to any consideration.

Mr. Whattam called the discontented class socialists, a clear misapplication of a term that is so generally misunderstood. If there are such malcontents in Canada they are anarchists who see red, not the socialist whose simple creed is the peaceful reform of present industrial conditions.

The socialist, or any sane working man for that matter, does not deny the professional classes the right of existence. He recognizes the latter as a necessary part of the machinery. But what he does object to is discrimination in favor of the doctors, the lawyers and other members of the so-called professional classes. For example, the workingman sees no justice in an arrangement by which the professional classes monopolize popular representation in Parliament and Legislature. The lawyers and the doctors have no trouble in securing anything in their own interests that they may go after. They are the subjects of State paternalism to an unlimited degree. Their status is recognised, their rights defined and protected, and their compensating and working conditons are fixed by legislative enactment. In the meantime the workingmen and the farmers are compelled to take their chances, to live on the crumbs that may fall occasionally from the legislative tables.

That one-sided system is an underlying cause of the present unrest among the two classes referred to, an unrest that really is a credit to those among whom it exists, demonstrating as it dose a disposition to insist upon a universal application of the much-vaunted principle of British fair play.

HOME RULE FOR INDIA.

IT HAS BEEN officially announced in the British Parliament that a measure of home rule is to be extended to India. The direction of the affairs of that country are to be taken out of the hands of the bureaucracy, which seems to have consistently mismanaged them all these years, and is to be turned over by slow degrees to the people themselves.

This action is beond all question prompted by necessity. The recent outbreaks in India against the present constituted authority is the real inspiration for the concession. Government by long distance or by proxy has proved a failure in India just as it has in every other territory where it has been tried. The consent of the governed is still an essential condition to any arrangement between higher and lesser powers. The truth of this will yet be impressed upon the British Government with an object lesson much nearer home.

THE HAUNTING GHOST OF PROHIBITION.

IT SEEMS THAT the temperance question, instead of being disposed of finally, is to remain an issue in Canadian politics for all time to come, that it will crop up at every election. In former days it figured only in Provincial elections. Since the Dominion Parliament has taken up the task of sumptuary legislation, the question has been transferred to the wider Federal field.

No matter which way the popular verdict goes on the referendum next Fall, the question is not finally disposed of. If the Ontario Temperance Act is rejected outright, or if a compromise is reached, by the adoption of the proposed beer clause, the temperance advocates will take up the cudgels of agitation more vigorously than ever, and in every subsequent Provincial election, either general or in the case of isolated bye-elections, prohibition will continue to be the overshadowing issue, the weapon of the election, the football sport of the political parties, just as it always has been any time since Confederation.

If the Ontario Temperance Act is endorsed even by an overwhelming majority, the minority of the electors will not accept the verdict as final. The old attacks will continue year after year, election after election, and other [illegible] will arise with bright promises to lead the people out of the wilderness into the promised land of so-called personal liberty.

The Federal Government has made the Dominion-wide prohibition effective for another year, as a reconstruction instead of a war measure. The agony of unrest has not been palliated by this action. One year hence, at the next session of Parliament, it will be as acute—perhaps more so than ever. If in the meantime there should be a general Dominion election, there would be more jockeying with this problem, more learned homilies by the politicians on constitutional authority and provincial rights. Other questions of equal moment to the nation would be overshadowed by one really outside Federal jurisdiction.

The United States has settled this temperance issue as a national problem for all time by making national prohibition part of the Constitution of their country and by the Americans that Constitution is held sacred second only to the Scriptures on which it is based. Beginning January 1st next in the United States, the use as a beverage, the manufacture and importation of liquor will be illegal by Federal enactment. There will be no see-sawing by one state remaining wet while surrounded on all sides by dry territory.

When the American Constitution, as originally drafted, was adopted by Congress in 1791, it consisted of ten articles. Since that time only seven have been added, the recent prohibitory amendment being the last, and none have been eliminated entirely. Prohibition will be a national fixture in the American Republic so long as the Constitution survives, removed forever from the electoral [illegible] on with which to assail the parties and no longer possible as a football for politicians.

WOMAN'S WIDENING FIELD.

(Chicago News.)

WOMEN ARE ADVANCING toward realization of the dreams of political and industrial equality which inspired the pioneers in the movement. One has only to sum up a few recent developments to indicate how rapidly they are going forward.

The woman suffrage amendment to the Constitution has been passed by the national House of Representatives and apparently will be approved by the Senate.

The French Chamber of Deputies has passed a law permitting women the vote at all elections for communal and departmental assemblies.

The labor section of the peace treaty sets up as a standard for the civilized nations equal pay for equal work by men and women.

The League of Nations covenant, forming a part of the same great instrument, accords women the right to hold office in the League.

These steps in the direction of a wider field for women are commonly said to constitute an approach to "sex equality." The term is misleading. They promise real political equality, legal equality, industrial equality. They indicate that women are coming more and more into participation in all the great concerns which affect the conditions of life and the progress of both the sexes. If they meant sex equality, however, the approximation of the masculine and feminine points of view, they would lose their chief advantage and significance.

It is not by being more and more like men that women will bring a new and advantageous element into the decision of national and even international relations. It is only by being themselves that they can realize the possibilities of activity and service which the march of events is placing within their reach.

NOTES AND COMMENT.

WILL THIS BRIDGE problem never either be settled once for all or take a vacation.

• • • • •

THE BOARD OF WORKS meets tonight and this probably means another original and unexpected move to bridge the chasm.

• • • • •

PREMIER BORDEN has arisen equal to every call that has been made upon him, and will not fail the people in this crisis.

• • • • •

ST. THOMAS has experimented to its financial loss with a public-owned street railway and now is trying to get rid of the white elephant on any terms.

• • • • •

CUTTING THE PRICE of whiskey sold in Government dispensaries may be all right in principle, but the Canadian or any other people cannot live on whiskey alone even if all restrictions were removed.

OPINIONS OF OTHER EDITORS.

OUR AWFUL FIRE TOLL

(London Free Press)

What is the use in crying out against railroad mismanagement while there are four times as many people burned to death in Canada every year as are killed on steamer or electric railways.

WHERE ARE THE IDEALS?

(Brantford Expositor)

The war to all intents and purposes, is over. But where are the ideals? Have we less selfishness, less covetousness, less pride, less personal ambition? If we have, then it must be that modesty bids us hide it under a bushel.

BENEFICIAL FROSTS.

(Guelph Herald.)

Fruit growers are having a great time bemoaning the damage done by frosts, but perhaps it won't be as bad as they are leading us to believe it will be. It's wonderful what price lifters these frosts are.

NOT WORRYING.

(Toronto Star.)

Germany will sign, it is said, but with mental reservations—that is to say, she will give her note without meaning to pay it. That will be all right. The cops and the courts will attend to that.

HARDLY.

(Rochester Herald.)

Berlin says acceptance of the peace terms means poverty, hunger and slavery. But not as bad as they gave Belgium, at that.

WHAT SHALL IT PROFIT?

(Montreal Herald.)

Canada is seething with unrest because of the high cost of food. What shall it profit the Dominion if we build up fortunes for the exporters and lose our own peace and well-being?

THE VICTIMS.

(Guelph Mercury.)

The high cost of living is already getting in its work in the Winnipeg strike area. Householders are stocking up as if for a siege, and the stores already present something like famine conditions and prices. And those who will suffer are always those who can least afford to, the wives and children of the poor, a sentiment which the foreign mind never comprehends.

PROHIBITION AS VIEWED FROM THE SCIENTIFIC STANDPOINT

A. D. Hone Replies to Arguments Used by J. H. Burnham, M. P.—Interesting Paper Read at Meeting of Trinity Church Brotherhood.

"God, Nature and Alcohol." This address was delivered by A. D. Hone M.A., Science Master in the local Collegiate Institute, before the Men's Brotherhood of Trinity Church. At the conclusion of it, a hearty vote of thanks was tendered to the speaker and he was requested to furnish the text to the local press. In view of the fact that Mr. Burnham's views have been circulated in localities other than this, a committee was also formed to secure an even wider circulation of the address, if considered advisable. The text follows:

This address is intended to show from the standpoint of science, the part the formation of alcohol plays in the economy of nature, and to answer some very extreme views expressed in the public press on the relationship of God, nature and alcohol.

The earth and objects on it, both living and inert, are undergoing continual change. It appears that [illegible] tion in nature was threefold. [illegible] created matter, life and a [illegible] great forces operating on these according to well-defined laws. We call these latter the forces and laws of nature. Through the operation of these forces, the universe became what it is today. One of the great laws of nature is that of life, growth, death and decay. Every living thing grows, dies and finally decays or disintegrates. This decay is one of the most important principles of nature and it is with it that we are particularly concerned in bringing out the relationship between God, nature and alcohol.

Let me quote from Bergen & Davis' Principles of Botany, in the connection:

"Decay is the destruction or decomposition of highly complex compounds such as proteids, fats, sugars, and cell walls of plants, by which they are broken down into successively simpler substances and finally into liquids and gases, some of which are very ill smelling. The products of decomposition from various chemical combinations and are finally used again in the constructive processes of life. The bacteria and other fungi are the chief agents of decay, and if it were not for them the world would soon be filled with organic waste products, together with the dead bodies of animals and plants of no value as food. Thus all the chemical elements capable of sustaining life would long ago have been used up and life on earth would have ceased. Not infrequently, however incipient putrefaction forms certain organic poisons called ptomaines, in nitrogenous foods and these may give rise to distressing symptoms, or even prove fatal to the consumer.

"Decay may take place in two very different classes of substances (1) the carbohydratis, such as cellulose, starch, sugar, etc., and (2) the proteids. The breaking down of the carbohydrates is called fermentation and many other fungi besides bacteria are concerned in the process. Yeasts for example are the most important organisms in the fermentation of sugar. Alcoholic fermentation involves the change of sugars to alcohols, accompanied by the formation of large quantities of carbon dioxide. There are a number of stages in the processes of fermentation. For example, cellulose is first changed into some kind of sugar, and the latter into alcoholic and organic acids. The last stages result in the formation of the gas carbon dioxide and sometimes Massn gas.

I quote this at length because it makes clear the connection between God, nature and alcohol.

God set in motion the forces producing decay. Without this "all the chemical elements capable of sustaining life would long ago have been used up and life on earth would have ceased." In the decay of sugar alcohol is produced at one stage in the process. If allowed to take its course the alcohol itself is broken up further and simpler substances result. The process then is its own justification regardless of any substance produced during it. Some of these are harmless if taken. Some of them, such as ptomaines, are poisons. Alcohol is to say the least of doubtful value, and in view of the fact to claim that this process takes place in nature for the express purpose of producing a substance to use as a beverage, which is of doubtful value when so used is not only ridiculous and presumptuous but also belittling the work of the Creator.

Mr. Burnham says. "He is too wise [illegible] more than God." I would say that he is too wise who pretends to know the mind of God and calls everyone a blasphemer who [illegible] as he does. What better and more typical [illegible] a modern pharisee could be found.

Let us next consider man's part in the manufacture of alcohol. Mr. Burnham's whole argument is, to quote his own words, contained in The Review of March 8: "There are those like myself who realize that God made alcohol and makes it and that if a prohibition law were to apply all those trespassing [illegible] would be liable to fine and imprisonment."

In other words he considers God and man as co-workers in the manufacture of alcohol. Crime. As we proceed, I wish to point out some differences in the processes as carried on by nature and by man.

In the first place, as to materials [illegible] letter written by Dr. MacMillan to Mr. Burnham, I find the following: "All we know is that the [illegible] sugar and carbohydrates in nature the amount of which waste [illegible] are all finally disposed of [illegible] fermentation and bacterial decomposition." It is the word [illegible] I wish to emphasize. Nature makes alcohol from waste [illegible] that has not been [illegible] as food. As I have pointed out this is a wise provision that the materials of which this is composed shall be returned to nature again.

In his letter of April 10th Mr. Burnham says: "It was not for me to criticize the way of God but to imitate them." Then Mr. Burnham should see that nothing [illegible] used in the manufacture of alcohol. If he did he would be a prohibitionist of the most extreme type. What are the materials used in Canada in the manufacture of alcohol? Dr. E. B. Shuttleworth in an article in The Canadian Chemical Journal of March 1918, says:

"For the official year, ending in the spring of 1914, a few months prior to the declaration of war, the output of the 12 distilleries then working was [illegible] gallons, obtained from the fermentation of 99,014,811 pounds of grain and 19,690,720 pounds of molasses."

The material used in the manufacture of beer, mostly barley, is not included in this. Farther down he says that of the grain [illegible] is corn, the rest malt, rye, oats and wheat. No one will have the presumption to claim that this is waste sugar or carbohydrate. Who is most in harmony with the will of God and with nature, the man who prevents this colossal diverting of these foods from their proper uses or the man who approves of such a sinful waste, in order to manufacture a substance which to say the least is of doubtful value as food?

Let us next consider the process of manufacture. Alcoholic wine is made by allowing the juice of fruits to ferment. This is the only process carried on by man according to the methods of nature and even here artificial extraction is used. Let me read from J. B. Cohen's Organic Chemistry how the other drinks are produced. He says:

"In the brewing of beer, barley, which like most cereals, contains a large amount of starch, is soaked in water and spread out on extensive floors. Fermination soon begins, and is allowed to proceed till a small shoot appears, when the life of the grain is arrested by heating in kilns, known as malt kilns."

What a slaughter of the innocents is this! What an interference with the processes of nature! He goes on: "One object of the germination is to produce diastase which converts starch into sugar. In the brewing of beer the actions of the diastase is arrested after a short interval so that only a small portion of the starch is converted, and the extract or wort is drawn off and boiled with the addition of hops. Yeast is added, whereupon fermentation sets in and the sugar is converted into alcohol. The product is beer. If all the starch is converted into sugar and fermented and the alcohol and water distilled off whiskey results. Rum is distilled from fermented molasses. Gin, like whiskey, is made from barley and flavoured with juniper."

Now you have no processes exactly like those in nature producing the same products. Even the yeast used is a cultivated form. So these processes are largely inventions of man similar to race-track gambling which Mr. Burnham is perfectly willing to prohibit.

A Prohibitionist Defined.

Having dealt with the first part of my subject to the best of my ability, I should like to next devote some time to answering some of Mr. Burnham's and Mr. Bagley's arguments, as they have appeared in the public press.

In the first place Mr. Burnham does not know what a prohibitionist is. I should like to inform him that a prohibitionist has no desire to "curse" alcohol as alcohol but is desirious of prohibiting the sale of manufacture of alcoholic beverages by man. The only man I heard curse alcohol was a drunkard. A fellow teacher and myself were looking in at a store window on the streets of Winnipeg. This man, came up, and started to talk to us as men under the influence of liquor sometimes will. He said: "Boys, look at me. You think I'm a fool don't you and I guess I am, but it was the drink that did it. I was a good man once. I belonged to the Salvation Army in Toronto and those were the happiest years of my life. But I came out West and I fell. When I think of the past and the present and the future, I nearly go crazy. Boys, I'm in hell now. I know I'm a fool and you think so too but leave the ——— stuff alone. I'm going over to get another drink now." And he lerched across the street.

Then, the prohibitionist is not opposed to the manufacture of alcohol under Government control for industrial and war purposes. It appears to me that Mr. Burnham's arguments rest upon the supposed fact that the only use of alcohol is as a beverage. He says. "If alcohol is made for consumption by the Creator, then the extinctionist is one who arrays himself against the Creator, and in the last analysis, is an atheist."

The whole force of his argument depends on those words "for consumption." If then we can show that alcohol has other uses than "for consumption," and uses that are undoubted rather than doubtful benefit to man the onus of proof is on Mr. Burnham to show that God placed alcohol in nature "for consumption" rather than for these other uses. What are the fact?

Let me quote from an article on "Alcohol from Wood Waste" in the May number of The Canadian Chemical Journal: "It (alcohol) may be expected to compete with gasoline for fuel purposes and motor cars. It is looked upon as the ideal source of power. Safety, cleanliness and reliability are greatly in its favour while in a properly designed engine its efficiency also favourably compares. In the manufacture of fine chemicals such as drugs, dyes, etc. Germany has been pre-eminent and her control of this trade was to a large degree dependent upon the cheap production of alcohol of from potatoes, an industry that was encouraged in every possible way. Then we have such products as celluloid, which can only be made through the solvent power of alcohol and ether, of which the latter is derived, as well as collodion, which finds such an extensive use in our photographic industry, in the production of films. Shellac and lacquer are both products which we use in numberless directions, and in making which alcohol is the solvent used.

"The manufacture of artificial silk and artificial leather, both now industries capable of enormous development, yet almost unknown here, can only exist where cheap alcohol can be obtained.

"When we came to war essentials for every pound of smokeless powder 1.4 pounds of alcohol is required,

(Continued on Page Three.)

AVOID ALUM IN FOOD

Baking Powder is one of the most important food ingredients. Alum or other injurious acids are frequently used by some concerns to lower the cost of production.

MAGIC BAKING POWDER

Contains No Alum

It is a pure phosphate baking powder and is guaranteed to be the best, purest and most healthful baking powder possible to produce.

W. Matthew Williams, in "Chemistry of Cooking," says: "Phosphates are the bone-making material of food and have something to do with building up of brain and nervous matter."

PROHIBITION AS VIEWED FROM THE SCIENTIFIC STANDPOINT

(Continued from page 2.)

while in the manufacture of fulminate of mercury the indispensible constituent of percussion caps, for every pound produced nine pounds of alcohol is used."

Why, in 1917, although there was little consumption of alcohol in Canada, over 6,000,000 gallons were manufacturer, of this over 4,000,000 gallons were used for industrial and war purposes, and 2,000,000 exported. These figures are compiled by Dr. E. B. Shuttleworth who calculates that over 1,000,000 gallons will be required in normal times and says, 'It is therefore plain that distilleries must continue to exist.'"

You will be pleased to learn that this industrial alcohol can all be produced without the use of a pound of valuable food material. Dr. Ruttan of McGill says:

"Our other sources of alcohol, viz., sulphite liquor waste and our waste wood, can product all the ethyl alcohol used in Canada."

A Challenge to Mr. Burnham.

Returning to my argument I would challenge Mr. Burnham or anyone else to show that the alcohol produced in nature was not produced for any or all of the purposes mentioned above rather than for use as a beverage. Failing in this the whole force of his argument is destroyed.

It looks to me as if, when confronted with this question of prohibition, Mr. Burnham found himself in a dilemma. The bright idea of this wonderful theory came to him. He sent it to the press. It then became necessary to find facts in support of it. Some time afterward he wrote Dr. Macallum to find out how much alcohol is produced in nature. Dr. Macallum gave him a scientific answer. Mr. Burnham, however, not having a scientific mind, could only interpret it as a politician.

Dr. Macallum says: "It is absolutely impossible to get data." and again "it is only where the processes are controlled or guided by man that the quantity of alcohol produced may be determined."

Mr. Burnham concludes from this. "The vast quantity of alcohol so made is, as you will observe, not precisely to be estimated, but that it is enormous in quantity must be, of course, admitted from the data."

Dr. Macallum says: "It is absolutely impossible to get data."

Mr. Burnham says: "But that it is enormous must be, of course, admitted from the data."

What data? Why the data in Mr Burnham's imagination when he formulated this theory. That piece of reasoning alone is enough to discredit and destroy confidence in any arguments on this question put forward by the member for this riding.

But are there "vast quantities of alcohol made in nature for consumption, unaided by man?" Richter, in his Organic Chemistry, says: "Ethyl alcohol seldom occurs in the vegetable kingdom."

The Encyclopedia Brittanica says: "Ordinary alcohol seldom occurs in the vegetable kingdom."

As Dr. Macallum points out the amount produced by fermentation is limited by the amount of carbohydrates permitted to go to waste. What astonishes me is that if there are such vast quantities of potable alcohol in nature, the thirsty throng hasn't found them long ago. I would suggest that, if Mr. Burnham has such a high opinion of the use of alcohol as a beverage, his time might be well employed leading an expedition of such thirsty souls as J. Guise-Bagley in search of these vast quanties which have been so successfully hidden for hundreds of years.

In conclusion I want to say that the views put forward by Mr. Burnham are extremely dangerous ones, if followed to their logical conclusion.

Mr. Burnham says God makes alcohol in nature, therefore, it is wrong to prohibit man from making it. In general terms Mr. Burnham argues that what God permits or does in nature, it is right for man to do and wrong for man to prohibit.

I just heard of a brood of chickens being hatched out at the Normal School. One was hatched later than the others and they attacked it and killed it. That happens in nature all the time. We would call that a form of murder in nature. Would not that be an argument against prohibiting murder. One might argue similarly concerning the marriage laws and some do.

Mr. Burnham, in a letter to Prof. Wallace, says: "God prohibits nothin." We do not agree with that in view of the ten commandments but suppose we accept it. According to Mr. Burnham's argument then man should prohibit nothing. Therefore all laws of prohibition should be wiped off the statutes and Mr. Burnham has argued both himself and his supporter, Bagley, out of their jobs and the world back to the state of primitive man.

Again Mr. Burnham says: "Believing that men were included in creation and not above it, I found that to curse alcohol was to curse something God made in nature and therefore to curse God and be an atheist."

Now the bible tells us that immediately after man was created he was given dominion over everything else so created. Thus, while a part of creation, he is above all the rest of it, just as God is above him. No one but a fool believes that man-made laws are intended to apply to God or to nature. No one but a fool would serve a write against God because lightning set fire to his bar. The right of man to regulate the actions of his fellowmen implies also the right to prohibit because all regulation is partial prohibition. If man has the right to prohibit at all he has the right to prohibit entirely. The question of the right and wrong of prohibiting is entirely eliminated. In consideration of the above you will agree with me that "a little religion is a dangerous thing especially if home manufactured." It is both amusing and interesting to observe how men who are ordinarily not very religious become extremely so in order to bolster up some pet theory or excuse a pet appetite. They would "out Herod Herod" and become both interpreters of the intention of God and expounders of the scriptures. I challenge anyone to produce any statement in the scriptures about which there is absolute certainty approving of the use of alcoholic liquors as a beverage. I admit that, while strong things are said against the use of strong drink, there is no direct pronouncement on the question of its prohibition by many, any than there is concerning slavery.

But the bible does not pretend to be a book of specific regulations covering every phase of human conduct. If it did neither Mr. Guise-Bagley or Mr. Burnham would have any use for a law library. The bible would be their most used book which is probably not the case at present. The bible sets forth certain great principles to guide man's relationship with his God and his fellowman. One is "Thou shalt love thy neighbour as thyself." Another, "Let no man put a stumbling block or occasion to fall in his brother's way." The regulation of the manufacture and sale of alcoholic drinks is contrary to these principles. Every brewery, distillery and bar engaged in the manufacture of and sale of alcoholic drinks is a stumbling block to thousands. The total prohibition of such is entirely in accord with the principles of Christianity.

If these men are so anxious to accept the teachings of the bible on this question, why do they not accept all its teachings? They would then be co-workers with Christ in the church of God, and as He drove the money-changers and drove sellers out of the temple with a whip of cords, they would drive out all that desecrates the temple of the body by a law of prohibition.

When ordering a new ribbon for your typewriter always specify whether it is for "her" or for "it."

INTESTINAL PARALYSIS
"Fruit-a-tives" Quickly Relieved This Chronic Trouble
539 Casgrain Street, Montreal.
"In my opinion, no other medicine is so curative for Constipation and Indigestion as 'Fruit-a-tives'.
I was a sufferer from these complaints for five years, and my sedentary occupation, Music, brought about a kind of *Intestinal Paralysis; with nasty Headaches*, belching gas, drowsiness after eating, and pain in the back.
I was induced to try 'Fruit-a-tives' and now for six months I have been entirely well". A. ROSENBURG.
50c. a box, 6 for $2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

Horticultural Society

All of the thirty packages of Government seeds have been disposed of and no further supply will be brought in.

Of this year's members there are thirty-two who have not yet sent in their option lists to indicate their selections for the spring delivery.

Confirming the truth that "delay means disappointment" it was necessary to cancel options number 1 to 11 on May 21st, and future orders will be confined strictly to options 12 to 27. The time for the selection of these perennials had already been extended from May 1st and good stock could no longer be secured.

Those who wish to get options 22 or 24 should indicate the variety of seedling they want.

This year the spring options are being delivered by the society and not by the contractor, and practically all have been distributed in East City and south of Charlotte street. The district north of Charlotte street will receive options on Tuesday and Thursday evening of this week. This applies especially to the boxes of seedlings and the potted plants for bedding purposes.

An urgent and final appeal is made for all members to have their option sheets sent in at once and for any persons wishing to become members to make application without delay so that the spring business may be closed by May 31st.

59 Hilliard street.

WIT AND WISDOM

Heard in Cambridge.

"You college men seem to take life pretty easy."

"Yes; even when we graduate we do it by degrees."

An Onyxpected Style.

It beats all how the styles change. Now the ladies have found a new place to wear stockings. If you don't believe it, read the following from a magazine advertisement:

"Onyx hosiery on the lips of every woman."

Fortunate.

"I told him there were dozens of people in this town who had never heard of him."

"That took down his pride a bit, didn't it?"

"Not a bit. He asked their names and addresses and then set out to find them and try to borrow a bit from them."

At the Hotel.

"Mrs. Mary McGinnis," wrote the woman.

"Miss Mayme MacGinnes," registered her daughter.

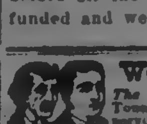
A Roast.

Would-be-contrib. — Do you think the article would be better if I boiled it down?

Editor—No, I'm sure it wouldn't, but I should try the action of heat on it in another way if I were you.

FEMININE LOGIC

The young lady across the way says a great nation like this will recover with surprising rapidity from the financial drain of war and she imagines it won't be so very long before all the liberty bonds are refunded and we're out of debt again.



Wood's Phosphodine. The Great English Remedy. (Formerly Windsor.)

EDITOR'S MAIL

THE HUNTER STREET BRIDGE.

Editor Review: As an humble citizen and considerable taxpayer of this, my native city, I again not only warn but implore our worthy Mayor and aldermen to halt before the corporate seal is attached to any contract calling for a one span reinforced concret bridge at Hunter street.

No necessity watever exists for an experiment of this kind, the total or final cost of which no man can foresee.

No proper borings or test pits have been made for the abutments of this enormous span, and I challenge Mr. Barber or any engineer or construction company in Canada to tell, even approximately, without this most necessary precaution, to what depth they will have to go to get suitable foundations or what his work is going to cost.

These abutments will have to stand the enormous weight and pressure of probably fifty thousand tons.

Let us consider the excavation for the abutment on the west side of the river and only a few feet from the foundation of the immense main building of the Quaker Oats plant how will this excavation be planned to save the collapse of this building, and if it should collapse with a sacrifice of three or four hundred lives, who pays the damage, the contractor, the city, or the aldermen?

If Mr Barber and the contractors are willing and able to furnish an approved bond of one hundred thousand dollars that this span will hold intact for twenty-five years, let our worthy Mayor and aldermen fire ahead and let the contract but under no other circumstances.

Let our worthy Mayor and aldermen look around and be guided by experience. Take the Canadian Pacific Railway, for example; this railway crosses hundreds of rivers and lakes; it was constructed by the best business ability and engineering skill on the continent. Where on this line from coast to coast will you find a reinforced concrete span of two hundred and thirty-five feet?

Surely the citizens of Peterborough, overburdened as they already are, and with an additional expenditure of one hundred and fifty or two hundred thousand dollars for a sewage disposal plant staring them in the face, will not approve of such a costly experiment.

While I feel quite sure there are few, if any, of our taxpayers who will raise the slightest objection to our worthy Mayor and aldermen spending all the money that is required to keep our own men employed all season on necessary and legitimate public works, I am equally sure that the great bulk of our citizens are strongly opposed to the city taking chances on an experiment of this kind, the final cost of which may run into millions.

Respectfully yours,
J. W. FITZGERALD.

EAT LESS MEAT IF BACK HURTS
Take a glass of Salts to Flush Kidneys if bladder bothers you.
Eating meat regularly eventually produces kidney trouble in some form or other, says a well-known authority, because the uric acid in meat excites the kidneys, they become overworked; get sluggish; clog up and cause all sorts of distress, particularly backache and misery in the kidney region; rheumatic twinges, severe headaches, acid stomach, constipation, torpid liver, sleeplessness, bladder and urinary irritation.
The moment your back hurts or kidneys aren't acting right, or if bladder bothers you, get about four ounces of Jad Salts from any good pharmacy; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush clogged kidneys and stimulate them to normal activity; also to neutralize the acid in the urine so it no longer irritates, thus ending bladder disorders.
Jad Salts cannot injure anyone; make a delightful effervescent lithia-water drink which millions of men and women take now and then to keep the kidneys and urinary organs clean, thus avoiding serious kidney disease.

FINE PROGRAM FOR BENEFIT CONCERT

The following program will be presented at the entertainment being held for the benefit of the Laborers' Union at Victoria Hall this evening, commencing sharp at 8 o'clock:

Recitation—J. Johns.
Song—Miss Allen
Step Dance—J. Houlihan.
Comic Song—C. Coleman.
Banjo Selection—F. Clark.
Dialogue—J. Primeau.
Monologue—George Lynch.
Step Dance—M. Murty.
Song—H. Lee.
Organ Recital—Ted Andrews.
Song—Mr. Bartley.
Trio—Messrs. Bartley, Cairns and Lee.
Sketch—Messrs. George Wesley and Morphet.
Song—Miss Kemp.
Ten Minutes of Magic—H. Lush

15000 Lives Lost In Volcanic Fire

(Canadian Press Despatch)

Amsterdam, May 26.—The volcano of Kalnut, in Java, has burst into eruption, wiping out twenty villages in the district of Brengata and eleven [illegible] vicinity of Blitar and causing deaths estimated at fifteen thousand, according to a Central News despatch received [illegible]

Music in the Home

THE STATUS OF THE DRUMMER

In the average audience at a concert where an orchestra is performing, the attention of the majority of people is perhaps most given to the conductor and the violin section. Of course the leader is always a centre of attraction. The violinists all bowing together do hold one's attention. Frequent remarks are passed that show the harpist, 'cellist and wind instrument players are not overlooked. But what of the poor drummer?

If there are two or three boys present then the drummer will be a hero in at least someone's eyes because to the average boy the drummer is "about it." But grown-ups are likely to give this member of the orchestra little thought and scant, if any, praise. To many the drummer's position is held by a man unqualified for any other post in the orchestra. At the bottom of such a misconception, like most misconceptions, is ignorance.

The drummer has no sinecure. A competent drummer these days is really a master of the percussion instruments. He may be called upon to use the tympani, snare drum, bass drum, cymbals, cathedral chimes, bells, xylophone, tambourine, castanets, etc. He must know the effects his leader wants and how to produce them. In the great orchestra works his part is often a very complicated one. Occasionally one meets an orchestra player who is not prepared to admit that the drummer is the real musician. Yet if that same party were obliged to be responsible for the percussion section for a few concerts he would be the first to claim recognition for his work on just as high grounds as any other of the players

Once a violinist of snobbish tendencies, thought to elevate the position of violinist by asking an orchestral conductor: "Is a drummer a real muscian?" The great leader, with a ring of finality in his voice, put the violinist in his place with the reply: "The man who plays the percussion instruments in the modern symphony orchestra is a musician in every sense in which that word is commonly applied." And so he is.

More than one hundred horseshoers from all over Canada are attending a convention in Guelph.

Many Can Learn But Few Can Like

Is the purpose of music study to "learn" music or to "like" music?

This simple little question put in homely fashion is at the basis of musical pedagogics.

Many can learn but few can like.

In other words a certain amount of the theory and technic of music is learnable by anyone; but to acquire the degree of appreciation for the music as an art which is simplified into the word "like" is given to a smaller and more select number.

Too heroic a dose of classics may kill the budding musical interest of the pupil; just as Shakespeare or Gibbon or Macaulay may be too strong for the weak literary digestion. Consequently the teacher should choose music for the pupil, not in accord with the teacher's taste or digestive powers, but in accordance with the pupil's.

It is better to "like" "The Swanee River" than to dislike a Beethoven Sonta. tI is better to like "Hearts and Flowers" than to loose all musical interest by too much Clementi and Cramer One may not step into teh second story of a house from the ground; but one may easily climb the steps to it.

MUSIC STIMULATES THOUGHT

The effect of music upon the physical, mental and spiritual life, is probably the most commonly recognized result of music study, and it is doubtless because the influence of art as a refining agency is so palpable that educational theorists have always included music in the ideal course of study. The effect of music is subtle but unmistakable, and its powers to stimulate high, exalted thoughts, its influence in encouraging a rich emotional life, together with its tendency to cause the individual to become responsive to other varieties of emotional appeal, would alone give it a large place in a scheme of education whose ideal is to bring about the greatest amount of usefulnes, contentment and high morality on the part of the greatest possible number of people

FAT FEES EARNED BY SOME LAWYERS

LEADERS AT THE BAR WHO HAVE MADE ENORMOUS FORTUNES.

Law is a costly luxury, says Tit-Bits, and well it might be, for the finest profession in the world from a money-making point of view is the law. In a recent case Sir Edward Carson and Sir John Simon had a trifling fee of five thousand guineas on the briefs, each being assisted by a small army of juniors, who were paid in proportion. There are a round dozen leading lawyers who will not read a brief without a preliminary fee of one thousand guineas while a leader of minor eminence now expects one hundred guineas on a brief and twenty-five guineas a day as a refresher.

The Bar is the strongest trade union in the country. It has forced legal incomes up by leaps and bounds, as may be gathered from the fact that Jessel, the one-time Master of the Rolls, looked upon twenty-five guineas refresher as something exceptional, while Edwin James chronicled as extraordinary two hundred guineas on a brief when he was the leading Queen's Counsel

The biggest fees on record were those of ten thousand guineas which Serjeant Ballantine and Mr. Balfour Browne, K.C., each received for conducting cases abroad. And yet Ballantine only made four and a half guineas during his first year at the Bar, thirty guineas in the second, and eventy-five in the third.

Lord Birkenhead and Lord Reading have each made enormous fortunes att he Bar. The former, it is asid, made a sacrifice of £10,000 a year when he became Lord Chancellor. And when he gets "the sack" a grateful country will give him an out-of-work pension of £5,000 a year Which calls to mind the fact that Lord Halsbury, now in his 94th year has drawn more public money than any living subject of the Crown. His modest earnings have been roughly £170,000 as Lord Chancellor for 17 years, and £80,000 as ex-Chancellor or 16 years—a total of £250,000.

Three men were sentenced to be hanged for the murder of Jas. McKay at Prince Albert, Sask.

Laval University, Quebec., is contemplating the establishment of a chair of Industrial Chemistry.

HAVE YOU EVER INVITED THE CHOIR TO YOUR HOME

People who attend church ought to appreciate the work of their choir, always show it. One way in which this can very appropriately be done is for a family to invite the choir to their home for a social evening. Looking through the social notes in the various newspapers of Canada, one often sees an account of such a gathering, and these appear with sufficient frequency to justify the belief that the practice is increasing.

Such events serve many good purpoes. They encourage the singers Everybody needs encouragement particularly the volunteer choir. They depen the bond of sympathy between the choir and the congregation. They make an opportunity for the newer members of the choir to get acquainted with each other and with those who have longer service to their credit. They increase the interest of the host, the hostess and their family in music. The fact of an occasional enjoyable evening with games, conversation, music and refreshments makes the choir life such that it more readily attracts new members.

Some choirs have an annual or semi-annual social gathering for which they would be only too pleased to accept, for a change, on invitation to hold it in a private home other than that of one of the members. In some places the choir meets periodically to mend torn anthems or to elect new officers for their next year, both of which present occasions for friends to ask them to their homes. The custom to entertaining the choir is practicable in every city, town, village and countryside. And it is by no means too far fetched to add that such social evenings make for better choir music.

Empire Day at the Queen Mary School

The following was the Empire Day program at the Queen Mary School:

Reading—W. N. Clark.
Chorus—The Land of the Maple.
Speech—Rev. J. A. Mackenzie.
Chorus—Fling Out the Flag.
Recitation—Hughson Johnston.
Chorus—Rule, Britannia.

At the Central.

At the Central School addresses were made by Rev. F. E. Malott, Chairman Denne and J. W. Greene of the Board of Education, all of whom congratulated the pupils on their splendid showing and the manner in which they rendered patriotic songs. Farron Stevens, one of the pupils, was presented with the gold medal awarded him at the recent inspecion of cadets.

PREMIER BORDEN BACK IN OTTAWA

Liberty Loan Goes Past Objective

(Canadian Press Despatch)

Washington, May 26.—Total subscriptions to the Victory Liberty war loan announced today were five billion two hundred and forty-nine millions, being an over subscription of seven hundred and fift millions.

U.S. to Keep All Interned Ships

(Canadian Press Despatch)

Washington, May 26.—Official advices reached Washington today that a full understanding had been reached by the Council of Four at Paris by which the United States will keep all German ships seized in American ports when this country entered the war.

BREWE GOES TO LINDSAY

Yesterday afternoon Chief Shortt of Lindsay came down for Charlie Brewe the man accused of robbing several stores in that town. He came up for a hearing this morning but was remanded for a week to enable Ottawa to give a report of his finger prints. Chief Thompson had these taken while Brewe was in custody awaiting the arrival of the Lindsay chief.

FIVE CHILDREN PERISH IN FIRE

(Canadian Press Despatch)

Sherbrooke, May 26.—Five children of Alfred Duperron, a farmer of Lapatrie, were burned to death last night when their home was destroyed by fire. The children were left alone in charge of Emma, a nine-year-old girl, and somehow a lamp was knocked over.

Donald McLellan, Bruce township charged John Bowie county constable with assault and trespass.

The board of directors of the Guelph Junction Railway has declared a dividend of 6¾ per cent.

BY HARRISON VAUGHN

Altanta, Ga., (Special Correspondence).—This is a story of success—the kind everybody likes to read. Surpassing interest always attends the telling of how a great business has been built. This city presents a very striking instance of remarkable business success, which has been achieved in a very short space of time.

The announcement has just been made here that Tanlac, the well-known medicine, which readers of this paper have often seen mentioned in the advertising columns, is today the most largely sold medicine of its kind on the American market; that in little pre-eminence among proprietary medicines. Without doubt this statement will be read with the keenest interest, not only by druggists but by the general public as well.

Briefly summarized, the outstanding incidents in this story of success are: The discovery of Tanlac; the perfection of its formula by painstaking study, extensive research and exhaustive tests, the beginning of its manufacture in a small way; the instant demand for the product created by successful use, and finally the establishment of the large and magnificent laboratories at Dayton, Ohio, occupying more than 60,000 square feet of floor space, to supply the ever-increasing demand for Tanlac. The daily capacity has been 30,000 bottles at this plant has at times, in fact, been found insufficient to supply the trade requirements. A branch laboratory with 8,000 bottles daily capacity has been established at Windsor, Canada, in order to supply the Canadian demand.

The marvelous expansion of this business will easily stand comparison with any of the remarkable business achievements of recent dates. As one of the largest drug jobbers of the United States said recently, it requires some effort of the imagination to realize the amount of business that is now being done by this concern, adding his belief that the nation-wide popularity of Tanlac gained in such a short time is nothing less than phenomenal

This latter statement was made following the announcement in the daily papers that over twelve million bottles of Tanlac had been sold in four years, up to Jan. 1st, 1919, and that during the first ten week of the present year over one million bottles had been distributed—thereby establishing a record which has perhaps never before been equalled in the history of the drug trade.

The statement that Tanlac is now the most popular preparation and the biggest seller among all ready-made medicines is declared to be neither a surmise nor an estimate, but is based upon careful investigation and is supported by the signed statements of scores of the largest drug jobbers of the United States and Canada. This now famous remedy has become just as well known across the International boundary line as it is throughout the United States.

The broad and progressive policies and the splendid selling organization originated and perfected by Mr. G. Willis, international distributor of Tanlac, are among the best examples of method and system yet produced in business and they have been closely followed by many other enterprising and successful concerns.

The Tanlac people have always maintained that the best advertisement is a satisfied customer, and to that end have always sought to make customers—not mere sales—and to build up that character of public confidence which means business integrity and, spells losing success. Yet like all concerns doing a nation-wide business, they have also recognized the value and necessity of a general presentation of their preparation by the use of clear, reliable newspaper advertising.

But Tanlac advertising "copy" is essentially different from most others. It consists most wholly of the direct, signed statements of those who have used the medicine. These people are distinctly identified by name and address. They tell very plainly what was the matter with them and what Tanlac has done for them. Tanlac advertising has been happily free from the "cure-all" exaggeration. Instead of advancing extravagant claims as to what their preparation "will do," its manufacturers and distributors prefer to let those who have used Tanlac tell in their own way what it "has done."

Their sensible business philosophy [illegible] briefly but forcefully stated by one of the Tanlac executives recently when he said: "With all due regard to the value of newspaper space publicity alone would not create nor maintain the lasting strength and popularity of this preparation. Tanlac undoubtedly has merit and extraordinary power as a medicine, which have confirmed its value in the minds of the people. No matter where you go Tanlac is a household word and is one of the most widely talked of medicines in the world today."

PTE. FRED WOOD WRITES OF RIOT

MRS. GEORGE A. WOOD, SOUTH MONAGHAN, RECEIVES LETTER FROM SON.

The following letter has been received by Mrs. George A. Wood, South Monaghan, from her son Pte. Fred Wood.

Seaford, May 4, 1919

Dear Mother:—

Just a line to say I am still alive after the big riot. I suppose you will have read about it in the papers. I wrote and told you yesterday about expecting some trouble.

It all started over the M. P. arresting a negro, who belonged to the 18th Reserve, so they formed up a mob last night about eight o'clock came up to the 18th Res and made them let the negro out somewhere about two thousand men went to the 1st Res. and smashed into canteens—dry and wet ones—and what they didn't take they destroyed. They met an ambulance, halted him and wouldn't let him go. He started full speed, run over three, killed one, and badly hurt two more. From there they went to the machine guns, smashed everything in the machine guns. The mob was getting larger all the time, the most of them were drunk.

The 6th Res knew we would be next, so we all had to turn out with rifles and fixed bayonets. They put us all in single rank along the front of a hill guarding all canteens, sergeants and officers mess rooms.

They came up within 25 yards of us yelling, and every man had either stones or beer mugs. They were bound to go through and we were determined to stop them. They were knocking out our fellows by the dozens with stones. Three fellows I nour hut were knocked stiff.

That K. L. Martin t— has his photo taken with he got a cut four inches long on top of his head. The doctor's room was full in ten minutes.

At the same time we were arresting everyone we could catch.

I was in the bunch then to go and guard the quartermaster's stores Just as we got there, they broke in, smashed out every window. Those who slept there were kicked outside.

I don't know who they blame most for it. I think the machine gunners and engineers get the blame.

I just came off guard a few minutes ago.

A draft left here for Canada this morning.

Will write again.

FRED

EIGHT HOUR DAY FOR EXPRESSMEN

COMPANIES VOLUNTARILY DECIDE TO IMPROVE WORKING CONDITIONS OF EMPLOYES.

The secretary of the Express Traffic Association of Canada has issued the following statement to secretaries of boards of trade and to shippers asking their co-operation in arranging deliveries so that employers may be able to enjoy better working conditions:

"For the purpose of improving the working conditions of their employes and to accommodate what seems to be the general public sentiment, the express companies have adopted the eight-hour day. To give the employes the benefit of the shorter day, it has been necessary to rearrange the hours for collection and delivery service.

"From June 1, 1919, collection and delivery by the companies' vehicles will be confined to the hours between 8 a.m. and 5 p.m. Depot officers where night staffs are maintained will be open for the delivery of incoming shipments to consignees calling for them, and for the receipt of outgoing shipments which are not ready when last vehicle call is made.

"Shippers who receive regular calls from express companies should arrange to have their packages ready at least one hour earlier than at present.

"Shippers who do not receive regular calls and by whom requests for service are telephoned to the express companies, should telephone their calls as early in the day as possible.

"We hope for the co-operation of your association and its members in our efforts to give an efficient service."

SUPPORT STRIKERS

Marine Trades to Give Material Help to Winnipeg Men.

Montreal, May 27.—Moral and material support of the Marine Trades Federation was tendered to the Winnipeg strikes in a vote which was carried at a meeting of the Federation. This vote ratified the resolution which was adopted by the employes of the Canadian Vickers Company, Limited on Thursday last.

A delegation from the Marine Trades Federation will wait upon the Hon. C. C. Ballantyne, Minister of Marine, at 11 o'clock Tuesday morning at Ottawa. In the meantime negotiations between the company and its employes are open, but [illegible] suspended until not later than June 2nd.

RETURNED AUTO TO ITS OWNER

LINDSAY HOLIDAY - MAKERS HELPED THEMSELVES TO FARMER'S CAR.

A number of Lindsay holiday-makers who only lacked a car to complete their enjoyment picked out a nice-looking Ford in the yard of Butler's Hotel. After enjoying the day thoroughly they ran it as cloe to the farm of its rightful owner, Mr. Edward Wright, of Oakwood, as they dared. Here they left a little ticket inside, telling whoever found it where it should be returned. Mr. Johntosn. of Mariposa, discovered it the next day and the only thing that worries Mr. Wright now is who he will collect the money from for the use of his auto as a taxi.

THEATRICAL

ETHEL BARRYMORE in R. C. Carton's Brilliant Comedy "THE OFF CHANCE," one night only, Grand Opera House, Thursday, June 5.

WHERE ETHEL BARRYMORE BEGAN HER STAGE CAREER

Made Her First Appearance in Montreal the City in Which She is Playing All This Week—At the Grand June 5th.

Mr. William Bartlett Reynolds, advance agent for Ethel Barrymore, the noted actor who will be at the Grand on Thursday evening of next week, was in the city yesterday arranging for the tour and left this morning for Toronto.

Miss Barrymore is playing all this week in Montreal and it is of interest to note that it was in that city she made her first appearance as an actress, where she began the career that has placed her at the very summit of her profession. Mr. Reynolds tells the story of her stage debut.

On a morning in the late nineties, a train from the States left a young girl on the platform of a Canadian railway station, in a town described among theatrical people as a "one-night stand." The girl was bewildered, the only thing familiar being a shiny tin trunk, left on the platform beside her and marked "E. B., Notre Dame Academy, Philadelphia, Pa."

The initials, "E.B.," stood for a name that in a few years who to become a household word throughout the country among theatregoers for the girl of the plain, short frock, her hair in one long braid hanging to her waist was Ethel Barrymore.

After months of persuasion and entreaty, she finally prevailed upon her distinguished grandmother, the dowager Mrs. John Drew, then touring Canada at the head of her own company in "The Rivals," to permit her to leave her Philadelphia school and follow the inclination strongest in a Barrymore or a Drew, the ambition to act. With $40 "advanced" by her uncle, the late Sydney Drew who at that time was also a member of his mother's company, Ethel Barrymore made the trip to the Canadian town alone, the first step in her "career."

A Family Group

At that time, Mrs. Drew's company resembled a distinguished family party, for besides Mrs. Drew as Mrs. Malaprop, Sidney Drew was the Bob Acres, and Mrs. Sydney Drew, first wife of the late comedian, was the Lydia. At one time on this Canadian tour, Mr. and Mrs. McKee Rankin father and mother of Mrs. Sydney Drew travelled with the company as Sir Lucius O'Trigger and Lucy respectively, and again Ethel Barrymore's father the brilliant Maurice Barrymore, joined them to play Captain Absolute. At another period, Miss Barrymore's elder brother, Lionel Barrymore appeared with them in the small role of a servant young Barrymore being then in his late teens. Mrs. Drew, like Joseph Jefferson made use of a version of "The Rivals" which omitted the character of Julia Melville, so that when young Ethel Barrymore became a novice in her grandmother's company the character was restored for the use of the debutante. The girl was given the part, a small one, to study and told that she would play it in the next "stand."

That "stand" was Montreal, the theatre the old Academy of Music, and therein occurred the first appearance on any stage of Ethel Barrymore.

Miss Marrymore will appear in only two of the smaller Canadian cities, Peterborough and Kingston, and the local patrons of the Grand are promised the greatest treat of the season in the performance of June 5th.

ERNIE MARKS HAS BEST PLAY EVER

POPULAR ACTOR HERE WEDNESDAY FOR AFTERNOON AND NIGHT PREFORMANCE.

Mr. Ernie Marks who will be at the Grand Wednesday, afternoon and night, will present "THE BOSS" which is one of the best and strongest dramas ever played by the Marks Bros. in the career of show business. The company will take great pleasure in presenting this play, a story that grips the attention of all, while there is a very hearty laugh, and proven an entertainment of enjoyment. A new line of up-to-date high class vaudeville acts will be introduced and musical numbers. Ernie Marks never fails to fill the Grand Opera House whenever he brings his company to Peterborough.

"THE REASON WHY" A SELECT PICTURE

CLARA KIMBALL YOUNG AND HER OWN COMPANY ON FILM.

The purchase of the screen rights to "The Reason Why," a select picture, in which Clara Kimball Young and her own company will appear here at the Grand Theatre on Thursday, Friday and Saturday, was by no means an easy feat. With a couple of active competitors in the field, Miss Young was forced to act quickly in order to secure the play upon which she had set her heart.

After meeting the requirements of Elinor Glyn's agents on this side, it became necessary to obtain the author's confirmation on the sale, and a cable was despatched to Mrs. Glyn's London address. It developed there that she, like so many other English women of wealth and social position was closely identified with war relief work, and the answer came back that she was somewhere at the front.

For the next few days cables flew thick and fast. Mrs. Glyn was finally located behind the lines in Northern France where she was working night and day in behalf of the war sufferers, and her approval of the sale was at last secured

A "soft drink" factory, which can turn out 8,000 bottles a day is planned for Lethbridge, Alta.

MARGARET ANGLIN AT GRAND TONIGHT

AND "BILLETED" IS ONE OF BEST PLAYS YET PRESENTED.

Never before did Margaret Anglin who will be at the Grand, tonight, come to town under such auspicious circumstances, according to all advance reports. This sterling exponent of the dramatic art has found the ideal of her fondest dreams so far as a forte is concerned in her latest success "Billeted", according to the same advance reports. As a matter of fact, the critics in every city in which she has appeared in her present starring vehicle have received her with a veritable acclaim quite unmistakable. Happily "Billeted" is a comedy and just as happily Miss Anglin is a comedienne who precisely fits the demands of the play. Primarily the story unfolded in this laugh-provoking production is right up to the minute smart in every detail and it is as refreshing as the spring breezes. Secondly it is real entertainment unallowed by wearisome moments. Blase New Yorkers thronged to the theatre for more than three months to see it and this is an unfailing criterion as to its merits because in order to please the theatregoers of the foremost theatrical centres of the land a show must possess some merits.

"Billeted" is a play in three acts artificially shaped as high comedy with touches of farce here and there and it concerns a charming widow who has been notified that two army officers are to be billeted with her. The meddling sister of the Vicar of the village discovers that she (the widow) has been merely abandoned by her husband and therefore, naturally, is no fit person to be entertaining lonely soldiers. The widow however, refuses flatly to be put aside by such suspicion. She may have been abandoned by one man, but this does not mean that she is an abandoned woman and she prepares to prevent a threatened scandal. To do this she adroitly manages to send to herself a telegram from Africa announcing the demise of her spouse. She has no sooner done this than she discovers that the last officer to arrive is her husband himself. This leads to a series of highly amusing complications which take the audience a-whizzing through the whole three acts in a gale of laughter.

It is said the dialogue is particularly brilliant while there are ample opportunities for much of the more exquisite characterizations for which Miss Anglin is justly popular. Undoubtedly her numerous local admirers will be well pleased with this latest histrionic achievement.

MAY SHIP FOOD

Articles to be Sent to Germany Under Restrictions.

Washington, May 27. Shipments of foodstuffs to Germany, within the limits of the Brussels agreement now may be made via ny bordering neutral country under an agreement of the Associated Governments permitting the re-exportation of foodstuffs from such countries to Germany. Announcement of the agrement was made by the War Trade Board.

BATHING PLACES

The City Council's Bathing Place Committee are this afternoon inspecting suggested spots for public bathing purposes, in preparation for Monday night's Council meeting.

AT THE GRAND

A man may not be in love, but there doesn't live the man who hasn't been loved, is just one of the many bromides uttered by Mr. Norman Hackett, in the play "Tea for Three," which appeared last night at the Grand.

The play, which is of the triangle variety, is by Roi Cooper Megrue a rising young playright and features Miss Elsa Ryan, of "Peg O' My Heart" fame. Miss Ryan needs no introduction to the theatre-going public, her different productions having brought her considerable popularity which she richly deserves.

The story opens showing the wife and the friend taking luncheon together and discussing the husband's jealousy. They decide to attempt to cure him o fthis and some of the predicaments into which they manage to get themselves proved very amusing. It was truly marvellous, though, the way in which they finally worked the question out and friend, husband in the last act demonstrated the fact that he would ever after trust wifie in all things.

Miss Ryan in the premier part was very pleasing and her acting left nothing to be desired. Miss Ryan may declare that she hates clothes but the gowns she wears in this play clearly demonstrates that she know how to choose them and wear them too.

Norman Hackett as the friend is good and his delineation of the male social butterfly was perfect.

Hayden Stevenson, as the jealous husband handled his part extremely well. The two minor parts of maid and valet are taken by Miss Mara Keval and S. Sydney Cheu respectively.

"Tea for Three is one of the brightest and wittiest comedies shown at the local house this year and the management is to be congratulated upon bringing such attractions to Peterborough.

NEW UNIFORMS FOR CARRIERS

STETSON HATS AND KHAKI BLOUSES WORN DURING HOT WEATHER

Now that the warm weather seems to have come in earnest the letter-carriers of this city are taking advantage of the recent regulations of the Post Office Department at Ottawa and started out this morning with their summer equipment. This consists of a khaki shirtwaist and a brown Stetson hat with the old familiar postman's badge. There are twenty-three men employed in the task of delivering mail who are heartily glad of the chance to get free from the heavy clothes supplied for winter use. Each of these men has to walk an on average twelve miles a day.

The post office itself is probably as busy a spot as one could find anywhere in Peterborough. Every inch of available space in the building is now being utilized, and clerks are at work sorting and distributing the mail during the whole twenty-four hours. An average of 210 bags of mail leave the office every day and during the Christmas season, election times and other special occasions this number is often more than doubled.

Eleven rural mail routes leave this city for outside points, the shortest route being 16½ miles and the longest 30. P. Stave takes the latter route, delivering mail to the farmers in Smith Township.

During the illness of Postmaster James Edgar for the past two weeks considerable extra work has been piled on the shoulders of the assistant postmaster, Mr. John Corkery. However he has an efficient and willing staff behind him, including three ladies, Miss Harris, the stenographer, Mrs Reid, who sells the stamps, and Miss Lindsay, who hands out your letters—if they're there.

Rates for Long Distance Service

THE new schedule of rates for Long Distance Telephone Service as approved by the Board of Railway Commissioners is effective May 25th.

Following is a comparison of old and new rates for a 3-minute talk to points most frequently called by Peterboro subscribers:

	Old Rate	New Rate
Peterboro to Toronto	$ .40	$ .50
Port Hope	.25	.20
Belleville	.30	.35
Hamilton	.60	.70
Kingston	.60	.65
Orillia	.30	.45

The new rates, based upon air-line mileage, correct inequalities in the old schedule and embody both increased and decreased charges.

Every Bell Telephone is a Long Distance Station

JAKE SOLOMON . . Mgr

DE LAVALS TRIM ORIENTALS BY 8-6 IN THEIR FIRST TRIAL

Good Pitching on Both Sides Feature Game—Jake Solomon Still a Man to be Depended Upon in a Pinch.

By a score of 8 to 6 the De Lavals won from the Orientals at Riverside Park Monday evening. Manager Jake Solomon again proved to be loaded with horseshoes, four-leaf clovers, or some other powerful dope, for after he went to bat for Head in the fifth, the Orientals scored five to the De Lavals one. The score by innings:

	1	2	3	4	5	6	7	
De Laval	0	1	3	0	3	0	1	—8
Orientals	1	0	0	0	2	1	2	—6

Both pitchers were there with the goods, and if McNeely had been given the support that Prest had the score might easily have been different. Two errors by Phelan and one by McNeely followed by Campbell's two bagger netted the De Lavals three runs in the third. Sheehy then replaced Phelan at first base.

In the fifth there was considerable loose playing on both sides, Collins, Heenan and McNeely getting an error apiece, while Leggon's muff at third let Collins in. Solomon batted for Head, making a single and Soden finished the circuit for him.

The number of bases stolen indicates good base-running, but it also shows a lack of snappy infield work. Campbell, Burgoine, Fitzgerald, Collins and Murray of the De Lavals all succeeded in stealing their way from first to third. However, the season is still young enough for a great improvement to be made along those lines.

The line-up:

De Lavals—Duggan, 2 b; Burgoine c; Rose, 1 b; Fitzgerald, c f; Campbell, l f; Leggon, 3 b; Murray, r f; Lipsett, s s; Prest, p.

Orientals—Cherett, s s; McCarney c f; Phelan, 1 b; Kirn, r f; Heenan, l f; Murray, 3 b; Collins, 2 b; Head, c; McNeely, p.

Umpire—Alex Kay.

ORIENTALS VS. PACKERS

The Matthews-Blackwell team meet the Orientals tonight at Riverside Park. Mgr. Jake Solomon's battery will consist of Kirn and Soden, otherwise the line-up will be practically the same as last night.

The Matthews-Blackwell team will go to bat in the following order: Adams l. ; Butcher, 3 b.; Lowe, 1b; Hagerman 2b; Jackson or Cunningham, r.f.; Shaughnessy, c.f.; La Fave, c; Frost or Close p; Coursey, utility.

STRIVING TO HEAD OFF GENERAL STRIKE OF UNIONS IN TORONTO

Premier Hearst and Mayor Church Working for a Settlement—Question of Hours is the Only Real Issue Keeping Men and Employers Apart

Toronto, May 27—This afternoon the question of a general strike tomorrow in Toronto seems to hinge on the granting of a forty-four hour week to the striking workers. Employers have offered to grant a forty-eight hour week to the Metal Trades. Mayor Church and Sir Wm. Hearst, Premier of Ontario, are making every effort today to bring about an agreement. Mayor Church has wired to Sir Robert Borden asking if the Ottawa Government is considering legislation for the whole of Canada on this question of the hours of labor as a national policy. The Mayor asks that prompt action be taken to relieve the crisis in Toronto.

GERMANY'S REPLY NEARLY READY

WILL BE COMPLETED TONIGHT AND PRESENTED TO CONFERENCE TOMORROW.

(Canadian Press Despatch)

New York, May 27.—The Associated Press this morning issued the following: Germany's counter proposal to the peace terms of the Allies will be completed by tonight and will be presented to the Peace Conference by Count von Brockdorff Rantzau, chief of the German peace mission, tomorrow, according to Paris advices. It is expected that the reply of the enemy represetnatives will be very elaborate and voluminous. The fact that the Peace Conference has been informed by the German delegation that no further extension of time is to be asked would seem to indicate that the documents to be turned over tomorrow will be Germany's last word before taking a definite attitude toward the terms of peace. Despatches seem to reflect quite a sharp division of sentiment among the Germans as to whether the treaty should be signed.

Allied Marines For Baltic Port

(Canadian Press Despatch)

Paris, May 27. — (British and American marines have been landed at the Baltic port of Danzig, according to a despatch received here from Warsaw. A powerful fleet, it is added, will be anchored off the harbor there.

Mr. R. Stuart Of Quaker Oats Co. Is Interviewed

BRIDGE COMMITTEE ACQUAINTED WITH NEEDS OF QUAKER OATS CO. IN REGARD TO BRIDGE.

Mr. Robert Stuart of Chicago, President of the Quaker Oats Co., is in town. He gave an interview this morning to the city's Bridge Committee, the Mayor, Engineer Harber, City Engineer Parsons and Messrs. Paulin and Magee of the Canadian Engineering and Contracting Co. The purpose of the interview to reach a decision as to a plant platform for the Quaker Oats Co's convenience, when the bridge is built, in place of a ramp as originally planned.

Mr. Stuart is expected to be present at the Board of Works meeting tonight.

Baseball game at 6.30 this evening at Riverside Park.

Gunner R. Neill And Corp. Stuart Home Tomorrow

WIRE THE GLAD NEWS TO THEIR PARENTS FROM MONTREAL —REACH HERE 6.21 A.M.

Mr. and Mrs. Robert Neill, 359 Hunter street were wired by their son, Gunner Robert Neill, from Montreal today, that he, in company with Corp. Clare H. Stuart will reach Peterborough at 6.21 tomorrow morning via the C. P. R.

Gunner Neill served with the 10th Battery C. F. A. overseas. Corp. Stuart served with the 27th Battery, C. F. A.

Corp. Stuart is the son of Mr. and Mrs. J. W. Stuart, 593 Homewood Avenue.

Both of these gallant boys made the trip over the Atlantic on the Acquitania, reaching Halifax Sunday morning.

Immediate on receipt of the glad news Mrs. Neill telephoned the information to Mrs. Stuart.

PASTOR SAYS

(Continued from Page One.)

le. Where the work is very hard and wearing, probably eight hours is as much as should be expected. Men ought to have a reasonable time for rest and recreation. It must be remembered that oftentimes the real toiler is the woman in the home with a large family to bring up. If shorter hours for the men would mean more association, support and help in homes and family life, it certainly would be a boon.

The question of wages is a most difficult one, particularly at the present time. Employers are on a wartime basis of general costs, wages and values of raw materials, and, so far as the seemingly high wages are concerned, these must be maintained as long at all events as the high cost of living continues.

I am strongly in favor of co-operative working in our industrial life. While it may be difficult to find any one system that is applicable to all industries, yet, if we get into the spirit of such working, we will adapt our plans and schemes to the particular industry involved.

No Time for Shadows.

In reply to questions as to the scheme put forward by the Methodist Church, Mr. Parsons said, "We have got our hands too full at the present time to be looking forward to shadows of a millennium."

"Do you not believe in Christ's teachings as to the originality of man?" enquired Mr. Moore.

"Yes, but Christ also upheld the man who increased his ten talents and censured the man who buried his," was the answer.

Mrs. Wm. Byers, a Fergus woman, in poor health, committed suicide by taking poison.

About two thirds of the credit a man gets for doing right belongs to others.

R. Hendry and J. C. Reid vs. R Grant and Ed. Taylor.

Games to be 13 points up, and will commence at 7.30 p.m. sharp.

FIRE THREATENED CHESLER'S STORE

CIGARETTE THROWN AWAY STARTS BLAZE IN BASEMENT —OTHER FIRES.

While the rest of the citizens were enjoying their mid-day meal today, the local firemen were engaged in extinguishing a fire which had broken out in the basement of Benjamin Chesler's store at 289 George street, adjoining the Lundy block. The fire started by a cigarette dropped through a hole in the floor of the store by a careless customer. Mr. Chesler endeavored to put it out with the help of chemicals kept for the purpose, but in spite of his efforts the fire spread and increased in danger. A hurry-up call to the fire department brought the firemen, and the fire was soon under control. Fortunately the damage was confined mainly to empty boxes and wrapping paper, but a considerable amount of new stock had just been laid in, and in a few minutes more it would have been rendered completely unfit for sale. This was the first case in which the new equipment recently purchased was brought into use and the quick way in which the conflagration was ended proved its value to the community.

Other Fires.

Yesterday about the same time the chimney in the home of Mrs. Thomas Castle, 141 Sherbrooke street, was discovered to be ablaze. It was promptly put out by the firemen without any damage.

Collop's Hotel at 295 George street lost one of their awnings through the negligence of a careless smoker. Not thinking it worth while to see that the cigarette he had just been smoking was extinguished before throwing it away, he tossed it out of the window of his room. It lit on the awning and was burning briskly when discovered. Failure on the part of one man to take a minute's trouble for the sake of safety caused extra work to over half a dozen others as well as the pecuniary loss to the owners of the hotel. The least that a smoker can do who wishes to be considered or treated as a gentleman is to see that the life and property of other people is not put in jeopardy on account of his selfish thoughtlessness.

ANNUAL MEETING CANADIAN CLUB

EVERY MEMBER REQUESTED TO ATTEND AT PUBLIC LIBRARY TOMORROW.

The annual meeting of the Canadian Club will be held tomorrow evening at 8 o'clock in the Assembly room of the Public Library. Every member is requested to attend. The Club was resurrected after four years of war but conditions in the city were still too unsettled for a full program of activities. However, the club was able to put on two splendid entertainments and the Peterborough citizens were given an opportunity to hear two of the outstanding figures in public life, Hon. Dr. Cody, Minister of Education for Ontario, and Senator Robertson, Minister of Labor in the Union Cabinet, both of whom delivered instructive addresses. There is no reason why the Canadian Club should not be put on a stronger basis than ever and all depends upon the co-operation of the members who are asked to show their interest by attending the annual meeting tomorrow night.

A small boy is always very industrious when it is time for him to go to bed.

Some persons cannot see what pleasure those who mind their own business find in living.

Local Men Winners In Tennis Match

A quartette of Lakefield tennis players visited the city Saturday and played four singles and two doubles in the course of the afternoon at the Golf Links. All six events went to the local men, the first two sets being al lthat was required in every case.

Gordon Langley won from O. A. Langley, A. Bowness from O. M. Steer, G. A. McDonald from Dr. Smith, F. C. Webber from C. S. Tanner. In the doubles, F. D. Kerr and G. O. Cameron won from Dr. Smith and C. S. Tanner, and G. R. Langley and A. Bowness from O. A. Langley and O. M. Steer.

The man who points out our faults may be a true friend, but we feel like kicking him just the same.

A word to the wise may be sufficient, but the policeman often has to use a club on the otherwise.

At 21 a man knows everything; at 50 he wishes he knew something.

MRS. McCLUNG IN OTTAWA

Mrs. Nellie McClung gave her address on "Women's Part in Reconstruction," before a crowded house in the Russell Theatre, Ottawa, under the auspices of the Ontario Women Citizens' Association. Enthusiasm and cheers greeted the speaker and the occasion was a great success.

Mrs. McClung is announced to deliver her lecture in Peterborough on Thursday evening, of this week, 29th of May, in St. Paul's Church, under the auspices of the Ladies' Auxiliary of that church.

WOMEN VOTER'S LEAGUE

The executive of the above league earnestly request all members of the league to attend Mrs. Nellie McClung's lecture on Thursday evening May 29th, in St. Paul's Church. Mrs McClung's lecture on "Women's Part in Reconstruction," was given on Monday night in Massey Hall, Toronto, under the auspices of the Ontario Women's Citizens' Association and the United Women Voters. This lecture contains information and suggestions of the utmost value to the [illegible]

There will be no meeting of the league this evening.

HADN'T SEEN WELL DAY FOR 20 YEARS

TAYLOR SAYS WIFE IS IN BETTER HEALTH THAN HE EVER SAW HER—PRAISES TANLAC

"My wife has been a great sufferer from a disordered stomach ever since I first knew her, but she is in better health now than I have ever seen her, and the reason is, she is now taking Tanlac, is what Richard A. Taylor said to the Tanlac representative the other day. Mr. Taylor lives at 3 Oak Street Place, Toronto, and is employed at the Consumers' Gas Plant.

"She always had a poor appetite and I don't believe I have ever seen her enjoy a good hearty meal like other people. What little she did eat seemed to sour on her stomach and the gas formed from her undigested food would bloat her up till after meals she would often complain of a heavy feeling in her chest. Her food did not seem to do her a bit of good for she fell off in weight and I don't believe she had a real well day till recently, in twenty years. Her nerves were shattered, she said she felt tired and worn-out all the time, and she had so little strength and energy that her housework almost broke her down.

"I believe she has taken every medicine there is on the market trying to get well, but nothing did her a bit of good until she got hold of Tanlac, and that is the only medicine she ever found that helped her any. One of her friends who had taken it, told her about it, so I got her a bottle. She has taken only four bottles so far and she is now feeling and looking so much better that her friends are congratulating her on her improvement. That stomach trouble has almost entirely left her and she is feeling stronger than ever. Why, she can do all her house-work now without getting all tired out like he did before, and it sure is a pleasure to see how she enjoys her meals, like she does. Really, I was to taken with the way she began to pick up after starting on Tanlac that I tried the medicine myself and it sure did me a world of good, too."

Tanlac is sold in Peterborough by W. D. Warne Drug Co. td., in Havelock by A. C. Denike, in Lakefield by Tanner Drug Co. Ltd., in Fowlers' Corners by W. A. Hunter, in Gelert by A. J. Scott, in Westwood by G. Pringle & Son.

PIANO RECITAL AT CONSERVATORY

CREDITABLE SHOWING MADE BY PUPILS OF MISS CORA WHITE.

Miss Cora White of the Conservatory of Music Faculty presented a large number of her pupils in recital last evening at the Conservatory Hall and afforded a very pleasant hour for a large number of parents and friends present.

The recital was another in the long list of musical events which are very popular and much enjoyed by friends of the institution.

The playing of the pupils showed the result of careful training on the part of their capable and charming teacher, and at the close of the program Miss White was heartily congratulated on the success and work of her pupils.

Mrs. Paul Stoeving, wife of the noted violinist of New York, who is visiting in Peterborough, was present, and expressed her pleasure and appreciation of the painstaking work of teacher and pupils.

Following is the program:

Elsie Bennett—"Ivy."

Walter Bigelow—"Columbine."

Helen Byers—"Foxelore."

Marion Hall—Waltz, Op 50, No. 20 (Zilcher).

Kathleen Bateman—"Marigold."

Ethel Perrin—"Allegro Moderato" (Diabelli).

Dorothy Hall—"Wayward" (Zilcher).

Edith Killaly—"Minuet" (Bach).

Hazel and Violet Jackson—Duet, "Song of Paradise."

Mae Perry—Reading—Selected.

Ruth Hamilton—"Les Pierrois" (Streabogg).

Stanley Jones—"Harvest Home" (Lange).

Jean Ingram—"Neckereien" (Von Wilm).

Gladys Bateman—"L'Avalanche" (Heller).

Jean McKinnon—"Novelette."

Lena Johnston—"La Jolie Duchesse."

Norma Ingram—"At Evening" (Saratario).

Camilla Fitzpatrick—"Study."

Conie Downs—"Success" (Mazurka-Bachmann).

Dora Brown—(Violin) "Mazurka" (Mylnarski).

Lola Carley—"Song Without Words" (Holzel).

Mildred Morphe—"Scarf Dance" (Chaminade).

Louise White—"La Santilla" (Gottschalk).

Irene Staples—Waltz (Durand).

Agnes Sowdon and Mercedes Rae—Duet, "Country Dance" (Nevin).

Beatrice Barnard—"The Myrtles" (Paul Wachs).

Helen Morphet—Minuet in G (Paderewski).

Agnes Sowdon—"Au de Ballet" (Chaminade).

Mercedes Rae—(a) 2nd Mazurka (Godard), (b) Valse (Chopin).

Dorothy Haskill—(a) Valse in C Minor (Chopin), (b) Sous Bois (Staub).

The assistance of Mae Perry, who gave an interesting Habitant reading, and Dora Brown, from Miss Logan's studio, was much appreciated.

MAY FESTIVAL BY TEACHERS' GUILD

SPLENDID ENTERTAINMENT AT COLLEGIATE HALL FRIDAY AND SATURDAY EVENINGS.

The members of the Women Teachers Guild are to be congratulated on inaugurating this season the May Festival of song and dance, which is to be given in the Collegiate Institute Assembly Hall on Friday and Saturday evenings, May 30 and 31. A festival of this nature is one of the annual events of many other leading cities and it is the aim of the guild to arrange an entertainment which will compare favorably with that of any other city. The citizens should take advantage of this treat not only on account of the enjoyment that is to be derived but also because they will have an opportunity of seeing the results of the children's in music.

Few of us perhaps realize the excellent work in this line that is being carried on by our teachers in the public schools under the able direction of Miss Rankie, the musical supervisor.

Attractive drills and dances by the girls of the Collegiate and the girls and boys of the Public Schools will be a charming feature of the program and altogether a most delightful evening is promised.

BALE OF CLOTHES FOR LABRADOR

DR. GRENFELL, TOO, MAKES ANOTHER APPEAL FOR FINANCIAL ASSISTANCE.

A bale will be sent to Labrador early in June and any friends who have warm clothing to send are asked to notify the treasurer so that these can be called for.

Dr. Grenfell makes another appeal for funds for the new brick home for children at St. Anthony. He says: "I should like to emphasize the pressing need for care for the orphan children who are left as a result of the "flu" epidemic.

"A number of the men leave young families and in some cases both parents have been taken. Our present orphanage, besides being so poorly constructed and difficult to run, is full to its capacity and we are at our wits' end to meet the problem of caring for so many helpless children unless friends will come to their aid and give money for a new brick orphanage. These funds have been coming in slowly for some time, but the need has suddenly become so urgent that I am venturing to make a very special appeal to the sympathy of the friends of homeless little children."

Donations for this home or clothing for the bale will be gratefully received by the treasurer, Mrs. James Wood, box 990.

Give Up Sokia To Turkish Control

Paris, May 27.—Italian troops who occupied Sokia, fifty miles southeast of Smyrna, Asia Minor, have re-embarked on their transports. They turned over the control to the Turkish military authorities.

IMPORTANT NOTICE

All parties having claims of any nature against the G. W. V. A. drive committee or the new building will forward them to the secretary G.W.V.A., George Street rooms, by Thursday, May 29th, at 8 p.m. Full details including the name of the person authorizing the account must be given.

On account of the bad weather a number of persons in the city were not canvassed and if anyone wishes to contribute to the fund, their contribution will be thankfully received at the rooms or phone 141 and a collector will visit you.

Canvassers and captains of teams will return all subscription books and route sheets by Thursday evening. Important.

R. E. LAYFIELD,
Sec'y Joint Committee

King George Decorates Two Gallant Aviators; Plane Saved From Sea

Hawker and Grieve Invested With Insignia of Air Force Cross For Devotion to Duty—Story of What Happened Them After Their Descent

(Canadian Press Despatch)

London, May 28.—Harry G. Hawker and Lieut. Commander Mackenzie Grieve, who reached here from Thurso, Scotland, after being reported lost in mid-ocean when the airplane in which they were attempting to cross the Atlantic, lighted near the Danish steamer Mary, were received by King George at Buckingham Palace this morning. They received ovations from the Crown. His Majesty bestowed on Hawker and Grieve the insignia of the air force cross, now the honor bestowed for "devotion to duty."

Story of the Rescue.

Describing further the trip of Hawker and Grieve in their attempt to cross the Atlantic in an airplane, the correspondent of The Daily Mail says that Hawker remained seated the whole time, but that Grieve moved about kneeling to examine the drift indicator, standing up for observation or going forward for the wireless. Each of them ate a sandwich and drank four cups of coffee out of the vacum flask.

"The next time I ate," said Hawker, "was about seventy-two hours later, adding with a laugh, "Yes we didn't take enough calories. The fact is, I was very seasick when we got down low and afterwards for two days in the ship. It was like being in a small motor boat in a heavy sea when we flew down to look for a ship. We were between high waves and were bumped about quite badly."

Describing their position when the plane alighted, Hawker and Grieve said that they were in water up to their knees and the waves were close to the upper plane at times. The nose of the machine was turned into the wind and now and again a big wave dashed over it. Hawker said they spent their time discussing how the Mary was handled and whether she could sail the machine and its appliances. All this time the little boat carried the Sopwith machine was afloat beside the plane, dancing about like a cork.

"When the ship's boat reached the plane," said Hawker, "she banged right into the machine and we hopped on board. The ship slung a rope out and hauled the boat back and we climbed aboard the Mary."

Plane is Saved

St. John's, Nfld., May 28—The Sopwith biplane in which Harry Hawker and Mackenzie Grieve attempted to fly across the Atlantic was picked up in latitude 49.40 north, longitude 29.08 west by the American ship Lake Charlottesville, according to a radio message received by the Furness line Sachem and relayed here last night.

The message from the Lake Charlottesville was received first by the Furness liner Elstree Grange. In it Captain Elverson said he had taken aboard part of the plane and all of the mail it carried, and was proceeding to Falmouth, England.

AGREEMENT FOR BRIDGE WILL BE RATIFIED THIS EVENING

Council to Finally Pass on the Matter—Contract With Canadian Engineering and Contracting Co. Will Be Signed and Sealed if the Big Six Sticks Together.

The form of contract between the Canadian Engineering and Constructing Co. and the city for building the new Hunter street high-level bridge passed the Board of Works last night in rough outline. It will be presented to a special meeting of the Council tonight, together with a bylaw authorizing execution for acceptance.

No counter-moves were made last evening in opposition to the tender, although Mr. Edward Conroy sent in a new bid.

He wrote that as the Board of Works had apparently decided on accepting a cost-plus tender for the Hunter street bridge, he withdrew his lump-sum tender and offered to build the bridge on a cost-plus basis. Mr. Conroy stated he would accept $13,000 above the actual cost of the bridge as his profit and for use of plant. He would also guarantee that the bridge shall not cost the city over $20,000, and would enter into a contract to that effect.

Mr. Conroy pointed out that his proposition would save the city in the neighborhood of $21,000 in comparison with the tender of the Canadian Engineering and Contracting Company, and he guaranteed to pay union wages for labor.

In round figures, not taking into consideration the odd hundreds, Mr Conroy's lump-sum tender was $251,000 against the new $260,000 bid on a cost-plus guaranteed basis.

In this latter proposition he has allowed himself $13,000 for profit and use of plant and assuming he was to alowing himself the same amount in profit and plant rental in his lump-sum tender he is now asking $9,000 more for profit and plant. That is to say he implies in his cost-plus tender $27,000 for use of plant and profit against the Canadian Engineering and Contracting Company's $28,000. Mr Conroy is climbing up.

No action was taken in regard to the above new tender.

As it Now Stands.

The figures of the Canadian Engineering and Contracting Co. stand as published in the Review last evening, excepting the following changes:

The city to pay rental for use of pile-driver and steam shovel, as well as transportation and erection and dismantling of same, which will not exceed $2,000.

In this connection Engineer Barber pointed out that there is practically no difference between the Russel-Townsend proposition and that of the contractors now under consideration. The latter supply the small plant, the farmer were to supply free the heavy plant and be allowed $2,000 for the small perishable plant.

The contractors have not withdrawn the 15 per cent. allowance to the city in excess of $276,860 costs, and to them on all savings below that amount.

Little Clearing Up.

Mr Barber said it is customary that local office help shall be charged against the work. He also pointed out that the Russel-Townsend people insisted on freightage to and from Peterborough of their heavy plant unless it were shipped from here to another job, when the one-way freightage only would be charged the city.

The contractors are to be allowed to sub-let, if advisable, a contract for excavating and filling, subject to the approval of Engineer Barber.

To Ald. Garside Mr. Paulin replied that the Canadian Engineering and Contracting Co. have been paying

(Continued on Page 4.)

COUNCIL OF FOUR MAY COMPROMISE

PROSPECT IS NOW BRIGHT FOR SETTLEMENT OF ITALIAN QUESTION.

(Canadian Press Despatch)

Paris, May 28.—The Council of Four of the Peace Conference is making a determined effort to effect a settlement of the Italian question today. Andre Tardieu of the French delegation, after consultations with the Italian representatives framed a formula over night which is understood to follow generally the lines of a compromise.

WOMAN WILL TRY ATLANTIC FLIGHT

(Canadian Press Despatch)

Chicago, May 28. — Ruth Law, aviatrix, before leaving for New York today announced that she plans to attempt a transatlantic flight within six weeks. She will use a new Curtis land biplane and will be accompanied by James Lamont, her mechanic.

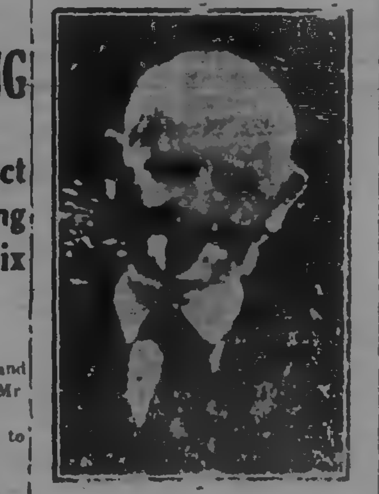
ANOTHER PHASE OF KENDRY LIQUOR CASE UP IN COURT

Ray Sullivan on Trial and High Constable Moore Takes the Witness Stand—Hearing Still in Progress.

In the case of the Crown vs. Sullivan at the Police Court this morning a battle royal was waged between the opposing counsel over the identity of the man who went scouting around Kendry Station in an automobile in the early hours of the morning of April 30. The charge was one of violation of the Ontario Temperance Act, by having prohibited alcoholic beverages in his possession. Mr. John W. Seels loaned to the court a bottle of the Kendry consignment in question, and to judge by its exterior the contents were of the nature that drives the members of the W. C. T. U. frantic. He is the local agent for the Dominion Express Company, who delivered the goods in question at Kendry on April 30 from the 6:20 a.m. train from Montreal.

Mr. Moore, high country constable for Peterborough, underwent a grueling cross-examination by Mr. G. N. Gordon, the lawyer for the defence. The witness stated that he had watched a car with one occupant go south from Kendry, and in a short while it returned. Both he and Mr. Stewart, the local license inspector, remained in hiding until the train pulled in. Then they followed in their car and saw two men handling some boxes. As soon as the latter saw the constables they left their goods and were whirled away in the auto. Mr. Moore admitted that at the time of the affair he did not recognize Ray Sullivan as the driver of the car. The defence further attempted to prove laxity or uncertainty on the part of the constable in not apprehending Mr. Sullivan when he met him on the street.

At the conclusion of Constable Moore's evidence the court was adjourned till 2 p.m.



CHRISTIAN KRUGER.
Otonabee farmer, aged 93, who recently committed suicide by hanging.

CORP. O. BROOKS IS HOME AGAIN

WEARS MONS STAR AND MILITARY MEDAL FOR FAITHFUL SERVICE.

Peterborough's heroes are fast returning to their native city and the surrounding district. The latest arrival is Corporal Oswald Brooks, who landed here off the G. T. R. at 8:10 this morning. He left here with Major Bennett's original company in 1914 and is the proud possessor of the Mons Star and the Military Medal. While abroad Corporal Brooks was not only a distinguished warrior but a successful lover as well, marrrying the lady of his choice in the fall of 1916 while on leave in England. His wife came over in February, and has everything ready at their future home in Young's Point. Corporal Brooks spent forty-seven months on the firing line and returned home on the last trip of the Aquitania, receiving his discharge paper at Kingston.

Hosea D. Parker, 74, of East Lee, Mass., attacked with sleeping sickness two months ago, is dead.

CANADIAN SOLDIER WAS CRUCIFIED

SIR EDWARD KEMP SAYS TWO AFFIDAVITS HAVE BEEN SECURED.

Ottawa, May 28.—That a Canadian soldier was crucified by the Germans was clearly proven by affidavits of comrades who witnessed the scene, said Sir Edward Kemp, Overseas Minister of Militia, in the House of Commons. He made the statement in reply to a question by Hon. Charles Murphy with respect to an insert of a figure in a frame which was exhibited in the Old Country.

"We succeeded in getting the affidavits of two Canadian soldiers who witnessed the scene," said Sir Edward, "and we got on the track of others who thought they had seen it. We secured two affidavits at any rate."

Hon. Rodolphe Lemieux —Were they positive.

Sir Edward Kemp. They were affidavits by soldiers who saw the actual scene. One wore the Victoria Cross, and the father of one of them was employed in a position of importance in London, so after denial was made by the Germans we issued a counter-statement containing the particulars we had at that time. I do not think there can be any doubt but that the Germans were guilty of this atrocity.

Fewer Cows Now In Peterboro Co.

Today's Globe says: "Men who are in touch with the dairy situation in Peterborough county states that herds are reduced this season, and that there are not as many cattle in the county as there were last season. It is further stated that farmers are not showing the interesting the dairy industry that would be expected from the prevailing high prices.

Cupid is a little fellow, but one can't always judge by the sighs of love.

PLYMOUTH IS ALL AGOG WITH NEWS

ENGLISH TOWN AWAITS EAGERLY ARRIVAL OF AMERICAN SEAPLANE.

(Canadian Press Despatch)

Plymouth, May 28.—News of the flight of the American navy seaplane N.C. 4, from Ponte Del Gada to Lisbon was received with the greatest interest in Plymouth which is to be the final destination of the big aircraft in its trip from Newfoundland to England. All plans for patrolling the course of the intended flight from Lisbon to Plymouth have been arranged. There are to be eleven American torpedo boat destroyers between Lisbon and Plymouth.

Germans Present Counter Claim

(Canadian Press Despatch)

Versailles, May 28.—The German peace delegation here, it was learned today will present a counter claim of 12 billion marks for damage from allied blockade as an offset to the reparation demands of the allied powers.

United Farmers Put Up Nominee

Milton, May 28. United Farmers of Halton County, in convention here nominated John F. Ford of Omagh as their official candidate in the next provincial election. The County Liberal Association is holding its convention the first week in June, and it was with the idea of showing their hand that the farmers called the convention.

Seaplane Arrives Safely At Lisbon

Lisbon, May 28.—The American seaplane NC-4 arrived here last evening. The achievement of the first transatlantic air flight with Lisbon as the first European stopping point, has aroused the enthusiasm of the Portuguese as no event has stirred them for many years. When the seaplane came over the Tagus river, the populace, crowding at the places of vantage, gave full expression to this enthusiasm by cheers of welcome, the booming of guns and the ringing of bells.

Bring Down Budget Thursday, Next Week

Ottawa, May 28—Sir Thomas White announced in the Common that the budet would be brought down on Thursday of next week.

Russian Troops Hold Petrograd

(Canadian Press Despatch)

London, May 28. — The Russian wireless message today denies the report that explosions had occurred in Petrograd due to its approaching evacuation. The despatch declares there is no intention of abandoning the city and that reinforcements already sent to the Gatchina front south of Petrograd, are succeeding in driving back the enemy.

American Plane To Visit Canada

(Canadian Press Despatch)

Montreal, May 28.—The UC-97 which was in harbor for the last 36 hours left at six this morning in tow of the tug Iriquois for Ogdensburg, N.Y. From that point she will proceed up the river and the Great Lakes to Milwaukee, stopping at twenty-five Canadian and American ports on the way.

Prolonged rains have caused serious damage to tobacco in the valleys between Elmira and Hornell, N. Y.

Toronto Rests Easier Since Labor Leaders Have Delayed Strike

Deputation of Interested Parties Will Go to Ottawa For Conference With Government—No Prospects of an Early Settlement at Winnipeg

Toronto, May 28.—This city today enjoyed a temporary relief from anxiety of an immediate general strike, while Mayor Church and his big delegation of employers and striking employes with Board of Trade members and other representative citizens, prepared to leave tonight for Ottawa to place the whole matter before Premier Borden. There has been no change in the situation since 2 a.m. when the strike committee, after a strenuous session, accepted the advice of Mayor Church and postponed the strike call for 48 hours, or until Friday at 10 a.m., pending the discussion before Premier Borden, regarding government legislation enacting a 44 hour week generally in Canada. The postalclerks here are exhibiting some unrest over the delay of the Government regarding re-classification.

A Ray of Hope

After the conference Mayor Church sent the following telegram to Premier Borden:

Before the conference at the city hall prospects of a settlement were not at all promising, but when the parties got together and as time sped on and there was no sign of a break-up, hopes were entertained that the difficulties might be successfully navigated. After the negotiations had been in progress for about an hour and a half it was learned that headway was being made and that there was a disposition to accept the prime minister's offer and proceed to Ottawa for a conference. According to the Mayor, 21 out of the 22 points could be adjusted, the one on which there was real contention being the 44 hour week. The attitude of the employers was stated to be that if such conditions were granted it would handicap them in competition with manufacturers in the United States and parts of Canada where no such hours were in vogue. The workmen pointed out, it was said, that there was an eight hour day in England, Australia and elsewhere, and declared that they were entitled to it as a result of the war.

"Following your very kind suggestion, long conferences with metal workers and employers were held this evening. No permanent solution arrived at. Meeting decided to take advantage of your kind offer of intervention. Deputation of all concerned proceeding to Ottawa Wednesday evening to interview Thursday. Meantime general strike postponed until 10 o'clock Friday morning, pending result of negotiations with you. I have assured the employers and the employes that conference without fail. Please confirm appointment."

No Settlement at Winnipeg

Winnipeg, via St. Paul, May 28—Hon. Gideon Robertson, minister of labor, in an interview last night said that he could see no indications of an early settlement of the general strike which has been in progress here for nearly two weeks although some strikers were going back to their work. The Senator said that the officers of the running trades of the railroad organizations had a conference with the strike committee and had difinitely decided to take no part in this sympathetic strike because of the motives back of it.

Premier Norris had positively declined to have anything to do with the appointment of a board of conciliation as suggested by the strike committee until the sympathetic strike is called off.

Situation at Calgary

Calgary, Alta, May 28.—Business was not noticeably dislocated yesterday by the general strike. Street cars were operating and lighting plants, theatres and hotels were conducted as normally. Volunteers are at work in the post office and more will be added it was announced. About two hundred of the former governmental employes are on strike.

Condition at Edmonton were reported as more serious. Street cars had stopped, restaurants and hotels were closed or badly crippled and the electric system down. Police and firemen were said to be at work under orders from the strike committee.

May Disrupt Government

Ottawa, May 28.—Though the strike situation dominates public attention, there is still much gossip and speculation as to the future of the government. Indeed the two are so interlaced that a prominent Unionist said today that a spread and continuance of the strike might result in the break-up of the government within thirty days.

REV. B. GREATRIX TO RETIRE AFTER 40 YEARS IN MINISTRY

Faithful Pastor is Recommended For Superannuation at District Meeting To-day

Rev. Benj. Greatrix, pastor of St. James' Methodist Church in this city for the last four years, was recommended for superanuation today at the meeting of the Peterborough District of the Bay of Quinte Conference. He has been in the ministry for forty years.

Statistical Report.

The following statistical report was submitted:

Total membership, 4,678; increase 107.

WEDNESDAY, MAY 28, 1919

FARMERS' CLUBS.

ONE OF THE OLDEST subscribers of The Review, a bona fide farmer who lives some distance from the city, has a communication in another column of this issue in which he handles without gloves the Farmers' Clubs which are springing up everywhere. Anyone who reads his article will be forced to admit that "Subscriber" has certainly made out a case on the only issue which he raises, and that is the plan of buying collectively from the mail order houses in the big cities instead of patronizing the merchants nearer home.

Every class of workers, every line of business men, is organizing these days, and the farmers have just as good a right to combine as anyone else. Lawyers, doctors and dentists have their several associations, and the prices which they can charge are set by law and are easily collectable in case of a dispute with client or patient. The manufacturers have their schedule of prices. The farmer's only hope is to fight fire with fire, to meet combination with one of his own.

If the farmer combines for political purposes, no one can object, because he is simply following the custom all around him. The workingman is engaged in the same line of endeavor for his own betterment. The farmer is not making himself conspicuous these days by forming clubs in all rural communities. Rather would he be an oddity among all other classes if he chose to remain as he is, every farmer to look out for himself.

"Subscriber," in his article, however, calls attention to the fact that the danger in this particular combination is the tendency to pass over the heads of the dealers in the small towns and cities and to send their money to the large centres. Followed to its logical conclusion such a system as this will eventually do away with the towns and villages, and such places are essential to the welfare of any farming community. Remove them, and the farmers and their families will be more isolated, more of a class apart, than ever, and isolation is pleaded today as one of the reasons why so many young people drift from the farm to the city.

The farmer may regard the middleman as a parasite living on the fruits of another man's toil, but the middleman is a necessary part of the economic machine. Collective buying does not abolish the middleman, but simply changes from one such functionary to another. And collective buying has been tried out in the past by unions of farmers, and has been abandoned after unsatisfactory experiment. The Grangers and Patrons of Industry have had their day, after attempting to revolutionize the economic conditions of the country. Farmers' organisations that are most powerful today—the famous Apple Grove Grange of Elgin County, for example—are those that proceed on the principle of living and allowing others to do likewise. No organization can succeed if the selfish element predominates.

But even if they cut out the feature to which "Subscriber" objects, the Farmers' Clubs still have a mission in life, a mission that justifies their existence, and they cannot fail to prove themselves one of the most influential organization in existence.

CANADA'S GOVERNOR-GENERAL.

THE GROWING democratic sentiment in the West is demonstrated by the following editorial from a recent issue of the Winnipeg Free Press:

> It is reported from London that the authorities there are preparing to pick a new Governor-General for Canada.
>
> The time is therefore opportune for saying that the day is past when Canada's correct attitude towards Governor-Generals is thankful acceptance of any choice that the British Government may make.
>
> A minimum concession to Canadian rights of self-government would be recognition of a veto-power by our Government against any nomination by the British Government.
>
> But this, in fact, does not go far enough. The appointment of a viceroy for Canada ought to be made by the King upon the advice of his Canadian ministers, and upon their advice only.
>
> Is this not a necessary incident to that status of nationality which Canada has claimed for herself and which is no longer denied, either in London or elsewhere?

Why not go a step further and insist that the Governor-General of Canada be chosen from among Canadians themselves, just as are the lieutenant-governors for the various provinces? There seems no more reason why the position should be filled by the appointment of an aristocrat from the British Isles than that the premiership should be disposed of in the same fashion. The only justification for the custom is the idea that the system tends to keep Motherland and Dominion in closer unity.

Canada's Parliament has set its face like a flint against the establishment of an aristocracy in this country. No more titles are to be distributed here. Why, then, should a representative of the class to which the Canadian people object be sent from England to hold an outstanding position here, even though, while he is filling that place, he is largely a figurehead, possessed of no real executive authority?

But there is a certain element in Canada that still worships titles and those who wear them. It is really in deference to these that the Governor-General of Canada is selected from among the aristocracy in Britain. That official's real duty is to set the pace for the socially ambitious in this country. As a statesman he is supposed to do only what his advisers, the Ministers of the Government, request him to perform. Certainly not every Governor-General sent here has had any training or even a modicum of experience in public life.

Some Canadians welcome every Governor-General to this country with the claim that it is indeed condescension on the part of one so exalted to consent to spend a few years, really a vacation, in a dominion, whereas the job, even though the duties are largely imaginary, is one that any aristocrat, even though he be a scion of royalty, should regard as the crowning honor of his otherwise featureless career.

The Governor-General, however, is not without his trials during his administration here. One of the heaviest of these is his official tours throughout the country, during which he is supposed to get in close touch with the people and cement the bonds that bind the Dominion to the Empire. The official receptions tendered him at all stopping places, the set address, the committee in glad rags who do the honors, the address that calls for a premeditated reply, all these functions must harrow the very soul of a man gifted with a desire to follow the bent of his inclination and to live as ordinary mortals do.

When the Duke of Devonshire paid his official visit to this city a year or so ago, there is no doubt that he enjoyed himself. But it was not while he was undergoing the official reception process. Before the ceremonies began he walked about the city street alone and unknown to the populace, gazing into the store windows with interest and otherwise disporting himself like a man who was merely mortal and who could really enjoy life if spared the fawning and flattering of hero-worshippers.

MR. HIGGS KNOWS.

THERE WAS CHEERFUL optimism in the address of Rev. W. H. Higgs at the meeting in George Street Methodist Church last night, in which he referred to the present industrial unrest and predicted that good would arise out of all this present trouble.

The records of history bear out Mr. Higgs in this contention. There has never been a national upheaval that was not followed by a higher order of social, economic or political conditions. The darkest hour always precedes the rising of the sun. Out of four years of war has come a higher measure of freedom to the masses of Europe.

Mr. Higgs knows what he is talking about. He has been through the fire of experience and has felt the injustice of which the poorer classes in England have been so long the victims and from which they are now struggling to free themselves. He has no wild theories concerning the survival of the fittest or the triumph of the mighty.

As Mr. Higgs says, there is really nothing amiss with the *present-day religion. The trouble is that its principles* have not been properly applied, and it is a new application of these rather than a new religion that is required.

Major Frost offered a suggestion by way of remedy for all these strike troubles. The men in the cities who are not satisfied with their conditions must be encouraged to go on the land and *become producers.*

This encouragement has been extended for years, but to no purpose. Men in any walk of life have a right to select their own calling, whether their choice be mechanical or professional pursuits.

It is not the alien, as Major Frost says, who is responsible for these industrial disturbances. The tail in this case is not wagging the dog. Native-born Canadian workingmen are in the majority and control the situation so far as Labor is concerned. The trouble is that the alien's action in such matters, insane and revolutionary so often, is taken as representative of the entire class of wage-earners.

THE CAUSE OF UNREST.

(Lethbridge Herald.)

WHAT IS THE CAUSE of the Winnipeg strike? What is the cause of the labor unrest throughout Canada which threatens to precipitate strikes in a number of cities? The public is interested in the answer. What is it?

Some may think it is the demand of the workers for a shorter work day. In some parts of the East that is one cause for unrest. People in the East have been working longer hours than we in the West are accustomed to. They haven't gotten over the old habit.

But that isn't the real cause, for the world is adopting the eight-hour day, and those employing concerns which are sticking out against the new order of things may as well come to it. Of course, there may be certain exceptions in some industries, but these should be rigidly defined as exceptions.

There are others who say that the whole trouble is the same old fight between Capital and Labor, and of course the only solution is to abolish Capitalism and set up a dictatorship of Labor. With this goes the cry for production for use only and not for profit.

This is the argument of the hot-heads, and when it prevails the world will commence to slip backwards, for private enterprise and ambition will be no more. Capital and Labor both have their place in the scheme of things, and they should work hand in hand. It is the hot-heads on both sides who cause the trouble—the profiteers on the one hand and the bolshevistically inclined on the other. There is, however, very little of this trouble in Canada, only insofar as it effects the cost of living, and if profiteering is shown to have unduly boosted the cost of living, then trouble may be expected. Labor will meet Capital's greediness with sharp measures.

Is there profiteering in the commodities of living in Canada, and if there is, what is to be done about it? Recently the Dominion Government has had an industrial commission sitting throughout Canada, making a survey of the whole labor situation, hearing evidence and getting both sides of the question. And on the whole the main evidence as to the cause of the labor unrest has been laid to the door of the high cost of living. Who is responsible for it?

Those people who have laid in their next winter's coal are wondering whether it will last till then.

"SUBSCRIBER" IN COUNTRY IS OPPOSED TO FARMERS' CLUBS

Says it is not Fair or Wise to Send Money to Mail Order Houses and Force Local Merchants into Bankruptcy.

Will the editor of the Peterborough Review be kind enough to allow me a small space in his interesting columns, to see if I can agitate at least, if not convince a few of his readers?

Now, Mr. Editor, just a word about myself by way of introduction. I was born on a farm and raised close to the ground. All the years of my boyhood and youngmanhood were lived out amid the mysteries of nature. I have heard the sad moan of the winter-killed trees, and have seen them shoot forth their beautiful foliage full of life again. I have seen the dormant grain fields after those long cold months spring to life once more, and have often wondered why it is that, since all nature is a unity, God's creatures should be everlastingly clawing up disputes. I have in mind the strained relationship that exists between the farmer and the city man. Now, we all know the farmer though Mr. City Man was enjoying the good things of the earth and he was in a material way. He had the electric light, while the farmer had to let his horse feel its way home after dark. Then along he came with his automobile and put the farmer in the ditch. Yes, in the days of license the motorists would go through a funeral procession where an old neighbor was being conveyed to his last resting place. Such was their disregard for the sons of the soil. They would come out by the dozens with their benzine buggies and ruin our roads. All this time we farmers were pawing up the ground.

Truly, we have cause to look askance at our urban neighbors. It was then our members of Parliament endeavored to straighten out the hitch. They regulated the speed, making a law that in case of damage the motorist must leave his name and number, and that was all right. They gave us a prohibition law for the safety of the public. Our Government has taken over the electric power and are giving us power and light as far as their means will warrant, and that was first-class. They are even willing to help in the construction and maintainance of our highways if we ask their assistance.

Now, in the face of all this, the farmers are about to organize themselves in clubs, and what for? If it is for the purchase of some pure-bred horse or other animal it is all right. Yes, I will combine with you to knock the other combines every time, but will oppose the mail order system, which is the purpose of those clubs, with all my might. For we farmers to congregate and send to Toronto, or some other city, for our goods, is wrong in every sense of the word. We need those home merchants as much as they need our trade.

Just for a moment consider the want of clear thinking in this business. Suppose each farmer supports a store that is 100 miles or more from his home. By donig this we would close perhaps 1,000 small stores. Now do we ever stop to think what this would mean in taxes. Everyone will agree with me when I say it is a small store that would be assessed for less than $1,500 and so on up as high as $20,000 where it is a going concern. Now, if we close those stores the assessor will be obliged to lower the assessment to half that sum or more and where are we going to get our taxes. This large central store we patronize will not be looked to for contributions towards the education of children here in our county towns, or the upkeep of institutions for the public good. On the other hand every ordinary shopkeeper or merchant helps so in this way. Perhaps this man has no children, yet he pays a school tax. Perhaps he hasn't a horse or a car, yet he pays a road and bridge tax. He pays the county rate for the upkeep of God's unfortunates and perhaps he never had one of his blood there. Now after those men helping us all the way through is it right that we should close their doors and bring our wants from a great central store? Never mind squabbling over the social conditions on the farm. Never mind bickering over the tariff. Petition the members of Parliament to knock the combines with every opportunity and that is all the protection we farmers want.

SUBSCRIBER.

WARSAW

(Special Correspondence.)

Warsaw, May 26.—Mr. D. H. McMillan of Portorta is at present the guest of her parents Mr. and Mrs Nathan Payne.

Mrs. G. Growe spent Saturday in the village.

Miss L. McCracken spent Saturday in the village.

Miss Emma Darlin spent the holiday in Peterborough.

Mr and Mrs. H. Choate and children are at present visiting friends in Ottawa

Miss Alice Payne was the guest of Miss Jean Bowen for the holiday.

Mr. J. Coon of Apsley spent the week end the guest of Mr. and Mrs. McIlvena

Mr. Robert Lloyd spent Friday in the village on business.

Mr. East of Peterborough passed through the village on his way home from the Lakes.

The Women's Institute held an egg day on the 24th.

Miss M. Boudill spent Sunday in the village.

Mr. Levi Payne and Mr. Ed. Bell spent Sunday in Lakefield.

Mr. A. Conlon of England who had taken part in the war gave his mother, Mrs. A. LaRush, a great surprise on Sunday when he came in unexpectedly. Mr. Conlan had been a prisoner in Germany for three years and a half. Mrs. Rush had three boys in the war.

Mr. W. Hawthorne spent Sunday in Lakefield, the guest of Mrs. Rodgers.

Mr. M. Tobin of Peterborough spent Monday in the village.

Mr. A. Longsberry is spending a few days in Harwood

Mrs. O'Reilly and children of Peterborough were guests of Mr. and Mrs Fitzpatrick on Monday.

Miss Jessie McIlvina of Toronto is at present visiting her parents.

Mr. Lewis Drain of Clarina spent Sunday in the village.

Mr. David Little of Hall's Glen spent Monday in the village on business

Mr. Mark Edwards spent Monday in Lakefield, the guest of Mrs. Lennox.

Mr. P. Bell and Mr. H. A. Richmond spent Monday in Lakefield.

Mr. and Mrs. Sid Bell and Master Karl spent Sunday in Smith, the guest of Mrs. Bell's grandparents, Mr and Mrs. Heard.

Mrs. S. Bell spent Sunday Sunday in Lakefield.

Miss Myrtle Brown of Peterboro is spending a few days the guest of her grandmother, Mrs. Clements.

Miss Sandy spent the week end the guest of Flossie Little of Lakefield.

Mr. Sandy of Omemee is at present the guest of Mr. and Mrs. Jackson.

Mr. T. Bellas of North Monaghan is spending a few days visiting friends.

Mr. and Mrs. Albert Rowe and family spent Sunday the guest of Mrs. Rowe's parents, Mrs. A. L. Rush.

Mrs. Allen Runford and daughter Miss Kathleen of Toronto have returned to their home after spending two weeks the guest of Mrs. Dunford's sister, Mrs. W. H. Clements.

Mr. Dunford of Lakefield has returned home after spending a few days the guest of his daughter.

Mrs. P. H. Lloyd and children spent Sunday the guest of Mrs. Lloyd's parents, Mrs. R. H. Alford of Lakefield.

Mrs. R. Thompson spent Monday in the village on business.

Mr. Fred and Miss Ruby Bolton were guests of Mr. and Mrs. F. Tucker on Sunday.

Mrs. P. H. Lloyd and children spent Monday the guest of Mrs. P. Fitzpatrick.

Mr. Hugh Robb of Norwood spent Monday in the village.

Mr. and Mrs. Collawall of Toronto passed through the village en route for their home after spending a few days at Stoney Lake.

Miss Milby McIlvina of Toronto spent the week end at her home in Warsaw

The King's Daughters held a picnic at Quary Lake on the 24th. The day was spent in games after which Miss Mable McTaggart amused the girls by her witty stories which were much enjoyed by all. The Young People encountered the trail rangers who were on a hike and invited them to have lunch with them to which they did justice. The boys had been to the Potash Kettle up the river.

The Trail Rangers have for their Captain, Rev. Robert and for mentors Mr. Fred Crowe, Rev. Clure and Mr. D. Miller.

EDITOR'S MAIL

AGAIN THE BRIDGE

Editor Review—With your kind permission I would like to correct an error in your leading editorial of the 27th inst, under the heading, "Foundations for the Bridge." I think you have made a grave error in comparing the foundation of the Quaker Oats Building with that for the abutments of the new Hunter street Bridge.

In the case of the Quaker Oats building the foundations support a dead weight only while the foundations for this Bridge with a span of two hundred and thirty five feet must support the weight of a lateral pressure besides of probably fifty thousand tons. No comparison can be made between these respective foundations.

J. W. FITZGERALD

MOUNT JULIAN

(Special Correspondence.)

Mount Julian, May 28.—The annual business meeting of the Womens' Institute of South Burleigh was held at the home of Mrs. Charles Lauder on the 7th of May and was a very interesting one. The meeting opened with singing and prayer and then the minutes of the previous one were read and confirmed. The secretary-treasurer's report was received and approved and the election of officers followed. Mrs. Charles Lauder, who has been president for several years, handed in her resignation but as she was urgently requested to withdraw it, consented to do so. The other officers and directors were re-elected as follows:—Mrs. Sam Wilson, vice-president; Miss Emma Reid, secretary-treasurer. The only change made was in the auditors, Mrs. Bruce Reid and Mrs. Oliver Church being chosen to take the place of Mrs. Victor Steven and Mrs. Hilliard Reid. The directors are Mrs. W. T. Northey, Mrs. Jas. Reid, Mrs. Wm. Cary, Mrs. Israel Church, Mrs. Wm. Spence and Mrs. Clarkestone.

Packages of garden seeds which had been sent to the institute from the Department of Agriculture were distributed to the member by the secretary-treasurer.

After the business was disposed of, a talk on the best ways of making butter was given by Mrs. Walsh and Mrs. Windover. There was a reading by Mrs. Charles Lauder, a song, "The Bonny Banks of Loch Lomond," by Mrs. Bruce Reid, Mrs. Victor Steven, Miss Gladys Steven and Miss Dollie Church.

The summer meeting, which is arranged for by the department, will be held at Mrs. Wm. Church's cottage, "Cedar Brae", Mount Julian, on the 28th of June. A special feature of the meeting will be an address by Miss A. H. Clayton, of Uxbridge, and as the department aims always to give the best instruction to our institutes, their lecturers are able speakers on social and health problems and domestic science. A cordial invitation is extended to all interested in institute work to attend this meeting.

The death occurred of one of our members this year, Mrs. Joe Northey, and all unite in sympathy with her bereaved husband and children in their great loss.

At the close of the meeting tea was served by Mrs. Lauder.

Divine service was held in Eden Church on May 14th by Rev. Mr. Wicket, of Bethany, and Rev. W. H. Higgs, of Millbrook, who were up to conduct the quarterly business meetings of the various churches of the Aspley Methodist mission. Mr. Chas Lauder, recording secretary of Eden Church, attented the meeting, which was held in the parsonage at Apsley and was appointed to go as representative of the mission to the district meeting to be held in the George St. Methodist Church on the 28th of May.

Our pastor, Rev. Mr. Beck, assisted the visiting ministers at the different meetings and will also attend th district meeting in the interest of the entire mission.

All are indebted to Mr. Knox, of Apsley for his kindness in taking Mr. Wicket and Mr. Higgs from Eden Church to Apsley.

At the close of the services on Easter Sunday in Eden Church the former organist, Mrs. Bruce Reid, was presented with a sum of money and an address. Mrs. W. T. Northey read the address and Mr. Charles Lauder presented the purse. The present organist was presented with the same, the address being read by Mrs. Charles Lauder and the purse presented by Mr. Joe Northey. Both these ladies have freely and cheerfully given their services in the church and Sunday School, expecting no remuneration, but the congregation thought that some recognition should be made of their faithful work.

Miss Clayton, Listowel, will be the speaker at the Summer Series Meeting of the Women's Institute on the 27th. The subject will be "Citizenship and the possibilities of the Institute Work."

Mr. John Gallagher of Dummer passed away at his home Friday. The remains were taken to Norwood on Sunday the 25th, for interment. Many friends attended the funeral.

Miss Taggart, superintendent of the teen age department of the Sunday School for Ontario gave an interesting address on Vision and Service which was well appreciated by all present. Rev. Brown of the Presbyterian church assisted in the service. Both Baptist and Presbyterian congregations were present. Miss Taggart also gave a short talk to the children of the Methodist Sunday School in the morning.

Three car loads of pleasure seekers motored to Norwood on Saturday to spend the holiday and enjoy the sports.

FEMININE LOGIC

The young lady across the way says she overheard her father say more than a month ago that he had only a short interest in the stock market so she supposed he's out entirely by this time.

To err is human; ability to conceal it is divine.

LESSONS IN RIGHT LIVING

By Dr. W. A. BRADY

Problem is simple arithmetic: If it requires 40,000 medical officers to give reasonably good care to the health of 4,000,000 troops, how may civilians, including men, women and children, can one health officer properly serve?

The answer is 100.

But the average American or Canadian city of 30,000 to 50,000 population cannot see it that way, for the health officer in cities of that size generally conducts his private practice as a vocation, and if he has any time between patients, dabbles with the administration of the public health in his idle moments. We are not yet quite civilized, you see. Mostly we still rely on the almanac and the neighbors to advise us about matters of health. Oh, surely we will go down in our jeans for the necessary price of protection against fire, for police protection, for prosecuting criminals, for maintaining jails and such appurtenances, but ain't it awful, Mabel, when we are asked to contribute a few cents annually toward the protection of our health? What's the use o' squandering real money on public health protection, we ask ourselves, when any good neighbor or almanac will tell us all about it in case we do get sick or something?

The great war, observers on the inside assure us, is going to bring about all kinds of revolutions. When the troops get back home the old order has got to change and numerous desirable reforms are going to be started. This forecast has been made freely in the last few years. But the great war is about over, the soldiers are trickling back home and the same old conditions remains.

However, as a Gargantuan colleague used to say, there is hope. More and more people are beginning to suspect that, after all, there may be a grain of truth in the proposition that "public health is purchasable"; at any rate, more and more communities are investing in it nowadays, timidly at first, but investing.

It is just as hard, requires just as much knowledge and skill and work to maintain the health of 100 persons at home as it does to maintain the health of 100 persons in an army camp. And the health and life of the individual at home is just as valuable as the health and life of the soldier.

To expect one officer to look after the health of 30,000 persons is absurd and picayunish.

The principle is wrong; the practice is wasteful.

In that city of 30,000 persons there are at least fifty other health experts equally competent to guard the health of the people. Why not make use of their services, since they are right there on the job all the time?

Every reputable citizen in practice should be the health officer of his people.

As a matter of plain common sense we can never hope really to enjoy the benefits of efficient public health administration until every reputable doctor is made as responsible and as interested as the lone health officer of the town is today.

Tell It To Noah Webster.

"For a week I have faithfully somersaulted and the results far exceed my expectations. With the exception of a skinned ankle, a couple of lame shoulders, a bruised back and a black eye, they leave nothing to be desired. You see, somersaults and some are not!

"MISS F. F. M."

I suppose you consulted Dr. Noah Webster on ways and methods. Dr. Webster was all wrong about somersaults, and anyone who adopts his method need not come complaining to me. Somersaults are nice, comfortable, appetizing rolls and you can't possibly skin, blacken, bruise or lame anything just by rolling about on the floor.

Magic Working With Food.

"What precaution can one take to prevent food from turning into flesh instead of turning into blood?

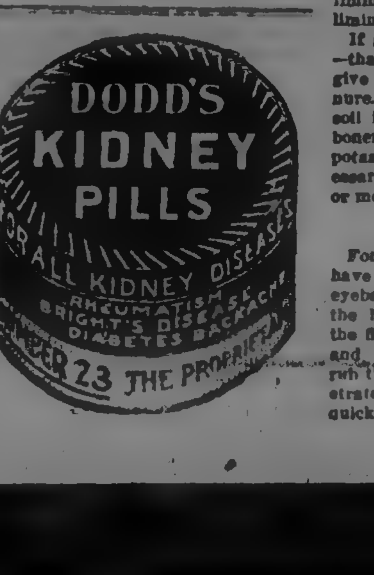
"B. J. F."

Eat less food, masticate it more thoroughly, and include in the diet a liberal allowance of fresh, green vegetables, relishes and plain greens.

Blood Tests.

"Is it true that blood tests are made only for syphilis? Our family doctor sent me to a throat specialist to have my tonsils removed and the specialist seemed to think it was remarkable that I had not had my blood tested. I took it up with the family doctor and he declared that some specialists are ultra-scientific to the point of absurdity. What is your opinion?

If your family doctor is worthy of your confidence at all his advice regarding any blood tests would certainly be better than the advice of a throat specialist. Various tests or examinations of the blood are made for many different conditions.



BRITISH FAIR FOR NEXT YEAR

DEFINITE INFORMATION CAN BE SECURED AT BOARD OF TRADE.

The Board of Trade is in receipt of the following letter from His Majesty's Trade Commissioner S. W Field, of the Department of Overseas Trade, Toronto:

"I enclose a memorandum with regard to the British Industries Fair, 1920, at which, among others manufacturing firms whose principal works and head offices are in Canada and who are not controlled by foreign interests, will be eligible as exhibitors.

"Will you kindly notify the local press of this matter."

The memorandum which gives definite information about the fair, its rules, exhibits, manufacturing benefits as compiled from the reports of the 1919 fair, etc., can be seen at the Board of Trade rooms, 358 George street.

NEW ALL SLEEPING CAR TRAIN TRANS-CANADA LIMITED DAILY

Montreal and Toronto to Vancouver

On Sunday, June 1st new train will be placed in service to operate daily to Vancouver via Canadian Pacific.

Train No. 7 will leave Montreal 3.30 p.m.

Train No. 9 will leave Toronto 7.15 p.m.

Trains will consolidate at Sudbury and operate Sudbury to Vancouver as No. 7, due to arrive Vancouver 10.00 a.m. the fourth day.

Further particulars from Canadian Pacific Ticket Agents, or

W. B. HOWARD,
District Passenger Agent. Toronto

Who the Esthonians Are.

Esthonians, or Esths, are reported to have repulsed attacks from the Bolsheviki. The Esths are a Finno-Ugrian people, once savage and adventurous, terrifying the Baltic with their piracy, constantly attacking and attacked by the Danes and Swedes. Their final subjection by the Brothers of the Sword and their enforced acceptance of Christianity crushed their spirit and rendered them serfs to the German masters.

The Esths outnumber the Germans in the old province of Esthonia 29 to 1; yet nine-tenths of all the land is held by Germans. In the former Province of Livonia the Esths constitute nearly half the population, while the Germans are less than one-fifteenth. There the land is divided into estates, averaging over 10,000 acres in extent, none owned by an Esth or Lett, but almost invariably by a German. The Russian Government at times endeavored by agrarian laws to alleviate the condition of the peasant. Such efforts failed against the stolid resistance of the great proprietors.

The Esths have clung devotedly to their national language, the sole inheritance from their past. They love poetry and song. Their physical characteristics are Finnic; their faces short, broad, beardless; their foreheads low, mouths small, arms long, legs short. Despite their extreme poverty, education is relatively advanced. All but 4 per cent. are Lutheran Protestants.

Since the sudden universal awakening in 1918 the Esths, or the land owners, have been insistent upon national recognition. But ownership in the land is their greatest need.

Garden Soil.

Test your garden soil for acidity. Procure a dime's worth of blue litmus paper at a drug store. Make a slit or incision in the damp soil, put in paper two-thirds its length and leave it for a half hour. If the change of color is to red or deep pink your soil needs heavy liming. If there is no change of color liming will be of little value.

If garden soil is heavy, or "hungry" —that is, harsh and lacking in humus—give it plenty of well rotted stable manure. Nothing could be better. If the soil is in excellent physical condition bonemeal with the addition of a little potash will supply the plant food necessary for any ordinary crop of plants or mere annual growth.

Something In Your Eye.

Foreign bodies in the eye, if they have not penetrated any part of the eyeball, are best removed by pulling the lid away from the eyeball with the fingers, so that the tears will flow and wash the particle away. Never rub the eye. When the eyeball is penetrated you cannot see an oculist too quickly.

Through the Looking Glass

By EVELYN NESBIT

It is a secret—a dreadful secret—and friend husband must not know.

If milady would be a radical, let her be a radical. It's part of the trend of the times to have liberal ideas and plans for reforming the world.

But—

Here is where the rub comes in. So many miladies of radical twist feel they must enforce their radicalism by freakish behavior. Radicalism turns many women's heads and, instead of fighting actively for the cause, they merely parade for the cause.

So it happens that a crop of cigarette-smoking, bobbed-hair females has sprung up of late, with talks about new ideas, the vote, free verse and divers other subjects. But as for doing things, these women have no time for that. They are too busy flaunting what they believe to be the badges of radicalism. They just wear radical dresses with mannish collars and cuffs, and learn how to blow smoke rings at afternoon teas. These occupations leave them no time for action.

So they forget the real purpose of the ideas they claim to believe in.

The women who are really working for world progress are the quiet women who do not smoke and do not dress "radically." They are the good women who are bringing up their children properly, the teachers, the woman writers and business women. The women who are too busy with their work to have time for parading are the women who are making the world better and cleaner.

So discard your cigarettes and trouserettes, and get to work, if you would achieve something worth while.

SENSIBLE COLLARS ON COAT

Fear of Return of High and Stiff-Wired Chokers Is Groundless, According to Report.

Now that the war has taught women not only how to dress their feet, but how to use them, the new boxcoats are about to give a lesson in what to do about collars. For the very low collars and open throats have been so comfortable and almost universally becoming that most women have resolutely forgotten the days of high, tight-fitting things of bones, wires and scratches which tried tempers and certainly marred looks, notes a writer in the New York Sun.

The boxcoat demands a waistcoat. The waistcoat calls for a collar, so here we are facing the solution of the collar question. And there is a new neck line called the double line. It is achieved by placing one material above the other, as, for instance, a vestee of dark blue brocade has an upper line of blue georgette over the brocade which stops at least four inches under the top line and is edged with a brighter blue across the top. This will do very nicely for the front, and in the back a slight collar of the brocade finishes off the collarless boxcoat at the neck.

Again, the straight, round military collar which so often appears on these little coats calls for no further finish, as often it is braided in the most military effect or made of fine velvet or brocade; or, again, a band of fur high and straight around, something like the long ago "chin chin" things.

There is no fear of the stiff little boned and wired collar returning. However, the high collar is very smart —there is no doubt about that—but it has wonderful modifications.

All of the Red Cross workers, the Y. M. C. A., motor corps girls and other hard-working women so persistently demanded this sort of collar that it seems to be the mark of efficiency, and well-dressed women have avoided the other, at least in working hours. To the rest of us, though, frills are very dear, also very becoming.

STUNNING SPRING MODEL

Very chic is this hat, one of the latest spring models, with uncurled ostrich ornaments.

Nine tailors may succeed in making a man a pauper.

Fasting Proves Injurious.

Food Being the Human Fuel, Declare Leading Scientists

OF recent years there has been a fasting fad. Some people have asserted that bodily health was promoted by going without food for considerable lengths of time.

It cannot be said that the medical faculty has ever indorsed this remarkable notion. The view held by physiologists generally is that such performances are dead against nature and impose a dangerous strain upon the human system.

Per contra, Dr. Tanner, most famous of all fasters, died only the other day in San Diego, Cal., at the fairly ripe age of ninety-one. He had a theory that health and long life could be improved and lengthened by extended periods of food-deprivation.

The most famous of his fasts extended more than forty days. He was carefully watched during the performance to make sure that he ate nothing. Barring the sucking of casual oranges, it could not be discovered that in that period he touched anything that could be called food.

More recently there have been scientific studies made of this problem. Dogs and other animals have been the subjects of most of them. But the Carnegie Institute, not long ago, employed for the purpose an Italian named Succi, who was a professional faster. He did it for a living, the pay being high.

Succi's best record was thirty days of a fast, at the end of which there set in certain "ante-mortem" symptoms which persuaded the scientists in charge to quit the experiment. Manifestly he was a weakling; for a Paris faster named Merlatti kept the thing up for fifty days.

How long would it take you to starve to death if unsupplied with any food? The answer, so far as experimental observations would indicate, is that it depends mainly upon how fat you are. If you are a skinny person, you would not last long.

You see, the human body is an engine and food is its fuel. When the food supply is cut off the engine must for fuel draw upon the tissues of the body and burn them.

The fat stored in the body is under such circumstances the fuel most available. Therefore, as one observes, a starved person becomes rapidly thinner, losing weight.

Suppose the starvation is to continue. Then, when the fat has been used up, the muscular and other tissues are drawn upon for fuel to furnish the energy required to support the mechanism of the body and keep it in operation. But this is vastly more expensive, physiologically speaking, because it takes about twelve pounds of muscular or glandular tissue to make an equivalent (as fuel) for one pound of fat.

Experiments have shown that in a twenty-six day fast the muscles lose 42 per cent. of their weight, the skin 28 per cent. the brain and spinal cord 32 per cent., the blood 48 per cent., the liver 50 per cent., the kidneys 55 per cent., the stomach and intestines 30 per cent., the lungs 29 per cent., the kidneys 55 per cent. and the heart 16 per cent.

The human body in starvation procures its supply of energy by the destruction of its stored fat and "protein"—the stuff that, when eaten in food, makes muscle and blood. If the deprivation be kept up long enough, it succumbs. Death ensues.

What is the immediate cause of death in such cases? This is a point that has not been fully settled.

Woman's Wrongs.

In Boston, in the early part of the last century, girls were permitted to attend the public schools only during the summer, as then there was room for them, as the attendance of boys fell off during that season.

Wood's Phosphodine.
The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins, *Cures Nervous Debility, Mental and Brain Worry, Despondency, Loss of Energy, Palpitation of the Heart, Failing Memory.* Price $1 per box, six for $5. WOMAN SO ILL COULD NOT WALK

Lydia E. Pinkham's Vegetable Compound Restored Her to Health.

Perth Amboy, N.J. — "For three years I suffered with a severe female trouble, was nervous, had backache and a pain in my side most of the time. I had dizzy spells and was often so faint I could not walk across the floor. The doctor said I would have to have an operation. I read about Lydia E. Pinkham's Vegetable Compound in my newspaper, and tried it. Now I am better, feel strong, have no pains, backache or dizzy spells. Every one tells me how well I look, and I tell them to use Lydia E. Pinkham's Vegetable Compound that is what makes me feel well and look well. I recommended it to my sister and she is using it now. You can use this letter if you wish, for it is certainly a grand remedy for a woman's ills." — Mrs. MARTHA STANISLAWSKI, 524 Penn St., Perth Amboy, N.J.

For forty years Lydia E. Pinkham's Vegetable Compound has been overcoming such serious conditions as displacements, inflammation, ulceration, irregularities, periodic pains, backache, dizziness, and nervous prostration of women, and is now considered the standard remedy for such ailments.

Railway Time Tables

C. P. R. TIMETABLE

Effective May 4th, 1919.

GOING EAST

**9.25 p.m.—Indian River, Norwood, Havelock and Tweed.

***11.52 p.m.—Norwood, Havelock, Kingston, Smiths Falls, Perth, Montreal, Quebec, St John, N.B., Boston and New York.

*1.30 a.m.—Havelock, Tweed, Kingston, Perth, Smiths Falls and Ottawa.

**11.59 a.m.—Norwood, Havelock, Bonarlaw, Tweed, Perth, Smiths Falls, Ottawa, Montreal and intermediate points.

****11.59 a.m.—Norwood and Havelock.

GOING WEST

*4.53 a.m. Toronto, Owen Sound, Guelph, Goderich, Hamilton, Buffalo, New York, Galt, Woodstock, St. Thomas, London, Chatham, Detroit and Chicago.

**6.21 a.m.—Myrtle and North Toronto.

**7.35 a.m.—Toronto, Hamilton, Buffalo, Rochester, Boston, New York and intermediate points between Peterborough and Toronto.

**9.35 a.m.—Lindsay, Orillia, Port McNicoll and intermediate points.

**3.20 Toronto, Hamilton, Brantford, Buffalo, New York, Galt, Guelph, Woodstock, London, Windsor, Detroit and Chicago and intermediate points between Peterborough and Toronto.

**8.00 p.m. North Toronto, Lindsay and intermediate points.

****3.20 p.m.—Toronto and intermediate points.

*Daily.
**Daily except Sunday.
***Daily except Saturday.
****Sunday only.

CONDITIONS ON ONTARIO FARMS

The following is a summary of reports made by Agricultural Representatives to the Ontario Department of Agriculture:

Essex reports the setting out of tomato plants in the fields.

Taking the Province over, only about 65 or 70 per cent of the acreage planned for small grains has been got in, and on some farms no spring sowing whatever has been done, owing to the wet and cold conditions experienced since the middle of April. With the warmer weather now prevailing the land is likely to dry quickly and some barley, oats and spring wheat will be rushed in; but in the opinion of many good returns are not likely to result from such late sowing, and considerable corn and buckwheat will be substitutes. Northern Ontario is relatively ahead of the older portion of the province in the matter of early seeding.

Beans, owing to the slump in price last season, will have a considerable shrinkage in acreage, but sugar beets will likely have an extended area.

Fall wheat is thriving. The only fear expressed this week regarding the crop is that it is getting rather too heavy.

Winter rye is also in excellent condition. The Brant representative reports having seen some rye already nicely out in head, adding "and acres of oats and barley are not yet sown."

Clover is making such growth with the warmer weather, but it is not so even a crop as fall wheat. The

Middlesex representative reports some injury from the clover leaf weevil.

Alfalfa is looking very well, the past week having considerably advanced the growth.

Peach, plum and cherry trees are covered with bloom, and unless rainy weather continues, should make a large setting. Apples promises only fairly. Bush fruits and strawberries never looked better for big yields.

Cattle are being marketed slowly. While many are on grass same owners are keeping them off the moist pasture for fear of tramping the soft sod to pieces. Dairy cows are still in much demand at from $150 to $200. A new condensary has begun operations in Victoria County, and a cheese factory is reported closed.

Hogs have been in keen demand during the week at from $21 to $22.25 a cwt.

Hay in most quarters is scarce and dear, and bring $30 to $35 a ton delivered. Ensilage and other coarse fodders are also running low.

The Wellington representative states that farmers are talking drainage more than ever. Kent claims that one tile yard at Fletcher has sold over 700,000 tile this spring.

Lincoln reports that returned soldiers are relieving the farm labor situation to a small extent.

BIG BEAR SHOT

On Friday a large black bear which had been feasting for some time on lambs and sheep was trapped and shot at a point seven miles from Kinmount. Bruin tipped the scales at 350 pounds and 25 pounds of fat were taken off his back.

For the first time on record a 100-foot dirigible landed on a 30 by 30-foot platform on a roof of a Cleveland hotel.

Dr. Talcott Williams has resigned as Director of the School of Journalism, Columbia University.

PROPERTY COMMITTEE LOOK OVER THE SCHOOL BUILDINGS

Few Repairs Required in Case of New Structures the King Edward to be Equipped With Modern Fire Escapes.

Yesterday afternoon the Property Committee of the Board of Education were taken around the various public schools and the Collegiate by the Chairman, Mr. A. A. Fowler. They found the Collegiate and the King George and Queen Mary Schools in good condition and very little will need to be spent on them this summer in the line of repairs. The Central, the Queen Alexandra and the King Edward schools will receive a thorough overhauling as they are badly in need of a fresh coat of paint.

The South Central School needs repairs, too, but as the Board of Education is going ahead with the erection of a new school as soon as the estimates are passed through the Council and the tenders let, it was decided to let it stand over. It is impossible to say just what will be done with the old school after the erection of the new building. The city should have a special building for the teaching of manual training and domestic science and the South Central School is in a good position for that purpose as far as convenience to the other schools is concerned. It might also be used as an overflow school for the others, and the kindergarten pupils or some of the junior grades established there.

The committee were highly pleased with the work of the janitors; the grounds and buildings in all the schools visited being in first class shape.

Fire Chief Orange accompanied the Committee on their visit to the King Edward School. This is the only three storey building in the charge of the Board of Education that has no fire escape although the Government regulations call for this. The fire chief was strongly in favor of the erection of one similar to that now on the Braund block on Charlotte street. This meets the requirements of the Provincial Department of Education completely. It will be erected on the west side of the building in the immediate future.

AGREEMENT FOR

(Continued from Page One.)

Paying Union Wages.

union wages the past seven years. "We dont," he said, "employ any other men but union in Hamilton."

Mr. Barber was asked to appoint suitable local men as inspectors, if competent.

Mr. Barber: "If you force me to employ inspectors recommended by you, you'll break my organization up and take the responsibility out of my hands."

To Ald. Phelan, Mr. Barber replied that the maximum number of inspectors employed at any one time would be two—one at each end of the week. Also a surveyor and helper part of the time. His inspectors are all engineers, he said, and are carried over by him through all seasons—slack or busy—owing to their competency. He would not employ more than five men on and off, and they are all bridge engineers coversant with his methods.

Incidentally, Mr. Barber mentioned that within the past two weeks he has been engaged as engineer for seven bridges.

The Board seemed satisfied with Mr Barber's attitude in this regard. The fear had been expressed by the Mayor that students might be employed as inspectors, as in some instances.

Not a Bite of Breakfast Until You Drink Water

Says a glass of hot water and phosphate prevents illness and keeps us fit.

Just as coal, when it burns, leaves behind a certain amount of incombustible material in the form of ashes, so the food and drink taken day after day leaves in the alimentary canal a certain amount of indigestible material, which if not completely eliminated from the system each day, becomes food for the millions bacteria which infest the bowels. From this mass of left-over waste, toxins and ptomain-like poisons are formed and sucked into the blood.

Men and women who can't get feeling right must begin to take inside baths. Before eating breakfast each morning drink a glass of real hot water with a tablespoonful of limestone phosphate in it to wash out of the thirty feet of bowels the previous day's accumulation of poisons and toxins and to keep the entire alimentary canal clean, pure and fresh.

Those who are subject to sick headache, colds, biliousness, constipation, others who wake up with bad taste, foul breath, backache, rheumatic stiffness, or have a sour, gassy stomach after meals, are urged to get a quarter pound of limestone phosphate from the drug store and begin practicing internal sanitation. This will cast very little, but is sufficient to make anyone an enthusiast on the subject.

Remember that inside bathing is more important than outside bathing because the skin pores do not absorb impurities into the blood, causing poor health, while the bowel pores do. Just as soap and hot water cleanses sweetens and freshens the skin, so hot water and limestone phosphate act on the stomach, liver, kidneys and bowels.

By-products of Packing Houses.

The by-products obtained in the packing house industry may be divided into two classes—the edible and the inedible. The inedible constitute the external covering (hair, horns, hoofs and hides), some of the offal and the bones. From these are prepared a great variety of substances, some of which have developed into enormous industries in themselves, such as leathers, soap, glue and fertilizer. The last mentioned represents the ultimate utilization of packing-house waste. For example, in the manufacture of buttons, combs, knife handles and spatulas from the horns and hoofs of cattle and sheep and the hoofs of hogs, the waste resulting from the preparation of these articles was at one time thrown away, but it has bene found that by treating such material with sulphuric acid, the nitrogen which it contains becomes available as a fertilizer.

Sand Blotters.

In all the precautions for secrecy at the Peace Conference blotting paper will not have been forgotten. For, as most people know, if held to a mirror it reveals the writing whose ink has dried and thereby many a tale has been told in law courts and diplomacy. Our Foreign Office experimented some years ago with black blotting paper, but it was abandoned as the ink left a perceptible grey stain. So for documents of the highest sort diplomtists still use sand, sprinkled from a sort of pepper castor—a primitive custom which ambassadors share with pawnbrokers.

School for Nurses at Haiti.

The first training school for nurses in Haiti has been established and opened under the direction and control of the United States Public Health Service.

EDITOR'S MAIL

REPLY TO MR. HONE.

Editor Review: I would not trouble to notice Mr. A. D. Hone's remarks at all so far as the scientific side of the prohibition question is concerned (for I have no interest particularly in it) were it not that he referred to me in his remarks. I want to say he must not be taken to have attempted to answer me. I take exception to his disparaging remarks as to the quantity of my religion, a thing he knows nothing about, and to his way of belittling of the Bible. When you have a bad case it is said you should abuse the other side, and this is the kind of tactics adopted by him in touching on my challenge. How does he know to what extent I read the Bible? If he read it with an open mind diligently enough he would know more about its contents.

The world is full of temptations and rightly so, if it were not we would become a nation of jellyfishes. To say that every time we do not abolish a temptation we are putting a stumblingblock in our brother's way, is impliedly to say that God who made all things ought not to have permitted the temptation to have ever existed. Temptation is a thing we must meet and grapple with and overcome. To him that overcometh are all the promises made, not to him that alters God's world by any man-made trick or device that leaves nothing to be overcome. God deliberately put temptation in the Garden of Eden. It was necessary for man's perfection that he should be tried and tempted and I venture to say even Mr. Hone will not accuse the Almighty of putting a stumblingblock in the way of Adam! Our Lord Himself went into the wilderness to be tempted. If He had not been tempted, He could not have said, "I have overcome" (John XVI 33). He was a drinker of wine and was criticized by the prohibitionists of His day (Matt XI 19, Luke VII 34). I have already referred to His making wine (John II 1-1- and see Matt. XXVI 29.)

The inspired Apostle Paul throughout his writing denounces in the strongest language drunkenness in every shape and form 1 Cor. VI 10, and VII Rom. XIII 13, Eph. V 18, 1 Thess. V 7., etc. He was a scholar, and said what he meant, and if total abstinence was more according to the gospel than moderation, he would have surely said so definitely. On the contrary, he recommend the use of intoxicating beverages, 1 Tim. V 23, and denounced the total abstainers of his day as hypocrites, Col. II 21, (and what he said then is equally true today). He said, "Every creature of God is good, and nothing is to be rejected (r. v.) if it be received with thanksgiving," 1 Tim IV 4, and note what he says about this commanding to abstaining. He calls such "Doctrines of Devils," which he says, are through the hypocrisy of men, IV 1-3. Any unprejudiced person that has not "drink" so written over his eyes that he can see nothing else, may also by reading the Apostle's directions to Timothy and Titus, who he sent as Apostle's delegates to ordain priests and deacons, see clearly that nothing was further from his mind that total abstinence. He told them to ordain men not given to MUCH wine, 1 Tim. III 8, Titus II 3, "temperate," Titus I 8. If the present generation of theologians were right, the Apostle would have said, "Do not ordain any man that uses wine at all." Ascetic as he was, almost misogynist, he was not a teetotaller, and was clearly opposed to teetotalism. Moderation in all things was his maxim, true temperance was his teaching. Phil. IV 5, acts XXIV 25, 1 Cor. IX 25, Gal. V 23, and see verse 21, and St. Peter held the same doctrine, for they were both inspired, 2 Pet. I 6. Your prohibitionist of today is the most intemperate of men he cannot even use temperate language, and for want of a better argument suggests that the man that conscientiously differs from him has but little religion and does not read his Bible. He knows nothing of the power of the Holy Spirit to save a man in the hour of temptation, and avers that the moderate man is worse than a drunkard. The truth is this total abstinence is a snare of the devil. It is the hand of the flesh and is not of God. Just as Uzze (2 Sam. IV 6, 1 Chron. IX 9) in his lack of faith put forth his hand so the men of today seek by their fleshly devices to bolster up the gospel, thinking to save souls in their way instead of in the way of the Lorr and His holy Apostles. They would remove all causes of temptation from the world, make sin impossible, as an easier way to the preachers to earn their salaries than teaching their flocks to let their moderation be known to all men. Altering have made an improvement! The Khoran is the only book that contains God's world and vainly thinking they their doctrines, they cannot find total abstinence in the Christian book.

One, thing I omitted to notice: Mr. Hone said in the Bible there are "strong things said about the use of strong drink." This is not accurate there are one or two references in the Old Testament on the subject, but the Christian Book (the New Testament) does nothing of the kind. It says some very strong things about the abuse of strong drink (e. g. 1 Cor. VII 31), which is very different.

And as soon as he finds the Bible will not back him up in his theory, he throws the Bible overboard, and says it is not a book of specific regulations concerning human conduct. If he could quote a text that by any manner of twisting would back him up, he would quote it triumphantly. The best he can find is, "Love thy neighbour as thyself," and in the last analysis this means if you find a man dying on the street or at home of a heart failure he may die rather than allow him to have what God has provided for his relief and preservation.

I will not take up any more of your valuable space, although there is much more to say, but I think the men that Mr. Hone considers better able than himself (some of the preachers) to interpret the Scriptures had better tackle the question and tell us what they would do to the Lord of Glory if He came to Peterborough to a wedding feast and made and supplied drinks to the guests, and if they can, refute my plain interpretation of the doctrines of the Church on the subject as disclosed by the founders of our faith.

One word more. It is useless to quote 1 Cor. VIII 13 in support of prohibition, so nobody need do so, for the following reasons: First, the Apostle was referring to meats offered to idols, and the use of alcoholic beverages was not even under discussion, and second, even if it did have any reference to the "drink question" it does not support prohibition, and only puts it on the integrity of the individual to pursue a certain course of conduct in the presence of a given individual with particular failings, and in any case it leaves the free will intact which prohibition does not.

Mr. Hone winds up with a metaphor as amusing as it is incorrect, and as a parting shaft suggests that I do not accept all the teachings of the Bible. How did he get that knowledge? Let those that have glass houses not throw stones!

Yours etc.,
JAS. G. GUISE-BAGLEY.

Whiskers Are Gaining Favor.

A noticeable feature in masculine appearance in England is the increasing fashion of whiskers. At present they are only small affairs of the Albert variety, made popular by the Prince Consort. The whisker is no longer than two fingers' breadth, but there is no telling what dimensions these side products of the war may assume.

It is an army fashion, just as beards were an after-growth of the Crimea. The present whisker originated among officers whose right arm, stiff or impaired through wounds, cannot be raised easily to the level of the ear, and so prevents a clean shave to the top of the cheek.

Time Changes All Things.

"It used to be said that anybody could farm—that about all that was required was a strong back and a weak mind," mused the gaunt Ontario farmer. "But now'days, to be a successful farmer a feller must have a good head and a wide education in order to understand the advice ladled out to him from all sides by city men and to select for use that which will do him the least damage."

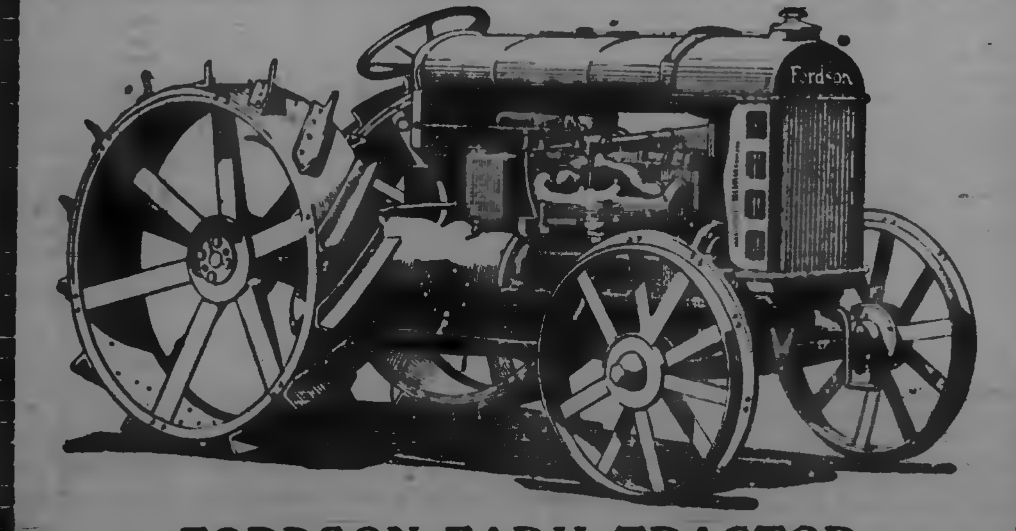
DOMINION RUBBER SYSTEM



FORDSON FARM TRACTOR

Demonstration

We have made complete arrangements whereby the Duffus Garage will on

JUNE 12th and 13th

give a Tractor Demonstration on some farm adjacent to Peterborough, at which we will show Fordson Tractors, Plows, Disc Harrows, Pulverizer and Seed Drill in operation.

This will afford an excellent opportunity for those who attend to see the advantage of these machines as compared with the ordinary horse-driven appliances. Further information will be announced later.

GONE! THE OLD STYLE PAIL

Yes, they're gone! Sad wrecks, aren't they?—fit only for the junk pile or the dismal places where the rubbish is shot.

Familiar objects, these, in the days when the coopered or metal pail was in common use. But those days are passing. With the growing use of

EDDY'S INDURATED FIBREWARE HOUSEHOLD PAILS

such losses are reduced to a minimum. Wood pulp, shaped by tremendous hydraulic pressure and baked with intense heat, produces the most durable and economical container for liquids and semi-solids. Eddy's wash-tubs, milk pails, butter tubs, etc., not only outlast the old-fashioned articles of metal or woodenware, but actually cost less money. Your dealer has them.

Platform From Bridge To Q. O. Bldg. Endorsed

WILL EFFECT A SAVING OF $15,000 IN COST OF NEW BRIDGE.

Mr. Robt. Stuart president of the Quaker Oats Co., Mr. Cormack, local superintendent and Mr. Geo. Edwards assistant superintendent of the same company, together with Mr. Rathwell of the Leonard Construction Co., waited upon the City's Board of Works last night in regard to the construction of a platform from the new Hunter Street Bridge into the company's warehouse building. The original plans for the new bridge provided a ramp down from the bridge to the company's warehouse and this elevated platform will take the place of the proposed ramp.

This elevated platform is to be from 35 to 40 feet wide and will run from the level of the bridge into the third floor of the Quaker Oats warehouses. It will be built of re-inforced concrete supported on re-inforced concrete columns from below and the estimated cost is $6,500. By this change in the original plans the city will save the difference between $6,500 and $8,000—the estimated cost of the ramp.

Plans for the platform which is intended to carry vehicular traffic were submitted by the Quaker Oats and approved by the Board.

Ald. Edgar Moved, seconded by Ald. Turner, that the platform as planned from the Hunter Street Bridge into the Quaker Oats warehouse be built in place of the ramp originally specified.—This carried.

The Quaker Oats Co., will assume upkeep of the platform and liability in case of accidents.

Mrs. Martha Grey, New York, got into an argument with two policemen last September. One, it is alleged, died from a kick. The other is said to have received a heavy blow on the head with a rolling pin. She is now charged with atrocious assault.

"Welcome Home," read the inscription on a banner at Grand Rapids, Mich., police headquarters. The Mayor says the inscription should not be taken literally.

Lieut. La Verne A. Davis, New York, sued Alfred C. Harrison, jr., wealthy Cuba sugar planter, for alienation of his wife's affections. He was awarded $150,000.

Must Remedy Creek Blockage

OVERFLOWS BANKS, FLOODS DONEGAL STREET AND ADJOINING PROPERTY.

The City Board of Works last evening, on motion of Ald. Edgar and Taylor instructed the city solicitor to notify Mr. D. W. Dumble to remove all obstructions on the Downie Street creek where it passes through his property between McDonnel and London.

This creek again overflowed and flooded Donegal street and adjoining property last week, and the cause is stated to be a blockage on Mr. Dumble's property.

The city is determined to have this grievance remedied.

Repair Road

Jno. Ego wrote that Gladstone Avenue has been treated to no gravel for 8 or 9 years, the road has been repeatedly dug up for gas, sewerage and water purposes, and the road is now in a shameful condition. This road will be repaired.

PAINTING THE POLES

Utilities Commission Improving Appearance of the City

Do you like to put your hand on fresh looking surface bearing the sign, "wet paint", just to see whether it is true or not If so, walk down George Street and try the hydro-electric poles and you will find that the sign means just what it says. An ounce of prevention is worth a pound of cure is as true of poles as of humanity even though the former are made of iron. The cost of paint and labor is trifling compared with the increased period of usefulness, to say nothing of the smarter and tidier appearance that our streets present to visitors.

OJIBWAY INDIAN DIES AT AGE OF 117 YEARS.

Sudbury, May 28.—There was forwarded to the Recorder-General on Saturday last by Rev. Eug. Papineau, S.J., a certificate of death of John Bamidginwegijig, an Ojibway Indian on the north shore, at he age of 117 years. Father Papineau is in charge of the mission at Vermilion Lake. The death occurred May 1.

The spring poet has declared war and is now firing blank verse at the editor.

HASTINGS

(Special Correspondence)

Hastings, May 28—An old and much respected citizen of the village passed away on Thursday evening, May 22nd, in the person of Mrs. Huycke, widow of the late Andrew Huycke, at the age of 95 years, 11 months and 15 days. The funeral was held from the residence of her son, Mr. Taylor Huycke on Saturday and thence to the Trent Valley Cemetery for interment.

A number from here attended the supper in the Presbyterian Church at Norwood last Monday evening.

Miss Pansy Runnels spent Thursday in Peterborough.

Miss Helen Chapman of Peterborough was a guest of her parents over the holiday.

Mr. Will Fife left on Tuesday for Edmonton, Sask.

Mr. and Mrs. James Buck are moving to Norwood. On Monday evening the members of the Ladies' Aid and W. M. S. of the Methodist Church met at their home to bid them farewell. During the evening Mrs. Buck was presented with a handsome New Methodist Hymn Book and the following address.

Hastings, May 19th, 1919

Dear Mrs Buck:—

In friendship we find nothing false or insincere, everything is straight forward and springs from the heart. There are three friendships which are advantageous, friendship with the upright friendship with the sincere and friendship with one of much observation. You have proven yourself Mrs. Buck to be a true friend to this church, in the various fields in which your esteemed gifts were exercised. It is with deep regret that we learn of the removal from our midst of yourself and highly esteemed husband. The work which you both have done for the advancement of the Master's cause here has been greatly appreciated. You wer ever willing to lend a hand where help was required.

In the days to come may we venture to hope that whilst distance may separate us and new activities engage your attention, our mutual friendship may remain unimpaired.

Friendship, peculiar boon of Heaven.
The noble minds delight and pride
To men and angels only given.
To all the lower world denied.

On behalf of the Ladies' Aid we would ask you to accept this gift as a small token of our esteem for you with the assurance that you and yours have our very best wishes and earnest prayers that a kind Heavenly Father may continue to grant to you richest blessing

Signed on behalf of the Ladies Aid and W M S.

S. Doxsee, Sec Ladies' Aid.
E. Beavis, Pres W M S.

Mr. Howard Fairman of Campbellford has been visiting friends in town.

Miss Verna Ghent spent Sunday with friends at Castleton.

Mrs Foster of Belleville spent the holiday at the home of her sister, Mrs. E. Prentice.

Miss Jesie Wilcox spent Tuesday in Campbellford.

Mrs. G Buchanan has returned from visiting friends in Peterborough

Miss Helen Harper is visiting frieds in Peterborough

A number from here spent the 24th in Norwood

Mr. and Mrs W Huycke, Miss Gertrude and Mr Asa Huycke of Peterborough attended the funeral of the late Mrs. A. Huycke on Saturday.

Mr. and Mrs. A. V. German and Miss Jessie Wilcox spent the holiday with friends in Peterborough

Miss Hazel McCormack of Toronto is a guest of Mr. and Mrs. S. Hatherly.

Much sympathy is extended to Mr and Chas Dodd, in the loss by death of their son, Charles, age 11 months.

Empire Day At The King Edward

On Friday afternoon, May 23, the parents, teachers and pupils of the King Edward School assembled on the campus east of the school in large numbers to do honor to the Empire in song, recitation and speech-making of a patriotic nature. Those taking part in the program did themselves great credit in both the character and the rendering of their contributions. The program consisted of patriotic choruses, sung by the school children, under the able leadership of Miss Adams, addresses by the Rev. R. Pogue and Mr. J. W. Worth, and readings and recitations by a few of the pupils of the school.

Several motor cars seized while used in smuggling whiskey in Wyandotte County, Kas., will be sold at auction and the proceeds turned over to the county school treasury.

NORTH MONAGHAN COUNCIL MEETS

SITTING AS COURT OF REVISION DISPOSED OF VARIOUS MATTERS.

The North Monaghan Council met as a Court of Revision at the town hall, North Monaghan, on Monday, May 26. Mr. J. H. Bell was elected chairman. Lewis Whitfield's appeal was the first heard. A motion was passed lowering the assessment on Lewi Whitfield's property being the northern portion of lot 9, concession 10, $100. Mr. P. Adamson appealed stating that he had disposed of his dog and asked to be relieved from paying this year's dog tax. Granted The assessor was authorized to change certain named persons from public school supporters to separate school supporters. Mr. J. T. O'Connell was present and asked the Court of Revision to lower his assessment on 62 lots owned by him on plan 45. The assessment on his property is $31,000. There was some discussion and a motion was made to lower the assessment $600. An amendment made by Mr. John McIntosh provided for a reduction of $700. The amendment finally carried.

Was Confirmed.

The assessment roll as finally revised, was accepted and confirmed. The Council then proceeded with regular business.

The bill for freight on the road grader of $2.15 was ordered to be paid.

By-law No. 766 was read, establishing a dump ground in North Monaghan on the farm of Mr. Archie Patterson. By-law No. 767 was passed appointing road commissioners for 1919, also setting a scale of wages for men and teams. Richard Revington was appointed road commissioner for road division No. 6. The following is the scale of wages:

Teams drawing 1 1-4 yards of gravel $5.75 a day.

Teams drawing 1 yard of gravel—$5.00 a day.

Road commissioners' salaries—$3.50 a day each.

Men—$3.00 a day each.

Mr. Foster Moncrief was appointed custodian of the stone crusher and also the road grader. The balance due on his salary, Mr. Jabes C. Morrow as sanitary inspector, for $10, was ordered to be paid.

The meeting adjourned until Saturday, June 14th, at 1 p.m. (Standard Time).

DESTROY BED BUGS

Post's Bed Bug Poison is the best and most reliable remedy to kill bedbugs.

MR. ED. CONROY'S BRIDGE TENDER

LETTER TO COUNCIL LAST NIGHT EXPLAINS HIS NEW OFFER.

The following is a copy of the communication which Mr. Ed. Conroy sent to the aldermen last night explaining his new tender for the Hunter street bridge contract:

Peterborough, May 27, 1919.

Harry Phelan, Esq.,
Chairman of the Board of Works,
Peterborough, Ont.

Dear Sir,—In reference to my tender for the construction of the Hunter street bridge, I beg to say:

Seeing your committee has recommended this contract to be awarded on the cost-plus basis, I hereby withdraw my offer on the lump-sum basis that I have submitted to you on or about April 1st last.

On or about 28th April I also submitted you a tender on a percentage basis. This sum was $13,000.00, me to supply my own services and the plant to complete this work, thus sum I am prepared to stand by and carry out according to the plans and specifications.

I shall further guarantee and sign a contract to this effect that the bride after completion will not cost the city of Peterborough not over $260,000.00.

At the above figures you will not that I am saving the city in the neighborhood of ave $21,000.00 on the work, by accepting my tender.

I shall also agree and guarantee to pay union or prevailing rates of waes, for all labor I use on the contract.

Yours truly,
ED. CONROY.

Col. Arthur Woods, in charge of the War Department's re-employment service, predicts that when U. S. industry returns to normal it will be short 7,000,000 workers.

KEENE

Special Correspondence.)

Keen, May 28.—Miss Belle Nelson of Toronto, is fisiting Keene friends.

Miss Wallington, of Peterborough spent Thursday last with her mother, Mrs. William Bishop.

Master William Wedlock spent the week-end with his parents at Peterboro.

Mr. Thomas Moncrief, who recently returned from overseas, is visiting at the home of his aunt, Mrs. William Nelson.

Mr. William Fletcher spent a few days the past week at Junipir Island making preparations for opening the summer resort at that point.

Mrs. May Krugsbey, of Peterboro spent Victoria Day with her mother, Mrs. Tobey.

Mr. Michael Kenneally was in Peterboro over the week-end to attend the iniation and banquet of the Knights of Columbus.

Miss Mary Foley, who has been convalescing sinve an operation at St Joseph's Hospital, Peterboro, returned home on Friday.

Little Miss Florence Wedlock left on Thursday for her future home at Peterboro.

Misses Isabell McCarthey and Anna Bowie, Peterboro, spent the week-end at home.

Capt. Arthur Cameron returned from overseas on Friday evening, and is at the home of his father-in-aw Mr. William Campbell.

Mr. John Fletcher spent the past week with friends at Peterboro.

Mr. Wilfred Fletcher returned home on Saturday from Toronto where he has been visiting friends.

Mr. and Mrs. William Stewart were in Peterboro on Friday.

Mr. Walter Byer, who spent the past ten days with Keene friends, has returned to his home at Toronto.

Miss Kerr, of Peterboro, was a guest over the week-end at the home of Mr. and Mrs. Patrick Roche.

Mrs. W. J. Wood, of Toronto, is visiting at the home of his parents, Mr. and Mrs. William Campbell.

Mrs. H. McLachlan spent Thursday last at the home of her daughter, Mrs. W. R. Wedlock, Peterboro.

Mr. and Mrs. Bickel, of Oshawa, and Mr. and Mrs. John Plunkett, of Peterboro, were guests on Saturday at the home of Mrs. William Nelson.

Mr. James McNeil, sr., and niece, Miss Kate, were in Westwood on Sunday.

Mr. and Mrs. A. D. Anderson visited friends at Oakwood and Lindsay over the week-end.

Mr. Robert McCamus was in Lindsay over the 24th and week-end.

Miss Lillian Palin, of Peterboro, was a guest over the week-end at the home of Mr. and Mrs. Andrew Rennie.

Rev. Ross, of Peterboro, spent the week-end with his son, Dr. C. F. Ross.

Mrs. William Nelson is visiting Peterboro friends this week.

Quite a number from Keene and vicinity attended the dance at Lang on Friday night and report a most enjoyable time.

Miss Barnwell, of Peterboro, spent the week-end at the home of Mr. and Mrs. Henry Fletcher.

Miss Kathleen Collins, of Peterboro, was a guest over the week-end of Miss Mary Burley.

Mr. William Kenneally, Peterboro spent a few days last week with friends at the Victoria House.

Mr. and Mrs. William Dickson and little son, of Toronto, were week-end guests at the home of Mrs. J. J. Dickson.

Messrs. James Armstrong, of Toronto, and Robert Armstrong, of Oshawa, were visiting friends in the village Friday and Saturday.

Mr. Joseph Ryan, who recently returned from overseas, of Peterboro visited last week at the home of Mr. Ned Foley.

Mr. and Mrs. Robert Burns and children and Mrs. J. J. Dickson, of Toronto, are visiting at Mr. Dickson's home, Mill street.

Mrs. George Houson is visiting friends in Lindsay.

Mrs. Archibald Kempt and children spent Sunday with Peterboro friends

Mrs. John Wilson has returned home from Toronto where she spent the past month with friends.

Mr. Thomas Taylor and daughter, Miss Edna, were in Peterboro on Friday.

A 62-year-old Western Union messenger at Chicago, who reproved small boys for making fun of his age, was probably fatally injured with a baseball bat. Before the war he was Dr. Frederick Baumann, of the faculty of a medical college, but because he was a German his prosperity vanished.

When a man is requested to foot a bill it always hurts his dignity worse than it hurts his corns.

Benefit Concert For City Laborers

Victoria Hall was well filled last night the occasion being the benefit concert for the striking city laborers. President A. J. Bolwell and Secretary Wm. Stevens of the Trades Council were on the platform, the former as chairman, the latter making a few remarks, explaining the reason for putting on th eentertainment. Business Agent T. Tooms of the Laborers' Union expressed in a few words the thanks and appreciation of the union to all who had a part in making the affair a success. Local talent donated their services and an excellent program, as fololws:

Song—Miss Allen.
Step Dance—M. Murty.
Monologue—George Lynch.
Banjo Selection—F. Clark.
Dialogue—J. Primeau.
Comic Song—C. Coleman.
Recitation—J. Johns.
Step Dance—S. Houlihan.
Song—H. Lee.
Song—Mr. Bartley.
Trio—Messrs. Bartley, Cairns and Lee.

Mr. H. Lush, who was advertised to put on ten minutes of magic was unable to stage his turn, the lighting and stage effects being found unsuited to it.

Bank Position For Sir Thomas White

Ottawa, May 28.—With Sir Robert's return corridor gossip grows strong that Sir Thomas White will step out of the Government on the first opportunity. Opposite members state they understand that he has been offered the position of General Manager of the Canadian Bank of Commerce, at a salary of $30,000 a year, and that this makes a Cabinet Minister's salary look so small that a return to private life is practically assured.

Old Trees on Chinese Wall.

Trees and shrubbery planted in the soil that has been accumulating for hundreds of years on the great wall of China are in thriving condition, some of them having grown to a height of 12 to 18 feet. This method of beautifying the great wall was an outgrowth of the movement for the reafforestation of the country started some time ago with Government sanction under the direction of foreign experts. The driveway on the great wall is considered very much improved with the addition of trees.

Mesopotamia.

The inhabitants of Mesopotamia are not Arabs, but descendants of the old Babylonians and Assyrians. Before they were conquered by the Arabs the natives of the Tigis and Euphrates valleys spoke Syriac, a dialect of the Assyrian language.

Merrill W. Joyner, when arrested at Kansas City for speeding at 25 miles an hour, was asleep at the wheel, and claimed the hum of the engine was the cause. "It's dangerous to go to sleep; you might be run over by some of our reckless drivers," said the judge in finding him $25.

Other Makes of Wheels

are advertised to run easy, but when it comes to a show down the

IVANHOE

HAS THEM ALL BEAT. If Graham Eastwood, an inexperienced man who had never raced before, could win all the bicycle events at the G. W. V. THEATRICAL

"THE OFF CHANCE" WAS MOST POPULAR PLAY IN NEW YORK

Will Be Presented at the Grand by Ethel Barrymore on Thursday Evening, June 5.

Of far more than ordinary interest is the announcement of the coming to the Grand Opera House for one performance Thursday evening June 5th, of Ethel Barrymore, since this welcome visit marks the first appearance here of this delightful actress in several seasons. Miss Barrymore remained in New York the whole of the season, appearing at the Empire Theatre in a repertoire of plays, including "The Lady of the Camellias," "The Off Chance," and "Belinda." Of these three, by far the most popular with the enormous Barrymore following was "The Off Chance," and it is in this comedy that the Charles Frohman Company presents her throughout her coming tour.

"The Off Chance" is the work of R.C. Carton, one of the most distinguished of the English dramatists and recalled happily for his "Lord and Lady Algy," "Wheels Within Wheels," "Liberty Hall," and numerous other plays equally successful in England and America. "The Off Chance" is said to be one of the most pleasing efforts and in it Miss Barrymore is fitted with one of the best roles she has had in recent years. Her portrayal is of the kind in which she excels, one allowing her abundant opportunity for the play of all that exquisite sense of humor and flashing comedy beloved by her admirers. Nor are moments of more serious characterization lacking, since, in Mr. Carton's story, Miss Barrymore portrays a middle-aged women of great charm and beauty, divorced, who returns to a young daughter who does not know her, who helps the latter over a martial difficulty in which she finds herself, for the daughter's young husband, claiming his wife to lack warmth and passion is abou tto bolt with an attractive dancer. Lady Cardonnell, for this is Miss Barrymores' name in Mr. Carton's play, is little like the traditional mother-in-law, nor are the methods she adopts to smooth out the difficulties of the young couple while her identity is unknown to them at all usual or ordinary. In fact, they become at times as startling as they are amusing. Needless to say they meet with immense success and not until all is well does the young man realize that the charming woman to whom he owes his rescue is his own mother-in-law.

The Charles Frohman Company has surrounded Miss Barrymore with a distinguished Company, including Eva Le Gallienne, Anita Rothe, Marcelle Roussillon, Cecelia Radcliffe, Mary Balfour, William Boyd, Edward Emery, Harry Plimmer, Albert Gran, Joseph Brennan, T. Wigney, Percival and others.

Mail orders accepted now if accompanied by marked cheque made payable to the Manager, Grand Opera House. Seats will be alloted as orders are received.

Keith Vandeville Feature Pictures At The Grand

The best that can be secured in the vandeville line will be presented at the Grand Thursday, Friday and Saturday, with a matinee daily. The feature act will be the Van Brothers, a pair of happy dispositioned chaps. Both are born musicians, and have a natural gift of being able to amuse an audience, entertaining them first with classy music and presenting an unusually clever comedy offering entitled "Get 'Em and Hold 'Em." The Gertrude Dudley Co. will be seen in an offering of youth and pep consisting of Class and Jass. Miss Dudley is a remarkably fine vocalist. Her success in musical comedy will be remembered by many theatregoers of Peterborough. Mr. Dudley is a pianist of great ability and a song writer who has given a host of successful popular songs to the world. In their offering all of the songs are written by Mr. Dudley and therefore are restricted.

The Yattos, great exponents of sensational and society dancing, will present several original dancing numbers, and it is safe to say that no better balanced vaudeville bill could be presented anywhere at the Grand's regular scale of prices: 10c and 15c matinees; 15c and 25c, evenings.

The famous Clara Kimball Young and her own company in "The Reason Why" will be the feature picture and Charlie Chaplin in "The Flirt" will complete this special bill.

AT THE GRAND

Margaret Anglin, who for years has been acclaimed as one of the leading emotional actresses of the American stage, appeared at the Grand last night in her new comedy success "Billeted." Miss Anglin is apparently making just as great a success in comedy as she did in the heavier roles of emotional drama, her humor, pleasing voice and complete knowledge of stagecraft being shown to their best advantage in this her latest offering.

The story is to the effect that two army officers are to be billeted with a widow in a remote village in England. The meddling sister of the vicar discovers that the widow is not of the sod variety and that her husband is still living although his whereabouts are unknown. In order to still the suspicions of the meddlesome sister the widow manages to send herself a telegram to the effect that her husband had died in Africa. But no sooner is this done than she discovers that the second officer is none other than her long lost spouse.

This naturally leads to a series of complications, the untangling of which prove very amusing. Finally the pair become reconciled and the colonel and the little friend of the "widow" also decide to marry.

The dialogue throughout the piece is very bright and witty and Miss Anglin is given great opportunity of displaying her marked ability as a comedienne. She is supported by an exceptionally strong cast and all the parts were well represented.

Fred Eric is Captain Lymill, the husband is an actor of ability and handled his part in a manner which left nothing to be desired.

Langdon Bruce as Colonel Dreedy was the typical British officer of the older school. Ralph G. Kennet as MacFarlane the canny Scotch banker was most amusing, and Miss Phyllis Birkett as Penelope Moon, the girl friend of the widow played her part extremely well. The part of Rev. Liptrott was well taken by Harry Barfoot, and that Emmaline Liptrot, the meddling sister by Miss Sally Williams. Rose, the maid by Miss Alice Coburn and the cook by Miss Myra Burrington were the minor parts and their representations were perfect.

Several handsome gowns were displayed by Miss Anglin and Miss Birkett, the product of a New York Modiste, and appeared to meet with the approval of the members of the fair sex in the audience to judge from the many favorable comments heard.

A FIGHTING MEMBER.

Legless Man In British House of Commons.

Major Cohen, who lost his legs in battle, made his maiden speech in the British House of Commons recently.

He had the front corner seat on the Treasury side, next to the cross-benches. A composed, portly man, perfectly groomed, he showed no trace of his honorable affliction, for the modern maker of artificial limbs has become very expert in his craft. Spats adorned the major's boots.

Major Cohen craved the indulgence of the House for permission to speak seated. The Speaker accorded it instantly with a wave of the arm, and hearty cheers from all parts of the House showed that members were of one mind on the matter.

Major Cohen spoke quietly, briefly, and well. The subject was an amendment to the address expressing dissatisfaction with the pensions given to disabled sailors and soldiers. He said he took an interest in the subject for he was a disabled soldier himself. (Sympathetic cheers.) He made a touching allusion to the friendly courtesy extended to him by the Speaker and all the members.

"I do not regard it as personal to myself, but as showing a general sympathy for disabled men. I am in favor of a scheme for apprenticing disabled men to private firms, leaving the men to choose their own trades. You cannot expect employers to pay them during the apprenticeship, but the state might very well do so.

"I refer more particularly to the partially disabled man. I myself am graded by the Pensions Department as 100 per cent. disabled. But I think there are still some things I can do. (Hear, hear.) A man of my kind can take up tailoring, or cobbling, or typewriting. My constituents have solved the problem for me. I recognize that every totally disabled man cannot become a member of Parliament. But he can do something. He does not want to sit at home with nothing to do and nothing to look forward to but the drawing of his pension."

A cheer of friendly approval followed the speech. Mr. Will Crooks crossed the House to congratulate the new member, and others followed the example.

More Comfort.

Comfort is assured riders on farming implements by an Illinois inventor's seat, which is mounted on one end of a pivoted bar, the other end of which is attached to a coiled spring to afford balance and prevent shocks.

Points of View.

"My husband is so jealous!"
"How absurd!"
"Why, isn't yours?"
"Of course not."
"How humiliating!"

BRITISH SUBMARINES.

They Are the Best to Be Found Anywhere.

Prying submarine facts out of the British Admiralty is something like—well, it simply can't be done! Oh, they will all talk, these very polite Admiralty people, but they first find out if you "play cricket" (English for being "on the level") and then they bind you to secrecy. You must not tell. The Admiralty does not want submarines too much talked about.

There seems to be a general impression abroad in the world that Germany had almost a monopoly on submarine devising, and that the rest of the world stood by in amazement or humbly followed in the master's footsteps. This, of course, is "all rot" as any British submarine officer will tell you.

And he makes no bones at all of saying that the 160 or so sub-surface boats which Germany has surrendered contain no "secrets" not known already to British officers, and one of them at least volunteered the information that the plans for many a German submarine had been seen and examined before ever there was one captured of the same type—which would seem to indicate, if true, that Germany had no monopoly of secret service efficiency!

Britain started with some 80 submarines, built about 130 during the war and lost about 50 — probably largely by mines before the anti-mine device, whatever it is, came into being. During this building campaign she developed ideas of her own which Germany never dreamed of — the M1 for instance, which is a 1,700-ton submarine carrying a 12-inch gun. No, I am not romancing—the M1 exists. She was built for the Dardanelles operations, and while she was completed too late for that purpose, she was a technical success. She fires, of course, only fore and aft, the gun has a traverse of perhaps six degrees and only a moderate elevation. Nor does she use a full charge, but sends her 620-pound shell a maximum of 15,000 yards. The M1 carries a couple of tubes and anti-aircraft gun.

There is a wide divergence of opinion to be heard regarding the disposition of the surrendered submarine fleet. Admiralty officers not connected with the submarine service generally think the submarines should be abolished and the surrendered boats sunk or distributed to various nations simply as exhibits and curiosities. "Of course," they will tell you, "our fellows can play the game and did play it—we torpedoed no helpless merchantmen and shelled no open boats with defenceless women and children, nor stood by and laughed while enemy crews drowned! But other people, apparently, can't. And if they can't, then the submarine ought to be abolished."—Scientific American.

His Only Virtue.

"The German Junkers are [illegible] bad lot that their very virtues [illegible] be faults in other people." The speaker was ex-Ambassador Gerard. He went on: "The Germans remind me of Mrs. Smiff's second husband. 'My second ain't no saint,' said Mrs. Smiff, 'but I'll say this for him—he's better than my first by a long chalk. He's in jail so much, you see, that practically all I earn I have for my own use.'"

Socialism.

"Pa, what is a Socialist?"

"A Socialist, my boy, is a man who thinks he ought to have as much as you have."

"But supposing he is earning more than you are, dad?"

"Then, my boy, he ceases to be a Socialist."

A Question of Comparison.

Officer: But surely you, a millionaire, have little to complain about!

Munition Magnate: Oh, I don't know. The multi-millionaires treat us like so much dirt.

Swiss Singers.

Swiss girl singers, sometimes assisted by boys, have been giving street concerts in the principal towns and cities to raise money for a fund for the comfort of soldiers guarding the borders of Switzerland.

Telephone In China.

In spite of the fact that the average Chinese is fond of using the telephone it has been difficult to obtain enough subscribers to support local lines in that country.

Togoland, in South Seas, Was Prize German Colony And May Become British

TOGOLAND is one of the earliest and richest of German colonies, whose disposition is being considered by the Peace Conference.

Togoland is shaped like a hogshead, with a 32-mile base resting on the Gulf of Guinea, its sides swelling to more than three times that width, crowding the British Gold Coast possessions to the west, French Dahomey on the east, and its narrow top tapering into the Niger region.

Germany annexed Togoland in 1884, the year she launched upon her colonial expansion with the acquisition also of Northeastern New Guinea and the Bismarck Archipelago. Togoland was the first colony to dispense with imperial subsidy.

Along the seacoast Togoland's soil is rich and sandy, its climate warm and moist. The hinterland is higher, wooded and drier, but seldom arid. Thus the land is adapted to a wide variety of products, among which the growing of cocoanuts, corn, rice, tobacco and coffee already has been highly successful. The exports include considerable quantities of ivory, kernels, copra, palm oil and rubber.

This colony affords a commentary upon Germany's application of bureaucratic methods to her possessions. Despite heavy German emigration to the United States and South America, and despite her effort to divert this flow to her colonies, only about 300 Germans were to be found among the million natives of Togoland in 1910. Most of the 300 were engaged in Government service, either in the coast cities of Lome, a made-to-order town which Germany planted on the site of a fishing village, and Little Popo, or the inland Government stations at Misahohe or Bismarckburg.

Togoland lies along the famous Slave Coast of Africa. Behind the treacherous shoals and bars slave traders defied cruisers from the shelter of lagoons and inlets that abound along the shores where they obtained their human stock in trade. They found the native chiefs, especially the Dahomeys, coastal people of Togoland as well as of Dahomey, only too ready to barter human beings for rum and trinkets. Tribal leaders made forays to supply the demand. Frequently they burned villages by night and corralled the inhabitants when they fled.

Northern tribes of Togoland are mostly Hausa, a mixed negro race, who have become civilized and industrious. But the Dahomeys, in the south, present a curious blend of shrewdness, cruelty and superstition. Small, robust and athletic, they climb trees like monkeys, easily become fluent linguists, but cling to fetichism and still practice cannibalism.

The King of the Dahomeys is a tribal deity. He controls the lives and property of his subjects. Formerly he was regarded as more ethereal than human; he was believed to require neither food nor sleep. He strengthened that impression by having all food served to him in solitude, and hearing petitions from behind a screen. Consultation with his ministers was carried on through his wives, who were state dignitaries. Genuine Amazons formed his bodyguard, and these warrior women were reputed to be as fearless and brave as those of Greek [illegible] and much more crude.

Only the sons of the Dada, or Queen, were regarded as heirs. From among the Amazons the sovereign selected other wives, but all except the favored few were celibates. The King was considered the father of all his subjects.

The Bolsheviki are doing nothing new in their reported arrangement for interchange of infants among the various mothers of the community nurseries set up by the Soviets. In Dahomey children were taken from their mothers at an early age and given to other families so they might form no ties which would conflict with their allegiance to the King.

Any object blessed by the Dahomey priests became a fetich. Snakes were held in special esteem. Snakes were children were regularly sacrificed and human beings were roasted for food. Tribal dances were amazingly intricate, some lasting 36 hours. So imbued were the Dahomeys with belief in immortality that they readily volunteered for sacrifice and the wives of Dahomey, like those of India, often chose to die when their husbands did.

Germany edged into the Slave Coast because, in 1884, the narrow portion still ruled by the King of Togo was the only part from the Gambia to the Niger not controlled by some civilized power. Bremen merchants had stations there. So Germans persuaded the Togo ruler to place Togoland under the suzereignty of Germany. Subsequently the Germans made claims to inland territory which brought about boundary disputes with France and Great Britain until the frontiers were fixed in 1899.

Another Ferry.

The establishment of a steam ferry service between England and Sweden is being proposed by the Board of Trade of Newcastle-on-Tyne, reports Finansbladet, of Copenhagen.

The ferries would connect Gothenburg, the big Swedish seaport, with either Hull or Newcastle, according to the plans. A daily service has been suggested.

Before the war steam ferries were the principal means of communication between Germany on the one hand and Denmark and Sweden on the other. Those ferries could carry, beside passengers and loose cargo, loaded railroad trains consisting of a dozen or more cars.

History Against Fat Men.

Fat and fame have not very often been combined, perhaps because stout men are generally inclined to be easy going, and therefore lacking in that push which brings a man to the fore, says London Answers. The only great statesman one can recall who was really a fat man was Charles James Fox, as can be seen even by his effigy in the palace of Westminster, where he would make three of his great rival, Pitt the younger.

The only fat poet one can recall is Jamie Thompson, the author of "The Seasons." He was a comfortable, lazy, slovenly man, of whom it is related that he would eat peaches off the wall, not taking the trouble to take his hands out of his pockets to pluck them. Yet, despite his lazy disposition, he managed to write one of the longest of English poems, as well as "The Castle of Indolence"—a castle in which he habitually dwelt.

G. K. Chesterton, one of the stoutest of living celebrities, has on more than one occasion made up in the character of the Sage of Fleet Street with most excellent success.

It is a little remarkable, too, that one of his closest friends, Hilaire Belloc, is almost as noted for his bulk as he is for his criticism of military operations, his poetry, his history and his fiction.

Origin of "Lime-Juice."

It is generally known that a familiar, though not altogether affectionate name given British sailors by their American brothers of the sea is "lime-juicer," or, more briefly, "limie." To most of us the origin of the pleasantry was wrapped in obscurity.

But the London Lancet, in the course of a learned inquiry pertaining to scurvy, uncovers the fact that the consumption of lime juice was introduced into the British navy as a measure against scurvy, and resulted in the disappearance of that disease early in the last century.

The so-called lime juice was really lemon juice, and not connected with the American lime. But the origin of "lime-juicer" becomes apparent.

Liverpool Cathedral.

Liverpool Cathedral has found another generous patron in Mr. John Rankin, the shipowner. As a centenary commemoration of his family's link with the northern port Mr. Rankin is giving £20,000 to build the main entrance, after Gilbert Scott's design.

When this is done the work will add a new dignity to a building whose dimensions are on a scale of magnificence — for the transepts, of 140 feet, are much higher than those of any English cathedral, while the length of nave, 240 feet, is only 22 feet short of the giant York Minster.

A Translation.

Some one who was at work on a Christian hymnal for the Zulus was unable to proceed with the line, "Lord dismiss us with Thy blessing," because the language has no equivalent either for "dismiss" or "blessing." The nearest he could get was, "Kick us out softly."

WILLARD IS CERTAIN THAT HE CAN OUTPOINT DEMPSEY

Has Made All Arrangements to Realize on the Picture Priveleges When the Bout is Over.

Well ,you are reading a lot of things that are going on in the world of sport; the press agents tell you what Dempsey is doing, that he took a ten mile spin the previous day and in another edition the same fellow tells you that Dempsey has rented a cottage on a small lake, and will take a daily swim, possibly not thinking that the water at the present time is entirely too cold for swimming and that if Dempsey was foolish enough to take a change he would in all probability be laid up with a severe cold inside of three days.

Those who know anything about getting into perfect shape know that it is just as dangerous to overfeed or overtrain as to neglect the required work. The most essential thing in a training camp is a person that knows how to massage a person thoroughly—that is half the battle.

Fretting and Fuming Due.

July 4 is a long way off, and it will require some mighty good attendants to keep the spirits of the challenger on an even keel. He will no doubt be a glutton for work and will tell you how great he feels, but he will be cheating himself, and as the day of the fight approaches he will do a lot of fretting and the training camp will not be a bed of roses.

Joe Choynski is the peer of them all when it comes to a companion at camp headquarters, and Joe is a champion when it comes to keeping the gang in good humor.

History and the Story.

The wires tell you that "Willard is at Los Aheles on business straightening up some legal matters." Well, here is the story, preceded by a bit of history:

When Johnson and Jeffries were matched several years ago for the title, Johnson was the champion of the world, having won with a clear title and a deed that goes with it. Jeffries, on the other hand, was the undefeated champion of champions.

Well, the fight originally was scheduled for France, but the authorities detected a stench and declared themselves and, consequently, all bets were off at the Golden Gate. Jeffries was scheduled to win, but the correct solution was never explained, although many attempts were made to give good reasons why the door was closed on the contestants.

So confident of the result was the combination that Harry Frazee, the owner of the Red Sox, booked Jeffries on a world's tour and got out enough paper to circle the globe, including one sheets, three sheets and standard life size pictures of Jeffries in fighting pose. Well, when the fight was shifted to Reno all bets were off, and everybody knows that Jeffries was a wreck the day of the contest ,and that Frank Child, could have licked him in half the time Johnson did.

Jeffries Without Heart.

Those behind Jeffries figured he could not lose, but Jeffries himself was just as confident that he was not the Jeffries of old and could not stand the pace, and his showing clearly showed he went into the ring without a heart and that nature kept him going until he finally went out, more in a collapse than by a clean knockout.

Announcements have been made time and again that Willard is interested with Tex Rickard in promoting the battle. Putting both ends together you can draw your own conclusion. Willard evidently seems to like his chances; he is arranging matters that will benefit him in case he wins. A pretty wise fellow, this Willard, and while all are worrying at Toledo he wires that he is detained out will be along in a few days. He evidently is the cool fellow in the party and everyone is anxious but Jess.

He is making a future book on his chances, and the question is, is he really a good handicapper. His action would lead one to believe that he has the matter all figured out and thinks his number will land in the one hole on the day of the meet, but he is pretty smart and you have to hand it to him. He is a good fighter, has a good noodle and the man with the "nut" will win nine times out of ten.

The New Art.

Among the bewildered and, in some cases, indignant spectators gathered at a recent futurist exhibition of painting and sculpture in Toronto was a young man from the Prairie Provinces who was paying a visit to a cousin who is very "strong" for the new movement in art. The youth remained quiet during the view and the subsequent explanations of the new idea given him by his cousin. "Well," said the cousin, at last, "you don't seem to be particularly interested or enthusiastic about the pictures. What do you think?" "Think!" exclaimed the youth from the prairies. "Why, man, I've got two aunts out west that can knit better pictures than these!"

SPORTS FLOCK TO TOLEDO SEEKING JOB AS REFEREE

No Dearth of Material From Which to Select Official For Willard-Dempsey Bout on July 4th.

Toledo, O., May 28.—This question of the referee for the approaching Willard-Dempsey quarrel is becoming more and more entertaining for the person with the average sense of humor.

You can't throw a stone in any direction in Toledo these days without hitting either a hopeful candidate for the job or someone who has a pet entry he is boosting with might and main. No wonder Tex Rickard is making himself as scarce as possible around here. The referees and their boosters are as numerous as applicants for automobile show passes in January.

Pretty nearly every referee of any prominence in the United States has been mentioned at one time or other for the job, or, if he has not, it has been because his name has been overlooked. Even George Siler's name came up the other evening at a gathering of the sportively inclined until some one remembered that George has been dead for a number of years. Perhaps the fact that Toledo is going dry and lots of the boys are taking a year's cargo aboard hurriedly may be responsible for some of the loose referee talk.

Challenger Takes Workout.

In order not to be all alone in the cold, cold world, we have a candidate for referee ourselves. Our candidate hereby nominated is Art Randich. Of course, Randich never refereed, a fight in his life, but that is no sign that he can't, and anyway, Art always agrees with our decision on these no decision affairs around Milwaukee and Racine, so that makes him solid with us, which is just as legitimate a reason for selecting him as some that have been advanced on behalf of other candidates.

Dempsey engaged in a little training of a sketchy sort yesterday, but not more than enough for him to get up a good sweat. Willie Doyle, a lightweight, blew in unannounced from Columbus in the afternoon and obliged Jack with two short rounds of boxing, following which the challenger took a brief dip in the lake. A short session of shadow boxing and with the Battling Nelson dummy wound up the afternoon's workout. In the morning Dempsey put in about six miles of road work.

Holds Dempsey in Leash.

Trainer Jimmy DeForest is holding Dempsey in leash, fearing he will get into shape too quickly if left to his own devices. According to DeForest Dempsey is in excellent shape now and needs only a little hard work to put him in first class fighting trim.

Tickets for the big quarrel are going at an extraordinary rate. According to Frank Flournoy, in charge of this particular end of the industry. more than the entire gate for the Johnson-Jeffries battle. A check for $11,000 was received today from the Willys-Overland company to pay for tickets to be used by the company's agents.

Dempsey still is trying to discover who sent him the mail order of $100 for four $25 seats. Accompanying the mail order was a note asking Jack to purchase the tickets and inclosing $1 "luck money," but the sender neglected to attach either his name or his address to the missive.

Seat Sale Passes $300,000.

The steady demand for good seats, which has been on since it was announced the championship would be held here, has continued and at noon today the $300,000 mark, which puts the promonters on velvet, had been reached.

Al Bloom of Chicago visited headquarters with the announcement that he has accepted orders for 1,400 tickets. Ernie Young, who has given a large number of tickets, returned to Chicago and Bloom will probably go back this evening.

PACKERS HANDED BASKET OF GOOSE EGGS 10 ORIENTALS

Jake Solomon's Team Unable to Find Frost For a Single Hit—Three Runs Scored by Matthews-Blackwell.

Last night the local fans were treated to an exhibition of baseball that they would pay double the money to see in a big league. The final score was 3 to 0 in favor of the Packers, the goose egg going to the Orientals. Frost has established a record for this season, as the Orientals got neither runs nor hits and only twenty-two men faced him in a full seven-innings game. Kirn for the Orientals was no cinch either, a single by Hagerman in the first and a double by Holyman in the seventh being all that was gleaned off his delivery.

The score by innings.

		R.	H.	E.
Orientals	0000000—	0	0	4
Matt.-Blackwell	1100001—	3	2	1

The first run was a gift generously donated by Firstbaseman Sheehy. With Adams and Butcher safely stowed away, He muffed a throw, letting Lowe live. Lowe stole second and Hagerman's single drove him in. In the second innings Kirn muffed Jackson's fly. Holyman walked, and they pulled off a successful double steal Le Fave sacrificed, scoring Jackson. Frost flew out to centre, and Adams was out on first. In the last innings with one down Holyman made two bags with a slam to deep left. A muff to Cherrett let Frost go to first and a wild throw home let Holyman in with the final run.

The Orientals were never dangerous at any stage of the game. In the fifth Manager Solomon gave orders to start bunting, but McCarney, Murray and Sheehy went out one, two three just the same. In the final innings Solomon batted for Kenneally but Shaughnessy took good care of his rap to centre field.

The following is the record of the various players in last night's game and the games played to date:

Matthews-Blackwell

	AB	H	E	T.A.B	T H	B.P
Adams, lf.	4	0	0	4	0	000
Butcher, 3b.	3	0	0	10	3	300
Lowe, 1b	3	0	0	11	2	182
Hag'man 2b.	3	1	0	10	3	300
Shau'sy, m.	3	0	0	12	1	083
Jackson rf	3	0	0	6	1	167
Holyman ss	3	1	0	9	2	222
Le Fave c	3	0	1	10	2	200
Frost p	3	0	0	6	1	167
	18	2	1			

Orinetals

	AB	H	E	T.A.B	T H	B P
Cherett ss.	3	0	1	10	2	200
Keenan lf	3	0	0	9	3	333
Kenneally r.	2	0	0	4	1	250
Collins 2b	3	0	0	8	4	500
McCarney cf	2	0	0	7	0	000
Murray 3b	2	0	1	5	0	000
Sheehy 1b	2	0	1	4	1	250
Soden c	2	0	0	6	2	333
Kirn p	2	0	1	8	1	125
xSolomon	1	0	0	2	1	500
	22	0	4			

The batting percentage is reckoned on City League games only. Solomon batted for Kenneally in the seventh. Thursday night the ex-Soldiers meet the Separator Boys in the concluding game of the first quarter of the schedule.

Standing To Date.

	W.	L.	To play
Matt.-Blackwell	3	0	9
De Laval	1	1	10
Orientals	1	2	9
G. W. V. A.	0	2	10

Games Tonight.

About Even.

"Got goldbricked, hey?"

"Well, it's a question as to who got goldbricked," said old Farmer Whiffletree. "I took that brick in exchange for summer board."

THE SARAJEVO MYSTERY.

Who Caused the Death of Archduke Ferdinand?

The assassination in Sarajevo of the Austrian Archduke Ferdinand, heir to the Hapsburg throne, and his morganatic wife, the Duchess of Hohenberg, was the signal for the unloosening of the passions which plunged Europe into war. This fateful crime still remains a mystery.

It was apparent at the time that no adequate police protection was given the imperial couple. First a bomb was thrown at the heir-apparent. It fell outside his carriage and injured a member of his escort riding in the carriage behind. Later in the day Ferdinand and his wife were shot dead while again driving through the streets. Not even the most ordinary precautions seem to have been taken to insure their safety.

The trial of the assassins ended unsatisfactorily. The trial was held behind closed doors. Light sentences were imposed. Evidently there was a desire to shield somebody. The crime had produced its desired political effect. It offered a pretext for an Austro-Hungarian attack on Serbia. There was a marked disposition to treat it as a closed incident.

The ruling clique at Vienna hated Francis Ferdinand. Francis Joseph despised him. He had married a Czech. He was the proponent of a scheme to reorganize the empire into a triple monarchy, the Slav peoples to acquire an equal status with the Austrians and Hungarians. He was opposed to seeking a quarrel with Serbia. He had fallen out with William II. over Germany's policy of military expansion. Many powerful elements in the monarchy were interested in preventing his succession to the aged Francis Joseph. They were prepared to hail his removal as a blessing.

He was "removed." But at whose instigation? A pamphlet has just been published in Austria, written by a priest who was formerly spiritual adviser of the Duchess of Hohenberg. It charges that the court at Vienna and the Hungarian nobility instigated the Sarajevo assassinations. Tisza is suggested as the arch-plotter. The author's theory is that Ferdinand and his wife were sacrificed in order to pave the way for a break with the Serbians. This explanation is neither new nor incredible. Perhaps the truth will come to light when the new Jugo-Slav state is erected and the mysterious proceedings at Sarajevo can be laid down.

SOCIAL AND PERSONAL

Mrs. O'Connor, of Coppercliffe, is visiting friends in the city.

Miss O'Connor, of Rochester, is spending a few days visiting friends in the city.

Spr. J. W. Lang, of Poplar Point, Manitoba, who is returning from England after three years overseas is spending a few days with his brother T. A. Lang, 544 Brock Street. Spr. Lang notes a great change in Peterborough since he left twenty seven years ago.

Lieut. C. Lang of Bowmanville is visiting Mr. and Mrs. T. A. Lang, 544 Brock street.

Rev. M. W. Leigh, Frazerville, is in the city attending the annual district meeting of the Methodist Church.

Mrs. A. H. Stratton, who has been visiting friends in Montreal, returned to the city today.

Mrs. Edward Vanstone of Peterborough is visiting her aunt, Mrs. Augustus Bog, in Lowther Ave.—Globe.

Private Stanley Cunningham gave his friends a pleasant surprise when he landed home last night.

MUSICAL ARTISTS MAKE THEIR DEBUT

MISSES ISOBEL DONNELLY AND GRETA GILES IN RECITAL LAST NIGHT.

That two young musical artists worthy of a place among Peterborough' best musicians have blossomed out this season, was clearly demonstrated at the recital last evening in the music hall of the J. M. reene Co. by Miss Isobel Donnelly, pianist, and Miss Greta Giles, soprano, pupils of Mr. F. E. Walden, of this city.

Mr. Frank Whitehouse assisted with his violin delighting all present with his playing. The hall was crowded and the recital was a distinct success in every way and a credit to all concerned.

The program was as follows:

Duette (piano)—"Overture to Semiramide" (Rossini)—Miss Isobel Donnelly and F. E. Walden.

(a) The Gipsy Trail (Galloway); (b) Merrily I Roam, waltz song, (Schleiffarth)—Miss Giles.

Les Deux Alouettes (Leschetizky)—Miss Donnelly.

The Swallows (cowen); Il Bacio, valse brilliant, (Arditi)—Miss Giles.

(a) To a Wild Rose (Macdowell); (b) The 4th Mazurka (Godard)—Miss Donnelly.

Happy Days (Strelizki) — Miss Giles; violin obligato, Mr. Whitehouse. Prelude in G Minor (Rachmaninoff)—Mis Donnelly.

Overture — Caliph of Bagdad (Boheau)—Mr. Whitehouse.

God Save the King.

Accompanist—F. E. Walden.

REVIVAL BEGINS SUNDAY, JUNE 15

ARRANGEMENTS FOR SERVICES TO BE CONDUCTED BY EVANGELIST KENNEDY.

Further arrangements for the evangelistic campaign to be conducted by Evangelist H. D. Kennedy were completed at a meeting held Sunday, in the Y.M.C.A. It was decided to open the campaign on Sunday, June 15th. A mammoth tent is to be erected on the lot on Hunter Street adjacent to the Bell Telephone Office. Evangelist Kennedy has had years of experience in the United States, where his efforts have been attended with very marked success. Recently he has conducted successful campaigns in Madoc, Oshawa, Thedford and other Ontario points.

Committees were appointed at a recent meeting to complete the various arrangements for the campaign. A special committee to deal with the musical features of the campaign has been appointed. A number of the church are cooperating in the campaign, which promises to be one of great influence.

ST. PAUL'S CHOIR.

St. Paul's choir will meet this week on Friday evening at 8 o'clock instead of the usual practice date.

Arthur F. Fuller, crippled for 19 years, so that he must lie on his back, gave a piano recital at Los Angeles.

OUT OF THIS UNREST BETTER THINGS ARE SURE TO ARISE

Rev. W. H. Higgs Delivers Optimistic Address at George Street Methodist Church—New Application of Christianity Rather Than New Religion is Required.

Owing to the unavoidable absence of the Rev. Dr. T. A. Moore, who sent a telegram from Toronto at 5 p.m. yesterday to that effect the public meeting in the George Street Methodist Church last night was addressed by Rev. Major Frost and Rev. Wm. H. Higgs, the chairman of Peterborough district.

Rev. Major Frost attributed the present labor trouble throughout Canada to the large number of mischief-makers who had flocked into our country under the loose administration of our immigration laws. He declared that if these men succeed they will throw the country into a state of chaos. As a practical solution of the difficulty he suggested that encouragement should be given to people to leave the overcrowded cities and settle on the farms where they would become producers.

"There is no need to get excited over the present period of unrest," declared Rev. H. Higgs. "The members of the Christian church must keep their heads level, remembering that out of the present unrest better things are being born."

He then proceeded to relate some very interesting experiences from his own boyhood days in England. He told of the grinding poverty that kept ploughboys working all day for a penny or two, out of which munificent wage they boarded themselves and bought the whips they used. He cited the case of his own father, who, as a lad, was employed in driving the crows away from the cornfield. Even to attend his own father's funeral he dared not leave the field for fear that he might lose his job.

"We want less holy smoke and a little more downright reality," he continued in the course of his remarks on the cry for a new religion. "The church must try to solve the problem of poverty, though the question of wages can never be definitely settled, owing to the changing prices of necessities. A new application of present doctrines bringing better living conditions is what we need instead of a new religion."

He also spoke to some length about the domestic missionary fields. There are 537 of these in Canada, with a total membership of 32,548. Only one of these, the Apsley field, is situated in the Peterborough district. The Rev. Mr. Bock, who has been in charge of it for the last year, has been seriously handicapped by the lack of a parsonage. Fortunately, there is such a building, conveniently situated in the centre of the Apsley circuit, which is 31 miles long, that could be purchased for $500. With $200 worth of improvements this would make a very comfortable home for the present or any other married missionary. Accordingly, the necessary steps have been taken to have the deal completed.

Solos were rendered by Miss Kemp and the Rev. Mr. Beck. The latter sang to his own accompaniment on the banjo and his efforts were especially appreciated by the audience.

Decorate Graves Of The Veterans

57TH CHAPTER, I.O.D.E., HELD IMPRESSIVE CEREMONY IN CEMETERIES.

Empire Day, Friday, May 23rd, the 57th Chapter I.O.D.E. held their annual ceremony at Little Lake Cemetery and St. Peter's Cemetery, of decorating the graves of former members of the 57th Regiment and those who had taken part in the great war and are buried here. A large Union Jack was placed at the entrance to the chapel, with the inscription at the base, "To the memory of our fallen heroes who took part in the Great War," as a temporary memorial.

Then each grave was visited and while the following prayer was read, a small Union Jack was placed on the grave: "In the name of Canada and the British Empire we place this flag upon the grave of —— in remembrance of duty done. May God ever protect and bless our country, our homes and our people." One hundred and twenty-five graves were decorated at Little Lake Cemetery.

Some time ago a suggestion was sent to the National Executive, from Mrs. Baker, of the "Caxton" Chapter Hamilton, that each chapter of the order should keep for future generations an historical record of members' relatives who have been on active service overseas, the record covering such points as name, battalion, rank, photograph, and condensed items of their lives, re service, promotions, honours or the supreme sacrifice. The National Executive cordially approves of the suggestion and hopes at some future date to collect these individual records into one National Historical Souvenir for the order. Therefore, each chapter was asked to keep as complete a record as possible. A number of slips were typed with space to be filled in with name, battalion, rank, etc., and distributed, but up to the present time no returns have been made. We would again remind our chapter, if they wish to comply, to kindly send the slips filled in as soon as possible, as information can now be obtained which in future might be unobtainable.

NOTICE

J. W. Miller & Sons, Boot and Shoe dealers the pleased to inform the public that they have secured the services of Mr. P. Delair, one of the best and most favorably known shoemakers of Peterborough. He has taken charge of their shoe repair department and the patrons may depend upon good work and prompt attention.

OBITUARY

THE LATE PTE. McKNIGHT

The funeral of the late Pte. George Frederick McKnight, who died in the Seaford, England, hospital, on Nov. 11th, 1918, of pneumonia, and whose remains arrived in Millbrook on Monday May 19th, too kplace, with military honors, from the armoury on Wednesday, May 21st.

The town flags were at half mast since the body arrived. Although the notice of the funeral was short, an immense gathering of people from the whole community were present to pay their tribute of respect to the memory of the deceased soldier and also to his father, Mr. John McKnight, sr.

The services, in charge of Rev. Mr. Higgs, commenced at 2 o'clock, by singing "O God our help in ages past." Rev. Dr. Lee leading in prayer. The scripture lesson, Rev. 20, beginning at the 11th verse was read by Mr. Higgs after which the hymn, "Nearer My God To Thee." was sung and impressive address were delivered by Mr. Higgs and Dr. Lee. The remains were interrd ewith imposing military honors.

JOSEPH BLAND

The death of Joseph Bland which took place at the home of his son, Councillor Henry Bland on Wednesday, May 21st, removes one of the best known and mist highly respected residents of the Township of Cavan. Deceased was born on the 18th of Sept. 1853, at Perwith, county of Westmoreland, England, and came to this country nearly sixty years ago, but returned to his native land some time later, and from there he went to New Jealand but again came to Canada and settled at Mt. Pleasant, where he resided until the time of his death. About 54 years ago he was united in marriage to Miss Margaret Thexton of Mt. Pleasant, who predeceased him by eighteen months.

In religion he was a Presbyterian and politically a Conservative. He was a man beloved by all his friends and acquaintances. He was the soul of honor.

The funeral to Emily Presbyterian Cemetery on Friday, May 23, was largely attended. Rev. W. H. Clarke conducted the services. One son, Henry, is left to mourn the loss of an affectionate father and to him all extend sincere condolences.

THE LATE JAMES DOIG

The funeral of the late James Doig, formerly of Peterborough, will take place from Belleghem's Undertaking Parlors, at 2 30 p.m. tomorrow. The deceased had been engaged in the junk business in Bobcaygeon, but, owing to ill-health he went to the Ross Memorial Hospital in Lindsay. He was 34 years old and left behind his wife and one son, James, four years old. The remains will be interred in Little Lake Cemetery.

TREATIES WITH NEW STATES FOR PROTECTION OF JEWS.

Paris, May 28.—Acting on instructions from the Council of Four, a special committee of experts is drafting a series of treaties with the newly-created States designed to protect minorities, and particularly protect the Jews against discriminations of race, language and religion, leading to disorders, riots and pogromy. One of these treaties, with Poland, has been completed; others, with Roumania, Czecho-Slovakia, Jugo-Slavia and Ukraine, are being prepared.

LITTLE HOPE OF AVERTING THREATENING STRIKE BY TORONTO LABOR UNIONS

Conference at Ottawa With Premier Borden and Cabinet not Likely to Reach Settlement of Question of Hours—Eight Hour Day For the Hydro Employes.

(Canadian Press Despatch.)

Ottawa, May 29.—Premier Borden and other members of the Cabinet, at 10.30 this morning, commenced a secret conference with Toronto's big delegation of employers, striking employes and representative citizens, regarding the enactment of a Federal law for the forty-four-hour week, demanded by the Toronto Strike Committee, to avert threatened general strike in that city tomorrow morning at ten o'clock. At one o'clock the conference adjourned till 3.30.

Many of the delegates are very pessimistic about the prospects of their mission. One of them expressed the opinion that the chances were one hundred to one against the settlement being reached. Some of the hopeful ones, while not expecting the enactment of the law, demanded by the workers, think some comprom'se will be made by the Government, that will satisfy the majority of the Strike Committee.

QUESTION OF HOURS REAL ISSUE.

The conference in an endeavor to avert the Toronto general strike will be continued this afternoon. This morning the parties to the dispute were in consultation with members of Government from 10 o'clock until one. This afternoon employers in the Metal Trades on one hand and the employes on the other, will meet to formulate proposals. They will be considered at a joint meeting of the employes and employed to be held at 3.30.

At 5 o'clock two parties will again meet Sir Robert Borden and members of the Cabinet. A sharp divergence of opinion over question of hours was indicated at this morning's conference. Representatives of the men, on one hand, urged the forty-four-hour week as the means of meeting the unemployment, especially emphasis'ng that with so many men returning to civil occupations forty-four-hour week was necessary. Employers, on the other hand, argued that a forty-four-hour week would place them at a serious disadvantage in meeting International competition. Were the forty-four-hour week adopted in Canada they argued the volume of business would be affected and that, in its turn, would react to the disadvantage of Labor.

Sir Robert Borden told the delegation that Legislation, such as demanded, came under the jurisdiction of the Provincial Government and it would be useless for the Parliament of Canada to pass it. However, the Department of Justice was looking into the law on the question and would report later in the day. Sir Robert emphasized the serious situation throughout the world and declared that employers should be a steadying influence. He suggested possibility of a compromise and establishment of a tr bunal to settle the present dispute and advised all parties to wait for the report of the present Industrial Commission.

EIGHT HOURS FOR HYDRO EMPLOYES.

Niagara Falls, Ont., May 29.—At a late hour last night the trouble between the Hydro-electric Commission and the two thousand men on the Hydro Power Canal was settled.

Sir Adam Beck came here personally and made the men an offer of an eight-hour day, double t'me for Sundays and holidays, and time and a quarter for all other overtime. The announcement was received with great cheering by more than two thousand Trades Federation men assembled in the Arena Rink, but the complexion changed when the President of the Machinists' Union jumped up and announced that for fifteen years machinists all over Canada had been paid time and a halffor all over-time w th double time for Sundays and holidays, and consequently the machinists on the canal were not prepared to accept this offer. This started a lot of discussion, and the laborers' representatives pointed out that whereas they now get four dollars a day for ten hours' work they were liable to lose eighty cents a day on the deal on the new agreement if they, only worked eight hours, which was something they could not live on.

(Continued on Page 4.)

GENERAL STRIKE AT FT. WILLIAM

LABOR MEETING LAST NIGHT FAVORS THE IDEA UNANIMOUSLY.

(Canadian Press Despatch)

Fort William, May 29.—At a meeting of Labor men, addressed by delegates from the Winnipeg strike committee, held in the Corona Theatre last night, a standing vote was taken unanimously favoring a sympathetic strike to a sist the Winnipeg strikers. The question of going out will be referred to the Trades and Labor Council and various unions.

HALF HOLIDAY YEAR ROUND

LETTER CARRIERS WILL WORK ON NEW PLAN AFTER JUNE 1ST.

Beginning June 1, the letter carriers will be given a half holiday every Saturday during the year except for five or six weeks during the rush of the Christmas Season. This arrangement will supplant that in existence at the present which gives the men a holiday in the middle of the week. Conditions as to overtime and work on holidays will remain as at present.

RETURNED MEN TO DO STRIKE DUTY

VOLUNTEERS ARE ASKED FOR IN CASE THE NEED ARISES.

(Canadian Press Despatch)

Halifax, May 30.—All members of the Canadian Corps cavalry brigade, consisting of the Fort Garry Horse and the Strathcona Horse of Winnipeg and the Royal Canadian Dragoons of Toronto have been invited to volunteer for strike duty in case the need arises. Shortly after the Carmania docked this morning the troops were informed that their services might be required further for the preservation of law and order in Canada, and volunteers were called for, but not as strike-breakers. The men aboard the liner are facing the situation philosophically. While there has been no great rush of volunteers, most of the men expressed their willingness to serve if required to do so.

SMALLER STATES ASK FOR DELAY

WANT MORE TIME TO CONSIDER THE AUSTRIAN PEACE TERMS.

(Canadian Press Despatch)

Paris, May 29.—When the Peace oCnference met in plenary sess'on this afternoon to hear the Austrian peace terms it was decided to postpone the session until Saturday when the completed treaty was expected to be ready. Another reason for the postponement of the plenary session was requested by the smaller power especially the Balkan states, that they be allowed further time to consider the terms.

BRIDGE BUILDING QUESTION SHELVED BY CITY COUNCIL

KENDRY LIQUOR CASE FINISHED

EVIDENCE ALL IN AND MAGISTRATE RESERVES HIS DECISION.

At the conclusion of the evidence yesterday afternoon in the Kendry liquor case, Magistrate Dumble reserved his decision and demanded the defendant till June 3. Bail was renewed for $1,000 as before.

Mitchell, the express messenger on the train, swore that he was approached at Havelock by a party, unknown to him, who requested that the shipment of goods consigned to the Henry Hope Co. at Peterborough be put off at Kendry instead of Peterborough. For this he received the express charges amounting to $9 and $3 extra. At Kendry he gave the goods to two men who applied at the car door, but both were strangers to him. He got no receipt for the delivery of the goods

Conductor Wm. Webb and Engineer John Neilson were called but could throw little light on the case beyond the fact that the train was stopped at Kendry by some unknown party, contrary to orders, and that they were right on t'me at 6.31 that morning.

Wm. S. Hamilton, the proprietor of the King George Hotel, told of how he had received a telephone message from some unknown party that there was liquor at Kendry, and for him to go out and get it. He went out to see if it was a trap laid to catch him and saw the boxes lying along the road.

Constable Wm. Wigg, of the Peterborough city police force told of meeting the defendant on the morning of the seizure, but could not fix the time exactly. Herbert Martin, who at the time was a foreman of the city sewer gang, swore positively that he had met the defendant at 25 minutes to seven that morning, and that he looked at his watch again when the C. G. E. whistle blew at ten minutes to seven and found that it was right.

Mr. P. G. Taylor, who furnished the bail, swore that the defendant had called at his house a little before ten minutes to seven, but the strongest evidence of all, as admitted by the prosecuting lawyer, was that of Joachim Burke, who swore that he was talking to the defendant on the morning in question at Peterborough station, and that he saw him walk along Aylmer street after the train had pulled out.

Three speed experts were then called on, all used to driving automobiles from Peterborough in every direction on all sorts of roads. These were Messrs. George Evans, Wm. Poulson and Jas. Akey. The'r evidence showed that it would take from 25 minutes to half an hour to make the trip from Kendry to the city.

The defendant, in his evidence, swore that he had never tasted or handled liquor at any time. He got off the train at Peterborough entirely ignorant of the liquor consignment. He could not drive an automobile. His trip to Montreal was on account of business in connection with his barber shop.

Alleged Defaulter Is Under Arrest

T. A. Madill, alleged defaulter under the M.S.A., on information laid by Inspector H. T. Ward, was arrested early th's morning at Ursa, Haliburton County. Inspector H. F. Ward is proceeding at Lindsay where his man will be tried on Saturday morning.

Hereafter such offenders will be tried in the county in which the offence is committed.

Report Recommending Acceptance of Tender Carried—The Laborers and Carpenters Voted 45c and 67½c an Hour Respectively—Contractors Declined Guaranteeing Fixed Sum For Bridge or These Wages.

The high-level bridge question got another set back last night when the Canadian Engineer ng and Contracting Co. declined guaranteeing its construction not to exceed their fixed sum of $276,860 after the City Council had passed a resolution that city laborers be paid 45c an hour and carpenter 67½c, for an 8-hour day.

Many resolutions and counter resolutions led up to this climax, which ensured when a bylaw to author ze the execution of an agreement with the Canadian Engineering and Contracting Co. on the terms previously set forth had passed its first reading.

The rate of wages to be paid by the city for city work—and under a cost-plus agrement such as that proposed with the contractors in question, building the bridge would really be city work—had been passed at 45c and 67½c, respectively, for laborers and carpenters; the proposed agreement with the contractors had been read and approved; but when it came time for the second reading of the bridge bylaw, Ald. Edgar raised a vital question. He wanted to know if the wages voted by Council would affect the contractors' guaranteed price of $276,860 for the bridge. If so, he said, it would be of no use passing the bylaw, as the city has not sufficient assured funds to pay for any considerable excess over that sum.

Would Not Sign Agreement.

Mr. Paulin, one of the contractors, in reply to Ald. Edgar's enquiry, said his firm could not guarantee the cost not to exceed $276,860 had they to pay wages above those estimated on—40c and 60c for laborers and carpenters, respectively, for a nine hour day. Apart from the actual increase to 45c and 67½c, excess in unavoidable overtime at time and a half would also be incurred by reason of the shorter day and in handling concrete overt'me must be taken into consideration. The city would have to assume the responsibility for excess over their guaranteed price.

Mr. Paulin declared that the increased wages voted by Council would mean a difference in the cost of the bridge of at least $10,000.

Ald. Edgar had figured out the increase at $20,000, which would render it impossible for the city to let the contract at the Canadian Engineering and Contracting Company's guarantee price of $276,860. $20,000 added to this figure means $296,860; $50,000 for engineering and land damages would bring the cost up to $346,860, and the city has only $310,000 at its disposal, including a Government grant of $50,000.

Bylaw Shelved.

The Mayor here called for a vote on whether the bylaw should be given its second read ng or not, with the following result:

Yea—Aldermen Morrison, Hamilton and Taylor—3.

Nay—Aldermen Phelan, McIntyre, Edgar, Turner, Garside, Gainey—6.

The bylaw was thus shelved for the time being at least.

Boards' Recommendation.

Earlier in the evening Ald. Phelan submitted the Board of Works' report, which, among other things, recommended as follows:

"Clause 10.—That the fair wage clause in the spec'fications for the Hunter street bridge be rescinded, and that the scale of wages to be paid on the construction of the bridge be 60 cents for carpenters and 40 cents for unskilled labor as a maximum, and this scale of wages to prevail until May 1st, 1920, and that the working day be nine hours.

"Clause 13.—That the tender of the Canadian Engineering and Contracting Company for the construction of the Hunter street bridge on a cost-plus a fixed sum basis and the guaranteed limit of the cost be accepted."

Ald. Phelan and Mhlntyre moved that clause 13 be struck out, and the report as amended, adopted.

Ald. McIntyre: "This clause rec-

(Continued on Page 5.)

TORONTO LABOR LEADERS PREPARING FOR BIG STRIKE

Policemen, Firemen and Other Essential Workers Will not Be Called Out Tomorrow—Unions Will Help to Preserve Peace at Request of Mayor.

(Canadian Press Despatch)

Toronto, May 29.—Apparently anticipating that there will be no settlement effected by the conference going on at Ottawa today, the general strike committee of fifteen has prepared a list of those callings which are excepted from the strike order. Workers in hotels, cafes, dairies, bakeries, gas houses, waterworks, artificial limb works, picture theatres, are not affected. Policemen, firemen, school teachers, professions, and hospital help will also be permitted to work. All others, apparently, must stop work according to the order.

The statement says further: "The general strike committee, by excluding the above, do so with the express purpose that no harm shall befall the genreal public. The above mentioned workers have received notice from the general strike committee to remain at their posts. The strike committee is prepared to help the authorities to see that law and order are maintained in the city by organising a sufficient number of trades unions to co-operate for the purpose, at the request of the mayor."

More Transports Arrive At Halifax

(Canadian Press Despatch)

Halifax, May 29.—The transport Regina which arrived last night from England with 1,983 Canadian soldiers, including the 6th and 10th stationary hospital units, docked shortly after 7 o'clock this morning. Disembarkation commenced at 7:25 this morning and concluded at 8:45 A half hour later the Regina backed out from the pier. The transport [illegible]

Fiume To Remain City By Itself

(Canadian Press Despatch)

Paris, May 29.—It was stated in high quarters this morning that the settlement of the Adriatic question is now a certainty as a result of the negotiations of yesterday and last evening. Under this settlement Fiume becomes an independent city. The Italians will receive certain of the Dalmatian Islands, but it is understood they will not get Zara or [illegible]

GERMANS PRESENT FORMAL REPLY TO TERMS OF PEACE; OBJECT TO MANY POINTS

Document not so Voluminous as World Was Led to Expect—Members of the Hun Mission Are Leaving Paris—Austrian Treaty Next on the Program.

(Canadian Press Despatch)

New York, May 29.—The Associated Press this morning issued following: Germans today made a formal reply to the treaty terms presented to her on May 7. While not as voluminous as recent reports have led the world to expect, German counter proposals appear to take issue with the Allies on nearly all important phases of the treaty according to summaries rece'ved from Berlin and Paris.

Immediately after the presentation of Germany's reply, Count Von Brockdorff-Rantzau, chief of the enemy peace mission, will, according to report, leave *Paris* for *Spa*. Whether his departure will mark his retirement as member of the German peace mission is not known. Several minor members of the German m'ssion left Paris for Germany this afternoon.

This afternoon a plenary session of the Peace Conference will be held for the purpose of communicating to the nations which broke relations with Austria, the peace terms which the Council of Four have decided to present to representatives of the dual empire.

STILL ANOTHER THREATENED INJUNCTION AGAINST BRIDGE

Council Ignores Matter—Routine Business Last Night.

A request from the Board of Trade to the City Council, last night that they be permitted to embody in their crest, the design adopted by the City went to the Finance Com.

The Engineer reported that the pavement on Water Street, from Charlotte to King, and along King to George, would cost $10,870, $4,462.40 of which would be chargeable against property—and $5,724.60 to the municipality.

Bridge Inspector

F. Bartlett wrote requesting appointment as inspector on the building of the bridge. Mr. Bartlett pointed out his qualifications, and added that he had contributed his share to the war. This went to the Board of Works.

C. E. Adams, asked permission to instal a gasoline tank and pump at the edge of the sidewalk each of his store, corner Lake and Aylmer streets. This was granted subject to removal with 6 months on, notice of council.

Sewage Disposal

Peck, Kerr and McElderry wrote that unless action is taken toward constructing a sewage disposal plant within a month from date of letter, they had been instructed by the two Monaghan townships to institute proceedings to stop the city from emptying from its sewer, sewage, into the river.

Ald. Phelan replied that he had satisfied the Reeve of North Monaghan as to the cause of the delay, and that the question was now under consideration by the Board of Works.

Bridge Injunction

Mr. R. R. Hall wrote that should Council accept the tender of the Canadian Engineering and Contracting Co., for building the new bridge, he had been instructed by Mr. Wm. Rudkins to enter injunction proceedings. His client, he wrote stated that it was contrary to law for Council to award the contract to the highest bidder in discrimination against a lower tender which guaranteed the bridge being constructed within the sum voted by ratepayers for that purpose $260,000—which the higher tender did not.

His client was also satisfied that sufficient test had not been made to allow sufficient assured depth in the river bed for piers capable of safely supporting the bridge as designed. Mr. Hall further declared that all Aldermen voting for the tender in question would be held personally liable for excess of expenditure above the $260,000 voted by the ratepayers for the new bridge.

His Worship—"Pay no attention to it."

The communication was received by a majority of 8 to 1, and no action taken.

NO WARRANT FOR DEWART CHARGES

CHIEF JUSTICE MEREDITH FULLY EXONERATES LICENSE COMMISSIONER AYEARST.

(Canadian Press Despatch)

Toronto, May 29.—The charges preferred by Hartley Dewart, M.P.P., and others against the administration of the Ontario License Commission and in particular against Chief Inspector Ayearst, have been found to be without foundation by Sir William Meredith, who some time ago completed his inquiry into the charges and who today submitted his report to Hon. I. B. Lucas, attorney-general.

Sir William Meredith exonerates Inspector Ayearst entirely from the charge of having shared in the earnings of the men employed by the License Commission through the Employers' Detective Agency. He reproves Mr Ayearst for having borrowed money from Solomons, an employe under his jurisdiction, styling such action a grave indiscretion. The commission observes that no attempt was made to prove that Mr. Ayearst had shared in the earnings of the detectives and that in this regard Mr. Dewart probably confused the charges that he intended to make against Messrs. Ayearst and Morrison.

CITY ENGINEER ON LABOR UNION

HAS NOT CHANGED ATTITUDE AS RESULT OF COUNCIL'S LATE ACTION.

"As far as the unio nis concerned, the City Engineer's Department stands in exactly the same position now as it ever stood," declared Mr. R. H. Parsons today. "The interpretation placed upon last night's resolution is that the maximum wage for ordinary laborers shall be 45c an hour and for carpenters 67½c. We will continue to our employes down from that standard, according to their ability.

"At present we are getting along nicely with our staff of workmen, and no one need feel alarmed that they are in danger of losing the'r jobs if their work is satisfactory. We intend to recommence work on the Romaine street sewer with a gang that is now employed on another job. Very soon we will commence oiling the streets, and then we will require some more men. Returned soldiers will be given the preference."

Marconi Ausuto, of Sudbury, was fined $200 for making whiskey.

Roy Shiverie was arrested on a charge of robbing the mails at Halifax.

THE DAILY REVIEW

ESTABLISHED 1879.

MEMBER OF THE CANADIAN PRESS, LIMITED.

"FOR A GREATER PETERBOROUGH."

THURSDAY MAY 29

DEALING WITH THE STRIKES.

PREMIER BORDEN announced in Parliament that the Government proposed to maintain law and order no matter how many men went on strike. The preservation of the public peace being one of the functions of any administration, Premier Borden could scarcely have said less. Certain it is that the situation does not call for anything further in the way of veiled threats or the expenditure of any further oratory. The time for talking is past; what is needed now is vigorous action.

The physician who is called to treat a patient suffering from appendicitis, gains nothing either for himself or on behalf of the sufferer by discoursing on the nature of the disease and the methods of treatment. What is required of him under such circumstances is prompt action in the use of the knife.

Premier Borden has certainly had, during his stay in Europe, the opportunity to acquire more academic knowledge of the labor problem than he ever had. The League of Nations to which he is a party has declared for a universal eight-hour law and for a uniform scale of pay as far as possible in all countries that are signatories to that agreement. Premier Borden stands committed to that policy. He has a majority in Parliament, a majority that has up to the present been tolerably pliant in his hands. He has been in Ottawa long enough to allay in a measure this universal anxiety by announcing his future labor policy. If he intends to seize the dilemma by both horns and to take a chance with the B. N. A. Act by enforcing a Dominion-wide eight-hour law, a statement to this effect would do more to soothe unrest and to head off further strikes now threatening than anything he could utter in the way of threats of the use of force.

When Toronto was striving to avert a threatened general strike, Mayor Church asked Premier Borden to declare what course he proposed to take in the matter of the demand for shorter hours. Sir Robert ignored the request, when a word from him on this point was the one thing essential to assure peace.

If Sir Robert believes, as he probably does from a study of the Constitution, that Labor legislation is a matter that belongs exclusively to the provinces, in all cases except that of the civil service employes, then why not call a conference of the provincial premiers, the majority of whom are, or were, in sympathy with the Union Government, and all of whom realise the danger that overshadows their own sections of the Dominion?

During the war the Constitution was to a great extent ignored, public necessity being urged by way of justification. Orders-in-Council that would not have been tolerated under normal conditions, were allowed to pass unchallenged. Conditions are just as unusual now as before the soldiers were relieved from active service in France. An Order-in-Council would meet the present necessity, even if Parliament is still in session. At all events some definite action should be taken in the House and the closure applied to all fruitless debate on the gravest issue the nation has ever faced.

Sir Robert Borden says that the members of the Civil Service cannot be permitted to dislocate the public business, and that the men in the employ of the Government will lose their places if they go on strike. The Government should set private employers an example in the treatment of their working staffs. Here in Peterborough veterans employed on the Trent Canal quit work because their pay was only twenty-nine cents an hour, rather less than the pittance they received when they wore the uniform of the King.

The letter carriers have been waiting a year or more for an adjustment of their claims, the righteousness of which the Government has already acknowledged. Promise after promise has been made, to remain unfulfilled. Local letter carriers, there is every reason to believe, will quit work on June 1 unless their grievances are disposed of before that time.

Union Government has not been altogether a success, it is generally admitted, even by those who gave it loyal support since the inception of the idea. The Cabinet is reported as on the edge of revolt. Is there in existence among the leaders anything like fear that forcing the Labor question to an issue in Parliament would disrupt the Government and precipitate an election? Even that would be preferred to supine inactivity. Unless something is done the public need not be surprised if a vote of want of confidence in the present Administration carries in the House.

Evidently the members of the present Government do not understand the temper of the Canadian people. Do they imagine that they are so many dumb driven cattle? Are the people forced to submit to seeing the cost of the Parliament Buildings already exceed the estimates by over three million dollars and the end not yet, to have the public money expended on costly waste paper baskets and mahogany furniture, and to endure without complaint the spectacle of ministers riding around the country, largely for their own pleasure or on their own business, in palatial private cars? And all this while the men in the employ of that Government are working for less than a living wage?

HOSTILE TO ORGANIZED LABOR.

(Ottawa Citizen.)

THE HOSTILE ATTITUDE of reactionaries in Canadian politics, and behind politics, has lately been uncovered to the public gaze by the tactics of Mr. Arthur Meighen, in charge of the Government's strike-breaking expedition to Winnipeg. But it has long been evident in Canada that the interests of the wage-earners receive little or no sincere consideration by the corporation-backed political parties.

The only protection the organized wage-earners have is by organising into trade unions. By trade unionism they are barely able to keep wages above the margin of existence—sufficiently high to keep themselves alive and reproduce their kind. The measure of the wage-earners' position is seen in the recent strike at Amherst, where Canadian workmen went on strike for a nine-hour day!

Less than a month ago Sir Robert Borden, as representing Canada at the peace conference, took part in the International Labor Convention; and, among other provisions of the convention, the high contracting parties made an affirmation to observe certain "methods and principles for regulating labor conditions, which all industrial communities should endeavor to apply so far as their special circumstances permit." The Canadian Prime Minister subscribed to the following, for example:

> The adoption of an eight-hour day, or a forty-eight hour week, where it has not already been attained.

Is it not arrant protectionist cant to talk about the superior condition of labor in Canada, when artisans have to strike to get even a nine-hour day, while modest little countries like Portugal are establishing the eight-hour day principle by law; and industries in Great Britain are adjusting themselves to a forty-four-hour week basis?

There are other principles included in the affirmation of the International Labor Convention, signed by Sir Robert Borden. Among these are:

> That Labor should not be regarded merely as a commodity or article of commerce;
>
> The right of association for all lawful purposes for the employer as well as the employed;
>
> The payment to the employed of a wage implying a reasonable standard of life as understood in their time and country.

But how are these principles being observed by the Government of Canada? It might almost seem as if the reactionaries in the Cabinet, and behind it, had set out deliberately to discredit Sir Robert Borden's affirmation, by allowing Mr. Meighen to initiate a flank attack on Organized Labor in Winnipeg, at the very time the Prime Minister is arriving home from the conference.

WILL GERMANY SIGN.

(Wall Street Journal.)

THERE WAS an excellent cartoon in a recent issue of the World, in answer to the German threat to go bolshevist if uncomfortable peace terms were exacted. It was the picture of a truculent small boy with sticks of dynamite in the seat of his knickerbockers, saying, "Now, you can't spank me." But we can, because we can take his clothes off.

In Chancellor Scheidemann's parliamentary address, after the use of adjectives which have been so justly applied to Germany's conduct of the war and to its inception, it was significant that there was no mention of an actual refusal to sign the peace. Scheidemann and his fellows know better. They may talk for home consumption, they may protest and delay, but they must sign lest a worse thing befall them. Talk of arousing an unquenchable hate is beside the mark. The bitterness arising out of humiliating defeat and wounded pride would in any case continue until true contrition brought about a chastened spirit.

Germany is in no position to renew the fight, in any military or naval sense. She could not keep her men fed, or supplied with munitions for any useful length of time, even if since the armistice they were not completely out of hand. Soldiers follow an American or a British officer. But German soldiers throughout the war were driven by their officers with automatics, not to terrify the foe but their own men. This army has passed away and nothing can be improvised to replace it.

All the German ports, together with the chief manufactory of arms, Essen, can be promptly occupied, for they are in no state of defence. But a weapon far more formidable than the mere occupation of Berlin and the important cities of Germany is in the blockade. This can now be made incomparably more effective than it was during the war. Smuggling from Holland, the Scandinavian countries, Switzerland, or Russia could easily be made impossible.

It will be remembered that Germany's arrogant apologists could not tell the same lie twice. They questioned the legality of the blockade because of its incompleteness, and in the same breath declared that the women and children were being cruelly starved. They are not likely to invite a condition where the latter of these two contentions would come true.

Figures from Germany are to be distrusted, but here is a single instance which can be vouched for by Gregory Mason, writing in the Outlook: In the city of Prague, where conditions were admittedly better than in either Vienna or Berlin, in 1914 births exceeded deaths by .60, and in 1917, deaths among civilians, with war fatalities not included, exceeded births by 9.14.

But the figures of the Prague orphan asylums were even more deadly. In 1914 there were 2,018 inmates, of whom 286, or 14.1% (a reasonable ratio, all things considered), died during the year. In 1917, out of 1,818 inmates, 1,115 died, or a proportion of 61.3%; and in 1918 the number of inmates had been reduced to 833, of whom 704 died, or an appalling proportion of 84.5%. These figures tell their own tale.

NOTES AND COMMENT.

BUT EVEN the "Big Six" cannot hold together all the time.

• • • • •

JUST AS SELF-PRAISE is no recommendation, so Germany's self-pity excites no outside sympathy.

• • • • •

WHY CANNOT the Council acknowledge that the job is too big for them and get out of the gangway?

• • • • •

HOW IS ALL THIS saved daylight being spent these days. Aldermen may have their own ideas on this subject.

• • • • •

WHEN THE LOCAL aldermen go on strike, why don't they really quit instead of persevering in the bluff of still carrying on?

• • • • •

IN THE MEANTIME there is no talk of reducing the compensation of the high government officials from the Governor-General, down.

CROSSING ATLANTIC IN FUTURE

(Chicago News).

The dangers and uncertainties attending airplane flights across the Atlantic make one wonder why a British dirigible has not crossed the ocean. Time and time again during the war the dirigible proved its ability to travel vast distances with a degree of comfort to its passengers hardly attainable on an airplane. The record made by a German Zeppelin in travelling from Bulgaria to the heart of Africa and return, a distance more than twice as great as that which must be covered from Newfoundland to Ireland, speaks for itself.

So far as the immediate future is concerned, the tired business man is more likely to trust himself to a dirigible than to an airplane when it becomes necessary to cross the ocean by something speedier than the fastest steamer. The very careful consideration of aviation after the war by the British parliamentary committee on civil aerial transport one with the fact that at present 500 miles is the economical commercial limit of a journey by airplane. At present longer voyages must be considered in the light of extraordinary performances difficult to repeat. The great British airships can attain a speed of about sixty miles an hour; they can lift thirty tons; they can stay in the air for thirty-six hours. The airplane has only one advantage over the dirigible—the advantage of speed. The slowest airplane of today is faster than the fastest zeppelin.

More Comfort on Dirigible

So far as mere comfort is concerned your luxurious Wall street banker will prefer a dirigible. A man may sleep far more comfortably on board a dirigible, driven by silenced engines, than in a railway car. Moreover, sleeping accommodations can be placed far from the power plant. The incessant roar of the engines the singing of the wires that accompanies the progress of an airplane through the atmosphere, are absent.

Suppose an engine should fail. The airplane must descend if repairs cannot be made in mid air. The dirigible, on the other hand, simply floats in the air like the huge bubble of gas that it is. The minimum height at which an airplane can fly is about 3,000 feet when short journeys are undertaken. Safety lies in height; room must be allowed for gliding down. An airship, on the other hand, may cleave the air within a few hundred feet of the housetops. If the tired business man is not too tired to enjoy the beauties of an ocean that rapidly unfolds itself like an unrolling map, the transatlantic dirigible has more to offer him than an airplane.

These advantages of the rigid airship over the airplane have not been lost on one of the British firms of airship builders. It intends to build a veritable levithian of the air—a craft which will have many of the sybaritic comforts that we associate with the more luxurious transatlantic steamships.

Sun Rooms on Top

You step on board this trans-atlantic liner. You find familiar saloons, drawing rooms, a smoking room and staterooms. But what leaves you breathless is a lift—yes a lift that takes you from the keel through the very gas bag itself and deposits you on top of the envelope where you will find sunrooms.

Because the construction of an appropriate shed would run into the millions; with its elaborate inflating machinery, pumps and handling devices, this huge transatlantic craft is to be moored to a tall steel tower—a hitching post. You ride up the tower in a lift. You step out on a gang way that leads you through the very nose of the giant yellow airship, swinging in the wind like a weather vane, into the bowels of the gigantic hull. After all, why not? It is just as senseless to house an airship after a journey as it is to house an ocean steamship. To be practicable a trans-atlantic dirigible must be as weather proof, and as stormproof as any fishing smack.

In your mind's eye can't you see the great cities of America and Europe, New York, St. Louis, Montreal, London, Paris, Rome—fringed with mooring towers after the English plan? Can't you see the business man of St. Louis travelling in a lift up on the tower to which a trans-atlantic Zeppelin is moored and beginning his journey to London, not from some seaport but from his own home town?

TO-DAY'S STORY

A preacher has a right to "cus" if the occasion seems to warrant such a measure, according to the Rev. George W. Allison, pastor of the Central church of St. Louis. The Rev. Mr. Allison "cussed" right out in a speech before the lumbermen's luncheon the other day. That is he said "damn" and put some force into the word, too.

Since then there has been a lot of criticism of the Rev. Mr. Allison and his "damn." A number of St. Louisans have averred that while "damn" may be all right for an over-wrought business man or a provoked saleslady it's no fit word for a minister of the gospel to use. The Rev. Mr. Allison takes issue with this view.

Where Strong Word is Needed.

"A preacher has as much right as anybody else to make use of the entire English language, so far as I can see," he declared. "If a man is a damn scoundrel a preacher has as much right as anybody to call attention to it and the fault is not in the preacher so pointing it out, but in the man being one.

"There are some expressions in common use among business men and other laymen that have no equivalent in conventional language. Suppose you want to say that some fellow 'did his damnedest.' You can't say that he 'did his doggonedest,' and convey the same meaning, and a fellow who really had done his damnedest would feel disappointed to hear anybody say that he had done his doggonedest.

"Now don't think I am defending profanity. I don't think that actual profanity ever adds lucidity to any statement, and I seriously doubt if it adds emphasis or force. A man who is irreverent in his language always detracts from the value of what he has to say.

Fair for One as Other.

"My point simply is that if ever there is a time when a doctor or a lawyer is justified in saying 'damn,' or 'hell'—and I believe there are such occasions—a preacher in the same circumstances has the same right.

"The old idea that there are certain phases of life and certain forms of expression that are closed off from preachers is going, and it has got to go. A preacher nowadays has not only got to be a man, but a man among men.

Rap at Some Preachers.

"The customary caricature of the preacher as a shriveled up, insignificant little snip, with his hands clasped and his eyes turned piously on heaven, has had too many counted parts in real life."

WIT AND WISDOM

Cause for Worry.

"You look very worried, old man," said Paddy to his English pal.

"I was just wondering," said the stricken one, "how I'd get my night shirt over my wings when I'm dead."

"Arrah," said Paddy, "if I were you I'd drop that idea altogether, and think out a way of wearing your hat over your horns."

Prudent Girl.

Jack—Did you tell her that what you said was in strict confidence?

Ethel—No; I didn't want her to think it was important enough to repeat.

Loaded.

"Last night a dozen cars went by while I waited and I couldn't get on board one of them."

"That so, old man? What was the trouble?"

"Too full."

"The deuce you were! Where'd you get it?"

An Offset.

Ignorance is rife, they tell us,
  Their statistics quite appal;
But cheer up; just think how many
  Folks there are who know it all.

Kitchen Logic.

"Please, mum, there ain't no coal left in the cellar."

"Why on earth didn't you tell me before?"

"Because there was some then."

Words That Burned.

"Was your last book a success?"

"Oh, immense! The publisher sent the entire edition up to my house just as we ran out of coal."

Decollette.

"Doesn't that movie actress put on airs?"

"Well, she ought to put on something."

Another War Secret Revealed.

"And while you were in Ireland did you kiss the Blarney Stone?"

The Returned Hero—No; but I kissed several who had.

Chief of Police Marshall, of Neelan and Garson, has resigned.

EDITOR'S MAIL

MR. BURNHAM'S REPLY.

Editor Review: In reply to Mr. Hone: 1. I did not apply the term "atheistical" to an individual, but as a necessary consequence. 2. Alcohol exists in Nature. It cannot be condemned without condemning Him Who puts it there.

3. God NOWHERE PROHIBITS anything, but merely forbids, with a statement of the consequences.

4. Excess in drinking is only one form of evil. Obedience to the Divine command and to the moral law consists in abstaining from drunkenness (not drinking), from gluttony (not eating), from libertinism, etc., etc.

Is God's way or man's the better? If these observations are correct in substance and in fact, is it not our obvious duty to obey God's ordinances and not set up our own patent arrangements in place of His or in aid of them? That is all I contend for.

5. Surely we should hesitate, no matter what the temptation, before attempting to amend the Divine method by the institution of the prohibition of the means of evil for restraint, and the cultivation of a reliance upon God's help and Christ's all-sufficient saving power (for which prohibition is set up as a substitute).

6. Prohibition is a direct reproach of God in that He might have done for all forms of evil what the prohibitionists are doing for one form of evil and what they will do for all, no doubt, in due time.

7. God admits the drinker of alcohol to heaven, but not the drunkard. This fact alone ought to give pause to the prohibitionists.

J. H. BURNHAM

OSHKIGMONG.

(Special Correspondence.)

Oshkigmong, May 29. — Two of our braves, Privates Billy Taylor and Amos Johnson arrived at Chemong yesterday. Billy is one of the five brothers who went over with the 93rd Battalion, and Amos is the son of Mr. and Mrs. George Johnson. Both of the boys have done their share in some of the big battles in France and came out with only slight scratches. On learning of the arrival of the boys, the ladies quickly prepared a luncheon in the hall for the braves, and all sat down to a well-provided table, the Missisaugua band furnishing the music.

Victoria Day was rather quietly observed in the village. The young folks spent the day in playing ball and other games.

A few from Longford and Scugog were here to spend the holiday.

Mrs. Bigwind of Alderville, sister of Pte. Billy Taylor, is here to welcome her brother.

POINTED PARAGRAPHS.

A very little tombstone may tell a very big story.

Promises that are hardest to obtain are surest of fulfilment.

If your harvest is a failure, remember you selected the seed.

All some women talk about is—well, about eighteen hours a day.

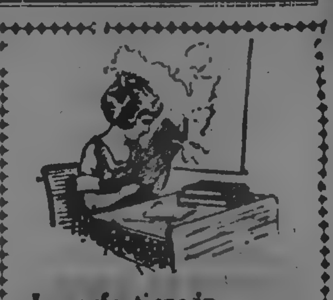
No, Itafalo, locksmiths are not necessarily humorists because love laughs at them.

A young man who was fired with love says he thinks it was the girl's father who acted as fireman.

Cats, unlike politicians, give voice to the most decided utterances while in the dark and on the fence.

Every single thing on earth has its use and it is probably just as well that we do not know about some things.

The wabbling of some men reminds us
After they have had a swallow,
That their footprints surely would be
Hard to follow.



Imperfections in Children's Eyes

FEMININE LOGIC

The young lady across the way says the Standard Oil company may have done some questionable things in its time, but she understands that Mr. Carnegie is a very fine man.

SIX MILLION TRAIN

Equipment of C.P.R. New Transcontinental Train

Nearly six million dollars is the value of the equipment alone of the new Transcontinental Express, the Trans-Canada Limited, which the C.P.R. will commence to run between Montreal and Toronto and Vancouver on June 1st. When one adds to this sum the wages of the train crews and the army of men who are connected with the operation of the daily trains operated both east and westbound on this three thousand mile run, the enterprise of the C.P.R. in putting on this train can be more thoroughly realized. As Mr. E. W. Beatty stated in his recent presidential address to the shareholders, the C. P. R. is fortunate in having steadily built up its equipment in the lean years, so that it is in a position to do things on a scale which would be impossible to any other railway in Canada.

The new train for instance will require fifty-nine sleeping cars, the value of which at present prices is approximately $2,478,000. Fifteen fully equipped dining cars are necessary, and these would cost today $750,000. The twelve observation cars required would cost $480,000, the five compartment cars, $210,000, the 12 baggage cars $180,000 and the 24 locomotives $1,464,000 making a total of $5,762,000 on a very conservative estimate. The labor cost is less easy to compute, but the train itself will absorb twelve train crews, and twenty-four engine crews.

Although the train will undoubtedly be used largely by tourists its especial value is to business men to whom time means so much on a trip, say from Toronto or Montreal to Winnipeg and West.

Cook's Cotton Root Compound.

LESSONS IN RIGHT LIVING
By Dr. W. A. BRADY

Once in a while, if you ever go fishing, you land one that carries either a portion of some other fisherman's tackle or the scars produced by a former encounter. And you feel sorry for the poor fish.

A gentleman writes to me that he has just finished smoking and inhaling the smoke of a cigarette, for the first time in two months. And he is a bit alarmed because the cigarette causes a sudden constriction of the throat or chest and a throbbing headache.

I suppose the wary old trout feels considerably worried when he finds himself hooked for the second time.

The cause of the gentleman's symptoms is probably something akin to the state of sensitization which doctors call anaphylaxis. For instance, if you inject hyodermicaly into a guinea pig or other animal a few drops of some "foreign" protein such as the clear blood serum of a horse or cow or dog, nothing in particular happens. If you keep injecting more of the foreign protein every day or for a month or two after the first injection, then attempt to repeat the experiment, you are pretty sure to kill the animal, which has by that time become "sensitized" to the forgein protein; death supervenes upon asthamatic symptoms. No doubt the smoker's alarming reaction to tobacco is of similar character.

But the mystery here is, why did the man return to tobacco after two months of self-denial? Does the cigarette really weaken a man's will and character like that?

Why does a fairly healthy young man crave a cigarette anyway? I'll give you my own theory of it.

Youth craves activity, something doing, anything but quiet, peace and repose. G., P. and R. belong to sedate old age. Well, youth has gone wrong in our day. Too blamed much imitation dignity about modern youth. Look at the callow dude going to high school and you will sense what I mean. Look at the near-gentleman make-up he wears. Look at the high school girl's chorus-lady style.

When youth craves activity, muscular action, excitement, youth is too dignified to seek the needed activity, afraid to spoil the toothpick shoes or get bags in the pretty panties. So youth falls back on a cheap substitute, one which all our noble movie heroes resort to invariably in a tense moment. Youth lights a cigarette—that is something to do, really, and it gives one such an air of, well, you know, that grand air the movie hero swaggers in. And then in a few puffs no matter whether the smoke is inhaled or not, for that is immaterial youth absorbs enough of the narcotic to still that incipient desire for action. Thus the cigarette prevails most extensively where the natural impulsiveness of which is most restrained. Perhaps there was some excuse for the cigarette in the trenches; there is no excuse for it in our schools and colleges. Something is radically wrong with the youth who *resorts* to cigarettes in private civil life.

Is Any Family Immune to Cancer?

"While cancer occurs in some families, don't you think you are overstating the facts when you declare that cancer occurs in every family? Is it fair to frighten thousands of laymen by telling them that cancer exists in all families? E. H. M."

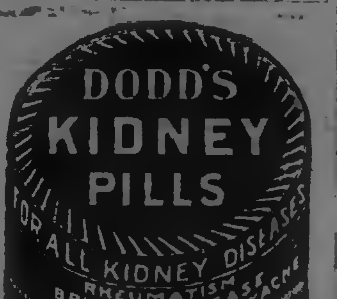
A layman whose family enjoys good health is not going to worry much when I state the truth about cancer. Should any member of his family be ill it may prove an incentive to prompt consultation of the family doctor if the possibility of cancer is realized. So many tragedies have their inception in the senseless notion that "there is no cancer in our family" that I feel justified in publishing what you consider a scare. Cancer is such a common disease that at one time or another, every family is likely to have a case, not necessarily in this generation, but some time. It is fair to worry a thousand people a little bit for the sake of saving one individual perhaps.

Boils in Machine Shops.

"Quite a number of machinists in our shops have boils on the hands and arms or face. I have heard that some government commission investigated this trouble in shops and found that it is due to pollution of the cutting mixture or oil, which could be overcome by using some harmless disinfectant. Physicians and a city bacteriologist whom I have consulted about it have no information. Can you tell me anything about it?

"F. H. S."

I know of no government investigation. M. D. Shie, a student of medicine, made an exhaustive study of the problem in a large plant in 1916 and reported his observation in the Journal of the American Medical Association Dec. 8, 1917. By the use of chemical disinfection of the cutting mixture the prevalence of wound infetion was reduced from 5 per cent. to less than 0.5 per cent. and boils practically disappeared. A cresol disinfectant was used. A very cheap and very efficient disinfectant for the purpose is the hygienic laboratory pine oil disinfectant, which an be prepared according to directions obtainable free in the descriptive pamphlet (report 304, U. S. public health service, Washington, D. C.)



NEW ALL SLEEPING CAR TRAIN TRANS-CANADA LIMITED DAILY

Montreal and Toronto to Vancouver

On Sunday, June 1st new train will be placed in service to operate daily to Vancouver via Canadian Pacific.

Train No. 7 will leave Montreal 3.30 p.m.

Train No. 9 will leave Toronto 7.15 p.m.

Trains will consolidate at Sudbury and operate Sudbury to Vancouver as No. 7, due to arrive Vancouver 10.00 a.m. the fourth day.

Further particulars from Canadian Pacific Ticket Agents, or

W. B. HOWARD,
District Passenger Agent. Toronto

LAND OF SHEPHERD KINGS.

Once, But Now Hungary Turns to a Soviet.

In strange contrast to an erstwhile "Land of Shepherd Kings" is the Hungary of to-day, just emerged from the sufferings of war to be caught in the swirl of east European anarchy, says a bulletin from the National Geographic Society.

Pastoral Hungary has features all its own. It stretches across the vistas of the Great Plain in the region of the Hortobagy. There is the genuine original Magyar, the Centaur-Maseppa, who, like his sires of old that rushed Alexander on the plains of Sogdiana, rises like a devil of the twilight; eats, drinks, sleeps on his small, tireless charger, and chokes with pure delight in lust of life and rush of wind. The long white "gatya"—no penitent sheet—the embroidered sleeveless waistcoat, the plumed or beribboned hat, the gorgeous mantle, the deep-bowled pipe, mark this tanned Bacchanalian cavalier more surely than does the anthropologist. He cultivates no circus trick, but he and his horse are Freemasons in one craft.

There is nothing spectacular in this man's work or annals. His blood-brother, the shepherd of the night, sustains himself on sheep cheese and milk, and in his lonely vigils could still do service to astronomy. The Queensland squatter has no such run as the shepherd of the plain, whose vistas are wide, illimitable, and peaceful.

What may be the psychological note of a pastoral and peasant people, shepherd kings, whose whole corporate national life has been one long test of endurance that in the end has tired out Turk, Teuton, Slav, and even destiny herself? A musical, wine-loving, hospitable race; warm, generous, and combative; proud and vain; dowered with the curse of Reuben, with a total incapacity to unite on great issues and the power to fight on any soil but his own.

Imagine this people, its gods still the bards of the victor's camp, cut off from all the world we know by its Turanian tongue, whose beauty chained the admiration of Cardinal Mezzofanti (who is said to have spoken fifty-eight languages) but maintaining its own as a minority by sheer force of character in that strange pentecostal mosaic of race, creed, and caste which until recently held the Danube and the Central Plain as Austria-Hungary.

Imagine a virile stock which can still sit and think, can fall in gleaming frenzy as its harp or picture-post storms a delicate imagination with breathless deed; a race which combines the Buddhist aversion from action with the Celtic instinct of opposition; improvident, lavish, naively charmed at the courtesy of the stranger; simple, with the barbarian lust of pleasure to the eye; sensitive to its inmost chords to gentleness—a passionate, dreamy race of fatalists: the true Asian mystery.

Edible Birds' Nests.

Birds' nests used by the Chinese are built by a sea swallow with a gelatinous substance taken from the sea moss. They attach the nests to high cliffs where it is dangerous climbing to get them. They should be soaked after washing in warm water, in cold water over night, then boiled in milk until they may be pierced with a broom splint. They are then added to a clear soup.

Norway's Hydro.

By linking a number of lakes and rivers in a hydro-electric project, Norway expects to obtain 320,000 electric horse-power at a single plant.

HINTS ON COOLING MILK

Three Essentials in Cooling Explained.

Make That Spring on Your Farm a Profit Question — It Should Be Enlarged, Cleaned Out Well and Cribbed In an Efficient Way.

(Contributed by Ontario Department of Agriculture, Toronto.)

BACTERIA in larger or smaller numbers are always present in freshly drawn milk. At temperatures between 60 deg. F. and 98 deg. F. (blood heat) they grow and multiply rapidly, causing the milk to become quickly spoiled. As the temperature falls below 60 deg. 9., the bacteria become less active, the changes caused by them are less marked, so the milk keeps sweet and in good condition for a longer time.

Growth of bacteria in milk in 24 hours (136,000 per c.c. when freshly drawn):

Temp. held.	Bacteria Per C.C. (20 drops) after 24 hours
40 deg. F.	280,000
50 deg. F.	1,170,000
60 deg. F.	24,600,000

The above table shows how low temperatures check bacterial multiplication in milk. This is the scientific fact upon which the practice of milk cooling is founded.

In practice a dairyman should bear in mind three things in connection with the cooling of milk. First—cool milk with as little delay as possible after it comes from the cow. Second—cool milk to as low a temperature as possible, say somewhere between 40 deg. F. and 50 deg. F. Third—cool milk with as little contamination as possible from outside sources, such as dust, dirty utensils, water splashings, etc. If these three points were regularly attended to by all dairies a marked improvement in the general quality of our milk supplies would be noticeable right away.

The quickest way to cool milk is to run it over some form of tubular or surface cooler, pail by pail, immediately it is drawn from the cow. In this way milk may be rapidly cooled to within two or three degrees of the temperature of the water used. The objections to this method are the extra work involved in washing the cooler twice a day, the difficulty of keeping it properly clean, and the danger of contaminating the milk with dust, barn odours, etc., unless the cooler is used in a clean and separate milk room.

The other alternative is to place the cans of milk in a tank of running cold water at the earliest opportunity, or in an insulated tank of water into which some chopped-up ice is thrown. If the milk is stirred once every ten minutes during the first hour, cooling will take place more rapidly than where milk is left unstirred. If cold running water is not available all summer, enough ice should be put up during the winter to ensure the milk being brought to a sufficiently low temperature during the warmer portions of the year.

The importance of prompt and thorough cooling of milk is still insufficiently appreciated by many milk producers. There is no cheaper and simpler method by which milk quality may be improved.—T. H. Lund, B.S.A., O. A. College, Guelph.

Making the Farm Spring More Serviceable.

Fortunately a great many farmers of Canada can boast of a good spring of water on their farms. In some cases it is the only reliable and perennial source of water, and when this is the case it usually receives proper care. Probably, however, in general, the spring is a secondary consideration as a water supply, particularly domestic, and consequently is let "run wild" more or less, and is not, therefore, rendering the service it might if it were properly equipped. The object of this short article is to make a few suggestions for the improvement of springs in general.

In the first place the spring should be enlarged, deepened and cleaned out well and then cribbed up in some efficient way. Probably the best method is to get a large concrete or sewer pipe tile or two, about 2½ feet in diameter, and put them down in the spring, cementing the joints well. Put an overflow pipe through the wall of the upper tile close to the high water mark of the spring, and connect the overflow pipe to a tile drain that leads down to a good outlet some distance away. If it is not connected to a drain the open end should be screened. If the spring be in the pasture it should be fenced in and the overflow pipe referred to extended horizontally to a trough outside the fence. The top should be provided with a tight cover made of concrete or heavy plank.

The spring becomes particularly serviceable if it happens to be located on an elevation considerably greater than the house and barns, for then the water can be piped down under the first line to storage tanks in the buildings. From the tanks the water flows by gravity to the points of service. Or if the supply is great enough and a fall of a few feet can be secured within a short distance, say 30 or 40 feet of the spring, a hydraulic ram may be installed for pumping the water of a spring to the house and barns. Usually it is pumped into a storage tank in the attic of the house or loft of barn, and from these gravitates to the various plumbing fixtures in the house and the troughs and drinking basins in the stables. If you are particularly interested in this subject of the farm spring and how to make it more serviceable write the Department of Agriculture, Toronto, for a copy of Bulletin 267, which tells you all about it. It costs you nothing for the information except a postal card and a two-cent postage stamp.—R. R. Graham, B.S.A., O. A. College, Guelph.

Only a truthful man knows how much he lies.

ONLY MEDICINE MADE FROM FRUIT

Extraordinary Success which "Fruit-a-tives" Has Achieved

One reason why "Fruit-a-tives" is so extraordinarily successful in giving relief to those suffering with *Constipation, Torpid Liver, Indigestion, Chronic Headaches, Neuralgia, Kidney and Bladder Troubles, Rheumatism, Pain in the Back, Eczema* and other Skin Affections, is, because it is the only medicine in the world made from fruit juices.

It is composed of the medicinal principles found in apples, oranges, figs and prunes, together with the nerve tonics and antiseptics of proven repute.

50c. a box, 6 for $2.50, trial size 25c. At all dealers or sent postpaid by Fruit-a-tives Limited, Ottawa.

SECRET IS OUT.

Teheran In Far Persia Invented High Cost of Living.

Teheran, Persia, claims the distinction of having invented the High Cost of Living.

It is alleged that war prices for food prevailed in this old town before Cain delivered the first smashing blow in his surprise attack upon that noted neutral, Abel. It must be true, for there is no other way of explaining the butter. Butter that must have been hoarded away in somebody's cellar back in those days of the beginning of things, is selling at Teheran now for $1.25 per pound.

Flour, "Made in Persia," is selling for $55 a barrel, yet some stores, by means of mystic figuring, manage to sell Persian bread for 20 cents a pound. Coal sells for $50 a ton, though it is a local product, being transported from mines only fifty or seventy-five miles away. Donkeys furnish the transport.

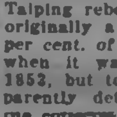
Sugar brings $1 per pound, so taffy-pulling parties are not much indulged in. Fairly good coffee may be bought for $1.80 a pound, and tea for $1.65. Flour from Europe, from which real bread may be made, is held at $100 a barrel, and soap, which is classed as an inexcusable luxury anyway, brings anything the merchant can get, many sales at $1 and more per cake being made to foreigners who imagine they have to have soap. A fairly good pair of shoes may be had for $25.

It still is possible to exist pretty cheaply if one has no objection to a constant diet of chicken and eggs. Chickens are produced locally in great quantities, and almost every city dweller has his own feathered flock, so chickens may be had in the market for 80 cents each and eggs for 65 cents a dozen. Sheep, too, are plentiful and city broke, so mutton may be bought for 25 cents a pound. The sheep-producing rural folk find that it would take their whole flocks to buy shoes for the family, so they go sockless and feast on mutton from sun to sun. The butter is too much revered for its age and power to be eaten by the proletriat.

Everything is carried long distances on donkeys or by camels. An automobile in the streets of Teheran attracts as much attention as would a camel train operating on a Toronto or Montreal thoroughfare.

A Chinese Tax.

One of the greatest obstacles to commerce in China is the "likin," the internal tax on goods in transit, originating as a war tax during the Taiping rebellion. The "likin" was originally a tax of one-tenth of 1 per cent. of the value of the goods when it was first imposed, about 1853, but to-day its amount is apparently determined arbitrarily by the collector.



Wood's Phosphodine.
The Great English Remedy. Tones and invigorates the whole nervous system, makes new Blood in old Veins, *Cures Nervous Debility, Mental and Brain Worry, Despondency, Loss of Energy, Palpitation of the Heart, Failing Memory.* Price $1 per box, six for $5. One will please, six will cure. Sold by all druggists or mailed in plain pkg. on receipt of price. New pamphlet mailed free. THE WOOD MEDICINE CO., TORONTO, ONT. (Formerly Windsor.)

Piling It Up.

An Englishman, for his first time visiting Ireland, was out driving one day with Pat, when he remarked to him:

"I say, Pat, what a lot of hills you have in Ireland."

"Shure we have, sir," said Pat. "We had so much land here in Ireland that we had to put it in heaps."

He Understood Girls.

Donald, aged six, has made a very good beginning on understanding the eternal feminine. He was playing with little Eleanor recently, when his mother heard him teasing the girl unmercifully. She said: "Donald, I want you to stop teasing that little girl. Aren't you ashamed of yourself?" "Well, I've got to tease somebody," replied the boy. "What an idea!" said the mother. "Well, that's so," said Donald, "an' she wants to be teased. If I quit teasin' her she'll go play with some other little boy."

Grinding Valves.

Every automobile owner has occasion to have the valves of his engine ground at more or less regular intervals. The old and laborious methods of hand grinding are being supplanted by the use of an electrically driven valve grinder. The spindle of the new device is said to oscillate with a long, steady sweep similar to the movement obtained in grinding, but many times more rapid. The pistol grip and trigger switch are employed, and make it possible to operate and control the grinder in a very convenient manner.

HUNTER STREET, PETERBOROUGH

DR. CAMERON ADVOCATES STATE MEDICAL INSPECTION FOR ALL

Peterboro Physician Delivers President's Address at Annual Session of Medical Association—Mrs. Cameron in Receiving Line at "Arwold."

The annual meeting of the Ontario Medical Association in Toronto yesterday opened with the annual address of the president of the association, Dr. G. Stewart Cameron of Peterborough, who advocated the establishment of post-graduate course for practising physicians to aid them in keeping up with the march of medical science. He also urged that greater measures be taken for the prevention of disease, and pointed to the success attained by the medical officers in the war in keeping the fighting forces free from many of the most virulent diseases.

State examinations of children and adults were also among the reforms advocated by the President. He stated that more than 50 per cent. of the men examined under the provisions of the Canadian Military Service Act had failed to make the first class, and that in a large percentage of cases their disabilities were directly traced to preventable causes.

Better obstetric laws were needed also, he said. Birth was shrouded in too much mystery, and the conditions surrounding it should be better known by the people at large. Enlarging upon this idea, Dr. Cameron declared that medical practise was not a closed corporation or a monopoly. The public mind should be directed to a fuller understanding of the basis upon which the physician made his diagnosis. He believed that ere long public opinion would force the practise of medicine into the control of the State.

The separation of the practises of medicine and surgery were also advocated by the President. He felt that the time was at hand when degrees should be issued for the various departments of medicine and surgery in which a physician had elected to specialize. A scathing denunciation was launched in the course of his remarks against what he felt to be an organized onslaught by irregular practitioners, patent medicine manufacturers and health cranks of one kind and another, upon the legitimate medical profession with a view to discrediting it in the eyes of the public.

Reception at "Ardwold".

In the evening the delegates to the convention and there friends were given a reception at "Ardwold", the home of Sir John and Lady Eaton. Though the cards said "from four to six" the guests lingered on and on, and the band of the 110th Irish Regiment was still playing lovely airs when the hands of the clock were verging on toward seven. But the day was perfect, the velvet lawns, with their borders of glowing color, ensnared the feet of those who paced them, and the personnel of the party — which was given for the members of the Academy of Medicine and their wives and the members of the Ontario Medical Association and their wives—was unusually interesting. Lady Eaton, who has unfortunately not been well, was not able to be present and receive her guests, and Sir John did the honors, receiving under a marquee near the entrance gate on Spadina road, and with him in the receiving line were his mother, Mrs. Timothy Eaton, Mrs. Stuart Cameron of Peterboro, Mrs. Fred. Marlow and D. Cameron, with Dr. Fred Marlow introducing the various medical celebrities to their host. The invitation list was a large one and included the Lieutenant-Governor and Lady Hendrie, Miss Hendrie, Brig.-Gen. Gunn and Headquarters Staff the Mayor of Toronto and Miss Church, the Lady Superintendents and staffs of the civic hospital.

TURN HAIR DARK WITH SAGE TEA

If Mixed With Sulphur It Darkens So Naturally Nobody Can Tell

The old-time mixture of Sage Tea and Sulphur for darkening gray streaked and faded hair is grandmother's recipe, and folks are again using it to keep their hair a good even color, which is quite sensible, as we are living in an age when a youthful appearance is of the greatest advantage.

Nowadays, though, we don't have the troublesome task of gathering the sage and the mussy mixing at home. All drug stores sell the ready-to-use product, improved by the addition of other ingredients, called 'Wyeth's Sage and Sulphur Compound' It is very popular because nobody can discover it has been applied. Simply moisten your comb or a soft brush with it and draw this through your hair, taking one small strand at a time; by morning the gray hair disappears, but what delights the ladies with Wyeth's Sage and Sulphur Compound, is that, besides beautifully darkening the hair after a few applications, it also produces that soft lustre and appearance of abundance which is so attractive.

ANNUAL MEETING CANADIAN CLUB

G. O. CAMERON, PRESIDENT FOR CURRENT YEAR—BALANCE OF $89.55.

At the annual meeting of the Canadian Club last night, at which the president, Col. D Walker presided, secretary-treasurer V. J. McElderry submitted a detailed report of the year's work. The club has a cash balance of $89.55 in the bank after all liabilities had been met and the total membership is now 126. On motion of Mr. J. E. Goodwill, the executive committee were instructed to take up the question of offering prizes to school children for patriotic essays.

Mr. C. E. Coleman suggested that the Club seize every available opportunity and plan with a view to helping on the work of reconstruction, now the most important problem of the day.

Following the usual custom the officers were advanced one grade, the report of the nominating committee being submitted by Mr. H. R. H. Kenner and unanimously adopted. The officers for the current year are as follows:

Hon. President—Duncan Walker.

President—G. O Cameron

1st vice President—Hamilton Munroe.

2nd vice president—V. J. McElderry.

Secretary treasurer—B. D. Hall.

Executive—James Hamilton, P. P. Westbye, Alex. McGregor, F. D. Craig, J. W. Fraser, W. M. Cruthers, Alex Mowat, Alex Weddell, Dr. J. F. Middleton, and ex-officio—Dr. G. S. Cameron, J. E. L. Goodwill and W. R. Morris.

As President Cameron is now regarded as one of the best after dinner speakers in the city the Club has every reason to congratulate itself upon his promotion to the presidency.

THEY ACTED in TIME

During 1917, twenty men, all hale and hearty insured their lives in the Sun Life of Canada All paid the first premium, none lived to pay the second.

They paid a total of $5078.26 and their beneficiaries received $74,212.60.

The records for 1918, owing to the ravages of the "Flu," will show the above record repeated many times, and all such acted in time.

What are YOU going to do about it? Act in time or be forever TOO LATE.

The Sun Life of Canada paid these claims willingly and promptly and will do the same for your loved ones IF YOU ACT IN TIME.

LEGISLATE FOR THE MASSES

AND NOT A CLASS IS LABORER UNION'S DEMANDS

The City Council Chamber was crowded to the doors last evening by workingmen, present in support of the Laborers' and Carpenters' request for recognition by the council of their unions, their scales of wages and the 8-hour day.

There were but two spokesmen for the Unions affected, and they were commendably brief, the ground having been pretty thoroughly gone over with Council in previous sessions.

T Tooms contended that the laborers' demands acquiesced in there would be no adverse criticism from citizens. "We have," he declared, "the sympathy of the majority of the whole community. In adopting the 8-hour day Peterborough would be setting no precedent, as the measure had been already accepted by many other municipalities." He said the laborers are advocating a principal of cooperation and service and he appealed for action by Council to assure the greatest good for the greatre number.

Legislate for the Masses

Thomas Lane, for the carpenters in reply to Ald Turner's stand that meeting the unions' request would mean class legislation, held a contrary opinion. Admitting the contention that war conditions had swollen the estimated cost of the bridge to a point beyond the possibility of construction with the money available, were union wages paid, he argued that that was no reason why workingmen should bear the increased cost burden by acepting lower wages than living conditions called for. "Let the ratepayer vote the additional money needed. Mr Lane characterized the city wage claue of 40c and 60c class legislation in favoring industrial employers alone, and directly opposed to the interests of workingmen, who are the masses of the people (cheers).

Later on, Council voted the Unions their demands, as published under another heading.

LITTLE HOPE OF

(Continued from Page One.)

Ottawa, May 29.—Asked why he stated in the House of Commons the other day that it was not in the power of the Federal Parliament to enact an eight-hour day, Hon. A. K Maclean, representing the Department of Labor in the House, stated that the British North America Act did not give the Dominion such powers. Asked if that meant that the representatives of Labor should therefore direct their efforts toward the Provincial Legislatures and Governments rather than to Ottawa, he replied that it would appear so.

"If the Dominion Parliament can create a Department of Labor with certain functions regarding Labor, is it not also within its power to set forth certain principles for its guidance?"

"The Department of Labor's methods are conciliatory, not mandatory, said the Minister.

"Did not Sir Robert Borden sign with other representatives of the great powers Labor clauses expressing agreement with the eight-hour-day principle?"

"Yes. They all expressed their general agreement with the idea, and will work to bring it about as soon as industrial conditions nationally and internationally make it feasible."

Great interest is being taken here in the delegation from Toronto. The demand for a forty-four-hour week is leading members to discuss animatedly the effect on the various industries with which they are familiar. Opinion seems to be general that, while it would be workable in some highly specialized industries capable of great speeding up, it would be suicidal for industries using machinery and processes on which speeding would be harmful.

No Change at Winnipeg.

Winnipeg, May 29.—The general strike situation seemed to be unchanged in Winnipeg this morning, although there was a persistent report that the strike forces were preparing to make public a new plan for a compromise settlement.

The engagement is announced of Helen Dayman, daughter of Mr. and Mrs. T. O. Rush of Peterborough, and Arthur Price Drummond, son of Mr. and Mrs. A. P. Drummond, of Montreal, Quebec. The marriage will take place in All Saints' Church on Wednesday, June 11, 1919.

AIR AGE HAS ARRIVED

BIRDMEN WILL LINK CITIES OF THE WORLD.

Much Has Already Been Accomplished by the British Aviators and Preparations Are Being Made for Trans-Atlantic and Trans-African Flights in Near Future—Round the World Trip to Come.

SCORES of modern prophecies dealing with the coming Air Age have been widely circulated in print, from Kipling's "The Night Mail" to the latest interview with an aircraft magnate. So much for words.

Meanwhile airplanes of the Royal Air Force have blazed the trail from London to Egypt and India, while minute preparations are being made for trans-Atlantic and trans-Africa flights. For some time postal and passenger aerial services (for military and official use only) have operated between such centres as London and Paris, Salonica and Sofia and Constantinople, Cairo and Damascus, besides almost daily aerial communication between the war capitals of Europe and their respective fronts. Before the armistice important cities in enemy countries were linked up systematically by air routes (Berlin Vienna, Berlin-Cologne, Coblenz and Frankfort, Vienna-Budapest, Vienna-Sofia, Sofia-Constantinople, and even Constantinople-Aleppo.)

Moreover, the period of waiting for the inauguration of public air services (as apart from the purely official ones) between London and Paris and Paris and Brussels is only a matter of a mouth or two Similar air services are about to be opened up in the United States. So much for deeds.

All this has captured the imagination of the public. Large business firms are investigating the possibilities of aircraft in relation to their own needs; seaside municipalities are planning pleasure flights in the summer; individuals who would like and could afford machines of their own are interested in the cost, running and garaging of private aircraft.

As for the average layman, the experts' prophecies seem to have given him the impression that an age of aerial miracles has dawned, that a *trans*-Atlantic flight may be made any day, and a round-the-world flight any week, and that very soon he may be able to fly in comfort to Rome, New York, Constantinople, Cairo, Delhi and Cape Town.

It is obvious that in years to come the big aircraft companies will have wealth, status and prestige equivalent to those of the present-day big shipping companies. Nobody sees this more clearly than the aircraft directors, who are backing themselves as prophets, and spending money lavishly without expectation of large immediate returns, but with the certainty of large ultimate returns.

At present they can give no definite estimates, for their hands are tied by the present general uncertainty. Before the far-reaching plans of the civil aerial organizers can begin to materialize there will be many all-important points to settle. All sorts of war-time restrictions must be removed, the use of airdromes by every accredited pilot must be permitted, many more airdromes must be constructed, and international laws must be framed and international laws must be framed in respect of the control of the air above any given country, of customs control, and of the prevention of aerial smuggling. It is probable that an International Air Conference will meet at Paris early in the spring to settle these points.

Afterwards inter-European postal and passenger services can come into being on a regular basis. In view of the greatly increased speed, aerial posts are certain to pay their way, while long passenger flights are likely to be worth while for the same reason, even at the comparatively high fares which must rule for some time to come. To many a business man a trip from London to Paris and back in a single day or, say London to Leeds and back in a single day (in each case allowance time for an important business interview) would be much more than worth the increased fare.

As regards commercial freightage, the present heavy cost of engine fuel and many other difficulties make it unlikely as an immediate commercial success To take but one example, the Chief of the Air Staff pointed out that newspapers might send copy, stereotype, and photographs by air for simultaneous publication in widely distributed centres. to India and other long-range mail services will come—but by no means within the next few mouths. Where one airplane has gone, others may follow; and the Air Force is doing splendid pioneer service by opening up the air ways to Egypt, India, and Africa. But the amount of organization necessary before post and passenger services over such vast areas can be established is enormous. Air laws must be made, many regular and emergency airdromes established, adequate supplies of stores and fuel made ready, large relays of machines and pilots prepared, and arrangements made for the daily distribution of up-to-date meterological charts.

For the rest we must not expect too much too soon, nor believe that aircraft will supersede ships and railways for many years. It should be realized, however, that a satisfactory development of commercial aeronautics must be a great gain to all commerce, and that, therefore, whatever public money is spent in the cause of British aviation will pay big dividends to the country in a few years' time.—The London Chronicle.

The National Council of Women, with its affiliated organizations, represents 10,000,000 women.

ADVERTISE IN THE REVIEW.

What About That Wasted Five per cent?

Most of us fritter away at least five per cent. of our weekly wages in trifles.

If we stopped to reckon it up, we would find it hard to remember where the money went.

If we could make that money earn more money without troubling to think out a plan or attend to details, we would consider that we had done a good stroke of business.

The Government has made it possible for us to do that. Here is the plan:

You say to your employer: "Every week I want you to hold back five per cent. of my wages and invest them in War Savings Stamps. When you have bought a War Savings Stamp with my money, put it in my pay envelope. Go on doing that for a year."

You will never miss that five per cent. which you had previously frittered away. But at the end of a year you will have a little package of Stamps which, in 1924, will be worth $5.00 for every $4.00 odd you pay for them now.

The guarantee of safety behind the War Savings Stamps is the whole Dominion of Canada.

In May W-S.S. Cost $4.04

In June W-S.S. Cost $4.05

BUY W-S S WAR-SAVINGS STAMPS

War Savings Stamps can be bought wherever this sign is displayed.

Make Your Savings Serve You and Serve Your Country—Invest Them in War Savings Stamps.

Marquis Saionji a Japanese Leader

MARQUIS SAIONJI, leading member of the Japanese peace delegation, has been for almost half a century a unique figure in Japanese politics, according to a Japanese correspondent of the London Times. The writer says:—

"Born of one of the proudest houses of the court nobility, he has been an enlightened and persistent advocate of liberalism. When the revolution of 1868 broke out—the revolution which overthrew the time-worn military autocracy of a feudal hierarchy and ushered in a new constitutional imperial regime, Marquis Saionji, though still a minor, found himself, in virtue of his birth and intelligence, in a position to take part in the great debate at the imperial court which decided the issue of the revolution. Soon afterward he was placed at the head of an imperial army sent to pacify nascent or open discontent. But when the new imperial regime was solidly established Saionji resigned office and honors and went abroad to study.

"From 1869 to 1880 he lived in Paris, studying law and literature and mixing with the young Radicals of the Third Republic. With some of them, for example M. Clemenceau, he contracted a lifelong friendship. At the same time he was much influenced by the writings and personal magnetism of the late Emile Acollas.

"On his return he found the political atmosphere uncongenial. The country was then dominated by the oligarchy of two great clans which had taken the largest share in the imperial restoration of 1868, and young Saionji, with the collaboration of a few others of like mind, issued a short-lived paper for the propagation of liberal opinions. On the other hand, he found in a leading member of the Government a kindred spirit, with whom co-operation in politics seemed possible. This was Mr. (afterward Prince) Ito. Between them there sprang up a lifelong friendship, Saionji sharing every important task undertaken by Ito, and, on the latter's retirement from active politics, becoming his successor in party leadership."

In 1882 Saionji went abroad as a member of the Ito commission to study the constitutional parliamentary working of European countries. Three years later he became Minister Plenipotentiary to the Court of Vienna, and afterward filled the same office at Berlin.

"By 1890, when the first Japanese Parliament met, he returned home and, in 1893, became Vice-President of the House of Peers, of which Prince (then Count) Ito was the first President. He was twice Minister of Education—in 1894-96 and 1896—in each case under the Premiership of Prince Ito.

"Political parties were growing in influence, and the mind of Prince Ito, the leading statesman of the day, was becoming rapidly convinced of the necessity of a national party. When in 1900 he announced the program of the Seiyukai, or Constitutional party, it was well known that Marquis Saionji stood behind him as his trusted adviser. In Prince Ito's first Seiyukai Cabinet Marquis Saionji became President of the Privy Council, and twice acted as Deputy Premier. In 1903 Prince Ito and Marquis Saionji exchanged posts, the former becoming President of the Privy Council and the latter the leader of the Seiyukai. During the Russo-Japanese War Marquis Saionji's leadership of the party was particularly brilliant. At its close, when a universal cry of opposition arose against the terms of the Portsmouth treaty, it was Marquis Saionji who, by a timely public pronouncement in its favor and by the weight of his personal authority, saved the country from a grave national crisis."

"Before the end of 1905, Marquis Saionji was recommended as his successor by Premier Katsura. The first Saionji Cabinet lasted till 1907, the noteworthy event of the administration being the nationalization of the railways. It was during his premiership also that the agreement with France, known as the Pichon-Kurino convention, and a similar convention with Russia were concluded. In 1910-12 Marquis Saionji became Premier for the second time in succession to Prince Katsura. The chief event during his second premiership was the death of the Meiji-tenno and the accession of the present Emperor. In this connection Marquis Saionji did good service in democratising the ancient court customs and usages so as to bring the crown and the people closer together. In 1915 he resigned his leadership of the Seiyukai, giving place to his able lieutenant, the present Premier, Mr. Hara."

An Old Saying.

The most popular explanation of the origin of the expression, "Everything is lovely and the goose hangs high," is this: That it comes from the southern country amusement known as "goose pulling." A goose, its neck carefully plucked and well greased, was hung by its feet to a branch of a tree, says an exchange. The men would ride past at a gallop, trying to catch it by the neck and pull its head off. The better the goose was in dodging the greater the fun. When the goose hung high, so that the competitors had to stand in their stirrups to grasp at it, the joy was greatest. Another suggested origin is that it refers to the fact that wild geese fly in clear weather; this explanation would change "hangs" to "honks."

Efficiency.

Efficiency experts have been studying files and find that the life of one of these tools, on the average, is 25,000 strokes. To employ a file for more than its normal period of usefulness, it is claimed, more than doubles the cost of the work.

The Flashing Frog.

There is a hideous reptile, known as the flashing frog, which angles for its game as expertly and with as great success as the most adroit fly fisher. He is a clumsy, awkward swimmer, but nature has compensated him for his unwieldiness by furnishing him with an equivalent for a rod and line, with bait always ready for use. Two elongated tentacles spring from his nose, which taper away like actual fishing rods. To the end of them is attached, by a slender filament, which serves the purpose of a line, a bait in the form of a shiny bit of membrane. The hooks are set in the mouth of the fisherman below, and in order to induce the fish to venture within reach of them, the angler stirs up the mud at the bottom with his fins and tail. This attracts the fish and conceals him from their observation. He then plies his rod; the glittering bait glows in the water like a living insect. The dazed fish are taken in great numbers, perfectly circumvented by the trick of the crafty angler.

Rev. Archdeacon MacIntosh has decided to stay in Guelph despite a tempting offer to move.

Siam's King Shuns Harem.

Young Monarch Proposes To Marry Only One Wife

IT is a curious fact that while the women of the lower classes in Siam have always enjoyed the greatest freedom, participating and competing with men in the business and pleasures of life, the ladies of the royal household have been kept in the background, appearing at only the most private social functions, writes Frederick Dean in the Magazine Asia. As all former sovereigns had in their harems the cream of the aristocracy of the country, and, as they inevitably felt a hesitant chivalry about exhibiting their "wives" in public, they barred all women of rank from sight.

KING OF SIAM.

The sovereign is expected to have in his harem a member of every influential family in the country, for it is considered that in no other way could he be in such close touch with the people of his kingdom. Polygamy has, therefore, been considered an obligation of royalty. But, curiously enough, the present reigning monarch is a bachelor, the first and only bachelor who has sat upon the throne of his fathers in twenty-five hundred years.

And thereby hangs a tale, for marriage by a Siamese sovereign has meant not the simple taking of one wife, or a dozen, or even a mere hundred, but the wholesale adoption of a thousand or more. The young king's father and his father's father, and each one of the long line of kings preceding them, had many wives. His father had between seven and eight thousand. And when the young crown prince returned from his long stay in Europe — he had passed a third of his life there—he was told by his royal father that there had been seected for him a number of court beauties, from which he could take his choice of a hundred or two for his harem.

But the prince would have nothing to do with this wholesale acquisition of a husband's holdings. "When I marry," he declared to his astonished father, "it will be to one wife and to no more, and she shall be the one queen of my heart and the one queen of my realm."

Rates for
Long Distance Service

THE new schedule of rates for Long Distance Telephone Service as approved by the Board of Railway Commissioners is effective May 25th.

¶ Following is a comparison of old and new rates for a 3-minute talk to points most frequently called by Peterboro subscribers:

	Old Rate	New Rate
Peterboro to Toronto ..	$ .40	$ .50
Port Hope	.25	.20
Belleville .	.30	.35
Hamilton .	.60	.70
Kingston .	.60	.65
Orillia	.30	.45

¶ The new rates, based upon air-line mileage, correct inequalities in the old schedule and embody both increased and decreased charges.

HAVELOCK

(Special Correspondence.)

Havelock, May 29. — Miss Mabel Pollock of Trent River is visiting Mrs. H. J. Pollock.

Mr. and Mrs. John White of Toronto were holiday visitors to town.

Mr. Jack Clark of Toronto spent the holiday and week-end at his home here.

Mr. and Mrs. Ross Richards of Toronto motored down for the holiday sports.

Messrs. Jesse Smith of Lindsay and Earl Green of Peterborugh were holiday visitors.

Miss Phyllis Peircy of Toronto spent the holiday the guest of Mrs. Harry Pollock.

Mr. Milton Williams has returned from Trinity College, Toronto, for the holidays.

Mr. and Mrs. F. Haig, Jr., of Toronto spent the week-end at their respective homes here. [redacted]

Mr. and Mrs. Harry Soanes of Tweed spent the week-end the guests of Mr. and Mrs. Sawyer.

Mr. and Mrs. Bound and family of Peterborough spent the week-end at the Armstrong House.

Mr. and Mrs. Caskey of Frankford were the week-end visitors of Mr. and Mrs. D. Kennedy.

Mr. Tim Dineen of Toronto spent the holiday and Sunday renewing old acquaintances in town.

Miss Mildred McDonald of Peterborough spent the holiday and over Sunday the guest of Miss Margaret Clark.

Mr. Frank Gendron of Toronto, who has recently returned from the front, is the guest of his sister, Mrs. M. Clark.

Mr. Thos. Barnett of Whitby and Miss Barnett of Toronto spent the holiday and over Sunday at their home here.

Mrs. M. Wannamaker and daughter Mary spent the holiday the guests of Mrs. C. W. Coon, and report a splendid time.

Mr. and Mrs. H. Johnson and baby of Winnipeg are the guests of the former's parents, Mr. and Mrs. John Johnson of town.

Dr. and Mrs. Kindred and Miss Madeline were in town on Monday and were accompanied home by Mr. and Mrs. Wallar.

Mr. W. J. Rose, Hydro Electric inspector for the Sudbury district, is spending a few holidays with his wife and child here.

Mr. and Mrs. Albert Armstrong of Toronto, accompanied by Miss Roxy McIlvena, motored down for the Saturday celebration.

Mr. Percy Cooper, who has been the guest of his cousin, Mrs. D. Kennedy, since coming home from the front, left on Sunday for his home in the West. All wish Percy every success and happiness.

Mr. and Mrs. Wm. Mathison of Montreal are the guests of the former's father, Reeve Mathison. Mr. Mathison is assistant superintendent of the old I. C. R. with headquarters at oBnaventure station, Montreal.

TORONTO TO NEW YORK CITY

A through train service from Toronto to New York city leaving Toronto 5.45 p.m. daily was inaugurated by the Grand Trunk on May 4th This train carries through coaches and sleeping cars and arrives at New York at the Pennsylvania Terminal 33rd Street, and 7th Ave Also train leaving Toronto 4.00 p.m. daily runs through to Buffalo making direct connections at Buffalo for New York, coaches and parlor, library, buffet car Toronto to Buffalo, sleeping cars Buffalo to New York and Philadelphia. The Pennsylvania station is so centrally located that it is a great convenience to the visitor to New York and is in easy reach of some of the latest hotels, also the shopping and theatre districts. There is also direct tube service to and from Brooklyn.

Three children of J. To'vonen were terribly disfigured by an explosion at Long Lake road, Sudbury.

Montreal City Council passed a resolution protesting against the atrocities suffered by Jews in Poland.

FIGURES
NEVER LIE

Figures sometimes lie, but never when viewed through a pair of Dr. Fowler's "PEBLO" Glasses. Without glasses you can't always be sure you see right, but with "PEBLO" Glasses on, correctly fitted by Dr. Fowler, the figures are so clear there can be no mistaking them. Don't make mistakes in figures because you have neglected your eyes.

ANDERSON TELLS OF BIG CHANCE

WIFE SO NERVOUS COULDN'T HOLD CUP OF COFFEE WITHOUT SPILLING IT—PRAISES TANLAC

"My wife's wonderful improvement is the talk of our neighborhood," said G. Anderson, who lives at 2550 Norton Ave., Kansas City Missouri, in conversation with a Tanlac representative a few days ago

"When she began taking Tanlac," he continued, "she only weighed one hundred and ten pounds and hardly ever enjoyed a well day, but now she weighs one hundred and forty-seven and is enjoying better health than she has in ten years. For years her stomach had been in such a bad condition that she couldn't eat without bloating all up with gas and suffering terribly with pain and palpitation of the heart. She was badly constipated and had headaches and pains in the back every. Her appetite was very poor and what she did eat seemed to do her no good as she was losing weight and strength. She also had an attack of the flu and this left her in a much worse condition than ever.

"She had tried every kind of stomach medicine we heard of but she kept getting worse until a lady friend of her who had gotten well by taking Tanlac, persuaded her to try it. Before she had finished the first bottle she had a good appetite and was able to digest her food better. Now she can eat just anything and says she never feels a sign of gas, bloating or pain afterwards. She was so nervous before taking Tanlac that she couldn't carry a cup of coffee without spilling it and would sometimes drop the cup. But now her nerves are in good shape and she sleeps every night just like a child. Her headaches and backache have left her and her housework seems to be easy for her. If anybody had told me Tanlac could do so much for my wife I wouldn't have believed them. It certainly is the finest medicine made and I am glad of the opportunity to tell the public about it."

Tanlac is sold in Peterborough by W. D. Warne Drug Co. Ltd., in Havelock by A. C. Denike, in Lakefield by Tanner Drug Co. Ltd., in Fowlers' Corners by W. A. Hunter, in Gelert by A. J. Scott, in Westwood by G. Pringle & Son.

WILL LOOK AFTER OTONABEE ROADS

MR. NICK DORIS APPOINTED SUPERINTENDENT AT COUNCIL MEETING.

On Monday, May 26, Otonabee council met pursuant to adjournment with all the members present.

The minutes of the last meeting were read and confirmed.

Moved by Mr. Anderson, seconded by Mr. Lawrie, that Nick Doris be road superintendent for the ensuing summer at $3.25 per day.—Carried.

Moved by Mr. Lawrie, seconded by Mr. O'Leary, that the following accounts be passed: Peterborough Examiner, printing, $47.71; J. S. Dickson, inspecting sheep worried by dogs, $2.00; D. O'Leary, work on road, $2.50; John Torpey, $22.00; Harry Harris, $2.50; Sam O'Brien, $40.00; G Adamson, $2.00; J. G. Hope, $1.00; Wm. Speirs, $2.50; A Rennie, sawing wood, $1.00.

Council adjourned till Monday, June 16.

The council then met as a court of revision.

Moved by Mr. Eason, seconded by Mr. O'Leary, that Mr Anderson be chairman.

The following appeals were disposed of:

David Armstrong appealed against over assessment on income. Moved and seconded by Messrs. Eason and O'Leary, that he be assessed for $450 instead of $500.

Fred O'Brien appealed against over assessment on east half of Lot 30, Con. 9. Moved and seconded by Messrs. Sargent and Lawrie, that he be reduced from $3000 to $2500.—Carried.

Court adjourned to meet again on June 16th.

Police Meeting Is Postponed

Chief of Police Thompson received the following communication this morning from Robt McClelland, the secretary treasurer of the Chief Constable's Association, Toronto.

" I beg to inform you that owing to conditions in Western Canada the meeting of the Chief Constable's Association called to meet at Calgary on the 10th, 11th and 12th of June is postponed. Ample notice will be given you when the meeting is to be held.

There are some things beyond the scope of the human mind, and wise is the man who is willing to let it go at that.

EXPERT SAYS PLUMBING WORK IS BELOW STANDARD

Edwin Newsome, of Toronto, Editor of the Sanitary and Heating Journal, is Here to Look Over the Local Field—What He Finds Wrong

That Peterborough was well on the way to the standard of the old cave-dwellers as far as sanitary arrangements are concerned was the opinion of Mr. Edwin Newsome, editor of the Sanitary and Heating Journal of Toronto. He came to this city at the request of several plumbers and others who knew that something was wrong with the present class of work being turned out and wanted to get expert advice on the question. It is just 31 years since Mr. Newsome completed his apprenticeship in England as a plumber, and up till six years ago when he took his present work in Toronto he was engaged in the plumbing and steamfitting business.

Yesterday at noon Mr. Newsome arrived in the city and imediately began his work of inspection. Seven places in all were visited and in every case the same thing was found —poor material and careless workmanship by what Mr. Newsome calls "botchers". At present no names will be published but Mr. Newsome declares that unless steps are immediately taken to remedy the disgraceful condition of affairs that he found the names of the building and the parties responsible for the work will be made public.

The material and workmanship that I have seen would not be allowed in any other municipality that had similar by-laws to Peterborough. The city should enforce its present by-law No. 1147, passed on May 16, 1905. Sub-sections G and K which deal with traps and vents seem to sult that there is no effective means of ventilation. Just what it means to have the poisonous gases slowly working their way up into even the best rooms of your houses is something to make one shudder."

Mr. Newsome then referred to the city of Boston which alone uses the Putman non-vented trap. During the recent epidemic of influenza it was the hardest hit city on the continent. London with its great tube systems running in every direction was forced to embed its sewer pipes in six inches of cement to keep them from breaking under the strain of excavation. When the influenza was at its worst the tube men, contrary to all expectations, were the only class of people that were practically immune from the scourge, although millions of people use the tubes every hour.

The smoke test, as called for in the by-law is not being used, nor is there any record in the office of the plumbing inspector to show that the permits called for by the by-law are either being asked for or granted. The result is that plumbers who try to keep the law are underbid by the botchers, and the latter, in order to make a profit, slight both the material and the workmanship. This smoke test must be given free on every piece of new work put in and acording to the present by-law can be obtained for $5 at any future time on application to Mr. Peter Thompson, the plumbing inspector. This same smoke test now costs $25 in the city of Toronto.

BRIDGE BUILDING

(Continued from Page One.)

ommends acceptance of the highest tender based on 40c and 60c an hour for laborers and carpenters, and we have a lower tenderer on a lump-sum contract who guarantees union wages at 45c and 67½c.

Ald. Morrison: "How about the wage clause, Ald. Phelan?"

Ald. Phelan: "I'll stand by the wage clause in the report, and will discuss that later on. My motion is on the bridge clause alone."

Ald. Morrison: "We're not prepared to let that wage clause stand."

Supports Conroy.

Ald. Phelan here spoke warmly in support of Mr. Conroy, whom he declared had all the qualifications necessary for building the bridge. He is financially strong, and can have all the money he needs from the Royal Bank; he is willing to take in payment our debentures, at their fixed rate, on the certificate of the engineer; he is a local man, and I can't see why, under Mr. Barber's competent inspectors, he could not do the work satisfactorily. Why throw away $820,000 in giving the contract to an Hamilton firm? Reverse the case; were it a Hamilton bridge in question, would Hamilton go outside for a contractor? No; a Hamilton firm would get the contract under similar conditions to those here.

Ald. Phelan would not embody clause 10, the wage clause—in his motion—and Ald. McIntyre withdrew as seconder, saying, "I'm for Conroy and he wil pay union wages."

The Mayor: "It's easy enough to make promises. We've had trouble with Conroy before."

Question of Rating.

Ald. Gainey here enquired of the Mayor as to the Canadian Engineering and Contracting Company's financial rating.

The Mayor: "Good; Mr. Magee, one of the firm, is a millionaire."

Engineer Barber: "They are rated in Bradstreets' at from $150,000 to $200,000."

Ald. Taylor: "Dunn's rate them at $20,000 with a good standing. Conroy has no rating."

Ald. Turner here seconded Ald. Phelan's motion to withdraw clause 13 alone from the Board's report.

This was lost on the support alone of the mover and seconder.

Ald. Morrison and Garside moved that clause 10 alone be struck out.—Lost on the support of Ald. Morrison, Garside, Gainey and McIntyre.

Ald. Gainey and McIntyre moved that clauses 10 and 13 be struck out of the report.

This was defeated on a division of the mover and seconder and Ald. Garside against the rest of the Council.

Ald. Hamilton and Edgar moved that the Board of Works' report be adopted as read, leaving in the clauses in dispute.—Lost on a tie vote.

Later on in the evening, in general business, another and conclusive break was made at the wage question and the Board of Works' recommendations in that regard and in reference to the bridge contract.

Ald. Phelan started the ball rolling by moving that the maximum wages paid by the city for laborers and carpenters be 45c and 65c, respectively.

He had no seconder to this as to this "maximum" wage. Ald. Phelan did not think, for instance, the man on street work, say, should get as much as the man working in sewers.

Ald. Taylor and Morrison moved that clause 10 in the Board of Works' report the wage clause—be struck out. Carried on the following division:

For—Ald. Taylor, Morrison, Phelan Edgar, McIntyre, Garside, Gainey.

Against—Ald. Hamilton and Turner.

Ald. Gainey and McIntyre moved that clauses 10 and 13 be struck out —both wages and contract clauses. Lost on the following division:

For—Ald. Gainey, McIntyre and Garside.

Against—The remainder of the Aldermen.

Ald. Taylor and Morrison moved that the Board of Works' report be adopted as amended by striking out clause 10, referring to wages and leaving in clause 13, recommending awarding the contract. Carried on the following division:

For—Ald. Taylor, Morrison, Edgar Turner, Hamilton.

Against—Ald. Phelan, Garside Gainey, McIntyre.

Labor Gets Demand.

Ald. Gainey and McIntyre moved that the city pay its outside laborers and carpenters employed on the bridge, the following wages:—Laborers 45c and carpenters 67½c an hour, for an 8-hour day. Carried on the following division:

For—The mover and seconder, Ald Morrison, Garside, Edgar and Phelan

Against—Ald. Hamilton and Turner.

While the result of the foregoing resolutions gave the bridge contract to the Canadian Engineering and Contracting Co., the subsequent shelving of the bylaw, as before referred to, nullified all action in his regard.

The men's wages, however, are now fixed at 45c for laborers and 67½c for carpenters; hours, 8 each day.

No Doubt of Span.

To Ald. Phelan, Engineer Barber said that the contractors' guarantee bond of $50,000 was quite sufficient as to the centre and in the bridge as to the centre arch in the bridge, there would be no risk. Barings have been taken for the piers and the foundation on which they would rest found to be bed-rock. The methods of construction and an analysis of the arch itself have been approved by the Board of Railway Commission. In regard to the lasting qualities of such a bridge as proposed, there is no case in which a concrete bridge after it stands on year does not promise to stand for generations. Concrete gets stronger with age.

MILLBROOK

Millbrook, May 28. Pte. Les Brislow's many friends will join with us in extending to him a warm welcome home from overseas.

Miss May Duncan was a guest of Peterborough friends on Saturday.

Ptes. George Freelove and Arthur Donaldson and Sergt. Muspratt were at Kingston last week to meet their friends of the 21st Bn., and attended the big celebration and banquet at which oer 1200 returned men were present.

Mr. William Porteous is a guest of his son at Nestleton.

Mr. Percy Jewison and Miss Lila Jewison of Toronto, were guests of Mr. and Mrs. H. Nattrass, over Sunday.

Mrs. McAllister and babe of Marysville, are guests of Mr. and Mrs. G. W. Sayles.

Mr. and Mrs. Charles Stanton and babe, of Peterborough were guests of Mr. and Mrs. R. E. Stanton over Sunday.

Mr. and Mrs. R. E. Richards and babe, Mr. H. Richards and the Misses Cordie and Gertie Richards motored to Port Perry on Sunday.

Mr Albert and Miss Betty Lee, of Oshawa, were guests of their parents Dr. and Mrs. Lee over Sunday.

Mr. and Mrs. Jack Nattrass and son of Toronto were guests of Mr. and Mrs. H. Nattrass on Saturday.

Messrs Norman and Esmund Dunford of Oshawa, were guests of Millbrook friends over Sunday

Messrs Lloyd Newton and Gerald Clarke and the Misses Vera McCobm and Phyllis Richards motored to Bethany on Saturday.

Mr. and Mrs J. H. Wilson and the Misses Bennett and Hazel Wilson of Port Hope were guests of Mr. and Mrs. C. W. Richards over the holiday

Mr. Earle Southeran of Toronto was a guest of Mr. and Mrs. John Steele on Saturday.

Mr. and Mrs. Cecil Wilgar and sons, Stewart and George of Toronto are guests of her mother ;Mrs. William Carveth.

Messrs J. H. Wilson, C. W., C. A., and B. L. Richards, motored to Emily on Saturday and were guests of Mr and Mrs. R. H. Casey.

Mrs. Bentley, sr., has returned from a visit with friends in Picton and is much improved in health.

The many friends of Mr. Holmes will be pleased to learn that he has returned from an extended visit at the coast. He is a guest of his daughter, Mrs. (Rev.) C. R. Spencer.

Mr. Bruce Fitzgerald of the Bank of Toronto, Port Hope, was a guest of his mother over the holiday.

Mr. Walted Harkness of Toronto was a guest of his parents, Mr. and Mrs. T. Harkness over Sunday.

Mrs. E. Hillin, of Buffalo, and the Misses Bessie Rogers and Marie Kelly, of Toronto, were guests of Mrs. Janes over the 24th.

Mr. John Guthrie was a visitor to Peterborough on Saturday.

Messrs F. J. Sandy, J. H. Thorne, William Veals and Arthur Pogue of Omemee, motored to town on Friday.

Mr. and Mrs. G. W. Sayles and Mr. and Mrs. W. West motored to Peterborough on Empire Day.

More Heroes Returned

Pte. Charles Sanderson enlisted with the 93rd Bn., in Oct. 1915 and left Kingston for England, July 12th 1916, on the S.S. Empress of Britain and to France in October of the same year. Charlie was eleven months in the trenches, having gone "over the top" at Cologne, Vimy Ridge and Hill 70, with the glorious 21st Bn., in 1917, since which time he has been on transport duty. We join in extending him a warm welcome to Pte. Sanderson.

Pte. Taylor Returns

Pte. Alfred Taylor's many friends will join in extending to him a very warm welcome home. He was one of the first in this district to report for duty after the war was declared. He enlisted in October, 1914, with the 21st Bn., which has made a glorious record during the war. He went overseas on the "Metagami" in May 1915, and to France, Sept. 12, 1915. He was twice wounded with shrapnel in the left leg. Once at Vimy, April 15, 1917 and at Arras in Aug 1918 He was in Hospital and Convalescent Hospital untill he left for home, sailing on the "Royal George." He was "over the top." in all the big scraps te 21st went through and they were many and furious. He is at present with Mr. and Mrs. J. W. Hamilton, who are all delighted to have him home again.

Gas Corp Eric Lefroy

The many friends of Eric Lefroy will be pleased to join us in extending to him a hearty welcome home. Eric enlisted in the Royal Horse Artillery in July 1916, was transferred to the 54th Bn., in Sept. 1916, when he went to England on the Cameron. He went to France in August, 1917 and was transferred to Trench Mortar Bn just before the big drive in March, 1918. While preparing shells up the lines he was badly burned about the hands and face by a guncotton explosion. He was two weeks in a French Hospital and was then removed to England where he spent seven months in hospital. He was in at Kinmel Park when the armistice was signed. He returned on the Cassandra which docked at Quebec.

Pte. E. W. Powell

Pte. E. W. Powell another hero of the war arrived home recently He enlisted in the 169th Bn. in 1915 went overseas in 1915 and to France in the fall of the same year. He was wounded at Vimy Ridge in February 1918.

Mr. Vincent Nattrass of Toronto was a guest of his cousin, Mr. Ernest Burnham over Sunday.

Mr. R. J. Hutchinson was a guest of Mr. and Mrs. Alf Gilmour at Carmel on Sunday.

Mr and Mrs. Hiram Fallis were guests of Mr John Morton on Sunday

The business and devotional meeting of the Girls' Auxiliary of St. Thomas' Church was held at the home of the President, Mrs. Westmacott on Thursday, May 22. After the various reports and prayers were read, Mrs. Westmacott read the report of the annual meeting in Toronto which showed that all the departments had met all the different expenses. The members brought their pounds of groceries to go to the bale to be sent to the Shingwauk Home, Sault Ste. Marie. Will those who have not sent in their pound kindly do so this week. The meetings will be discontinued till October.

The drama 'Diamonds and Hearts.' given in the Town Hall, Millbrook, on the evening of Empire Day, by the Pontypool Dramatic Club, was well attended and thoroughly enjoyed Each one of the several artists took his or her part in a most creditable manner The musical part of the program was excellent and the recitation by Rev. Capt. Andrews, entitled "Driving the Cows Home," was greatly appreciated. The Women's Institute with Miss E. F. Gillott, pres. and Mrs. Fred Smith, secretary, deserve the thanks of the people of Millbrook and vicinity for giving them the opportunity of hearing such high class talent.

United Farmers' Entertainment

The social evening held in the Town Hall, Millbrook on Friday May 23, was very largely attended. The program was varied and interesting. Splendid educating addresses were delivered by Messrs F. G. Sandy of Omemee, Cowan of Peterborough, Warden Henderson, N. Staples and the Chairman, Mr. S. S. Staples. Delightful musical numbers were rendered by Miss K. Lancashire and Mr. M. Staples. The accompanists were Miss E. Elson and Mrs. M Staples. The National Anthem was the final selection of a real enjoyable program after which a dance was held.

Other Makes of Wheels

are advertised to run easy, but when it comes to a show down the

IVANHOE

HAS THEM ALL BEAT. If Graham Eastwood, an inexperienced man who had never raced before, could win all the bicycle events at the G. W. V. A. races on the 24th, riding against tried and trained racers mounted on other makes of wheels, there is not much the matter with the running qualities of Ivanhoe Bicycles. See that your next wheel bears this name-plate.

THEATRICAL

STARDOM AND FIVE DOLLARS SUM TOTAL OF HER ASSETS

What Ethel Barrymore, Who Will Be at Grand June 5th, Had of Worldly Goods the Night She Became Famous.

Monetary affluence does not always come with early fame. Fortune may travel shortly behind the latter but at time [illegible] has journeyed far before the [illegible] has caught up.

It was the night of the first performance of Clyde Fitch's comedy, "Captain Jinks," at the Walnut Street theatre in Philadelphia. Managers, Playrights, Critics and Society were present en masse, for the event had been much talked of The vast audience studied its programme and waited for the curtain to rise. It was a cast gathered by Charles Frohman and was studied with names famous in the theatre. But opposite the character of "Madame Trentoni" there was printed modestly the name of Ethel Barrymore. The latter cognomen meant nothing to the audience, save where here and there in the auditorium an older playgoer would say musingly, "Barrymore? Didn't Maurice Barrymore and Georgie Drew Barrymore have a girl? Can this be she?" But the one or two questionings were stilled and the nonentity, Ethel Barrymore, forgotten as the time approached for the beginning of the new Comedy by Claude Fitch, then at at the very zenith of his fame and popularity.

Back on the stage, a little after eight o'clock with the scene already for the first act and the orchestra crooning away the last strains of the overture, the actors passing up and down nervously on the stage, the Barrymore girl rushed out of her dressing-room and laid her hand pleadingly on the arm of the stage manager as he was about to signal the rise of the curtain.

"Don't," she said; "please wait one second."

She sent for the manager of the company, an old man of the business and when he came she said to him beseechingly: "I haven't any money; do you think you could let me have five dollars until salary day?"

"Five dollars," roared the crusty old manager, "do you know how many people there are in the house No?

"Well, look through there," and he directed her to the peekhole in the curtain. The actress looked out expecting to see a half empty house only to find it packed from pit to dome.

"Here is your five dollars," said the manager, "and here is tonight's programme."

It read:

Charles Frohman
Presents
ETHEL BARRYMORE
In Clyde Fitch's Comedy
"Captain Jinks"

Thus Ethel Barrymore became a star on the very stage that her family had made so prominent and put an end to the financial woes she had encountered during her earlier ambition to become a famous pianiste. The success of Miss Barrymore in "Captain Jinks", and her success since that debut into stellar honors, is theatrical history but affluence has not made Ethel Barrymore any less human and lovable than when she was the slip of a girl almost frightened at the tremendous sensation she had created and the popularity that followed.

It is common knowledge that Miss Barrymore's first ambition was to be a great musician. She began the rudiments of her study at her convent school in Philadelphia and later studied under two of the most famous masters in New York. Only the necessity for money, and her subsequent adoption of the stage as her career, following in the footsteps of her ancestors, interrupted her devotion to the piano. She was about to go to Europe when, at the age of fifteen, she made her first appearance on the stage in the company of her grandmother, the dowager Mrs. John Drew, playing a small role in that splendid old artiste's production of "The Rivals." In the latter classics Mrs. Drew is considered to have been the greatest of all Mrs. Malaprops. That Miss Barrymore's musical studies were not in vain, those who heard her play in "Tante" a few seasons ago, and last winter in "The Lady of the Camellias," enthusiastically bear witness.

Miss Barrymore will be seen at the Grand Opesa House, for one performance only, Thursday evening, June 6th, in R. C. Carton's new comedy, "The Off Chance."

Keith Vaudeville Feature Pictures At The Grand

The best that can be secured in the vaudeville line will be presented at the Grand today, Friday, and Saturday, with a matinee daily. The feature act will be the Van Brothers, a pair of happy dispositioned chaps. Both are born musicians, and have a natural gift of being able to amuse an audience, entertaining them first with classy music and presenting an unusually clever comedy offering entitled "Get 'Em and Hold 'Em." The Gertrude Dudley Co. will be seen in an offering of youth and pep consisting of Class and Jass. Miss Dudley is a remarkably fine vocalist. Her success in musical comedy will be remembered by many theatregoers of Peterborough. Mr. Dudley is a pianist of great ability and a song writer who has given a host of successful popular songs to the world. In their offering all of the songs are written by Mr. Dudley and therefore are restricted.

The Yattos, great exponents of sensational and society dancing, will present several original dancing numbers, and it is safe to say that no better balanced vaudeville bill could be presented anywhere at the Grand's regular scale of prices: 10c and 15c matinees; 15c and 25c, evenings.

The famous Clara Kimball Young and her own company in "The Reason Why," with the feature picture and Charlie Chaplin in "The Flirt" will complete this special bill.

AT THE GRAND

The Ernie Marks Stock Co., supporting Ernie and Kitty Marks, played twice yesterday to capacity houses at the Grand.

"The Boss" was the offering at the matinee performance and in the evening a splendid comedy-drama entitled "Kick In" was put on.

The Marks Co. is well known to the people of Peterborough and always draw full houses, last night being no exception. Their acting was good and all were letter perfect in their parts.

Between the acts some very good vaudeville turns were introduced. Archer and Garlow have a musical act; the Newtons, in songs and comedy patter; Ed. H. Stauffer, ballads, and Will L. Phillips, in some original songs.

COMES DIRECT FROM FRANCE

NOTED ACTRESS HERE WITH ETHEL BARRYMORE ON JUNE 5TH.

Marcelle Roussillon, the young French actress who will be seen here in the support of Ethel Barrymore in her forthcoming local engagement in "The Off Chance," hails from the Palais Royal, Paris, and has played also in Egypt, Belgium and Turkey, coming to this country for a special engagement direct from France. M'lle Roussillon started in to learn English, and later was engaged for the role of Me'de Bianca with Miss Barrymore, originating that part at the Empire Theatre, New York. Followed engagements in motion pictures in support of various stars and most recently of Florence Reed, the United Pictures Theatres Inc. star.

On the conclusion of her latest picture M'lle Roussillon was re-engaged for her original role in "The Off Chance," which she will play here June 5th.

CARRIE NATION.

Lady With the Hatchet Is Now a Heroine.

"Great reforms are not easily won, nor are they ever won without resort to methods of a nature to arouse and disturb the self-satisfied and contented," comments the Christian Science Monitor, introducing a brief appreciation of the part played by the late Carrie Nation in the prohibition movement. Reform pioneers are likely, as she did, to make themselves both ridiculous and disliked. Time may convert them into popular heroes, but while they are actively engaged in the work that is destined to make them blessed hereafter, they are considered demagogs or fanatics, or, at least, public nuisances. The Monitor presents as typical the case of the lady with the hatchet:

Carrie Nation caused a great deal of annoyance in Kansas, a state that meant very well, indeed, but that was content for a long while with merely meaning well. Having become a prohibition state in 1880, many of its people thought it had gone far enough. The liquor interests were shipping intoxicants into the state regularly from Nebraska, Iowa, and Missouri, and in some parts of Kansas distillers and brewers did not even take the trouble to mask or conceal the traffic by resorting to the "speak-easy" or the "blind-pig."

Carrie Nation was a daughter of Kentucky, a state once noted for its distilleries. She had married, in her girlhood, a man who had become addicted to drink, and this had destroyed their happiness. The loss of her husband filled her with intense aversion to the saloon, and she determined to devote her life to the work of arousing public antagonism against the barrooms. Removing to Kansas, she married David Nation, who sympathized with her prohibition tendencies. At first she went about her work in an argumentative fashion. She would enter barrooms and address the proprietor, the bartender and the patrons.

But she soon realized that little real progress was being made, and that, while obtaining a great deal of notoriety in the press, she was making very little headway in the matter of arousing the better element of the public to a recognition of the real meaning of her work. So she decided to make a departure. Armed with a hatchet, she entered the elaborately appointed barroom of the Carry Hotel in Wichita, on December 27, 1910, and proceeded to "smash" her first saloon. Before she could be stopped she had irreparably injured some of the highly polished and costly furniture. Going to another saloon she repeated her performance. In the following months she "smashed" saloons by the score, not only hacking the furniture but breaking the mirrors and glassware.

Thousands of people of the contented type in Kansas were, as a result of Carrie Nation's crusade, surprised to learn that there were so many saloons illegally wide open in that state. Her activities exposed other conditions of which the complacent were ignorant. She produced evidence for the anti-liquor movement that was invaluable in legislative investigations. The people of Kansas as a whole began to demand that the day of farcical prohibition should be brought to an end. New and stringent laws were adopted and, better still, enforced.

Carrie Nation saw the barrooms of Kansas not nominally but actually closed, and then she entered Nebraska and other states, even going as far as New York on her lecturing tour. But those who spoke most slightingly or deprecatingly of her while she was wielding her hatchet were compelled to admit, when she laid it down, that through sheer pluck, as well as moral courage and persistence, she had accomplished her self-imposed task.

Seaweed.

Experiments with alimentary seaweed as a substitute for oats in feeding horses seem to prove conclusively the worth of the seaweed. The tests were conducted in France under the supervision of Government veterinarians, and horses fed with seaweed fattened more rapidly than those having regular rations of oats. The seaweed, it is said, grows in abundance on the Brittany coast.

What France Suffered.

The total damage in the north of France, including buildings, agriculture, furniture and public works, is estimated at 64,500,000,000 francs, or about $13,000,000,000.

FORAGE CROPS FOR PIGS

Raise All the Dairy Calves You Possibly Can.

We should Strive to Double Our Cow Population in the Next Ten Years —More Immediate, and Larger Cash Returns, Secured by Sale of Milk Than of Cream Where Location Is Favorable.

(Contributed by Ontario Department of Agriculture, Toronto.)

FOR the farmer who is raising hogs, one of the greatest problems is summer pasture. A new luxuriant growth of green grass is soon eaten off when the dry hot season comes and it is just at this time when the stockman needs some form of succulent feed for his stock. When the stock are running on pasture they are getting back to nature and there is nothing like good green feed as a conditioner for the animals.

As for forage crops in this country alfalfa and rape seem to give the best results, although anything that will produce a good green growth in a dry season is all right. Wherever alfalfa will grow it gives the best kind of permanent pasture for pigs, as there is no danger from bloat as is the case of sheep and cattle. Alfalfa provides pasture for a greater length of time than any of the grasses and is green and succulent even when red clover has become somewhat dried and woody.

Heavy pasturing of alfalfa is not good for it and consequently the number of animals allowed to pasture on it should be restricted and the plants should be allowed to grow up and be cut two or three times a season. Pigs, fed corn alone on alfalfa pasture, make fairly satisfactory gains since the protein in the alfalfa helps to balance up the deficiences in corn, although for best results a little of some nitrogenous concentrates should be fed. Red clover in the country gives very excellent results as a pasture for pigs, for the reason that it can be grown in a great many localities where alfalfa cannot be raised at all and consequently it's great value. At one of the Experimental Stations in the States, red clover was inferior only to alfalfa, while at another it was found that it was surpassed only by alfalfa and rape.

As an annual pasture for swine nothing surpasses rape. It can be sown both early and late in the season and as a consequence forage may be provided for at any time. To get the best results from rape, it should be sown in the spring and allowed to obtain a height of twelve to fourteen inches before turning the animals in. Care should be taken not to allow the plants to be eaten off too closely as the young plants do not get a chance to recuperate. To guard against this it would be wise to provide a second plot where the animals could be turned in for a time. Rape is also grown in conjunction with oats or with oats and field pease, and some authorities rank rape and oats next to alfalfa and red clover for pig pasture.

For young pigs in pasture it is not wise to force them to subsist on what they can get. They should be fed a little grain. Pigs that are being pastured for the purpose of fattening latter should have a limited grain ration, as this system of feeding has been found most economical. —J. C. McBeath, B.S.A., O. A. College, Guelph.

Shall I Rear Dairy Calves In 1919?

In brief, raise all the heifer calves for which there is feed, labor, and stable-room. More and better cows are needed in Ontario. The number of milk-cows in the province has remained stationary at about one million, for a good many years. There is no good reason why this number should not be doubled in the next ten years, but it can be done only by rearing or buying. Buying cows is expensive and risky. It is a far better plan to raise cows. This means that all the best heifer calves should be saved for future cows. As it requires from three to four years to change calves into cows, in order to double the cow population in ten years, making allowances for necessary discards, we need to begin right away, in order to attain the desired object.

The average number of cows per 100 acres of farm land in Canada is but two, whereas in Denmark it is fourteen, and in Holland sixteen. We have a long way to go in rearing cows, before we have anywhere near the number which are found in the best European dairy countries. There is but one economical way to attain this result, and that is by raising practically all the heifer calves dropped during the next ten years and as many pure-bred calves of excellent ancestry, as may be required for breeding purposes.

Shall I Sell Milk or Cream?

This will be determined to a large extent by the character of the farming operations. If the need for direct, quick cash in largest amount, is great, then selling milk will best "fill the bill." On the other hand, if the dairy farmer can afford to wait for the slower returns from cream and live-stock, and particularly if he desires to improve or maintain soil fertility, then selling cream is to be recommended.

Nearness to market is another factor. Where the dairyman is near a small town and had the time to "peddle" milk, he can make more money out of his cows than by any other system. At ten to twelve cents a quart, a good cow will return from $250 to $300 per year for her milk. When this is compared with $100 to $150 per cow, where cream is sold, or milk sent to a cheese factory or condensery, we see what a decided money advantage there is in selling milk to customers direct. — Prof. H. H. Dean, O. A. College, Guelph.

War and Human Nature.

Referring to the oft repeated claim that there can be no such thing as universal peace, because war is a phase of human nature—that men always have and always will fight, Dr. Frank Crane thus speaks: "War, human nature! Yes, as leprosy is human nature, or tuberculosis, or epilepsy, or homicidal madness! As demons in hell, in human shape, are human beings." The idea that men of sense will justify war because it is human nature would fit them for the lunatic asylum. And then the doctor goes on to say: "Give human nature a chance. Let the people manage their goverments and war will speedily cease forever."

And that's true too. It is despicable the way some people will blame human nature for war. By that argument every crime could be justified. — Ohio State Journal.

Keeping the Doctors.

A famous British admiral was complimented on his superb health. "I attribute it," he said, "to plenty of exercise and no banquets. One-third of what we eat enables us to live." "What becomes of the other two-thirds?" asked his friend jestingly. "Oh, that enables the doctor to live," was the prompt reply.

A Limited Edition.

One of the neatest replies on record must be credited to old Christopher North. Prof. Aytoun, of "Scottish Cavalier Lays," loved and was loved by North's daughter. He was too nervous to face the father, so the blushing girl herself asked paternal consent to their marriage.

"Papa's answer is on the back of my dress," said the scholar's daughter, returning to her trembling, waiting lover, who, turning her round, read on a pinned slip of paper:

"With the author's compliments."

China's Great Wall.

Trees and shrubbery planted in the soil that has been accumulating for hundreds of years on the great wall of China are in a thriving condition, some of them having grown to a height of twelve to eighteen feet. This method of beautifying the great wall was an outgrowth of the movement for the reafforestation of the country started some time ago, with government sanction under the direction of foreign experts. The driveway on the great wall is considered very much improved by the trees.

Shedding Their Bodies.

People who lose a leg or an arm feel it to be a great misfortune. But a lobster or a crab does not mind. He simply grows another leg in its place. Even one of the lobster's big claws is no such great loss. A lizard can not afford to lose a leg, but if you seize him by the tail he says, "Goodbye, tail!" and scurries off over the rocks, leaving it in your hand. As for the starfish, the piece broken off in a short time mends matters by growing a whole new body to fit that piece.

GAMBLERS ARE TIMID OF WILLARD-DEMPSEY BOUT

Twelve Round Limit With Referee Decision Prospect Leaves Brokers Cold.

What of the Willard-Dempsey fight as a betting proposition?

Well, what will you have—Willard? Dempsey?

I called on a number of the fellows that generally lay the price and found that as yet they are skittish. They came back with the question: "What do you think?" To sum up the matter, they all have been waiting for both men to get down to a position where some definite concrete foundation can be laid on which to form an opinion.

Sam Summerfield, possible the best posted man in Chicago on sporting matters generally, has this to say: Willard has not fought since he mixed matters with big Moran, and, if you remember, he did not make a very good impression with the fighting public generally. However, he was handicapped, for he did really hurt his hand, possibly so bad that the wing was out of commission for the time being, and he was contented to hold the shade he had gained.

Hot and Cold Air Factors.

The public is a great deal like a barometer—the air conditions have a tendency to make the barometer rise or fall; likewise, the public has the same feeling. A man's personality affects the general public the same way and the betting especially is governed by their sense of feeling. For instance, the old timers would bet on Sullivan even if they knew he could not win; their confidence in John L. was simply wonderful.

Willard was never a fight idol, he was never a mixer. You might call it selfish if you wish, but we all are human and have our likes and diswin before the match if he had his likes. A cabbage and a cauliflower are of the same species of vegetable but taste different and are distinctly opposite in many ways.

Fighter Also Financier.

History shows that a popular champion has always been the one that is a mixer and lets go of the cash. Fighting has become commercialized to such a great extent that a fighter has to be familiar with details; he must be a good executive and financier and have more or less diplomatic ability. All this has a tendency to make the market price on a contest, specially a championship battle where sentiment is concerned.

On the other hand, Dempsey is new at the game. He is not a Ryan true and tried, a Choynski, a trial horse, who would take on anybody at any weight and did not bar any color or creed; a McCoy, the fox who would way and who, too, was a finished fighter and always used his noodle in the ring; a Sharkey, with every requirement for a champion; a Jeffries who learned the game by degrees. a Fitzsimmons, who was a puzzle to many, but possibly the greatest fighter of the last 50 years; a Johnson, the greatest defensive fighter the world ever produced.

Will Be Betting Fizzle.

The new aspirant for the top of the ladder is ambitious and has many qualifications, but he has not been developed. All these things affect the betting department, but, mind you this is a championship battle for a dozen rounds, and no one takes the matter seriously. No one is going to lay odds on a proposition where he can be whipsawed. A referee will be given power to decide the battle on a shade, and the distance is too short for big fellows and in reality no chance will be taken by either man to lose. They certainly will fight carefully and for a few rounds they will take their time weighing the situation. It will prove a fizzle as far as the betting goes, and the only wagering will be on a knockout.

Willard himself is not considered a man killed, and the other fellow knocks them dead when he lands, so there you are.

DEMPSEY PLAYS NATIONAL GAME

RICKARD AGREES PROVIDED WOULD-BE CHAMPION DOES NOT CATCH.

Toledo, O., May 29.—After learning that the ban was placed on swimming and baseball by Tex Rickard, who feared he might injure some of his valuable fingers, Jack Dempsey appealed the decision upon receipt of a challenge from baseball writers, who defied the camp to play a game of ball Sunday.

The game is now the topic of conversation, and Rickard relented, agreeing to let Dempsey play provided he would not insist upon catching. This was the hitch Friday. Dempsey wanted to catch instead of working on the mound. "Pshaw, I can catch the sort of stuff Ad Thacher is throwing without gloves or mask," declared Dempsey. When he could not act as Thacher's battery mate Dempsey decided he wanted to pitch against Ad.

Sunday's lineup has not been decided upon for either team. There was some talk about the game being played in the morning, but discretion resulted in setting it for 3 in the afternoon, fear being expressed the news hounds would not be out of bed in time for a morning game after the wild night expected with the banging down of the lid on Toledo toniht.

Dempsey and his sparring partners were on the road, the run being somewhat longer than has been the case. Boxing was on the afternoon's program, Bill Tate and Terry Keller being due to stop Dempsey's principles.

One Round Davis, the Buffalo policeman, is to join the camp next week. Davis is about as big as Sergt. Bill Tate and fought Willard once upon a time.

Ernie Young is expected here to secure another lot of tickets for Chicago fans. The way the seats he took away on his first trip disappeared furnished pretty fair evidence of what is to be expected later on when the sale is in full swing.

THE QUESTION OF APPOINTMENTS

Mr. Newsome had an interview yesertday with Dr. C. H. Amys, medical officer, and stated that the appointment of the plumbing inspector, according to the Act belonged to the Board of Health and not to the Council.

Two or three years ago ex-Mayor Duffus suggested a change in this arrangement but he was overruled by aldermen who were not disposed to part with any of their prerogatives

Mr. Newsome says that the plumbing bylaw in Peterborough was adopted seventeen years ago and has never been amended. Even that, would not be so bad if the by-law originally passed was faithfully enforced.

Another Challenge For 8th Line Boys

The challenge from the 4th line Douro boys has been accepted by the 8th lin. Otonabee five pin team. The match is billed for Saturday night next at 8.30 p.m. at the Water Street Alleys. This match should prove to be a good one as the 8th line boys and their challengers are equally confident in their merits of hitting the rubber bands. All interested in this great indoor game should not fail to see this match

---

Major Jordan has been appointed secretary of the Chamber of Commerce in Brantford.

A slight fire occurred in the Chateau Frontenac, caused by an overheated kitchen stove.

The death of Dolphis Mabel, of Montreal, is said to have been caused by drinking wood alcohol.

WEEKLY SHOOT LOCAL GUN CLUB

SPECIAL PRIZE IS OFFERED FOR BENEFIT OF NEW MEMBERS.

The Peterborough Gun Club will hold their weekly shoot on Friday evening, May 30th, and all members are requested to be on hand as there will be a handicap shoot for a box of cigars donated by Mr. Randlett, who visited the club last week.

There will be a special shoot of 15 birds for new members who will have a chance to get a prize as this is for new members only.

The shoot will begin at 6.15 so all gunners are requested to be on hand at that time.

THE FRENCH CHARACTER.

The Clarity of Their Minds Astonished the World.

It is a commonplace to say that the war has revolutionized all our notions of the French people. Most of us had thought them frivolous, light-minded, unstable. Under the supreme test of war we found them precisely the reverse.

The tactics of Joffre and Foch, in contrast to those of the German General Staff, threw an illumination on the French character. Lucidity, a just appreciation of a complicated situation, characterized the French strategy. Throughout the war the French had a more nearly accurate view of what they could do and what their opponents could do than the Germans had. The Germans rushed for Paris, then for the channel ports, then for Verdun, finally again for Paris. Each time they tried too much. Each time the French threw them back, and on two occasions, at the beginning and end of the war, waiting for the right moment with supreme self-control, turned the repulse into disaster.

Mrs. Edith Wharton discusses French characteristics in the Cosmopolitan. She finds in the nation as a whole the same temper which we have spoken of as revealed in the war. The Frenchman prefers to face all the facts of life in the open. Eccentricities do not appeal to him. He sets up standards and conforms to them. If the French Academy makes it decision in matters literary, he accepts it. He has a just appreciation of scientific and cultural leadership. Mrs. Wharton remarks that the same audience that goes to the movie in Paris will stand in line to get tickets for a classic play.

Philip G. Hammerton has made a somewhat similar observation. The French peasant, he insists, is more alert, more intelligent than the man of similar station in England. The nation has an instinct for taste, for culture, for social intercourse. Matthew Arnold has contrasted it with other nations, remarking that the English-speaking people are rather absorbed in conduct, the German in things of the intelligence (a generation later he would have said in world conquest of trade) and the Italians in the beautiful.

The clarity of the French mind is famous. Indeed, it has proved troublesome to the French nation, for it has led to a disregard of the anchorage of habit which other peoples have found so useful. The French Revolution attempted to root out all illogical habits, and reduce everything, including God, to the decimal system. Such a process is rather severe on the dissenters.

The general French standard of judgment, which has little toleraance for curious medical cults and other departures from normal, is attributed by W. C. Brownell—whose book, "French Traits," is probably the keenest piece of national criticism extant—to a thorough-going respect for public opinion. When the signers of the Declaration of Independence set forth "a decent respect for the opinions of mankind" as prompting them to issue the declaration, they were taking a typically French attitude. When Richard Lovelace wrote the famous lines:

"I could not love thee, dear, so much
Loved I not honor more,"

he was speaking the natural sentiment of a Frenchman. Carlyle somewhere tells of the Scottish Covenanters appealing to what shall he say? And the Frenchman interrupts with, "To posterity." In other words, the Frenchman cannot think of any better appeal than to the future enlightened judgment of mankind.

That standard is not the Anglo-Saxon standard. But it has its advantages. Certainly the events of the war have shown that a nation with a passion for common sense has a wonderful endowment with which to meet the stresses of life.

Lloyd George a Good Singer.

Unknown to many people is the fact that Premier Lloyd George is the possessor of quite a charming baritone voice, and any spare moments he can snatch are devoted to a little home music. He always sings in Welsh, and his voice has that peculiar quality found only in the Celt. Before leaving for Paris some of his scanty leisure was devoted also to French conversation. The Premier reads in French quite fluently, but, like so many other people, his French conversation lacks fluency. He has made quite remarkable progress, however, in a very short time. But, of course, as a Welshman and bilinguist he has the gift.

English Thrush.

The English thrush brings its snails to a certain convenient stone on which it will crack their shells by beating them upon it. Some sea birds carry shellfish to a height and drop them on the rock to break their shells, but this brings only the anvil into use, not the hammer. The case of the wasp is the only one which records the seemingly intelligent use of a tool to accomplish a given purpose.

WARS OF A CENTURY.

There Has Been One For Every Two Years of That Period.

There have been fifty-one important wars in 106 years—every two years, thus:—

Napoleonic wars (1792-1815).
Revolt of Spanish colonies (1810-1820).
Revolution in Naples against their ruler, King Ferdinand (1821).
In surrection in Piedmont against Austrian rule (1821).
Revolution in Spain against King Ferdinand VII (1822-1823).
Revolt of the Greeks against Turkish rule (1821-1827), known as the War of Greek Independence.
War between Britain, Russia and France, as allied against Turkey for the independence of Greece (1827).
War between Russia and Turkey (1828-1829).
Revolution in France against Charles X, followed by the establishment of the Orleans dynasty (1830).
Revolt in Belgium against the union with Holland—ending in independence of Belgium (1830).
Insurrection in Warsaw—revolt in Poland against Russia (1830-1831).
Insurrection in the Papal States (1831).
Civil war in Portugal (1828-1833).
Civil war in Spain (1833-1839).
War between Egypt and Turkey (1839-1840).
War betweep Turkey, aided by Great Britain, Russia, Austria and Prussia, and Egypt (1840-1841).
Revolution in France and the proclamation of the Republic, 1848.
Revolution in Vienna (1848).
Revolution in Hungary—practical independence of Hungary (1848).
Revolution in Bohemia against Austrian rule (1848).
Revolution in Lombardy (1848) against Austrian rule.
Insurrection in Venice against Austrian rule (1848).
War between Austria and Piedmont (1848-1849).
Revolution in Berlin (1846).
War between Denmark and the German Federation (1848).
War between Austria and Hungary (1849).
War between Denmark and Prussia (1849).
Crimean War—Great Britain, France, Turkey and Piedmont against Russia (1854-1856).
War between France and Piedmont allied against Austria (1859).
War between Piedmont (really represented by Garibaldi) and Naples (1860).
Revolution in Poland against Russia (1863).
War between Prussia and Austria allied against Denmark, relative to Schleswig-Holstein (1864).
Seven Weeks' War (1866).
Franco-Prussian War (1870-1871).
Ashantee War (1873-1874).
Serbian-Turkish War (1876).
Russo-Turkish War (1877-1878).
Afghanistan War of 1879.
Zulu War of 1879.
Egyptian War (1882).
Serbo-Bulgarian War (1885).
China-Japanese War (1894-1895).
Cuban Insurrection (1895).
Greco-Turkish War (1897).
South African Boer War (1899-1902).
Russo-Japanese War (1904-1905).
Italian-Turkish War (1911-1912).
Balkan-Turkish War (1912-1913).
European War (1914-1918).

In the Crimean War (1854-1856) the total strength of the armies was 1,460,000; Franco-Prussian War (1870-1871), 1,713,000; Russo-Turkish War (1876-1877), 1,500,000; Russo-Japanese War (1904-1905), 2,500,000; Balkan wars (1912-1913), 1,280,000.

Not Impressed.

A pompous gentleman happened to stray on to the grounds of Lord Blantyre one day, and was ordered off by the Scotch gamekeeper in language more forcible than polite. "Sir," said the pompous one, "do you know who I am? I am the Faulds of Aedgeriff." "I dinna care if ye are the Falls o' Niagara," said the gamekeeper, "ye're goon out o' this."

BICYCLIST ON SIDEWALK

The middle of George street not being paved to suit the fancy of Percy Harrison, he rode his bicycle down the sidewalk. The result, on pleading guilty to the charge this morning, was a fine of $2 and costs or fifteen days.

SOCIAL AND PERSONAL

MURPHY—CALLAHAN

At six o'clock yesterday morning the wedding wells were rung in honor of the marriage of Mr. John J. Murphy, the son of Michael Murphy to Miss Lillian Callahan of Elm street. Father Phelan performed the ceremony in St. Peter's Cathedral. The groom was attended by his brother, Vincent Murphy and the bridesmaid was Miss C. Dealire The happy couple left on the noon train yesterday for Ottawa, where they will spend their honeymoon at the homes of the groom's relatives returning to this city where they will take up their residence.

HUDSON—GREATRIX

A quiet wedding took place yesterday afternoon at St. James Methodist Church Parsonage, when Marion Louise, the only daughter of Rev. B. J. and Mrs. Greatrix was married to Mr. Andrew Gordon Hudson of this city. They were attended by Mr. Frank G Greatrix, brother of the bride and Miss Lena A. Elcombe. The ceremony was performed by the father of the bride. The young couple amid congratulations of their friends left on the 3 20 train for a short trip.

TAYLOR—SARINACE

On Monday, May 21st, at St. James' Methodist church parsonage, Mr. Daniel Taylor, of Asphodel, was married to Mrs. Sarah Sarinace, of Tory Hill, Rev. Mr. Greatrix officiating.

Mrs. Robert Stuart, of Chicago, is visiting her daughter, Mrs. G. A. MacDonald, of London street.

Mrs. Elson and Mrs. V. J. McElderry are visiting friends in Toronto.

Miss Georgie Stevenson and Mrs J. G. Campazzi are attending the I O. D. E. convention at Montreal.

Mrs. (Dr.) Moir, accompanied her husband to Toronto. They will return on the conclusion of the meetings of the Medical Association on Saturday.

Miss Florence Scott has gone to Toronto where she took part in Signor Carbonia' recital.

Lieut. Wilfred Huycke, son of Judge Huycke, is back in Peterborough after several years spent abroad with the army.

Miss Audrey Huycke resumed her studies at Bishop Strachan's College in Toronto yesterday.

Mr. and Mrs. Darrell Wainwright are spending a few days in Toronto, prior to taking up house in Peterborough. Mr. Wainwright has just returned from overseas.

Mr. and Mrs. H. A. Simmons leave tonight for Montreal and New York on a combined business and pleasure trip.

Mr. and Mrs. G. G. Phillips and little daughter, Ruth, of Marengo, Sask., are visiting Mrs. Phillips' father, Mr. W. H. Carter, Tusburn Street.

NOTICE TO FORESTERS

All members of local Court of the Canadian Order of Foresters are requested to meet at the Forester's Hall, Simcoe street on Sunday June 1st, at 6.15 p.m., to attend divine service at St. Lukes' Church, east City, as this is our annual church parade it is earnestly requested that every member turn out... Visiting brethren are cordially invited to meet with us.

J. J. HARTLEY, D.D.H.C.R.

CEMETERY NOTICE

All persons requiring flowers planted or other work done on their lots in the Little Lake Cemetery in time for the Oddfellow's Decoration Ceremonies, are asked to arrange for the same at the Company's Office, Crescent Street, not later than June 10th.

F. BROWNSCOMBE, Sec.-Treas.

Mr. Robt. Neill, 359 Hunter street, who went overseas with the 67th Battery of Toronto three years ago, has just returned to this city. He was once wounded while in France, and is certainly glad to be back with his old chums once more. He is a son of the president of the firm of R. Neill, Ltd., on George street.

AT ST. JOHN'S CHURCH

The festival choral evensong of the ascension will be held tonight in St. John's Church, at 8.00. Choristers are asked to assemble at 7.45. Rehe- at 7 30. Rehearsal for Sunday's services and Whitsuntide after service.

TRIBUTE TO REV. BENJ. GREATRIX

When the question of the superannuation of Rev. Benj. Greatrix was disposed of at the district meeting in the George Street Methodist Church yesterday, the following resolution, moved by Rev. F. E. Malott and seconded by Rev. W. T. Wickett, was unanimously adopted:

"That in view of the fact that the Rev. B. Greatrix in asking for superannuation, we, as members of the Peterborough district take this opportunity of expressing our appreciation of his long and successful ministry. He has had a remarkable career. Every office in the gift of the conference has been his. He has ministered with great acceptance in many of the most important charges in the conference. He is a most brotherly man. We regret that he has reached that stage in his ministry where he feels that he must retire from the active work. We are glad, however, that he will still be amongst us and that we can enjoy his fellowship and have his help from time to time, and we pray that God's richest blessing may continue to rest upon him in the closing years of his life."

REGRET REMOVAL OF FOUR PASTORS FROM THE DISTRICT

Conference Proceedings Concluded at George Street Church—Committees Appointed For the Year.

The Peterborough District Meeting of the Bay of Quinte Conference of the Methodist Church came to a close last night at St. George's Church. The next annual district meeting will be held at Trinity church. Complimentary resolutions were passed to the trustees of St. George's Church for the use of the building and also to the Rev. Wm. H. Higgs, of Millbrook, Rev. W. T. Wickett of Bethany. Rev. R. A. Whattam of Mark Street, Peterboro and the Rev. H. A. Frost of Lakefield rendered while in this district and sincere regrets were extended on account of their anticipated removal.

The following lay delegates were appointed to the meeting of the Bay of Quinte Conference which assembles in the Ladies College at Whitby on June 19: Messrs B. F. Ackerman T. M. McFadden, J. M. Greene, A. W. Cressman, John Speer, T. J. Carr, Thos. Brown and S. Deyell of Peterborough, Mr. T. H. Aiken of Millbrook, Mr. F. H. Gardiner of Mount Pleasant; Mr. G.F. Clarke of Cavan Mr J. H. sherin of Lakefield; Mr. A. H. Webster of Bridgenorth; Messrs W. A Jakeman and Percy Stewart of Bethany; Mr. Jas. Connell of Pontypool and M. S. Harrison of Lakehurst. The reserve delegates are Messrs. J. E. Middleton, W. R. Widdess and Alex Fife of Peterborough; Mr. T. N. D. Kelly of Bridgenorth; Mr. J. R. Northey, of Young's Point; and Mr. G. E. Burnham of Millbrook.

The committees finally appointed were:

Sabbath observance—Rev. W. T. Wicket, Bethany; T. J. Carr, Peterborough.

State of Work Committee—Rev. B. Greatrix, S. Deyell Peterborough.

Nominating Committee—Rev. Wm. Higgs, Millbrook, B. F. Ackerman, Peterborough.

Class Leaders—Rev. D. R. Clare, Warsaw, T. N. MacFadden, Peterborough

Missionary Committee—Rev. A. J. Thomas, Peterborough, secretary; Rev. B. Greatrix, J. M. Greene, J. Middleton, Peterborough; Thos McIndoo, Ida.

Educational Committee—Rev. F. E. Malott, B. F. Ackerman, Peterborough.

Sunday School Committee—Rev. W. H. Clark, Cavan; W. A. Jakeman, Pontypool.

Epworth League— Rev. A. McLaughlin, Pontypool J. H. Sherin, Lakefield.

Contingent Fund—Rev. H. A. Frost, Lakefield; A. W. Cressman, Peterborough.

Sustenation Fund — Rev. R. A. Whattam, Peterborough, Thos. Brown, Peterborough.

Social Service Evangelism—Rev. A. J. Thomas, Peterborough, F. H. Gardiner, Mt. Pleasant.

Memorial Committee—Rev. H. A. Frost, Lakefield, A. H. Webster, Bridgenorth.

Church property — Rev. D. R Clare,, Warsaw, John Speer, Peterborough.

Systematic Beneficience—Rev. W. H. Clarke, Cavan Stephen Harrison, Lakehurst.

Stationing Committee — Rev. W. H. Higgs, Millbrook; Rev. W. T. Wickett, Bethany; with the Rev. R. A. Whattam as alternate.

This committee meets on Monday June 16, at Whitby to assign the pastor's in the Bay of Quinte Conference to their various fields for the coming year.

OBITUARY

MRS. WILLIAM CORBETT.

The death occurred this morning after a lingering illness of Mrs. William Corbett.

The funeral will take place from the home of her brother, Mr Michael Geary, Ennismore, Saturday morning, to St. Martin's church and cemetery, Ennismore.

MAIL FOR CALGARY.

Ottawa, Ont., May 29, 1919.
The Postmaster,
Peterborough, Ont

Registered and ordinary letter mail may again go forward to Calgary, but not papers and parcels.

(Signed) R. M. COULTER.

Practice tonight at 8.00 All members are requested to turn out.

KNOX CHURCH CHOIR

A full attendance of the Knox Church choir is requested tonight at 8 o'clock.

GARDEN PARTY

The Peter Robinson Chapter, I. O. D. E. will hold a garden party at the Home of Mr. G. W. Hatton Monaghan road, on Thursday June 3rd, afternoon and evening. Anyone wishing card tables for the afternoon telephone Miss D. Hill, Phone 17 Band in attendance. Dancing in the evening.

Seeding is in full swing in the Temiskaming farming area.

Geo. Hutzon, of Hamilton, says he was robbed of $1,400 by two men on the street.

A home has been purchased in Milton for the neglected children of Peel and Halton.

BETTER FIRE PROTECTION

TO SERVE PETERBORO CANOE AND PETERBORO CEREAL PROPERTY.

Messrs W H. Moore and Robert Hicks, members of the Utilities Commission pointed out to Council last night that the need of improved fire protection for the Opera House, Peterborough Canoe Co. and adjacent properties. They propose, they said, to lay an eight inch main from George to Water street, on King, and up Water street to Charlotte, and install two hydrants in that neighborhood, of greater capacity than any there now. This work, they pointed out should be done before the pavement is laid.

The need for an 8 inch water main in place of the 3 inch on down Queen street to serve the Peterboro Cerial Co. and adjacent buildings was also admitted.

Ald. Turner moved, seconded by Ald. Phelan, that the Council approve of the laying of the larger main in these streets and that the Utilities Commission be requested to consider laying a main on King street east of Water street, and a larger main on Queen street, and that the matter of ordering two additional hydrants in that neighborhood and one near the corner of Simcoe and Queen streets be referred to the Chairman of the Fire, Water and Light Committee and the City Engineer with power to act.

AUCTION SALE

Tomorrow at Hancock's Auction Rooms, dressers, beds, sideboards couch, 4 cook stoves, oak dining chairs, tables, rockers, dishes lawn-mowers, rugs, carpets, linoleum, mattresses, kitchen cabinet, cot, carriage, wash machine. Sale at 1.30 p.m.

MRS. BOOTH BACK FROM EUROPE

NOTED SALVATIONIST BRINGS INTERESTING STORY OF HER WAR EXPERIENCE.

Chicago, May 29.—While the returned doughboy and the "girl who waited" are floating lazily out into the lake on one of Chicago's big excursion boats his homesick "pal" in the far off "army of occupation" is doing somewhat the same thing these warm evenings. But while the soldier on duty drifts along the Rhine the "one girl" is not by his side. Therein is the difference.

Moonlight excursions on the Rhine are now the chief item of pleasure afforded the American soldiers in Germany by the Y.M.C.A. This was the news brought to Chicago by Mrs. Ballington Booth of the Volunteers of America, who has just returned to the United States from Y.M.C.A. service with the army of occupation.

"When I left Germany late in April the excursion trips were popular with the Americans," said Mrs. Booth. "The Y.M.C.A. has provided eight fine boats for these trips up and down the Rhine and, just as on our American boats, there was dancing. Regimental bands furnished the music. The only void was the absence of their American sweethearts.

"Y" Also Runs Hotels.

"The Y.M.C.A. has taken over the recreational work for the army. Large hotels are provided for the men on leave. Here they are able to get splendid meals and genuine service. In one Y.M.C.A. hotel there are accommodations for nearly 4,000 men."

Mrs. Booth said the American soldiers had won the respect and admiration of the Germans in the towns occupied by the soldierly dignity tempered with sterness with which they treat the vanquished foe.

"They refuse to fraternize with the Germans," said Mrs. Booth. "They treat them with dignity and although they are stern they are never unnecessarily harsh. But the men are very homesick and are anxiously awaiting orders to start home. The beauties of the Rhine and France have no attraction for them."

Will Tell Her Experiences.

Mrs. Booth spent several months in the war zone before the signing of the armistice and later went with the army of occupation. Accompanying her in her work were her daughter, Miss Theodora Booth, and a small band of assistants, who provided entertainment for the soldiers. Mrs Booth will lecture on the war. She will tell some of the experiences she had while writing home to American mothers for the men.

One of her first questions was concerning the recently demobilized 13th engineers of Chicago. She passed Christmas day with that regiment and the members gave her the title of "The little mother of the expeditionary force."

OLD TIME CIRCUS HERE JUNE 7TH

OHN ROBINSON'S AGGREGATION GIVE TWO PREFORMANCES BESIDES STREET PARADE.

And now comes the announcement that will bring joy to the hearts of the children and make the older folks sit up and take particular notice. John Robinson's big circus is coming to Peterborough Saturday June 7th, for a parade and two performances. This circus is one of the largest in the States. It will be exhibited in Toronto at Dufferin Park before its Peterborough date.

Mr. Robinson is doing a kindly act in Toronto that will always remain fresh in the hearts of true Canadians. He has arranged to give a special free performance for all the convalescent soldiers in the Toronto Military hospitals and for the inmates of orphanages, the home of the improvident and the sick children's hospital. This show will be given in Toronto on Thursday morning June 5th.

Tenders Wanted

Sealed tenders marked "Tender for Fuel" and addressed to the undersigned will be received until 12 o'clock noon on Wednesday, June 4, for 500 tons (more or less) of soft coal (¾ lump Youghioghenny) and also 90 tons (more or less) of hard coal to be weighed on the market scales and delivered to the various schools as required.

MARK ST. RAISED MORE THAN $4,000

SATISFACTORY REPORTS OF ALL BRANCHES RECEIVED AT ANNUAL MEETING.

A meeting was held in Mark Street Church last night when reports from all branches of the church were read.

The following amounts were raised during the year:

General missions, $550; connexional fund, $250; Women's Missionary Society, $220; for connexional funds over $1,000; for circuit purposes $1,744; total raised for all purposes over $4,000.

There was an increase of Sunday School work and Epworth League effort, and all departments of the church are in good form.

The congregation are contemplating renovating the church. As this is the closing of the four years of Mr. Whattam's pastorate at Mark Street it is pleasing to note the very successful condition that all departments show.

LEAVING THE CITY

Mr. Samuel Kemp has Accepted Position in Toronto

Friends of Mr. Samuel Kemp of 855 George Street will regret to learn that he is about to leave the city shortly. Mr. Kemp has been an employe of the firm of J. W. Miller and Sons, George Street, for the past sixteen years. He was a first class mechanic and thorough workman.

For the last 13 years he was financial secretary of Court Langton, C. O. F., and while the members are sorry to lose him, they wish him every success in his new field of endeavor. All C. O. F. can be paid as usual to W. Payton, 320 King street, city.

Grant & Horne's vessel, the War Moncton, will be launched on Thursday in St. John's harbor.

LABOR MEN TO PARADE TO COUNCIL MEETING MONDAY

To Protest Alleged Discrimination by Engineer Parsons and Street Commissioner Evans Against City Laborers Who Went on Strike—Interested in Filling Aldermanic Vacancy.

Local Labor men allege that City Engineer Parsons and Street Commissioner Evans are discriminating against the city laborers who went on strike recently and refuse to reinstate them now that they are willing to return to work, the Council having granted them their demands. Union men will meet at Labor headquarters Monday evening and march in procession to the meeting of the City Council, as many as possible getting into the building, the balance to remain on watch outside. The deputation will make a formal statement of what they regard as a grievance.

Another matter that attracts Labor to the Council meeting Monday night is the appointment of an alderman to succeed ex-Alderman Murray, a position to which they believe Labor is entitled. The Trades Council has endorsed ex-Ald. Joseph Crowe for the position, but Mr. Crowe is not worrying over his chances.

British Troops' Serious Position

(Canadian Press Despatch)

London, May 30.—A serious uprising in southern Kurdestan, where the Gendarmrie have been defeated. It it feared that British troops there are in serious position. The British army in Mesopotamia is taking steps to overthrow the tribesmen.

More Notes From Hun Delegates

(Canadian Press Despatch)

Versailles, May 30.—Two new notes were delivered to the Secretariat of the Peace conference by the German Delegates today. At the same time the Germans handed over French and English translations of the first section of counter proposals which were delivered yesterday in German only.

WILL MEET IN NEW QUARTERS

VETERANS TO HOLD SESSION TUESDAY IN MURRAY ST. HALL.

The regular meeting of the members of the G. W. V. A. will be held Tuesday evening in their new quarters on Murray street at 8 o'clock. The members of the executive will meet tomorrow afternoon at 3 p.m. in the present club rooms on George street.

Bolsheviki Have Defeated Poles

(Canadian Press Despatch)

London, May 30.—The Bolsheviki have driven the Poles from Rovno after fierce fighting and occupied the town, according to a wireless from Moscow. The message adds that the Bolsheviki captured seventy guns and that they also occupied Alexandria.

A violent explosion caused by the dumping of slag into Muggah's Creek shook the whole of Sydney.

DEMONSTRATION DOMINION DAY

EXHIBITION BOARD ARRANGING JULY 1ST DEMONSTRATION.

The Peterborough Exhibition Board is arranging for a monster Dominion Day celebration on July first. The program to be offered at the Exhibition grounds promises to be of an unusually attractive and varied nature, and the whole day's doings will combine to make this event, beyond question, the most stupendous gala day ever yet attempted in this city.

Should peace be signed by then it is the intention of the Board to invite the city executive to unite with them in making the day's program a joint affair, by celebrating both the returnof peace and Canada's National birthday on Dominion Day next.

Further particulars will be announced when the committee in charge of this coming event have definite information in regard to one or two outstanding features of the celebration in view.

AUTOS IN COLLISION.

Cars Came Together at Charlotte and Aylmer Streets.

At 2 o'clock this afternoon two automobiles collided at the corner of Charlotte and Aylmer streets. Mrs James Scott, 512 Weller street, was driving west on Charlotte street when her car was struck by one in charge of James Collins. The first car was turned completely round and ran up on the sidewalk in front of William Greenslade's shoe store before it could be stopped. The windshield was smashed, the tire on the right front wheel torn off and the rim badly bent. No one was injured

LETTERS AS USUAL.

Postmaster Edgar has received the following intimation from Ottawa: Registered letters as well as ordinary letters, also parcel post, may again go forward to Winnipeg but not papers

One of the Guelph Radial Railway cars was literally cut to pieces at the rear of the O. A. C. yesterday.

HOLY NAME SOCIETY PARADE

The Holy Name Societies of the three Catholic parishes in this city, will make their first public demonstration next Sunday. The members of the societies from St. Peter's, Sacred Heart and the Church of the Immaculate Conception will meet at the Lyceum at 2 o'clock and march in procession to St. Peter's Cathedral where they will be addressed by Rev. John E. Burke, the noted Paulist father from Toronto, who made a national reputation as an orator when he pronounced the eulogy at the funeral of the late Sir Wilfrid Laurier. It is expected that there will be over one thousand men in line. The societies from the parishes at Ennismore, Norwood, Lakefield and Douro will also take part.

The branches of the Holy Name Society were organized in this city a year ago, taking the place of the T. A. S., which was no longer necessary on account of the adoption of the Ontario Temperance Act. Its object is to spread and increase love for the name of Jesus Christ, to prevent false oaths both in and out of courts, to suppress blasphemy, profane and indecent language and to make men true followers of Christ.

GENERAL STRIKE CALLED IN TORONTO WHEN CONFERENCE AT OTTAWA PROVES FAILURE

Between Seven and Twelve Thousand Men Are Out but Strike is not General—Business Apparently Goes on as Usual—Strikers Refuse to Arbitrate Question of 44 Hours a Week.

Toronto, May 30.—Advices from the labor temple this morning declared that a sympathetic strike to aid the striking metal workers, went into effect at 10 o'clock. At present it is in no sense a general strike. street cars and all public utilities are operating as usual. The principal trades affected by this morning's sympathetic strike are the Garment Workers and some of the Building Trades, with a membership of between five and ten thousand. There is no news yet as to how fully these trades have obeyed the strike order.

Mayor Church announced this morning that citizens committee had been formed, the members signifying their willingness to assist if necessary in maintaining order and to perform a public service similar to the committe in Winnipeg While these precautions have been taken the Mayor expects that the strike will be conducted in an orderly manner.

TWELVE THOUSAND WORKERS OUT

Workers of various building trades, garment workers and other union workers in a number variously estimated at between seven and twelve thousand left their work this morning at ten o'clock, in a sympathetic strike to aid the men of the metal trades who have been out for some weeks.

This is one phase of the General Strike in Toronto which has been long expected and which Sir Robt. Borden and his colleagues, in a conference with the contending parties at Ottawa, yesterday, vainly attempted to avert.

Except at the Labor Temple and various shops and buildings where the latest strikers threw down their tools there is no indication of anything out of the normal. All public services adn street cars are operating as usual. The stores are open end doing the usual or a bigger business. Factories and shops not directly interested are working full time. Building operations are not completely tied up as some trades are staying at work.

At an early hour this morning the failure of the last efforts to prevent a sympathetic strike were announced by the Strikers Committee of fifteen when they finally rejected the offer of the mployers to submit the question of a forty four hour week, to a Board of Arbitration. Efforts of the Mayor, the Citizens' Committee, and other negotiations for settlement, are centered in plans to prevent a furher spreading of the strike. An earnest effort is beinb made t osteady the men of the Toronto Street Railwaymen's Union, for it is realised that if the cars are stopped the city will begin to feel the pinch. It is thought that street car service will be normal, at any rate till Sunday night when there will be a mass meeting of the employes to decide whether or not they will strike.

SEAPLANE FORCED TO MAKE FOR LAND

AMERICAN AIRPLANE MET WITH MISHAP ON FINAL STAGE OF FLIGHT.

(Canadian Press Despatch)

Plymouth, May 30.—The United States naval seaplane N. C. 4 left Lisbon for this port at 5.20 o'clock this morning. The N. C. 4 expects to arrive here at about four o'clock this afternoon British summer time.

Forced to Land

London, May 30—The following message has been received by wireless from the N. C. 4 "landed Mondego River." The mouth of the Mondego river is near Figue-Ira about one hundred miles north of Lisbon on the Portuguese coast. Commander Read of the N. C. 4 sent a further message stating that he could not make Plymouth tonight The seaplane was not damaged when she landed.

Another Message

Brest, May 30.—A message received from the torpedo boat destroyed Woolsley at Station CU on the route of the N. C. 4, is interpreted by the naval authorities as meaning that the N. C. 4 had devloped trouble but effected repair and resumed her flight.

SENTENCED FOR MAKING LIQUOR

PENETANG MAN GETS SIX MONTHS IN JAIL FOR MOONSHINING.

Midland, May 30.—Two two men arrested by Inspector Fisher, assisted by Chiefs Wright of Midland, and Watson of Penetanguishene, charged with manufacturing and selling liquor, were convicted at Penetanguishene. The still was capable of making sixty gallons a day, and the Italian in charge was sentenced to six months without the option of a fine. John Olivastri, who keeps a store in the suburbs, was fined $300 and costs

MACHINISTS MAY VOTE TO STRIKE

VOTE TO BE TAKEN AT MEETING OF UNION TONIGHT.

There is a prospect that the local machinists will go out on strike Monday. The matter will be decided at a meeting of the union tonight. The agreement with their employers, under which the men are now working, expires June 1, and the men are said to be asking for an increase of five cents an hour over the present maximum, and a general raise to those who are working for less than the high figure. One particular firm in the city is chiefly interested in the outcome of the deliberations tonight and if the machinists decide to strike other departments, it is said, will go out with them

Letter carriers will not be surprised by a strike order from headquarters if the Government fails to classify the men in the service according to a pledge given some time ago.

TYPOGRAPHICAL UNION TO SEND DELEGATES TO OTTAWA CONVENTION.

At a special meeting of the local Typographical Union held in Labor Hall last evening President A. J. Bolwell and Recorder Chas. Smalley were elected delegates to attend the annual convention of the Ontario and Quebec Conference of Typographical Unions, which convenes in Ottawa June 5 and 6.

Memorial Day In United States

(Canadian Press Despatch)

Washington, May 30—The first memorial day after the close of the great world conflict was observed throughout the United States today as a general holiday.

Samuel Lockeridge was fined $500 at Trenton for having 103 bottles of liquor in a cistern.

NEW STREET CARS STAND THE TEST

WERE GIVEN TRIAL RUNS LAST NIGHT—IN COMMISSION JUNE 2ND.

The new one-man street cars were taken over the lines and given a thorough test out last night and this morning by Mr. J. S. McIntyre, the expert sent up by the Hydro-electric Commission from Toronto. That they are not the same as the ones now in use is apparent to everyone from the most casual observation, yet probably most of the citizens had keener eyes than the couple whose conversation ran thus:

"Did you see the new street cars this morning?"

"No; aren't they the same as the old ones?"

"No; these are green and the old ones are yellow."

These cars are safety cars in that, no matter at what speed they may be travelling, the car stops automatically within its own length if the motorman's hand is lifted off the controller. This applies the brakes immediately and opens the front door and unlatches the rear door. The rear door can then be opened only from the inside, so passengers boarding the car enter by the rear door and leave by either. People are not able to get in or off the cars while they are in motion as the door does not open until the car stops and then it opens automatically.

The seating capacity is the same as the cars now in present use. Manager Ferguson of the street railway, states that both these new cars will go into commission on June2, providing an extra car on the Charlotte street line, and replacing one of the cars now in use. Naturally a one-man cars is always a closed one.

A week's training is considered sufficient by Mr. McIntyre to enable a man used to electrical work at all to run a car efficiently, but in five minutes any one could learn enough about them to prevent any danger of an accident to himself or his passengers. Peterborough is the first city in Eastern Canada to instal them, though they are used in the suburbs of San Franciso, Los Angeles, Cincinnatti, Brooklyn and other American cities.

CORP. MILLS HERO OF SHIPWRECK

SON OF COL. JOS. MILLS HOME AFTER LONG ABSENCE.

Corporal Samuel Mills, son of Col Joseph Mills, has just returned to his home at 451 Hunter street. He enlisted in 1916, taking his father's place, who had been with the colors from the beginning of the war. He took out a commission in the 57th Regiment, but in order to get across he reverted to the ranks, joining up with the 235th at Bowmanville. There he quickly rose to the rank of sergeant, and was sent overseas as company sergeant major. His unit left Montreal on the City of Vienna, a captured Austrian boat, that was taking its first boat load of Canadians across. When near Halifax they were chased by a submarine and the boat ran on the rocks in a heavy fog. C.S.M. Mills remained with the ship along with a few others until they were picked up by an American cruiser, and shortly afterwards the boat sank. The officers in charge of the vessel recommended him highly for his coolness and bravery. In England he was prevented by the influenza from going to France with the rest of the draft, and when the armistice was signed he was appointed as an instructor in the 6th Reserve Battalion at Seaford.

John Donahey, Halifax, was sentenced to twenty-three months for violating the N.S. Temperance Act and robbery.

GOVERNMENT TO PROBE PROBLEM OF LIVING COST

ASCERTAIN AMOUNT OF PROFIT MADE BY DEALERS AND OTHERS.

TO INVESTIGATE HOUSE RENT

DRASTIC ACTION FINALLY DECIDED UPON BY AUTHORITIES AT OTTAWA.

Ottawa, May 30. — Sir Thomas White has given notice of the following resolution which he will move in the Commons:

"That a special committee of the house, consisting of Messrs. Nicholson (Algoma), Stevens, Reid (Mackenzie), Douglas (Strathcona), Davis, Hocken, Sutherland, Fielding, Davidson, Nesbitt, McCoig, Sinclair (Queen's, P. E. I.), Devlin, Vien and Euler, be appointed for the purpose of inquiring forthwith as to the prices charged throuhgout Canada for foodstuffs, clothing, fuel and other necessaries of life, and as to the rates of profit made thereon by dealers and others concerned in their production, distribution and sale; also as to rentals of dwelling houses in industrial centres of Canada and dates of return of capital invested therein, with power to send for persons, papers and records, examine witnesses under oath, engage accountants and other necessary assistants, and to report to the House from time to time the result of their inquiry, with any recommendations they may make with a view to effecting areduction in such prices and rentals."

MRS. RISHOR'S WILL

The will of the late Mrs. Charles Rishor, wife of the wholesale rocer, has been probated. Mr. Charles Rishor is the sole beneficiary of the estate, which amounts to $23,791.

Twenty coffin like boxes containing whiskey were seized by the police of Vancouver, B.C.

Mrs. Hanson with her three children was found unconscious in their bedroom in Camden Town.

Stanley Crowe, Kitchener, was found dead in a bathroom, due to asphyxiation.

BACK OF STRIKE IN WINNIPEG IS ALL BUT BROKEN

EMPLOYERS OFFER TO DISCUSS QUESTION WITH THE STRIKE LEADERS.

CONDITIONS ALMOST NORMAL

IN POST OFFICE AND IN RAILWAY MAIL TRAIN SERVICE.

(Canadian Press Despatch)

Winnipeg, May 30.—The offer of the Medal Trades employers to discuss Labor problems with their striking employes, with representatives of the Canadian Railway Brotherhoods as mediators, came close on the heels of a long step forward in the resumption of the cities normal activities today. Large numbers of city employes who walked out have applied for reinstatement or have returned to work. The Post Office force is now normal. All striking railway mail clerks have returned and Mayor Gray has announced an attempt will be made to resume street car service today or tomorrow. A reply has been made public by the striking metal workers to their employer's offer. Leaders of the Central Strike Committee have so far refused to consider any conciliation conference which did not include representatives of Winnipeg Metal Trades Council.

In Edmonton the street car service has been resumed after a brief interruption when the walk-out occurred there Thursday and reports from Calgary say business activities continue there almost normally.

The Alberta Federation of Labor has sent out a call for a strike vote of all unions in the Province. The result of which will be announced in a few days.

Greek Troops On Turks' Territory

(Canadian Press Despatch)

Paris, May 30.—Greek forces were landed yesterday at Availi on the coast of Asia Minor sixty six miles northwest of Smyrna. The Turkish troops there offered only a slight opposition which was overcome.

ST. ANDREW'S PASTOR GETS HEARTY WELCOME HOME

Rev. (Capt.) James Rollins Accompanied by Mrs. Rollins and Daughter Jessie Met at the Depot by Members of the Congregation and Friends.

Capt. (Rev.) James Rollins, accompanied by Mrs. Rollins and their daughter, Miss Jessie, returned to the city last evening after an absence of three years and the reception that they met with from the members of the congregation and other friends left no doubt as to the sincerity of their welcome. Capt Rollins went overseas as quartermaster of the 93rd battalion and when that unit was distributed became chaplain of the famous 21st with which he returned to Canada last week. Mrs. and Miss Rollins were in England for some time since leaving Peterborough.

There was an array of autos at the Grand Trunk Depot last night, and crowds came on foot to welcome the militant pastor and his family home. Major (Rev.) J. C. Davidson, Rev. J. R. Webb and other members of the ministerial association were among the crowd. The officials of St. Andrew's led in the welcome.

As soon as Capt. Rollins alighted from the train he was given three hearty cheers and a tiger. Mr. G. Walter Green took the returning family to the manse in his auto, a parade of cars following.

The Manse Decorated

The Ladies Aid Society of which Mrs. J. John is president, had made arrangements at the manse for the reception of the family The front of the building was decorated with flags and "Welcome Home" was hung over the door. In the dining room a sumptuous repast had been prepared for the family. The manse was found by its former occupants practically as they left it three years ago.

Capt. Rollins, who looks well and is in excellent health after his military experience, will resume his pastoral duties at once, preaching at both services on Sunday and there is no doubt as to his being greeted by large congregations morning and evening

Inspected Boy Scouts

When the party reached the Manse they found the Sunday School scholars of the church on the lawn and the recently organised Boy Scouts, about fifty in number, waiting in line. Capt Rollins inspected the Scouts and in a brief address complimented them upon their splendid appearance.

While this was going on outside Mr. Herbert C. Treneer, the organist played on the organ, appropriate welcoming airs the sounds of which floated out through the open window. Altogether the reception was one of the heartiest ever extended to a returning soldier in Peterborough and the affair is regarded as an augery of many happy days for the reunited pastor and people.

"FOR A GREATER PETERBOROUGH."

FRIDAY MAY 30

DR. CAMERON'S ADDRESS.

PETERBOROUGH appreciates the honorably publicity that comes to it by reason of the fact that one of the city's leading physicians, Dr. G. S. Cameron, is president of the Ontario Medical Asosciation, and by the splendid address which he delivered in his official capacity. Dr. Cameron was one of the local examining physicians during the war, and the value of that experience has evidently not been lost to him. No one knows better than he that many men who have passed as healthy specimens of humanity are the victims of some organic trouble or are in the first stages of an acute ailment. It is little wonder, then, that Dr. Cameron, in his presidential address, advocated State medical inspection for children and adults alike.

There is nothing like beginning at the root of disease. Dr. Cameron is one of the leading spirits in the Peterborough Health Association, the main mission of which organization is to stamp out tuberculosis, and he is in a position to speak with authority upon what can be accomplished by early action. No people can be either prosperous or happy unless sanitary conditions prevail among them. No nation can come into its own unless the inhabitants are free from the plagues of modern diseases.

Dr. Cameron in his address made another point when he forecast State control of the medical profession. That beyond all question is what the world is coming to. Public ownership and State direction is the trend of present events. It is of vastly more moment that the State concern itself with the physical welfare of the people than in expending all its executive energy in the control of railways, street car lines and other utilities. There is limited State control of the medical profession now as demonstrated by the appointment of health officers, but the ratio of these officials as compared with the number of citizens whose health they are supposed to guard is not such as to ensure thorough service, no matter how efficient the official may be, and the compensation allowed is by no means adequate when the high standard of the duties is considered.

Dr. Cameron deplores what he regards as public hostility to the medical profession, but a close study of the proceedings of the association over which he presides will fail to reveal anything calculated to remove or even modify the sentiment of which he complains.

It is only natural for a man to exalt the importance of his own profession. Medical men are engaged in one of the highest human callings. The lives of the people are in their hands. The surgeon who performs an operation takes desperate chances and assumes heavy responsibility.

But responsibility for the lives of others is not the peculiar burden of the physicians and surgeons. The engineer of a railway train has every day hundreds of lives in his hands. A mistake, a slip on his part, is almost certain to result in tragedy. The captain of a passenger boat is in the same position. The nurse wheeling a baby carriage on the crowded city streets takes a chance with death to her charge at every intersection. The mother in the home stands daily between her offspring and fatal disaster. Every man is to a great extent his brother's keeper.

Is it not a fact that the members of the medical profession are the beneficiaries of a monopoly that has been for years in process of construction? Their schedule of charges is fixed by law which admits of no disputation. An attempt is being made to strengthen this monopoly further by means of a bill now before the Dominion Parliament, the adoption of the bill being assured by the preponderance of medical and other professional members in the House.

The members of the association at their session in Toronto made no attempt to make it illegal for any inexperienced practitioner to undertake a critical operation, even though it is a well-known fact that nearly every young doctor's ambition lies in the direction of surgery.

THE BRIDGE MUDDLE.

AT THE NEXT regular meeting of the City Council Monday night, the aldermen will elect a successor to ex-Ald. Murray, who was obliged to resign on account of ill-health. Whoever may be the fortunate one—or the victim—it is to be hoped that he will take his seat at once and that the deadlock over the building of the Hunter street bridge will be broken. Unless this is done immediately all prospects of beginning work on the structure this year may be abandoned, and that at a time when employment is so badly needed by the working classes of the city.

It is hard to understand the inability of the Council to arrive at a decision in this matter, but anyone who understands anything of parliamentary law and who sits through an aldermanic session will see the members of the civic semi-circle tie themselves up in some of the most marvellous legislative knots ever dreamed of. It is still a question, outside of the City Council, whether a presiding officer has a right to vote except in the case of a tie. Mayor Duncan the other night defeated a motion, the vote on which was five to four, by the easiest expedient of casting his own vote with the minority and so creating a tie. This is a procedure not generally adopted in other deliberative bodies.

Whence all this hesitation, this reaching one decision in committee only to rescind it in open session? The aldermen had three courses before them. There seems no real obstacle to letting the contract, even if the Hamilton company have been frightened off by local labor conditions. If the cost-plus plan is adopted, there are still two tenders for consideration, both of which are lower than the one the Council decided to accept, only to have the successful contractor back out in the end.

The Russell-Townsend people and Mr. Ed. Conroy are willing to build the bridge on a cost-plus basis. Mr. Conroy will undertake the work, too, for a lump sum if that plan is preferred. He makes no trouble on the score of wages, but agrees to pay the union scale. His financial backing is above question. What excuse, then, have the aldermen for this exasperating delay, this dallying with a public question of so much moment?

If Mr. Conroy has had in the past any disputes with the city, no one is more anxious than he to have these differences settled. If he owes the municipality anything he is ready to discharge his obligation.

The bridge will be built under the supervision of Mr. Frank Barber, one of the most efficient and experienced bridge engineers in the country. That being the case, no one is justified in assuming that any man given the contract would be able, even if so disposed, to carry out the work other than as by agreement.

"GETTING TOGETHER."

EVERY REFORMER, every preacher, in fact every man who makes a public address on the present industrial problem, never fails to make the remark that Capital and Labor must "get together." This is a generality as wide as the instruction that religious teachers are so prone to issue to the youth of the day, "be good." The boy is given no clear idea of what constitutes goodness, but is left largely to his own devices.

Capital and Labor have been getting together all these years on the same principle and with approximately the same results as those which follow a conference between two parties to a private dispute. In nine cases out of ten the outcome is a personal combat that leaves conditions somewhat worse than they were before.

There is nothing to be hoped for from Capital and Labor "getting together" unless each party is willing to meet the other half way and to make concessions which alone can restore harmony. All this trouble is really the result of a lack of mutual understanding. One-half of the parties to the dispute does not know how the other half lives. Capital believes that Labor is getting its just dues and that the workingmen and their families are living in comfort. Labor, on the other hand, appears to be under the impression that Capital is making enormous profits on every venture. The chances are that both are under a misapprehension. Each party should be willing to show its hand, otherwise "getting together" will have only one result—the situation will be worse than before the conference.

NOTES AND COMMENT.

NIBBLING AWAY won the war. Pegging away may yet build the bridge.

• • • • •

TALKING ABOUT home runs, those on the diamond are not in it with those made by the soldiers.

• • • • •

DO THE ALDERMEN plan to have the demobilized veterans re-enlist, this time in the vast army of the unemployed?

• • • • •

NO HOME, be it ever so humble, appears so to the returning veteran when that home is decorated with the national colors and a welcome sign.

• • • • •

THERE IS A CROWN of honor waiting for the member of Parliament who will father a bill regulating the maximum charges of the professions.

• • • • •

IT IS BECOMING an easy matter to foretell what the Council will do. It is generally safe to bet that they will undo today what they did yesterday.

• • • • •

THE GERMANS complain that the peace terms will make them slaves. That should not worry a race that has been in bonds since the beginning.

• • • • •

IF HENRY FORD is an anarchist, as a Chicago paper charged to be the case, then American workingmen will no doubt wish that members of that species among the employers were not so rare.

OPINIONS OF OTHER EDITORS.

THE GERMAN WAY.

(Toronto Star.)

The German leaders are now trying to puzzle out some sort of scheme by which they can sign the peace terms while persuading the German people that they proudly and arrogantly refused to do so.

A REMINDER.

(New York Evening Sun.)

If sometimes in the current protests of the beaten enemy against the peace terms it sounds as though Germany had forgotten that a war had actually taken place, the Cavell obsequies may serve to remind us of that war and what a war the Germans' ruling minds made of it.

BAN ON OLEOMARGARINE.

(Woodstock Sentinel-Review.)

Moreover, when complaint is made that the price of butter is soaring beyond the reach of a great many wage-earners, the answer is that the supply of butter is not equal to the demand. How can such a statement be reconciled with the demand for the renewing of the ban on oleomargarine?

FOREIGN COLONIES IN CITIES.

(Buffalo Express.)

We have had "foreign colonies" in our cities because we have tried to impress them with our superiority. Now, if we have learned the lesson of the war, we must begin to meet them on equal terms and frankly confess that we need them as much as they need us, and have as much to learn from them as they have to learn from us.

THE POSTAL RATE.

(Montreal Herald-Telegraph.)

The Office Department of the United States has announced that the old first-class postage rate of two cents an ounce on letters well be restored on July 1, and post-cards will be carried for one cent each. Will the Canadian Post Office follow suit? It may be that our Minister of Finance would object to anything that would bring about a diminution of revenue. On the other hand, Canada should, if possible, be on an equality with the United States in the matter of cheap communication. The Government at any rate should consider the matter.

EDITOR'S MAIL

MR. HONE REPLIES

Editor Review: As Mr. Bagley says, I must not be taken to have attempted to answer him in the paper published in your issue of Tuesday last. I merely shot a couple of shafts which evidently went home with a vengeance as Mr. Bagley used over a column of your paper in a vain effort to answer these mere "references." I was pleased to see that Mr. Bagley has definitely cast Mr. Burnham and his scientific arguments overboard. He has suddenly lost interest which is quite a chance from his state of mind in his first letter. Science does not support his view, therefore, he casts it overboard.

The Old Testament is similarly dismissed, except in so far as he thinks it supports his arguments. In the New Testament, verse after verse is quoted or referred to pointing out the evils that may result from drinking wine and strong drink. The use of alcoholic liquors as a beverage is held up by Him as one of the worst temptations confronting man today. He even goes so far as to suggest it is the only one that it requires the power of the Holy Spirit to overcome. He dismisses the general teachings of the Bible as not applicable to strong drink and then quotes and refers to verse after verse of such general statements in support of his own arguments. And then, I suppose, considers that he has argued the reasons for prohibition of alcoholic beverages out of existence instead of merely showing up the exceeding weakness of the case against it.

I would repeat my challenge contained in the paper referred to, which Mr. Bagley has not accepted. Since he has fired his big guns and exhausted his scriptural ammunition judgment on this question may, thus, fairly be said to have "gone by default."

"I challenge anyone to produce any statement in the Scripture about which there is absolute certainty as to the meaning, approving the use of alcoholic liquors as a beverage."

Not one verse quoted or referred to can be taken as fulfilling the above condition.

Nor despite his references to belittling the Bible, or "throwing the Bible" overboard, has Mr. Bagley been able to disprove the statement that "the Bible does not pretend to be a book of specific regulations concerning every phase of human conduct. If it did neither Mr. Guise-Bagley or Mr. Burnham would have any use of a law-library and the Bible would be their most used book, which is probably not the case at present."

His laboured arguments (re temptations), inferences (re Christ and Paul using alcoholic beverages) and "interpretations (re denouncing total abstainers, loving thy neighbour as thyself, etc.), all go to prove the truth of the above statement. Moreover, I was arguing the question of the right and wrong of man prohibiting the manufacture and sale of alcoholic liquors by his fellowman. Total abstinence is a different question. There were a great many total abstainers when there was no prohibition. No where in the Bible can Mr. Bagley find any verse against man being a total abstainer. Because as Mr. Bagley argues by means of copious references and quotations the Bible teaches that man should not be intemperate in the use of strong drink, it does not follow that he should use it. Because Paul said "Now, every man that striveth for the mastery is temperate in all things," does not necessarily mean that he is to do all things and use all things, as long as he does so temperately. Because God pronounced everything in creation "good" and Paul said, "Every creature of God is good," we have no right to infer we should eat and drink everything in the universe.

Let Mr. Bagley apply his arguments to strychnine and belladonna and watch the result. On the other hand, Paul approved of teetotalism in relation to alcohol when he said in Romans 14:21, "It is good neither to eat flesh nor TO DRINK WINE, nor anything whereby thy brother stumbleth, or is offended, or is made weak."

Mr. Bagley say, "If the present generation of theologians were right the Apostle would have said, 'Do not ordain men given to wine at all.'" It happens that he did say this in reference to bishops. In Timothy 3:2, we read, "A bishop, then, must be blameless." Now what are the qualifications for this "blamelessness?" "The husband of one wife, vigilant, sober, of good behavior, given to hospitality NOT GIVEN TO WINE." It is quite evident that a man given to wine would not be considered blameless by St. Paul. Mr. Bagley accused St. Paul of being "given to win." Surely Mr. Bagley would not infer that the "inspired Apostle" did not practice what he preached.

Mr. Bagley also accuses Christ of being a "drinker of wine." Let me quote the passage he refers to, "The son of man came eating and drinking and THEY SAY, behold a man gluttonous and a WINE-BIBBER." Evidently THEY are saying the same thing today and the followers of Christ will resent the accusation just as they did in times past.

I do not follow Mr. Bagley's arguments concerning temptation. His logic is faulty as he switches his subject and gets man and God terrible confused during the process. He says, "God deliberately put temptation in the garden of Eden." The "inspired Apostle" Paul said, "Let us not, therefore, judge one another, but judge this rather that no MAN put a stumbling block or an occasion to fall in his brother's way."

In James 1:13 I read, "Let no man say, when he is tempted, I am tempted of God: for God cannot be tempted with evil, neither tempteth he any man." Mr. Bagley says, "God deliberately put temptation in the garden of Eden." In "inspired Apostle" James says, "Neither tempteth he any man." I repeat, "If these men are so willing to accept the teachings of the Bible on this question, why are they not willing to accept all its teachings?"

Most assuredly, I shall always strive to "remove all cause of temptation from the world," in so far as lies in my power. The Bible teaches that temptation is a "snare of the devil" rather than prohibition. Both Christ and Eve were "tempted of the devil" and he tempts men today and I shall do my best to remove any devices he can use for the purpose. The day of letting a man become a drunkard, inebriate, or criminal, by deliberately allowing temptation to be placed in his way and then throwing him into jail to keep him off "the street" is past and gone. Men are beginning to love their neighbour as themselves and they have a far higher conception of this than Mr. Bagley. He declares, "The best he can find is love thy neighbour as thyself and in the last analysis this means if you find a man dying on the street or at home of heart failure, he may die rather than allow him to have what God has provided for his relief and preservation." Truly, if this is Mr. Bagley's "interpretation" of the verse he is far from accepting even the rudimentary teachings of Christianity. Surely there is some mistake in the printing of this sentence!

Mr. Bagley takes exception to what he calls my "disparaging remarks" as to the quality of his religion and bronds my language as intemperate. Let me quote a few of his statements:

"They would crucify Him today just as willingly as the Phausees of A. D. 33 did."

"The teetotaler rejoiced to see a man reeling on the street."

"The prohibitionist links armes with the bootlegger."

It is about time men who use such irrational and intemperate language as the above, in the public press received a check. When they do, they immediately whine about an infringement of their prerogative. When a man talks about Christ being "hauled up before a magistrate" and challenges every minister of the gospel to debate, whether he would be or not in an imaginary circumstances and talks about the men of today removing the causes of temptation from the world so that the ministers of the gospel may earn their salaries more easily, the average man would not credit him with being very religious in the ordinarily accepted meaning of the term.

Mr. Bagley says, "So the men of today seek by their fleshly devices to bolster up the Bible."

I would say, "So some men of today seek by the Bible to bolster up their fleshly devices."

Yours sincerely,
ARTHUR D. HONE.

HOUSEHOLD NECESSITY

Gillett's Lye has long been regarded as a household necessity because of the fact that it is useful in so many ways, and so satisfactory in every respect that no woman feels that she can keep house without it. Makes the finest kind of soap for washing and cleansing. One can of Gillett's Lye will make ten pounds of good soap in twenty minutes. Many of its uses are shown in booklet under the label.

"GILLETT'S LYE EATS DIRT"

Made in Canada

Cook's Cotton Root Compound.

A safe, reliable regulating medicine. Sold in three degrees of strength—No. 1, $1; No. 2, $3; No. 3, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: THE COOK MEDICINE CO. TORONTO, ONT. (Formerly Windsor.)

JUSTICE IN PEACE TREATY

(Ex-President Taft in Chicago News.)

The resolutions of the women's world peace conference at Bern are easily explained. The conference is made up of extreme pacifists, Germans and others, whose chief mental strength is in their power to exclude facts from their consideration. If they do not approve facts, they ignore them. This does not hurt the facts, or prevent their necessary operation toward inevitable results. It only renders the conclusions of these intensive idealists highly important except in research into psychological phenomena.

The resolutions smite hip and thigh the treaty with Germany. Germany is protesting against it, and threatening to reject the terms, no matter what happens. The pope has intervened to ask mitigation of the terms.

The attack upon the treaty with Germany is unwarranted. There is no violation as against Germany of the rule of self-determination referred to in the fourteen points which a reasonable construction of those points does not justify as an exception. Thus in that one of the points providing for the rehabilitation of the Polish nation out of the territories of which Russia, Prussia and Austria had robbed Poland, provision was made for giving the restored Poland access to the sea. How could this be done except by a corridor from the limits of Prussian Poland, with Posen as its capital, to Danzig on the Baltic?

The part of the corridor which is non-Polish is not large and full freedom of transit is allowed to Germans between their main territory and East Prussia, while Danzig is made a free city. Such a rule as that of self-determination is only general and is impossible of exact application. Moreover, in the case in hand, the recognized necessity for Polish access to the sea makes it inapplicable. In respect to East Prussia and Schleswig-Holstein, the issue is left to self-determination.

In regard to the Saar valley, the circumstances are extraordinary. Never before in the history of warfare, modern or ancient, had a belligerent planned and carried out so ruthless, so cruel a scheme of destruction and devastation of a country as Germany did in northern France. It was Germany's deliberate purpose to make that country, normally the heart of the industries of France, entirely unproductive for a long period. With fiendish ingenuity the Germans blew up and filled up the mines at Lens and elsewhere so that only after years of work can they be made useful again. Forests and fruit trees came within their plan of annihilation, though no military exigency required it. They were looking far beyond the war. They were hoping permanently to destroy France's competition with them. They anticipated a victory which should enable them to use this crippling of a competitor to the best commercial advantage.

Can any one but sublimated pacifists contend that the Germans who caused this loss should not be made to repair it? At the instance of the allies and with the consent of Mr. Wilson, the fourteen points at the basis of the armistice were modified by a requirement of full indemnity. Such a principle of common justice, of course, can have no place with these Alices in Wonderland at Bern, but it does appeal to the ordinary which uses its logical process with facts.

Now the damage inflicted by the Germans in this savage orgy of permanent destruction was so enormous that they cannot compensate for it in money. Therefore, the only course open is to secure to France, by reprisal, mines of Germany near at hand, from which France can in time recoup its loss. The Saar valley mines near the Franco-German border offer the solution. It involves taking with them a comparatively small tract of German territory and a comparatively small number of German residents into the French jurisdiction for fifteen years, after which the principle of self-determination is to apply. The which sovereignty they prefer. The excesses of the Germans compelled this solution. No better one has been suggestion by which adequate indemnity can be secured for the specific outrage upon France. The minor departure from the rule of self-determination is fully offset by the more controlling equity which German crime has created.

The treaty requirements as to shipping, too, are only just reprisals for the inhuman and unlawful submarine warfare that the German navy waged against the shipping of the world with the full encouragement of the German people. The consequent destruction of the means of world transportation is an important factor in the present famished condition of many peoples.

The German government created and managed industrial trusts against the world. It would be most unfair to permit the resumption of this piratical course in competition with France and Belgium and other countries, whose industrial power has been thus permanently disabled. For these reasons the allies imposed the restriction upon German methods of organization of Germany's indutrial production and trade, and the requirement that the German government shall consent to an unburdened railway, freight and passenger transit [illegible]er countries into and through its territory.

That the Bern pacifists should object to limitation upon German armament would be logically at pariance with their fundamental principles. But logical sequence plays no part in their conclusions. They do object to the cutting down of Germany's military establishment. They ignore the fact that such reduction will secure reduction of the allies' armament by the eighth article of the league constitution. Moreover, such a limitation is only reasonable self-defense against a revival of militarism in a Germany whose unrepentant attitude since the armistice is as egregious as is the blindness to it among the "Wonderland" delegates to Bern.

Discovered Himself

Mrs. Diff—How's your good husband getting along?

Mrs. Biff—Fine! Gone to work again at good pay.

Mrs. Diff (astonished)—But I thought he had Saint Vitus' dance?

Mrs. Biff—He has; but he learned to play a saxophone and then got a swell job with a jazz orchestra in a cabaret.

Rev. Father Roche urges generous support to rebuild the St. Thomas College, St. John, N.B., recently burned.

Monroe Doctrine Chalenged

WHAT is the Monroe Doctrine? What relation has it to the doctrine of Infant Damnation, or the Kniepe Cure, or other doctrines that have forced themselves upon the consideration of humanity? Why was it called a doctrine? The answer to the last question is easiest and comes first. When Dr. Johnson compiled his famous dictionary, and defining the meaning of the word "stifle" as applied to a part of a horse, made a grotesque mistake, perhaps under the impression that a stifle had something to do with the horse's breathing apparatus, he was taken to account by a brilliant lady critic who happened to have seen a stifle in real life. "How did you come to make such a mistake, doctor?" she enquired winsomely. "Ignorance, madame; sheer ignorance," said Johnson; and of all the brilliant things that he said or that have been credited to him, this honest answer is the best, in the opinion of the present writer. The same answer must be applied to the third and easiest question as to why it is called a doctrine.

Canadians have heard of the Monroe Doctrine as frequently as their American cousins. Americans accept it as they accept the proposition that men are born free and equal, and as they accept every other proposition of the Declaration of Independence. Canadians may entertain their private doubts that men are born free and equal, but they do not dispute the Monroe Doctrine. They have acquiesced in it. Now the Monroe Doctrine has to stand up and prove its right to existence, rather a difficult thing for a doctrine [illegible] was laid down almost a hundred years ago. However, the Euclid Doctrine has survived this test and the American people are determined that Monroe shall not suffer by comparison. The question has been raised by the proceedings of the professors in Paris, who, in the opinion of many Americans, trying to make over the world, have laid ruthless hands upon some treasures that they will not readily exchange for any benefits or gold bricks that the conference can hold out. If the United States is to enter into a covenant that is to govern the whole world, abrogating in the process old and secret treaties, she must herself be ready to see her own particular and private principles sacrificed in the interests of the world, because the whole is greater than any part. (See Euclid.)

The United States, for instance, can hardly pretend that the Western Hemisphere, North and South America alike, is her particular province, and insist that in the other hemisphere, in the other continents, she shall exercise an influence, too. What stands in the way, apparently, is the Monroe Doctrine, and this gives point to the question, "What is the Monroe Doctrine?" Here it is in the only text available:

"In the wars of the European powers in matters relating to themselves we have never taken any part nor does it comport with our policy so to do. It is only when our rights are invaded or seriously menaced that we resent injuries or make preparation for our defence. With the movements in this hemisphere we are of necessity more immediately connected, and by causes which must be obvious to all enlightened and impartial observers. The political system of the allied powers is essentially different in this respect from that of America.

"We owe it, therefore, to candor, and to the amicable relations existing between the United States and those powers, to declare that we should consider any attempt on their part to extend their system to any portion of this hemisphere as dangerous to our peace and safety. With the existing colonies or dependencies of any European power we have not interfered and shall not interfere. But with the Governments who have declared their independence and maintained it, and whose independence we have on great consideration and on just principles acknowledged, we could not view any interposition for the purpose of oppressing them or controlling in any other manner their destinies by any European power in any other light than as the manifestation of an unfriendly disposition toward the United States. It is impossible that the allied powers should extend their political system to any portion of either continent without endangering our peace and happiness; nor can anyone believe that our southern brethren if left to themselves would adopt it of their own accord. It is equally impossible, therefore, that we should behold such interposition in any form with indifference."

The statement was never recognised by Congress or supported by legislation, and yet it has become one of the pillars of American policy. The fact that the state declaration had been suggested by Great Britain, because she had grabbed everything that was loose on this continent, as her enemies say, and thus put the United States in the position of defending British possessions in America, has not weakened American adherence to it. The doctrine was invoked by President Cleveland in 1895 when Great Britain had a dispute over the Venezuelan boundary. The President's stand seemed to bring the two countries to the verge of war, and has made Cleveland's name infamous in this country. President Roosevelt somewhat extended the scope of the doctrine when he accepted the Drago Doctrine, to the effect that European powers could not invade American soil for the purpose of collecting their debts, an action which had the effect of making the United States to some extent responsible for the debts, although not quite to the extent of making the United States settle the debts.

SHOULD MATCH CAMISOLE

Newer Type of Blouse Affords Ugly Discrepancy Between Waist and Skirt Sections.

Is anything uglier than the transparent peplum blouse worn with a light camisole or corset cover? It was bad enough with the old-time blouse that ended at the belt line, but when the newer type of blouse is worn thus there is an ugly discrepancy between the waist section and the skirt section of the blouse.

Of course, where the front and back panel of the blouse are of some heavier material the effect is quite satisfactory. But when georgette or chiffon is used then one really needs a dark camisole. It is not always easy to buy these, although they are to be had in navy blue, one or two shades of brown, green and the other usual suit shades. But they are not difficult to make, and you should have one or two to go with every suit.

Soft satin of some sort is a good selection for the fabric, although crepe de chine is also good. They can be finished at the top with machine hemstitching, such as you can have done at a dressmakers' supply store, and the shoulder straps may either be made of ribbon to match or some of the fabric finished with a narrow hemstitching of the same sort. Needless to say, they should be adjusted so that none of the lighter lingerie appears above the dark camisole.

NP SOAP

Indispensable to Wash day

An Oddity In Cannons.

Probably you have heard of the multi-barrelled pistols of the so-called pepper-box design, which were popular a couple of generations ago. While you have possibly heard, too, of the multi-charge cannon, in which powder chambers were arranged along the gun-tube, so as to add impetus to the projectile as it passed along the barrel.

But have you ever heard of the double-barrelled cannon. Probably not, for there is only one in existence. You may find it on the Town Hall lawn at Athens, in the United States.

The idea of this extraordinary piece of artillery was to attach the ends of a chain, about 50 feet in length, to two cannon-balls, which formed the charge. It was hoped that when these two cannon-balls left the barrels they would diverge, draw the chain taut, and cut a wide swath through whatever was in front of them.

But, alas! when the test came, one of the cannon-balls got a slight start over the other, with the result that the projectiles and chain developed a wild, whirling motion, ploughing up the ground all round, and scattering the terrified spectators.

Thus another item was added to that list of inventions which only work "on paper."—Tit-Bits.

His Complaint.

"Jenn," said an overlooker to his wife, "tha never put me any sugar in my tay this morn'." "Eh, Tom," said Jenny, "and it will often occur while we hev such scanty rations." "Well," said Tom, "when it happens agen, th' mun let me know." "Still, Tom," argued Jenny, "were ignorance is bliss 'tis folly to be wise." "Bliss be blowed," said Tom; "aw'm no gooin' to waste my strength stirring up tay when I don't need to."

Port Wine.

Oporto, Portugal, despite revolutionary conditions, exported in a recent month, 2,124,980 gallons of wine. England was the largest purchaser, followed in turn by France and Brazil.

Layman's Services Indispensable.

The reverend doctor on his way to his summer place with a deacon of his church, came panting into the ferryhouse only to find the boat pulling out of the slip. There was a flashily-dressed individual present who shared their disappointment—but in a different way. He let out a string of expletives almost as long as the string of blooded race horses he wanted to put aboard the fast receding boat. The minister turned to his comrade and remarked: "Deacon, there are times when the services of a layman are absolutely indispensable."

Protection in England

FREE trade newspapers are sharply criticizing the Government's policy regarding importations, as disclosed by Sir Auckland Geddes, Minister for National Service and Reconstruction, in the House of Commons, when he said that all importations of manufactured and semi-manufactured commodities which are permitted to enter Great Britain will be controlled by a system of special licenses until September 1, when the question will be "reviewed."

The newspapers denounce this proposal as an attempt to introduce protection without any mandate from the voters, insist that a great majority of the voters are opposed to a protective system and declare that England is still a free-trade country at heart. They say that "Great Britain gained her commercial and financial supremacy through free trade and can hold it only by free trade."

One point on which newspapers of all shades and views on the tariff are agreed is that after British manufacturers and merchants have enjoyed the sort of protection afforded them by the license system, the "vested interests will have been upbuilt, or at least fostered, which will make it difficult to revert to a free trade basis."

From the viewpoint of importers, the license system handicaps them with all the disadvantages of a protective tariff without stabilizing virtue of certainty. They say that with a protective tariff of 30 or 40 per cent. or any specific rate, they would know where they stand and might adjust prices and do business in accordance with well-known conditions. At present they do not know whether to plan to do any business, because they cannot count on being licensed to import any given quantity of products or on being prohibited altogether from making imports.

The Government, however, is able to present strong reasons for special measures. British industries have been torn to pieces by the war. They have been compelled to give up all ordinary business, transform their plants into munition factories and take orders from the Government. They have virtually submerged themselves in the Government machine and now claim that the Government is under obligations to give them help and protection in the broadest sense during a breathing spell sufficient for them to readjust themselves to peace conditions.

England is swarming with American business who came over fully expecting to re-establish their old connections as soon as the vital factor of tonnage permitted. They realized that while the war was being waged the Allied Governments had the first call on shipping, regardless of private interests. They have the tonnage now, but find that official barriers have been erected against their using it.

Some think they have a grievance. They kept up their British establishments at a loss during the war on the expectation of doing business again immediately after the close of the struggle.

The process of obtaining import licenses is that each prospective importer must present his case to the Board of Trade and to the Controller of Imports. Each case is dealt with on its merits, as the controller judges it from the importers' standpoint and the Board of Trade's first consideration is whether the goods in question can be obtained from British firms. If they can, the license is refused. If importer makes a particularly strong case for special consideration, he will be permitted to ship limited quantities.

Conspicuous among the American products which find themselves against what virtually amounts to a stonewall are motors, boots and typewriters which cost from $200 to $300 in England to-day.

It is said a great British company which has hitherto devoted its plants to manufacture of implements of war is paying tribute to the prospective league of nations by transforming its works into factories for the manufacture of typewriting machines. Sir Donald MacLean, Liberal leader, asked in the House of Commons whether the Government had not given guarantees to the soap-making industry. France is concerned with that question, because Marseilles has hitherto been the world's most important base for soap products, and is is reported that an English interest has planned big works there.

The self-governing dominions of Great Britain are exempt from the difficulties the Government's implies on foreign merchants.

The Associated Press attempts merely to describe the situation because it is a subject of great interest to business men everywhere and a source of controversy between different schools of British economists. It is looked upon as the beginning of an important chapter in the after-the-war economic adjustment.

The arguments of the free traders have been roughly summarized by the London Post, which is the strongest protectionist paper in Great Britain. It also points out the possible weakness of the temporary licensing measure, saying:

"We believe the licensing system is a vicious system. It leads to favoritism and corruption and leaves too much discretion in the hands of officials. At the beginning of the war, if the Government had been honest, it would have accepted the logic of the situation and imposed a tariff, but sooner or later a tariff must come."

Because of the high price of steel the large rolling mills in connection with the Canadian Steel Foundries have been closed.

Cry tomorrow, if you must, but laugh today.

FORDSON FARM TRACTOR

Demonstration

We have made complete arrangements whereby the Duffus Garage will on

JUNE 12th and 13th

give a Tractor Demonstration on some farm adjacent to Peterborough, at which we will show Fordson Tractors, Plows, Disc Harrows, Pulverizer and Seed Drill in operation.

This will afford an excellent opportunity for those who attend to see the advantage of these machines as compared with the ordinary horse-driven appliances. Further information will be announced later.

Farmer Candidate For East Peterboro

E. N. McDonald, U. F. O. director for Peterborough county, in a letter to the Farmers' Sun, says that the county meeting for the election of officers and the choosing of a candidate to contest he East Riding will will be held during the first week in June.

Much conjecture is being indulged in as to who will be selected as the U. F. O. standard bearer.

Fire occurred in the cabin of the steamer Stathos at the dock in Quebec.

FARM LOANS for SOLDIERS

Agricultural Training For Soldier Settlers

A SOLDIER is entitled to the benefits of the Soldier Settlement Act if he can satisfy the Agricultural Qualification Committee in his district that—

(a) He has performed the required military service;

(b) He is sincere in his intention to make farming his permanent occupation;

(c) He is physically capable and is fitted in general to make a success of the farming business.

If he is otherwise qualified, but has not had sufficient practical agricultural experience, the Committee may recommend that he be given agricultural training. A generous scale of allowances for soldiers in training has been adopted.

BUY W.S.S. WAR-SAVINGS STAMPS

Training Centres For Soldier Settlers

The applicant who is recommended for instruction in agriculture may first be sent to a Training Centre, specially operated for the purpose, where he will learn, by practical experience, how to handle and feed horses and other live stock; milking; the operation of farm machinery, ploughing, etc.; general farm building work; farm blacksmithing; the different kinds of soil and rotation of crops; the selection and judging of live stock and the marketing of farm products. Short lectures on the business management of a farm will be given.

With A Selected Farmer

After the course at the Training Centre, the length of which depends on the progress of the individual but will not exceed three months, the man is placed with a carefully selected farmer in the district in which he intends to settle, to complete his training. During this period (not exceeding one year), the soldier is visited from time to time by representatives of the Soldier Settlement Board, who check his progress and recommend when he is considered qualified to take up a farm of his own.

It will be evident that by this system of preliminary training the soldier settler will gain a thorough practical knowledge of farming without expense; will learn to appreciate the responsibility involved in the venture, and at the same time gain a clear conception of just what farm life means.

On His Own Farm

When a settler is deemed qualified by the Agricultural Qualification Committee, the Board will assist him to become established on a farm of his own, and will, through its Agricultural Advisers, continue to co-operate with him in his work, thereby ensuring his success and consequent ability to discharge his obligations and become permanently established.

Fair To Both

The procedure outlined not only gives the soldier an opportunity of first becoming familiar with his environment and of acquiring the experience requisite to success, but ensures adding to the nation's fundamental industry only competent and satisfied producers.

Detailed information regarding the provisions of the Soldier Settlement Act and further particulars regarding agricultural training may be obtained from the Provincial Superintendent, 32 Adelaide Street East, Toronto, Ont.

Hundreds Of Men Thought

Regent Tailors Suits

Well Worth Waiting For

THESE HAVE BEEN VERY BUSY WEEKS AT THE REGENT TAILORS' SHOPS. NEVER DID ORDERS POUR IN SO FAST, FROM BOTH CITY AND COUNTRY, AS DURING THE DAYS PRECEDING THE FOLLOWING EASTER AND UP TO THE 24TH OF MAY. FOR A TIME WE WERE ALMOST OVERWHELMED WITH WORK. OLD CUSTOMERS CAME BACK AND BROUGHT NEW ONES—SCORES OF NEW ONES CAME THEMSELVES—AND HUNDREDS OF SOLDIERS GETTING BACK INTO CIVIES CAME TO US FOR THEIR OUTFIT BECAUSE THEY REALIZED THEY WERE SURE OF GETTING A SQUARE DEAL. OF COURSE, MANY HAD TO WAIT FOR THEIR ORDER TO BE FILLED, BUT IN NEARLY EVERY CASE THEY DID SO WILLINGLY AND CHEERFULLY. THEY CONSIDERED THE SUITS WELL WORTH WAITING FOR.

Needless to say, this generous appreciation by the public of Regent Tailors' service was extremely gratifying to us. We decided to increase our facilities in order to give even better service, and as our present tailoring shops could not be enlarged we secured two smaller ones. Now we are in a much better position to take care of all orders and ensure prompt delivery. We can now promise customers their suits in reasonable time.

Regent Tailors' $21.00
SUITS AND OVERCOATS
Made to Measure or Ready-To-Wear for

Are Canada's Greatest Tailoring Values

An organization such as this, where the active head of every department is an interested stockholder—which buys its cloth direct from the makers, saving all middlemen's commissions—is in a position to give its customers THE GREATEST VALUE POSSIBLE FOR EVERY DOLLAR. Thousands of men have come to know this, and that is why they buy Regent Tailors' suits in preference to all others.

CAROLINE ISLANDS A PUZZLE.

Scientists Do Not Know Who Built Venice of the Pacific.

Whatever the political future of the Caroline Islands, which Japan seized from Germany, they are bound to be objects of scientific interest for generations to come. Who built the massive stone structures which give evidence of a high degree of civilization at some prehistoric time?

What was the origin of the stone currency, some "coins" of which weigh five tons?

These are but two of the many questions which these Pacific Islands of mystery present.

The stone ruins extend from Ponape, an island toward the east of the group, to Yap, on the west.

On Yap are great stone terraces, embankments, and roads, composed of neatly laid stone blocks, stone graves, stone platforms, and enormous chambers resembling council lodges with gables and tall pillars, frequently carved.

Ponape discloses the "Pacific Venice." There the ruins are partly submerged. Apparently they once stood on an island city, unless their site was connected with other islands before a terrific upheaval inundated them.

What remain to-day are more than half a hundred rectangular walled islets, projecting above the waters of a lagoon. There is an outer lagoon separated by a breakwater three miles long. In all this construction huge basalt blocks were used. Apparently they were untouched by iron tools.

Origin of the unique stone coinage is not known. Shell money seems to have supplanted the unwieldy stone disks for "small change" long before the white man arrived. The stone "money" is made from limestone or calcite. It probably was employed for primitive banking rather than for general circulation. Its security from theft was assured by its weight. Specimens are found piled about the homes of native chieftains.

Including reefs not inhabited the Caroline Islands number more than 500. Of the total land area of 380 square miles, 307 square miles are comprised in Ponape, Yap, Kusaie, and Hogulu, or Truk. In 1911 the total population was about 55,000, and of these fewer than 400 were Europeans.

The islands extend for about 1,000 miles east and west. They lie more than 1,500 miles to the east of the Philippine and about 1,000 miles north of New Guinea.

Air Resistance.

The effects of air resistance are well shown in the 12½-mile Simplon tunnel, where an exceptionally high amount of energy is required for running the electric trains. The tunnel, which is fifteen feet wide and eighteen feet high, with a sectional area of 250 square feet, has a ventilating current of 3,530 square feet of air a second, maintained by two large blast fans at the Brique end and two exhaust fans at Iselle. Trains going with this current encounter less resistance than in open air up to 15½ miles an hour, but in higher speeds or in the opposite direction the resistance is much greater than outside. Coasting by gravity down the 7 to 1,000 maximum gradient, a train, even though going with the current, can not exceed thirty-five miles an hour on account of the breaking by the air.

Milton intends to ask the Ontario Government for sanction to build a High School.

Sudbury Housing Commission refused the tenders for twelve houses as too high.

WITCH DOCTORS OF CUBA [illegible]

Al[illegible] Have [illegible] Boy's Heart to Use as "Cure-All."

All Cuba is shocked by the murder of a little boy shepherd of the Agramonte district, whose heart was removed, in the general opinion of the authorities, by "witch doctors," who hold the belief that meat of the human heart is a cure-all. Cuban mothers are guarding their children with extreme vigilance. The whole country-side is alarmed, and residents of cities appalled [illegible] reports of the outrage.

Marcelo Lopez, nine years [illegible] was a shepherd on the estate Lengua de Pajaros (Language of the Birds). A few days ago his father, Juan Lopez, reported that the boy was missing. His sheep had scattered and strayed.

Neighbors joined in a search for the boy which lasted through the night and morning.

Then his body was found concealed in the weeds beneath a canopy of green brush. The body was mutilated to an extent that evidenced an attack more violent than necessary to kill. A physician was summoned from a distant community. He performed a thorough autopsy. He found the heart missing. It had been torn out through a crude incision.

Existence of a cult of "witch doctors" who believe the human heart possesses power to heal all ills of the body has been reported in Cuba for a long time, but was discredited by many. The "witch doctors" thrive on the ignorant and superstitious laborers.

Here is a translation of a report of the tragedy in a Cuban newspaper:

"As soon as the character of the wounds was known it became evident to them (the searchers) that the poor little shepherd had been the victim of the witches, of those who with the heart of a child make their remedies, believing them the panacea for the most unconquerable infirmities, for misfortunes most cruel and those that appear most incurable.

"To whom, then, but to the witches can be attributed this crime? Because of this the whole community of Agramonte has clamored since yesterday to punish the murderer or murderers. For this all the country is raising a new cry of horror and of fury against this new exploit of the satanic and stupid sect of the witches."

NO EXCUSE FOR UGLY HATS

Advance Headgear Models Show Variety From Which Most Fastidious Can Be Suited.

There should be no excuse for a woman selecting an ugly or unbecoming hat this season, judging from the variety of attractive advance models on view. The milliners seem to have taken thought for every feminine type. There are turbans high and low, flaring and narrow, tall-crowned narrow brimmed hats, low-crowned, broad-brimmed hats, models turned up at the front, at the back or at the side, pokes and tricornes, and among them all any woman should be able to find the design that particularly suits her.

There is a pronounced use of fabrics such as tulle, georgette crepe and satin, and in matter of trimmings feathers have taken on amazing forms, while flowers are often conventional to the point of perversity. Fruits, particularly of the extremely natural variety, are among the trimmings which are looked upon with increasing favor, and the more conventional ornaments of ribbons, wings and ostrich tips are always in the background.

Foliage, wheat-ears in various colors, fringe, cords and tassels, embroidered jet, beaded ornaments, pins and buckles all play their part in the amazing variety of decoration which is used so sparingly on the individual hat.

Coal Mine Areas.

A good authority gives the coal areas of the world in square miles as follows: United States, 192,000; British America, 18,000; Great Britain, 12,000; Spain, 4,000; France, 2,000; Germany, 1,800; Belgium, 518; rest of Europe, 100,000; China, 2,000; Japan, 5,000. Coal is found in commercial quantities in twenty-eight of the states and territories of the United States.

CANADIAN BOOK FOR CANADIANS

COL. NASMITH HAS WRITTEN OF CANADA'S PART IN WAR

The John C. Winston Co., Limited, of Toronto, announce the early publication of "Canada's Sons and Great Britain in the World War," by Colonel George G. Nasmith, C.M.G., M.A., Ph.D., D.Sc., who served with the Canadian Expeditionary Force in France and Belgium, with an introduction by General Sir Arthur Currie, Commander in chief of the Canadian Corps. A great portion of the book is compiled from notes made on the battlefield by Colonel Nasmith, and the descriptions of the various engagements, written by an eyewitness, have an intimate appeal that no amount of long-distance reporting could convey.

Colonel Nasmith was born in Toronto, in 1877, and gained his bachelor's degree from the University of Toronto in 1900; M.A., in 1903; Ph.D., 1903; D.Sc., 1916; D.P.H., 1919. He was chemist for the Provincial Board of Health, Toronto, 1903-09; Director of Laboratories, Department of Health, Toronto, 1909-18. He went overseas with the Canadian forces in the World War and was in the thick of the fighting in the first gas attack of the Germans at Ypres and in many subsequent engagements. It was he who first reported the nature of the poison gas used by the Germans in 1915, and suggested the use of the protective masks. He first suggested the use of chlorine for purifying water for an army in the field (1909). The mobile filter now used by the British army is the result of his suggestions. Besides many technical papers, Colonel Nasmith published "On the Fringe of the Great Fight," in 1918. This new book, which the Toronto publishers have scheduled, will cover the entire scope of the war. It is the purpose of the publishers to copyright and manufacture the book in Canada.

Some of the chapter titles are: "Canada in War Time;" "The Sailing of the Thirty-three Transports from Canada." "The Canadians on Salisbury Plain." "The Princess Patricias in Action." "Canadians Save the Situation at Ypres" "The Storming of Passchendaele;" "Keeping Our Canadians Fit;" "The Canadian Auxiliary Services;" "With the Canadian Airmen;" "Canadians Win Mons;" "The Record of the Canadian Army Corps." Besides these purely Canadian topics, there are chapters devoted to the Anzacs at Gallipoli, the great naval fight at [illegible], the help given by the United States, the blockig of the harbor of Zeebruggee by the British Navy, the achievements of Italy, Japan and the other allies and the dramatic revolution in Russia. Colonel Nasmith has dwelt most upon the splendid work of the Canadians, but he has interspersed a record of the war on other fronts, so that the reader is kept in constant touch with contemporaneous happenings.

This will be a large octavo book of over 600 pages and will be copiously illustrated with maps and official photographs. Because of the very large demand assured for the book, and in order to insure that this will be recognized as the popular history of Canada's Participation in the World War, it has been arranged to sell it as low as $3.50.

LESSONS IN RIGHT LIVING

By Dr. W. A. BRADY

When a patient declares she cannot take milk or eggs or tomatoes, or pork or something, just simply cannot eat even a wee bit without being all upset by it, it is customary for the doctor to pooh-pooh the notion and set it down as a whim. But we are gradually learning things; if medical science continues for the next fifty years to keep up the rate of advance it has made the past fifty years the doctors are going to know as much as they pretended to know fifty years ago.

No doctor knows as much as he seems to know and it is discouraging to see the great medical authority for the first time. He generally looks as though he doesn't know enough to come in out of the rain. When Mayo first butted in on a scientific discussion at a great medical meeting all the high brows present were peeved at the country fellow's audacity, but before he finished his remarks they were listening eagerly. Not that the country doctor looked particularly green, but he wasn't made up in the popularly accepted style of the eminent city specialist. Eminence in specialism, by the way, is about nine-tenths bluff and one-tenth ability.

We no longer deny food idiosyncrasies; we merely give them another name. The peculiar disturbance caused in certain individuals by milk, egg, lobster, strawberries, oatmeal, pork buckwheat or other food is known as allergy or anaphylaxis. Be it just hives, or erythromelalgia (big red pain), or erythema (general itching rash), or angio-neurotic oedema (swellings of large areas of skin), or asthma, or eszema, or a severe digestive upset, it is produced by some protein (nitrogenous substance) in the protein the individual is "sensitized" in some unknown way. If the particular protein can be determined, as it usually can, by means of skin inoculation tests with various purified proteins available for the purpose, the victim may be relieved of his allergy or idiosyncrasy, and incidentally of the disturbance dependent on it, by gradually increasing doses of the protein hypodermically administered over a reasonable period of weeks. This is known as desensitization and with patience and perseverance and time (which, alas, costs money), desensitization offers an excellent chance for prolonged if not permanent relief from a great many troubles due to allergy.

One curious circumstance in cases of known food idiosyncrasy or anaphylaxis is that for a limited time after a very uncomfortable reaction to the particular food, sometimes for several weeks, there may occur a period in the course of which the individual is immune to the food and may eat it with impunity; and in this phase the individual does not react to the skin inoculation test, either. This immune phase is similar to the immunity to certain bacteria (and their protein body substance) which follows various infectious diseases.

Young and Innocent.

"I am 17, weigh just 116 pounds and am 62— or 63 inches tall. My face and my whole body are so thin that people think I am only 14 years old. I haven't much of an appetite. Please, Mr. Brady, tell me something that will make me fat, without a lot of red tape and exercises. Even my bo says that he could love me just a little bit more if I was fatter.

"MISS R. S. M."

If exercising makes members of your sex fat, Rita, there are lots of women between 20 and 40 who must be working themselves to death. The normal average weight for a girl of 17, 62½ inches tall, is 118 pounds, so you are not so skinny. However, under 30 a moderate excess of weight is not only good to see but good to have; it is after 30 that a moderate excess becomes a menace to looks and to health. Another point in the case is that a girl under 20 scarcely needs a bo, as you call him; and take it from the doctor, Rita, when one's bo admits he could possible love one a wee trifle more under any circumstances, one has another bo coming. Try taking one yeastcake, mixed to fluid consistency with water, fruit juice or milk, after dinner and after supper every day for six or eight weeks.

The Adventurous Age.

"We are two girls of 15 and we saw the other night where girls of our age should be taught the truth of life, but when we ask our mothers any questions, they turn us off by telling us something far from this subject. We want to know what the charges are to go to a woman physician for instruction which we should have.

"BETTY AND MABEL."

The charges would be anywhere from zero to the usual office consultation fees of the physician. Depends on the physician and the girls. Send 3 cents to the American Medical Association, 535 North Dearborn street, Chicago, Ill., for copies of these pamphlets for girls: (1) "Margaret, the Doctor's Daughter," for girls 12 to 14; (2) "Life's Problems," for girls 15 to 18.

His Heart Out of the Way

Wounded Tommy (in hospital)—Yes, mum, I was shot right through there (pointing to his left side).

Visitor—Oh, but that is impossible the bullet would have gone straight through your heart.

Wounded Tommy—Me 'eart was in me mouth, mum."

The world may love a lover, but it hates a quitter.

NO TRICK AT CHURCH SHOP

"In God We Trust" Read a Sign at the Store.

An experiment in co-operation between business and church is being tried in the village of Massieville, Ross County, Ohio.

Parties to the experiment are members of the Scioto Holiness Church, a sect headed by Rev. John Rohrer, who settled in the village several years ago after preaching in Chillicothe.

The experiment was started recently when the church, steadily growing, took over a grocery. The store is known as "The Scioto Holiness Store," and is operated on a co-operative basis, under direction of Mr. Rohrer. Members of the sect, it is understood, are required to deal at the store exclusively. The business of outsiders is not solicited.

At the time of taking over the grocery the church opened its own school. About 25 children attended. The teacher is a member of the faith who formerly taught in the Massieville public school.

Many of the members have placed signs "In God We Trust," on their homes. Others have marked their homes "Mt. Calvary" and "Ebenezer Cottage." On the church store the sign "In God We Trust" also appears. The automobile used by church members bears the word "Jesus Only" on its side.

Once each month the church holds all day services. The members bring their lunches and frequently remain at the church until midnight. Many women of the faith which now numbers about 50, wear plain blue uniforms with cape bearing the words "Jesus only."

C. Pojtish, a Belgian lad, working in Meaford, is unable to find any trace of his parents.

Have You Ever Thought of This? —That a Cup of

"SALADA"
TEA

B581

properly infused, is one of Nature's greatest blessings as a harmless stimulating beverage.

Free as a Bird

"Lot of fun flying, I suppose."

"You bet."

"We'll all learn in time, no doubt."

"Better go in for it now before the air is all cluttered up with traffic rules."

To Lay the Jinx

Hale—Just picked up a quarter off the sidewalk.

Vale—You lucky beggar! I never found anything in my life.

Hale—Next time you sniff gas in your house, light a match and start looking for the leak.

Victory Bonds Bought

Those who may desire to sell Victory Bonds should come to my office or communicate with me. I buy Victory or War Bonds of all maturities, in any amount, and I am prepared to pay the best price.

Saturday is 99c Day At TURNBULLS

Just a little sum is 99c. But on Saturday your ninety-nine copper cents will have a wonderful purchasing power at this Store. Nearly every department has given its contribution in the way of attractive items for this event, and the bargains - in these days of high prices — are undoubtedly interesting

For, as we said before, 99c is a small sum of money, but it does big work for you on Saturday, at TURNBULLS

Decided Savings at the Wash Goods Counter Saturday

J. C. TURNBULL CO., Limited, Peterborough's Greatest Store

SPELLING REFORM IS BADLY NEEDED

POST-WAR ECONOMY IS PLEADED AS REASON FOR CHANGE.

After-war reconstruction ought to begin with the emasculation of the alphabet and a new economy in spelling, according to Professor Jos. V. Collins, and it is probably for this reason that he makes his suggestions for changes at a time when the whole world is talking of war and peace, and discussion of the topic of language would seem to be an intrusion.

Just to show what may be accomplished with his new system, Professor Collins rewrites the Twenty-third Psalm in this form:

"The Lord is my shepurd; Y shal not wwnt. He maceth me ty ly doun in grea pasty-rs; He leadeth me besyd the stil waturs. He restoreth my sol; He ledeth me in the pathz ov rytyuanes for His nam'z sac. Ya, the Y wwe thry the vall ov the shado ov deh, Y wil fer no evil; for Thou art with me; Thy rod and Thy staf tha comfort me Thou preparest a tabul before me in the prezens ov myn enemies; Thou anointest my hed wtih oil; my cup runeth ovur. Shavr'l gndnes and mursi shal folo me wi the daz ov my lyf, and Y wil twel in the hous o fthe Lord forever."

Reduced to figures, the Collins method is said to eliminate approximately 10 per cent. of the number of letters used in our present forms of spelling, and in the case of the Twenty-third Psalm the saving is 10.8 per cent. "As the printed matter of the United States runs every year over one billion dollars," writes the professor, "the saving from this source would be around one hundred million dollars annually." Broadly, the Collins system spells words as nearly as possible as they are pronounced, and a uniform pronounciation is given the letters. Four per cent. of space and time is said to be saved in dropping the articles "the" and "a."

As indicating the absurdity of present spelling, a table is printed showing that ten of the sounds in the language are printed and written in 177 ways. It is suggested that the proposed alphabet may be mastered in three minutes, and reading of the new form be easily possible in an hour or two of practice. With a vocabulary of 400 000 words, English, we may assume, is a fair field for economy of express on. We hope Professor Collins has discovered a usable system of economy, but to change a people's system of spelling the national language is as difficult as it would be to impose a new system of breathing. Health sharps have been instilling the virtues of nose breathing for many generations, yet there are many people who prefer to breathe through the mouth, and continue to do so Language and spelling are woven into the lives of the people. About the only way to change the present system would be to make it a war measure, and the subject of a Presidential proclamation, then perhaps, we would be led to the pathz ov langwaj rytyuanes and ekonomy in hurry-up order

Angus McLeod bank manager, of Sydney Mines is dead

DOCTOR'S PATIENT GAINS 17 POUNDS

PROMINENT PHSYICIAN CONTINUES TO USE TANLAC IN PRACTICE WITH SURPRISING RESULTS.

One of the strongest and most convincing evidences of the remarkable results being accomplished by Tanlac throughout the South is the large number of letters that are now being received daily from scores of well-known men and women who have been benefited by its use.

Among the large number that have been received recently none are more interesting than the following letter from Dr. J. T. Edwards, of Fayetteville, Ga. Dr. Edwards, it will be remembered recently gave Tanlac his unqualified indorsement in a public statement, and the testimonial published below was recently given him by one of his patients. His letter follows just as it was written:

Fayetteville, Ga.

Mr. G. F. Willis, Atlanta, Ga.
Dear Sir:—

I am enclosing you herewith statement I have just received from Mr. T. M. McGough. He sold out here and is moving to Turin, Ga. He was here this morning, and came in to tell me what Tanlac has done for him. He says too much cannot be said about Tanlac. It certainly has cured him.

Respectfully,
J. T. EDWARDS, M.D.

Mr. McGough's statement follows:

"I suffered from indigestion and could not eat anything but what would hurt me. Constipation gave me a great deal of trouble also. My symptoms were indigestion, heartburn, and gas on the stomach after eating. My appetite was irregular and my food failed to nourish me. This trouble caused me to get very poor—in fact I got so thin, and weak I was hardly able to go about.

"I bought three bottles of Tanlac on Dr Edwards' recommendation, and I am now feeling all right again, and am able to attend to business. I gained seventeen pounds in weight and am doing fine. Tanlac did the work.

"I now recommend Tanlac to everyone who is sick like I was, and wishes to take something that will help them."

Tanlac is sold in Peterborough by W. D. Warne Drug Co. Ltd., in Havelock by A. C. Denike, in Lakefield by Tanner Drug Co. Ltd., in Fowlers' Corners by W. A. Hunter, in Gelert by A. J. Scott, in Westwood by G. Pringle & Son.

WARSAW

Warsaw, May 30.—Miss Bessie Akins of Peterborough is at present sending a few days at her home in the village.

FEMININE LOGIC

The young lady across the way says she doesn't see how Secretary Glass can hope to keep short-term bonds at par under the present conditions, when those with four or five times as many coupons on them are below.

HERALDED PEACE THRICE

Bell in Chicago is Waiting to do it Again.

A bell which has rung out three times in the history of the United States in celebration of coming peace has been presented to the Chicago Historical Society by the vestrymen, the wardens and the rector of old St. Mark's church, East Thirty-sixth street and Cottage Grove avenue.

The bell was cast in 1861, when the church was built. It was made from medal taken from coins given by the soldiers and confederate prisoners at Camp Douglas. At the close of the Civil War it aided in spreading the glad tidings. It was used for a similar purpose at the close of the Spanish-American War, and when the armistice was signed in the recent war it again helped herald the news.

Isaac Johnston, aged 100 years, died at Halifax, N.S.

P.E.I. Legislature propose an education tax to supplement the teachers' salaries.

James Locke, Glace Bay, was killed by being struck on the head by a piece of wood at the Dominion Coal shop.

FREE PASSES TO TORONTO FAIR

The Canadian National Exhibition have donated 25 exhibition passes to the school which polls the most votes in the National War Savings competition, which is now taking place. This competition closes May 31st, 6 p.m.

The following is the standing of towns which have polled the greatest number of votes Wednesday night:

1.—Brantford.
2.—St. Catharines.
3.—Lindsay.
4.—Kitchener.
5.—Sudbury.

C.P.R. LOSES APPEAL

Order Turning Over Alien Stocks is Upheld.

Montreal, May 30.—The Court of Appeals dismissed the appeal of the Canadian Pacific Railway Company from an order given by Mr. Justice Duclos in the Superior Court under Section 28 of the consolidated orders-in-Council respecting trade with the enemy.

Under this order approximately $22,000,000 worth of C.P.R. stock held by or on behalf of Germans was given into the charge of the Minister of Finance and Receiver-General of Canada as custodians.

ESCAPES FROM COUNTY JAIL

Youth Was Awaiting Removal to Reformatory.

Belleville, May 30. — Frank Wilson, jun., aged nineteen years escaped from the County Jail here and has not bee captured. Some trusty prisoners were carrying out ashes and Wilson saw a chance and ran through the gate. He was immediately seen, but he managed to elude the officers. Wilson was sentenced in Belleville Police Court a few weeks ago to one year, and an additional inteterminate period, in the Reformatory, on a charge of stealing money from gas slot meters. He was awaiting removal to the Reformatory He made the escape in prison clothes without a hat. He has been in trouble several times.

Cobourg will hold a Child Welfare week in June.

You Don't Need Much Money

The CRESSMAN Company Limited

MRS. M'CLUNG ADVOCATES MODEST GARB FOR WOMEN

Interesting Address at St. Paul's Last Night by Canada's Most Outstanding Exponent of Feminine Rights—Appreciation For Mere Men of the Race.

"The great need of the hour is plain speaking, more honesty, more truth, more cooperation, and less of secret diplomacy and the kind of tact that is often an untruth. In these words Mrs. Nellie McClung sumed up the present situation in her address at St. Paul's Chruch last night. Her delivery was clear and distinct, though her voice lacked the masculine strength which she herself rather oddly described as a deep rumbling.

"I have always found men good fellows," she declared, speaking against the tendency of some speakers to set the two sexes at variance Certainly these were a large proportion of the sterner sex in the audience and by the attention and applause that they gave it was easy to see that her sentiments were reciprocated.

But it must not be supposed that the famous authoress is one of those silver-tongued artists who speak all around a subject and at the end of the hour have only succeded in handing out compliments.

"Man's overwhelming executive ability should be combined with the gentle loving touch of a woman. The reason of our present troubles is that the world is suffering from a dose of too much masculinity. I do not say that women should take the place of men through they would have to get up very early and stay up very late to make a worse mess than we have right now."

"Women, who have sufferd so much in the past war, should be interested in politics."

She urged the ladies to support the Women's Citizens League, but she recognised the difficulty in making these a success because women had not learned the secret of team play. She mentioned the women of England who had accomplished so much in line of making munitions. In [illegible]ress of necessity wonders were accomplished, but now there is a moral let-down and we need some substitute for the incentive of war.

Don't rip me up or ma will be mad she has me sewed up for the winter." These were the words used by a little slum girl who was being taken in charge by a social worker. Mrs. McClung bitterly denounced the state of affairs that made such conditions possible, and amid hearty applause declared that the health and happiness of the people are cheap at any price.

Then came the woman's turn, for Mrs McClung evidently believes in feeding the goose on the same kind of sauce that the gander gets. "Modern women waste a lot of time, fiddling about their tasks, and at night they are too tired out to stand up and too strung up to sit down. Women have not made a success as employers. Girls prefer sticking labels on pickle bottles and sleeping in any sort of an uncomfortable hall bedroom to working in a clean, roomy kitchen, because when the whistle blows their work is done and they have the rest of the evenig to themselves. I don't know the solution of this domestic problem but when women respect their servants it will settle itself."

With regard to the decrease in marriages Mrs. McClung's ideas are as good as have ever been uttered on any public platform. She would make it possible for women to lead professional or business life and still attend to their home duties as a wife and a mother There can be no question that if her plan of apartment houses where the cooking is done by a trained chef and the food bought in large quantities at wholesale prices, and all the drudgery of housework eliminated we might be favored with the sight of a marriage line up in front of each minister's door.

"We women now have the vote and the latter alternative is out of the question." One thing that she suggested was the regulation of dress lithin the limits of decency. She also spoke of the need for a department of ~~Human~~ Welfare, and she gave a very clear idea of how the foreigners are being assimilated into the life of Western Canada: She maintained that the foreigners have not been given a square deal; they have been exploited and looked down on. She believes that the solution of the trouble lies in the education of their children in the public schools. "Give a square deal to the kid." was the slogan.

"The world is suffering from a lack of good will." she continued. "Sir Edward Grey said that the recent war could have been averted if they could have got the leaders of the nations together in a conference but there wasn't enough goodwill. We still have our own personal narrow way of looking at things. We have paid a heavy price for fair play and decent living and the responsibility is on us to see that we get what we pay for. The only way to ensure a permanent peace is to foster good will."

"What a spectacle of disunity we have now." Mrs. McClung would have us all as sensible as the old bear who when the hunters were following her up, was on the front end of her tracks, making more. "Marble tablets are not necessary to commemorate the lives of those who fought and fell in France but we must see that a fair deal is given to the children and dependents of our dead heroes."

All these suggestions would tend to alleviate various difficulties under which we labor at the present time. Mrs. McClung then went on to state that when she first believed in equality she did not mean uniformity, but equality of opportunity. If everybody was started out at seven o'clock in the morning with the same amount of money she was sure that it would not be eleven before the same disproportionate condition of wealth and poverty would again exist.

At the conclusion of her address a vote of thanks was moved by Miss Lancaster and seconded by Mrs. Alexander Mowat. It was carried by the audience amid great enthusiasm and their wishes conveyed to the president, Mrs. Robert Harstone.

IF KIDNEYS ACT BAD TAKE SALTS

Says Backache is Sign you have Been Eating Too Much Meat

When you wake up with backache and dull misery in the kidney region it generally means you have been eating too much meat, says a well-known authority. Meat forms uric acid which overworks the kidneys in their effort to filter it from the blood and they become sort of paralyzed and loggy. When your kidneys get sluggish and clog you must relieve them, like you relieve your bowels; removing all the body's urinous waste, else you have backache, sick headache, dizzy spells; your stomach sours, tongue is coated, and when the weather is bad you have rheumatic twinges. The urine is cloudy, full of sediment, channels often get sore, water scalds and you are obliged to seek relief two or three times during the night.

Either consult a good reliable physician at once or get from your pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate sluggish kidneys, also to neutralize acids in the urine so it no longer irritates, thus ending bladder weakness.

Jad Salts is a life saver for regular meat eaters. It is inexpensive cannot injure and makes a delightful, effervescent lithia-water drink.

SPY'S MESSAGE IN BIBLE

Woman Agent of the Kaiser Makes Disclosures.

Messages written in invisible ink on the blank pages of a Bible was one way in which the German spy system in the United States endeavored to communicate with the German Government, Mme. Marie de Victorica, who has admitted she was a German agent in America, testified at New York in the trial of Willard J. Robinson, charged with treason.

Mme. Victorica swore Robinson consented to carry her messages to Germany and that she gave him a Bible containing secretly inscribed messages in code and which were developed with the aid of iodine tablets.

Mme. Victorica said she received $1,000 a month. She was "not supposed to spend any money" in her work, she explained, but "could use money to any extent in the event of her getting into a fix." In all, she said, she received about $35000 from the German government.

On cross-examination Mme. Victorica, who is under indictment for espionage, the extreme penalty for which is death, admitted she "got the impression" in talks with Government attorneys that the Government "was desirous of getting evidence of an Irish plot."

The best you intended to make but didn't is always a safe bet.

Procrastination may be the thief of time, but there are other watch lifters.

The fools who rush in where angels fear to tread are lucky if they are able to crawl out again.

PROPAGANDA STARTED

Wolf Bureau Has Story Americans Are Dissatisfied.

Berlin, May 30.—The semi-official Wolf Bureau is circulating a story under an Amsterdam date which asserts the United States is "becoming increasingly dissatisfied with developments at Versailles," and that there is an "unmistakable strengthening of the inclination for an understanding with Germany through a modification of the peace terms.

A correspondent of a German newspaper at Versailles claims the Poles are "especially favored by the Entente because they propose to take over Russia's debt to France which totals 20,000,000,000 francs."

THEATRICAL

A new portrait of ETHEL BARRYMORE (Mrs. Russell Griswold Colt) and her three children, Ethel Barrymore Colt, John Drew Colt and Samuel Colt. Miss Barrymore is to be seen here in R.C.Carton's delightful comedy, "The Off Chance".

ETHEL BARRYMORE AND HER CHILDREN.

WHEN ETHEL BARRYMORE MADE HER DEBUT ON STAGE

Fellow Player Recalls Her First Performance With a Distinguished Company—Matter of Clothes Was Important.

When Ethel Barrymore, whom we are to see at the Grand Opera House, for one performance only, Thursday evening, June 5th, in R. C. Carton's delightful comedy, "The Off Chance," became fifteen years old she encountered a difficulty. It was one rather common and not a novelty to most of us. It was, in fact, a pressing shortage of money. Little Miss Barrymore was at a convent school in Philadelphia when this worldly need first made itself apparent to her. With an independence and bravery characteristic of her distinguished stage ancestors, numerous Drews and Barrymores, she determined to meet the difficulty face to face and persuaded her uncle, John Drew, to award her a small role in "The Baube Shop", in which he was appearing at the Empire Theatre in New York. Strictly speaking, the youthful Miss Barrymore had made one previous appearance on the stage, but it was in a very tiny role, in far-off Canada during a school vacation, when the girl was visiting her grandmother, the elder Mrs. John Drew, then touring that country in "The Rivals."

Mr. Drew listened to his niece's pleading and she was given the task of understudying Elsie de Wolfe, who had met with something of a success as Lady Kate Fennel in "The Bauble Shop." And on one eventful night, when word reached the theatre that Miss de Wolfe was too ill to appear, the girl was told to prepare to play the role.

"We had heard, of course, that Georgie Drew and Maurice Barrymore had a daughter," said one of the members of the company, who afterward became famous, "but it never had been hinted that she had acted or could act. When the announcement was made each of us was silent. We were sympathetic enough, but we were a mighty shaky lot. We had been playing "The Bauble Shop" so long and our success had been so emphatic that we wanted to continue without a mishap. Mr. Drew's company included Maude Adams, who was then Mr. Drew's leading woman, Arthur Byron, J. E. Dodson, and several other players who have since achieved popularity and fortune. This feeling of uncertainty and alarm, at a sudden change in the cast always persists in a highly conscientious company, as ours was, and even extends to the stage hands.

"To make the prospect even more uncomfortable, we overheard some remarks from the new aspirant's dressing-room.

"Why, her figure in Elsie de Wolfe's dresses!' one of the women members exclaimed indignantly. 'They are fifty pounds apart.'

"But the ambitious Ethel had been taught by her gifted grandmother that it was not what one wore but how one acted that counted, and she put on her gown, several sizes too large, with a serenity that an older and more experienced woman would not have even feigned.

"The gossip behind the scenes only served to aggravate our worries still more. Well, the time for her cue came. John Drew was already on the scene. Arthur Byron was standing in the wings talking in whispers to Lew Baker. We were all more than ordinarily upset over the experiment Charles Frohman, hearing of the unparallel change, had hurried to the theatre and taken a seat out front. Nobody knew just how he felt about it but they were aware that he did not have a very placid countenance. The rest of us were on pins and needles.

"The girl came from Miss de Wolfe's dressing room, laughing as if school had just been let out. Fifteen years old, mind you, and had never faced a metropolitan audience before. She crossed to to the entrance where we were all gathered, turned with a laugh to Byron and then walked on the scene with as much composure as if she were about to recite her geography lesson. At the end of her first scene she had put us all at our ease. From Mr. Drew and Miss Adams to the man playing the butler, and the performance went on to its end, without a hitch."

Soon after this the play went on tour and Miss Barrymore had succeeded Miss de Wolfe for good. And so began the distinguished career of this most popular and beloved of our players.

AT THE GRAND

There is an excellent bill at the Grand for the rest of this week both in pictures and vaudeville. The Van brothers, in "Get 'Em and Hold 'Em" work off some amusing dialogues, Gertrude Dudley and Co., give an apt illustrations of domestic life where all is not smooth sailing and the Yaltos provide some of the most sensational dancing ever seen at the Grand. There is a Charlie Chaplin comedy without which no movie exhibition is complete and the beautiful and talented Clara Kimball Young stars in the film story of "The Reason Why."

The theatre is so arranged and furnished that the patrons can be assured of comfortable coolness no matter what the outside temperature may be.

AN ENERGETIC MINISTER.

Sir Robert Horne Picked by Sir Eric Geddes.

George Watson's school at Edinburgh has reason to be proud of its famous scholars. Sir Eric Geddes and his brother, Sir Auckland Geddes, as well as the new Minister of Labor, Sir Robert Horne, K.C., M.P., are old Watsonians. Many people expressed surprise that a brand-new M.P. should be put into a position of such difficulty as that of Minister of Labor, and were inclined to exclaim: "Another lawyer!" but it can be easily shown that the Prime Minister was not without excellent reasons for his choice.

For one thing, Sir Robert Horne, like the Prime Minister himself, is a son of the people. He was brought up in a mining village, and although a son of the manse, he owes his early education to the village school of Slamanan, in Stirlingshire.

When he entered his "teens" his father sent him to George Watson's, and it was there that he planted his feet firmly on the lower rungs of the ladder of distinction. At school he worked hard and played hard, and won a scholarship at Glasgow University. There he maintained himself with further scholarships, for his only assets were brains and a determination to make good.

He took degrees in arts and law, and presently accepted a professorship in modern philosophy at Bangor University. As his new university played soccer he put into the new game all the vim of the old.

He had built up a big commercial law practice in Edinburgh when war broke out, and when the Ministers of National Service was inaugurated Mr. Neville Chamberlain asked him to join it as Deputy Director of Agriculture, and thus his first big official job was to get labor for the land.

Meanwhile Sir Eric Geddes had been called to reorganize the transport system in all the theatres of war, and he at once "borrowed" his old friend from the Ministry of National Service as Assistant Inspector-General.

Mr. Horne (as he then was) became a lieutenant-colonel in the Royal Engineers, went to France, and made a special study of transport. He prepared reports so admirably that when Sir Eric was transferred to the Admiralty he took the lawyer-colonel with him.

Presently came the cry for ships to take the place of those destroyed by U-boats. Not only was there a shortage of bread and bacon, but of steel also! Mr. Horne was asked to tackle the steel question, and by initiating the system of standardization of demand and supply as well as of material—that is, giving certain firms only certain types and sizes of work to do—he speeded up the steel output tremendously and saved a difficult situation.

Afterwards he reorganized timber supply, centralized the supply of oxygen for oxygen-welding, and took up the question of electric welding in shipyards. Later the Admiralty Labor Department was placed in his hands, where he had control of 2,500 firms with 500,000 workers.

Hard facts do not always make an impression on a soft headed man.

PHYSICAL CULTURE ELEPHANT WITH BIG CIRCUS

"Dixie" is a physical culture elephant with John Robinson's circus which comes to Peterborough Saturday, June 7th. He stands on his head, walks on his hind feet and does a lot of other things that the remainder of the elephants with the show cannot do.

LAKEFIELD

Lakefield, May 30.—Miss Cockery of the Public School Staff spent the holidays at her home in Peterboro.

Mrs. Wm. Webdale of Peterboro spent a couple of days with her mother, Mrs. I. Watson.

Mrs. Munduff and Miss Valma of Peterborough were guests of Mrs. Frank Morin for the week end.

Mr. Bailey of Montreal spent the week end with his family in the village.

Mr. and Mrs. W. Leonard and children returned on Monday after spending a few days in Peterboro guests of Mrs. Leonard's parents, Mr. and Mrs. W. Edwards.

Mr. Jack Mahood of the Bank of Commerce staff of Galt spent the holidays with his parents.

Mrs. M. Osborne captain of the local branch of the Girl Guides is at present in Toronto attending the annual rally of the Girl Guides which was held at the residence of Sir Henry and Lady Pellatt on May 27th.

Miss K. Simpson of Kew Beach has returned to the city after spending a few days with her mother.

Miss Mable Walker returned to Peterboro on Monday having been the guest of Miss McKibbon for the week end.

Mr Doubty of Peterborough was in the village Monday on business

Miss Dora Pemberly of Peterboro has returned home after spending a few days in the village, the guest of Mr. and Mrs. S. Leggott.

Mrs Robt. Lynn of Peterboro was the guest of her parents, Mr. and Mrs.J. Northcott on Sunday.

Mr. Elwood Northey has returned to Port Hope after spending a few days in the village visiting his mother Mrs. A. Northey.

Mr. and Mrs. Wm. Blewett and Master Harry spent a couple of days in the village, the guests of Mr. and Mrs. J. Blewott.

Mrs. Ira Lennox and Master Rob. spent Monday in Peterborough.

Mr. and Mrs. R. Lennox and Miss Stella Lennox left on Tuesday to open up their summer resort at Crowe's Landing.

Rev and Mrs. Jull spent Monday in Peterborough.

Miss Robinson returned to Peterborough on Monday after spending the week end with her sister, Mrs. Jesse Riddle.

Mr. T. Lean of Peterborough was in the village Wednesday representing the Manufacturers' Life Insurance.

Mr. and Mrs. Fred Baldson. spent Monday in Peterborough.

Mr. Elmo Boyers of Lindsay is the guest of Mr. and Mrs. R. H. Alford.

Mr. Harry Blewett, Mr. Wheeler and Mrs. Blewett were the guests of Mr. and Mrs. George Wilson of Douro on Wednesday.

Miss Tanner returned last week from Ottawa where she spent the past the past few weeks visiting friends.

Mrs. Leo. Dynder of Toronto is at present visiting her parents Mr. and Mrs. Frank Morin.

Gunner Victor Bullock who enlisted with the Cobourg heavy battery returned home after spending a few days renewing old acquaintances.

Pte. David White, M.M. left last week for Detroit after spending the past few days in the village visiting his sister, Mrs. Howard Beavis. Pte. White enlisted with the first pioneer battalion from Calgary, Alta, in 1914. It is about eleven years since Mr. White has visited his home town.

Capt. and Mrs. Otter Stewart returned to the village Saturday after spending a few days in Toronto visiting friends.

Mr. Rorabeck of Peterborough spent a few days in the village visiting relatives.

Mr. Gordon Grahame of Peterboro was in the village Wednesday en route to Peterborough.

Mr. J. Knox of Peterborough spent a few days in the village, the guest of Mr. and Mrs. R. Lennox.

Mr. Jack Davidson of Peterboro was in the village on Wednesday visiting friends.

Mr. Wm. Kearns of Peterborough was in the village Tuesday.

Sig. Harry Blewett, M.M., who went over with the 93rd battalion and was then transferred to the 20th arrived in the village Monday after an absence of about three years.

Sig. Wheeler of the 20th batt'n is the guest of Mr. and Mrs. J. Blewett. Sig. Wheeler enlisted with the 5th Western Battalion at Weyburn.

Mr. Thompson Braden and Miss Edna motored to Lindsay last week.

Miss A. Charlton was a visitor to the village for the week end.

Gnr. J. Rogers returned to Kingston Monday after spend a few days at his home in the village.

Miss Olive Northcott, who is attending the Peterborough Normal School, spent the week end at her home in the village.

Miss Hilda McKibbon of Peterboro spent the week end in the village.

Pte. W. Chappell of Kingston spent a few days leave at his home in the village.

Mr. Donnoher salesman for Heinz Pickle Co., was in the village Wednesday on business.

Mrs. (Col.) A. S. Lefevre, Miss Sydney and Master Philip returned to the village on Friday after an absence of over three years. Mrs. Lefevre expects to spend the summer in the village.

Mrs. Sherman Hill and son returned to the village from Nebraska last Thursday, to meet her husband who returned from overseas on Sunday.

Mr. and Mrs. J. Blewett returned to the village after spending the week end visiting relatives.

Mr. Fred Chalk of Port Hope returned on Monday after spending a a few days in the village, the guest of Mr. and Mrs. Roland Johnston.

Dr. V. S. Carmichael of Stroma, Alta, has returned home after spending a few days with Mr. and Mrs. J. B Parnell.

Engineer Smith was badly scalder when the Maritime Express was wrecked near Westchester, Colchester County.

DE LAVALS DEFEATED THE VETERANS BY 12-4 SCORE

Game Was Decided in Third Innings When De Lavals Scored Eight Runs.

De Lavals won from the G.W.V.A. at Riverside Park last night by 12 to 4 and the score exactly indicates the style of play. There was all the difference between this game and the previous one that you would notice between the actions of a kid going to the store for a dollar's worth of groceries and one going to the ice cream parlor with a dime to spend on himself. The evening was too warm for fast play and, anyway, the game was as good as decided at the end of the third innings.

The Veterans had hard luck in the first innings. With three men on bases, two out, and three fouls in succession the last one dropped into Burgoine's glove and the side was retired. De Lavals sent only three men up to the plate.

In the next innings the Veterans made a good start with two counters to their credit. Prest presented Anderson with a hit, allowing Anderson's little pop to drop to the ground untouched. Taylor's and S. Wade's hits were each responsible for a run coming in. In their half of the innings with two on bases and one out the De Lavals failed to score. Callahan popping out to the pitcher and Cavanagh being thrown out at first.

In the third innings A. Wade was batted all over the lot for eight hits, the opposing pitcher, Prest, getting two in twice up at bat. From this time on practically all semblance of snappy work left the game. Field replaced Johnston at third base for the Veterans in the fourth innings, but his work could scarcely be considered an improvement.

The score by innings:

	1	2	3	4	5	6	7	R.	H.	E.
De Laval ..	0	0	8	2	2	0	x	12	13	3
G. W. V. A.	0	2	0	1	0	0	1	4	9	10

The box score was as folows:

G. W. V. A.

	A.B.	R.	H.	E.	T.A.B	T.H.	B.P
S. Wade, r. f.	4	1	2	1	7	2	.28[illegible]
Deannard, l. f.	4	1	1	0	8	2	.250
Anderson, s. s.	4	0	2	0	9	2	.222
Long, 1st b.	4	0	1	2	10	3	.300
Johnston, 3rd b.	2	0	0	2	7	1	.143
Field, 3rd b.	2	0	1	2	5	1	.200
Hargrove, m.	4	0	1	0	7	1	.143
Morrow, 2nd b.	3	1	0	2	6	1	.167
Taylor, c.	3	1	1	1	3	1	.333
A. Wade, p.	3	0	0	0	8	1	.125
	33	4	6	10

NOTICE

To Summer Shoppers

The early opening of the lake season will lengthen the social and holiday part of the summer by a full month. Commencing June 1st instead of July 1st means more chances to wear holiday summer wear, and incidentally nice hot weather footwear. The Peterboro Shoe Store has made extra preparations for a big demand for white shoes in every style, and has a most complete selection of the prettiest shoes that have ever been shown in the store. Larger buying has given this store better price advantages, and that means more savings to our customers.

Take advantage of our ability to sell less than elsewhere, and choose your Summer Shoes while the selection is best.

WHITE OXFORDS AND PUMPS—In both kid and canvas, from **$2.50 to $7.00**

WHITE CANVAS OR KID HIGH BOOTS—From .... **$2.50 to $7.00**

WHITE CANVAS OR KID PUMPS—From ... **$2.00 to $6.00**

We also have a full range of Oxfords and Pumps, in black, grey and brown, all shades, at prices ranging from .... **$3.50 to $7.00**

We have a very fine selection of OUTING SHOES for all members of the family.

Peterboro Shoe Store

291 George Street Opp. Opera House

COBOURG TEAM HERE FOMORROW

Those who want to see a good ball game will take a tip from the wise and be on hand Saturday at 3 p.m. at Riverside Park. Just as Big Ben tolls the fateful hour Mayor Duncan will step into the box and deliver the first ball pitched in the Central Ontario League at Peterborough this year. Mr. Russell Copping, president of the league, will stand beside the plate and shake his little stick at the approaching sphere, and in case he misses it, Ald. Taylor will be there with the glove and mask to stop it from going on to the grandstand and wreaking inconceivable damage among the packed crowds there. All this extra entertainment, it may be added, will be given for the usual price, twenty-five cents.

The Cobourg team will have a big delegation of rooters at their back and will come determined to win if possible. They lost to Belleville by 8-7 in a 14-innings game and Belleville is some hard nut to crack as they walked away with Lindsay and their famous Cannonball Scott to the tune of 5-1. Let everybody who has a good strong voice, no matter how musical it is, be on hand to help swel lthe volume of cheers that the boys will certainly give as the occasion provides.

The Petes will be represented by the following players, who are requested to be at the park at 2:15 Saturday for a fina lworkout: Kirn, Frost, Soden, Long, Hagerman, Cherett, Cavanah, Heenan, Campbell, S. Wade, Cullin, Kenneally, Burgoine and Manager Solomon.

BASEBALL GAME AT LAKEFIELD

Lakefield, May 30.—A very exciting baseball match was held on the School Grounds on Tuesday afternoon about four thirty between two high school teams, the captain of which were, Clayton Redpath and Warren Payne. The game ended with a score of 12-8 in favor of Warren Payne's team.

Following was the line-up.

Captain Redpath:—pitcher, Clayton Redpath; catcher, Jack Redpath; 1st base, Ben Huth; 2nd base, G. Kemp; 3rd base, S. McIlmoyl; short stop, T. Bailey.

Captain Payne—pitcher, Warren Payne; catcher, F. Erskine; 1st base, R. O'Brien; 2nd base, E. Girven; 3rd base, R. Everett; short stop, S. Sherin.

Bicycle Run Was A Great Success

The bicycle run last night, organized by the White Bros. proved a great success. About twenty-five cyclists took part, including ladies and gentlemen. The run was to Chemong. The party left Peterborough at 7.45, arrived at the Chemong pavillion at 8.45, where they rested and took refreshments. They left there at 9.15, making a quiet run home in forty-five minutes.

Everyone was very enthusiastic and had a very enjoyable spin, and in view of this fact, future weekly runs will be made throughout the summer.

Cressmans Win From Auburns

Cressmans won last night at Nichol's Oval, defeating the Auburn nine 7 to 4 in a fast seven-inning contest. The winners came from behind to win, tieing the score in the sixth and getting three runs in the seventh inning. Scores by innings:

	1	2	3	4	5	6	7	
Cressmans ..	0	1	0	2	0	1	3	—7
Auburn ..	0	3	1	0	0	0	0	—4

	R.	H.	E.
Cressmans	7	8	2
Auburn	4	5	3

The winning battery was Long and Rutherford.

Umpire—Rattenbury.

Vigilance Committee.

The first vigilance committee of prominence was organized in San Francisco in June, 1851, when the crimes of desperadoes who had immigrated to the gold fields were rapidly increasing in numbers. Similar committees were common in other parts of California and in the mining districts of Idaho and Montana. Committees or societies of somewhat the same nature were formed in the southern states during the reconstruction period, from 1865 to 1872, to protect white families from negroes and "carpetbaggers," and besides these there were the Ku-Klux Klan and its branches, the Knights of the White Camelia, the Pale Faces and the Invisible Empire of the South, the principal object of which was to control the negroes by striking them with terror.

Uncrowned Queens.

There have been seven uncrowned Queens of England. The first was Margaret of France, the second wife of Edward I., says an exchange. Money was scarce in the Government coffers at the time, and Edward could not afford the expense of a coronation. The four later wives of Henry VIII, Anne Boleyn's successors—Jane Seymour, Anne of Cleves, Catherine Howard and Catherine Parr—were never publicly crowned as queen consorts. Perhaps it was because Henry thought it would cause ridicule to have coronations occur as frequently as his marriages. Henrietta Maria, the wife of Charles I, being a strict Roman Catholic, refused to take part in a state function which would compel her to partake of the sacrament according to the rites of the Church of England. Sophia Dorothea, the wife of George I, and mother of George II, was never recognized as Queen of England, and therefore cannot be classed as one of Britain's uncrowned Queens. Caroline of Brunswick, the wife of George IV, was not permitted to be present in Westminster Hall at his coronation.

OVID IN BULGARIA.

Stolen Statue Will Be Returned to Roumania.

It was a bitter blow to Publius Ovidius Naso, the best selling poet of Augustan Rome, when the Emperor exiled him to a desolate town on the barren shores of the Black Sea as a punishment for too faithfully reflecting the manners of his time. There he lived his last years and there he died; nor did a gentleman used to the luxurious life of the capital of the world ever quite reconcile himself to the society of barbarous Scythians.

Two thousand years later Ovid would have liked it better. By that time the town of Tomi had become Constantza, one of the principal ports of Roumania and the summer resort of the wealthy and ease-loving society of Bucharest. And every day gentlemen very much likeOvid, and ladies whom Ovid would have liked very much, passed through the Piatza Ovidiu, where a statue of the poet commemorated the first incursion, if an unwilling one, of the leisure class. In due course of time, however, Constantza fell into the hands of Scythians more ungracious than those among whom Ovid had lived. When the Bulgarian Army overran the Dobrudja in 1916 it was followed by the expropriators whom all the Central Powers sent into occupied territory. The Bulgars, like the Germans, were acquisitive; they would take anything from factory machinery to first editions and Japanese prints. Among the plunder shipped back into Bulgaria from Constantza was the statue of Ovid, once more an exile.

Malicious Roumanians have said that the Bulgars did not know who Ovid was, that they thought the statue was that of the Mayor of Constantza. Whether this be true or not, the Bulgars have been considerably more careless about the preservation of classical remains than the Roumanians. Some years ago a great heap of stones with Roman inscriptions lay in a museum yard in Sofia with grass growing among them; nobody had cared to take the trouble to carry them indoors. Perhaps Ovid was thrown in among them to await such time as the Bulgar had leisure from his forays into other lands and could arrange his monuments of classical culture to suit himself; at any rate, Ovid escaped the ignominy of being melted and turned into shell cases, for after vigorous protests from Roumania and the Allies the Bulgarian Government finally shipped him back to Constantza. One could wish that all the wrongs suffered by Roumania could be so easily redressed.

Memorial Trees In Galt.

The planting of trees on the city streets to commemorate the memory of the Galt heroes who fell in the Great War has been advocated by the Board of Trade of that city. A resolution introduced by R. M. Hamilton and passed unanimously, called upon the mayor to declare May 1st as the day on which the planting shall be done by the citizens under the direction of the Parks Commission.

An Italian Holiday.

Hereafter the Italian people may celebrate November 11 as a double holiday—the anniversary of the end of the great war, as well as the birthday of King Victor Emmanuel.

A very little tombstone may tell a very big story.

Indian Magicians.

A recent meeting of magicians, or sleight-of-hand men, confessed itself in despair over the method of operation of the Indian rope-climbing trick, which has been so often described by Eastern travelers. Thus Ibu Batuta, an Arab from Tangier, described this trick as performed at Hang Chau:

I was entertained by the Emir in his own house in a most splendid manner. At the banquet were present the Khan's jugglers, the chief of whom took a wooden sphere, in which there were holes, and in these long straps, and threw it up into the air till it went out of sight, and while the strap remained in his hand He then commanded one of his disciples to take hold of and to ascend by this strap, which he did until he also went out of sight. His master then called him three times, but no answer came; he then took a knife in his hand, apparently in anger, laid hold of the strap and also went quite out of sight. He then threw the hand of the boy upon the ground, then his foot, then his other hand, then his other foot, then his body, then his head. He then came down, panting for breath, and his clothes stained with blood. The juggler then took the limbs of the boy and applied them one to another; he then stamped upon them, and it stood up complete and erect. I was astonished, and was seized in consequence by a palpitation at the heart; but they gave me some drink and I recovered. The judge of the Mohammedans was sitting by my side, who swore that there was neither ascent, descent nor cutting away of limbs, but the whole was mere juggling.

Any magician of the present day who can perform this trick as it is performed even at the present day in India, certainly must be sure of a fortune, says the Boston Transcript. The funny part of all such tricks is that, as in the case of the trick of making a tree grow from the ground and bear fruit before the spectators' eyes, the photographic camera reveals nothing of the sort going on.

Temporary Insanity.

Many people think that the expression "temporary insanity" is merely used by a jury wishing to save relatives pain, but numbers of doctors who have made a study of mental disorders emphatically declare it is no idle term.

One doctor has stated that temporary insanity is a condition of double consciousness, not dissimilar to epilepsy. A person normally quiet sane may have attacks of temporary aberration lasting little more than a few minutes, especially after long bouts of hard, continuous mental work, being particularly liable if insomnia supervenes.

Crimes have been committed in the early morning when the perpetrator has not really been properly awake, and has been horrified to find what he *has* done. This is a true case of temporary insanity, but it is comparatively rare, and a man in normal health would not suffer in this way.

A specialist in mental disease has stated that he knew a case in which a person was insane during a certain time each day, and that others have been known when the patient was quite normal at ordinary times, but suffered from a temporary fit of mania regularly once a *month*.—Tit-Bits.

For heavy motor trucks a combination tire has been invented, a solid [illegible] surrounding an egg-shaped air [illegible].

Struck by a boulder in the back, while blasting, J. T. Duke, of St. John, N. B., was killed.

HOLD BANQUET AND CONCERT FOR THE RETURNED SOLDIERS

Salvation Army Welcoming Committee Will Provide Entertainment For at Least Seven Hundred Monday Night.

On Monday evening next, June 2nd, at the Salvation Army Temple, Simcoe street, a welcome and entertainment will be tendered to the men returned from service, and to the members of their families as well. The occasion is to be a part of the welfare work of the army during the period of re-construction.

At six o'clock the banquet will be served, with a concert to follow at eight o'clock. No admission fee, no collection or any appeal.

As it is practically impossible to secure names and address of men returned the committee issues this general invitation in the hope that it will be accepted in the spirit in which it is given. Tickets will most cheerfully be handed out to all applying at the rooms of the G.W.V.A., George street, at the Patriotic Fund office, from Mrs. Badley, 499 Aylmer, and at the door of the Temple, on the evening of the entertainment. Tickets are used merely to try and ascertain how many to provide for. All are welcome.

The banquet will be notably good. The program to follow wil be most interesting and will include music, songs, etc., and one or two very brief address. But the most important thing to do is to come and share in the evening.

ALL PARENTS ARE ASKED TO ATTEND

IMPORTANT MEETING TO BE HELD NEXT MONDAY EVENING.

A meeting will be held in the Y. M. C. A. on Monday evening, June 2nd, to discuss the advisibility of forming an association take up home and school work during the coming year. It is hoped that parents—fathers as well as mothers—and teachers representing the different schools of the city who are interested in this work which is assuming considerable importance throughout the Province, will attend.

NEW LABOR LAWS ARE PROPOSED

GOVERNMENT TO LOOK UP INDUSTRIAL CONDITIONS IN OTHER COUNTRIES.

Ottawa, May 30.—As Labor's unparalleled demands now promise to bulk highest in the list of problems confronting the Federal Government the Department of Justice has been called on to look up the laws relating to Labor in Great Britain and the United States, so as to help in the problem of drafting legislation that will keep Canadian industry free from disturbance by strike or lockout. This will be considered in connection with the report from the Industrial Commission which has been touring Canadian cities for some weeks.

NOTED PREACHER AT MURRAY ST.

REV. DR. WEARING, WOODSTOCK COLLEGE, WILL CONDUCT ANNIVERSARY SERVICES.

Murray Street Baptist Church has for its preacher at the anniversary services next Sunday Dr. Wearing, of Woodstock College, who, although a young man, has already taken a foremost place in the Baptist denominations. Dr. Wearing took a brilliant course first at McMaster University where he took the degrees of Master of Arts and Bachelor of Divinity, and later at the University of Chicago where he took the degree of Doctor of Philosophy with special honors. After graduating from Chicago Dr. Wearing became pastor of the First Baptist Church, Woodstock, and a year afterwards at the call of the denomination, he became principal of Woodstock College. Dr. Wearing is known as one of the most forceful speakers in the Baptist denomination and has also won distinction as a writer.

If your harvest is a failure, remember you selected the seed.

SODALITY RECEPTION

Forty-five Candidates Were Received Last Evening.

Last evening, Ascension Day, at 7.30, forty-five new members were received in the Sodality of the Blessed Virgin Mary at St. Peter's Cathedral. A beautiful procession was held from St. Mary's convent. His Lordship, Bishop O'Brien, addressed the candidate on "Devotion to the Mother of God." Benediction was afterward given by the Bishop, assisted by Rev. Fathers Phelan and Guiry.

Revenge is the doubtful pleasure of a weak and narrow mind.

MACHINISTS WILL NOT STRIKE

STRIKE AT WINNIPEG IS IN FAIR WAY TO SETTLEMENT LATEST DESPATCHES SAY

Basic Question in Dispute is Being Threshed Out in Conference—No Disorderly Conduct as Yet Reported—Vancouver and Victoria Take Strike Vote.

(Canadian Press Despatch)

Winnipeg, May 31—With arbitration conferences actually under way on the basic industrial dispute of the general strike, a walkout of the metal trades, and hundreds of employes returning to work, a gradual settlement of the civic and industrial tie up which has been almost complete since May 15, was beginning today, according to governmet officials Edmonton despatches indicated resumption of public service functions is now complete there although strike headquarters asserted workers in 22 trades were still out. Votes on a general strike now being taken at Vancouver and Victoria B. C., will be completed and announced in a few days.

Issue on Collective Bargaining

Reports from mining districts in Ontario and British Columbia said that the labor situation at Cobalt and Fernie was acute, though not directly related to the Winnipeg strike situation as are general strikes under way or under discussion at other points. Though the first outward demonstration of disaffection occurred in Winnipeg yesterday in the parade of veterans and strikers to the parliament buildings, no disorders occurred. The veterans promised to return again today to insist on speedy action to legalize collective bargaining, one of the chief points sought by the Metal Trades in their walk out which precipitated the general strike.

When members of the railroad Brotherhoods succeeded in beginning the first arbitration conference efforts to replace the striking workers generally slackened except in the police, fire and postal service.

Two Days of Grace

At a general conference of officials representing all railways having headquarters in Winnipeg it was decided to issue a notice to all employes on strike that unless they report for duty not later than ten o'clock on Monday, June 2, they will be considered as having left the service and their places will be filled. These include shops, roundhouses, stores, freight sheds and clerk. The railway mail clerks today offically called off the sympathetic strike.

TO INVESTIGATE CHARGES OF INFERIOR PLUMBING

Property Committee Recommends Council—Mr. Newsome Will Be Requested to Furnish Instances of His Examinations—Inspection by Independent Expert.

The City's Property Committee instructed their chairman, last nght to inform the plumbing inspector that there are reports that the plumbing bylaw is not being thoroughly enforced.

Plumbing Inspector Thompson will be notified that hereafter this measure must be strictly enforced in every case, without any discrimination whatever.

Will Get Evidence

On moton of Ald. Edgar and Garside, Mr. Newsome, editor of the Plumbing and Sanitary Journal, will be asked to give the committee three or four instances of where he made his examinations of plumbing in Peterborough, with particulars of the conditions he found. And when this information is obtained the chairman of the Property Committee to bring an independent plumber to examine the plumbing in these places, and that such plumber so engaged be paid on the certificate of the chairman. Also that when these reports are received a meeting of this committee be called to consider them.

The Committee is very much concerned over Mr. Newsome's published charges that the plumbing work in Peterborough does not measure up to the standard and they are determined to leave no stone unturned to secure concrete and independent evidence in regard to the criticisms in the press.

LOCAL SOLDIERS REACH HALIFAX

Arrived at Halifax, per steamer Carmania, and left by special train, evening of same day, for dispersal stations in Ontario, including M. D., No. 3, Kingston:

Pte. F. P. Ciroux, 306 Stewart street.

Pte. Copperthwaite.
Gnr. J. I. Chittick.
Gnr. Young.
Sergt. W. J. Batly.
Pte. T. Rose.
Pte. J. H. Reynolds.

The Victorian Order of Nurses realized $1000 by the sale of daffodils.

Kenneth Burtchall was drowned when a canoe upset near Kingston.

WIRE OPERATORS TALKING STRIKE

UNITED STATES TELEGRAPHERS HAVE SENT ULTIMATUM TO THEIR EMPLOYERS.

(Canadian Press Despatch)

Washington, May 31.—According to an announcement here by F. McDonnell, chairman of the Executive Board of Washington District Council, President S. J. Konenkamp, of International Commercial Telegraphers' Union, has sanctioned the ultimatum sent yesterday to American telephone and telegraph and other wire companies at Atlanta, Ga., in which nation-wide strike of members of the Telegraphers and Electrical Union workers is threatened unless a number of telephone operators recently discharged in Atlanta and vicinity are reinstated by noon Monday.

REV. DR. WEARING

of the Woodstock Baptist College, who will preach the aninversary sermon in Murray Street Baptist Church to-morrow. Dr. Wearing is a brother of Mr. Joseph Wearing of this city and is his guest during his stay in the city.

GORDON TRULL DROWNS IN LAKE

STUDENT AT BOWMANVILLE HIGH SCHOOL VICTIM OF BOATING ACCIDENT.

Gordon Trull, son of Mr. Lewis Trull, of Darlington Township, was drowned Thursday evening near Bowmanville, while out with two companions in a punt on Lake Ontario. Unable to swim young Trull had to be left by his pals who had great difficulty in saving themselves as they were one hundred yards out from the shore. Capt. McMahon was phoned for and came in his fishing boat but the body was not discovered until yesterday, lying in eight feet of water. Gordon Trull was eighteen years old and was attending the Bowmanville High School.

Honor Roll Of Trinity Church

The families of Trinity Church having members who joined the C. E. F., or B. E. F., are requested to send their names and rank at once to the pastor in order that the Church honor roll may be completed.

EFFORTS MADE TO PREVENT STRIKE SPREAD IN TORONTO

No More Union Men Were Called Out Today but Many Will Vote on Question Tonight or Tomorrow—Conciliators Are at Work.

(Canadian Press Despatch)

Toronto, May 31.—Efforts of the civic and provincial conciliators are being continued today to prevent a further spread of the sympathetic strike inaugurated yesterday to aid the striking workers of the metal trades. No additions to the number of unions called out yesterday were reported by the general strike committee at the Labor Temple today, though it was stated that the strike leaders confidently expect that street railway employes will decide at their mass meeting at midnight to go out in sympathy with the present movement. Several important unions are meeting tomorrow, some to take strike votes and others to decide whether to cast a ballot on this important question.

In the meantime, business appears to be going on as it should. Hundreds of millions of dollars in riot insurance has been written, however, indicating an intense anxiety as to the future.

MAIL TO SASKATOON.

Postmaster Edgar has received the following notice from Ottawa:

Stop paper and parcel mail for Saskatoon until further notified.

AMERICAN PLANE REACHES ENGLAND

NC-4 COMPLETES LAST LEG OF THE TRANSATLANTIC FLIGHT TODAY.

(Canadian Press Despatch)

Plymouth, May 31.—American seaplane NC-4 arrived here from Ferrol, Spain, at 2.26 o'clock, this afternoon.

The naval flyer came into view off Plymouth at 2.23 o'clock and three minutes later had dropped down in the harbour.

The United States seaplane NC-4 left Port of Ferrol, Spain, for Plymouth, Eng., at 6.40 o'clock this morning and NC-4 passed the torpedo boat destroyer, Hazelwood, at station No. 4 in the Bay of Biscay at 9.03 o'clock.

NEW MEMBERS FOR BOARD OF TRADE

The executive committee of the Board of Trade met yesterday afternoon for the election of new members.

Chairman Thos. Barrie, Frank Whitehouse, J. J. Hartley, A. W. Cressman, E. G. Patterson, and J. J. Duffus were present, Mr. Vincent Eastwood being the only absentee.

The following members were elected: F. H. Dobbin, Geo. Graham, Geo. A. Gillespie, E. Hensley, G. H. Howson, James Lynch, R. J. Matchett, Chas. E. Moore, Dr. J. B. Mann, Dr. J. A. Morgan, G. E. Winter,, and F G. Young of the Stoney Lake Navigation Co.

FINANCE COM. MET LAST NIGHT

TIME IN WHICH BRIDGE DEBENTURES MUST BE ISSUED IS EXTENDED.

The city's finance committee last night passed a number of accounts ready for the Council meeting Monday night.

The committee will recommend that the Board of Trade be permitted to use as its seal the city's crest with the words "Board of Trade" added.

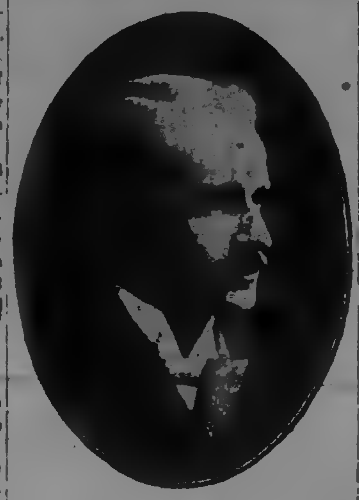
On motion of Ald. Turner and Edgar, the time in which the bridge debentures must be issued will be extended for two years.

On motion of Ald. Turner and Morrison the committee will recommend that the city treasurer be allowed a new typewriter for his office.

Provincial Bank of Canada has established a branch in St. John's N. B.

Owen Sound teachers are asking for $100 increase.

LOCAL MACHINISTS DECIDE AT MEETING LAST NIGHT TO STAY AT WORK FOR PRESENT



REV. J. R. WEBB

Popular pastor of Murray street church, the seventy-third anniversary of which will be celebrated tomorrow. Rev. Dr. Wearing of Woodstock Baptist College,. preaching morning and evening.

International Headquarters Sent Instructions to That Effect—Issue Here Depends on Results Reached in Larger Cities—Big Plant May Close Down Tonight.

There will be no strike of the machinists in Peterborough for the present at any rate. About three hundred men drawn from the various machine shops of the city met last night in Labor Hall and discussed the situation informally. A good many grievances were aired, especially the one regarding the eight-hour day. It was felt ot be a disgrace that, while the Peace Conference was embodying the eight-hour day in its terms, the men in Canada had to fight to get it.

Mr. Peter McArthur, the president, was in the chair, and Mr. Chas. Horsfold was the secretary. A letter was read from headquarters of the International Union at Washington prohibiting the local men from joining the strike. The intention is to fight the matter out thoroughly in the large centres, such as Toronto and Winnipeg, because the smaller cities will have to abide by the results of the struggle there in any case. There will be no strike unless authority for it comes from headquarters.

A possible result of the local machinists staying in may be that the manufacturers will pool their work and some at least of the jobs formerly done in Toronto will be taken care of by Peterborough and other outside city shops. To this plan the local men are very much averse, and if it is tried out demonstrations are bound to follow.

The situation at the C. G. E. is now in a queer mix-up. The employes have given notice that the present agreement terminates today, but as they are prohibited by the union headquarters from striking, the next move seems to be up to the employers. If the employes strike in disobedience to orders they lose all benefits from the strike fund and could scarcely hope to get anything more than a somewhat protracted holiday. Rumors which are flying up and down the street state that the C. G. E. is prepared to begin a lockout on Monday.

Bolsheviki Are Put To Flight

(Canadian Press Despatch)

London, May 31.—The evacuation of Orenburg, one of the last Bolshevik strongholds in South-eastern Russia, is suggested in an Archangel official wireless message, received today. The message says that to the west of Orenburg Bolsheviki abandoned Tatikevo under enemy pressure.

NO LIQUOR STORE FOR PETERBORO

LICENSE COMMISSIONERS SAYS SUPPLIES MUST BE OBTAINED FROM TORONTO.

There will be no liquor dispensary in Peterborough on account of the recent ruling of the Ontario Board of License Commissioners. Strong representations were made to Toronto that in a city of this size there should be at least one place where liquor could be obtained in a lawful manner for medicinal and other necessary purposes, but the Board has laid down a cast iron rule against granting any more licenses anywhere in Ontario. In their reply they pointed out that the necessary liquor could be obtained from Toronto under the same conditions as apply in that city.

The trouble, however, is with the delivery. Somewhere between the time the shipment leaves the manufacturer and the time it arrives at its destination [illegible] amount of pilfering [illegible] In a recent shipment of native wine to this city the lid of the box was forced open, four bottles taken out and the box nailed up again and delivered to the customer.

CHARGED WITH DEFAULTING

Ernest Eason, who appeared in Police Court this morning on the charge of being a defaulter under the Military Service Act, changed his plea to not guilty on the advice of his counsel and was remanded till the 3rd of June, bail being renewed as before.

Sarnia will soon instal a new electric fire alarm system.

Geo. Ormond, Belleville, died very suddenly of heart failure.

Morris Micknick of Hamilton was fined $1000 for selling liquor.

Edith Kihkham, Dundas, was drowned at the Ewart dam.

ALLIES ARE READY FOR PROMPT ACTION IF HUNS REFUSE TO SIGN

Significant Utterance of Lloyd George is Reported Today—Can Either Treat With Peace Conference at Versailles or at Berlin.

(Canadian Press Despatch)

New York, May 31.—The Associated Press this morning issued the following:—With the plenary session of the peace conference for reading the Austrian peace terms set for this afternoon efforts were continued during the forenoon to bring the Italian-Jugo-Slav dispute over the Adriatic question to a final adjustment. The Jugo-Slav delegates, however, are said to be setting up obstacles, proving for the present at last more unyielding than the Italians.

Meanwhile there has been no indication of what action the allied conference purpose taking regarding the counter proposals to the peace terms presented to Germany. It has been pointed out, however that the greater part of German objections have been answered in advance of formal presentation of counter proposals. It is known too that the Allied powers have made preparations for almost instant action in the event of the Germans refusing to sign the reported statement of Premier Lloyd George early this week to the effect that if the Germans did not sign the document at Versailles they would do so at Berlin may be considered significant.

OWNERS OF DOGS MUST LOOK OUT

DOG CATCHER GATES WILL BE ON THE JOB AGAIN NEXT WEEK.

The city property committee will recommend Council to pay Walter Kitney $10 to assist in maintaining a bear at the East Nicholls Park and that the chairman confer with the Nicholls Park trustees in regard to Kitney's request that a bear pen be built.

Kitney's hobby is to gather together a small menagerie at the East Nicholls Park, of which he is caretaker.

On motion of Ald. Edgar and Garside, the band stands in Victoria and King Edward Parks will be repaired and painted.

Poor Old Dogs!

On motion of Ald. Edgar and the Mayor, the committee will recommend that Jimmy Gates be paid $1 for each dog he finds running at large, contrary to the bylaw, he to fulfill his duties under the Chief Constable's direction and payments to be made him on the certificate of the chief constable.

For Milk Vendors.

On motion of the Mayor and Ald. Phelan, the committee will recommend that a bylaw be passed providing that milk vendors have their names painted conspicuously on their wagons.

Sanitary Bread.

The committee will also recommend compliance with the request of the local Board of Health that the doors of bakers' delivery rigs be situated at the rear of these vehicles only, and that said doors shall be kept closed while bread conveyance is in motion.

Building Bylaw.

A request from the Trades Council that the building bylaw be strictly enforced was to hand. The committee intends revising this bylaw at an early date when the Trades Council's request will be attended to.

Bathing House.

Committee will recommend that a bathing house be built and a bathing place be prepared at the east end of Lake street at a cost not to exceed $1500.

THE DAILY REVIEW

ESTABLISHED 1879.

MEMBER OF THE CANADIAN PRESS, LIMITED.

THE DAILY REVIEW is published every afternoon at 4 o'clock (holidays and Sundays excepted) by The Peterborough Review Company, Limited, 166-168 Hunter Street.

SUBSCRIPTION PRICE, $3.00 per year by mail to any part of Canada or Great Britain; $4.00 per year delivered to any part of the city.

THE WEEKLY REVIEW, established 1853, is published every Thursday morning at 10 o'clock. Subscription price $1.50 per year to any part of Canada or Great Britain, or $2.00 a year to the United States.

"FOR A GREATER PETERBOROUGH."

SATURDAY MAY 31 1919

THE CREED OF SAULT STE. MARIE.

Sault Ste. Marie has a "Welfare Society," non-sectarian, non-partisan, which aims to make Sault Ste. Marie the model city of the world.

Where the death rate is the smallest;

Where the standard of morality is the highest;

Where the children are the best born and bred;

Where the education produces the best citizens and workers;

Where the greatest wealth is produced per person;

Where the division of wealth is most just;

Where the citizens live their lives according to their own ideals;

Where the greatness of folks is measured according to services rendered;

Where the confidence between women, children and men is the greatest.

THE CREED of Sault Ste. Marie might well be adopted by every community in Canada, perhaps with this clause added: "Where the city council can take care of the public business without vexing delay."

COST OF LIVING PROBE.

HOW LONG, OH, LORD, how long is this pretence to be kept up by the Government, the pretence that they are really doing something to relieve the consumer from the stress of the high cost of living? Sir Thomas White has given notice of a resolution which he will introduce in the House, providing for a special committee to look into the question of prices. All of which is nothing but so much bunkum. The agony is to be prolonged.

Ever since an alleged food controller was appointed something like two years ago the Government was supposed to be dealing with this matter. Although a well paid official, with numerous aides and deputies throughout the country, was kept on duty—and on the public pay roll—for the duration of the war, every consumer in the country, whether a householder or a mere boarder, knows to his cost that the price of food, in spite of all this supposed regulation, kept going steadily up. And now we are to have more regulation. Even the municipalities have been given the right to deal with this question of the cost of living, but the first city or town to avail itself of this authority has yet to be heard from.

Someone, evidently with a hazy idea of the subject, suggests, not by way of a joke but in evident good faith, that the Government should lower the tariff on food and clothing in order to reduce living expenses. The law of supply and demand is working out in the contrary direction. It is the dearth in Europe that is creating a demand for the products of the world.

Almost anything that can be thought of or enumerated is possible of achievement. Any government can fix the price of commodities so long as a parity is established between production and the ultimate selling price. But the Government, if it attempted anything of the kind should also fix the wage scale. Let the price of food and clothing be squeezed down by governmental action, and the employers will see that the wages follow in the same course and that the cut in the latter case is greater than in the other.

The special committee that Sir Thomas White has in mind is to be charged with the further duty of investigating the question of house rent. The field is ample and presents untold opportunities. For example, the committee can come to Peterborough and figure on this problem, after hearing more or less expert evidence—how does it come that it is cheaper to live in a rented house than in one of your own, and how is it that house property held for rent does not yield a return of even three per cent. on the investment?

NEW LABOR LAWS PROPOSED.

DRIVE ANY GOVERNMENT into a corner, get the members into a position where it is a choice between principle and expediency, and one avenue of escape is always left them. They can inaugurate an investigation.

This is what the authorities at Ottawa have decided to do in connection with the present labor unrest. We are told that the Department of Justice has been called to look up the labor laws in Great Britain and the United States, so as to help in the problem of drafting legislation that will keep Canadian industry free from strike or lockout.

That is evidently the sum total of the Government's conception of its duty, to remove the danger of strikes, then the risk of lockouts will disappear. Take the the hands of the workingman his one weapon, the right to quit work when dissatisfied, and all risk of lockouts will disappear. The manufacturers can carry on so long as he is able to set the wages of his staff, no matter what the state of the market may be.

Canada has for twelve years or more maintained an expensive adjunct to the administrative machinery in the shape of a Labor Department. Has this Department existed all these years and up to the present remained in ignorance of the labor conditions of Great Britain and the United States, the two countries with which the interests of Canada are so closely woven? Have the members of the Minister of Labor's staff all these years been engaged chiefly in watching the industrial thermometer as it slowly rises to indicate the increase in the cost of maintaining a family of five, the result of their vigilance to be given the public by official reports at stated intervals?

The Industrial Commission that has been investigating has taken sufficient evidence to indicate that the real cause of the unrest in the Labor world is the demand of the trade unions for shorter hours. The Federal Government is not sure that it has authority to pass a general Labor law making eight hours a legal day's work the country over. However, it will "investigate" in other words, there is to be more exasperating delay, while the industrial earthquake becomes more general in its operations.

The Federal Government has not always been so delicate in the matter of interfering with the rights of the provincial legislatures. There was war-time prohibition, for instance, passed not by Parliament but by order-in-Council, to meet a condition not half so serious as that which exists today. The Federal Government does not when occasion arises hesitate to take a hand in provincial school affairs, even though provincial rights in this regard are defined beyond dispute by the B. N. A. Act, and to force sectarian schools upon provinces in which the majority of the people are opposed to anything of the kind. The cases referred to may be matters of public necessity, the enforcement of simple justice to promote general harmony, but if that be the case, then the uniform labor law problem can be placed in the same category.

The Government at Ottawa assumed to enact Labor legislation for the various provinces when it put on the statute books the Industrial Disputes Act.

The Department of Justice evidently has a lot to learn when it takes up the task of looking into foreign labor laws. It would naturally be inferred that all such information was on the books of the Labor Department ever since its organization. In the United States, for example, Ottawa will ascertain that a number of States have made an eight-hour day legal, that all of them have adopted laws against excessive hours of work for women and children. But in urgent cases the Federal powers have not hesitated to interfere with State rights.

When cotton factories were established, within recent years, in the Southern States, factories in which ninety per cent. of the workers are women and children, the South had no labor laws except the unwritten code that has been in existence since the days when colored humanity was in legalized bondage and in which the working day was limited only by the hours of daylight. The South could not bring itself to the point of shattering precedent by establishing laws for the protection of women and children working in factories. But Congress rose to its duty, and in the interests of the common good exercised its higher powers and in the name of humanity saved the women and children of the South from the exploitation of ruthless and conscienceless taskmasters.

The welfare of the majority should be the aim of all governments. No particular province or state should be permitted to block the pathway of human progress or to perpetuate evils that are a general menace to the rest of the world. This principle is being demonstrated in Europe today, where the Allied powers have really assumed the regulation of the domestic and international policy of their defeated adversaries.

THE EIGHT-HOUR DAY.

"A DOMINION-WIDE eight-hour day would put the manufacturers of Canada in an unfair position to compete with those of other countries," was one of the favorite arguments cited by employers who appeared before the Industrial Commission.

When the Hydro Commission wanted two new street cars for the Peterborough service, the new equipment was ordered in Cincinnati instead of from a Canadian firm. Sir Adam Beck, taken to task for going outside of Canada for purchases, said that the question of expense was the deciding consideration in the transaction. The cars could be obtained at a saving of forty per cent. in Cincinnati even after the duty of forty-two and one-half per cent. was paid. The Hydro Commission, Sir Adam argued, is of more public importance than any private concern in the country.

In Cincinnati, let it be here noted, the cars were built by men working under a state law, eight hours a day, forty-four hours a week. There is something askew somewhere.

NOTES AND COMMENT.

IT WILL BE much better for the Germans to sign than to singe.

• • •

BUT EVEN if Germany refuses to sign, her word is just as good—and valueless.

• • • • •

THERE IS NO PLACE like home, and nothing quite so scarce and costly in Peterborough at present.

• • • • •

STRAWBERRIES in the fruit store windows, at present prices, are at least a pleasing addition to the general scenery.

• • • • •

THE REAL CAUSE of this unrest may be that the Labor question is tied up in a superfluity of governmental red tape.

• • • • •

GERMANY'S ONE COMFORT is that in the presence of other and more vital questions she is spared the agitation for an eight-hour day.

• • • • •

WHY SHOULD the Toronto jail authorities maintain an alleged wall around that institution to inconvenience those who have an ambition to get away?

• • • • •

THE NEWSPAPER that believes tariff reduction would decrease the cost of living should test its vision by seeing if it is really able to discern objects through a ladder.

• • • • •

LOOKING FOR THE CAUSE of present day labor unrest reminds one of Diogenes and his lantern searching for an honest man while specimens could be found all around him.

• • • • •

HAVING SO FAR FAILED to discover a sovereign panacea for the high cost of living and other economic ills, the Government now rather petulantly proposes to abolish patent medicines altogether.

• • • • •

"THEY WANT TO ROB US of our military and naval powers," grieve the Germans. "They want to take the matches away from me," whines the whipped child, "so that I can't set he house or barn on fire and burn to death others beside myself."

WIT AND WISDOM

Safe.

"I know a perfectly safe place for your diamond rings, mother."

"Where?"

"On Bud's fingers."

"Silly, he'd be sure to lose them."

"No, he wouldn't. You'd never be in any danger of Bud taking them off to wash his hands."

No Desk Job.

Physician — You need more exercise.

Patient — You're crazy. Why, I am the hero of a motion picture serial.

Their Own Dope.

"The Germans complain that it is a peace of hate."

"They shouldn't object to that. It's just the kind of a war they started out to make."

He Knew Smith.

Two commercial travellers, who met on one of the upper floors of a hotel, stopped to chat.

"I wonder if Smith is staying here?" said one.

"I don't know," replied the other, "but I can tell you if he is on this floor."

"How?"

"Just take a broom and make a noise like someone sweeping, and if Smith is within hearing he'll stick his head out to flirt with the chambermaid."

All Tired Out.

"Money is circulating very fast," remarked the economist.

"Yes," replied the ordinary person, "by the time a dollar bill gets around to me it is so tired it can't do anything like the work it used to."

Present and Prospective.

June is the circus month—also the month of some one-ring affairs that lead to circuses later.

Taking Aonther Chance.

Higgs—Going to work the garden this year, old man?

Diggs—Best I can say is that I'm going to try to work it. It worked me last summer to the extent of fifty bucks.

FEMININE LOGIC

The young lady across the way says the short skirts were much easier to get around in than those of this more materialistic age.

A HOLIDAY YOU WILL APPRECIATE.

The Muskoka Lakes have won a commanding place among the summer playgrounds of this continent. They draw their devotees each season from every centre of importance in Canada and the United States. The Muskoka group is composed of three large lakes and some smaller ones. The principal lakes, often called the "Three Graces," are Rosseau, Joseph and Muskoka. When you consider that Muskoka resorts are within three and a half hours' ride by the Grand Trunk from Toronto, and proportionately accessible from many other large centres, no more delightful trip can be planed. A pleasant journey by train; a delightful sail of from one to four hours through beautiful lake and island scenery; a sojourn at a well-conducted hotel or boarding house, indulging in such recreations as golf, bathing, sailing and fishing. For full particulars and booklet regarding this territory apply to C. E. Horning, District Passenger Agent, Union Station, Toronto.

POINTED PARAGRAPHS.

A true fish story is stronger than a fictitious one.

The coat that isn't paid for is a bad habit to get into.

There are times when four aces constitute a helpful hand.

Pluck is all right, but good luck frequently leaves it at the post.

India rubber is almost as elastic as the conscience of a politician.

Political success is like the proverbial flea—now you see it, now you don't.

In trying to get up in the world some men use their friends as ladder rungs.

There is nothing on earth that can get so badly stuck on itself as a sheet of postage stamps.

Every woman is born with a master mind—and she isn't satisfied until she finds some man to master it—nit.

Where does your salary go?

THE months go by with dizzy rapidity and you find at the end of a hard working year, that you are no better off than you were at the beginning.

Year after year it will be the same if you don't take immediate steps to stop the outward flow of your earnings.

Cultivate the saving plan. Try opening a savings account in The Bank of Toronto. It will be surprising how little you will miss what you lay aside, and how quickly your savings, together with the interest they will earn, will accumulate to a substantial sum.

We invite your banking account

COAL OPERATOR PROBLEMS

The anthracite coal producers are confronted with a serious problem, and are far from happy. They are not suffering from a lack of demand for their production of domestic coals, but from a lack of demand for their by-product, steam coal, and from an impending labor shortage. Steam coal is in the truest sense a by-product. The producers do not strive to produce it. They cannot help themselves. The ordinary sizes used for domestic purposes are selected by means of breaking and the screen. The smaller sizes, which are known to the trade as "buckwheat," "barley" and "rice," as distinguished from "egg," "chestnut" and "peace," the sizes known to the public, are the coals that sift through the screens and that are an unavoidable result of "breaking." This small coal represents about forty per cent. of the total productions of the anthracite mines, and the producers are steadily accumulating a great store of it because the demand for "steam coal" has fallen off. The producers do not attribute the decrease in demand to any particular cause. They cite the fact that the use of bituminous coal, which was permitted during the war in communities which ordinarily prohibit its use on account of the smoke, is being continued. This doubtless account for the lack of demand to some extent, but is not a complete explanation. Industry has slowed down to a considerable extent during the last few months, and the coal producers will probably find themselves compelled to store their surplus "steam coal" against the time when the demand revives.

The demand for domestic coal is exceptionally good. The producers attribute this to the forehandedness of the householders who recently experienced discomforts as the result of the car shortage and the limited production. The producers expect that a car shortage will recur when the crops begin to move and are encouraging the householders to buy now, in spite of the fact that every time they sell sixty pounds of domestic coal they are forced to store forty pounds of "steam coal." In the main they have made no effort to find a new outlet for steam coal, because they feel that the condition is temporary. Communities which now permit the use of bituminous coal will not tolerate the smoke nuisance for long, and the condition which reduces the demand for steam coal in industry will soon pass—is already passing—but in the meantime the producers are glutting their yards with coal that nobody wants.

HIGHEST HONORS FOR MISS MANN

SMITH TOWNSHIP YOUNG LADY WINS DISTINCTION IN TORONTO.

Miss A. Mildred Mann, daughter of G. W. Mann, Smith Township, won the W. E. Rundle scholarship for general proficiency, Toronto General Hospital. She also won the scholarship in social service, taking the highest standing of all nurses in Toronto. This gives her a year's course at Toronto University in the Social Service Department with tuition and board provided.

Hamilton newspaper printers now receive $30 a week for an eight hour day.

Cook's Cotton Root Compound.

A safe, reliable regulating medicine. Sold in three degrees of strength—No. 1, $1; No. 2, $3; No. 3, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: THE COOK MEDICINE CO., TORONTO, ONT. (Formerly Windsor.)

In the Supreme Court of Ontario.

SPRY ESTATE, CEMETERY COMPANY vs. SPRY

Pursuant to the Judgment and Order for Sale made in this cause, and bearing date respectively the 11th day of April, 1918, and the 27th day of May, 1919, there will be sold, with the approbation of His Honor, E. C. S. Huycke, Esquire, K.C., Master of this Court at Peterborough, by W. J. Hancock, Auctioneer, at the Munro House in the City of Peterborough, at the hour of two o'clock p.m., (railway time), on the 28th day of June, 1919, the following lands and premises in one parcel, that is to say. The residence and premises, situate and being at the North East corner of Dalhousie and Stewart Streets, in the City of Peterborough, being house number 382 Dalhousie street, and being part of lot number eleven, North of Dalhousie and west of George street, having a frontage on Dalhousie street of approximately forty-nine feet, and more particularly described as follows: COMMENCING on the western limit of said Lot at a point distant one hundred and five feet southerly from the north west angle of said lot thence easterly, parallel with the southern limit of said lot thirty-six feet; thence southerly parallel with the said western limit five and one half feet; thence easterly parallel with the said southern limit thirty-six feet; thence northerly parallel with the said western limit sixteen feet; thence easterly parallel with the said southern limit forty-two feet more or less to the eastern limit of said lot; thence southerly along the said eastern limit twenty-three feet more or less to a point in said Eastern limit distant seventy-four feet northerly from the south east angle of said lot; thence westerly along the northern limit of the land conveyed by and described in Registered Instruments Numbers 4478, 10, 136, and 7527 for the City of Peterborough, to the north west angle of the said described land in said Registered Instrument Number 7527; thence southerly parallel with the easterly limit of said lot and along the western limit of the land described in said last mentioned instrument seventy-four feet more or less to the southern limit of said lot; thence westerly along the said southern limit forty-nine feet more or less to the south west angle of said lot; thence northerly along the western limit of said lot eighty-five and one-half feet more or less to the place of beginning. SUBJECT to a right to the owners of the property adjoining said land on the north of said described land to project the roof o fthe dwelling house situate on the southern extremity of the said land adjoining on the north to the same extent as the same at present projects over the said described land, and to allow the water from the roof of the said dwelling house to flow thereform on and upon the said land hereinbefore described to the same extent as it did on the fifteenth day of December, 1902 and subject to the rights of way granted in and by the said Registered Instruments Numbers 4478 and 7527 for the City of Peterborough.

On the property is a storey and a half brick dwelling house about twenty-one feet by thirty-six feet, containing six rooms and a bathroom, and there is also a frame summer-kitchen.

The property will be offered for sale, subject to a reserved bid to be fixed by the Master.

TERMS OF SALE:—10 per cent of the purchase money to be paid at the time of sale, and the balance within thirty days thereafter, without interest. In all other respects the terms and conditions of sale will be the standing conditions of the Supreme Court of Ontario.

Further particulars may be had from Messrs. Peck, Kerr & McElderry, 415 Water Street, Peterborough, the Vendor's Solicitors, Messrs. Gordon & O'Brien, 397½ George Street, Peterborough, or A. E. Dixon, Esquire, Barrister, 385 George Street, Peterborough.

DATED at Peterborough, this 29th day of May, 1919.

(Sd.) E. C. S. HUYCKE,
Local Master at Peterborough.

Business Men's Excursion June 17

The Business Men's Annual Excursion this year will be held on Tuesday, June 17, to Rice Lake. The usual good time assured. Fish dinner. Sports that are sports. Every business man is expected to be present. Tickets may be had at The Review and the Examiner offices, R. Fair's, Lynch's Drug Store, Payne's Drug Store, and at Denne's flour and feed store.

—the new and popular *Table and Culinary Oil* which is now meeting the approval of Canadian housewives, everywhere.

No other salad Oil or shortening of *any kind* can equal AprOl—this *new Oil* pressed from the ripe kernels of California Apricots and Peaches.

Because of its great *usefulness* and *economy*, AprOl is sometimes called

The New Economy Oil for all Cookery and Table Use

It is Better for all Culinary Purposes

—for Mayonnaise, Dressings, Salads, Sauces, Cakes, Pastry, Biscuits, Puddings, Bread and for *all other* cookery requiring *Oil* or *Fat.*

AprOl is, of course, a *pure and unadulterated* VEGETABLE Oil—its purity and density enabling it to give you more satisfactory *results* than any other form of shortening.

The housewife can now conserve Pork, Lamb, Ham, Butter, Lard and Cream, without depriving her family of the fats essential to nourishment.

AprOl enables you to do this—by satisfactorily replacing Butter, Lard and other Fats—as well as the excessively high-priced Oils so hard to procure.

Each of the Grocers named in this Announcement is now prepared to supply your needs in AprOl—this *splendid new Oil.*

REMEMBER! AprOl comes to you with the full endorsement of American housewives, as well as that of a multitude of Canadian housewives, who have given it a fair and impartial test.

If you will secure from *your Grocer, to-day,* a bottle of AprOl, and TRY it in any of the uses stated or illustrated in this Announcement—you will be *delighted* with the *results.*

See how we divide our Profits with you; with *every bottle* of AprOl is a *Coupon* – 1c to 4c— good in trade, for full value, at the store of *any* AprOl Grocer.

TINSEL CROWNS; GOLDEN STREETS

SUBJECT OF REV. F. E. MALOTT'S DISCOURSE TOMORROW MORNING.

In Trinity Methodist Church on Sunday services f special interest will be held. The Pastor's sermons will deal with present day conditions and how they may be improved. His themes will be, morning "Tinsel Crowns and Golden Streets;" evening, "A Cause of Unrest." There will be special music. All are welcome.

AT MARK STREET CHURCH

Special Service of Praise for To-morrow Evening.

The pastor will have charge of both services at Mark Street Methodist Church tomorrow. In the mrning his theme will be "The Burial of Jesus." For the evening a special service of praise has been arranged. Good old hymns sung to the tunes we all know and love with special music by the choir. Come and have a good sing.

Zutoo Tablets
Do Three Things
—cure Headache in 20 minutes
—break up a Cold over night
—stop Monthly pains of women.
There is one thing they will not do—they won't hurt you.

Open Air Service In Victoria Park

SALVATION ARMY WILL RESUME SUMMER CAMPAIGN TOMORROW.

Commencing with Sunday next the local Salvation Army Corps will open fire in Victoria Park for the afternoon service. Sixteen additional long seats have been provided so that there will be good seating accommodation.

The service will he of a bright, interesting character with plenty of music and song by the band and songsters.

Bandmaster and Mrs. Baldwin of Guelph will assist with the services during the week end. The bandmaster took the first military band overseas, known as the 34th, which was practically composed of salvationists from the Guelph Corps

The public is heartily invited to these meetings. Seats free, hymn books supplied. Congregational singing, a special feature Come and bring your friends.

REV. F. E. MALOTT TO BE SPEAKER

WILL ADDRESS A MEETING OF WOMEN'S INSTITUTE AT ORILLIA.

The Orillia Packet says: "The East Simcoe Women's Institute will meet in their seventh annual convention on Thursday, June 5th, in the Orillia Presbyterian Sunday School auditorium. The afternoon gathering, beginning at 1.30, though largely a business session, presided over by Mrs Todd, president, will be varied by an address from Mrs. A. P. Thomas, of Beamsville, who is addressing special summer meetings in the district. Tea will be served at 6 o'clock by the Orillia branch, to the visiting delegates and the members of the Board of Agriculture. The evening session with Mayor Anderson as chairman will be addressed by the Rev. F. E Malott, of Peterborough, so well and favourably known, both in Orillia and in the surrounding country. Dr Mackenzie Smith, of Gravenhurst, will present the need for follow-up work in the medical inspection in the Public schools, upon which she is now engaged under the Department of Education. An excellent musical program will be presented."

KNOX CHURCH SUNDAY SCHOOL

The primary and intermediate department of Knox Sunday School will meet tomorrow morning at 9.45. It is the practise of this school to meet on Sunday mornings during June July and August. A large attendance during the summer months is asked for.

Rev. F. Willamson was married to Miss E. Gorman, of Belfast, Ireland. at Madoc.

Stratford Board of Works recommended $75,000 for resurfacing asphalt blocks.

Mr. Hetherngton, of East Flamboro, had to destroy a pen of hogs suffering from rabies.

An Inside Bath Makes You Look and Feel Fresh

Says a glass of hot water with phosphate before breakfast keeps illness away.

This excellent, common-sense health measure being adopted by millions.

Physicians the world over recommend the inside bath, claiming this is of vastly more importance than outside cleanliness, because the skin pores do not absorb impurities into the blood, causing ill health, while the pores in the ten yards of bowels do.

Men and women are urged to drink each morning, before breakfast a glass of hot water with a teaspoonful of limestone phosphate in it, as a harmless means of helping to wash from the stomach, liver, kidneys and bowels the previous day's indigestible material, poisons, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach.

Just as soap and hot water cleanse and freshen the skin, so hot water and limestone phosphate act on the eliminative organs.

Those who wake up with bad breath, coated tongue, nasty taste or have a dull, aching head, sallow complexion, acid stomach; others who are subject to bilious attacks or constipation, should obtain a quarter pound of limestone phosphate at the drug store. This will cost very little but is sufficient to demonstrate the value of inside bathing. Those who continue it each morning are assured of pronounced results both in regard to health and appearance.

WANTS WHOLE WORLD TO KNOW

MISSOURI WOMAN DOING HER PART TO LET OTHERS KNOW WHAT TANLAC WILL DO.

"My eight years' search for a medicine or a treatment that would overcome my troubles never met with any success until I commenced taking Tanlac," said Mrs. A. B. Cosschoun, who lives at 425 Independence avenue, Kansas City, Mo., while talking with a Tanlac representative the other day.

"My kidneys and stomach were both in very bad conditon," she continued, "and it is hard to say which of these troubles caused me the most misery. The awful pains in my back and the terrible, raging headaches I had would almost drive me wild, and if I stooped over for anything it was impossible for me to straighten up without assistance. Then I would have severe pains on account of my food not digesting properly, and forming into what seemed to be a lump in the pit of my stomach. I was also bothered a great deal on account of my limbs getting numb, or going to sleep, and would often have to rub them with alcohol before I could get any relief. Finally my nerves got in very bad condition and I was not able to sleep very well, and I just got so weak and run down that it would exhaust me completely to do any part of my housework

"After reading so much about Tanlac in the Kansas City papers I decided to make one more effort and give Tanlac a trial, and let me tell you, that was the wisest decision I ever made in my life It seems almost too good to be true, but I am now as well and happy as I ever was in my life. Why, the change in my condition is so wonderful that everybody who knows me is talking about it, and I always take a perfect delight in telling them that Tanlac is responsible for it all. My kidneys seem to be in perfect condition now, and I am entirely free from those pains in my back, and I haven't had one of those raging headaches since I finished my first bottle of Tanlac and I eat just anything I want, and my food digests perfectly. The numbness and pains in my limbs have disappeared, and I am so completely rid of nervousness that I sleep like a child every night. My strength and energy have come back to me, and I can do all my housework without the least trouble. In fact, Tanlac has made me a well, strong woman again, and I just want the world to know what a great medicine Tanlac is, and I am glad to recommend it to everybody."

Tanlac is sold in Peterborough by W. D. Warne Drug Co. Ltd., in Havelock by A. C. Denike, in Lakefield by Tanner Drug Co. Ltd., in Fowlers' Corners by W. A. Hunter, in Gelert by A. J Scott, in Westwood by G. Pringle & Son.

MONEY GIFTS FOR RETURNED MEN

ZION RESIDENTS DO FITTING HONOR TO TWO HEROES.

On Tuesday evening, May 27th, a reception was given by the people of the vicinity of Zion, Otonabee, to two soldiers, Sergt. Aldons and Pte. Locke, who have recently returned after a long period of service at the front. On motion of Mr. Kent, Mr. Thomas Graystock was appointed chairman and an excellent program of songs, readings and recitations was given by local talent, ably assisted by Mr. Thomas and Miss Petrie, who have shown a very commendable spirit in being ever ready and willing to assist in welcoming the boys back. After the music, which the following address was read and each of the returned men was presented with a purse of money:

To Sergt. Aldous and Pte. Locke.

Dear Friends,—We have assembled here tonight to welcome you back and congratulate you both on your safe return from the blood-stained battle fields of Europe.

You have proved yourselves as men we may well be proud of, having enlisted when the fortunes of war looked very disheartING and the Teuton hordes were sweeping over and devastating the beautiful fields of France and Flanders. Those were dark days, indeed, and we have every reason to be thankful for those who came forward at that time and helped to fill the Allied ranks. You have come back with honors in the shape of scars and wounds received while on duty, which indicate that you acquitted yourselves as men. There is nothing we can do that can adequately repay the debt we owe to you who risked life and suffered for the sake of home and right. We ask you to accept these gifts as a slight token of the sincerity of our welcome home, coupled with the hope that your future lives be blessed with happiness and prosperity.

Signed—the people of Zion neighborhood.

Both Sergt. Aldous and Pte. Locke replied in fitting terms, thanking those present for their kindness and generosity. The ladies present then provided refreshments. After singing God Save the King the meeting broke up.

Maxwell
—a car made of more brains than metal

SO much material and so much labor go into every car. And so many bookkeepers record the business done.

Have you ever stopped to consider the brain power that goes into a car?

Take the Maxwell, and note such men as these employed in its development:

1. The originator of quantity production in the automobile business and the master mind in the employment of machinery to produce quantity.
2. One of the two leading production men on the continent.
3. One of the two leading metallurgists on the continent.
4. One of the leading foundry engineers on the continent.
5. Probably the leading cost man on the continent.
6. A road testing engineer who has driven a car further than any living man.
7. An accountant who keeps a daily balance in a business that exceeds $50,000,000 a year.

These are but seven of more than thirty men of exceptional capacity who team together in the operation of the Maxwell business. The career of any one of these men furnishes a great human story.

The result is evident in the Maxwell of today—a car with a lineage of 300,000 before it. All designed and built on the original chassis program.

It is a car that grows better day by day.

Because more brains than metal are put into it.

THE QUESTION OF FIXED PRICES

(New York Commercial.)

All American business men will find food for thought in the report just issued by the Canadian Trade Commission. This body of experts, after making a careful survey of conditions in the Dominion has advised the Government that "no immediate drop in general prices can take place in Canada."

The Commission strongly urged the stabilization of prices to restore confidence in the domestic market and suggested that wherever possible it would be wise to undertake buying now.

As every reader of this paper knows conditions in Canada and the United States are similar in many respects, so one may safely argue that the decision of the Canadian Commission is also applicable to the United States.

Leaders of American industry have a world-wide reputation for enterprise and therefore it is somewhat surprising to find that they display such a marked hesitancy in dealing with the question of fixed prices.

Thousands of small dealers are reported to be ordering hand-to-mouth supplies, and there is some excuse for their timidity as they have no reason to believe that prices will not drop tomorrow or next week.

If manufacturers in every field would get together, put their cards customers that they see no prospect on the table, and, if conditions warrant the decision, frankly tell their of lower prices, buyers would quickly respond and the result would be a trade boom such as even America has never before experienced.

The man in the street is more prosperous today than he has ever been; he is not worrying about the prices of commodities; but compelled, as he is, to read daily rumors and reports of prospective price reductions in various lines, his sub-conscious self prompts him to exercise quite unnecessary caution in making purchases for himself and his family. When he learns definitely that the prices of all commodities have been stabilized there will be a mighty clamor throughout the land for every conceivable form of merchandise and "the abounding prosperity of America" will again be the favorite topic in foreign lands.

GOOD ADVICE

You would feel better tonight if you had taken two of Dr. Norvall's Stomach and Tonic Tablets last night. To prove this statement take one or two tablets tonight and you'll feel better tomorrow night. For sale at all drug stores.

There Is No Reason to Think

that, because you have rtied and found to be ineffective many kinds of remedies for Gastritis, Hyperacidity, or Imperfect Digestion of Food accompanyied by pain or gas after eating, that you cannot be relievd and be cured.

Moncur's Digestive Tonic

is slightly laxative and acts upon the liver as well. It is especially suited for those suffering from Billous Indigestion. It corrects at once the formation of gas. It assists in the assimilation of food and protects the Inflamed Lining of the stomach in Gastritis.
It strengthens and relieves the whole digestive tract. This preparation used in connection with proper diet and nerve sedatives gives the most satisfying results in Nervous Dyspepsia and Hyperacidity.
Even the old chronic cases show a decided improvement under treatment with this remedy.

Men from the age of sense to that of wisdom—that is from 40 to 60—suffer as much as, if not more than, women suffer from the change of life.

The women who are most versed in the art of saireygamping generally begin to fuss about it at anywhere from 33 upward. Men might as well beat them to it two or three years. At 30 a man's arteries ought to begin to receive some consideration, not attention, but just a little consideration.

How in the deuce is a man to know whether he is having the change of life with no Sairey Gamp to warn him?

That is easy. He has only to test his physical efficiency. With women old age is almost wholly a state of mind wished on them by old women who pine for company. With men the arteries enter into the question measurably.

In order to test your physical efficiency you must first have some idea concerning your ordinary pulse rate. Assume that you have a pulse rate of 8 or 78 per minute, which is the normal average. Take off all your clothes, and stand before a wide open window. Not the time. Do twenty rigid body lifts on the arms from the floor. Follow this with twenty forward bends of body, knees stiff, attempting to touch floor with fingers, then raising arms to front, swinging them spread eagle, swinging them straight upward and repeat. Follow this with ten backward high kicks with each leg. Follow this with ten bends to each side endeavoring to touch floor behind heels with fingers. Follow this with five twists of the upper part of thes body as far as possible to the side, to the back and to the other side, and reverse movement five times, hands stretched above.

All of this consumes from five to seven minutes, according to your height and speed.

Now sit down. After three minutes' rest count your pulse. If you are physically efficient your pulse will have regained its regular rate of 68 to 78 beats in the minute. If it is still rapid as a result of the exercise there is something wrong with your circulation. Either there is too little heart, too much tissue to nourish, or too rigid arteries. In any case the first remedy is—

Just keep on with the exercises as outlined every night and every morning of your life, until you have developed wind, tons and efficiency.

Bran and Gaining Weight.

"Is there any harmful effect from eating wheat bran as a cereal rather than in the form of bran bread or biscuit? I like it this way, and it controls constipation perfectly. At middle life is it impossible to gain in weight when you are below normal weight from turning somersaults?

"MISS C. M. N."

Wheat bran taken in any form you prefer is quite harmless. Any one who has peen able to reduce weight by so mild a form of exercise as somersaults should be able to gain weight readily by diet and rest.

One of the Foolish Virgins.

"What is good to prevent the hair from falling after influenza? On the suggestion of an old experienced nurse I had mine cut close, but it has kept on falling out just the same. I am only 19 and I had very heavy hair.

"MISS B. B. J."

A woman's hair should never be clipped for any reason whatever, and you made a sad mistake in listening to the foolish advice of Sairey Gamp. Of course, clipping the hair has no more influence on the growth of the hair than clipping the nails has on the growth of the nails—but Mrs. Gamp will have her little fling. When the hair falls out after any acute illness it usually grows in again when health and strength are fully regained. Moderate daily self-massages of the scalp, open air life and proper treatment of any sequels or complications left by the illness should be had. Cutting, clipping or singeing hair, with the idea of making it grow better, is a superstitious and utterly unjustifiable practice.

The Baby's Second Summer.

"My baby is 9 months old, and the coming summer will be her second summer so I am anxious to know what foods I should not let her have. She is a bottle baby, but I sometimes give her little tastes of other foods. We always keep her milk on ice, and sterilize every bottle before using it.

"MRS. M. J. L."

Besides pure, clean, fresh milk, which should be the baby's standby up to the fifth year, a baby 9 to 15 months old should have three times a week fresh meat broth, also thoroughly cooked vegetables (any kind) strained through a sieve, occasionally soft boiled egg, and after the first year bread and butter.

FIGURES
NEVER LIE

Figures sometimes lie, but never when viewed through a pair of Dr. Fowler's "PEBLO" Glasses. Without glasses you can't always be sure you see right, but with "PEBLO" Glasses on, correctly fitted by Dr. Fowler, the figures are so clear there can be no mistaking them. Don't make mistakes in figures because you have neglected your eyes.

PALE AND WEAK DESPONDENT PEOPLE

OWE THEIR CONDITION TO WEAK, WATERY BLOOD—HOW TO REGAIN STRENGTH.

Every woman's health is peculiarly dependent upon the condition of her blood. Far too many women suffer with headaches, pains in the back, poor appetite, weak digestion, palpitation of the heart, a constant feeling of weariness, shortness of breath, pallor and nervousness. Of course all these symptoms may not be present in any particular case. They are merely a warning that the blood is out of order, and that it is thin and watery, and if you note any of these symptoms in your own case, you should lose no time in taking the proper steps to enrich and purify the blood. Anaemia—poverty of the blood—is a mot insidious disease and if allowed to run will end in a complete breakdown of the system. Dr. Williams' Pink Pills are, beyond doubt, the greatest blood-making tonic offered the public to-day. For more than a quarter of a century they have been the stand-by of hundreds of thousands of people in all parts of the world No other medicine has ever achieved such world-wide popularity, and the reason is that this medicine does what is claimed for it. enriches and purifies the blood, thus bringing new strength to every organ and every nerve in the body. In this way Dr. Williams' Pink Pills bring new health to weak, despondent people. Among the many who speak highly of this medicine is Mrs. Louis D. Larsh, Windsor, Ont., who says:—"It would be impossible for me to recommend Dr. Williams' Pink Pills too highly. Some years ago I was very thin and pale; I suffered many of the symptoms of anaemia, and always felt tired, depressed and weak. I had tried several medicines, but they did not seem to help me. Then acting on the advice of a friend, I began taking Dr Williams' Pink Pills. Before I had used half a dozen boxes I was actually feeling like a new person and had gained nine pounds in weight. I continued taking the pills until I had taken a dozen boxes, and from that time I have always enjoyed the best of health. I freely write you this letter in the hope that some woman in need as I was, will see it and be benefited as I have been."

Most of the troubles that affect mankind are due to impoverished blood, and will promptly disappear if the blood is built up and renewed. If you are ailing, give this greatest of tonic medicines a fair trial and it will not disappoint you. Dr. Williams' Pink Pills can be procured through any dealer in medicines, or will be sent by mail at 50c a box or six boxes for $2.50 by writing The Dr. Williams' Medicine Co., Brockville, Ont.

SUMMER FOOTWEAR

L. Erster of Peterborough Shoe Store, New Lundy Block, George street, nearly opposite the Opera House, has an attractively selected stock of summer and outing footwear marked down to peace level prices. Quality and living prices have built for this shoe house an ever growing patronage.

EDITOR'S MAIL

MR. HONE REPLIES

Peterboro, May 30, 1919

Editor Review: In reply to Mr. Burnham, I am pleased to observe that he has definitely abandoned the postion of his former letters. As I clearly pointed out, the prohibitionist does not "condemn" alcohol but alcoholic beverages therefore his statement that "it (alcohol) cannot be condemned without condemning Him who put it there," has no application.

He has also been forced to admit that "God merely forbids, with a statement of the consequence" which is an exact description of a prohibitory law. Therefore it is evident that "God's way is Man's" way" of dealing with the question

Mr. Burnham knows that all forms of evil are not capable of the same method of treatment. Drinking and eating are necessary to life. The use of alcoholic beverages is not. Gluttony is an evil that, in the nature of things cannot be removed by a law of prohibition. But it is quite possible to practically eliminate drunkenness by a prohibitory law, and, in so doing, man is merelytaking the best method of preventing that which is contrary to God's will.

The "Divine Method" is to avoid even the appearance of evil and not to court temptation but to enter not into it. The surest way to avoid drunkenness is to leave alcoholic beverages alone entirely. After the removal of the temptation to become a drunkard, there will remain enough to give full exercise to man's self restraint and necessitate God's help and Christ's saving power.

The fact that God does not admit the drunkard to Heaven should "give pause" not to the prohibitionist but to those who might prevent drunkenness by a prohibitory law

ARTHUR D HONE

If you are in doubt about an experiment, get some other chap to try it out.

MAY FESTIVAL BY CHILDREN

The children's May festival, given by the pupils of the Peterborough schools under the auspices of the Women's Teachers' Guild last night at the Collegiate was an unusually successful event. The difficulties that beset the teacher in any subject can only be realized by one who has had the experience, and in the musical sphere the children's temperament and the changing quality of their voices complicate matters very much. Certainly when Miss M. R. Rannie, the supervisor of music, was presented with a bouquet of flowers, everyone in the audience felt that the recognition given of her services was no more than her due.

Miss Lapp, the president of the Women Teachers' Guild, opened the program with a short speech in which she spoke of the work done by them in conjunction with the Red Cross Society. Now that the war is over they are taking charge of French and Belgian orphans, and took this means of giving the children of Peterborough a chance to participate. The sum of $110 will keep an orphan in the necessities of life for a year. At the close of her speech she also received a floral tribute.

In the first item there were 150 boys and girls from the second and third book classes who sang two patriotic songs under the leadership of Miss Rannie. Sixteen girls of King Edward School gave an excellent flag drill—Miss Phyllis Robinson representing Canada and Miss Ricarda Sproule took the part of Britannia.

Captain Maurice Park's pupils from King George School showed in their physical drill that the stuff of which Canada's future soldiers will be made is perfectly sound. The fourth book of King Edward School gave a splendid Easter anthem, under the leadership of Mr Gould. The soloist was Miss Jean Hamilton.

In the middle of the program a lot of little teddy bears from the South Central zoo got on the stage and old mammy bear had some job making them mind. Miss Mary Menzies took this part.

The next item, "The Blue Bird," closely resembled a Grecian dance and was performed with the skill and deftness that only the teen age girls of the Collegiate know how to impart. Miss Sanderson, who trained them shares in their glory. A May-pole dance was given by the pupils of Queen Mary School, their red, white and blue dresses matching the colors of the streamers. Two three-part songs by the fourth book pupils of King George School and three more choruses concluded a program in which three hundred children had taken part with credit to themselves and satisfaction to both their teachers and their parents. The program will be repeated tonight.

ANNIVERSARY

The Thirty-first Anniversary of Coldsprings Sunday School, Otonabee, will be held June 1st. Rev. J. M. McKenzie will be the speaker. Tea and concert in the S. S. Hall, Tuesday, June 3.

Protect Your Skin

Through the pores of your skin must come every day two pints of waste matter. If the pores are not kept clean this waste matter stays in the system to poison it.

And not only must the visible dirt be carried off, but the invisible though no less insidious disease germs and microbes must be destroyed to keep us free from infection.

LIFEBUOY
HEALTH SOAP

does all these things well because it is more than soap (though it costs no more). Its copiously lathering, pure, vegetable oils are the best of all cleansers.

Be wise—use Lifebuoy every day, for the Toilet, the Bath, for home cleaning.

The carbolic odour in Lifebuoy is the sign of its protective qualities—quickly vanishing after use

Y. M. C. A. NOTES

The Y. M. C. A. has offered to operate a Boy's Camp at Sandy Beach, Clear Lake, during two weeks of July for any boys over 12 years whether they are Y. M. C. A. members or not.

The fee is $10 for two weeks and any boys who want to go should make application through their Sunday School at once. The applications must be in the Y.M.C.A. office on Monday, June 2.

Unless 40 entries are in on June 2nd, the Y.M.C.A. will proceed with plans for their regular camy.

Will the Sunday School superintendents kindly bring this matter before their schools?

RUN FOR THE FIREMEN

Yesterday evening at 6 p.m. the firemen were called out to the residence of Mr. W. G. Perks, 593 George street. A small brick ash-house which had been filled with straw, old bedding and other similar rubbish, was accidentally set on fire by one of the youngsters. The blaze was quickly extinguished without any material damage being done.

THEATRICAL

CHANCE OF LIFE TIME FOR LOCAL PATRONS OF GRAND

Ethel Barrymore Will Make Her First Appearance Here Next Thursday Evening—Rare Dramatic Treat is Assured.

In the same delightful comedy in which for many months last season she appeared at the Empire Theatre in New York Ethel Barrymore is to make her [illegible] appearance here at the Grand Opera House, for one performance only, Thursday evening, June 5th, the event markining her first visit to this city. Her comedy is R. C. Carton's "The Off Chance" playgoers recalling the author happily for his "Lord and Lady Algy," "Whe. Is Within Wheels," "Liberty Hall," and numerous other plays with which his fame is identified in England and America alike. "The Off Chance," was the most pronounced success of the group of plays included in Miss Barrymore's repertoire during her engagement in an entire season in New York last year, not even excepting Edward Sheldon's "Belinda."

So emphatic, was the success registered by Miss Barrymore in Mr. Carton's play that when he present tour was laid out, it was agreed immediately by Miss Barrymore and the Charles Frohman Company that this comedy should be her vehicle. Since during this tour Miss Barrymore is to appear only in the principal cities in many of which she has not been for several years, these engagements promise to be little less then than a series of triumphant ovations. No American actress coming in the course of the theatrical season is more welcome than Miss Barrymore. She is easily the most beloved of all players and in the esteem of American playgoers she holds a warm place.

Never has Miss Barrymore been fitted so happily with a role calculated to display all of her delightful charm and ability at its fullest than in Mr. Carton's "The Off Chance." It is one of generous scope at moments giving her abundant opportunity for the play of the exquisite Barrymore sense of humor and flashing comedy, at others calling upon her undoubted ability to portray appealing emotion and tenderness. In both of these moods, at such variance with each other, Miss Barrymore excels and it is a question in which the devoted Barrymore following loves best to see her.

In "The Off Chance, Miss Barrymore is Lady Cardonnell, an aristocratic Englishwoman of a charming middle age and distinction long since divorced, but who, now re-married turns up in a most unexpected fashion to help over a martial difficulty the young daughter waom she has not seen since the latter was a baby. The daughter's husband, a most likeable sportive young chap, is about to run off to Vienna with a famous dancer. Apparently, his principal reason for bolting is that his pretty wife lacks the warmth and passion so apparent in the dancer. With her identity as unknown to her son-in-law as to her daughter, Lady Cardonnell hearing his plaint of his pretty wife's coldness and merely commenting that it may after all, be his own fault since "lots of very clever people [illegible] never learn the right way to light a fire," goes about it to prove that the the wife might not be quite the cold-blooded creature the husband believes. Accordingly, Lady Cardonnell arranges an imaginary elopement for the wife and a middle aged American. Immediately after their departure becomes known, the young husband, as the clever Lady Cardonnell expected, has his attention drawn from his gay dancer and is off in a rush to recover his pretty wife. All this is not accomplished without innumerable amusing situations and the happy solution comes about in a most surprising and unexpected fashion, after a series of extremely funny efforts on the part of Lady Cardonnell. Not until all is well does the young man awake to the discovery that the charming woman who has aided him is his own mother-in-law.

The Charles Frohman Company has surrounded Miss Barrymore with a distinguished Company, including Eva LeGallienne, Antoinette Hanson, Anita Rothe, Cecilia Radcliffe, Mary Balfour, William Boyd, Edward Emery, Harry Plimmer, Harry Ashford, Joseph Brennan, T. Wigney Percyval, C. MacLean Savage, John M. Troughton and F. C. Butler. The comedy, needless to say, has been produced with all the exquisite good taste and painstaking attention to detail characteristic of Charles Frohman presentations.

"Just For Tonight" By Tom Moore At Grand Next Week

TOM MOORE AND KEITH VAUDEVILLE, MONDAY, TUESDAY AND WEDNESDAY—TWICE DAILY.

Tom Moore in "Just for Tonight" and Keith vaudeville at the Grand, twice daily, Monday, Tuesday and Wednesday.

Tom Moore's world of admirers wil find him more delightfully entertaining than ever when he appears as a Goldwyn star in "Just for Tonight". Goldwyn could not have obtained a better medium for introducing the popular screen player as one of its famous group of stars.

"Just for Tonight" tells the story of a man who, in his adventure-filled quest of love, is confronted by situations that would have balked a less determined person than Theodore Whitney, Jr. (played by Tom Moore). The girl, for whom he risks all, hides her identity from him for some strange reason, and that adds to his many trials. She is the niece of Major Blackburn, whose home has been robbed of costly jewels. At the same time Whitney's father is shocked by the loss, of a valuable mining stock certificate. And the same detectives are employed on both cases.

The girl has a strange affair with a mysterious man she meets at frequent intervals at night on the lawn. This leads the detectives to suspect her of the robbery, but when the Major is informed of their suspicious he orders the detectives from his house.

But both mysteries are solved when Whitney poses as Lord Roxenham at the Blackburn home. How he later recovers the missing certificate and uncovers a band of jewel robbers after being exposed as an impostor brings a thrilling climax and supplies a splendid setting for a love scene with Whitney and the girl as the principal figures.

The vaudeville program will consist of Faber & Taylor in a comedy singing and talking skit, "Going North;" Archie Nicholson Duo, comedy musical offering, and Earl Geretiller and Pal, in an unusual comedy novelty, "It's Bound to a Cur." Prices remain the same, 15c and 10c matinees; evenings, 15c and 25c.

Spend an evening in the summer house of vaudeville. Cooled by pure fragrant frozen air. The coolest spot in town.

TO-DAY'S STORY

In the early part of the eighteenth century the last reported appearance of the Wandering Jew was reported from Belgium. Since then the legend has apparently lapsed, but now it is once again reviving, and, peculiarly enough, his re-appearance is reported in Flanders.

Some British soldiers tell the following story:

A party of "Tommies" came to the village at nightfall. They could find nobody who could speak English, until at last a very aged Jew appeared. The old man said he spoke English of an "old-fashioned kind." To the surprise of the Englishmen he addressed them in words and accent of Shakespeare's day.

"You must have lived a long time," said one of the soldiers.

"Yes," the Jew responded. "Ages—ages."

"Then you must have seen and gone through a lot?"

"I have Far more than the ordinary man, for I cannot die."

And the villagers standing about nodded their heads in affirmation.

Cursed With Life.

The Wandering Jew was cursed with the one gift which man in all ages have desired: immunity from death.

The legend is one of the oldest of the Christian world. It has been told and retold in many different forms In the Middle Ages it was believed implicitly, and numerous persons told of encountering the doomed wanderer. In the later centuries the Wandering Jew has furnished material for numerous writers Gen. Lew Wallace, Hans Christian Andersen, Eugene Sue—these and a score of others wrote about the experiences of the man who bore the curse of the Christ, and who was forced to abide through the centuries in a world he desired only to leave.

The versions of the incident that brought on the curse differ, too. According to one the Jew was Cartaphilus, doorkeeper for Pilate at the trial of Jesus. When the Nazarene was being led from the hall of judgment, it is said, Cartaphilus struck him and said: "Go, Jesus; go on faster; why dost thou linger?"

Turning upon him Jesus answered: "I will go, put thou shalt linger here until I come again."

Another Version.

According to another version the man was Ahasuerus, a shoemaker. Jesus, bearing the heavy burden of his cross, stopped within Ahasuerus's doorway to rest, and the shoemaker ordered him on. Upon the Jesus looked sternly at the man and answered, "I shall stand here and rest, but thou shalt move on until the judgment day."

"The Jew moved on into other lands; saw races rise and die; fared far northward and found in the forests of Gaul and Britain and symbols of Christianity. Some accounts pictured him as converted at last to the faith that he had rejected in Jesusalem. Ever he sought death, but pestilence, the lances and arrows of battle, age and the wild beasts passed him by.

According to one story he never reached a greater age than 100 years. When he attained to that length of years he would fall into a faint, and on recovering would be the age he was when the curse descended upon him—30 years.

Drinking may induce good feeling, but a different feeling may be on tap the next morning.

Charity that begins at home usually suspends operations during the housecleaning period.

Wise is he who profits by his experience, but wiser is he who profits by the experience of others.

Railway Time Tables

Storms Stops Hanging.

An eighteenth century execution on Kensington Common was stopped for a time owing to a strange cause. On August 19, 1763, two days before the date of the execution, a heavy fog came over London, accompanied by thunder and lightning and torrents of rain.

These conditions lasted for nearly forty-eight hours, and many people believed that the last day had arrived. When the time fixed for the execution arrived the assembled crowd cried shame on the sheriff for hanging a man when the world was coming to an end.

As he persisted in his preparations they burst through the barriers and stopped the proceedings, shouting that the culprit might as well wait a few minutes, when the grand summons would come for all.

The sheriff had to obtain the assistance of a force of soldiers before the execution could be carried out. —London Chronicle.

Sir Peter Smokes Again.

Sir Peter Griggs, the new M.P. for Ilford, England, is smoking cigars again after eight years' abstinence. Defeated at the poll by Sir John Bethell eight years ago, he made a vow that he would not smoke another until he had been elected M.P. Sir Peter kept his word. After the counting of the votes he was handed a cigar and a match. He at once lighted the cigar, puffed it furiously, and toyed with it like a schoolboy having his first smoke. With evident enjoyment he smoked it to the "bitter" end. Sir Peter afterwards told a friend that he had not smoked any tobacco in [illegible]

CHILDHOOD CONSTIPATION

Contipated children can find prompt relief through the use of Baby's Own Tablets. The Tablets are mild but thorough laxative which never fail to regulate the bowels and stomach, thus driving out constipation and indigestion; colds and simple fevers. Concerning the Mrs. Gaspard Daigle, Demain, Que., writes: "Baby's Own Tablets have been of great benefit to my little boy, who was suffering from constipation and indigestion. They quickly relieved him and now he is in the best of health." The Tablets are sold by medicine dealers or by mail at 25 cts. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Odd Numbers.

It has been wisely remarked that an ancient and universal belief is not to be lightly ignored; there must be "something in it."

Odd numbers have always and everywhere been held in peculiar reverence, and if that is mere superstition, then it only proves that, despite our civilization, we are still superstitious.

A hen is always given an odd number of eggs to be hatched. Why? There is no reason at all, except superstition.

Salutes from warships, forts, etc., are always given in odd numbers, yet no valid reason can be adduced. It is a remnant of the old "odd numbers are lucky" superstition.

Virgil records all sorts of charms and spells practiced round odd numbers—never even ones. And we still, after two failures, make another attempt, and murmur hopefully: "Third time lucky." The odd number again; and the old superstition!

Seven is the favorite Biblical number, and old divines taught that it held a mystical perfection. It's an odd number. Three is the number of the Trinity — an odd number again.

Falstaff, in the "Merry Wives," is entrapped for the third time. He himself said: "They say there is a divinity in odd numbers" because of the old belief that the odd time would be lucky.

Physicians of other days always insisted that "bleedings" should be in odd numbers — one, three, five, etc., and never an even one.

The number two was avoided and had an evil reputation, because on the second day hell was created.—Tit-Bits.

Canadian Commands Finns.

Reuter's gathers that Finns to the number of about 1,500, known as the Red Finn Legion, who compose the auxiliary forces attached to the British armies in North Russia, and who were recently causing trouble, are commanded by a Canadian colonel, whose powerful personality and strong will have since their enrollment built them up into a disciplined and valuable body of troops. They have their own native officers, who in turn are controlled by British officers on the colonel's staff.

Stainless Steel Cutlery.

The making of stainless steel cutlery, which originated in England, was suspended during the war. The result is achieved by adding about 13 per cent of chromium.

The Causes of Backache Can Be Remedied

Many people are apt to disregard backache as being of slight importance. This is wrong. A backache should be accepted as a very grave warning that the kidneys are not performing their proper function, and need immediate attention and assistance.

One ingredient of gin is a most beneficial agent in the toning up of the kidneys and restoring these vital organs to their normal duty of eliminating the poisons from the blood.

Gin Pills contain this ingredient, together with other tested diuretics and antiseptics, without a suggestion of alcohol.

Gin Pills are made from a formula produced from the results of scientific research, and contain only ingredients of tested and proven value.

When you feel backache coming on, be warned and take Gin Pills at once. It may save you a great deal of suffering. Should you neglect the backache or pains in the side, you stand in danger of more serious ailments, such as Sciatica, Lumbago, and Swollen Ankles and Joints, with their excruciating pains and prolonged dreaded suffering.

Gin Pills can be obtained from almost any dealer, and the price is only 50 cents a box. You buy them on a guarantee of satisfaction or your money refunded.

The makers of Gin Pills will be pleased to send you a free sample if you address your request to the National Drug & Chemical Co. of Canada, Limited, Toronto. U. S. residents should address Na Dru Co., Inc., 202 Main St., Buffalo, N.Y.

If you want to find out how great a man is, ask him; if you would ascertain how great he isn't ask his neighbors.

Opportunity is said to knock once at every man's door, but some men wouldn't recognise it if it knocked them down.

Chas. H. Godfrey has been appointed special audtor for the G. T.R.

The Compliment Paid the Hot Spot Chalmers by other Makers

SO successful has been the public response to the Hot Spot feature of the Chalmers and so readily and consistently has this device made good that imitations are now beginning to appear on other cars.

"Yes, we too have a Hot Spot device on our car," is a comment to be heard daily in other motor establishments.

There are two vital weaknesses in the imitations. First, the Hot Spot is not efficient without the Ram's-horn. Second, the Ram's-horn is not a device that can be "fitted to" any motor. The motor must be designed to fit the Ram's-horn.

It is the proper co-ordination of all three—the Hot Spot the Ram's-horn and the Cylinder block—that has made Chalmers one of the few great cars of the world.

It is always a compliment to be imitated. None greater can be paid. But you will be full of compliments for the present day Chalmers after you've turned the thousand-mile mark in one.

FIGHT ARENA AT TOLEDO WILL SEAT 50,000 FANS

Building Greatest Pugilistic Structure the World Has Ever Seen Will Be a Stupendous Task.

Building the big arena for the Willard-Dempsey match in Toledo is a stupendous task, but fortunately Tex Rickard has at his disposal a man accustomed to rush work of this sort. Jim McLaughlin of San Francisco is the man who will do the real work of the arena building, although the actual construction work probably will be sublet to Toledo contractors. McLaughlin estimates the cost of the big structure at not less than $75,000, and probably between that figure and $100,000. The sale of the wood used in the structure after the contest probably will net a return of about 25 per cent. on the outlay.

He Built Several Arenas.

McLaughlin stands without a superior in the construction of fight arenas and has years of experience back of him. It was he who put up the arena for the Nelson-Wolgast fight in 1910 at Point Richmond, one of the quickest construction jobs on record. According to McLaughlin, he was given only three days to build the arena, and was forced to build it adjacent to a lumber yard to save delay in transporting his materials. The ground there was marshy and on the day of the fight it rained, but the structure stood up without any accident.

Two of McLaughlin's greatest feats in building were the construction of the Johnson-Jeffries arenas. It will be remembered that the contest was first scheduled to be held in San Francisco and the arena was already erena was already erected when the governor of California notified the boxers to move out. McLaughlin then erected a duplicate struture in Reno in less than nine days.

Will Seat 50,000 Persons.

The Toledo arena is virtually a duplicate of the two Johnson-Jeffries structures. It will be octagonal in form and will seat between 49,000 and 50,000 persons. McLaughlin says it can readily be enlarged to take care of another 20,000 persons, but Promoter Tex Rickard has put a quietus on such talk by declaring that the expense of enlarging the arena would be disproportionate to the added gate receipts.

Some idea of the immensity of the structure may be gained from a few figures let fall by the builders. McLaughlin declares that he has already contracted for 1,000,000 feet of lumber and that before the building is completed he will have used about 1,500,000 feet exclusive of the lumber required to fence it in. Two carloads of nails will be used in putting the boards together to say nothing of the bolts required for the heavy timbers.

Parts Made in Duplicate.

"It is all a question of getting the plans drawn correctly," said McLaughlin in discussing his work. "My aim is to have just as few different size parts as possible. Each section of the octagon is a duplicate of every other part, so I really am only concerned with only one-eighth of the arena. I get the plans drawn for a few different size parts as [illegible] and then place my orders with the mills for so many hundreds of parts of one size, so many thousands of parts of another size and so on.

"In the course of the next week or so I will erect one section of the arena just to see that everything fits and is ship-shape. This section will later be torn down and when all my parts arrive from the mills I will be able to put up the arena in two or three days without even exerting myself. The question of labor is not troubling me. For a fight of this kind there are hundreds and thousands of skilled workmen who will come to Toledo glad of the opportunity to work on the structure in order to obtain enough money to get into the contest."

War Tax is Considerable.

Rickard's statement that the cost of enlargement would be disproportionate to increased gate receipts is worthy of consideration. McLaughlin estimated that each seat in the structure represents an outlay of about $2.50 in actual cash investment in materials and labor without regard to the risk. Add to this the fact that the promoters are themselves shouldering the war tax on the seats, which amounts to $1 for the cheapest $10 seats and up to $6 for the $60 seats, it can be seen that the low priced seats are not leaving Rickard much margin to work on. The cost of enlargmement, too, probably would be more expensive per seat than for the original arena, while the added seats could not possibly be sold for more than $10 and might have to be disposed of under that sum.

O'Keefe's

CHAS. MILLS WON THE HANDICAP

WEEKLY SHOOT AT GUN CLUB WAS HELD LAST EVENING.

The Peterborough Gun Club held their weekly shoot last night and the members who turned out had a great evening's sport as the weather was ideal. Mr. A. Mott, of the Belleville Gun Club, was a visitor and broke 65 out of 75 birds. He and Stan Coon had a great race for the high gun with the Peterborough man on the short end. Chas. Mills won the handicap event for the box of cigars with a handicap of 2, making his total 14. eBlow are the scores:

Name.	Shot At.	Hit
C. Gutterson	100	72
A. Mott	75	65
J. S. Coon	75	61
C. Graham	75	59
J. Loucks	50	29
J. Brightman	50	28
Dr. McClennan	50	27
A. Harron	50	26
C. Wood	25	21
C. Mills	25	19
C. Lech	25	14
W. Rye	25	14
S. Curry	25	14

OBITUARY

JAMES O'CONNOR

The death occurred last evening of James O'Connor, widower, aged 75 years, after an illness of four years' duration.

He leaves to mourn his loss four daughters, Mrs. John O'Rilley, Regina; Mrs. Timothy Murphy, Ennismore; Mrs. Joseph Lahey, Douro, and Agnes, city, and six sons, John, of Otonabee; Hugh, of Regina; Martin of Medicine Hat; William, of Oklahoma; George, of Toronto, and Stephen, on the homestead.

The funeral will take place on Monday morning at 8 o'clock, standard time, to the church of the Immaculate Conception, thence to St. Peter's cemetery for interment.

TORONTO TO NEW YORK CITY

A through train service from Toronto to New York city leaving Toronto 5.45 p.m. daily was inaugurated by the Grand Trunk on May 4th. This train carries through coaches and sleeping cars and arrives at New York at the Pennsylvania Terminal 33rd Street, and 7th Ave. Also train leaving Toronto 4.00 p.m. daily runs through to Buffalo making direct connections at Buffalo for New York, coaches and parlor, library, buffet car Toronto to Buffalo, sleeping cars Buffalo to New York and Philadelphia. The Pennsylvania station is so centrally located that it is a great convenience to the visitor to New York and is in easy reach of some of the latest hotels, also the shopping and theatre districts. There is also direct tube service to and from Brooklyn.

W. A. Schmidt, of Waterloo College, won the annual oratorical contest.

Milton intends to ask the Ontario Government for sanction to build a High School.

Sudbury Housing Commission refused the tenders for twelve houses as too high.

Fire occurred in the cabin of the steamer Stathos at the dock in Quebec.

Farmer Candidate For East Peterboro

E. N. McDonald, U. F. O. director for Peterborough county, in a letter to the Farmers' Sun, says that the county meeting for the election of officers and the choosing of a candidate to contest he East Riding will will be held during the first week in June.

Much conjecture is being indulged in as to who will be selected as the U. F. O. standard bearer.

Sault Ste. Marie is borrowing $150,000 for the building of houses.

I. Lafontaine, M.P.P., Quebec, was appointed Provincial Inspector of Jails.

Girls, if singleness is bliss, 'tis folly to be wives.

SOCIAL AND PERSONAL

Dr. F. C. Neal has returned to the city after spending a week in Toronto attending a meeting of the Ontario Medical Association and of the Laennec Society.

Dr. Wood, city, is leaving for New York tomorrow on a visit of two weeks duration. During his absence Dr. Kelly, 242 Hunter street, will assume his duties with regard to the care of returned soldiers.

Mrs. J. G. Campozzie, regent, and Miss G. Stevenson, delegate of the Peter Robinson Chapter, I.O.D.E., of Peterborough, Ont., are attending the annual meeting of the National Chapter and are guests of Mrs. Stanley E. Kennedy.—Montreal Star.

A. H. Parker, Hamilton, is spending the week end with his mother, Mrs. A. Parker, Park street.

Mr. John Crane left today for Clifton Springs to spend a short time. Mrs Crane will return home with him.

UNION MEN, ATTENTION!

All Union Men of Peterboro are urged to meet at Labor Hall at 7:30 p.m. Monday next and join the march to City Building to meet Council on the City Laborers' strike and appointing of new alderman. Union Band will head the parade.

A. BOLWELL, President, W. STEVENS, Secretary,
Trades and Labor Council.

SPECIAL MUSIC AT MURRAY ST.

Tomorrow there will be special music by the choir, assisted by Mr. G. W. Caslisle, Mr. Tom Ward and the Electric City male quartette.

Y. W. C. A. CAMP

The Y. W. C. A. camp for girls on Stoney Lake promises to be a popular place this summer. The cottage is near Burleigh, ideally situated, well equipped and comfortable, and will accommodate groups of ten or twelve girls at a time. The camp will be open from June 15 to September 15, and the girls who are planning to spend their holidays there are urged to hand in their names and the dates they wish to be at the camp, so that reservations may be made. It is expected that a large number of girls will take advantage of the camp, and as the accommodation is limited all names should be in as soon as possible. Information regarding dates prices, etc., may be had at the Y. W. C. A. office.

TREET CAR UNION REFUSES TO JOIN TORONTO STRIKE

ote Was Three to One in Favor of Remaining at Work---17,000 Men Are Now Reported Out by Strike Committee.

eronto, June 2.—Toronto's street ilwaymen will not go out on a sym- hy strike with the other labor or- isations of the city. This was the ision reached by division 113 at special mass meet'ng which was led in the Star Theatre on Sunday rning to take a vote on the ques- n.

According to Secretary W. D. Rob- s at 3.30 Sunday morning the vote d gone three to one against a sym- thetic strike. The press was not mitted to the meeting, but it was derstood that the meeting was ord- y and lost no time in getting down business in hand.

The vote was representative of the ntiments of the union, more than 00 being present. The actual fig- es of the votes cast for and against re not given to the press by the ficials, and Secretary Robbins did t disclose them when he handed out statement.

A feature of the meeting was the ct that the railwaymen refused ad- ission to a committee from the met- trades council who wanted to ad- ress the meeting. The delegation as composed of three officials of e metal men—Jack Macdonald, J. el and James Higgins. When they ked permission to enter they were ld that they would not be allowed , because of the fact that a repres- ntative of the company who wanted also speak to the men had been den- d admission.

President W. D. Mahon of the Am- lgamated Electrical Railway Employ- ' Association had been invited to at- nd the Toronto meet'ng, but it was tated that he was unable to be pre- ent and his place as international epresentative was taken by ex-Ald. , J. Gibbons, a member of the ex- cutive.

Seventeen thousand employes are t on strike according to the latest igures presented by the "big fifteen". These may be listed approximately s folows, according to these figures:

Mental Trades	7,000
Carpenters	2,000
Garment Workers	2,000
Marine Trades	1,000
Massey-Harris	1,000
Federal Laborers	1,400
Miscellaneous	2,600
otals	17,000

The outstanding features of the events of the past two days has been the dec sion of the Toronto Street Railway employes to keep out of the strike until their own troubles demanded consideration. Leaders of the present movement in Toronto stated last night that the attitude of the street railwaymen was a negligible factor with the big fifteen.

Plumbers Meet.

Plumbers held an animated meeting at the Labor Temple yesterday, but official information as to results was not forthcoming, although it was unofficially stated that their union was aching for a walk-out.

The District Brotherhood of Carpenters, which held a meeting to touch upon its own grievances, decided to leave them it abeyance until the general strike was over. The telegraphers have decided to defer act'on with regard to the general strike. On the other hand the fire-fighters are holding a special session on Monday to decide necessary action.

Dave Morgan, a machinist, who led a large aggregation of strikers from the Massey-Harris works on Friday, inquired as to the source of information relat ve to "two hundred men only" on strike at this plant. "It is passing strange that I myself should have led 700 strikes from the works if there were only 200 of them," said Mr. Morgan.

Candy Workers.

The strike of the candy workers, numbering twenty girls, has aroused interest in the city. On Saturday afternoon the general strike committee issued a statement to the effect that twenty girls, employes of the Patterson Candy Works, West Queen street, averaging 17 to 18 years of age, had struck because one of them had been dismissed for asking a raise in wages. The report went on to state that this girl had been receiving $9 a week. Among the girls who went out were others who had received less than the girl who was dismissed.

Manager's Version.

W. C. Coutts, manager of the factory, stated last night that, while it was correct 20 girls had gone on strike they had been all from one department of 45 girls, and comprised only ten per cent. of the entire force at the factory. They were striking, he said, for a minimum wage of $14 a week, with hours from 9 to 5. Only one of these girls, said Mr. Coutts, had been in the employ of the firm for more than a month, and the only girl who was alleged to have been paid less than the girl who was dismissed had been employed only out of sympathy, as she was crippled. This one was the only one getting less than $9 a week. The manager further stated that no girl had been discharged, no girl had asked for a raise and no girls went out in sympathy. The hours had been changed during June and July to from 9 to 5, and Saturday afternoons off.

Officials Resign.

The convention of unions was an occasion of unusual whirl. First of all there was a hot dispute as to who was responsible for the figures given out to the press following the convention on Tuesday at St. George's Hall. Then Arthur O'Leary, president of the Toronto Trades and Labor Council; W. J. Hevey, the secretary, and John Doggett, who had been in charge of the previous convention ,resigned, and Tom Black and E. A. Bales of Todmorden were elected in their place. Another convention will be held at the Labor Temple on Tuesday evening.

The fire-fighters are holding a meeting extraord'nary today at the Labor Temple in two or three sections. Rumor has it that Chief Russell has six hundred applicants at his call the moment the firemen strike, and the insurance companies have signified their willingness to provide all the help needed should occas'on arise.

The strikers express themselves confident as to the final issue of the great fight, and one man stated that the fight was properly an industrial battle, and that one large manufacturer had already intimated that it would be impossible for the employers to win out. The molders themselves had a backing of $2,000,000, and the machinists were even better off. It was stated that the news from Winnipeg was excellent, and that additions were being constantly made to the ranks of the strikers in the best and most peacefully conducted strike in Canadian history.

MINIMUM FINE FOR DEFAULTER

T. A. MADILL PENALIZED FOR $2.50 BY MAGISTRATE IN LINDSAY.

Inspector Ward of the Dominion Police was in Lindsay on Saturday conducting the case against T. A. Madill of Ursa, charged with defaulting. The defendant was fined $250 and costs. Three other alleged defaulters were brought to Lindsay the same evening by Constables Rolle and Butcher.

Magistrate Moore, who tried Madill, is apparently taking the stand that men who will voluntarily surrender themselves will be let off with the minimum fine of $250.

TERMS OF AUSTRIAN PEACE TREATY ARE DRASTIC AS THOSE IMPOSED ON GERMANS

Former Empire is Reduced to State of Six Million People and Independence of Hungary is Recognized—Naval and Air Forces Must Be Demobolized at Once.

(Canadian Press Despatch.)

Paris, June 2.—The Terms of Peace were presented to the Austrians today with the problem of the Adriatic claims of Italy unsolved. The Council of Four held a brief meeting before going to St. Germain this morning Premier Orlando of Italy was present. During the meeting the Adriatic question was discussed.

Austria was today given fifteen days to reply to the terms of peace presented by the Allied nation. M. Clemenceau, president of the Peace Conference, was the first prominent figure to arrive today at the meeting at which the terms of peace were presented.

A SUMMARY OF THE TERMS

Ottawa, March 2.—Following is a summary of the text of the Austrian peace terms received here by the Government and issued to the Canadian Press:— The conditions of peace of the Allied and Associated powers with the exception of military repatriations, financial and boundary clauses, were handed to Austrian plenipotentiaries at St. Germain today. Those clauses which are not yet ready for presentation, will be delivered as soon as possible, the Austrian in the meanwhile having an opportunity to begin work on the great part of the treaty in an effort to facilitate an earlier decision.

The Austrian treaty follows exactly the same outline as German and in many places is identical with it, except in name Certain specific clauses which applied only to Germany are, of course omitted and certain new clauses of particular applicability to Austria, are included, especially as regards the new states created out of the former Austro-Hungarian empire Austria is left by the treaty a state of sixty million people inhabiting a territory fo between fifty thousand and sixty thousand square miles. She recognizes the complete independence of Hungary with a population of fifty million and a territory 240,000 square miles. Austria agrees to accept the League of Nation's Covenant and the Labor Charter, to renounce all her extra European rights, to demobolize her whole naval and aerial forces, to admit the right of trial by the Allied and associated powers of her nationals guilty of violating laws and customs of war and to accept detailed provisions, similar to those of the German treaty as to economic conditions and freedom of transit.

AUSTRIAN DELEGATES ARRIVE

St. Germain, June 2.—The Austrian representatives arrived at 12.20 o'clock entering the chamber by the rear entrance. The delegates were attired in conventional morning dress. They were escorted in by an Italian officer. Immediately upon their arrival at 12.20 o'clock the session was formally opened by announcement of the head usher. Premier Clemenceau president of the Peace Conference, immediately began his address. M. Clemenceau spoke for only three minutes. The hall was densely packed, many of the secretaries havnig been admitted to the chamber, and the denseness of the throng detracted somewhat from the impressiveness of the ceremony.

The entire peace treaty was not presented to the Austrians today and the fifteen day stipulation with regard to their reply therefore, refers only to that portion of the terms handed them at today's session

NEW SITUATION HAS ARISEN.

New York, June 2.—The Associated Press this morning issued the following:—"Austria's delegates at St. Germain received today the terms of peace formulated by allied and associated powers The Austrians were given fifteen days to reply. Meanwhile the situation which may affect the peace settlement with Germany has arisen through a proclamation of an independent republic of the Rhine provinces stretching along the frontiers of Holland. Belgium and Luxemberg and extending from the lowlands along the Dutch border to the hills of the Saare. This province contains vast fields of coal and iron, great industrial cities and the centers of some of the most important textile manufacturers in Germany.

JAS. FITZGERALD DROWNED SUNDAY

FORMER RESIDENT OF INDIAN RIVER MET DEATH NEAR LONDON.

James Fitzgerald, 24 years of age, and a former resident of Indian River, was drowned yesterday afternoon while bathing in the river at Thamesford, near London He was a lineman on the C P R., and in company with his mates went in for a cooling plunge during the hot hours of the afternoon. His companions searched for him when he sank, and in a short time his body was recovered, but life was extinct. The probable explanation is that he suddenly took cramps.

The foreman of the gang in which the young man was working telephoned to his home at Indian River and the family in turn notified his brother, who is in Toronto. The latter, expecting that his brother's body would come up on the midnight train, came as far as Peterborough last night. The corpse now rests at his old home, from which it will be taken to the local cemetery for burial

---

A far greater trade in Canadian farm stuffs is done in our own cities and towns than is done abroad. This fact is mentioned by the Candian trade commission, not to minimize exports, but to show the unrecognized importance of our home markets

DESTRUCTION ON CHURCH GROUNDS

BY VANDALS MUST CEASE—OFFENDERS WILL BE PROSECUTED.

After spending a considerable sum in improving the beautiful grounds of St. John's Church the officials are up against the vexed problem of taking successful measures to stop destructive vandalism. The grounds are at all times open to the public to enjoy, but it is exasperating to find, as was the case one morning last week, that overnight not less than 100 tulips had been robbed of their bloom. Then a few days later, the warden's discovered that some of the ornamental trees and shrubs had been wilfully defaced; whole branches had been torn away and a wholesale stripping of leaves indulged in by vandals. While the church officials are loath to resort to extreme measures, still they are reluctantly impelled, in the interests of the church's congregation as well as in preservation of a publicly appreciated beauty spot, to give fair warning that anyone caught destroying the grounds in any manner whatsoever will be virgorously prosecuted.

That Canadian cheese may go to Europe via U. S. ports, classed as American produce, unless our producers awake, is information in the possession of the Canadian trade commission.

FAMILY BRAWL IS AIRED IN COURT

MAGISTRATE DUMBLE GIVES PARTIES CHANCE TO LIVE IN HARMONY.

The usual solemnities of the police court were enlivened with a dash of ginger this morning upon a charge being laid against a Peterborough resident by her neighbor, of assault on Friday evening. The chief witness for the Crown swore that she went into a neighbor's house on Friday evening, not knowing that the accused was there at the time

There had been a long-standing fued between the two parties and the witness had made it a special point to avoid the accused. When she met her as she was coming in she tried to avoid her by going to another room, but the accused followed her declaring she had been circulating nasty stories about her. The accused then picked up a knife that the woman of the house had just been using in her baking operations and said that if it wasn't for the law she would run it through her. Throwing down the knife she struck the witness in the face with a black purse.

The purse was produced in court and proved to be a leather hand-bag used by the owner to put small packages in when out shipping. The witness denied saying things about the accused, or having struck her first.

The woman in whose house the trouble occurred gave her evidence corroborating the first witness. They complimented each other with such endearing terms as 'old cat" etc The accused did not give in any formal evidence, but spoke vigorously and decidedly from time to time outside of the witness box, and was several times called to order by the court

Magistrate Dumble adjourned the case for four weeks after giving some first class advice, regarding the advisability of two women who cannot agree, living in different parts of the city. If in the meantime, the leniency of the court is abused the law will have to take its course.

Says Auto Failed To Heed The Law

Mr. W. H. Pretty and his wife put in their evidence concerning an automobile which failed to stop when they were about to board a street car on the corner of Brock and George streets about 7:45 p.m. on May 24 The defence was not ready to proceed with the case, and an adjournment was granted till Wednesday. Both witnesses swore that the auto, the number of which Mr. Pretty took, did not stop, although he signalled it to do so, and if he had not stepped quickly to one side he would have been run over

GENERAL STRIKE DOOMED TO FAIL

THAT IS CONCLUSION REACHED AT OTTAWA BASED IN REPORTS.

Ottawa, June 2.—That a more or less rapid crumbling is observable in the movement of the metal trades to precipitate a nation-wide strike of Canadian workers for a forty-four-hour week, collective barga'ning on a community scale, and an increase in the hourly wage is the impression given to the Government by the week-end reports from all parts of the Dominion. It is inclined to regard the strikes in the various cities as foredoomed to fa'lure because as the strike spreads more and more bodies of workers refuse to join it.

The slogan of the Canadian trade commission, "Canada-prodact," is to be a guarantee of good quality, fair price and all-around high level.

FIREMEN AGREE TO STAY ON DUTY; CALL OFF THREAT

This Was Feature of Situation in Toronto Today—300 Marine Workers Quit Work This Morning—Over 15,000 Men Now Idle.

(Canadian Press Despatch)

Toronto, June 2—A representative of the Toronto firemen this morning withdrew their ultimatum to the city council in which a strike was threatened unless the city granted their demand for a new wage schedule.

The withdrawal was the feature of the developments in the strike situation today and following closely on the decision of the street railway men to refrain from sympathetic strike. It has resulted in a pessimistic attitude on the part of many strike leaders. Implementing a decision of Saturday night the members of the Marine Workers Federation stopped with this morning. It is estimated that three hundred workers walked out from the various yards. Estimates as to the total number of workers on strike are conflicting but it is generally admitted to be between twelve and fifteen thousand. Representatives of the central strike committee place the number indefinitely at fifteen thousand, Members of the central strike committee of fifteen failed to give the usual morning statement regarding the progress of the strike. An endeavor is to be made by the Metal Trades Council to enlist sympathy from workers in eastern Canada.

NO PROSPECTS FOR AN UNDERSTANDING

LEADER OR GERMAN DELEGATION HOLD OUT LITTLE HOPE OF AGREEMENT.

(Canadian Press Despatch)

London, June 2.—Count von Brockdorff-Rantzau asked by the representatives of the European press bureau, whether he believed German counter proposals would lead to negotiations according to a Berlin despatch to the wireless press said he had cured himself of the habit of believing in such things. The chairman of the German delegation added "I will do what I think right and await the result. The French press began the game of asking "will they negotiate?" According to an article in the Temps on Wednesday our opponents seem to assume that the German counter proposals go beyond the limits within which they want to grant us a discussion. If this article interprets the view of the enemy leaders, I hardly see any prospect of an understanding."

Reject Counter Proposals

Paris, June 2.—The reply of the allied and associated Governments to the German counter proposals, the Echo de Paris declares will be handed to Count von Brockdorff-Rantzau on Friday. It will constitute a refusal of the German proposals. The Germans the paper adds, will be told they must either accept or refuse the Allied conditions before June 25.

LIEUT. COL. SMITH ARRIVES HOME

WAS DECORATED BY KING JUST BEFORE HE LEFT ENGLAND.

Lieut.-Col. Harry Smith, son of A. St. A. Smith, of Keene, who came to Peterborough on the midnight train Saturday, is one of the many Peterborough soldiers who won special distinction in this war. Immediately prior to sailing for Canada he received the Distinguished Service Medal from King George V. at Buckingham Palace. He was in the army of occupation in Germany and returned on the Cedric along with Lieut.-Col. Bell, who has proceeded with the Ambulance Corps to Winnipeg.

DR. SOMERVILLE DEAD

Presbyterian Church Loses One of Its Greatest Scholars.

Toronto, June 2.—In the death of Rev. Dr. John Somerville at his home, 479 Brunswick avenue, on Sunday, the Presbyterian Church in Canada loses one of her great scholars. His death, it is believed, was due primarily to overwork. Besides his post as Treasurer of the Presbyterian Church, Dr. Somerville was Clerk of the General Assembly.

The late Rev. Dr. Somerville was a son of the late James S. Somerville, and was born at Vaughan, Ont., in 1846. He was educated at Brampton High School and the University of Toronto, from which he graduated with high honors. In 1870 he married Miss Martha A. Graham, who in 1911, was elected President of the Women's Home Missionary Society of the Presbyterian Church.

MAIL SERVICE NORMAL AGAIN

MEN HIRED IN PLACE OF STRIKERS IN WINNIPEG POST OFFICE.

(Canadian Press Despatch)

Winnipeg, June 2 Mail service to and from Winnipeg is again close to normal, Postmaster P. C. McIntyre said today. Two hundred employes have been hired to take the place of clerks and other handlers of mail who went on strike. A few of the commercial telegraphers who have been on strike returned today.

THREE STORKS MAKE SAME CALL

ALBERT B. DORIS IS PROUD FATHER OF TRIPLETS—BORN YESTERDAY.

Three storks, hovering over the city of Peterborough yesterday morning, all decided to lay their infant burdens at the same place, the home of Mr. Albert B Doris, 489 Bolivar street. The new arrivals, two boys and a girl, are all doing fine and have every prospect of reaching maturity. This makes eight children in the Doris family.

HULL FIREMEN WIN THE STRIKE

GRANTED DOUBLE PLATOON SYSTEM AND SUBSTANTIAL RAISE IN PAY.

Hull, Que., June 2.—The strike of the Hull city firemen came to an end Sunday at noon, after a duration of thirty hours, during which the city was left without fire protection, except for the assistance of the police force, which was taken off the streets to man the three fire stations

The settlement of the trouble was reached by "mutual agreement" and is a complete victory for the firemen, the mayor and city council by signed agreement conceding all the demands made by the men.

By the terms of the settlement the firemen are granted the double platoon system, which will come into effect June 7, and are given an all-round increase in wages of $1 per week retroactive from Jan. 1 this year, and while the city refuses to recognize the international union, no restrictions are placed in the way of the firemen being members of it.

"FOR A GREATER PETERBOROUGH."

MONDAY, JUNE 2, 1919

MRS. McCLUNG'S VISION.

THIRTY-ONE YEARS AGO the late Edward Bellamy published a socialistic work, a dream of an industrial and social Utopia, which is still regarded as one of the greatest books of its kind ever issued. In this work, which he called "Looking Backward," the author presented a picture of the world as it will be in the year 2000, and certainly if that dream is ever realized there will be no doubt as to the arrival of the millennium. The members of the human race are, according to the author, to live together as so many brothers in a universal family, there is to be an equitable division of the wealth produced, although money as it now exists is to be unknown. Workmen are to be paid with tickets that can be offered in return for anything that they may desire. The community idea is to prevail among all classes.

In her address here the other night one of the most striking reforms advocated by Mrs. McClung was community kitchens, in which the food for a certain number of families could be prepared by expert cooks.

This would go a long way toward solving not only the cost of living problem, but the question of public health as well. It would relieve women to a great extent of the heavy burden of household drudgery and would give them the time that so many crave for the following of a career. The children in the family, too, could be given more maternal care if this plan were adopted. Inexpert cooks could be relieved of duties. There would be more marriages, as Mrs. McClung says, if women were spared the duties which are distasteful to so many of them. Another advantage would be that the domestic help problem would to a great extent disappear. Not every woman fancies the life of a cook any more than every men elects to adopt the calling of the blacksmith or any other trade.

The entire tendency of the times is toward centralization of effort. The man who a few years ago, by way of illustration, made boots and shoes in a small room, all by himself, is seen no more. The large factories have put him out of business. Small craftsmen in other lines, too, are becoming rare.

Years ago, even in the cities, each household provided its own light and water supply. Now the furnishing of these essentials has been taken over by the community and a vast improvement is noted both as to cost and efficiency. Community heating is already talked of as the only rational solution of the fuel problem. People, in the interest not only of economy but of convenience, are in the cities leaving separate dwellings and moving into apartment houses. The logical further evolution of the matter of attaining a comfortable and idealistic existence will be the community kitchens which Mrs. McClung so ably advocates.

CANADA'S GOVERNOR-GENERAL.

IT SEEMS CERTAIN now that the Duke of Devonshire will soon resign his post as Governor-General of Canada and that another chief excutive will be sent out to take his place, all of the possibilities mentioned so far being high up in the ranks of the aristocracy. If it is still deemed advisable to select a Britisher for the highest and best paid office in Canada, as a bond between the Dominion and the Motherland or for any other reason, why not change the method of selection? Why not, instead of appointing some man whose only apparent qualification is great wealth or a high sounding title, give the place to one who is an outstanding figure in statesmanship or in business life? If ex-Premier Asquith, for example, were sent to Canada as Governor-General, it is certain that his appointment would not only meet with general satisfaction, but would be fruitful of results other than establishing a social standard for Canada's four hundred.

HOW THE WAR WAS WON.

THE LATE WAR was ot won by a miracle or by prayer alone. It required four long years of human effort to bring the Germans and their allies to their knees. Even if the cause of the Entente nations was righteous, that alone did not relieve those nations from exertion. The might of the Allies, all their resources, their best blood and brains, were required to bring about victory. That victory was delayed month after month simply because united action, unanimity of purpose, was lacking. Here in Canada politicians could not lose sight of their self and partisan interests, but wrangled week after week over questions of vital moment to the war and reinforcements were withheld from the fighting troops in France. The war was brought to a speedy and victorious end, after the darkest days of all during the big drive of 1918, only when the Allies really got together and under a single leader made one last and united effort.

The work of reconstruction cannot be successfully carried out, the problems that the war has created cannot be solved by academic discussions, by conferences which are entered into by both parties with their minds already made up. The present industrial unrest cannot be soothed by theories as to the cause or by open threats that anything like violence will be met with stern reprisals, threats for which so far there is no justification, and which more than anything else that could be uttered have a tendency to bring about the very conditions that they are intended to avert.

In his place in Parliament Mr. Burnham asked Hon. A. K. Maclean, who was acting as Minister of Labor, in the absence of Senator Robertson at Winnipeg, what was the estimate for the cost of maintaining a family of five at present day prices, and what was the average weekly income of the workingman to meet this expense. The official declared himself unable to supply the information, and the Speaker of the House butted into the matter by stating that Mr. Burnham could not expect a Minister to furnish such figures off hand.

"Off hand" is good. Now, if ever, the officials charged with such duties should have this information at the end of their fingers. Every month the public is informed as to the cost of keeping a family of five, and this cost has risen steadily ever since the war began five years ago. Last month the estimate was given as $21 a week. Interesting as this may be, it is of no real value unless the average wage of the workingman is also quoted.

Whatever that average may be, there are thousands of families, there are families in Peterborough, whose weekly income is less. They are unable to live even at the low scale computed by the Government, that cuts every item of cost, as a matter of political expediency, to the bone. It a by a miracle alone that such people can exist, and miracles are no longer worked either by Providence or governments, any more than it was superhuman agency that won the war.

FORTY-FOUR HOURS A WEEK.

THE STRIKES that are now so general all over the country and which appear to be spreading, were inaugurated by the Metal Workers, who made a demand for an eight-hour day and a forty-four-hour week. The employers in Toronto have offered to concede the first demand, but the men refuse to accept this unless the Saturday half-holiday is also granted. If the Toronto employers engaged in the metal industry concede the eight-hour day, it may be taken for granted that the manufacturers in the same line the country over, all members of the association as they are, will be prepared to do likewise. It is the forty-four-hour week that is the real issue now.

The men themselves do not agree on this point, and are not unanimous for the Saturday half-holiday. They believe that the Government, whether Federal or Provincial, according as to which the jurisdiction belongs, should pass a law legalizing an eight-hour day, but that as a matter of simple justice they should leave the other question in abeyance, to be settled in individual cases by the men and the employers themselves.

Here in Peterborough there are firms that could concede the half-holiday while others in the same line could not without serious loss. It is the molding department in such places where the real difficulty arises. In some shops that work could not be carried on in half a day so that anything paid the molders for four hours' work would really be so much time wasted so far as the firm are concerned. There are molders who recognize this and who do not insist upon a universal forty-four-hour week.

The only way in which this difficulty could be overcome would be to work six full days one week and only five the next, a plan that has been successfully tried out in other places.

NOTES AND COMMENT.

THERE GOES the first June brida!

• • • • •

LIKE MANY A PEDESTRIAN, Aviator Hawker came to grief simply by attempting to cut the corner.

• • • • •

PRESIDENT WILSON is expected back before July 4, the Dempsey-Willard bout perhaps being the lure.

• • • • •

IT'S A LONG, LONG WAY from Newfoundland, Canada, to Plymouth, England, by American seaplane flight.

• • • • •

FORTUNATELY for the world, it is the Allies, not the Germans, who are getting the best of a good bargain.

• • • • •

"WHAT WILL the City Council do with the aldermanic vacancy tonight?" someone asks. Well, neither do we.

• • • • •

THE MAN WHO MEETS the returned soldier with the offer of a good job has it all over the citizen who merely cheers or extends the glad hand.

• • • • •

HONORING THE MEMORY of the fallen is part of the national duty, but the most urgent task of all is caring for those who have survived the ordeal.

• • • • •

PARLIAMENT can spend days advocating a raise of pay for the county judges, but can, apparently, see nothing so infinitesimal as the wages of the workingman.

• • • • •

OUR GEORGE STREET contemporary should be given the floor to the extent of its requirements, as the world is dying to know just what is wrong with the industrial and social machinery.

• • • • •

ONE JUSTIFIABLE commission would be one to look into the mental condition of the man who says that Canadian foodstuffs are sold in Europe for less than they bring here. The dealer goes after the higher market every time.

• • • • •

NOW THAT the favorite month for weddings has come round again, society reporters should drop the phrase "the bride looked lovely," without which, it seems, the writers regard no account of a wedding complete. All the brides look just that way so that the fact is no longer a novelty.

OPINIONS OF OTHER EDITORS.

MOON SHINES STILL.

(Nashville Banner.)

Kentuckians are not worrying much over the threatened scarcity of liquor. For the moon shines still bright on the old Kentucky stills.

THE SUPREME TEST.

(Kansas City Star.)

Two Logan county preachers have undergone the supreme test, evidently with success. One of them sold the other a second-hand Ford car, and both seemed satisfied.

LACKS OLD-TIME PEP.

(Detroit News.)

On the other hand, baseball cannot be said to have arrived back at its pre-war status. The season is over a month old and no one has hit the umpire with a pop bottle.

PREMIER BORDEN'S RETURN

(Montreal Star.)

Does Sir Robert Borden deserve well of his country? This is a question of outstanding importance in the present crisis. Current reports coming from well-informed sources hint that treachery has developed among some of his parliamentary following, and even amongst some members of his Cabinet, some of whom have aspirations for things for which they are wholly unsuited, although their unsuitability will not restrain their ambition nor prevent them from attempting political assassination when the opportunity presents itself. The question for the people of Canada is this: Does Sir Robert deserve well of his country? Is he worthy of protection against political assassins?

Sir Robert Borden with an instinctive prescience showed Canada the path that led through sacrifice and suffering to a realization of national consciousness. He brought her into the war and through more than four dark years kept her in the struggle to the limit of her capacity until the last shot was fired. His leadership has not been without flaw or error. He has erred at times through being too complaisant, too tolerant of the faults of others, too ready to listen to the pleadings of self-seekers, too trustful of wrong advice and too submissive where he should have dominated. These penalties perhaps are the corollary of a trustful spirit.

In some departments of government there has been extravagance and woful waste. Incompetents have been appointed to high office, to which by training and temperament they were unsuited, in order to serve selfish ends. Surrender was made to the speculators of the Canadian Northern and a ruinous railway policy initiated, although Sir Robert's personal honor was not involved. These errors of judgment, however, in the estimation of many, have been eclipsed by the triumph of victory. They are written in the shifting sands of human frailty, while victory is graven on the indelible page of time. In the achievement of that victory Canada has played a yeoman's part, and it is doubtful if the conquest could have been possible—at least it could not have been so complete—without Canada's effort. Canada's enthusiasm fired Australia, stirred Africa and New Zealand to sympathetic and responsive action, inspired the United States, and made the national pulses of the Motherland throb in the pride of the fellowship of service.

It was Borden's resolute determination, dogged persistence and high courage that shamed the faint-hearted into perseverance and stiffened the sinews of the faltering into invincible devotion. The name of Sir Robert Borden will live in history as the torch-bearer of a nation at war and a leading light to the framers of the peace of the world. His assistance at the Peace Conference has undoubtedly been of untold value. In matters affecting State documents he is recognized as a master analyst. He has been in closest touch with Premier Lloyd George and Mr. Balfour, who over and over again have appealed to his sound judgment and practical common sense.

But while Sir Robert Borden has been assisting at the councils of the Empire, colleagues wearing the habiliments of friendship, some of them directly responsible for the faults of the Cabinet, have been plotting for his undoing. While he has been giving his services, some of the crew, who were left behind on the craft on which he is the master mariner, have grasped the tiller lines and framed a course of their own choosing. Such selfish ambition is akin to mutiny and the ringleaders have been the very men whose actions should have been inspired by motives of gratitude and loyalty to their chief.

Borden comes back to meet serious crises. Some think he will not face the situation with courage but will disembarrass himself of further responsibility by resigning the Premiership. We do not debit him with such cowardice as to shrink from his duty in the grave crises in which he finds his country involved. The people will, however, be prone to criticize. The railway blunders and the Labor revolution are paramount today. While he comes bearing laurels of high achievement, the people of Canada will watch parliament closely in the coming days. They will be quick to discern treachery to the leader. They will discount Borden's defence of his colleagues. They will focus attention on the leader's handling of his supporters, the loyal and the disloyal, and they will judge of his statesmanship by the way he reconstructs his Cabinet. For, unless that Cabinet is purged of its traitors and self-seekers and weaklings, unless it is strengthend by able and loyal colleagues, Canada will fall in this her second great national trial, for not even the great record which Sir Robert Borden has gained through these latter years will be able to buttress it, under such conditions, against the threatening storm.

In the meantime:

"Does Borden deserve well of his country"?

EDITOR'S MAIL

THE ALDERMANIC SELECTION

Editor Review:—In reference to the editorial in Saturday's Examiner "Ex-Alderman Murray's Successor," and the comparison drawn between Mr. Crowe for the Trades and Labor Council and Alderman Turner, for the Board of Trade, are we to understand from the Examiner after all that has been said to the contrary, that Alderman Turner, is really the representative of the Board of Trade on the city council.

This being so, the public are always learning something, that they are not supposed to know, for as published in the Examiner according to the constitution of the Board of Trade; they do not nominate or have candidates, for any public legislative position such as the City Council, etc.

The next things the public might see, is, the Board of Trade camouflaged, under the name of the citizens' committee, and holding the City Seal.

T. TOOMS.

FEMININE LOGIC

The young lady across the way says she's sorry to see that the agitation for a minimum wage for women has been revived, as she doesn't see how anyone could possible live on it in these times.

The tone of communications from Great Britain is warmly in favor of the preference granted to Empire-made goods, says the Canadian trade commission.

Cook's Cotton Root Compound.

A safe, reliable regulating medicine. Sold in three degrees of strength—No. 1, $1; No. 2, $3; No. 3, $5 per box. Sold by all druggists, or sent prepaid on receipt of price. Free pamphlet. Address: THE COOK MEDICINE CO., TORONTO, ONT. (Formerly Windsor.)

TO-DAY'S STORY

"New neighbors are a funny proposition," remarked the janitor's wife. "When they first move into a flat building you have no idea what they're going to turn out like. It's like trying to figure out whether your young son is going to be a preacher or a burglar when he grows up.

"We have a complete new set in our building this year, and I don't suppose I'll have a line on them much before Christmas. At that time, of course, I'll get their number right. They will then be divided into two classes—those that did and those that did not. Give presents, I mean. Take the woman on the first, who just moved in—the one with the husband who has such a gruff voice. Don't think I'm saying anything against the man because he has a voice like a cave man. Oswald, my husbands, says he thinks he's going to turn out a good fellow. Already he has passed a cigar or two.

"What I started to say is that his wife seems to be very distant in her sociability. When we pass she just raises her eyebrows. Maybe she's one of those who, as Oswald says, speaks to you only with thine eyes. I don't care much for that. If she considers raising the eyebrows at a person a proper good morning, she's mistaken.

"The woman on the third is different. I'll bet anything we'll be calling each other by our first names in less than a week. She seems so sisterly. She looks like a lady who has been well brung up, and yet she don't show it. She's like I am in that way —very simple, so that strangers won't think I'm uppish.

"But her husband is a perfect match for that other man's wife. If my Oswald beat that guy out of $10 he couldn't give him a more frosty sainte. What's the idea? Is he afraid maybe Oswald would try to break into his social circle? Well, we're just a little particular who we go with.

"So that's the way it goes. Some of these new neighbors will turn out to be great friends and others we will have to battle with till they leave again next year. And it isn't our fault—Oswald's or mine. We're as friendly as they make 'em. And when a man like mine is such a good mixer that rich millionaires even call him Ossy and slip him the glad hand I guess he ain't such a bad feller."

"I think you will eventually find all the new tenants congenial," put in the woman the janitor's wife had held up in the hall.

"I hope so—for their sake," replied the janitor's wife.

GIVES BRIEF SYNOPSIS OF THE GOSPEL BY ST. JOHN

Evangelist Kennedy Preparing For Revival Services Which Will Begin, in Big Tent on Hunter Street, Sunday June 15.

An announcement from the Executive Committee of the Kennedy Evangelistic Campaign, was read yesterday from the city pulpits, regarding the big tent meeting that is to open here June 15th. It was requested that every Christian, beginning on June 1st, read one chapter a day in the Gospel of John, spending a half hour in prayer and the study of each chapter. The intention of this is, for the time being, to concentrate the thought of all upon the great truths taught in this wonderful book.

In order to assist busy people, the evangelist has been asked to give some suggestions and a gist of the book. Printed below is an article written by Evangelist Kennedy for the benefit of all those who may desire to join this bible circle.

It might be well for those interested to cut out and keep the following article for reference during the process of the reading of the book:

The Christ of the New Testament.

In the four gospels Christ's person is set forth, and in the book of acts His power is manifested. In the epistles His precepts are taught and in the book of Revelation His program is given.

The book of Matthew was written for the Jews, in it He is spoken of as their king. Mark was written to the Romans. They did not want a king so He is spoken of as the Servant of God. Luke wrote his gospel for the Greeks and in it He is spoken of as the Son of Man, and later John wrote his gospel for the Christians, his chief thought being that Christ was the Son of God. In John's gospel we find a conflict between unbelief and faith. In chapters eighteen and nineteen the climax of unbelief is reached.

In this gospel Christ has seven witnesses, John the Baptist, His Father His Works, the Scriptures, Himself the Holy Spirit and His disciples.

In the first twelve chapters, we find His self manifestation to the world and in the next five the manifestation of Himself to His disciples.

The key thought to each chapter may be termed as follows:

Chapter one—Chapter of beginnings, of the word, of the Baptist's ministry and of the disciples.

Chapter two—The beginning of miracles.

Chapter three—The story of a good man who needed salvation.

Chapter four—That of a bad woman who got converted.

Chapter five—The chapter of life.

Chapter six—That of bread.

Chapter seven—Of water.

Chapter eight—That of light.

Chapter nine—Of darkness.

Chapter ten—Of the good shepherd.

Chapter eleven—Of a dead man raised to life.

Chapter twelve—The anointing chapter.

Chapter thirteen — That of foot washing.

Chapter fourteen—Of comfort.

Chapter fifteen—Of abiding.

Chapter sixteen—Of the Holy Spirit.

Chapter seventeen—Of prayer.

Chapter eighteen—tells of the arrest.

Chapter twenty—One is a postcript to the book or may be called the sea shore chapter.

WIT AND WISDOM

The Deadhead.

MacNab—What is the chair-rge for these seats?

Attendant—Nothing to you, sir—I see you have a pass.

MacNab—Man, I ken that! I jist wanted to know how much I was savin' on the beezness!

Didn't Have It.

Servant—A poor man is here who has lost a leg, sir.

Absent-minded Professor — Tell him we haven't got it.

Queered His Chance.

"I thought Jess was going to marry old Gotrox."

"She was, but she broke off the engagement."

"What for?"

"When she accepted him he told her she had put new life in him."

Most of Us Start in on Nothing.

"That man started in life on $50 he borrowed."

"And made a fortune, eh?"

"No, it ruined him. He found getting that so easy that he's been living on borrowed money ever since."

Color Blind.

"You are looking blue."

"Yes; I've been done out of $50 in a business deal."

"Then I must be color blind. You're green."

POINTED PARAGRAPHS.

The crab may not be as good eating as the lobster, but he'll do in a pinch.

The shorter the ice crop is in the winter, the longer the bill is in the summer.

Addition to self and subtraction from others comprise some men's sole knowledge of arithmetic.

"Live and let live" is a good motto for all men, with the exception of undertakers and butchers.

The world is full of "has-beens,"
On whom the people frown;
Nobody cares how high you were
After you've tumbled down.

So get out and hustle for yourself
Or on pay day you'll be missed;
The mill will only grind for you
While you supply the grist.

A Justified Grouch.

Jiks (to the grocer) — You seem angry, Mr. Sand.

Mr. Sand—I am. The inspector of weights and measures has just been in.

Jinks — Ha, he! He caught you giving fifteen ounces to the pound, did he?

Mr. Sand—Worse than that. He said I'd been giving 17.

MRS. MAY COULD NOT WORK

Made Well and Strong by Lydia E. Pinkham's Vegetable Compound.

Columbia, Pa.—"I was very weak and run down and had dragging-down pains and pains in my back. I could not get around to do my work and had to sit down and rest often during the day. I saw Lydia E. Pinkham's Vegetable Compound advertised in the papers and read the testimonials, so I thought I would try it. Now I am healthier than I ever was in my life, and can recommend it to any woman who suffers as I did." —Mrs. ELIZABETH MAY, R.F.D. No. 1, Columbia, Pa.

The reason Lydia E. Pinkham's Vegetable Compound is so successful in overcoming woman's ills is because it contains the tonic, strengthening properties of good old fashioned roots and herbs, which act on the female organism. Women from all parts of the country are continually testifying to its strengthening, curative influence, and the letters which we are constantly publishing from women in every section of this country prove beyond question the merit of this famous root and herb medicine.

EDITOR'S MAIL

LET THE LEGISLATURE ACT

Editor Review—The statement by . . R. McLean in the Dominion Parliament that that body had not the power to enact an eight hour law, it being within the power only of the Provincial Legislatures to do so, brings the question of the solution of this most vexing problem of labor conditions just a little nearer by narrowing the field and eliminating some of the complexities Instead of having to consider the diversified interests of the entire Dominion, we have only to take into account the interests of Ontario, or relatively speaking, the interests of our own community.

As the Peace Conference has acknowledged the justice of the demand for an eight hour day, and have high hopes of soon making it universal, proves to any thinking individual that the most progressive step that this province could take would be to adopt the eight hour day and other legislation that would enable every laborer to assume the mantle that is supposed to comport with the dignity of labor. And there is absolutely no excuse that can be offered why this can not be done ,and at once.

Observation has taught that a community whose workmen are the highest paid, is the most prosperous and contented of communities. Even a few of the larger employes of labor have recognized this and are paying above the normal wage and have shorter working hours than the eight now denounced. These men have profited by observation and experience, but sad to say for Canada they are the exception that proves the rule The legislators of Ontario being so dilatory there is only one thing for the people to do—get after them with a sharp stick and the more pointed the better The members will be quick to see the point. There is nothing that will make an M.P. promise to be good quicker than the signatures of a majority of the constituents in his riding to a resolution demanding that he introduce or support a measure already brought down for the betterment of his constituents More than likely there will be a petition, (no, a demand) circulated in Peterborough, addressed to the Province of Ontario, under the auspices of the Trades and Labor Council, demanding that a measure be passed embodying an eight hour day, a minimum wage and the abolition of child labor.

There is no voter, man or woman that can not conscientiously sign such a petition and without violating and religious or political affiliations they may have. Indeed, to the writer it appears to be a solemn and religious duty to assist in any plan that will relieve the present chaotic conditions and bring a just and equitable settlement, and the best and apparently the only plan now feasible is to bring pressure to bear on Parliament to put on the statutes the demanded legislation Otherwise the unrest and agitation will continue for years, for be it known that labor will not rest content with what medium reforms they have so far secured by persistent effort, but that persistency will be augmented until the mistaken attitude of the employing class is corrected If such a petition appears it is hoped that no voter will be so prejudiced as to withhold his name, as such a law is the only solution of the present problem, and in its enactment will make for the betterment of all Canada, the Province of Ontario, in general and Peterborough in particular

HOWARD M MATHEWS

REPLY TO MR. A. D. HONE

Editor Review: Mr. Hone's latest effusion is so prolix and incoherent and is so full of misrepresentatons that it is not worth answering seratim, and space will not permit. I therefore offer only a few words by way of rejoinder.

First— Ihave not thrown Mr. Burnham overboard. I am not bothering with the scientific side of this question, but leave it to those who are better qualified to deal with that point Mr. Hone should have left the religious side to those better qualified than he!

Second—Mr. Hone misrepresents me by saying I said things I never said and then knocking down arguments I never advanced. His reference to the power of the Holy Spirit to keep us in the hour of temptation is a discreditable misrepresentation I said all temptations—that was the clear meaning of my words. Why not be honest in debate?

Third—I have fully taken up the "challenge" to produce a statement etc., approving the use of alcoholic beverages. St. Paul advised Timothy to "use a little wine for his stomach's sake." (1 Tim. v23.) Does Mr. Hone say there is not absolute certainty of its meaning, or does he think Timothy was to use the wine as an embrocation? If so let him read the context "drink no longer water."

Fourth—He is very hard to please He said I do not read my bible as much as I ought, and when I offer a few sample texts he refuses to read them and calls my argument "labored" and my quotations copious, and he has not the fairness to admit he was wrong in his estimate of the quality or quantity of my religion, a thing quite irrelevant to the issue.

Fifth—He take half a column to show my argument correct, that a Bishop must be blameless not GIVEN to wine, which everybody knows means the ABUSE and not the USE of the article. A man who used wine would not necessarily be "given" to it. It is curious how otherwise clever men can be so stupid when it suits them.

Sixth—The same stupidity is exhibited by him in dealing with the subject of temptation. I never said God Tempts man The controversy as to why God allows evil to exist in the world is too big a subject to discuss here and now. The fact remains God made the world, all that is in it that involves temptation is put there by Him, and we have a free will to be developed, and God gives his holy spirit to support us. Prohibitionists would improve on God's plan by removing altogether everything that could become a temptation, just as they tried to stop cigarettes being sent to the soldiers

Seventh—Mr. Hone gets worse He pretends to think I interpret Love thy neighbor as thyself to mean "let him die" This is too much! Mr Hone is not even honest here. My meaning is so clear that any fourth form boy would understand. He so loves his neighbor that he would prevent him from getting what God has provided to save him from dying. I put a reductio ad absurdum to him, and he pretends not to understand! What weight will the public give to such a man's words?

Eighth—I repeat Mr Hone and his clique would fine and imprison the Lord Himself if He did here as he did at Cana Sidestep the question as you will, you cannot get away from it!

Yours truly

JAS. J. GUISE-BAGLEY.

THEY ACTED in TIME

During 1917, twenty men, all hale and hearty insured their lives in the Sun Life of Canada All paid the first premium, none lived to pay the second.

They paid a total of $5078.26 and their beneficiaries received $74,212.50.

The records for 1918, owing to the ravages of the "Flu," will show the above record repeated many times, and all such acted in time.

What are YOU going to do about it? Act in time or be forever TOO LATE.

The Sun Life of Canada paid these claims willingly and promptly and will do the same for your loved ones IF YOU ACT IN TIME.

ST. ANDREW'S PEOPLE PRESENT ADDRESS TO THEIR PASTOR

Rev. James Rollins is Formally Welcomed Back to His Duties as Minister of Congregation—Interesting Discourse on the War

At the beginning of the morning service in St. Andrew's Church yesterday Mr. R. Lees, chief elder, and Mr. A. MacFarlane, chairman of the Board of Managers, went into the pulpit with Rev. James Rollins, the pastor, who was about to officiate for the first time after an absence of three years overseas. After the choir had sung the opening hymn Mr. Lees led the congregation in prayer, giving thanks for the happy reunion of minister and people Mr MacFarlane then read the following address:

Dear Mr. Rollins,—

St. Andrew's congregation most highly appreciated the high sense of duty which prompted you to relinquish for a time your pastoral duties, and to tender to the Government your services in any capacity it might consider in the interests of the Empire. You did not seek any sinecure; your aim was rather to give efficient service no matter in what position you might be placed. Your ability was recognized when you were appointed quartermaster of the 93rd Battalion. Having gone overseas, and that battalion having broken up into units, you were appointed to other positions which you filled with credit to yourself and profit to the Empire. Your last position we understand to have been the chaplaincy of the 27th Battalion in the firing line. In accepting this position, you attained the chief aim you had in view on starting out, that is, to endeavor to inspire the men in the very thick of the fight.

While you were gone news regarding you was always received with great interest and your letters were always read with keen appreciation. You will be pleased to know that, in your absence, the interests of St. Andrew's Church have not suffered owing to the careful and thorough ministry of Mr. Mitchell and Mr. Rowand, the former of whom was secured largely through your own personal efforts, a fact highly appreciated by the members of St. Andrew's Church.

The congregation feels thankful to God that you, Mrs. Rollins, and Miss Jessie, have been spared to return to us. Now that we are about to settle down to a normal condition again, we will all look with confidence into the future believing that, with God's blessing, St. Andrew's Church, under your ministrations, will continue to prosper and prove itself a blessing, not only to our own community, but to the city at large.

Signed on behalf of St. Andrew's congregation.

Mr. Rollins' sermon dealt with the war and was based on the fourteenth verse of the fourth chapter of Nehemiah, the message brought by the patriot, Nehemiah from Babylon, where he had been fighting for the safety of his race. The war, said Mr. Rollins, had been won by men and women who had faith in the cause and that the Lord was on their side. It had also been won because there were men and women of large vision who knew that great good was to come out of the evil.

Capt. Rollins is not one who says that the war was won by the fighting force alone. Without food and clothing any army would be useless. All the resources of the country were required and the war would have been over before it was if these resources had been available soon.

But as the war was won only by united effort so the work of reconstruction must be carried on in the same way and the best training for that work was the unselfishness, the self-denial and energy that was developed among the people by four years of strife.

Mr. Rollins paid a graceful tribute to the memory of the men who are now sleeping under the poppies in Flanders. The highest honor that can be shown these martyred heroes is not to give a few dollars to erect memorials, but to join heartily in carrying on the work on behalf of which they gave their lives.

There were large congregations at both services, made up not only of members and adherents of the congregation, but of friends of Mr. Rollins from other churches. In the evening the minister preached a sermon on discipline, taking the Centurian of unbounded faith, described in Bible story, as his theme.

Miss Helen McLaren at the morning service sang Kipling's "Recessionist" with taste and spirit, an appropriate musical offering for the peculiar and happy occasion.

NOAH'S LANDING PLACE.

Ararat, a Province of Armenia, is Now a Republic.

The recent appeal made by the newly-established republic of Ararat for recognition will be better understood, at least geographically, when it is explained that the region in question is a province of Armenia.

It takes its name from the mountain on which the Ark made a landing after the flood—Ararat meaning Noah's Mountain.

The whole world, according to the Bible story, was submerged during the period of the deluge and Ararat's topmost peak was the first dry land *to appear above the waters*, for the simple reason that it was the loftiest —in Armenia, at all events.

As viewed to-day it gives a notion of the depth of the flood, inasmuch as the peak is more than three miles above sea level. It is dome-shaped, and its slopes for 9,000 feet from the top are covered with everlasting snow and great fields of glittering ice.

The climb down must have been rather difficult for Noah, his family and all the animals disembarked from the Ark. As for an ascent to the top, it was formerly believed to be impossible The Armenian monks declared that remains of the Noachian bark still existed on the summit, and that by reason of their sanctity a supernatural influence forbade approach

Nevertheless, in September, 1829, a bold climber, Dr. Johann Parrot, succeeded in reaching the top of Ararat, and on coming down stated that he had found not even the keel of the Ark up there. Since then the feat has been repeated by several other adventurous persons.

Ararat comes pretty near to being the most beautiful mountain in the world. It is a long-extinct volcano standing almost isolated save for a lesser peak, called Little Ararat, which (really part of it) is a cone *of exquisite symmetry*—an ideal volcano of a type plainly recognizable as an ash pile formed about an eruptive chimney

Below, in the valley of Arazes, was the Garden of Eden, according to Armenian tradition. At Marsand, in that neighborhood, was (so say the monks) the burial place of Noah's wife. At Arguri, a village near a great chasm that runs into the heart of the mountain, Noah planted the first vineyard.

A Lazy Man's Paradise.

Worth while seems life on the isle of Utilla. Its place on the map would be hard to find, but it's worth discovering. Away off in a southern sea, never heard from before and but little known, it comes to the knowledge of the Pan-American Union that here have Americans found a home that others enjoy when they are dead.

"We call it a lazy man's paradise," says the message from this land of delight, "not that the inhabitants are necessarily indolent, but simply because a large amount of labor is superfluous. Nature provides for nearly all our wants here as in most tropical countries Farming is our principal occupation, yet there is not a plough on the island. Frost is unknown and extreme heat is never experienced Ninety degrees in the shade would be an unusually high temperature. Our grade schools are of high standard, attendance being compulsory ten months in the year.

Utilla is one of the Bay islands, a string of six verdant keys in the Bay of Honduras, an arm of the Caribbean Sea, which were discovered by Columbus in 1502 They were then thickly populated by native Indians who became slaves. The islands now are inhabited wholly by English-speaking people.

"The first family to settle here," the letter goes on, "was that of Joseph Cooper, who found upon landing two lone American young men, Samuel and Joshua Warren, by name. A few years later came Mark G. Morgan, an American from Philadelphia. The descendants of these men now inhabit the islands These pioneers were of Puritan stock, all seafarers imbued with the spirit of adventure who, though filled with wanderlust, found conditions on the island so ideal that they planted their stakes deep and said, 'Alabama—here we rest'."

Of the principal exports 110,000,000 coconuts are sent yearly to the United States There are 14 Methodist churches and six of the Seventh Day Adventists on the islands with more than 700 members and 300 children in their Sunday schools.

Fight Against Bolshevism

By American Capitalists,

Who Use Common Sense

THERE were many far-sighted observers before the war who saw upon the horizon many signs of a great social and economic revolution or upheaval, and believed that the day was not far distant when labor would demand a greater share of the wealth it produced, so some of them who were great employers of labor followed the old-time device to balk a prairie fire: they started a little fire of their own so that when the leaping flames of the great conflagration reached them they would have nothing to feed upon. In other words, they began from motives of self-interest to improve the conditions of the men in their employ and so far as possible to remove causes of complaint. They increased wages, bettered housing conditions, installed safety and labor-saving devices, interested themselves in the social life of their employes and in other ways displayed an enlightened benevolence that would surely have saved them from the prairie fire of economic revolution had it burst upon them as expected.

The war gave a tremendous impetus to the movement. It raised wages, improved housing conditions for millions and made the world recognise that the backbone of every nation is the workingman, and that his interests ought to be recognized as of first importance. But the war

JOHN D. ROCKEFELLER, JR.

also has brought Bolshevism to the front, and it will be found that the best protection against Bolshevism is to satisfy the just demands of people who work with their hands for their living. This is what has happened out in Colorado. A few years ago conditions approaching civil war existed in Colorado. There were strikes, bullpens, dynamiting, murders, kidnappings, tens of thousands of miners and other workingmen defying their employers. Now Colorado is a sort of industrial paradise, thanks largely to John D. Rockefeller, jr., who made a personal investigation of the conditions existing between the Fuel & Iron Co and its employes. Now capital and labor work hand-in-hand, and not only labor but capital is more prosperous than before. That was a point made in a speech delivered by Mr. Rockefeller not long ago, when he laid down this principle: "Labor and capital are partners, not enemies; their interests are common interests, not opposed, and neither can attain the fullest measure of prosperity at *the expense of the other*, but only in association with the other."

The Colorado company has formed an advisory board on social and industrial betterment to study and develop methods that may be of advantage to the men and the company.

Similarly Fuller Calloway, head of a great Ohio steel corporation, found that after improving the working and living conditions of his thousands of employes their efficiency increased to 135 per cent, as compared with the 100 per cent. of the United States Steel Corporation, which is supposed to be a model for efficiency. It was a sheer business proposition with him, Mr. Calloway says, with no hint of philanthropy. It paid him dividends to provide comfortable homes with little gardens attached for their education, to make their working hours so short that they had periods for proper recreation and rest, and otherwise to inaugurate reform that fifty years ago would have been considered madness from

The latest large employer of labor to work out a profit sharing scheme is John N. Willys, the manufacturer of automobiles and farm tractors who employs 10,000 men Like Mr. Rockefeller and several other large employers of labor, he is convinced that the problem of manufacturers is not how they shall reduce wages, but how they shall increase production, and he believes that the only way to increase production is to give the employes a keen personal interest in it

Bolshevism may be like a disease that has to run its course, but if that course is to be short it will be found that the only safe antidote is that of improving the conditions of the workingman as Rockefeller and Calloway have done, or of making the employes partners in the concern, as Willys is doing.

Praise a man and he'll not call you a liar.

W. J. COX, AGENT PETERBORO

Our reputation for fair dealing and reliable goods, coupled with the De Laval record of service and durability, has made the De Laval Cream Separator the leader in this community.

NO matter what anyone may tell you, there is only one speed at which you can turn a separator crank and get all the cream and cream of uniform thickness.

That's the speed plainly indicated on the crank of every separator, of *whatever* make.

Full speed is the only assurance of full capacity and full efficiency.

Every De Laval now has a Bell Speed-Indicator. The bell warns you if the handle is going round too slowly. You can't be mistaken about it.

The Bell Speed-Indicator adds nothing to the price but much to the value of the De Laval Separator.

BELL SPEED-INDICATOR
The "warning signal" that insures operation at the proper speed

Come in, examine the machine and see how the Bell Speed-Indicator works.

SOONER OR LATER YOU WILL BUY A

DE LAVAL

German Ex-Crown Prince

Unfaithful and Brutal.

Wife Now Seeks Divorce

THE former German Crown Princess Cecilie has taken steps to divorce her husband, Frederick William, according to a statement given to Swiss newspapers by the former Grand Duchess Anastasia of Mecklenburg-Schwerin, mother of the former Crown Princess. The statement says that it long has been the desire of Cecilie to divorce her husband, but that the pressure of the Hohenzollern family up to this time had prevented her from carrying it out.

The statement of the Grand Duchess charges Frederick William with cruelty to his wife, saying:

"On one occasion some time ago the situation became so unbearable that my daughter actually fled her home. She almost succeeded in reaching Switzerland. Orders were sent from Berlin to intercept her and she was captured at the German frontier like a common criminal and taken to Berlin under arrest.

PRINCESS CECILIE.

"My daughter will be able to place before the German court overwhelming evidence against her husband and will be able to prove many instances of the grossest cruelty against him. His infidelities were numerous and there is absolute proof of them. His brutality was atrocious. On more than one occasion my daughter was treated with actual violence. She was bruised and her face was disfigured by her husband's blows."

Berlin despatches by way of Zurich on February 3 said that Frederick William had instituted proceedings for a divorce, but there have been no further reports on the case. The former Crown Prince and Princess Cecilie were married in June, 1905. The pair have five children, the youngest having been born in 1915. The former Crown Prince is now in exile. His family has remained at Potsdam.

The former Grand Duchess Anastasia was a grand duchess of Russia before her marriage. Since the war she has been living in Switzerland. She renounced her German nationality and renewed her allegiance to Russia late in 1914.

WING AND BIRD TRIMMINGS

Decorations for Headgear Are Simple and Effective, Adding Attractiveness to Hats.

Among the trimmings of utmost simplicity undoubtedly more effect is gained by the daring sweep of wings or quills than can be achieved in any other manner. A high-crowned, narrow brown straw hat has small crisp wings snuggling close to the brim, but pointing out at either side. Long, slender wings sweep from the back of a satin and straw toque; two short, flaring wings with fan-shaped edges spring from one side of a small, round turban of coarse straw.

A black bird spreads its wings over a pinched-up beret of red milan, and a small, high-crowned gray straw is topped by little overlapping gray wings laid close on the sides of the crown and softened by burnt ostrich flues.

Coats of velour de laine are embroidered in checker board patterns.

Sand Dunes.

One of the most interesting and remarkable of the many regions for the observation of sand dunes lies between Bordeaux and Bayonne, in Gascony. The sea here throws every year upon the beach, along a line of 100 miles in length, some 5,000,000 cubic yards of sand. The prevailing westerly winds continue picking up the surface particles from the westward slope, where they are again deposited, and the entire ridge by this means alone moves gradually inward. In the course of years there has thus been formed a complex system of dunes, all approximately parallel with coast and with one another and of all altitudes up to 250 feet. These are marching steadily inward at a rate of from three to six feet a year, whole villages having sometimes been torn down to prevent burial and rebuilt at a distance.

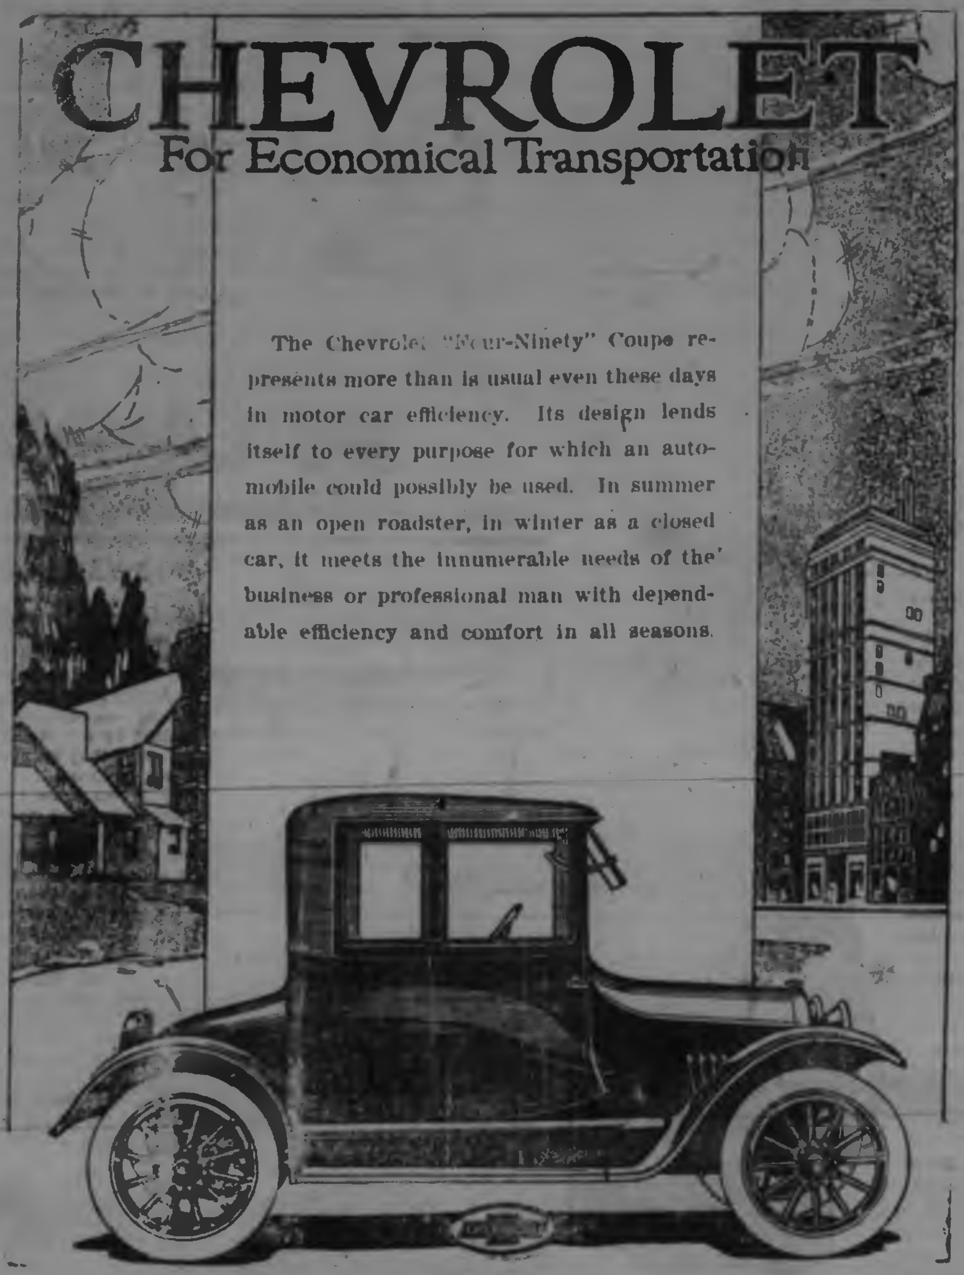
The Models De Luxe of the Small Car Class

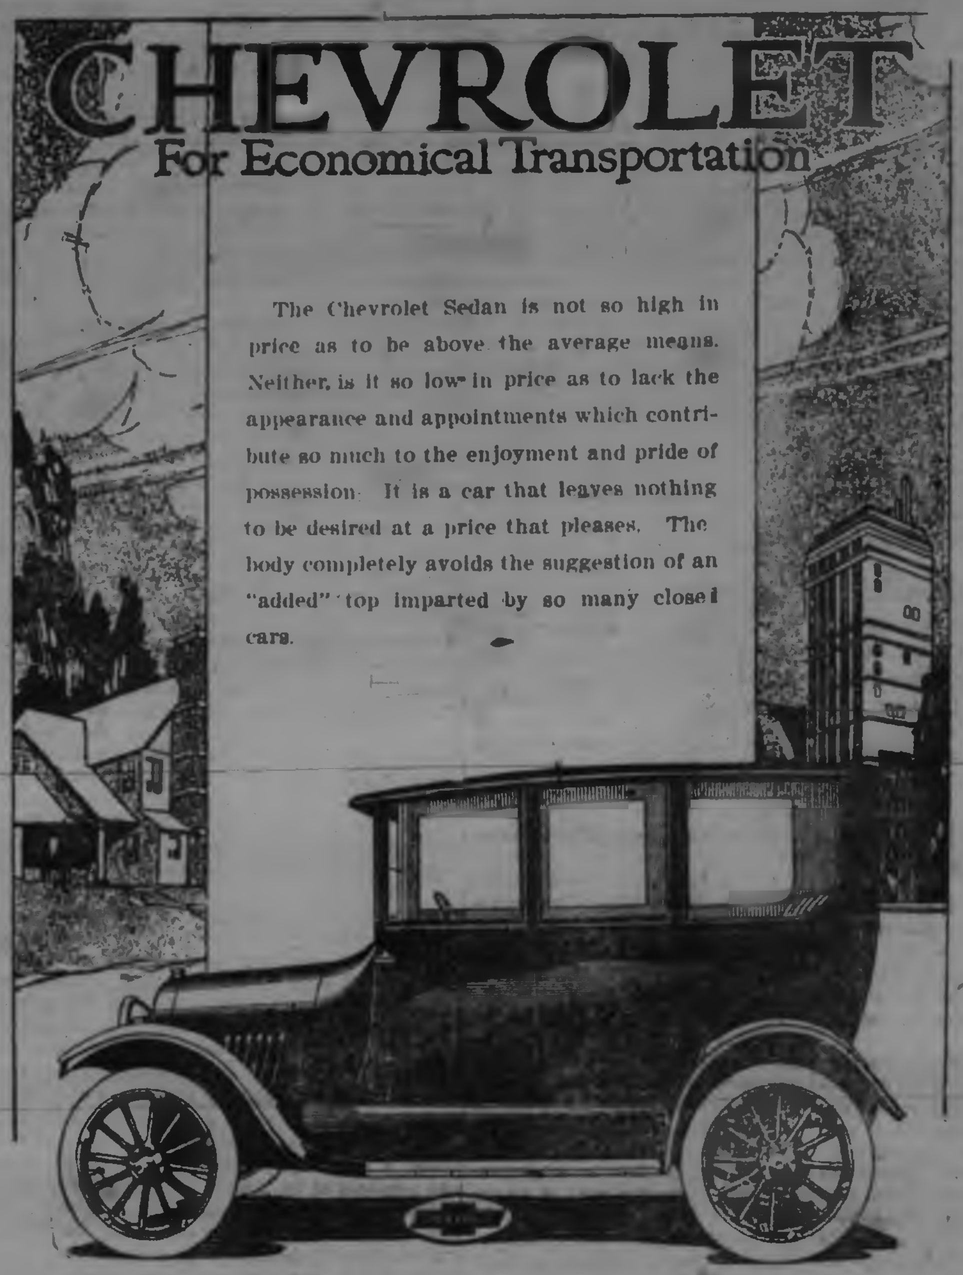
CHEVROLET

Important Annoucement To Motor Car Buyers



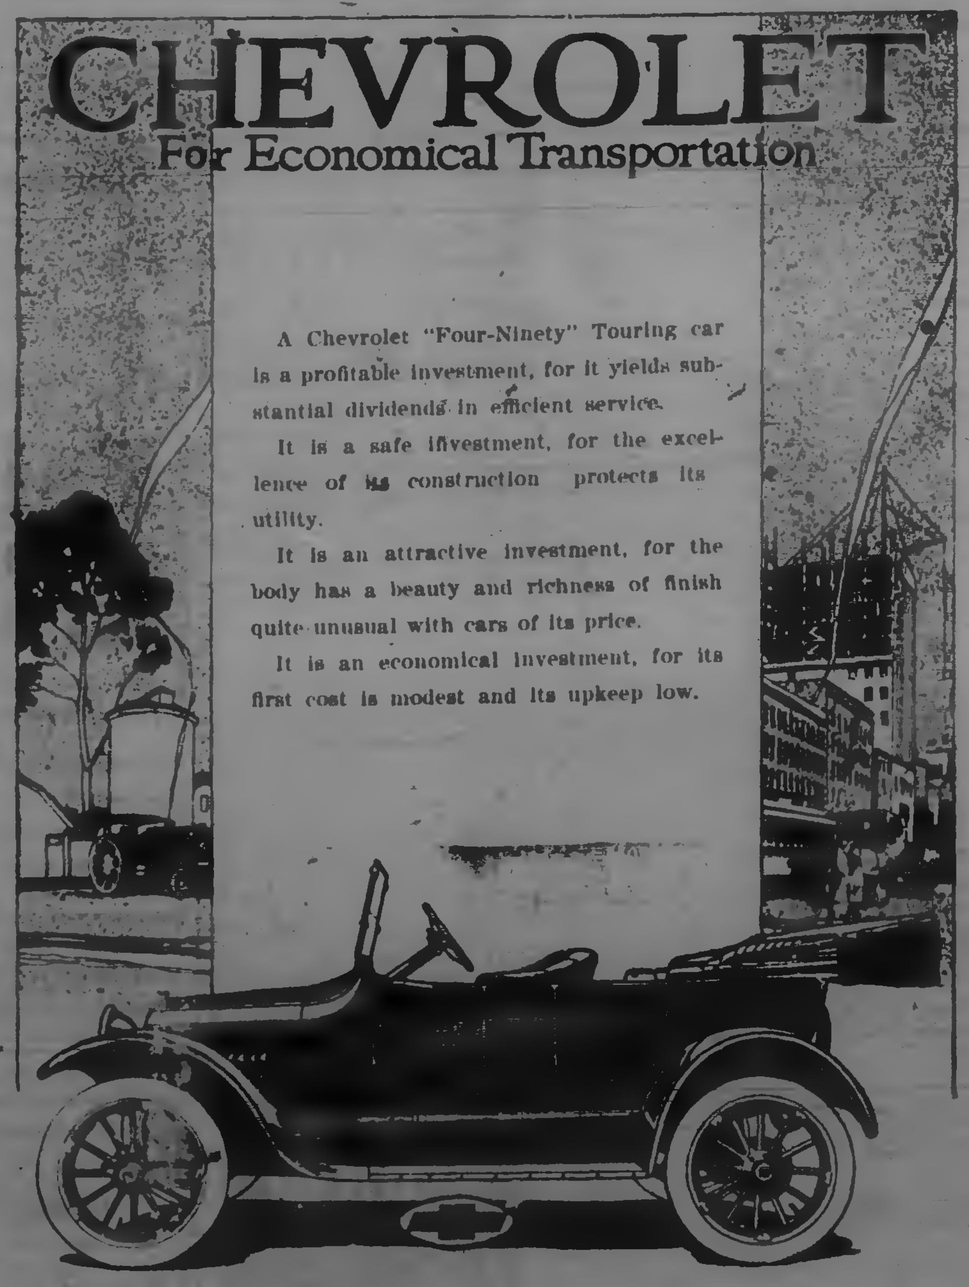
CHEVROLET
For Economical Transportation

The Chevrolet "Four-Ninety" Coupe represents more than is usual even these days in motor car efficiency. Its design lends itself to every purpose for which an automobile could possibly be used. In summer as an open roadster, in winter as a closed car, it meets the innumerable needs of the business or professional man with dependable efficiency and comfort in all seasons.



CHEVROLET
For Economical Transportation

The Chevrolet Sedan is not so high in price as to be above the average means. Neither, is it so low in price as to lack the appearance and appointments which contribute so much to the enjoyment and pride of possession. It is a car that leaves nothing to be desired at a price that pleases. The body completely avoids the suggestion of an "added" top imparted by so many closed cars.



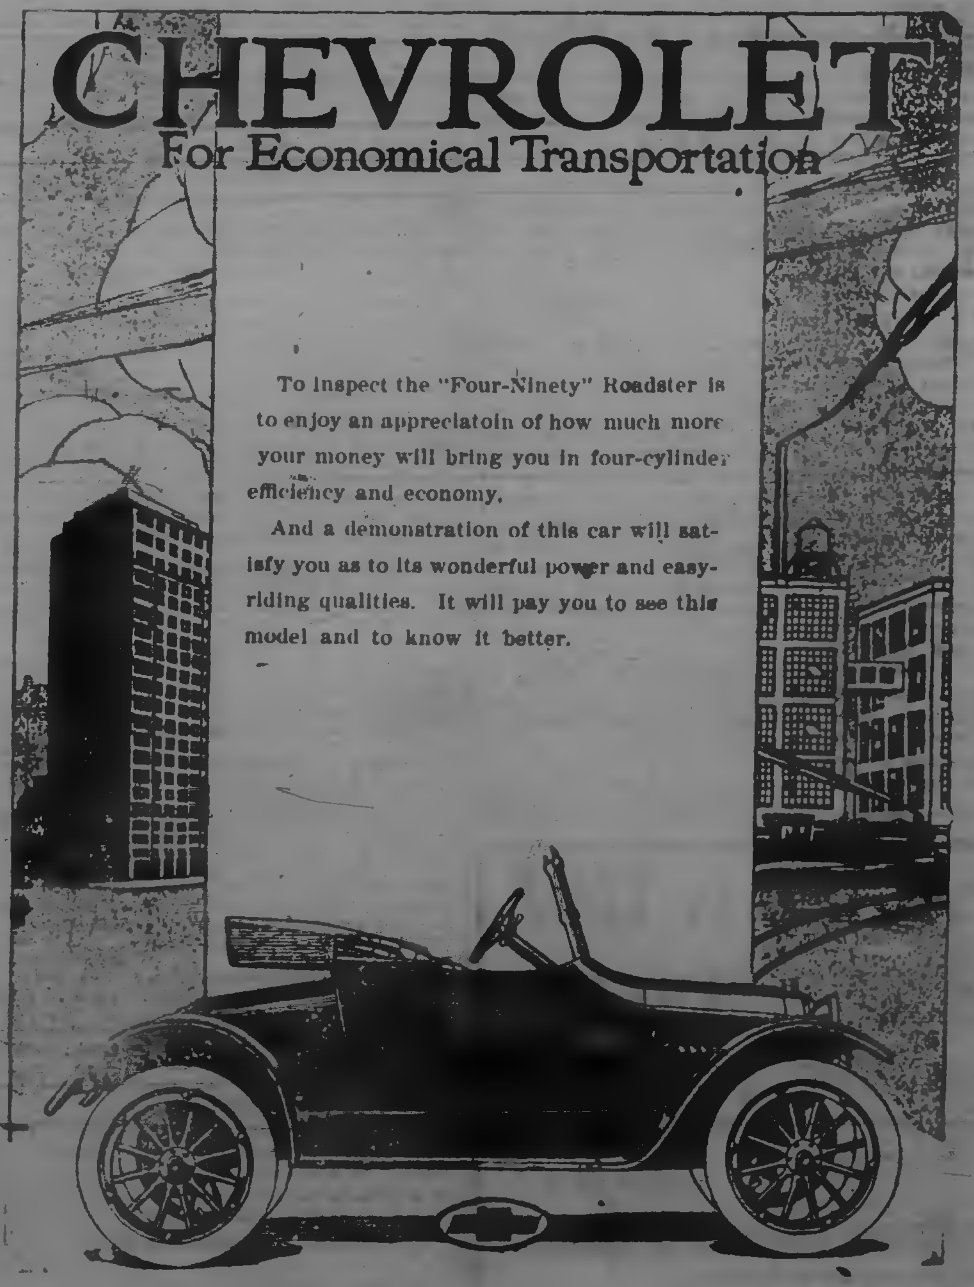
CHEVROLET
For Economical Transportation

A Chevrolet "Four-Ninety" Touring car is a profitable investment, for it yields substantial dividends in efficient service.

It is a safe investment, for the excellence of its construction protects its utility.

It is an attractive investment, for the body has a beauty and richness of finish quite unusual with cars of its price.

It is an economical investment, for its first cost is modest and its upkeep low.



CHEVROLET
For Economical Transportation

To inspect the "Four-Ninety" Roadster is to enjoy an appreciatoin of how much more your money will bring you in four-cylinder efficiency and economy.

And a demonstration of this car will satisfy you as to its wonderful power and easy-riding qualities. It will pay you to see this model and to know it better.

LESSONS IN RIGHT LIVING

By Dr. W. A. BRADY

Pernicious a[illegible] word for it. Not is it primary anaemia; it is secondary as everyday anaemia. And aplastic anaemia won't do either, because sometimes the trouble isn't failure to manufacture red corpuscles, but too rapid death and disappearance of red cells.

To those [illegible] old souls who are content to change bodies every seven years and maybe the itch or the complaint along with the body - it will come as a shock when we say that in health the spleen is constantly destroying red corpuscles, and a complete new outfit of corpuscles must be produced every thirty days regardless of the phase of the moon. And to that irrepressible reader of this column who insists upon calling herself a "young girl of 19 years of age" - no girl who reads this department ever grows old - it will be a great disappointment to know that the total amount of iron present in a girl's blood could be carried in a teaspoon.

Anaemia isn't a spontaneous state, as so many of our readers seem to think. It isn't a primary disease condition which can be intelligently or successfully treated by some set remedy or method. Anaemia, lack of blood, is a symptom which appears in the course of many widely different diseases. It is sometimes produced by excessive confinement indoors, lack of sufficient exposure of the body to direct sunlight, poisons which break down the red blood corpuscles (such as the acetanilide or aspirin habit)a hidden infections, slight, but frequently recurring bleedings which may be known to the patient or concealed, the toxaemia or poisoning of unrecognized Bright's disease, the incipiency or earliest stage of tuberculosis, and scores of other causes.

Although an arbitrary distinction between "primary" anaemia and secondary anaemia was attempted by old time physicians, such distinction is now known to be of no practical importance. If the blood is easily discovered or not.

Lack of iron is almost never a factor of anaemia, since the system contains all the available iron it can possibly require in the average diet, especially when fresh green vegetable and fruits, fresh milk and fresh milk and fresh meat are included in the diet.

Anaemia is not necessarily an alarming symptom, but it is a symptom which should inspire in the victim at least a reasonable desire to find out, if possible, what is the matter, and to have the underlying trouble properly treated before the general health is broken down.

Moles

"I have a number of moles on my body and my face. Would you tell me how they can be removed?

A.K.J."

If not large, moles may be removed by electrolysis (electric needle)in skilled hands. Large moles may be removed by plastic surgery or by carbon dioxide snow applied by a surgeon.

Loss of Second Toe

"Please tell me whether the amputation of the second toe on each foot would noticeably affect one's gait or prevent dancing. J.P. T."

No.

Excessive Perspiration

"Will you please reprint the formula you gave some time ago for overcoming excessive and odorous perspiration in the armpits?

G.S.L."

An ounce of aluminiuh chloride dissolved in three ounces of distilled water. This may be applied to the clean dry skin with a cloth or pledget of cotton ounce each alternate day for three or four times.

Fish Versus Milk

"Please tell me how much truth there is in the old saying that if you eat milk and fish at the same meal you will soon be ill."

MRS. J. W. D."

Milk and fish are not an appetizing combination of foods. Gastric juice chemically adapted (at the call of taste) to the digestion of fish is not well adapted to the digestion of milk. However, the combination is often taken by big eaters with no apparent harm. Break and milk or bread and fish make an appetizing combination.

LADIES! DARKEN YOUR GRAY HAIR

Use Grandma's Sage Tea and Sulphur Recipe and Nobody will Know

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect.

But brewing at home is mussy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair.

A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it, and draw this through your hair, taking one strand at a time. By morning the gray hair disappears and after another application or two, it becomes beautifully dark and glossy.

There are times when four aces constitute a helpful hand .

Have You 10c Eyes Or $1000 Eyes ?

Ten-cent glasses were made for ten-cent eyes. Dr. Fowler's high-grade guaranteed "PEBLO" Glasses were made for eyes that are worth $1000 a year each to you. You can get glasses for 10, 15 or 25 cents, and if your eyes are not worth any better care than that, the cheap specs will do you. With Dr. Fowler's "PEBLO" Glasses you get his expert fitting backed by fourteen years' real experience. Can you afford to let your eyes put up with anything but the best service?

MR. BURNHAM ON LABOR PROBLEM

In the House of Commons Mr. Burnham asked the following question:

I would like to ask the Acting Minister of Labor a question that does not conflict at all with what has already been said. Is the Government taking steps to restore the balance between the cost of production and the cost of consumption in Canada; or does it intend to leave that matter to be fought out by the people?

To this Mr. A. K. MacLean, the Acting Minister of Labor, said:

It is rather difficult to answer so comprehensive a question. I can only repeat what I said a few days ago, that the cost-of-living officers of the Labor Department are daily engaged in watching the particular matter to which my hon. friend refers. In the course of a few days the Labor estimates will be taken up and there will be opportunity then for discussing the matter of greater length than I can now go into it.

Again Mr. Burnham asked:

I would like to ask what is the weekly budget for the average Canadian family as found by the latest report of the Department of Labor; and what is the minimum weekly wage to correspond with that weekly minimum budget?

Again Mr. A. K. MacLean:

I could not answer my hon. friend's question. I may be able to do so.

THE WEATHER

Tuesday was a particularly hot day for so early in the season; ninety-one degrees in the shade was reached in the afternoon. Saturday's highest was 87. This was the highest figure in may. The lowest was 32 on the 6th. During May there were 15 days in which rain fell. The total was 5.23 inches. W. P.

LUDENDORFF'S EXCUSES.

The Real Author of the German Misfortunes.

Quartermaster-General Ludendorff offers four reasons for Germany's defeat. These are: "The deficient strategy of Gen. von Moltke; the defective direction of Gen. von Falkenhayn; the poor information supplied by the German Intelligence Service, and, particularly, the inability of Austria to help Germany on account of the tenacity of the Italian army."

Ludendorff's analysis is incomplete and superficial. Von Moltke originated nothing. His plan of campaign in France in 1914 was an inheritance from Count Schlieffen, his predecessor as chief of the German General Staff. Von Moltke lost the Battle of the Marne. But as a result of the Marne campaign Germany secured enormous military advantages. She came into possession of Belgium and the richest part of northern France. For four years she succeeded in shifting the fighting on the West front deep into enemy territory.

While von Falkenhayn was Chief of Staff Germany conquered Poland, Courland, Lithuania, Serbia, Montenegro and Albania. She wrecked the military power of Russia and set up German Mitteleuropa. Von Falkenhayn made a great error at Verdun, yet he left Germany in a more favorable situation than that in which he found her when he took over the High Commond.

The German Intelligence Service was poor in a certain senses. But that was only because the General Staff insisted on its furnishing information which would delude the Kaiser and the German public. If the military leaders were deceived it was only because they wanted to deceive themselves. There was no bar to an almost complete knowledge of the political and military conditions in all the enemy countries.

Austria-Hungary didn't fail Germany to any crippling extent. Least of all did she fail on the Italian front. The mountain barriers kept Italy out of Austria. After Russia's collapse Austria-Hungary could have spared many divisions for German use on the French front if Ludendorff had allowed her to remain on the defensive in Venetia.

Ludendorff evades the real question of responsibility for Germany's defeat. He came into power in the winter months of 1917, taking authority out of von Hindenburg's hands, although the latter remained titular Chief of Staff. He had to choose between developing Germany's successes in the east and turning west again, conquering France and challenging the neutrals by running amuck with the U-boats. He favored the latter policy. Thus he made German defeat inevitable. Von Moltke's and von Falkenhayn's mistakes were trivial compared with his. He was the real author of Germany's military misfortunes.

Furnish Good Example.

Be a pattern to others, and then all will go well; for as a whole city is affected by the licentious passions and vices of great men, so is it likewise reformed by their moderation.—Cicero.

Not Alarmed.

"The crows don't seem to pay any attention to that scarecrow." "No. The pesky critters think it's one o' them artists from the city drawin' pictur's."—American Boy.

Daily Thought.

A man is the whole encyclopedia of facts.—Emerson.

ASK PREMIER HEARST TO CALL A SPECIAL SESSION

Petition to That Effect to be Circulated in This Riding—Object is to Obtain an Enactment For an Eight Hour Day.

Expert witnesses who testified at the sessions of the Industrial Commission in various cities agreed on one point—a universal eight-hour day legalized by act of Parliament or Legislature—was essential to restore industrial harmony. This was the opinion of employers and Labor leaders alike.

The announcement by Hon. A. K. McLean that the Provincial Legislatures and not the Dominion Parliament had jurisdiction in Labor matters has directed the interest of the working classes from Ottawa to Toronto. The following petition has been drawn up and will be circulated for signatures among working men, merchants and other employes. The entire support of G. N. Gillespie, M.L.A., will be solicited. The petition is as follows:

'To the Honorable Sir William Hearst, Premier of Ontario:

"We, the electors of West Peterborough, regardless of class or condition, respectfully ask that you call a special session of the Legislature, as soon as legally possible, in order to enact an eight-hour day, to establish a minimum wage and to abolish child labor. In this request we are actuated solely by the conviction, that in no other way can the present industrial problem be solved."

A despatch from Toronto says:

That a special session of the Provincial Legislature could be convented within forty-eight hours if the Government felt that the urgencey of the situation arising out of the present labor unrest required it, is established by statute. There is also a precedent on record dating back to August, 1898, under the Hardy regime.

This special session of the Legislature was called immediately after a General Election had been held. There was a debatable question at issue as to the right of bailiffs to vote, it being contended that they had no such right. Within a few days a special session of the Legislature was convened to validate the right of bailiffs to exercise the franchise at the polls.

The convening of an ordinary session of the Legislature was wont to require forty days, but it is now twenty-seven or thirty. A special session, however, can be called within forty-eight hours.

Did Grafters Make Profit When St. Paul's Was Built In the Seventeenth Century

It might have been that architects of the seventeenth century had twentieth century ideas when the workmanship on St. Paul's Cathedral in London was being done. The people of Britain are beginning to believe modern contractors' methods were pursued in much of the work done on the famous edifice at the time Sir Christopher Wren worked out the plans of the structure. The investigation of those repairing the decaying portions of the church have evidence that "shoddy" material crept in and what seems to have been solid workmanship and huge stones are turning out to be mere shells with the core filled with a poor grade of cement.

Throughout the war the reconstruction of the cathedral has been going on, and as the work progresses British architects, who at first thought the gradual sinking of the structure due to the enormous weight of the dome, are beginning to shake their heads and look back through the available history to find just who was working on the edifice during the forty years Sir Christopher's eye watched its construction.

The London Times has this to say of the recent findings:

"Another discovery was the fact that a great many of the carved capitals were not the originals, but poor copies insecurely fixed with clamps, dowels and lead. In many instances so badly had they been fixed that they fell off on the slightest attempt to examine them. Although there is no evidence to prove otherwise, we may assume that they are of later date than of Wren's building. No work of such description would have passed by Wren. When the full weight of the dome came on the piers it caused serious shattering of the stone walling.

"The core of the rubble filling is not of uniform quality. A great deal of mortar was made with a lime made from burning chalk lime or shells. Considering the genius of Wren and particularly his aptitude for chemistry one is lost in wonder that he should have used such poor cement since he was always lauding the 'fine Roman manner' and meant himself 'to build for eternity.'

"That he was imposed on by some of his contractors is quite likely. We know there were eight or nine, not all of the same excellency as the Strongs.

"A still further discovery was that the piers were built on setoffs; that is, the masonry was reduced in area as the building gained height. The foundations are set on a bed of very hard clay, and consist of two layers of stone, each two feet thick."

Concern as to the durability of the cathedral has been manifested for many years. Huge fissures in the walls have been repaired often, and in 1913 the work of permanent reconstruction of the piers was begun.

Of the site of St. Paul's the history of Britain may be written from before she was known as a nation, but the present structure is only two centuries old. It took two hundred years to build the first church, which fell in ruins, and was succeeded by the present cathedral, which was put up in the record time of forty years. The last stone was laid in 1710, and the first grave sunk was that of the builder, Sir Christopher.

In the eyes of the British it is a hallowed spot. It contains the remains of great national heroes, and has served as a religious and national Mecca since its construction. Rodney, Nelson, Howe, Duncan, Gordon, Napier, Abercromby, Ponsonby, Picton and Wellington, all lie there as well as a goodly number of great scholars and painters.

LAIBACH.

Historic City Has Been a Victim of Geography.

Appointment of an inter-Allied commission to investigate recent incidents between Italians and Jugo-Slavs in Laibach calls attention to that historic city.

Beseiged at various times by Hun, Turk and Magyar, for it lies in the natural pathway of conquests, and devastated by an earthquake in 1895, Laibach has for centuries been a victime of its geographical position. Situated more than 200 miles southwest of Vienna, on the bank of the Leibach river, the city is in the midst of a valley which offered a gateway for military operations either from the Italian or Balkan peninsulas to the territory of what until recently was Western Austria-Hungary and Southern Germany.

In the early nineteenth century Laibach attained the crest of its importance as capital of Illyria, that variable region colonized by Greeks, ruled by Romans, immortalized by Shakespeare in "Twelfth Night," and restored to a political entity as the result of Napoleon's Italian operations.

Nearly a century ago, in 1821, it entertained the Congress of Laibach when the only two constitutional governments of that day, Great Britain and France, made Europe safe for embryo democracy by declining to join Prussia, Russia and Austria in helping restore King Ferdinand to his Napolitan throne from which he had been removed by a revolution.

That congress was attended by Count Nesselrode, who helped scramble Poland in three national frying pans, and had a premature vision of a league of nations, which he called a "universal union." But his name to-day is associated chiefly with a pudding, seemingly an earlier token of fame, which was supplanted by the 10-cent cigar.

In entering the new kingdom of the Serbs, Croats and Slovenes, Laibach has come into its own. The city has been the centre of the Slovenian Diet. Under Austria-Hungary Laibach found itself politically oppressed by the Magyars, from whom it had suffered physically in 900.

The Chateau of Tivoli, one of Laibach's show places, was the residence of Marshal Radetzky, military Clemenceau of Austria, who emerged from retirement when 70 years old to train an army. When he was 81 he personally manoeuvred his forces in the Italian wars through a series of masterly retreats to await reinforcements with which he launched an aggressive campaign that culminated in the celebrated victory of Novara.

Most of the city's monuments commemorate Slovenes. Memorialised in bronze are Von Valvasor, historian, Vodnik, the Slovene Chaucer, and Preseren, whose verse is considered better than that of his predecessor.

Under the dual empire Laibach had a population not larger than Augusta, Ga., and was the capital of the Duchy of Carnola. From the hill which dominates the old town on the right bank of the river the Steiner Alps are visible to the north. On this hill is the castle of former governors of the province.

Laibach's industry before the war consisted mainly of the manufacture of bricks, oil, pottery, cloths, paper and fire hose.

Stopping the Trial.

"Gentlemen," said the sheriff, putting his head into the jury room, "if there is no chance of your agreeing immediately on a verdict, the judge will step out to lunch."

"Tell his honor he may go to lunch," said the foreman.

"I was about to add," continued the sheriff, "that the circus comes into town at two o'clock, and it's twenty minutes to two now."

"H'm!" said the foreman, "tell the judge to hold on half a minute."

A Long Train Ride.

It is now possible to make a continuous railway journey from Perth, Western Australia, to Brisbane, Queensland, a distance of 3,395 miles.

HAPLESS RUSSIA.

British Chaplain Describes Orgies of the Reds.

How Odessa suffered from a systematic campaign of murder, robbery, and outrage, after the first entry of the Bolsheviki on March 13, 1918, is described by Courtier Forster, a British chaplain at Odessa, in an article published in the Daily Chronicle. He says:—

"If the brutal tyranny which the Bolsheviki compelled the terror-ridden Russian people to accept in the name of 'freedom of the mind and body' punishes all liberty of thought with torture, outrage, and death, freedom of the body is equally travestied by unthinkable cruelties, unless the term is accepted as synonymous with bestial indecency and moral depravity. Women and girls engaged in shopping commissions in the lower parts of the town were seized by bands of men from the Red Army and carried off to warehouse yards and similar places, where their fate was worse than death. Indeed, in many instances they were found dead on the following morning. Orgies which defy description were of daily occurrence.

"Wine shops and cellars were by degrees broken into and looted. Throughout the city free drinks from pails and buckets were given to all who cared for them. Women returning from market in the morning were stopped and compelled to drink from pails held on high by two soldiers. On one afternoon it was my fate to come away from a shop and find the streets running red, with hundreds of gallons of wine pouring from smashed vats of a great store. Numbers of Bolsheviki lay flat on the pavement, with faces in the gutter, drinking from the stream which flowed past, carrying with it the accumulated filth and refuse of the uncleansed city.

"This is the Bolshevist idea of freedom of the body, coupled with the right to make the public parks and gardens a scene of indescribable obscenities, and the recognition of murder and assassination as customary methods of dealing with those whose ideas of 'freedom of the body' savor of sympathy with the wornout and benighted standards of the effete of civilization of the Allies.

"The brutality of assassination increased daily. There lived, a few houses further down the street in which I had my quarters, a young wife and little son of a junior officer who was at the time in Petrograd. She went one day to draw her allowance, which amounted to only a few pounds. Small as the sum was, it aroused the cupidity of a few watchful Bolsheviki. On the following morning her apartment was found looted and she and her boy were found dead in bed, pierced through and through with thrusts from bayonets.

"In the same street, the Kanatnaya, another ghastly affair came to my notice. One morning two quietly dressed ladies were standing at a corner awaiting the coming of a tramcar. A party of Bolsheviki approached and noticed them as members of the persecuted 'bourgeois' class. Without the formality of any arrest or the mockery of a trial, both were shot dead on the pavement at the street corner.

"It is a return of this wanton brutality and reign of terror [illegible] which awaits those harassed and luckless citizens who find themselves once again in the clutches of the Red Army. Odessa has fallen, and Soviet Russia thrills with triumph at the defeat of the Allies. The effect on the armies of Denekine and Koltchak will be immediate. The anti-Bolshevist allies of the Entente will be weakened and disheartened. God help those who fall into the power of Lenine's armies! For a mortal blow has been struck at the prestige of the Entente in the home of Bolshevism."

Animals at Home In Water.

Nearly all animals are said to be better swimmers than man, and to take to the water naturally. The rhinoceros and hippopotamus are wonderful swimmers and divers, while the Indian elephant crosses great rivers with heavy loads.

The elk and the reindeer are first-class swimmers. The elk keeps his head above water and crosses directly from bank to bank to avoid turning. The reindeer, on the other hand, turns as often as he likes, keeping his head only a little above the surface. But of all swimmers of all climes the best, though not the swiftest, is the polar bear, who passes half his time in the water swimming and diving. His swimming power is nothing short of miraculous if it be remembered that the water in the regions he frequents is invariably cold, and that cold is normally prohibitive to good swimming. It is said there are bears that can swim from twenty-five to thirty miles without great effort.

One of the swiftest swimming animals is the squirrel. A sportsman on one occasion, having at hand a squirrel born in captivity, which had never seen water, wanted to see if it could swim, and took it with him in a rowboat to the centre of a lake. The squirrel turned toward the bank, head and paws above the water, back and tail underneath it, and began to swim so rapidly that it was with the greatest difficulty that the man recovered it when it reached the shallow water near the land.

Artificial Limbs.

Willow or other wood of a similar nature has heretofore been made use of in the manufacture of artificial limbs, but a cheaper and at the same time superior substitute has been found in a composition in which celluloid largely enters. The composition is made use of by spreading upon pieces of fabric, which are then wound about a mold. The new material is said to be light, easily worked and of trivial cost.

Flax.

The average Argentine linseed (or flax) area of 3,000,000 acres is approached only by that of British India. The United States follows with about 2,000,000 acres.

Work and Avoid Fretting.

Labor of any kind is healthful. You can hardly put more upon a human being than he can bear. But fretting so dissipates our energy that we have no force left for actual work. Energy, even like the Biblical grain of mustard seed will, if not dissipated by destructive emotions, remove mountains, and bring you to the very door of success.

ADVERTISING RATES.

The rate for Classified Advertisements is one cent a word per first insertion; subsequent insertions half a cent the word. Minimum number of words ten. Special terms for 5000 words or over.

Advertisements marked "till forbidden" are accepted on the understanding that they will be published until a written or verbal notice to stop them is received.

BIRTH, MARRIAGE, DEATH, MEMORIAL NOTICES AND CARDS OF THANKS, 50c per insertion in Daily and Weekly, not exceeding one inch space. All words over the inch one cent each.

CHURCH ANNOUNCEMENTS — Sunday Services' Announcement in Saturday daily (no reference to concerts allowed) $5 per year per inch. Extra space in this column for the purpose stated, 15c per inch. Regular rates apply for other than Sunday services.

IF YOU WANT TO BUY ANYthing at a bargain price, let the people know through The Review columns. You're sure to get it.

Returned Soldiers Seeking Work

Returned soldiers wanting employment either in skilled or unskilled capacity, should have the preference with employers over all ot[illegible] applicants. This is one of [illegible] many ways in which their service to the Empire can be fittingly recognized.

The Review will co-operate in this matter by inserting FREE the want advertisements of returned soldiers. Show a service button when placing copy.

The average woman finds good looks an expensive habit

THEATRICAL

A new portrait of ETHEL BARRYMORE (Mrs. Russell Griswold Colt) and her three children, Ethel Barrymore Colt, John Drew Colt and Samuel Colt. Miss Barrymore is to be seen here in H. C. Carton's delightful comedy, "The Off Chance".

MOTHERHOOD IS INSPIRATION TO ANY PROFESSIONAL CAREER

Ethel Barrymore One of Many Famous Women to Disprove Theory That Marriage is a Millstone Around the Neck of Fame

There used to be a very considerable element of the human race that thought it necessary for a woman to use the heart and the mind of a woman in order to win the wages of a man. Just why anybody should attach sex or gender to a dollar is difficult to see, but the old idea seemed to be that a woman couldn't make a living with a womanly mind; that she couldn't establish a career if she made the mistake of marrying and that the bringing up of a family was a bar to fame.

This idea has gone. Of course, it never did have any basis for existence, but since what people think might generally just as well be true, the old notion lived on and on through the years without stopping to take stock of the actual facts. Some of the greatest women in the world, women who went out and accomplished big things had in their private lives the dearest and simplest loves. They had the hearts of school girls that had no possible connection with their ental ability to coin a living.

Such women, with force to command, and the longing to be commanded on the other side of the picture, lived in the days of the grandfathers, who never dreamed of woman suffrage. But they were few. Now they are many. The war and the progress of women politically will make them more and more common.

There is no more brilliant example than Ethel Barrymore, or Mrs. Russell Griswold Colt, as she is known in private life. Ethel Barrymore on the stage works out her destiny. Mrs. Colt comes home to caress the baby and play with the other two children, and one would not care to find a more beautiful domestic picture than she presents when she is in the world that pleases her most.

Where the one world is the world of her career, the other is the world of her heart.

In her domestic life Miss Barrymore is the wife of Lieutenant Russell Griswold Colt, of the Aviation Corps, and therefore the daughter-in-law of Samuel Pomeroy Colt, of Providence, president of the United States Rubber Company. Her three delightful children are Samuel Pomeroy named for his paternal grandfather; Ethel Barrymore and the baby, John Drew.

There are three generations of distinguished stage ancestry behind these children. Mr. and Mrs. John Drew, of Philadelphia, well known to the play-goers of an earlier day, were their great grand-parents. Their maternal grandparents were Maurice Barrymore and Georgia Drew Barrymore; John Drew is their great uncle, and the popular John and Lionel Barrymore are among the children's uncles.

Miss Barrymore comes to the Grand Opera House for one performance only, Thursday evening, June 5th.

"Just For Tonight" By Tom Moore At Grand This Week

TOM MOORE AND KEITH VAUDEVILLE, MONDAY, TUESDAY AND WEDNESDAY—TWICE DAILY.

Tom Moore in "Just for Tonight" and Keith vaudeville at the Grand, twice daily, Monday, Tuesday and Wednesday.

Tom Moore's world of admirers will find him more delightfully entertaining than ever when he appears as a Goldwyn star in "Just for Tonight". Goldwyn could not have obtained a better medium for introducing the popular screen player as one of its famous group of stars.

"Just for Tonight" tells the story of a man who, in his adventure-filled quest of love, is confronted by situations that would have balked a less determined person than Theodore Whitney, Jr. (played by Tom Moore). The girl, for whom he risks all, hides her identity from him for some strange reason, and that adds to his many trials. She is the niece of Major Blackburn, whose home has been robbed of costly jewels. At the same time Whitney's father is shocked by the loss of a valuable mining stock certificate. And the same detectives are employed on both cases.

The girl has a strange affair with a mysterious man she meets at frequent intervals at night on the lawn. This leads the detectives to suspect her of the robbery, but when the Major is informed of their suspicious he orders the detectives from his house.

But both mysteries are solved when Whitney poses as Lord Roxenham at the Blackburn home. How he later recovers the missing certificate and uncovers a band of jewel robbers after being exposed as an impostor brings a thrilling climax and supplies a splendid setting for a love scene with Whitney and the girl as the principal figures.

The vaudeville program will consist of Faber & Taylor in a comedy singing and talking skit, "Going North;" Archie Nicholson Duo, comedy musical offering, and Earl Gereiller and Pal, in an unusual comedy novelty, "It's Bound to a Cur." Prices remain the same, 15c and 10c matinees; evenings, 15c and 25c.

Spend an evening in the summer house of vaudeville. Cooled by pure fragrant frozen air. The coolest spot in town.

COMMERCIAL INTEREST SHOULD NOT DECIDE THE FIUME DISPUTE

Italians Take the Ground That Right of Self-Determination is Guaranteed to All Allied Races Under Treaty of Peace.

(By the Italian-Canadian News Bureau)

Milano, June 2. Hon. Luigi Luzzatti, former Italian Premier, publishes a sensational article in the "Corriere della Sera" regretting in the name of British Italian friendship, that there be a portion, however small, of the British people who are not led by entirely altruistic reason when dealing with the Fiume issue; and he quotes the following from the "Shipbuilding Record," of May 10th, to prove his assertion

"British Steamship lines cannot overlook the Italian crisis. The problem or the Italianity of Fiume is of an international character. As a seaport of the Balkans as well as of the regions situated immediately north of it, and which are inhabited by peoples whose increase is speedier than their merchant marine, the port of Fiume offers an interesting traffic to English lines. The Cunard started, before the war, a Fiume-New York service which left grateful souvenirs and which could be the basis for larger business. But should that port become Italian this interesting preparation would be lost and the result would be altogether different. Already before the war, it was difficult to deal with the Italian authorities but now their ambition of having a national merchant marine has revived itself, foreign competitors would surely not be welcomed. Italian authorities know how to reach their objects, and it is not easy to counteract them, as archives of the Marine Bureau of the Board of Trade can show. In 1914 Italy ruled that third class passengers be treated hygenically and alimentary with better care than was used on English steamships. It is finally important to note that the port of Fiume is the outlet of regions which furnish a good amount of traffic of emigrants bound for North and South America."

Former Premier Luzzatti's article has aroused much interest in political quarters in Italy, and the Italian press now takes the position that commercial interests should not interfere with the rights of peoples to self-determination.

Want a Republic

News by wire from Zagabria, the Croation Capital, says that the farmer's party has just sent to the Italian Mission in Fiume, with a request to transmit it to the Peace Conference, a protest declaring that the Croatian farmers, organized as a party and number 29,000, whose President Radic is in jail, insist that Croatia, Dalmatia and Slavonia be united in a single republic and independent state, separated from Serbia. The party protests against the imprisonment of their leader Radic, as well as against the Peace Conference for having considered the Serbian delegates as representatives of the whole Jugo-Slavia, while Croatia at least gave them no mandate whatever. It is quite interesting the fact that the party asks that Italian delegates take care of the Croation interests before the Peace Conference and the petition closes stating that the Croation people now feel that they have not been liberated, but rather deceived, requesting an inquest by an international commission.

EVEN THE JUDGE IS NOT IMMUNE

FROM THE SPIRIT OF UNREST IF COMPENSATION IS INADEQUATE.

According to Mr. Burnham, M.P., for West Peterborough, even the judges, if they deem themselves adequately compensated are likely to join in the unrest which seizes working men under the same conditions. When the matter of increasing the salaries of the men on the county benches was up in Parliament the local member said:

It seems to me that the reason for this application for an increase in salary is sound, because recompense or pay is given for the purpose of allowing the recipient to maintain the struggle for existence. That being the case, it logically follows that when the struggle for existence becomes more intense the pay should increase, and that applies to every branch of industry, to the workingman and the professional man. If this is not done, we must have unrest, even among the judges; if the unrest becomes acute it becomes a riot; if it becomes more acute still and the struggle more intense it means a revolution. We must surely expect to observe the common logic of facts. If pay, therefore, is a reasonable recompense, the pay must be increased as the struggle for existence becomes more intense.

All To the Prussian.

"You'll have to keep your chickens out of my garden, Timkins, or there's going to be some kind of epidemic among 'em pretty darn soon!"

"Tut, tut. Can't we come to a peaceful understanding?"

"In what way?"

"You can have all the eggs they lay on your side of the fence."

Tenders Wanted

Sealed tenders marked "Tender for Fuel" and addressed to the undersigned will be received until 12 o'clock noon on Wednesday, June 4, for 600 tons (more or less) of soft coal (¾ lump Youghiogheny) and also 90 tons (more or less) of hard coal to be weighed on the market scales and delivered to the various schools as required.

G. H. THOMPSON,

Sec.-Treas. Board of Education.

PETES ROMP OFF WITH GAME PLAYED WITH THE COBOURGS

Score Was 10 to 1 When Battle Was Over—Cherrett Was Star of Home Team—June Fixtures For City League.

Ten to one was the final score in favor of Peterborough on Saturday afternoon against the visiting team from Cobourg. The local lads played good, heady ball from start to finish. Cherrett was the star fielder. In each of the seventh and eighth innings he started a double play, Cherrett to Hagerman to Long, besides picking up clean all sorts of bounders that came his way. At the bat, too, he covered himself with honor, for after bunting safely in the fifth, he landed on the sphere in the seventh for the only three base hit of the game, scoring on Heenan's single.

Higginbotham, the opposing twirler, was pratically responsible for seven out of the nine runs scored by Manager Solomon's crew during his delivery. In the third innings with two men out and two strikes on Heenan, he handed him a free ticket, and then the whole team had an extra turn, twelve batters facing him in all. In the eighth innings he received a hearty cheer from both Cobourg and Peterborough fans for his clever, long-distance running catch of Cavanagh's fly.

Cobourg went to bat first and were retired in one-two-three order, Cavanagh gathering in Butler's grounder in time to get him at first, Cherrett doing the same with H. Skitch and Turpin fanning.

The same thing happened to Peterborough in their half. Cherrett bunted but Higginbotham threw him out at first and Heenan and Hagerman both fell before the W. Skitch-Turpin combination. No score.

In the second W. Skitch went out, Cavanagh to Long. Cherrett did the same to Irwin, and Cavanagh gathered in Climo's foul fly.

Long hit safe and stole second, Cavanagh following on a pass, Keneally was out but Higginbotham made doubly sure by throwing to first and Long and Cavanagh advanced a peg. Wade flied out to Butler, and Long scored on a wild pitch. Soden was out, Butler to Turpin. Score, 1-0

In the third Laflesh flied out to Cavanagh, but the third baseman threw high to first and Connell was safe. Higginbotham's scratch hit to Cherrett forced Connell out at second, and Butler was an easy out, Soden to Long.

Frost was walked, but on attempting to steal second, Connell's throw to W. Skitch, put him out. Cherrett fanned. Heenan, with two strikes got four balls in succession. He stole second and Hagerman's hit put him third. Hagerman stole second and a base on balls to Long filled the bags. Higginbotham balked, advancing all the runners. Turpin muffed an easy foul from Cavanagh and he came back with a hit that scored two more. Kenneally's grounder passed both the pitcher and the second baseman, putting Cavanagh on third, Kenneally stole second and Wade brought them both in. Soden's fly was not caught and Wade scored. Climo muffed Frost's shot to right field and the latter was safe at first. Soden scoring. Cherrett advanced him to second and Heenan concluded the innings when he was thrown out, W. Skitch to Turpin. Score, 8-0.

In the fourth H. Skitch fanned, Turpin was thrown out at first by Frost, and W. Skitch met his fate at the same bag, Cherrett to Long.

Hagerman went out, H. Skitch to Turpin, and W. Skitch and Butler did the same to Long and Cavanagh. Score, 8-0.

In the fifth Cherrett threw Irwin out at first, Climo walked, Bouger, who replaced Laflesh, struck out and Connell forced Climo at second.

Climo got Kenneally's fly, Wade fanned, Butler fumbled Soden's roller, and the latter was safe at first. He stole second and went to third when Frost bunted and made first on a poor throw by Connell. Cherrett beat out his bunt, scoring Soden. Heenan walked and Hagerman fanned. Score, 9-0.

In the sixth Higginbotham was thrown out at first by Hagerman, Cherrett repeated on Butler. Heenan missed H. Skitch's liner after a long run and the latter made second. Turpin hit safely, scoring Skitch, and Higginbotham took his place on first. W. Skitch flied out to Heenan.

H. Skitch took the box for the visitors during the rest of the game and Higginbotham replaced Taflesh in centre field. Houger threw Long out at first, Higginbotham muffed Cavanah's fly, and Keneally was safe when Turpin muffed Bouger's throw; Wade struck out and Butler threw Soden out at first. Score, 9-1.

In the seventh Irwin went out, Cavanagh to Long, Climo hit safely, Bouger beat the throw to first and Climo advanced to third, but died there as Connell's rap to Cherrett started a double play, Cherrett to Hagerman to Long.

Frost was thrown out at first by the pitcher, but Cherrett tripled, coming home on Heenan's single, who stole second and third, then Hagerma fanned and Long flew out to Higginbotham. Score, 10-1.

In the eighth Higginbotham reached first but both he and Butler went out when the latter hit to Cherrett. Heenan ended the half innings with a fine catch of H. Skitch's fly.

Higginbotham made a sensational catch of Cavanagh's hit to centre field, Kenneally bunted and beat the throw to first, but hurt his knee stealing second, and Bergoine took his place. Wade rolled out to Turpin, and Soden was caught out by Butler. Score 10-1.

In the ninth innings Collins replaced Kenneally in centre field. Turpin fanned and Cherrett's throw to first finished W. Skitch. Irwin beat Cavanagh's throw to Long and stole second. Climo walked but Bouger fanned out. Score, 10-1.

The line-up:

Peterborough—Jake Solomon, manager; Cherrett, s. s.; Heenan, l. f.; Hagerman, 2 b.; Long, 1 b.; Cavanagh, 3 b.; Kenneally, m.; Collins, m.; S. Wade, r. f.; Soden, c.; Frost, p.; Bergoine ran for Keneally in the eighth.

Cobourg—Arthur Kimmel, manager; Butler, s. s.; H. Skitch, 3 b. p.; Turp'n, 1 b.; W. Skitch, 2 b.; Irwin, l. f.; Climo, r. f.; Taflesh, m.; Bouger, 3 b.; Connell, c.; Higginbotham, p. m.

The score by innings:

	1	2	3	4	5	6	7	8	9	T
Cobourg	0	0	0	0	0	1	0	0	0	1
Peterborough	0	1	7	0	1	0	1	0	x	10

Notes of the Game.

Alex. Kay umpired the game in his usual satisfactory manner.

The opening ceremonies came off as billed. Mayo Duncan hadn't the curve, but he had the Peterborough ball team behind him and got his man at first base.

Suggestions as to how to recover foul balls that fly over the grandstand and the fences will be very gratefully received by Mr. Solomon any time in the interval before the next Central Ontario League game is played here.

This Week's Games At Water St. Alleys

The following is this week's games at Water street alleys in the Five-pin League:

Wednesday--Shamrock vs. Mathews

Thursday—De Laval vs. Lawn Bowlers.

Friday—Turnbulls vs. Bankers.

Run by Metal Expansion.

All metals are influenced more or less by changes in temperature, expanding when the temperature rises, contracting when it falls. Zinc has an unusually high ratio of expansion and contraction. A strip of zinc 1,000 feet long will expand about one inch every five degrees the temperature rises. The expansion and contraction of metals is transformed into motive power in thermal motors.

In the thermal clock, described in Popular Science Monthly, and invented by Frederich Bangerter, a citizen of Switzerland, the expansion energy of zinc is employed for driving a clock, and at the same time the excess energy produced is stored, to make it available for continuing the movement of the clock mechanism at other times.

Strips or bars of zinc of a total length of about 1,000 feet are used in this thermal motor. The individual strips are about five feet long and are arranged to form an articulated helix. By an ingenious system of coil-levers, the effect of the expansion or contraction of the individual strips is compounded so that the total energy developed is equivalent to a force capable of lifting a load of 100 pounds two inches. This force is sufficient to run the clock and to give a margin for storing the excess energy.

German Thrift.

A British officer just returned from the newly liberated portions of France and Belgium, tell a curious tale regarding the flags with which the people celebrated their redemption, says the Edinburg Scotsman. There were flags everywhere, thousands of them—Union Jacks, Stars and Stripes, Japanese, Belgian, French and Italian. The officer, struck on the variety and number of the emblems, remarked to a native that the people seemed to have been well prepared for the victorious return of the Allies and their own soldiers, and asked where the flags had been hidden. "Hidden?" replied the Frenchman, "they were not hidden. We bought them from the Germans!" Here, indeed, was a curious manifestation of German psychology, or perhaps trading instinct. Did the Germans anticipate their own retreat, and come prepared to equip the French and Belgians with the means of celebration? It would appear that they did so, and were willing to utilise the occasion for earning an honest penny — the only honest money they had earned for many a day.

Looked Out of Place.

Mary Jane was glad when William came over to play with her, but was surprised when she saw he was all dressed up in his best clothes, and after looking him over from head to foot, she asked severely: "Why, William, for why you wear your Sunday clothes on week days?"

Social Reform is Aided By Permitting Dancing Among the Young People

DANCING is as old as humanity itself, as old as tears and laughter, the natural rhythmical expression of human emotion and of the joy of life, said the Dean of Manchester, writing recently in the London Daily Mail. Dancing is not merely a product and a feature of town life. It is remarkable that Scottish Puritanism, even in its severest days, has never suppressed dancing in the Highland glens. To-day in districts of the Highlands, where the old strict observance of the Sabbath survives, dancing is the most popular social recreation, and lads and lasses, who to the townsman might appear heavy and dull, as soon as the fiddle strikes up suffer a change and appear alert and graceful. In our great industrial towns dancing has never been more popular or more universal. It seems to provide a natural outlet from the drabness of surroundings and the monotony of modern industrial processes.

Girls especially seem to feel an absolute necessity for some outlet for their physical energy. Even after long hours in a factory, though mentally tired, they will still dance. In the absence of male-companions they dance freely and readily among themselves:

Unprofaned by grasp of man,
Maidens speed their simple orgies:
Mary Jane with Mary Ann.

Many girls "go wrong" because they are not provided with some wholesome outlet for this physical energy. They come out from the factory longing for some "fun." Someone suggests a drink, and the descent is easy.

To girls and men of the working class dancing is, as a rule, a far more solemn and stately proceeding that it is to their richer brothers and sisters. No doubt there are undesirable dancing-halls where the "bunny hug" and the "dip" are unduly prominent, but this is by no means a necessary part of the joy of dancing for them.

To the majority dancing is an art, and they have retained many of the stately measures of our forefathers, which have entirely disappeared from the modern society ballroom. Many varieties of step dancing are practiced instead of the perpetual Boston and waltz. An M. C. who takes his position very seriously rules the proceedings with a firm hand, and all obey him implicity.

If you want to see a really stately dance, go to a sergeants' ball. I have had the opportunity during the past year of witnessing a dance in a large girls' hostel in one of our munition centres to which men, mainly soldiers, were invited, and the proceedings were conducted with great dignity and decorum. In a considerable town in the Midlands, under the supervision of the rector of the parish, a weekly dance is held in the town hall. On each occasion a prominent citizen of the town and his wife act as host and hostess, receive the dancers, and preside over the proceedings.

The fact is that our young men and women do not desire bad dances if they can get good dances. A very moderate degree of reasonable and kindly supervision is all that is required.

Young men and women will dance as they have danced since the first dawn of time. Why should opportunities of reasonable social intercourse and of the natural human joy of ordered rhythmical movement to music be confined to the sons and daughters of the wealthier classes? Men and women of good will are rendering a wise and kindly service to the community when they help to provide such well-ordered dances.

Artificial Marble.

Artificial marble for fancy articles is made by soaking plaster of paris in a solution of alum, baking it in an oven, and then grinding it to a powder. In using, mix it with water, and to produce the clouds and veins stir in any dry color desired; it will become very hard, and is susceptible of a high polish.

A Crack Shot.

A man who had the reputation of being a poor shot with the rifle proudly showed some friends a target painted on his barn door, with a bullet squarely in the bullseye. This, he declared, he had shot at a distance of five hundred yards. Later one of the friends asked how he managed to fire such an excellent shot. "Well," he answered, "I shot the bullet at the door at a distance of five hundred yards and then I painted the target around it."

Wood's Phosphodine.
The Great English Remedy.
Tones and invigorates the whole nervous system, makes new Blood in old Veins. Cures Nervous Debility, Mental and Brain Worry, Despondency, Loss of Energy, Palpitation of the Heart, Failing Memory. A. J. BOLWELL, President. W. STEVENS, Secretary,
Trades and Labor Council.

TO THE LOT HOLDERS IN THE LAKEFIELD CEMETERY

For the past fifteen years the lot holders have been charged a yearly fee of $1.00 per lot or 50c per half lot or less for the caretaking of lots in the cemetery and they made a charge of $35.00 per lot and $17.50 per half lot or less for the permanent upkeep of lots in the said Cemetery.

At their annual meeting the Trustees decided to continue these rates until the fifteenth day of July next and no longer, after which date the charges for caretaking will be doubled.

Any lot holder may pay these charges to Mr W. J. Hurl, the caretaker, at the cemetery, or to Mr. J. H. Sherin, treasurer, Lakefield, or to W. Sherin, secretary for the Trustees, Lakefield, Ont.

Lakefield, May 15th, 1919.

SOCIAL AND PERSONAL

Messrs. George Green, R. B. Rogers, E. A. Beck and Rev. W. H. White, M.A., are the local delegates from St. Luke's Church to the synod of the Toronto diocese, which begins its meetings tomorrow.

Dr. G. S. Cameron, last year the president, has been elected treasurer of the Ontario Medical Association for the current year.

A. St. A. Smith, of Toronto, spent the week-end with the Misses Denne, George street, north.

Miss Rennie, of Toronto, is visiting Miss Jessie Cressman, corner Belmont and Hunter street.

Revd R. A. Whattam, pastor of Mark Street Methodist Church, Peterboro, has received an invitation to the Methodist Church at Colborne to succeed Rev. R. M. Bamforth. Mr. Whattam has accepted.—Port Hope Times.

Mr. Joseph Irwin, of the post office department, Chicago, is spending his annual vacation with his uncle, Mr M. McFadden, 482 Elm street.

Miss Froates, of Yonkers, New York, was a week-end visitor at the home of Mrs. R. E. Shera, 615 George street.

Mrs. S. Dickson Hall gave an "at-home" Saturday afternoon at her residence, 25 Dennistoun avenue, in honor of her sister, Miss Helen Rush, whose marriage takes place about the middle of the month.

OPPOSE STATE ROADS.

Quebec, June 2.—The Quebec board of trade went on record as opposing for the present any further acquiring of railways for nationalization by the Federal Government, and passed a resolution to that effect.

GOD SAVE THE KING

No School Tomorrow as Day is Statutory Holiday.

All schools will be closed tomorrow to alow the children to celebrate the King's birthday, which is a statutary holiday. The regular meeting of the School Board, which was to take place tomorrow night, is postponed for one week.

FORESTERS AT ST. LUKE'S CHURCH

REV. W. H. WHITE DELIVERS INTERESTING DISCOUSSE ON FRATERNALISM.

The Canadian Order of Foresters marched in a body to St. Luke's Church Sunday evening. Here they were addressed by the rector, Rev. W. H. White, M.A., who spoke on the various forms of fraternalism.

The first form of fraternalism is represented by the slogan, 'Every man for himself," and might be styled the umbrella fraternity.

The next was the tent fraternity, that covered a certain selected class along with the individual. It might be home-wide or even nation-wide, but it had certain definite limits.

The third form was only to be found in the Christian Church and might be represented by the blue vault of heaven that covers everything. This is the ideal form of universal brotherhood.

The rector expressed appreciation of the work of the Foresters and wished them all success in the coming year.

WOMEN VOTERS' LEAGUE TO MEET

The regular meeting of the Women Voters' League will be held Tuesday evenig at 7:45 in the art room at the Public Library (first room to the right downstairs). Mr. S. R. Armstrong, city clerk, will give an address on The Municipal Government of Peterborough.

HOTEL PALACE FOR DETROIT

BUILDING TO COST SEVEN AND FURNISHINGS ONE MILLION DOLLARS.

Detroit, Mich., June 2. — Detroit wil have a $7,000,000 one thousand-hotel of 23 or 24 stories, within the next eighteen months. Announcement of the completion of plans and the optioning of the site, fronting on Madison avenue, Witherell street and Adams avenue, was made on Saturday. The hotel will be one of the finest in the country, and of the total expenditure -1,000,000 wil be spent for furnishing alone. It will be entirely financed with Detroit capital. Construction will start within 60 days. The first three or four floors will be devoted to lobbies, ballrooms, dining - rooms, executive offices and parlors. The remaining twenty floors are to be devoted entirely to 1,000 large guest rooms, 50 to 60 per cent. of which will rent for $5 a day or more Every room will have a bath.

MOTHER OF LATE COL. JOHN McCREA

GUELPH PRESBYTERIAL W. M. S ELECT HER HONORARY PRESIDENT OF SOCIETY.

Guelph Presbyterial W. M. S. has honored Mrs. David McCrae of Guelph mother of the late Col. John McCrae, the noted Canadian soldier-poet and writer of "In Flanders Fields." At the fifth annual meeting of the society, held at Eden Mills on May 27, the members expressed their appreciation of Mrs McCrae's long and valued service to the organization by electing her Honorary President.

Mrs. McCrae is well known throughout the entire society, which reaches from Quebec to the Pacific Coast. Since the formation of the W. F. M. S. forty-three years ago she has given to it unreservedly of herself and her talents. Apart from all definite work accomplished in those years—and it has been much—there has come to all people and things which she has touched not only a strong spiritual influence, but something of illusive charm as well.

Guelph Presbyterial Society is one of the most efficient in Ontario, due in large measures to Mrs. McCrae's efforts.

Swallowed Ring In Candy Package

Montreal, June 2. — Swallowing a small metal ring in a package of candy she was eating led to the death of Norma Yvette Richard, two years old, of Visitation street, at her homes yesterday. The case was reported to the Coroner, who returned a verdict of accidental death. On Tuesday last the little girl got a package of candy and while eating it failed to notice the presence of a small metal ring, and she swallowed it. A doctor was called and after examination he sent the child's parents to consult a specialist. The treatment prescribed, however, failed and the child died. The body was sent to the morgue for the autopsy, and the medical experts found the ring in the child's stomach.

NINE HUNDRED IN CHURCH PARADE

HOLY NAME SOCIETIES MARCH IN PROCESSION TO ST. PETER'S CATHEDRAL.

The Holy Name Societies of the Peterborough diocese held their first parade yesterday afternoon at 3 p.m., when 900 men formed in procession at the corner of Simcoe and George streets, marched north to Hunter and then west to St. Peter's Cathedral. Here they listened to an inspiring sermon by Father Burke, of Toronto, who outlined briefly the history of Roman Catholic Church, dealing particularly with the changes that occurred at the time of the Reformation. He criticised very strongly the opinion prevailing in many quarters today that it makes no difference what a man believes as long as he acts right. He showed by various instances that our conduct is based directly on our beliefs and consequently the standard of the former can rise no higher than the level of our ideals.

A very impressive scene occurred when the 900 members, with uplifted right hands, took the vow to neither use improper language themselves nor to encourage others to do so. Bishop O'Brien complimented the men on the magnificent beginning that they had made. The three Catholic parishes of Peterborough were represented. Besides these were a considerable number from outside points, mainly Toronto. Marching with the procession was Rev. Father O'Brien of Sacret Heart Church and Rev. Father McAuley of the Ennismore parish

SCHOOL REPORT S.S. NO. 5 DUMMER

For the month of May
Total number of roll 19
Average attendance 17.

Jr. I.—Daphne Payne, 93; Winnifred Payne, 78; Marjory Payne 79

Jr. Pricer—Royden Gray, Gerald Payne, Allan Clysdale, Kenneth Payne.

FLORENCE B. LITTLE, Teacher

FIRE SATURDAY AFTERNOON.

Saturday afternoon at 2 o'clock the fire brigade was called to 62 Hunter street east to extinguish a fire that had broken out in some shoddy on the second floor of the building occupied by Alexander Stewart, textile manufacturer. The fire, fortunately, did not make much headway, smoldering slowly until the rarival of the firemen. The cause is difficult to state definitely, but it may have been due to the friction set up by buttons or small pieces of metal as the rags went through the picker. The damage was slight.

Getting Ready For Chautauqua Week

The local committee in charge of he arrangements and presentation of Chautauqua week in Peterborough, met one of the travelling representatives on Thursday afternoon last and were shown the programme for this season, which is pronounced to be even a beter one than last year. It comprises lectures, vocal and instrumental programmes by rare artists, a play by the same company as last year. Some of the most popular lecturers of last year will be here again, augmented by others of world-wide fame.

Several committees were drawn up and arrangements are progressing favorably. A meeting will be held on Wednesday night in the Board of Trade rooms, at 8 o'clock to go into the matter further.

There is nothing on earth that can get so badly stuck on itself as a sheet of postage stamps

SIGNET RINGS FOR VETERANS

NORWOOD JOINS IN WELCOME HOME TO TWENTY-TWO SOLDIERS.

(Special to The Review.)

Norwood, June 2. — Last Friday evening the citizens of Norwood assembled to welcome back to civilian life twenty-two returned veterans, presenting each with a signet ring. Rev Mr. Wolland delivered the address of welcome, while Mrs Squire, president of the I. O. D. E., made the presentation. The following program was rendered:

Song—Mr. J. Duffield.
Band Selection.
Address—Rev. G. Andrew.
Song—Miss Johnston.
Band Selection
Address—Rev. Mr Irwin
Song—Master E. Williams.
Band Selection.

After the entertainment refreshments were served and all went home with the memory of a very happy evening

144 WORKING HOURS A WEEK

TRENTON DOCTORS DECIDE TO FORM UNION OF THEIR OWN.

Trenton, June 2.—Trenton physicians have passed up the forty-four-working-hour week as a hopelessly unattainable ideal, so far as they are concerned. But they are forming a local co-operative union with the purpose of restricting their working week to one hundred and forty-four hours

The doctors have established this limit without consulting their employers, without threat of a general strike, and without waiting for Premier Borden to take action. They took no chances on any of these doubtful things. They entered into an arrangement whereby on each Sunday and every bank holiday during the summer months two of their number are to be left in charge and on duty, permitting the remainder to take the day off.

No one has so far challenged this manifestation of the right of collective bargaining.

THIRTY USE FOR HAND GRENADES

LEFT OVER SUPPLY TO BE USED AS PENNY BANKS

Washington, June 2. — Millions of hand grenades, manufactured for use against the German army by the Allied fighting units, will be used to encourage thrift among the school children of the United States. These hand grenades, transformed into banks to hold the pennies and dimes which the school children are saving to buy thrift stamps and war savings stamps, will be distributed by the savings division of the Treasury Department through the savings directors of the twelve federal reserve bank districts.

The hand grenades are the highest development of the modern hand-to-hand fighting weapon. When the armistice was signed the War Department had on hand fifteen million of these grenades ready to be loaded with explosives for shipment.

JUNIOR CHURCH LEAGUE GAMES

June 3—St. Paul's-St. Luke's, Knox- St. James.
June 5—Murray-Mark, Park-Trinity.
June 10—St. Luke's Murray-St. James-Park.

June 19—St Paul's-Murray, Knox Park.
June 24—Mark-St Paul's, Trinity-Knox.
June 26—George-St. Lukes, All Saints-St. James.
July 3—St Lukes-Mark St., St. James-Trinity.
July 8—Murray St.-George St., ark St.,-All Saints.
July 10—Finals between A and B.

G. W. V. A. MEETING

The regular meeting of the G. W. V. A. will be held tomorrow evening, at 8 p.m., in the new hall All members are requested to attend.

NOTICE

Important To Householders

The Peterboro Steam Laundry owned by The Parker Estate under new management are about to install a full line of new and up to date machinery and will be enabled to give very best of service and highest of work.

Watch the papers for further announcement

ALL PARENTS ARE ASKED TO ATTEND

IMPORTANT MEETING TO BE HELD THIS EVENING AT THE Y. M. C. A.

A meeting will be held in the Y. M. C. A. this evening, to discuss the advisability of forming an association to take up homes and school work during the coming year. It is hoped that parents—fathers as well as mothers—and teachers representing the different schools of the city who are interested in this work which is assuming considerable importance throughout the Province, will attend.

DR. SCOTT DISCHARGED

Son of Local Physician to Take Post Graduate Course

Dr. W. D. Scott, 413 Stewart St., has just received a cablegram from his son, Dr. Ray Scott, saying that he has just been discharged in England. He has been overseas two years and six months with the Canadian Army Medical Corps where he received a great deal of practical knowledge. Today he begins a course of post-graduate work in St George's Hospital.

ST. JOHN'S NOTICES

Monday, 7.30—Special meeting of the Girls' Auxiliary in the Guild Room to discuss important business.

Tuesday—Diocesan Synod in Toronto. The Sermon at the opening service will be preached by Canon Davidson

Thursday, 8.30—Choir Practice.

Friday, 2.00—C. W. A. Meeting.

Saturday, 9—Boys' Choir Practice.

Sunday—Whitsun-Day. Holy Communion, 8, and 11 a.m.

Lay delegates for St. John's to the Synod are Mr. Rush, Mr. Smith and Mr. Lenton. Mr. Devey will attend the Thursday session re Sunday School work.

Flowers on the Altar were in memory of Mrs Perry, Mrs. Best and Private Trevor Cuffe.

MEMORIAM

In memory of Private Trevor (Ted) Leggette Cuffe, who fell for the cause of right, at Zillebeke, June 2, 1916.

PLEASE SEND NAME

The Secretary Treasurer of the Horticultural Society on Saturday last received an anonymous letter containing $1.00 and asking for options No. 13 and 17.

Will the party please make his or her identity known to the Secretary-Treasurer as soon as possible?

A CORRECTION

Charles Horsfield is not secretary of the Machinists' Union as announced Saturday in The Review.

In the year before the war Germany sold goods valued at $835,000,000 to the British Empire. Canada's opportunity to get a large share of this is waiting for Canada's action—that is the opinion of the Canadian trade commission.
